PROXY STATEMENT

FOR

ANNUAL MEETING OF STOCKHOLDERS
OF ANIXTER INTERNATIONAL INC.

TO BE HELD MAY 23, 2002

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Anixter International Inc., a Delaware corporation (the "Company," which as used herein shall mean together with or without its subsidiaries, as the context may require). The Company's corporate headquarters are located at 4711 Golf Road, Skokie, Illinois 60076 (telephone 847-677-2600). The Proxy Statement and form of proxy were first mailed to stockholders on or about April 19, 2002. Proxies solicited by the Board of Directors of the Company are to be voted at the Annual Meeting of Stockholders of the Company to be held on Thursday, May 23, 2002, at 1:00 p.m., at One North Franklin Street, Chicago, Illinois, or any adjournment(s) thereof.

This solicitation is being made by mail, although directors, officers and regular employees of the Company may solicit proxies from stockholders personally or by telephone, telegram or letter. The costs of this solicitation will be borne by the Company. The Company may request brokerage houses, nominees or fiduciaries and other custodians to solicit their principals or customers for their proxies, and may reimburse them for their reasonable expenses in so doing. In addition, the Company has retained Morrow & Co. to assist in the solicitation for a fee of \$5,000 plus expenses.

VOTING

Shares of Common Stock, \$1.00 par value, of the Company ("Common Stock") represented by proxies in the accompanying form which are properly executed and returned to the Company (and which are not effectively revoked) will be voted at the meeting in accordance with the stockholders' instructions contained therein. In the absence of contrary instructions, shares represented by such proxies will

Edgar Filing: ANIXTER INTERNATIONAL INC - Form DEF 14A

be voted IN FAVOR OF the election as directors of the nominees listed herein, and in the discretion of the appointed proxies upon such other business as may properly be brought before the meeting.

Each stockholder has the power to revoke his or her proxy at any time before it is voted by (i) delivering to the Company prior to or at the meeting written notice of revocation or a later dated proxy or (ii) attending the meeting and voting his or her shares in person.

The Board of Directors has fixed the close of business on April 1, 2002 as the record date for the determination of stockholders entitled to notice of, and to vote at, the meeting or any adjournment(s) thereof.

As of April 1, 2002, 37,031,813 shares of Common Stock were outstanding. Each holder is entitled to one vote per share.

A majority of the outstanding shares of Common Stock will constitute a quorum for purposes of the meeting. If a quorum is present, in person or by proxy, the election of directors will be determined by a plurality of the votes. As a result, shares represented at the meeting and entitled to vote for directors, but which abstain from voting or withhold votes, will be counted toward a quorum, and will not affect the election of directors.

ELECTION OF DIRECTORS

In the absence of contrary instructions, the proxies received will be voted for the election as directors of the nominees listed below to hold office until the next annual meeting of stockholders or until their successors are elected and qualified. Although the Board of Directors does not contemplate that any nominee will decline or be unable to serve as a director, in either such event the proxies will be voted for another person selected by the Board of Directors, unless the Board acts to reduce the size of the Board of Directors in accordance with the provisions of the Company's by-laws. The current number of directors has been set by the Board at eleven.

The following table sets forth the name and age as of March 20, 2002 of each director or nominee for director of the Company, the year each director was first elected, his or her position with the Company, his or her principal occupation(s) during the last five years, any other directorships held by such person in companies which have a class of securities registered pursuant to Section 12 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or subject to the requirements of Section 15(d) of the Exchange Act or directorships of issuers registered as investment companies under the Investment Company Act of 1940, and family relationships between directors and other directors or executive officers. Above amounts are annual straight life annuity amounts (which are not reduced for social security benefits) payable upon retirement at age 65 under Anixter Inc. funded and unfunded defined benefit plans for Messrs. Grubbs, Letham, Faber and Dul, who have 24, 9, 2 and 13 years of service, respectively. The determination of remuneration is based upon payment, not accrual, and therefore the covered compensation for 2001 will be the salary shown in the summary compensation table for 2001 and the bonus shown in that table for 2000. Under the enhanced portion of the management incentive plan in effect in 1999, 2000 and 2001, the regular bonus opportunities for Messrs. Grubbs and Letham were halved; therefore, their cash bonuses for these years will be doubled in computing their covered compensation for pension purposes.

In 2000 Samuel Zell's unfunded pension benefits were cashed out for \$345,653. As a result, he will be entitled only to the annuity amounts provided by the Company's funded plan as set forth in the above table. The annual remuneration upon which this benefit is based is limited by federal tax rules to a maximum amount, which in 2001 was \$170,000. Samuel Zell has 17 years of service.

COMPENSATION OF DIRECTORS

The Company pays its non-employee directors annual retainers of \$60,000 of its stock in the form of stock units which convert to Common Stock at the pre-arranged time selected by each director and fees of \$1,750 for each board meeting attended, \$1,000 for each committee meeting attended and a \$5,000 annual retainer for committee chairpersons. Directors are reimbursed for any expenses they incur in attending meetings. The

6

Company at its discretion may purchase, for its market value, Common Stock obtained pursuant to these stock units.

EMPLOYMENT CONTRACTS AND TERMINATION OF EMPLOYMENT AND CHANGE-IN-CONTROL ARRANGEMENTS

Messrs. Grubbs and Letham are employed pursuant to contracts terminable on six months notice by either party, or earlier if there is good cause for termination as defined in the contracts. Good cause for termination by the executive includes forced relocation, significant reduction of salary, regular bonus opportunity, and other benefits, no longer holding his current position as defined in the contracts or any other significant reduction of responsibilities. Good cause for termination by the Company includes material fiduciary breaches and dishonest acts. If employment is terminated by the executive for good cause or by the Company without good cause within four years after a change of control as defined in the contracts, the executive is entitled to certain benefits. These benefits include (i) payment of a pro rata portion of his regular bonus for that year and his salary and regular bonus for the next two years, (ii) all his options to purchase stock will vest and be exercisable for the lesser of two years or their remaining life, (iii) his medical and life insurance coverage will continue during this two year period, and (iv) he will be held harmless from any golden parachute federal excise tax on these benefits. The executive is required to delay his termination for a specified period if the good cause is based on a change of position or reduction in responsibilities, but his stock

Edgar Filing: ANIXTER INTERNATIONAL INC - Form DEF 14A

options will vest at the time of the change of control if he is not continuing in his current position. If in connection with a change of control, at least 25% of the Common Stock is being exchanged for any consideration other than publicly traded common stock, the contracts provide that the executive's stock options will be exercisable to the extent necessary to enable the executive to participate in such exchange on a pro rata basis. Change of control is defined by the contracts as any third person (other than Samuel Zell and his affiliates) acquiring at least 25% of the Common Stock or substantially all the assets of the Company or the majority of the directors of the Company being comprised of individuals who were not nominated by the Board of Directors of the Company. Such a change of control will also vest the restricted shares or restricted stock units granted to Messrs. Grubbs and Letham and the other participants in the enhanced portion of the Company's management incentive plan. See "Compensation Committee Report on Executive Compensation."

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Lord James Blyth, Stuart Sloan and Robert Crandall were members of the Compensation Committee of the Board of Directors.

During the year ended December 28, 2001, no person who is or was formerly an officer or employee of the Company or any of its subsidiaries served as (i) a member of the Compensation Committee; (ii) a member of the compensation committee (or other board committee or full board performing equivalent functions) of another entity, one of whose executive officers served on the Board of Directors of the Company; or (iii) a director of another entity, one of whose executive officers served on the Board of Directors of the Company.

Notwithstanding anything to the contrary set forth in any of the Company's filings under the Securities Act of 1933, or the Exchange Act that might incorporate future filings, including this Proxy Statement, in whole or in part, the Compensation Committee Report on Executive Compensation, the Audit Committee Report and the Performance Graph presented below shall not be incorporated by reference into any such filings.

7

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The compensation policy of the Company for its executive officers (including those named in the Summary Compensation Table) has been to pay base salaries and annual bonuses within the median of the range paid by others for comparable positions and to provide long-term incentive opportunities within the high end of the range provided by others for comparable positions. From time to time, the Committee reviews studies comparing the compensation of the Company's executives with the compensation of similar executives of selected groups of companies. The companies in the comparison groups were selected because they were believed to be representative of the types of companies with which the company competes for executives. The companies in the comparison group were of all sizes and in several industries and have no correlation to the companies included in the peer group used in the "Performance Graph." Because of the great differences in size and industry between the Company and the companies in the comparison group, the determination of the Committee that the current compensation of the Company's executives is consistent with the Company's compensation policy is subjective.

The salary of Mr. Grubbs was increased 10% in 2001 to move his salary closer to his peers in other companies and to offset inflation.

Edgar Filing: ANIXTER INTERNATIONAL INC - Form DEF 14A

To provide additional incentive to meet the challenging goals set by the Company, an enhanced incentive plan for 2001 was adopted for Messrs. Grubbs and Letham and several other key employees. A target of approximately 144% of salary was established for Messrs. Grubbs and Letham. A goal for operating earnings before non-recurring items was established for 2001. Achievement of this goal would have earned 100% of target. Achievement between 90% and 110% of this goal would have earned between 50% and 150% of target. In 2001, the minimum earnings were not achieved and no awards were made under the enhanced incentive plan.

Messrs. Grubbs and Letham continued to participate in the regular portion of the management incentive plan, but their targets for this portion of the plan were set at 50% of their normal targets. Mr. Grubbs' regular incentive target opportunity for 2001 was established at 40% of his salary, with one third of this opportunity determined by the operating earnings of the Company, one third of this opportunity determined by the Company's return on tangible capital, and one third of this opportunity determined by the achievement of specified qualitative goals, with no weighting among these goals. Mr. Grubbs was awarded a regular incentive bonus for 2001 of \$156,400. This represented 68% of his regular incentive target because neither of the Company's financial goals was met and his qualitative goals in the aggregate were exceeded.

The incentive opportunities for the other executive officers who participated in the 2001 regular incentive plan were set by the Committee at the beginning of the year at 38% to 42% of salary for the highest paid of the other executive officers participating in the plan. A portion of this opportunity, ranging from 66% to 70%, was based on the financial results of the Company and the remainder was based on the achievement of specified qualitative goals. The components of the financial results were operating earnings and return on tangible capital, with the weighting dependent upon responsibilities. Incentive awards for 2001 for these executive officers were from 27% to 68% of target incentive opportunities because neither of the financial targets was met and the qualitative goals in the aggregate of each participant were exceeded or substantially met.

The guidelines used to determine option grants were first adopted in 1998. The number of shares provided by the guidelines for each executive was determined at that time by taking a percentage of the executive's then salary and dividing that amount by the then value per option. The percentages were set in the same manner as other components of compensation. These percentages were not affected by previous grants. Since that time, the Committee has granted options to purchase the same number of shares to each executive each year, making such adjustments from time to time in individual cases as the Committee believes appropriate. In 2001, the grants to Messrs. Grubbs and Letham were increased to recognize the results achieved by the Company in the previous year.

The components of executive officer compensation related to the performance of the Company are the levels of the annual incentive awards as described above and the ultimate value of long-term incentive awards as determined by the stock market.

It is the policy of the Company to structure its compensation in a manner which will avoid the limitations imposed by the Omnibus Budget Reconciliation Act of 1993 on the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code to the extent it can reasonably do so consistent with its goal of retaining and motivating its executives in a cost effective manner.

REPORT OF AUDIT COMMITTEE

Pursuant to its written charter, the Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Our responsibility is to monitor and review these processes. It is not our duty or our responsibility to conduct auditing or accounting reviews or procedures. We are not employees of the Company and we do not represent ourselves to be or to serve as accountants or auditors by profession. Therefore, we have relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America and on the representations of the independent auditors included in their report on the Company's financial statements. Our oversight does not provide us with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, our considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of our Company's financial statements has been carried out in accordance with generally accepted auditing standards or that our Company's independent accountants are in fact independent.

Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling our oversight responsibilities, we reviewed the audited financial statements in the Annual Report with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the disclosures in the financial statements.

We reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, we discussed with the independent auditors the auditors' independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board, and considered the compatibility of nonaudit services provided by the auditors to the Company with their independence.

We discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Committee meets with the internal and independent auditors, with and, as deemed advisable, without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. We held four meetings during fiscal year 2001. In addition, the Chair of the Committee on behalf of the Committee (with the opportunity to convene a meeting of the full committee if deemed advisable) reviews proposed interim financial statements with management and the independent auditors.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors (and the Board of Directors has accepted that recommendation) that the audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended December 28, 2001 for

filing with the Securities and Exchange Commission. The Committee selects the Company's independent auditors.
