**EXHIBIT A**

As previously reported, effective January 1, 2004, OCA, Inc. (the Company) adopted, as required, the provisions of Financial Accounting Standards Board Interpretation No. 46R, Consolidation of Variable Interest Entities and Interpretation of ARB No. 51 (FIN 46R). Pursuant to FIN 46R, the Company consolidates the assets, liabilities, equity and financial results of its affiliated practices, with certain exceptions, for financial reporting purposes effective January 1, 2004. This has resulted in significant changes in the Company's accounting policies and financial reporting, which are described in the Company's Quarterly Reports on Form 10-Q for the first and second quarters of 2004. Among other things, effective January 1, 2004, the Company records patient revenue under patient contracts between affiliated practices and their patients, rather than fee revenue representing the Company's service fees, and the portion of patient revenue that is retained by practitioners of affiliated practices is now reflected as an expense in the Company's consolidated statements of income (loss). The changes in accounting under FIN 46R resulted in a cumulative effect of change in accounting principle charge of \$74.7 million (net of an income tax benefit of \$41.4 million), which was recorded during the first quarter of 2004. The financial statements to be included in the Company's Quarterly Report on Form 10-Q for the quarter and nine months ended September 30, 2004 will reflect the Company's adoption of FIN 46R and associated changes in accounting effective January 1, 2004. The Company also anticipates that its results of operations for the three and nine months ended September 30, 2004 will reflect non-cash charges related to loss on sale of assets and provision to increase the allowance for assets associated with inactive practices. The Company has not yet completed its normal quarterly closing procedures and is unable to provide a reasonable estimate of these results at this time.
