ING Prime Rate Trust

PORTFOLIO MANAGERS' REPORT

PERFORMANCE OF THE TRUST

The Trust declared to common shareholders \$0.11 of dividends during the fiscal quarter ended May 31, 2003, which, based on the average month-end net asset value ("NAV") per share of \$6.81, resulted in an annualized distribution rate of 6.16%. (1) Total return (based on NAV) for the quarter was 3.96%, up from 2.63% during the previous fiscal quarter, and above the 2.28% level of the fiscal quarter ended May 31, 2002. The favorable comparison against the prior year period is significant in light of a further decline in short-term interest rates since that time.

The Trust's common shares also performed well during the quarter, as investors

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

continued to search for relatively higher yields on their income-oriented investments. Total return based on market value (assuming full dividend reinvestment) was 11.14% for the three-month period ended May 31, 2003. Since the beginning of 2003, the Trust's common shares have provided a total return of 18.37%, as compared to 10.35% for the S&P 500 Index.

Not unlike last quarter, performance during the fiscal quarter ended May 31, 2003 was driven by a broad-based technical rally in the high yield loan and bond markets, and further enhanced by favorable credit-specific developments in several of the Trust's larger holdings. Specifically, Nextel Communications (approximately 3.64% of total assets, the largest single issuer at the end of the quarter) and Charter Communications Operating, LLC (2.91%, the second largest) again posted respectable to comparably strong operating and financial results. Equally as important, both issuers took significant steps to improve their respective balance sheets and/or liquidity positions. By way of its bellwether standing, Nextel's success has also had a tangible positive effect on loan prices across the cellular communications sector, historically one of the Trust's largest. As a case-in-point, Western Wireless Corporation, the second largest wireless position in the portfolio (1.24%), was one of several issuers in the sector to take advantage of improved investor sentiment in order to access alternative capital markets and thereby reduce its secured debt level. Similarly, the strengthening of Charter's loan prices had a marked positive impact on the cable sector at large (which, at approximately 8.64% of the Trust's total assets, represented the largest sector exposure at quarter-end). Fortunately, detractors were few during the quarter; there was relatively little deterioration across the Trust's older, illiquid positions, existing non-performing loans and/or areas of difficulty over the last several quarters.

The Trust utilizes financial leverage to seek to increase the yield to the holders of common shares. As of May 31, 2003, the Trust had \$534 million of borrowings outstanding, consisting of \$450 million of "aaa/AAA" rated cumulative auction rate preferred shares, and \$84 million outstanding under \$540 million in available credit facilities. Total leverage, as a percentage of total assets (including preferred shares), was 35.9% at quarter end. The weighted average leverage cost including all borrowings and preferred shares as of quarter end was 1.13%. While the use of leverage for investment purposes increases both investment opportunity and investment risk, we continue to deploy leverage only when it is in the best interest of the Trust's common shareholders.

2

OUTLOOK

Although the bulk of the expected price appreciation appears to be behind us, our near-term outlook for the loan market in general, and the Trust specifically, remains relatively favorable. Overall credit conditions continue to consistently improve, as evidenced by another quarter-over-quarter decline in the market-wide trailing loan default rate to approximately 2.48%, after peaking at 7.4% in June of last year.⁽²⁾ Assuming even a modest economic recovery takes hold, we'd expect a coupon-like return for the balance of the year, with some upside available on those few actively traded issues still changing hands at a discount to par. Assuming also that the easing bias on the part of the Federal Reserve has run its course, our most immediate issue/challenge is to ensure access to attractive investment opportunities as the loan market enters a seasonally slow part of the year and continues to battle a persistent imbalance between supply of new loans (stubbornly low) and investor demand (very high).

We thank you for your investment in ING Prime Rate Trust.

PORTFOLIO MANAGERS' FOOTNOTES

1. The distribution rate is calculated by annualizing dividends declared during the quarter and dividing the resulting annualized dividend by the Trust's average month-end net asset value (in the case of NAV) or the average month-end NYSE Composite closing price (in the case of Market). The distribution rate is based solely on the actual dividends and distributions, which are made at the discretion of management. The distribution rate may or may not include all investment income and ordinarily will not include capital gains or losses, if any.
2. Source: As tracked by S&P Leveraged Commentary & Data Group, July 15, 2003, a leading data provider to the Loan Market.

7

ING Prime Rate Trust

 STATISTICS AND PERFORMANCE FOOTNOTES

(A) Yield is calculated by dividing the Trust's net investment income per share for the most recent thirty days by the net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of market) at quarter-end. Yield calculations do not include any commissions or sales charges, and are compounded for six months and annualized for a twelve-month period to derive the Trust's yield consistent with the SEC standardized yield formula for open-end investment companies.

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

- (B) The distribution rate is calculated by annualizing each monthly dividend, then averaging the annualized dividends declared for each month during the quarter and dividing the resulting average annualized dividend amount by the Trust's average net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of Market) at the end of the period.
- (C) Calculation of total return assumes a hypothetical initial investment at the net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of Market) on the last business day before the first day of the stated period, with all dividends and distributions reinvested at the actual reinvestment price.
- (D) On December 27, 1994, the Trust issued to its shareholders transferable rights which entitled the holders to subscribe for 17,958,766 shares of the Trust's common stock at the rate of one share of common stock for each four rights held. On January 27, 1995, the offering expired and was fully subscribed. The Trust issued 17,958,766 shares of its common stock to exercising rights holders at a subscription price of \$8.12. Offering costs of \$4,470,955 were charged against the offering proceeds.
- (E) On October 18, 1996, the Trust issued to its shareholders non-transferable rights which entitled the holders to subscribe for 18,122,963 shares of the Trust's common stock at the rate of one share of common stock for each five rights held. On November 12, 1996, the offering expired and was fully subscribed. The Trust issued 18,122,963 shares of its common stock to exercising rights holders at a subscription price of \$9.09. Offering costs of \$6,972,203 were charged against the offering proceeds.
- (F) Inception Date -- May 12, 1988.
- (G) Initial Trading on NYSE -- March 9, 1992.
- (H) Reflects partial waiver of fees.

ING Prime Rate Trust

ADDITIONAL NOTES AND INFORMATION

SHAREHOLDER INVESTMENT PROGRAM

The Trust offers a Shareholder Investment Program (the "Program," formerly known as the Dividend Reinvestment and Cash Purchase Plan) which allows holders of the Trust's common shares a simple way to reinvest dividends and capital gains distributions, if any, in additional common shares of the Trust. The Program also offers holders of the Trust's common shares the ability to make optional cash investments in any amount from \$100 to \$5,000 on a monthly basis. Amounts in excess of \$5,000 require prior approval of the Trust. DST Systems, Inc., the Trust's Transfer Agent, is the administrator for the Program.

For dividend reinvestment purposes, DST Systems, Inc. will purchase shares of the Trust on the open market when the market price plus estimated commissions is less than the net asset value on the valuation date. The Trust may issue new shares when the market price plus estimated commissions is equal to or exceeds the net asset value on the valuation date. New shares may be issued at the greater of (i) net asset value or (ii) the market price of the shares during the pricing period, minus a discount of 5%.

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

For optional cash investments, shares will be purchased on the open market by the DST Systems, Inc. when the market price plus estimated commissions is less than the net asset value on the valuation date. New shares may be issued by the Trust when the market price plus estimated commissions is equal to or exceeds the net asset value on the valuation date.

There is no charge to participate in the Program. Participants may elect to discontinue participation in the Program at any time. Participants will share, on a pro-rata basis, in the fees or expenses of any shares acquired in the open market.

Participation in the Program is not automatic. If you would like to receive more information about the Program or if you desire to participate, please contact your broker or our Shareholder Services Department at (800) 992-0180.

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

-
- (1) Total investment return calculations are attributable to common shareholders.
 - (2) Total investment return measures the change in the market value of your investment assuming reinvestment of dividends and capital gain distributions, if any, in accordance with the provisions of the dividend reinvestment plan.
 - (3) Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of each period and a sale at net asset value at the end of each period and assumes reinvestment of dividends and capital gain distributions in accordance with the provisions of the dividend reinvestment plan. This calculation differs from total investment return because it excludes the effects of changes in the market values of the Trust's shares.
 - (4) The Investment Manager agreed to reduce its fee for a period of three years from the Expiration Date of the November 12, 1996 Rights Offering to 0.60% of the average daily net assets, plus the proceeds of any outstanding borrowings, over \$1.15 billion.
 - (5) Calculated on total expenses before impact on earnings credits.
 - (6) Asset coverage represents the total assets available for settlement of Preferred Stockholder's interest and notes payables in relation to the Preferred Shareholder interest and notes payable balance outstanding. The Preferred Shares were first offered November 2, 2000.
 - (7) Ratios do not reflect the effect of dividend payments to Preferred Shareholders; income ratios reflect income earned on assets attributable to preferred shares.

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of May 31, 2003 (Unaudited)

NOTE 1 -- SIGNIFICANT ACCOUNTING POLICIES

ING Prime Rate Trust (the "Trust"), is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a diversified, closed-end, investment management company. The Trust invests in senior loans which are exempt from registration under the Securities Act of 1933 as amended (the "33 Act"), but contain certain restrictions on resale and cannot be sold publicly. These loans bear interest (unless otherwise noted) at rates that float periodically at a margin above the Prime Rate of a U.S. bank specified in the credit agreement, the London Inter-Bank Offered Rate ("LIBOR"), the certificate of deposit rate, or in some cases another base lending rate. The following is a summary of the significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

- A. SENIOR LOAN AND OTHER SECURITY VALUATION. Loans are normally valued at the mean of the means of one or more bid and asked quotations obtained from a pricing service or other sources determined by the Board of Trustees to be independent and believed to be reliable. Loans for which reliable quotations are not available may be valued with reference to another loan or a group of loans for which quotations are more readily available and whose characteristics are comparable to the loan being valued. Under this

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

approach, the comparable loan or loans serve as a proxy for changes in value. The Trust has engaged an independent pricing service to provide quotations from dealers in loans and to calculate values under the proxy procedure described above. As of May 31, 2003, 92.21% of total investments were valued based on these procedures. It is expected that most of the loans held by the Trust will be valued with reference to quotations from the independent pricing service or with reference to the proxy procedure described above.

Prices from a pricing source may not be available for all loans and ING Investments, LLC (the "Investment Manager") may believe that the price for a loan derived from market quotations or the proxy procedure described above is not reliable or accurate. Among other reasons, this may be the result of information about a particular loan or borrower known to the Investment Manager that the Investment Manager believes may not be known to the pricing service or reflected in a price quote. In this event, the loan is valued at fair value as determined in good faith under procedures established by the Trust's Board of Trustees and in accordance with the provisions of the 1940 Act. Under these procedures, fair value is determined by the Investment Manager and monitored by the Trust's Board of Trustees through its Valuation Committee. In fair valuing a loan, consideration is given to several factors, which may include, among others, the following: (i) the characteristics of and fundamental analytical data relating to the loan, including the cost, size, current interest rate, period until the next interest rate reset, maturity and base lending rate of the loan, the terms and conditions of the loan and any related agreements, and the position of the loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral, including the Trust's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the borrower and the cash flow coverage of outstanding principal and interest, based on an evaluation of its financial condition, financial statements and information about the borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the loan, including price quotations for, and trading in, the loan and interests in similar loans; (v) the reputation and financial condition of the agent for the loan and any intermediate participants in the loan; (vi) the borrower's management; and (vii) the general economic and market conditions affecting the fair value of the loan. Securities for which the primary market is a national securities exchange or the NASDAQ National Market System are stated at the last reported sale price on the day of valuation. Debt and equity securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the mean between the last reported bid and asked price. Securities other than senior loans for which reliable quotations are not readily available and all other assets will be valued at their respective fair

16

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of May 31, 2003 (Unaudited) (Continued)

values as determined in good faith by, or under procedures established by, the Board of Trustees of the Trust. Investments in securities maturing in less than 60 days from the date of acquisition are valued at amortized cost, which, when combined with accrued interest, approximates market value.

B. FEDERAL INCOME TAXES. It is the Trust's policy to comply with the

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

requirements of the Internal Revenue Code applicable to "regulated investment companies" and to distribute all of its taxable income to its shareholders. Therefore, no provision for Federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income and net realized capital gains (if any), the Trust intends not to be subject to any federal excise tax.

- C. SECURITY TRANSACTIONS AND REVENUE RECOGNITION. Loans are booked on a settlement date basis and security transactions are accounted for on trade date (date the order to buy or sell is executed). Realized gains or losses are reported on the basis of identified cost of securities delivered. Dividend income is recognized on the ex-dividend date. Interest income is recorded on an accrual basis at the then-current interest rate of the loan. The accrual of interest on loans is discontinued when, in the opinion of management, there is an indication that the borrower may be unable to meet payments as they become due. Upon such discontinuance, all unpaid accrued interest is reversed. Cash collections on nonaccrual senior loans are generally applied as a reduction to the recorded investment of the loan. Senior loans are returned to accrual status only after all past due amounts have been received. For all loans acquired prior to March 1, 2001, fees, which represent non-refundable fees associated with the acquisition of loans, are deferred and recognized over the shorter of 2.5 years or the actual terms of the loan. For all loans, except revolving credit facilities, acquired subsequent to February 28, 2001, fees are treated as discounts and accreted as described in Note 1.H. Fees associated with revolving credit facilities acquired subsequent to February 28, 2001 are deferred and recognized over the shorter of 4 years or the actual term of the loan.
- D. DISTRIBUTIONS TO COMMON SHAREHOLDERS. The Trust records distributions to its shareholders on the ex-dividend date. Distributions from income are declared by the Trust on a monthly basis. Distributions from capital gains, if any, are declared on an annual basis.
- E. DIVIDEND REINVESTMENTS. Pursuant to the Shareholder Investment Program (formerly known as the Automatic Dividend Reinvestment Plan), DST Systems, Inc., the Plan Agent, purchases, from time to time, shares of beneficial interest of the Trust on the open market to satisfy dividend reinvestments. Such shares are purchased only when the closing sale or bid price plus commission is less than the net asset value per share of the stock on the valuation date. If the market price plus commissions is equal to or exceeds the net asset value, new shares are issued at the greater of (i) net asset value or (ii) the market price of the shares during the pricing period, minus a discount of 5%.
- F. USE OF ESTIMATES. Management of the Trust has made certain estimates and assumptions relating to the reporting of assets, liabilities, revenues, expenses and contingencies to prepare these financial statements in conformity with generally accepted accounting principles in the United States of America. Actual results could differ from these estimates.
- G. SHARE OFFERINGS. During the year ended February 28, 1999, the Trust began issuing shares under various shelf registration statements, whereby the net proceeds received by the Trust from share sales may not be less than the greater of (i) the NAV per share or (ii) 94% of the average daily market price over the relevant pricing period.

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

NOTES TO FINANCIAL STATEMENTS as of May 31, 2003 (Unaudited) (Continued)

- H. CHANGE IN ACCOUNTING PRINCIPLE. In November 2000 the American Institute of Certified Public Accountants (the "AICPA") issued a revised version of the AICPA Audit and Accounting Guide for Investment Companies (the "Guide"). Effective March 1, 2001, the Fund adopted the provisions of the Guide and began amortizing premiums and accreting discounts on debt securities. Prior to March 1, 2001, the Trust had not amortized premiums nor accreted discounts. The cumulative effect of this accounting change had no impact on net assets of the Trust, but resulted in a \$3,653,000 increase in the cost of securities and a corresponding \$3,653,000 increase in net unrealized depreciation of investments, based on securities held by the Trust on March 1, 2001.

NOTE 2 -- INVESTMENTS

For the three months ended May 31, 2003, the cost of purchases and the proceeds from principal repayment and sales of investments, excluding short-term notes, totaled \$230,834,763 and \$313,525,585, respectively. At May 31, 2003, the Trust held senior loans valued at \$1,416,046,783 representing 96.0% of its total investments. The market value of these assets is established as set forth in Note 1.

The senior loans acquired by the Trust may take the form of a direct lending relationship with the borrower, an assignment of a lender's interest in a loan, or a participation interest in a lender's interest in a loan. The lead lender in a typical corporate loan syndicate administers the loan and monitors collateral. In the event that the lead lender becomes insolvent, enters FDIC receivership or, if not FDIC insured, enters into bankruptcy, the Trust may incur certain costs and delays in realizing payment, or may suffer a loss of principal and/or interest. Additionally, certain situations may arise where the Trust acquires a participation in a lender's interest in a loan and the Trust does not have privity with or direct recourse against the borrower. Accordingly, the Trust may incur additional credit risk as a participant because it must assume the risk of insolvency or bankruptcy of the lender from which the participation was acquired.

Common and preferred shares, and stock purchase warrants held in the portfolio were acquired in conjunction with senior loans held by the Trust. Certain of these stocks and warrants are restricted and may not be publicly sold without registration under the '33 Act, or without an exemption under the '33 Act. In some cases, these restrictions expire after a designated period of time after issuance of the shares or warrant.

18

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of May 31, 2003 (Unaudited) (Continued)

The Fund values portfolio securities by using the market value of the securities when market quotations for the securities are readily available. When market quotations are not readily available, the Fund determines, in good faith, the fair value of the securities in accordance with the Trust's fair valuation procedures as established by the Board of Trustees. Dates of acquisition and cost or assigned basis of restricted securities are as follows:

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

NOTES TO FINANCIAL STATEMENTS as of May 31, 2003 (Unaudited) (Continued)

NOTE 3 -- MANAGEMENT AND ADMINISTRATION AGREEMENTS

The Trust has entered into an Investment Management Agreement with the Investment Manager, a wholly-owned subsidiary of ING Funds Services, LLC (the "Administrator"), to provide advisory and management services. The Investment Management Agreement compensates the Investment Manager with a fee, computed daily and payable monthly, at an annual rate of 0.80% of the Trust's average daily net assets (inclusive of preferred stock) plus borrowings ("Managed Assets").

The Trust has also entered into an Administration Agreement with the Administrator to provide administrative services and also to furnish facilities. The Administrator is compensated with a fee, computed daily and payable monthly, at an annual rate of 0.25% of the Trust's average daily Managed Assets.

At May 31, 2003, the Trust had the following amounts recorded in payable to affiliates on the accompanying Statement of Assets and Liabilities:

ACCRUED INVESTMENT MANAGEMENT FEES	ACCRUED ADMINISTRATIVE FEES	TOTAL
\$ 1,019,602	\$318,574	\$1,338,176

The Trust has adopted a Retirement Policy covering all independent trustees of the Trust who will have served as a independent trustee for at least five years at the time of retirement. Benefits under this plan are based on an annual rate as defined in the plan agreement, as amended May 24, 2002.

NOTE 4 -- COMMITMENTS

The Trust has entered into both a \$90 million 364-day revolving credit agreement which matures on August 27, 2003 and a \$450 million five-year revolving credit agreement which matures on July 15, 2003, collateralized by assets of the Trust. Borrowing rates under these agreements are based on a fixed spread over LIBOR, the federal funds rate, or a commercial paper-based rate. Prepaid arrangement fees for any unborrowed amounts are amortized over the term of the agreements. The amount of borrowings outstanding at May 31, 2003, was \$84 million, at a weighted average interest rate of 1.7%. The amount of borrowings represented 5.7% of total assets at May 31, 2003. Average borrowings for the period ended May 31, 2003 were \$147,847,826 and the average annualized interest rate was 2.0%.

As of May 31, 2003, the Trust had unfunded loan commitments pursuant to the terms of the following loan agreements:

Airgate PCS, Inc.	\$ 644,951
Aurora Foods, Inc.	404,571

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of May 31, 2003 (Unaudited) (Continued)

NOTE 5 -- RIGHTS AND OTHER OFFERINGS

As of May 31,, 2003, share offerings pursuant to shelf registrations were as follows:

REGISTRATION DATE ----	SHARES REGISTERED -----	SHARES REMAINING -----
6/11/98	15,000,000	--
6/19/98	10,000,000	9,730,800
9/15/98	25,000,000	19,170,354
3/04/99	5,000,000	3,241,645

On November 2, 2000, the Trust issued 3,600 shares each of Series M, Series W and Series F Auction Rate Cumulative Preferred Shares, \$.01 Par Value, \$25,000 liquidation preference, for a total issuance of \$270 million. Also, on November 16, 2000, the Trust issued 3,600 shares of Series T and Series Th Auction Rate Cumulative Preferred Shares, \$.01 Par Value, \$25,000, liquidation preference, for a total issuance of \$180 million. Costs associated with the offering of approximately \$5,438,664 were charged against the proceeds received. The Trust used the net proceeds of the offering to partially pay down the then existing indebtedness. The Trust may reborrow amounts in the future to increase its use of leverage which will be consistent with the limitations imposed by the 1940 Act. Preferred Shares pay dividends based on a rate set at auctions, normally held every 7 days. In most instances dividends are also payable every 7 days, on the first business day following the end of the rate period.

NOTE 6 -- CUSTODIAL AGREEMENT

State Street Bank and Trust Company ("SSB") serves as the Trust's custodian and recordkeeper. Custody fees paid to SSB are reduced by earnings credits based on the cash balances held by SSB for the Trust. There were no earnings credits for the period ended May 31, 2003.

NOTE 7 -- SUBORDINATED LOANS AND UNSECURED LOANS

The primary risk arising from investing in subordinated loans or in unsecured loans is the potential loss in the event of default by the issuer of the loans. The Trust may acquire a subordinated loan only if, at the time of acquisition, it acquires or holds a Senior Loan from the same borrower. The Trust will acquire unsecured loans only where the Investment Manager believes, at the time

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

of acquisition, that the Trust would have the right to payment upon default that is not subordinate to any other creditor. The Trust may invest up to 5% of its total assets, measured at the time of investment, in subordinated loans and unsecured loans. As of May 31, 2003, the Trust held 3.8% of its total assets in subordinated loans and unsecured loans.

NOTE 8 -- SUBSEQUENT EVENTS

Subsequent to May 31, 2003, the Trust paid to Common Shareholders the following dividends from net investment income:

PER SHARE AMOUNT	DECLARATION DATE	RECORD DATE	PAYABLE DATE
-----	-----	-----	-----
\$0.0345	6/30/03	7/10/03	7/22/03

Subsequent to May 31, 2003, the Trust paid to Preferred Shareholders the following dividends from net investment income:

PREFERRED SHARES	TOTAL PER SHARE AMOUNT	AUCTION DATES	RECORD DATES	PAYABLE DATES
-----	-----	-----	-----	-----
Series M	\$ 34.57	06/02/03 to 07/07/03	06/09/03 to 07/14/03	06/10/03 to 07/15/03
