Mailing Date: March 19, 2004

We are mailing this proxy statement along with the notice of annual meeting of shareholders of The Standard Register Company, to all holders of our stock as of February 23, 2004, which is the record date for the annual meeting. We had outstanding, on the record date, 23,773,174 shares of common stock (each share having one vote) and 4,725,000 shares of class A stock (each share having five votes). Shareholders as of the close of business on the record date are entitled to receive notice of and to vote at the annual meeting. The annual meeting will be held at our corporate headquarters, 600 Albany Street, Dayton, Ohio 45408, on Thursday, April 22, 2004, at 11:00 a.m. The proxies are solicited on behalf of our board of directors.

At the annual meeting, the shareholders will: (1) set the number of directors at eight and elect a board of directors; (2) ratify the selection of Battelle & Battelle LLP, to be the Company's independent auditors for fiscal year 2004; and (3) transact such other business as may properly come before the annual meeting.

VOTING YOUR SHARES

Standard Register offers electronic delivery of proxy materials and voting over the Internet to most shareholders. The enclosed proxy card describes how you may vote electronically, and register to receive future shareholder communications electronically. You may also vote by completing the proxy card and mailing it in the envelope provided.

All shareholder votes, properly cast in person or by proxy, and not revoked, will be counted in voting on the proposals at the annual meeting or any adjournment of the annual meeting. Your proxy will be voted in accordance with your instructions. If you do not specify how you wish your shares to be voted, they will be voted as recommended by the board of directors. Your proxy includes the authority to vote shares cumulatively for the election of directors. Cumulative voting is explained in the section dealing with Proposal 1. Your proxy also includes the authority for the persons serving as proxies to use their best judgment to vote on any other matters that may be properly presented at the annual meeting, including, among other things, a motion to adjourn the meeting to a future time.

You may revoke your proxy at any time before its exercise, in two ways: (1) by timely delivery to us of a later-dated proxy, or (2) by notifying us of your revocation of proxy either in writing or in person at the annual meeting. Your presence at the meeting will not, by itself, serve to revoke your proxy.

Table of Contents**PROPOSALS****PROPOSAL 1: Election of Directors**

The board of directors is currently set at eight, and the board recommends maintaining that number of directors.

The eight persons named in this section are nominated by the board of directors to be elected as directors and to serve until either the next annual election or until their successors are elected and qualified.

The board of directors does not expect that any of the nominees will be unavailable for election. However, if any of them is unavailable, the persons voting your proxy will use their best judgment to vote for substitute nominees.

Cumulative voting is permitted by the laws of Ohio in voting for the election of directors. In the event a shareholder wishes to vote his or her shares cumulatively, the shareholder must give notice in writing to the President, a Vice President or Secretary of Standard Register not less than 48 hours before the time scheduled for the annual meeting. Once any shareholder has given notice of intent to vote cumulatively, then all shareholders present at the annual meeting and the persons voting the proxies shall have full discretion and authority to cumulate the voting power they possess. This means they can give one candidate as many votes as the number of directors to be elected multiplied by the number of votes which the shareholder or proxy is entitled to cast, or to distribute such votes on the same principle among two or more candidates, as they determine in their judgment.

Nominees receiving the highest number of votes cast for the positions to be filled will be elected. Abstentions and shares not voted by brokers and other entities holding shares on behalf of beneficial owners will not be counted and will have no effect on the outcome of the election.

The board of directors recommends that you vote FOR setting the number of directors at eight and FOR each of the following named nominees to serve as directors of Standard Register:

The original formula is used in connection with the traditional retirement plan benefit formula, described in the section Retirement Plans. Messrs. Dorsman and Brown are covered by the original formula. Messrs. Rediker, Romans, and Morgan are covered by the second formula, used in connection with the pension equity plan retirement benefit formula applicable to all employees joining the Company after January 1, 2000. Retirement Plans

The Stanreco Retirement Plan is our qualified retirement plan. Prior to January 1, 2000, this Plan was funded in part by contributions from participants. After January 1, 2000, the Plan is funded entirely by Company contributions and investments earnings.

Plan benefits are determined according to the traditional formula effective for plan participants hired before January 1, 2000, or the pension equity plan formula (PEP) which became effective January 1, 2000, covering employees hired after January 1, 2000, and employees hired before that date who elected to be covered under the PEP formula.

We have a Non-Qualified Retirement Plan which supplements the Stanreco Retirement Plan. It provides retirement benefits that would have been payable from the Stanreco Retirement Plan but for the limits imposed by the Tax Reform Act of 1986. We also have an Officers Supplemental Non-Qualified Plan which pays retirement benefits in addition to the Stanreco Retirement Plan and Non-Qualified Retirement Plan based on the number of years of credited service as an officer in excess of five years. Standard Register does not currently fund or contribute to either the Non-Qualified Retirement Plan or the Officers Supplemental Non-Qualified Plan, but does accrue for projected benefit expense annually for both plans, and pays benefits from general corporate assets.

Retirement Plan Tables 1(A), 1(B) and 2

Table 1 shows the estimated annual retirement benefits payable from the Stanreco Retirement Plan and the Non-Qualified Retirement Plan to our employees for specified compensation levels and years of service. Table 1(A) shows the estimated benefits under the traditional formula, and Table 1(B) shows the estimated benefits under the PEP formula. Messrs. Brown s and Dorsman s benefits will be calculated under Table 1(A), and Messrs. Rediker s, Morgan s and Romans s benefits will be calculated under Table 1(B). Part of the estimated annual benefits on Table 1(A) include the return of and earnings on contributions made by employees during the time the Plan required

employee contributions. Table 2 shows the estimated annual retirement benefits payable from the Officers' Supplemental Non-Qualified Plan to officers based on compensation and years of officer service (in excess of five years). An officer's annual retirement benefit will be (i) the sum of the benefits from Tables 1(A) or 1(B), and Table 2, or (ii) 50% of the average of the highest five years of compensation, whichever is less.

Estimated annual benefits are based upon the assumption that the employee remains in the service of Standard Register until age 62. At age 62, the employee qualifies for the maximum retirement percentage benefit. Retirement before age 62 will result in actuarially reduced benefits. The estimated annual benefits are taxable income but are not subject to any deduction for social security benefits. No additional benefit can be earned from the Officers Supplemental Non-Qualified Plan after the sixteenth year of officer service.

The table below shows the average of the highest five years of total compensation and the years of service and officer service earned to date for each executive officer listed in the Summary Compensation Table.

(1) Mr. Morgan's service as President and CEO of the Company's wholly owned subsidiary, SMARTworks, LLC, is counted for purposes of the retirement plans.

Mr. Rediker's Employment Contract

The Company has an employment contract with Mr. Rediker which supplements his benefits under the plans described above, in order to ensure that Mr. Rediker receives annual retirement benefits equal to a percentage of the average of base salary paid to him in his final three years of employment. The percentage specified in the contract ranges from 35% of average base salary, to a maximum of 50% of average base salary depending on length of service. Mr. Rediker has served as Chief Executive Officer a sufficient number of years to qualify for supplemental retirement benefits totaling 50% of his average annual base salary. The contract provides that retirement benefits which Mr. Rediker receives from prior employment with other companies, shall be netted against Standard Register's obligation to pay 50% of average annual base salary. The contract also contains a change in control feature which entitles Mr. Rediker to one year of compensation, including base salary, bonus and the value of non-cash benefits, in the event a change in ownership of the Company results in termination of his employment or less favorable terms of employment.

AUDIT COMMITTEE REPORT

The Audit Committee is responsible for monitoring and assuring the integrity of Standard Register's financial reporting process. It accomplishes this function by assessing the internal accounting and auditing practices of the Company, and the independent auditor's fulfillment of its role in the financial reporting process. The board of directors adopted a written charter for the Audit Committee in April 2000 further describing the role of the Committee. This Charter is reviewed annually by the Audit Committee and the board of directors. It was revised in February 2004 to conform to new regulatory and listing requirements. A copy of the Audit Committee Charter appears at the end of this proxy statement. Additionally, the Audit Committee Charter may be accessed on the Company Web site.

The Audit Committee held eight meetings in 2003. Mr. Schiff is Chairman of the Audit Committee. Messrs. Clarke and Hudson, and Ms. Scavullo were the other members.

The board of directors has determined the members of its Audit Committee meet the independence and financial literacy requirements of the New York Stock Exchange. In addition, the board has determined that one member in particular satisfies the Audit Committee financial expert qualifications contained in regulations issued pursuant to the Sarbanes-Oxley Act of 2002. Specifically, the board has concluded that Audit Committee member Sherrill W. Hudson qualifies as an Audit Committee financial expert given his 37-year career as a public accountant and auditor. Mr. Hudson's experience with respect to audits of financial statements of publicly held companies, internal controls, application GAAP and audit committee functions, and his independence as a board member meets the criteria for Audit Committee financial expert established by the board in conformity with the regulations and New York Stock Exchange Listing Standards. The Board has also affirmed that Mr. Hudson's service on the audit committees of three other publicly-traded companies does not impair his ability to serve on the Company's audit committee, and in fact, is viewed as an advantage.

During 2003, the Audit Committee reviewed interim quarterly financial statements with management and the independent auditors. This review was conducted prior to filing of the Company's 10-Q reports containing the respective interim quarterly financial statements. In addition, the Committee reviewed and discussed the 2003 year-end audited financial statements with executive management, including the chief financial officer, and the independent auditors. This review took place prior to publication of the audited financial statements in the 10-K filing and annual report to shareholders. Each review was conducted with the understanding that management is responsible for preparing the Company's financial statements and the independent auditors are responsible for examining the statements.

In further discharge of its responsibilities, the Audit Committee met with the independent auditors, both in the presence of management and privately. The Committee and independent auditors discussed those matters described in Statement of Auditing Standards No. 61,

Communication with Audit Committee. These discussions included review of the scope of the audit performed with respect to the Company's financial statements. The Company's internal auditor also met with the Committee to review the effectiveness of the Company's internal controls and the internal auditor's responsibilities in that regard. The Company has maintained an internal audit function for many years. These

discussions included management and the independent auditors where advisable.

Table of Contents

The Audit Committee received the independent auditor's written statement required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees. This written statement described any relationships between the independent auditors and the Company that may reasonably be thought to bear on independence. Following receipt of this written statement and discussions of the matters described in it, the Committee was satisfied as to the auditor's independence.

Based upon the foregoing, the Audit Committee recommended to the board of directors that the audited financial statements be included in the Company's annual report on form 10-K, for fiscal year ending December 28, 2003, for filing with the Securities and Exchange Commission. The Committee reappointed the independent auditors for 2004, subject to ratification by shareholders at the annual meeting (see Proposal 2).

The Audit Committee recommended, and the Board adopted, the Company's Code of Ethics and re-emphasized that directors, and all Company employees, including principal executive officers and senior financial officers, are subject to the letter and spirit of the Code. The Code of Ethics covers such topics as conflicts of interest, confidentiality, compliance with legal requirements, and other business ethics subjects. It has been distributed to all employees and is made available on the Company's Web site, www.standardregister.com.

The Audit Committee has established procedures for the receipt, retention and investigation of complaints regarding accounting, internal accounting controls or auditing matters. Any interested person may contact the Audit Committee directly through the Company's external Web site by clicking on Corporate Governance and following the link to contact the Audit Committee. Company employees may contact the Audit Committee, anonymously if they wish, through a toll-free telephone number linked to a third party who will record complaints related to accounting and auditing matters and forward such complaints directly to the Audit Committee.

AUDIT-RELATED FEES	90,500	174,400
TAX FEES	7,000	15,000
ALL OTHER FEES	0	21,000

The Audit Committee has adopted a procedure for pre-approval of all fees charged by Battelle & Battelle LLP, the Company's independent auditors. Under the procedure, the Audit Committee approves the engagement letter with respect to audit and review services. Audit-related, tax and other fees are subject to pre-approval by the entire Committee, or, in the period between meetings, by a designated member of the Audit Committee. Any such approval by the designated member is disclosed to the entire Audit Committee at the next meeting. All audit-related and tax fees paid to Battelle & Battelle LLP, with respect to the 2003 audit year were pre-approved by the Audit Committee.

Total fees in 2003 for audit-related services were \$90,500, consisting of audit of Company pension plans, internal control analysis, audit of a customer contract, and accounting consultation. The audit-related fees are for services generally required to be performed by Battelle & Battelle LLP because they follow upon and are linked to Battelle & Battelle LLP's audit of the Company's consolidated financial statements.

Tax fees in 2003, totaling \$7,000, consisted of tax consultation.

The Audit Committee has determined that the provision of audit-related and tax services by Battelle & Battelle LLP is compatible with maintaining such firm's independence.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the board of directors is composed solely of independent directors, none of whom has any interlocking relationships with Standard Register that are subject to disclosure under the rules of the SEC relating to proxy statements. The Compensation Committee has the overall responsibility for determining specific

Table of Contents

compensation levels for executive officers and bonuses for executive officers and certain other employees. The Compensation Committee administers the following plans:

Standard Register's 1995 Stock Option Plan (the "Stock Option Plan") as approved by the shareholders on April 17, 1996

The Standard Register 2002 Equity Incentive Plan (the "Equity Incentive Plan") as approved by the shareholders on April 17, 2000

Management Incentive Compensation Plan ("Incentive Plan") as approved by the shareholders on April 16, 1997, and

The Deferred Compensation Plan.

The Compensation Committee held eight meetings in 2003. Mr. Clarke is Chairman of the Compensation Committee. Messrs. Begley, Hudson, and Sherman, and Ms. Scavullo were the other members.

The Compensation Committee's goal is to establish an executive compensation program that enhances Standard Register's overall fundamental objective of providing value for its shareholders. The Compensation Committee believes that the interests of management and shareholders can be more closely aligned by providing executives with competitive levels of compensation that will enable Standard Register to attract and retain highly-qualified executives and by linking executive pay to overall corporate performance. The compensation system developed by the Committee has been designed so that a relatively high percentage of total compensation is incentive-based. The Stock Option Plan and Equity Incentive Plan are designed to base a portion of the executives' compensation upon the market performance of Standard Register's stock. The Incentive Plan is designed to provide a significant and flexible economic opportunity to executive officers and key employees of Standard Register as a reflection of their individual and group contributions to the success of Standard Register.

All executive compensation for 2003 was fully deductible for federal income tax purposes.

Base Compensation

Executive officers' salaries are reviewed and approved annually by the Compensation Committee. A target salary was established for each executive officer including the Chief Executive Officer, based on a review of competitive industry practices and individual job responsibilities. Factors that determine the salary for each executive officer include level of experience and job performance. Job performance is judged on both a subjective and objective basis, the latter measured against objectives agreed upon at the outset of the year.

The primary objective of the Compensation Committee is to set executive officers' base salaries at levels that are market competitive, internally equitable, and sufficient to attract and retain talented executives. To establish competitive levels for officers, the Committee retained an outside executive compensation consulting firm to compile and analyze competitive data relevant to the Company in terms of size and industry focus. Competitive data for officer salaries and bonus levels were established via three comparator groups which included (1) a peer group of companies that the Company considers competitors for business and/or executive talent, (2) manufacturing companies of approximately the same revenue size as the Company, and (3) general industry companies, also of about the same size. The data from these groups was compiled to arrive at a market value for each of the executive officers. The 2003 base salaries of Standard Register's five highest paid executive officers were within 5% of the market value for each executive officer, with the exception of Mr. Rediker. Mr. Rediker's base salary for 2003 was between the 50th and 75th percentile of the competitive market as described above.

In 2003, executive officer salaries were increased in those instances where promotions occurred, or when comparative data indicated the salary was below the market value and performance warranted such an increase.

The foregoing process resulted in the base salaries as disclosed in the Summary Compensation Table for each Executive Officer named in the Summary Compensation Table.

Incentive Compensation

The Compensation Committee administers the Incentive Plan, which became effective January 1, 1997. Twelve employees were covered by the Incentive Plan in 2003. The Committee selects the participants, determines the amount and terms of each incentive award and decides whether the award shall be made available in cash, Standard Register stock, or a combination of the two.

Edgar Filing: STANDARD REGISTER CO - Form DEF 14A

Incentive awards to the Incentive Plan participants are subject to objective performance goals established by the Compensation Committee. Goals are adjusted from year to year depending on the relevant business focus of the

Table of Contents

Company for the year. The Compensation Committee certifies to the board of directors each year the extent to which the performance objectives have been achieved.

The Compensation Committee adopted performance goals to measure short-term executive performance in 2003. The primary measure was earnings per share. The Committee required that a threshold level of earnings per share be attained in order for any incentive awards to be earned by executives in 2003. This threshold level was not attained in 2003 and therefore, no incentive awards were earned by executives for the 2003 performance year.

Stock Options and Stock Awards

The Compensation Committee also administers the Stock Option Plan, which became effective October 19, 1995, and the Equity Incentive Plan, which was approved by shareholders on April 17, 2002. Approximately 230 employees were granted options under the Stock Option Plan, and 121 employees were granted stock awards in 2003. The Stock Option Plan and Equity Incentive Plan are performance-based components of Standard Register's compensation program. The objectives of the Stock Option Plan and Equity Incentive Plan are to focus executive officers and certain key employees of Standard Register to increase the long-term value of Standard Register's common stock by granting stock options and stock awards. The Stock Option Plan and Equity Incentive Plan also encourage participants to maintain a stock ownership position in Standard Register in order that their interests are aligned with those of Standard Register's shareholders.

The Compensation Committee determines the eligible employees, the timing of option and award grants, the number of shares granted, vesting schedules, option prices and duration and other terms of the stock options and stock awards. All of the executive officers named in the Summary Compensation Table were granted stock options under the Stock Option Plan and stock awards under the Equity Incentive Plan as disclosed in the Stock Option Tables, and Summary Compensation Table.

The Stock Option Plan provides that options may be granted either as incentive stock options or as non-qualified stock options. Options may be granted for varying periods of from one to ten years. Options generally do not become exercisable until one year from the date of grant. Thereafter, the right to exercise options vests either: (a) in accordance with a schedule established at the time of grant, generally at a rate of 25% per year, cumulative to the extent not exercised in prior periods; or (b) on a schedule determined by achievement of specific performance factors. The exercise price for incentive stock options must be at least 100% of the last sale price on the exchange on which the stock is trading on the last trading day prior to the date of grant with a further exception that incentive options granted to persons owning more than 10% of the outstanding voting securities of Standard Register be at least 110% of such sale price (Grant Price).

In February 2003, the Committee made stock options grants to executive officers and other key employees as long term incentive compensation. These grants were non-qualified, and included an accelerated vesting feature tied to a percentage increase in Standard Register stock price over the Grant Price. Specifically, one-half of the options granted in February 2003 would vest upon attainment of stock price increase of 30% over the Grant Price. The stock price did not appreciate 30% over the Grant Price in 2003, and therefore the options will vest ratably over four years commencing one year after the grant date.

Grants of restricted stock under the Equity Incentive Plan were also made in February 2003. These grants vest ratably over four years from the first anniversary of the grant date.

A second grant of stock options and restricted stock was made in August 2003. This grant was designed to provide a retention incentive for top-performing employees in roles deemed key to meeting the Company's strategic goals. The stock option grants were non-qualified, and will vest on the third anniversary of the grant date, and expire on the fifth anniversary of the grant date.

The August restricted stock awards vest on the third anniversary of the grant date, but contain three opportunities for a performance accelerator tied to achievement of earnings per share established in the budget plan adopted by the board of directors. The first accelerator opportunity with respect to the earnings per share for fourth quarter 2003 was not met, so no acceleration of the August restricted stock grants has occurred. Additional accelerator opportunities related to earnings per share for succeeding budget periods may result in accelerated vesting of up to two-thirds of the August 2003 restricted stock grant.

Special Turn-Around Incentive Restricted Stock Grants

The Compensation Committee made grants of restricted Standard Register common stock to select officers in 2000, to be issued in 2001. The grants made to Executive Officers are reflected in the Summary Compensation Table. The

Table of Contents

grants were intended to provide incentive to those executives considered critical to the restructuring and reorganizing activities in 2001, which were designed to restore and enhance the Company's profitability and value. A total of 38,000 shares were issued in 2001 under the Turn-Around Incentive. The shares are restricted and vest four years after their issuance.

As additional incentive for the executives to achieve growth and profitability targets, those executives to whom restricted shares were issued were eligible for a further grant of restricted shares equal to the number of shares granted such executives in 2000, assuming they continued as officers of the Company. The additional grants were to be earned upon the happening of either or both of the following: (1) the Company's stock price reached or exceeded \$30.00 per share, and remained at or above \$30.00 per share for ten consecutive trading days prior to December 13, 2002; or (2) earnings per share reached \$1.20 for the second half of 2002. The stock price reached \$30.00 per share and remained at or above that price for ten consecutive trading days in April 2002. Therefore, the additional shares were awarded and will vest at the same time as the original grants. The additional turnaround grants made in 2002 with respect to Executive Officers, are reflected in the Summary Compensation Table.

CORPORATE GOVERNANCE COMMITTEE REPORT

The Corporate Governance Committee assists the board in defining board roles and developing processes to optimize board functioning. It also studies and recommends adoption by the board of directors of corporate governance processes intended to comply with applicable legal, regulatory and listing standard requirements. The Corporate Governance Committee met four times in 2003. Mr. Begley is Chairman of the Corporate Governance Committee and Ms. Scavullo and Mr. Sherman are the other members.

In 2003, the Committee recommended and the board of directors adopted, the Corporate Governance Committee Charter and Director Independence Criteria. The Committee also studied the revised New York Stock Exchange listing standards (NYSE Listing Standards). In addition, the Committee reviewed board policy and process with respect to shareholder recommendations of candidates for director.

Six of Standard Register's eight directors are independent from management, as determined under the Independence Criteria adopted by the board in conformity with NYSE Listing Standards. The Board has determined that the following directors are independent: Roy W. Begley, Jr., F. David Clarke, III, Sherrill W. Hudson, Ann Scavullo, John J. Schiff, Jr., and John Q. Sherman, II. Two of the directors, Chairman Paul H. Granzow and CEO Dennis L. Rediker, are not considered to be independent under the criteria, since they are employees of the Company. The Audit, Compensation and Corporate Governance Committees are entirely comprised of independent directors.

Our current view with respect to nominations for director is that the interests of all shareholders can best be served with the board as a whole acting as a nominating committee. Given that approximately 72% of the voting power of Company is held by family trusts (see Voting Securities and Principal Holders table), the board has considered its entire membership as most representative of the interests of the shareholders. Therefore, the Company's board has not had a separate nominating committee through the end of 2003, and it follows, no nominating committee charter. All directors participate in the nomination process. This approach is under review in light of the NYSE Listing Standards.

Standard Register's Board of Directors, in performing its director-nomination function, identifies director candidates from a range of sources. Primary among these sources are recommendations from current directors and major shareholders. The board has not engaged a third party to assist in the director nomination process, and has paid no fees in that regard.

Director candidates are evaluated by reference to criteria such as integrity, candor, judgment, skills and experience with respect to the industry in which the Company operates, leadership, strategic understanding and independence. These factors are considered in the context of the current composition of the board. A candidate is evaluated against these criteria regardless of the source of the recommendation.

The board's policy is to consider recommendations for director candidates from any interested party, especially shareholders. Shareholders who wish to recommend a director candidate should submit the recommendation in writing addressed to The Standard Register Company Board of Directors, in care of the Corporate Secretary, 600 Albany Street, Dayton, Ohio 45408. The communication should state the name of the candidate, his or her qualifications, and contact information for the shareholder and candidate. The submission of shareholder candidates must be received by the Corporate Secretary by November 18, 2004, for consideration in the 2005 director nomination process.

The Company's directors all stand for election or reelection at each annual meeting of shareholders. Directors make every effort to attend the annual meetings, and in fact, all directors have been in attendance at the last two annual meetings of shareholders. While the board does not have a formal p
