**AdCare Health Systems, Inc.**  
Notes to Unaudited  
Consolidated Financial Statements

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Presentation***

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Article 10 of Regulation S-X. Accordingly they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of the management of AdCare Health Systems, Inc., all adjustments considered for a fair presentation are included and are of a normal recurring nature. Operating results for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

For further information, refer to the consolidated financial statements and footnotes thereto included in AdCare Health Systems, Inc.'s annual report on Form 10-KSB, as amended, filed April 30, 2007.

***Earnings per Share***

Financial Accounting Standards Board Statement No. 128, *Earnings per Share* (SFAS 128) requires the presentation of basic and diluted earnings per share. Basic earnings per share exclude any dilutive effects of options, warrants and convertible securities and is computed using the weighted average number of common shares outstanding. Earnings available to common stockholders include preferential distributions to Members in a manner similar to the treatment of dividends to preferred stockholders. Diluted earnings per share reflects the potential dilution if securities or other contracts to issue common units were exercised or converted into common units.

***Income Taxes***

The Company and its subsidiaries file a consolidated federal income tax return. No tax provision was recorded for the loss incurred for the first quarter of 2007 as we recorded a 100% valuation allowance against our otherwise recognizable deferred tax assets due to the uncertainty surrounding the timing of ultimate realization of the benefits of our net operating loss carryforwards in future periods. Income taxes are allocated to each company based on earnings of each company.

Deferred income taxes are recognized for the tax consequences in future years of temporary differences between the financial reporting and tax basis of assets and liabilities of each period-end based on enacted tax laws and statutory tax rates. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense represents the taxes currently payable and the net change during the period in deferred tax assets and liabilities.

***Recent Accounting Pronouncements***

On February 15, 2007, the Financial Accounting Standards Board ( FASB ) issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* ( FASB 159 ). This standard permits an entity to measure financial instruments and certain other items at the estimated fair value. Most of the provisions of SFAS No. 159 are elective; however, the amendment to FASB No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, applies to all entities that own trading and available-for-sale securities. The fair value option created by SFAS 159 permits an entity to measure eligible items at fair value as of specified election dates. The fair value option (a) may generally be applied instrument by instrument, (b) is irrevocable unless a new election date occurs, and (c) must be applied to the entire instrument and not to only a portion of the instrument. SFAS 159 is effective as of the

**Table of Contents**

beginning of the first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of the previous fiscal year provided that the entity (i) makes that choice in the first 120 days of that year, (ii) has not yet issued financial statements for any interim period of such year, and (iii) elects to apply the provisions of FASB 157. We are currently evaluating the impact of SFAS 159, if any, on our consolidated financial statements.

***Adoption of New Accounting Pronouncement***

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes-an interpretation of FASB No. 109 (FIN 48)*, which clarifies the accounting for uncertainty in tax positions. FIN 48 requires the recognition in the condensed financial statements, the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. The provisions of FIN 48 were effective as of January 1, 2007. The adoption of the standard had no effect on the Company's financial condition or results of operations.

**NOTE 2. LIQUIDITY AND PROFITABILITY**

The Company incurred a net loss of approximately \$135,000 for the three months ended March 31, 2007 and approximately \$655,000 for the three months ended March 31, 2006, and has negative working capital of approximately \$597,000 at March 31, 2007. The Company's ability to achieve sustained profitable operations is dependent on continued growth in revenue and controlling costs.

At March 31, 2007, the Company was not in compliance with certain financial covenants contained in loan agreements with WesBanco. On April 25, 2007, the Company obtained a waiver from their primary lender, WesBanco, in regards to the defaults and cross defaults that existed at March 31, 2007.

To improve liquidity and profitability, management has hired a full-time Vice President of Marketing and Business Development to work on marketing at all our facilities and look for new management contracts. Furthermore, management plans in future years encompass the following:

refinancing debt where possible to obtain more favorable terms.

increase facility occupancy.

add additional management contracts.

Management believes that the actions that will be taken by the Company provide the opportunity for the Company to improve liquidity and achieve profitability. However, there can be no assurance that such events will occur.

**Table of Contents****NOTE 3. SEGMENTS**

For the three months ended March 31, 2007 and 2006, the Company operated in two segments: management and facility based care and home based care. The management and facility based care segment provides services to individuals needing long term care in a nursing home or assisted living setting and management of those facilities. The home based care segment provides home health care services to patients while they are living in their own homes. All the Company's revenues and assets are within the State of Ohio.

	(Amounts in 000s)					
	Management and Facility Based Care	Home Based Care	Total Segments	Discon- tinued operations	Cor- porate	Total
Three-months ended March 31, 2007:						
Net Revenue	5,399	814	6,213		(389)	5,824
Net Profit (Loss)	(171)	47	(124)	(11)		(135)
Total Assets	21,530	2,380	23,910	877		24,787
Capital Spending	103	2	105			105
Three-months ended March 31, 2006:						
Net Revenue	5,167	628	5,795		(399)	5,396
Net Profit (Loss)	(606)	(55)	(661)	6		(655)
Total Assets	19,954	2,294	22,248	1,506		23,754
Capital Spending	234	1	235			235

**NOTE 4. INCENTIVE STOCK OPTIONS**

The Company has a stock option plan. Options are available to officers, directors, consultants and employees of the Company. The Board of Directors will select from eligible persons those to whom awards shall be granted, as well as determine the size of the awards. The total number of shares, which are available under the plan, is 120,000 with an option price of \$2.50 per share. Each stock option granted under the plan shall expire not more than 5 years from the date that the option is granted.

The fair value of an option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used for grants in 2005:

Dividend yield	0%
Expected volatility	0.00%
Risk-free interest rates	4.00%
Expected lives	5 years

A summary of the status of the Company's employee stock options was as follows as of March 31, 2007 and changes for the three months then ended is presented below:

	March 31, 2007	Weighted Average Exercise Price
Beginning	99,400	\$ 2.50
Granted		2.50

Forfeited			2.50
Exercised			
Ending		99,400	\$ 2.50
Options exercisable		80,640	

**Table of Contents**

The weighted-average remaining contractual terms of stock options outstanding and stock options exercisable at March 31, 2007 was approximately 2 years. The aggregate intrinsic value of options outstanding and stock options exercisable at March 31, 2007 was approximately \$248,500 and \$201,600, respectively.

In December 2004, the FASB issued SFAS No. 123R, Share-Based Payment. This statement is a revision of SFAS No. 123, Accounting for Stock-Based Compensation, supersedes Accounting Principles Board ( APB ) Opinion No. 25,

Accounting for Stock Issued to Employees and amends SFAS No. 95, Statement of Cash Flows. The statement eliminates the alternative to use the intrinsic value method of accounting that was provided in SFAS No. 123, which generally resulted in no compensation expense recorded in the financial statements related to the issuance of equity awards to employees. The statement also requires that the cost resulting from all share-based payment transactions be recognized in the financial statements. It establishes fair value as the measurement objective in accounting for share-based payment arrangements and generally requires all companies to apply a fair-value-based measurement method in accounting for share-based payment transactions with employees. The Company adopted SFAS No. 123R effective January 1, 2006, using a modified version of the prospective application in accordance with the statement. This application requires the Company to record compensation expense for all awards granted to employees and directors after the adoption date and for the unvested portion of awards that are outstanding at the date of adoption. The Company's consolidated financial statements as of and for the three months ended March 31, 2007, reflect the impact of SFAS No. 123R. In accordance with the modified prospective transition method, the Company's consolidated financial statements for prior periods have not been restated to reflect and do not include the impact of SFAS No. 123R.

**NOTE 5. CONTINGENCIES**

Certain claims and suits arising in the ordinary course of business in managing certain nursing facilities were filed or are pending against the Company. Management provides for loss contingencies where the possibility of a loss is probable. As of March 31, 2007, no estimated loss liabilities due to litigation were recorded. Management believes that the liability, if any, which may result would not have a material adverse effect on the financial position or results of operations of the Company. The Company carries liability insurance that is available to fund certain defined losses, should any arise, net of a deductible amount.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Results of Operations****Three months ended March 31, 2007 as compared to three months ended March 31, 2006****Revenue**

	March 31, 2007	March 31, 2006	Increase/ (Decrease)	% Change
Patient care revenue	\$ 5,366,640	\$ 4,965,665	\$ 400,975	8.1%
Management, consulting and development fee revenue	457,708	429,941	27,767	6.5%
	\$ 5,824,348	\$ 5,395,606	\$ 428,742	7.9%

For the periods compared, patient care revenue increased approximately \$401,000 or 8.1%. Occupancy rates in our assisted living properties increased nearly 10% while utilization of our home health services increased by approximately 18%. However, occupancy in our skilled nursing facilities declined by 2.2%. Additionally, daily rates for privately paying residents at our assisted living and skilled nursing facilities were increased approximately 5% effective January 1, 2007. Management, consulting and development fee revenue increased \$27,767 or 6.5% primarily as a result of inflationary increases in fees charged to our third party management contracts.

**Table of Contents****Operating Expenses**

	March 31, 2007	March 31, 2006	Increase/ (Decrease)	% Change
Payroll and related payroll costs	\$ 3,688,575	\$ 3,522,632	\$ 165,943	4.7%
Other operating expenses	1,779,752	1,652,190	127,562	7.7%
Depreciation and amortization	172,190	173,947	(1,757)	(1.0)%
	\$ 5,640,517	\$ 5,348,769	\$ 291,748	5.5%

Operating expenses for the three months ended March 31, 2007 increased \$291,748 or 5.5%. Payroll and related payroll costs for the three months ended March 31, 2007 increased \$165,943 or 4.7%. This is due primarily to increased visits provided by our home health agency as well as increased occupancy at our assisted living properties. Additionally, employee wages have increased approximately 3% as a result of annual wage increases. Other operating expenses increased \$127,562 or 7.7%, the majority of which is due to increased expenses for audit services, public relations, board activities and directors and officer's liability insurance all a result of our public company status. Depreciation and amortization expense was nearly unchanged.

**Income from Continuing Operations**

Income from continuing operations for the three months ended March 31, 2007 was \$183,831. Compared to the three months ended March 31, 2006, this represents an increase of \$136,994 or 292.5%. This is primarily due to increased revenue as a result of higher occupancies in our assisted living facilities and increased visits provided by our home health agency.

**Other Income and Expense**

For the three months ended March 31, 2007 compared to the three months ended March 31, 2006, interest income increased \$14,562 as a result of interest earned on the proceeds of the initial public offering. Interest expense for the three months ended March 31, 2007 compared to the three months ended March 31, 2006, decreased \$413,519 or 58.2%. As of September 2006, expenses related to the mezzanine loan were completely recognized and therefore none were recorded in 2007. Interest expense for the three months ended March 31, 2006, included approximately \$400,000 in mezzanine loan related expense. Interest expense to related parties decreased \$21,538 or 100%. Related party loans were repaid with proceeds from our initial public offering.

**Summary**

Net loss for the three months ended March 31, 2007 was \$134,777 compared to a net loss of \$655,084 for the three months ended March 31, 2006, an improvement of approximately \$520,000. This is the result of improved occupancy at our assisted living properties, increased visits by our home health agency and lower interest expense as a result of expenses related to the mezzanine loan being fully recognized by September 2006.

**Liquidity and Capital Resources**

As a new public company, we have incurred increased expenses related to auditing our books and records, public relations, directors and officer's liability insurance, board activities, legal expenses and other related consulting fees. We will also incur substantial expense related to our complying with the Sarbanes Oxley act by the end of 2007 and additional expense for key man life insurance. We expect to fund these additional costs using cash flows from expanded operations and financing activities such as equity offerings and additional indebtedness such as a new line of credit.

**Overview**

We had negative net working capital as of March 31, 2007 of approximately \$597,000 as compared to negative net working capital of approximately \$482,000 for the year ended December 31, 2006, an increase of approximately \$115,000. The increase in negative net working capital can be attributed to the use of cash for the acquisition of property, plant and equipment.

## **Table of Contents**

We currently do not have a line of credit available to assist with cash flow. We are currently working with a lender to secure a line of credit but we have not received firm commitments in this regard. We anticipate that our cash flow from our subsidiaries will continue to be sufficient to fund their operating cash needs.

We plan to improve liquidity by 1) refinancing debt where possible to obtain more favorable terms, 2) increasing facility occupancy, and 3) adding additional management contracts. We have a full time Vice President of Marketing and Business Development to assist in marketing all our facilities as well as looking for new management contracts. We did not have this position during the first quarter of 2006.

In 2003, we entered into an agreement with a building contractor for the renovation and the expansion of ten additional private rooms to our Hearth & Care of Greenfield nursing facility. This project is currently over budget and behind schedule for completion. Due to several change orders, weather delays and increased costs of construction due to increasing the size of the original project, an additional \$620,000 is required to complete the expansion. We have terminated our contract with the initial project contractor due to their poor performance and have engaged a new contractor to have the building completed. Subsequently, the former contractor has filed a claim against us alleging damages of \$376,000 for terminating the contract. In addition, a subcontractor has also sought judgment against Hearth & Care of Greenfield in the amount of approximately \$57,000. We believe the claims are without merit and intend to vigorously defend our position. Furthermore, we believe we may have a claim against the contractor.

### ***Notes Payable and Other Debt***

Our debt instruments contain various financial covenants and other restrictions including requirements for the following: minimum income and cash flow, debt service coverage, tangible net worth and working capital requirements. Many of these debt instruments also contain cross default provisions and limitations on the amount of additional debt we can raise. We were not in compliance with loan covenants on three loans at December 31, 2006, and one loan at March 31, 2007 as follows:

In connection with the financing and loan agreement used to re-finance two assisted living properties located in Springfield, Ohio and one in Urbana, Ohio, the properties are required on an annual basis to maintain a minimum tangible net worth which shall be increased each year by the cumulative net earnings of the properties. As of December 31, 2006, the minimum requirement was \$720,800 and the actual tangible net worth was \$319,320, and therefore, not in compliance. Additionally, we are required to maintain a debt service coverage ratio of 1.4:1.0 as of the end of each fiscal quarter for the twelve month period ending on the last of the fiscal quarter. As of March 31, 2007, the debt service coverage ratio was 1.07:1.0. However, the tangible net worth covenant requirement and the debt service coverage ratio requirement were waived by WesBanco on April 25, 2007.

In connection with the financing and loan agreement used to re-finance an assisted living property located in Van Wert, Ohio, the property is required on an annual basis to maintain a minimum tangible net worth and such net worth shall not be less than 10% of total assets. As of December 31, 2006, the minimum requirement was \$308,846 and the actual tangible net worth was \$233,469. Also, 10% of the total assets was \$343,903 as compared to the actual tangible net worth of \$233,469; and therefore, both covenants were not in compliance. However, both net worth covenants were waived by WesBanco on March 19, 2007.

In connection with the financing and loan agreements used to re-finance the corporate office building and to re-finance miscellaneous debt, we were required to not have a change of ownership of AdCare of more than 25%. As a result of the initial public offering, we were in violation of this covenant. However, the default was waived by WesBanco on March 19, 2007.

### ***Cash Flow***

Our cash requirements are satisfied primarily with cash generated from operating activities and financing activities such as equity offerings and additional indebtedness. Our cash flow is dependent on our ability to collect accounts receivable in a timely manner. Accounts receivable collections in the health care industry can be very complex processes. The majority of our revenue is from Medicaid and Medicare programs. These are reliable payment sources which make our likelihood of collection very high. However, the time it takes to receive payment on a claim from these sources can be long. On average, accounts receivable were outstanding 30.6 days before collection as of March 31, 2007 which is lower than December 31, 2006 days of

**Table of Contents**

36.1. This decrease is attributable to successful collection efforts. The status of accounts receivable collections is monitored very closely by our senior management.

**Three months ended March 31, 2007 as compared to three months ended March 31, 2006**

Net cash used in operating activities for the three months ended March 31, 2007 and March 31, 2006 was \$131,211 and \$224,168, respectively. For the three months ended March 31, 2007, cash flow used in operating activities consisted primarily of net operating losses. A decrease in accounts payable and accrued expenses as a result of our semi annual worker s compensation premium was offset by increased accounts receivable collections and non-cash expenses for depreciation and amortization and minority interest. As of the three months ended March 31, 2006, cash flow used in operating activities consisted primarily of net operating losses, increases in other assets and an increase in accounts receivable. These were partially offset by an increase in account payable and other accrued expenses. Net operating losses as of the three months ended March 31, 2006 were the result of lower occupancies at the properties. The increase in other assets was the result of deferred offering costs for our initial public offering. The increase in accounts receivable was due to slower collections.

Net cash used in investing activities for the three months ended March 31, 2007 and March 31, 2006 was \$128,143 and \$213,900, respectively. For the three months ended March 31, 2007, the increase in investing activities was the result of a reduction in property and equipment additions as compared to the same period in 2006. Additionally, the decrease in restricted cash was the result of cash used from our HUD escrowed reserves for the payment of property taxes and liability insurance. This was somewhat offset by additional deposits to the reserves. For the three months ended March 31, 2006, the increase was primarily the result of renovation activity at Hearth & Care of Greenfield. Net cash used in financing activities was \$68,687 for the three months ended March 31, 2007. This is primarily the result of routine repayments on notes payable. Net cash used in financing activities was \$111,005 for the three months ended March 31, 2006 primarily as a result of routine repayments on notes payable and the partial repayment of stockholder loans. This was partially offset by proceeds from notes payable for the renovation costs of Hearth & Care of Greenfield.

**Special Note Regarding Forward Looking Statements**

Certain statements in this report constitute forward-looking statements. These forward-looking statements involve known or unknown risks, uncertainties and other factors that may cause the actual results, performance, or achievements of AdCare to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Specifically, the actions of competitors and customers and our ability to execute our business plan, and our ability to increase revenues is dependent upon our ability to continue to expand our current business and to expand into new markets, general economic conditions, and other factors. You can identify forward-looking statements by terminology such as may, will, should, expects, intends, plans, anticipates, estimates, predicts, potential, continues, or the negative of these terms or other comparable terminology. Although believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We undertake no obligation to publicly update or review any forward-looking statements, whether as a result of new information, future developments or otherwise.

**Item 3. Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission ( SEC ) and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) of the Securities Exchange Act of 1934, we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the

period covered by this report. Based

**Table of Contents**

on the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

**Part II. Other Information**

Item 1. Legal Proceedings

There are no material pending legal proceedings to which AdCare Health Systems, Inc and Subsidiaries is a party or to which any property is subject.

Item 2. Changes in Securities and Use of Proceeds

Our initial public offering was co-underwritten by Newbridge Securities Corporation and Joseph Gunnar & Co, LLC. Our offering consisted of 703,000 units. Each unit consisted of
