THE J. M. SMUCKER COMPANY
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except per share data)

Note A Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the U.S. for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles in the U.S. for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the nine-month period ended January 31, 2008, are not necessarily indicative of the results that may be expected for the year ending April 30, 2008. For further information, reference is made to the consolidated financial statements and footnotes included in the Company's Annual Report on Form 10-K for the year ended April 30, 2007.

Note B Eagle Acquisition

On May 1, 2007, the Company completed its acquisition of Eagle Family Foods Holdings, Inc. (Eagle), a privately held company headquartered in Columbus, Ohio, for \$133 million in cash and the assumption of \$115 million in debt, in a transaction valued at approximately \$248 million. Results for the three-month and nine-month periods ended January 31, 2008, include the operations of Eagle since the acquisition closing date. Eagle is the largest producer of canned milk in North America, with sales primarily in retail and foodservice channels. Eagle generated net sales of approximately \$206 million during its fiscal year ended July 1, 2006. The acquisition expands the Company's position in the baking aisle and complements the Company's strategy, which is to own and market leading North American food brands sold in the center of the store. Eagle's primary brands include *Eagle Brand* and *Magnolia* sweetened condensed milk.

The Company utilized cash on-hand and borrowings against its revolving credit facility to fund the cash portion of the purchase price and to deposit funds in escrow in exchange for a covenant defeasance on Eagle's \$115 million Senior Notes that were assumed as of the acquisition date. On May 31, 2007, the escrow was distributed to note holders in full payment of the Senior Notes.

The purchase price will be allocated to the underlying assets acquired and liabilities assumed based upon their fair values at the date of acquisition. The Company will determine the estimated fair values based on independent appraisals, discounted cash flows, quoted market prices, and estimates made by management. To the extent the purchase price exceeds the fair value of the net identifiable tangible and intangible assets acquired, such excess will be allocated to goodwill.

The initial estimated fair value of the net assets acquired is approximately \$248 million, which consists of current assets of \$49 million; property, plant, and equipment of \$20 million; other intangible assets, primarily customer relationships and trademarks, of \$100 million; goodwill of \$100 million; noncurrent assets of \$1 million; and current liabilities of \$22 million. The allocation of the purchase price is preliminary and subject to adjustment following completion of the valuation process. The Company expects the allocation of purchase price to be completed by April 30, 2008. Goodwill will be assigned to the U.S. retail market and special markets segments upon finalization of the allocation of the purchase price.

Table of Contents

Had the acquisition of Eagle occurred on May 1, 2006, unaudited, pro forma consolidated results would have been as follows:

	Three Months Ended January 31, 2007	Nine Months Ended January 31, 2007
Net sales	\$ 586,000	\$ 1,831,000
Operating income	\$ 68,000	\$ 202,000
Net income	\$ 41,000	\$ 119,000
Net income per common share assuming dilution	\$ 0.72	\$ 2.09

The unaudited, pro forma consolidated results are based on the Company's historical financial statements and those of the acquired business and do not necessarily indicate the results of operations that would have resulted had the acquisition been completed at the beginning of the applicable period presented, nor is it indicative of the results of operations in future periods.

Note C Share-Based Payments

The Company provides for equity-based incentives to be awarded to key employees and nonemployee directors. These incentives are administered through various plans, and currently consist of restricted shares, restricted stock units, deferred shares, deferred stock units, performance units, performance shares, and stock options.

During the nine months ended January 31, 2008, the Company granted 11,390 deferred stock units and 188,500 restricted shares to employees, with 67,440 of these representing the conversion of performance shares and performance units into restricted shares, all with a grant date fair value of \$57.73 and a total fair value of \$11,540.

Also during the nine months ended January 31, 2008, the Company granted performance units to certain executives. The performance units granted correspond to approximately 50,580 common shares with a grant date fair value of \$57.73 and a total fair value of \$2,920. During the nine months ended January 31, 2008, 7,840 deferred stock units were granted to nonemployee directors with a grant date fair value of \$53.60 and a total fair value of \$420. The grant date fair value of these awards was the average of the high and low stock price on the date of grant.

Compensation expense related to share-based awards was \$2,719 and \$2,596 for the three months ended January 31, 2008 and 2007, and \$8,692 and \$8,282 for the nine months ended January 31, 2008 and 2007, respectively. The related tax benefit recognized was \$864 and \$857 for the three months ended January 31, 2008 and 2007, and \$2,951 and \$2,861 for the nine months ended January 31, 2008 and 2007, respectively.

As of January 31, 2008, total compensation cost related to nonvested share-based awards not yet recognized was approximately \$15,984. The weighted-average period over which this amount is expected to be recognized is approximately 3.0 years.

Note D Restructuring

In 2003, the Company announced its plan to restructure certain operations as part of its ongoing efforts to refine its portfolio, optimize its production capacity, improve productivity and operating efficiencies, and improve the Company's overall cost base as well as service levels in support of its long-term strategy. The Company's strategy is to own and market leading North American food brands sold in the center of the store.

To date, the Company closed its fruit processing operations at its Watsonville, California, and Woodburn, Oregon, locations and subsequently sold these facilities; completed the combination of its two manufacturing facilities in Ripon, Wisconsin, into one expanded site; completed a restructuring program to streamline operations in Europe and the United Kingdom, including the exit of a contract packaging arrangement and certain portions of its retail business; completed the sale of its U.S. industrial ingredient business; completed the realignment of distribution warehouses; sold the Salinas, California, facility after

Table of Contents

production was relocated to plants in Orrville, Ohio, and Memphis, Tennessee; and sold the Canadian nonbranded businesses, which were acquired as part of International Multifoods Corporation, to Horizon Milling G.P., a subsidiary of Cargill and CHS Inc., as part of a strategic plan to focus the Canadian operations on its branded consumer retail and foodservice businesses. The restructurings resulted in the reduction of approximately 410 full-time positions.

The Canadian nonbranded divestiture was completed on September 22, 2006. The sale and related restructuring activities are expected to result in total expense of approximately \$18.6 million. Costs will include noncash, long-lived asset charges, as well as transaction, legal, severance, and pension costs. To date, charges of approximately \$13.3 million were recognized related to the Canadian restructuring.

The Company expects to incur total restructuring costs of approximately \$61 million related to these initiatives, of which \$55.7 million has been incurred since the announcement of the initiatives in March 2003. The balance of the costs and remaining cash payments, estimated to be approximately \$5.3 million and \$5.7 million, respectively, are related to the Canadian restructuring and will primarily be incurred through 2009.

The following table summarizes the activity with respect to the restructuring and related long-lived asset charges recorded and reserves established and the total amount expected to be incurred.

This segment primarily represents the domestic sales of *Smucker's*, *Jif*, *Crisco*, *Pillsbury*, *Eagle Brand*, *Hungry Jack*, *White Lily*, and *Martha White* branded products to retail customers. The special markets segment is comprised of the international, foodservice, beverage, and Canada strategic business areas. The Company, like other food manufacturers, is from time to time subject to various administrative, regulatory, and other legal proceedings arising in the ordinary course of business. The Company is not currently party to any pending proceedings which could reasonably be expected to have a material adverse effect on the Company.

Note L Sale of Scotland Facility

On June 7, 2007, the Company sold its Livingston, Scotland, facility to the facility's primary customer, Kellogg Company. The transaction generated cash proceeds of approximately \$3.4 million and resulted in a pretax gain of approximately \$1.9 million. The sale is consistent with the Company's overall strategy, which is to own and market leading North American food brands.

Note M Income Taxes

In July 2006, the Financial Accounting Standards Board issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), which is an interpretation of Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*. FIN 48 clarifies the financial statement recognition and measurement criteria of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company adopted FIN 48 as of May 1, 2007.

The cumulative effect of applying this interpretation has been recorded as a decrease of \$2,374 to retained income as of May 1, 2007. The Company's unrecognized tax benefits upon adoption on May 1, 2007, were \$19,591, of which \$11,231 would affect the effective tax rate, if recognized.

In accordance with the requirements of FIN 48, uncertain tax positions have been classified in the Condensed Consolidated Balance Sheets as long term, except to the extent payment is expected within one year. As of May 1, 2007, the long-term portion of the Company's uncertain tax positions was \$19,135. The Company recognizes net interest and penalties related to unrecognized tax benefits in income tax expense, consistent with the accounting method used prior to adopting FIN 48. As of May 1, 2007, the Company's accrual for tax-related net interest and penalties totaled \$5,247.

The Company files income tax returns in the U.S. and various state, local, and foreign jurisdictions. With limited exceptions, the Company is no longer subject to examination of U.S. federal, state and local, or foreign income taxes for fiscal years prior to 2003. The Company is currently under examination by the Internal Revenue Service (IRS) for the years ended April 30, 2007 and 2006. During the quarter ended January 31, 2008, the Company reached an agreement with the IRS on proposed adjustments resulting from an examination of its federal income tax returns for the years ended April 30, 2005 and 2004. As a result of this agreement, the Company reduced its unrecognized tax benefits and net interest accrual by \$4,871 and \$667, respectively, and paid \$7,726 in taxes and interest. The agreement did not have a material effect on the Company's effective tax rate for the three-month and nine-month periods ended January 31, 2008.

Within the next twelve months, it is reasonably possible that the Company could decrease its unrecognized tax benefits by an estimated \$6,000, primarily as a result of state settlement negotiations in process and the expiration of federal, state, and local statute of limitation periods.

The Company's unrecognized tax benefits as of January 31, 2008, are \$16,593, of which \$9,894 would affect the effective tax rate, if recognized. As of January 31, 2008, the long-term portion of the Company's uncertain tax positions was \$13,330, and the Company's accrual for tax-related net interest and penalties totaled \$4,854.

Note N Recently Issued Accounting Standards

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 and related interpretations provide guidance for using fair value to measure assets and liabilities and only applies when other standards require or permit the fair value measurement of assets and liabilities. It does not expand the use of fair value measurement. In February 2008, the FASB issued Staff Position No. 157-2, *Effective Date of FASB Statement No. 157* (FSP SFAS 157-2). FSP SFAS 157-2 amends SFAS 157 to delay the effective date of the standard, as it relates to nonfinancial assets and nonfinancial liabilities, to fiscal years beginning after November 15, 2008, (May 1, 2009, for the Company). SFAS 157 for financial assets and financial liabilities is effective for fiscal years beginning after November 15, 2007, (May 1, 2008, for the Company). The Company is currently assessing the impact of SFAS 157, and related interpretations and amendments, on the consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value. The objective of SFAS 159 is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS 159 is effective for fiscal years beginning after November 15, 2007, (May 1, 2008, for the Company). The Company is currently assessing the potential impact of SFAS 159 on the consolidated financial statements.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

This discussion and analysis deals with comparisons of material changes in the unaudited condensed consolidated financial statements for the three-month and nine-month periods ended January 31, 2008 and 2007, respectively. Results for the three-month and nine-month periods ended January 31, 2008, include the operations of Eagle Family Foods Holdings, Inc. (Eagle) since the acquisition closing date of May 1, 2007.

Net Sales

Company net sales were \$665.4 million for the third quarter of fiscal 2008, an increase of 27 percent compared to \$523.1 million in the third quarter of fiscal 2007. The acquired Eagle businesses contributed \$69.3 million to net sales in the third quarter of 2008. Excluding the impact of the Eagle acquisition, net sales were up 14 percent. Also contributing to growth in the quarter were the *Smucker's*, *Jif*, *Crisco*, and *Pillsbury* brands with a combination of pricing and volume gains. The acquired *Carnation* canned milk business in Canada and the impact of favorable exchange rates also added to net sales for the third quarter.

Net sales for the nine-month period ended January 31, 2008, increased 17 percent to \$1,934.8 million compared to \$1,654.5 million for the first nine months of 2007. Net sales were up 23 percent for the first nine months of 2008 over 2007 after excluding the Canadian nonbranded, grain-based foodservice and industrial businesses which was divested in September 2006. For the nine months ended January 31, 2008, the acquired Eagle businesses contributed \$194.2 million, accounting for approximately one-half of the increase in net sales excluding the divested Canadian businesses.

U.S. retail market segment net sales for the third quarter of 2008 were \$502.2 million, up 28 percent, compared to \$393.8 million in the third quarter of 2007. Net sales in the consumer strategic business area increased 13 percent for the third quarter of 2008, compared to the same period last year, led by peanut butter, fruit spreads, potatoes, pancakes, syrups, and *Smucker's Uncrustables* sandwiches. Net sales in the consumer oils and baking strategic business area were up 46 percent in the third quarter of 2008 compared to the third quarter of 2007. Excluding the contribution of \$57.3 million from the acquired Eagle business, consumer oils and baking net sales increased 13 percent, due to growth in baking mixes, flour, and frostings, and pricing actions, particularly in oils.

Net sales in the U.S. retail market segment for the first nine months of 2008 increased 23 percent to \$1,455.6 million compared to \$1,181.6 million during the first nine months of 2007. Net sales in the consumer strategic business area increased 10 percent, and excluding the contribution of \$165.3 million from the acquired Eagle business, net sales in the oils and baking strategic business area increased nine percent over the first nine months of 2007.

Net sales for the third quarter of 2008 in the special markets segment increased 26 percent compared to 2007. Canada contributed three-quarters of the segment increase as their net sales were up 49 percent primarily due to the impacts of the acquired Eagle and *Carnation* canned milk businesses and favorable exchange rates. Net sales increased 20 percent in the foodservice strategic business area, and were up eight percent, excluding the contribution of the Eagle acquisition. Net sales in the beverage strategic business area were flat.

For the first nine months of 2008, special markets segment net sales increased 20 percent compared to the first nine months of 2007, excluding divested Canadian businesses.

Table of Contents**Operating Income**

The following table presents components of operating income as a percentage of net sales.

	Three Months Ended		Nine Months Ended	
	January 31,		January 31,	
	2008	2007	2008	2007
Gross profit	29.4%	33.1%	31.0%	31.6%
Selling, distribution, and administrative expenses:				
Marketing and selling	9.4%	10.2%	9.8%	9.9%
Distribution	3.3	3.6	3.4	3.5
General and administrative	5.8	7.0	6.0	6.7
Total selling, distribution, and administrative expenses	18.5%	20.8%	19.2%	20.1%
Restructuring and merger and integration costs	0.5%	0.0%	0.4%	0.2%
Operating income	10.4%	12.3%	11.4%	11.3%

Operating income increased by \$4.6 million, or seven percent, during the third quarter of 2008 compared to the third quarter of 2007 while decreasing from 12.3 percent to 10.4 percent of net sales. The impact of the lower-margin Eagle businesses, record costs for soybean oil and wheat, and the mix of product sales in the quarter resulted in the decline in gross profit from 33.1 percent of net sales in the third quarter of 2007 to 29.4 percent in the third quarter of 2008.

The margin on the Eagle businesses was impacted by an increase in milk costs and an unfavorable mix of nonbranded business in the quarter. Eagle accounted for more than one-half of the decrease in gross profit as a percentage of net sales. The impact of price increases taken to date across all businesses, while essentially offsetting higher raw material costs, was not sufficient to maintain profit margins.

Selling, distribution, and administrative (SD&A) expenses increased \$14.1 million, or 13 percent, for the third quarter of 2008 compared to 2007, resulting from increased marketing spending, and additional costs related to the acquired Eagle business. Corporate overhead expenses increased at a lesser rate than sales resulting in an overall decrease in SD&A from 20.8 percent of net sales to 18.5 percent, partially offsetting the decline in gross profit as a percent of net sales. Higher restructuring and merger and integration costs in the third quarter of 2008 compared to 2007 also negatively impacted operating income.

Operating income increased \$33.9 million, or 18 percent, for the nine months ended January 31, 2008, compared to the same period in 2007, but remained fairly constant as a percentage of net sales at 11.4 percent this year compared to 11.3 percent last year. This was primarily due to the decrease in SD&A as a percent of net sales from 20.1 percent to 19.2 percent.

Interest Income and Expense

Interest expense increased by \$5.1 million in the third quarter and \$14.1 million for the first nine months of 2008 compared to the same periods in 2007, resulting from the issuance of \$400 million in senior notes in the first quarter of 2008, a portion of which was used to repay short-term debt used in financing the Eagle acquisition. The investment of excess proceeds resulted in an increase in interest income of \$1.1 million during the third quarter and \$4.4 million for the first nine months of 2008 compared to the same periods last year.

Table of Contents**Income Taxes**

The effective tax rate decreased to 31.8 percent in the third quarter of 2008, from 33.1 percent in the comparable period in 2007, primarily as a result of tax law changes and an increase in tax-exempt interest earnings. For the full 2008 fiscal year, the Company estimates an effective tax rate between 33.0 percent and 33.5 percent, compared to an effective rate of 33.9 percent and 34.5 percent for the first nine months of 2008 and 2007, respectively.

Other

In February 2008, the Company incurred a storm-related loss at a third-party distribution center in Memphis, Tennessee. Although the extent of the financial loss has not yet been determined, the Company expects proceeds from insurance coverage to substantially offset any financial impact. In addition, the Company does not expect a material disruption of business related to the incident.

Financial Condition Liquidity and Capital Resources

(Dollars in thousands)	Nine Months Ended January	
	2008	31, 2007
Net cash provided by operating activities	\$ 178,422	\$ 212,042
Net cash used for investing activities	\$ (188,689)	\$ (17,086)
Net cash provided by (used for) financing activities	\$ 132,911	\$ (111,418)

The Company's principal source of funds is cash generated from operations, supplemented by borrowings against the Company's revolving credit instrument. Total cash and investments at January 31, 2008, were \$344.9 million compared to \$244.2 million at April 30, 2007.

The Company's working capital requirements are greatest during the first half of its fiscal year, primarily due to the need to build inventory levels in advance of the fall bake season, the seasonal procurement of fruit, and the purchase of raw materials used in the Company's pickle and relish business in Canada. The acquisition of the Eagle business added further to the cash requirements during the first half of the year.

Cash provided by operating activities was approximately \$178.4 million during the first nine months of 2008. The positive cash generated by operations resulted primarily from net income plus noncash charges. However, cash provided by operating activities decreased \$33.6 million in the first nine months of 2008 compared to 2007, primarily resulting from an increase in trade receivables, inventory, and other working capital items due to recent acquisitions and generally higher raw material costs.

Net cash used for investing activities was approximately \$188.7 million in the first nine months of 2008 consisting of \$167.0 million used for business acquisitions, primarily Eagle and the *Carnation* canned milk brand in Canada, and capital expenditures of approximately \$53.6 million.

Cash provided by financing activities during the first nine months of 2008 consisted primarily of the Company's issuance of \$400 million in senior notes on May 31, 2007, offset by the repayment of \$148 million of debt, including \$115 million assumed in the Eagle acquisition, dividend payments of \$51.5 million, and \$86.3 million used to purchase treasury shares.

The purchase of treasury shares was comprised largely of 1,631,000 common shares under the Board of Director's authorized share repurchase program, including 1.5 million common shares under a previously announced Rule 10b5-1 trading plan. At its January 2008 meeting, the Company's Board authorized a five million common share increase to its share repurchase program. On February 20, 2008, the Company entered into a Rule 10b5-1 trading plan (the Plan) to facilitate the repurchase of up to one million common shares under the share repurchase program. The share purchase period under the Plan

Table of Contents

commenced on February 21, 2008. Purchases under the Plan will be transacted by a broker and will be based upon the guidelines and parameters of the Plan.

Share repurchases outside the Plan will occur at management's discretion. There is no guarantee as to the exact number of shares that may be repurchased. Since January 2005, the Company has repurchased nearly five million common shares.

Absent any material acquisitions or other significant investments, the Company believes that cash on hand and investments, combined with cash provided by operations, and borrowings available under the revolving credit facility, will be sufficient to meet 2008 cash requirements, including the payment of dividends, interest on debt outstanding, and the repurchase of common shares, if applicable.

Contractual Obligations

The following table summarizes the Company's contractual obligations at January 31, 2008.

(Dollars in millions)	Total	Less Than One Year	One to Three Years	Three to Five Years	More Than Five Years
Long-term debt obligations	\$ 790.4	\$	\$ 290.4	\$	\$ 500.0
Operating lease obligations	8.7	0.4	2.8	2.3	3.2
Purchase obligations	773.7	270.8	485.7	7.2	10.0
Other long-term liabilities	277.3				277.3
Total	\$ 1,850.1	\$ 271.2	\$ 778.9	\$ 9.5	\$ 790.5

Purchase obligations in the above table include agreements to purchase goods or services that are enforceable and legally binding on the Company. Included in this category are certain obligations related to normal, ongoing purchase obligations in which the Company has guaranteed payment to ensure availability of raw materials and packaging supplies. The Company expects to receive consideration for these purchase obligations in the form of materials. The purchase obligations in the above table do not represent the entire anticipated purchases in the future, but represent only those items for which the Company is contractually obligated.
