Item 8.01. Other Events

On April 13, 2006, Medicis Pharmaceutical Corporation (Medicis) filed a proxy statement with the Securities and Exchange Commission relating to its 2006 Annual Meeting of Stockholders to be held on May 23, 2006. In the proxy statement, Medicis submitted a proposal to approve the Medicis 2006 Incentive Award Plan (the Plan).

In awarding stock-based compensation, Medicis supports appropriate steps to control its equity burn rate. To calculate Medicis equity burn rate percentage, the sum of the total number of shares represented by stock options granted in a fiscal year, plus two times the total number of shares of restricted stock or other stock awards awarded in that year, is divided by the gross number of shares outstanding at the end of that year.

In connection with the Plan, Medicis commits to maintain an average annual equity burn rate over the next three fiscal years (2006-2008) not exceeding 5.57% per year. This burn rate corresponds to the current mean plus one standard deviation of the Standard & Poor s Global Industry Classification Standards peer group pertinent to Medicis.
