VIAD CORP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Basis of Preparation and Principles of Consolidation

The accompanying unaudited consolidated financial statements of Viad Corp (Viad or the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

For further information, refer to the consolidated financial statements and related footnotes for the year ended December 31, 2006, included in the Company's Form 10-K (File No. 001-11015), filed with the Securities and Exchange Commission on March 1, 2007.

The consolidated financial statements include the accounts of Viad and all of its subsidiaries. All significant intercompany account balances and transactions between Viad and its subsidiaries have been eliminated in consolidation. Viad's reporting segments consist of: GES Exposition Services, Inc. (GES), Exhibitgroup/Giltspur (Exhibitgroup) and Travel and Recreation Services. The Travel and Recreation Services segment consists of Brewster Inc. (Brewster) and Glacier Park, Inc. (Glacier Park), and their related affiliates. Glacier Park is an 80 percent owned subsidiary of Viad.

Note 2. Share-Based Compensation

Viad has granted share-based compensation awards to officers, directors and certain key employees pursuant to the 1997 Viad Corp Omnibus Incentive Plan (the 1997 Plan) including the following types of awards: (a) incentive and non-qualified stock options, (b) restricted stock and (c) performance-based awards. The 1997 Plan had a ten-year life and terminated effective May 31, 2007. Therefore, no further awards will be made from the 1997 Plan after May 31, 2007. Existing awards from the 1997 Plan will continue to vest and be exercisable until such time that all awards have either vested, been exercised, been forfeited or expired. On May 15, 2007, at the 2007 Annual Meeting of Shareholders, the 2007 Viad Corp Omnibus Incentive Plan (the 2007 Plan) was approved by the Company's shareholders. The 2007 Plan, also with a ten-year life, provides for the following types of awards to officers, directors and certain other employees: (a) incentive and non-qualified stock options; (b) restricted stock and restricted stock units; (c) performance units or performance shares; (d) stock appreciation rights; (e) cash-based awards and (f) certain other stock-based awards. The number of shares of common stock available for grant under the 2007 Plan is limited to 1,700,000 shares plus shares awarded under the 1997 Plan that subsequently cease for any reason to be subject to such awards (other than by reason of exercise or settlement of the awards to the extent the shares are exercised for, or settled in, vested and non-forfeited shares) up to an aggregate maximum of 1,500,000 shares. All awards granted after May 31, 2007 were made from the 2007 Plan.

Viad issues shares related to its share-based compensation awards from its Employee Equity Trust and from shares held in treasury. Viad has the authority to repurchase common stock for the purpose of replacing shares issued upon exercise of stock options and in connection with other stock compensation plans. There were no repurchases of common stock under this program during the nine months ended September 30, 2007 or 2006. As of September 30, 2007, all shares in the Employee Equity Trust had been utilized.

Total share-based compensation expense recognized in the consolidated financial statements during the three months ended September 30, 2007 and 2006 was \$1.1 million and \$3.0 million, respectively, and \$7.2 million and \$7.1 million during the nine months ended September 30, 2007 and 2006, respectively. Furthermore, the total tax benefits related to such costs were \$412,000 and \$1.1 million for the three months ended September 30, 2007 and 2006, respectively, and \$2.7 million for the nine months ended September 30, 2007 and 2006. No share-based compensation costs were capitalized during the nine months ended September 30, 2007 or 2006.

Table of Contents

The following table summarizes stock option activity during the nine months ended September 30, 2007:

	Shares	Weighted-Average Exercise Price	Options Exercisable
Options outstanding at January 1, 2007	836,912	\$ 24.19	600,707
Granted	21,400	38.44	
Exercised	(100,311)	21.79	
Forfeited	(13,922)	26.12	
Options outstanding at September 30, 2007	744,079	24.88	561,413

The following table summarizes information concerning stock options outstanding and exercisable as of September 30, 2007:

Range of Exercise Prices	Options Outstanding			Options Exercisable	
	Shares	Weighted-Average Remaining Contractual Life	Weighted-Average Exercise Price	Shares	Weighted-Average Exercise Price
\$18.40 to \$23.28	134,644	5.0 years	\$ 19.61	134,644	\$ 19.61
\$23.32 to \$24.05	176,954	2.6 years	23.76	176,954	23.76
\$24.22 to \$26.07	165,925	3.9 years	25.16	131,101	25.41
\$26.31 to \$26.47	160,230	4.4 years	26.32	59,760	26.32
\$26.49 to \$38.44	106,326	3.8 years	30.82	58,954	28.19
\$18.40 to \$38.44	744,079	3.9 years	24.88	561,413	23.89

In addition to the above, Viad had stock options outstanding which were granted to employees of MoneyGram International, Inc. (MoneyGram) prior to the spin-off of that company as described in Note 16. As of September 30, 2007, there were 77,634 of such options outstanding of which 59,755 were exercisable, both with exercise prices ranging from \$19.57 to \$28.15. The weighted-average remaining contractual life of these options outstanding was approximately 3.6 years. During the nine months ended September 30, 2007, 18,083 options were exercised by MoneyGram employees at exercise prices ranging from \$17.51 to \$28.15.

The aggregate intrinsic value related to stock options outstanding as of September 30, 2007 was \$8.3 million and is based on the weighted-average exercise price and Viad's closing stock price of \$36.00 as of September 30, 2007. The total intrinsic value of stock option awards exercised during the nine months ended September 30, 2007 and 2006 was \$1.7 million and \$1.8 million, respectively. The fair value of stock options that vested during the nine months ended September 30, 2007 and 2006 was \$572,000 and \$2.0 million, respectively. During the nine months ended September 30, 2007 and 2006, Viad received cash proceeds from the exercise of stock options of \$2.0 million and \$5.0 million, respectively. The tax benefits realized for the tax deductions related to the exercise of stock options and vesting of restricted stock and performance-based awards was \$2.2 million and \$7.4 million for the nine months ended September 30, 2007 and 2006, respectively.

Restricted stock awards were granted during the nine months ended September 30, 2007 and 2006, the grant date fair values of which were based on the fair market value on the date of grant. Restricted stock awards vest between three and five years from the date of grant. Viad expects to recognize the unamortized cost of all outstanding awards in the consolidated financial statements over a weighted-average period of approximately 2.2 years. Viad also granted awards of performance-based restricted stock (PBRs) during the nine months ended September 30, 2007 and 2006.

The weighted-average grant date fair values are based on the fair market value on the date of grant. PBRS vests based on the extent to which certain incentive performance targets established in the year of grant are achieved at target levels. PBRS awards are subject to a graded vesting schedule whereby one third of the earned shares vest after the first year, an additional one third after two years and the balance after three years from the date of grant. Share-based compensation expense related to PBRS awards is recognized based on an accelerated multiple-award approach over the requisite service period, which is approximately three years. Viad expects to recognize the unamortized costs of all outstanding awards in the consolidated financial statements over a weighted-average period of approximately 1.8 years.

Page 7

Table of Contents

The following table summarizes restricted stock and PBRS activity during the nine months ended September 30, 2007:

	Restricted Stock		PBRS	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Balance at January 1, 2007	295,225	\$ 30.02	109,788	\$ 28.79
Granted	80,100	38.61	33,400	38.44
Vested	(23,875)	24.12	(51,276)	27.81
Forfeited	(5,650)	31.26		
Balance at September 30, 2007	345,800	32.39	91,912	32.85

Viad has granted awards of units under the performance unit incentive plan (PUP) to key employees pursuant to the 1997 Plan. PUP awards are earned based on the level of achievement of predefined performance goals over a three-year performance period. To the extent earned, the PUP awards will be settled in cash based on the market price of Viad's common stock. The aggregate liability related to PUP awards is recorded at estimated fair value based on the number of units expected to vest, and is remeasured on each balance sheet date until the time of cash settlement. As of September 30, 2007, Viad had a liability recorded of \$9.2 million related to the PUP awards. Share-based compensation expense related to the PUP awards is recognized ratably over the requisite service period, which is approximately three years. There were no PUP awards which vested during the nine months ended September 30, 2007 or 2006. Furthermore, there were no cash settlements of PUP awards or any other share-based compensation awards during such periods.

Note 3. Impairment Losses and Recoveries

During the nine months ended September 30, 2007 and 2006, Viad recorded impairment recoveries related to claims associated with Hurricane Katrina of \$172,000 and \$1.3 million, respectively (including \$72,000 and \$407,000 during the three months ended September 30, 2007 and 2006, respectively). These amounts are included in the consolidated statements of operations under the caption Impairment losses (recoveries). In addition, during the three months ended September 30, 2007, Viad received an additional \$146,000 related to its business interruption insurance claim at Exhibitgroup which is included in the consolidated statements of operations under the caption Business interruption insurance proceeds.

In September 2006, Viad recorded an impairment loss of \$600,000 related to the reduction in value of a non-core asset which was subsequently sold for \$2.0 million in the fourth quarter of 2006. This charge is included in the consolidated statements of operations under the caption Impairment losses (recoveries).

Note 4. Gains on Sale of Corporate Assets

In January 2006, Viad sold its remaining 50 percent interest in its corporate aircraft along with related equipment to MoneyGram for \$10.0 million in cash, resulting in a gain of \$1.7 million. See Note 16. Also in January 2006, Viad sold certain undeveloped land in Phoenix, Arizona for \$2.9 million in cash to an unrelated third party, resulting in a gain of \$1.7 million. These amounts are included in the consolidated statements of operations under the caption Gains on sale of corporate assets.

Note 5. Acquisition of Businesses

On February 1, 2007, Viad completed, through its wholly-owned United Kingdom subsidiary GES Service Companies Limited, the acquisition of Melville Exhibition and Event Services Limited and affiliated company, Corporate Technical Services Limited (collectively Melville). Melville is the leading exhibition services contractor in the United Kingdom and provides a full spectrum of organizer and exhibitor services including shell scheme, electrical and lighting services, display installation and design services and registration and lead retrieval services. The acquisition of Melville expands GES's operations to the major exhibition facilities within the United Kingdom and also provides GES a platform for expansion into other international markets. The Melville companies are wholly-owned

subsidiaries of GES Service Companies Limited. The operating results of Melville have been included in Viad's consolidated financial statements from the date of acquisition.

In connection with the acquisition, the Company paid \$34.4 million in cash and incurred \$565,000 of direct acquisition costs, which were capitalized in the purchase price. In addition, the Company capitalized \$1.3 million of restructuring costs related to the transaction. These costs primarily relate to the planned consolidation of duplicate facilities at Melville, as well as severance and certain other employee benefit costs. The restructuring costs were recognized as a liability on the date of acquisition, which resulted in additional goodwill. See Note 14.

Page 8

Table of Contents

The purchase price allocation involves estimates, which may be adjusted during the allowable allocation period of one year from the date of acquisition. The purchase price allocation has not been finalized and remains subject to future adjustments. The following condensed balance sheet information represents the amounts currently assigned to each major asset and liability caption of Melville as of the date of acquisition:

	(in thousands)
Cash and cash equivalents	\$ 5,848
Accounts receivable	11,383
Other current assets	6,063
Property and equipment	4,978
Goodwill	29,282
Other intangible assets	13,090
 Total assets acquired	 70,644
 Accounts payable	 (16,632)
Customer deposits	(11,035)
Other current liabilities	(5,890)
Other non-current liabilities	(2,102)
 Total liabilities assumed	 (35,659)
 Purchase price	 \$ 34,985

The Company recorded \$29.3 million of goodwill in connection with the transaction, which is included in the GES reporting segment. The entire amount of goodwill related to the Melville acquisition is expected to be deductible for tax purposes over a period of approximately 15 years. The amounts assigned to other intangible assets include \$9.2 million of non-amortizable trademarks and trade names and \$3.8 million of intangible assets subject to amortization. The amortizable intangible assets consist of \$3.1 million of customer relationships, \$393,000 of customer contracts and \$305,000 of other intangible assets. The amortizable intangible assets are expected to be amortized in the consolidated financial statements over a weighted-average amortization period of approximately 5.0 years. See Note 8.

The following table summarizes the unaudited pro forma results of operations of Viad for the three and nine months ended September 30, 2007 and 2006, assuming that the acquisition of Melville had been completed at the beginning of each period:

	Three months ended September 30,		Nine months ended September 30,

On April 13, 2007, Brewster acquired Lake Minnewanka Boat Tours, a tour boat operator in Banff, Alberta, Canada, for \$2.2 million in cash including direct acquisition costs. Viad's consolidated financial statements include the results of operations of the acquired company from the date of acquisition. The historical results of operations of the acquired company were not significant to Viad's consolidated results of operations for the periods presented. The preliminary allocation of the aggregate purchase price includes: tangible assets of \$1.9 million, assumed liabilities of \$456,000, goodwill of \$490,000 and other intangible assets of \$277,000. The amounts assigned to other intangible assets include \$85,000 of intangible assets subject to amortization. The Company recorded \$490,000 of goodwill in connection with the transaction, which is included in the Travel and Recreation Services reporting segment. The total amount of recorded goodwill is not expected to be deductible for tax purposes. The purchase price allocation has not been finalized and remains subject to future adjustments.

On June 29, 2007, GES acquired Poitras Exposition Services, a convention services contractor in Quebec City, Canada, for an aggregate purchase price of \$2.2 million including direct acquisition costs. Pursuant to the terms of the purchase agreement, GES paid \$1.8 million of the total purchase price on the acquisition date. The remaining consideration is subject to adjustment, and is to be paid upon resolution of certain provisions contained in the purchase agreement. Viad's consolidated financial statements include the results of operations of the acquired company from the date of acquisition. The historical results of operations of the acquired company were not significant to Viad's consolidated results of operations for the periods presented. The preliminary allocation of the aggregate purchase price includes: tangible assets of \$728,000 (including cash acquired of \$59,000), assumed

Table of Contents

liabilities of \$519,000, goodwill of \$1.4 million and other intangible assets of \$528,000. The amounts assigned to other intangible assets include \$379,000 of intangible assets subject to amortization. The Company recorded \$1.4 million of goodwill in connection with the transaction, which is included in the GES reporting segment. The total amount of recorded goodwill is not expected to be deductible for tax purposes. The purchase price allocation has not been finalized and remains subject to future adjustments.

Note 6. Inventories

The components of inventories were as follows:

	September 30, 2007	December 31, 2006
	(in thousands)	
Raw materials	\$ 27,145	\$ 24,068
Work in process	21,837	19,455
Inventories	\$ 48,982	\$ 43,523

Note 7. Property and Equipment

Property and equipment consisted of the following:

	September 30, 2007	December 31, 2006
	(in thousands)	
Land	\$ 27,478	\$ 24,375
Buildings and leasehold improvements	90,482	80,831
Equipment and other	258,379	225,883
	376,339	331,089
Accumulated depreciation	(216,027)	(195,131)
Property and equipment, net	\$ 160,312	\$ 135,958

Depreciation expense for the three months ended September 30, 2007 and 2006 was \$5.7 million and \$5.0 million, respectively, and for the nine months ended September 30, 2007 and 2006 was \$16.2 million and \$14.8 million, respectively.

Note 8. Goodwill and Other Intangible Assets

The changes in the carrying amount of goodwill for the nine months ended September 30, 2007 were as follows:

	GES	Travel and Recreation (in thousands)	Total
Balance at January 1, 2007	\$ 149,490	\$ 34,664	\$ 184,154
Business acquisitions	30,698	490	31,188
Foreign currency translation adjustments	3,542	7,301	10,843
Balance at September 30, 2007	\$ 183,730	\$ 42,455	\$ 226,185

Table of Contents

A summary of other intangible assets as of September 30, 2007 is presented below:

	Gross Carrying Value	Accumulated Amortization (in thousands)	Net Carrying Value
Amortized intangible assets:			
Customer-related intangibles	\$ 5,115	\$ (1,177)	\$ 3,938
Other	1,107	(442)	665
	6,222	(1,619)	4,603
Unamortized intangible assets:			
Trademarks and trade names	9,928		9,928
Marketing-related intangible	30		30
	9,958		9,958
Total	\$ 16,180	\$ (1,619)	\$ 14,561

A summary of other intangible assets as of December 31, 2006 is presented below:

	Gross Carrying Value	Accumulated Amortization (in thousands)	Net Carrying Value
Amortized intangible assets:			
Customer-related intangibles	\$ 901	\$ (481)	\$ 420
Other	589	(205)	384
	1,490	(686)	804
Unamortized intangible assets:			
Marketing-related intangible	30		30
Total	\$ 1,520	\$ (686)	\$ 834

Intangible asset amortization expense for the three months ended September 30, 2007 and 2006 was \$312,000 and \$69,000, respectively, and \$774,000 and \$207,000 for the nine months ended September 30, 2007 and 2006, respectively. The estimated weighted-average amortization period of amortized intangible assets as of September 30, 2007 was approximately 4.4 years. Estimated amortization expense related to amortized intangible assets for future periods is expected to be as follows:

	(in thousands)
2007	\$ 321

2008	\$ 1,260
2009	\$ 978
2010	\$ 833
2011 and thereafter	\$ 1,211

Table of Contents**Note 9. Accrued Liabilities and Other**

Other current liabilities consisted of the following:

	September 30, 2007	December 31, 2006
	(in thousands)	
Continuing operations:

Other	2,456	2,867
	20,160	20,254
Total other deferred items and liabilities	\$ 86,408	\$ 67,314

Table of Contents**Note 10. Debt**

As of September 30, 2007, Viad's total debt of \$14.4 million consisted of \$5.0 million of capital lease obligations and a \$9.4 million borrowing under the Company's secured revolving credit agreement (the "Credit Facility") which was amended June 15, 2006. The Credit Facility provides for a \$150 million revolving line of credit, which may be increased up to an additional \$75 million under certain circumstances. The term of the Credit Facility is five years (expiring on June 15, 2011) and borrowings are to be used for general corporate purposes (including permitted acquisitions) and to support up to \$75 million of letters of credit. The lenders have a first perfected security interest in all of the personal property of Viad and GES, including 65 percent of the capital stock of top-tier foreign subsidiaries.

Borrowings under the Credit Facility (of which GES is a guarantor) are indexed to the prime rate or the London Interbank Offering Rate, plus appropriate spreads tied to Viad's leverage ratio. Commitment fees and letters of credit fees are also tied to Viad's leverage ratio. Financial covenants include a minimum consolidated net worth requirement of not less than \$344.6 million plus 50 percent of positive quarterly net income earned in each fiscal quarter beginning with the quarter ended June 30, 2006 plus net cash proceeds from all issuances of capital stock minus the amount of capital stock repurchased, a fixed-charge coverage ratio of not less than 1.25 to 1 and a leverage ratio of not greater than 2.75 to 1. Significant other covenants include limitations on: investments, common stock dividends, stock repurchases, additional indebtedness, sales/leases of assets, acquisitions, consolidations or mergers and liens on property. Effective August 27, 2007, the Credit Facility was amended to permit Viad to repurchase an additional \$50 million of its common stock (\$110 million in total) during the term of the Credit Facility. As of September 30, 2007, Viad was in compliance with all covenants.

Note 11. Income Per Share

A reconciliation of the numerators and denominators of diluted and basic per share computations for income from continuing operations is as follows:

	Three months ended September 30, 2007		Nine months ended September 30, 2007	
		2006		2006
	(in thousands, except per share data)			
Income from continuing operations	\$ 8,575	\$ 22,023	\$ 40,912	\$ 54,363
Weighted-average outstanding common shares	20,345	21,121	20,521	21,456
Additional dilutive shares related to share-based compensation	442	303	444	394
Weighted-average outstanding and potentially dilutive common shares	20,787	21,424	20,965	21,850
Diluted income per share from continuing operations	\$ 0.41	\$ 1.03	\$ 1.95	\$ 2.49
Basic income per share from continuing operations	\$ 0.42	\$ 1.04	\$ 1.99	\$ 2.53

Options to purchase 17,000 shares of common stock were outstanding during the nine months ended September 30, 2007 but were not included in the computation of diluted income per share because the effect would be anti-dilutive. No options were anti-dilutive during the nine months ended September 30, 2006, and therefore, no options were

excluded from the computation of diluted income per share for that period.

Page 13

Table of Contents**Note 12. Income Taxes**

A reconciliation of income tax expense and the amount that would be computed using statutory federal income tax rates for the nine months ended September 30 is as follows:

	2007		2006	
	(in thousands)			
Computed income tax expense at statutory federal income tax rate of 35%	\$ 22,298	35.0%	\$ 24,985	35.0%
State income taxes, net of federal benefit	1,989	3.1%	2,632	3.7%
Tax resolutions and refunds	(1,906)	(3.0%)	(10,000)	(14.0%)
Other, net	(409)	(0.6%)	(1,232)	(1.7%)
Income tax expense	\$ 21,972	34.5%	\$ 16,385	23.0%

Viad is subject to regular and recurring audits by the taxing authorities in the jurisdictions in which the Company conducts or had previously conducted operations. These include U.S. federal and most state jurisdictions, and certain foreign jurisdictions including Canada, the United Kingdom and Germany.

Effective January 1, 2007, Viad adopted Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), an interpretation of Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes. FIN 48 provides guidance on how to address uncertainty in accounting for income tax assets and liabilities and prescribes a more-likely-than-not threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition of income tax assets and liabilities, accounting for interest and penalties associated with tax positions, accounting for income taxes in interim periods and income tax disclosures. As of January 1, 2007, the cumulative effect of applying the provisions of FIN 48 resulted in a net decrease to retained earnings of \$10.0 million, an increase to accrued income taxes of \$13.2 million and an increase to deferred tax assets of \$3.2 million.

Viad exercises significant judgment in determining its income tax provision due to transactions, credits and calculations where the ultimate tax determination is uncertain. As of September 30, 2007 and January 1, 2007 (date of adoption), Viad had accrued gross liabilities associated with uncertain tax positions for continuing operations of \$14.3 million and \$15.7 million, respectively. In addition, as of September 30, 2007 and January 1, 2007, Viad had accrued interest and penalties related to uncertain tax positions for continuing operations of \$5.4 million and \$5.1 million, respectively. Upon adoption of FIN 48, the Company elected to continue to classify interest and penalties related to income tax liabilities as a component of income tax expense. During the three months ended September 30, 2007 and 2006, Viad recorded tax-related interest expense of \$343,000 and \$319,000, respectively. During the nine months ended September 30, 2007 and 2006, Viad recorded tax-related interest expense of \$937,000 and \$1.1 million, respectively.

In addition to the above, Viad had accrued gross liabilities associated with uncertain tax positions for discontinued operations of \$636,000 as of September 30, 2007 and \$942,000 as of January 1, 2007. In addition, as of September 30, 2007 and January 1, 2007, Viad had accrued interest and penalties related to uncertain tax positions for discontinued operations of \$203,000 and \$971,000, respectively. Future tax resolutions or settlements that may occur related to these uncertain tax positions would be recorded through discontinued operations (net of federal tax effects, if applicable).

The following represents a reconciliation of the total amounts of liabilities associated with uncertain tax positions (excluding interest and penalties) for the nine months ended September 30, 2007:

Continuing Operations	Discontinued Operations	Total
----------------------------------	------------------------------------	--------------

		(in thousands)	
Balance at January 1, 2007	\$ 15,738	\$ 942	\$ 16,680
Additions for tax positions taken in prior years	243		243
Reductions for cash payments	(230)		(230)
Reductions for lapse of applicable statutes	(2,119)	(306)	(2,425)
Foreign exchange effects	635		635
Balance at September 30, 2007	\$ 14,267	\$ 636	\$ 14,903

Table of Contents

As of September 30, 2007, the entire amount of unrecognized tax benefits for continuing operations of \$14.3 million (excluding federal income tax effects of \$2.9 million) would favorably affect Viad's effective tax rate, if recognized, as the related uncertain tax positions are permanent in nature. However, if amounts accrued are less than amounts ultimately assessed by the taxing authorities, Viad would record additional income tax expense. To the extent that the Company has favorable tax settlements, or determines that accrued amounts are no longer needed due to a lapse in the applicable statute of limitations or other reasons, such liabilities would be reversed as a reduction of income tax expense (net of federal tax effects, if applicable) in the period such determination is made. The Company believes that it is reasonably possible that approximately \$7.1 million (excluding federal income tax effects of \$596,000) of its uncertain tax positions could be resolved or settled within the next 12 months which would reduce the amount of accrued income taxes payable. If such tax resolutions or settlements occur, they could result in cash payments, the recognition of additional income tax expense, or the reversal of accrued income taxes which may impact Viad's effective tax rate in future periods.

Viad's 2004 through 2006 U.S. federal tax years and various state tax years from 2002 through 2006 remain subject to income tax examinations by tax authorities. In addition, tax years from 2001 through 2006 related to Viad's foreign taxing jurisdictions also remain subject to examination.

In conjunction with the adoption of FIN 48, Viad has classified liabilities associated with uncertain tax positions as non-current liabilities in Viad's consolidated balance sheet unless they are expected to be paid within the next year. As of September 30, 2007 and January 1, 2007, liabilities associated with uncertain tax positions (including interest and penalties) of \$20.0 million and \$17.0 million, respectively, were classified as non-current liabilities.

Note 13. Pension and Postretirement Benefit Plans

The net periodic benefit cost of Viad's pension and postretirement benefit plans for the three months ended September 30 included the following components:

	Pension Plans		Postretirement Benefit Plans	
	2007	2006	2007	2006
	(in thousands)			
Service cost	\$ 76	\$ 44	\$ 17	\$ 17
Interest cost	313	285	244	252
Expected return on plan assets	(186)	(199)	(93)	(70)
Amortization of prior service cost (credit)	51	52	(362)	(291)
Recognized net actuarial loss	109	114	99	
Net periodic benefit cost (credit)	\$ 363	\$ 296	\$ (95)	\$ (92)

For the nine months ended September 30, the net periodic benefit cost for Viad's pension and postretirement benefit plans included the following components:

	Pension Plans		Postretirement Benefit Plans	
	2007	2006	2007	2006
	(in thousands)			
Service cost	\$ 172	\$ 148	\$ 55	\$ 59
Interest cost	868	845	780	896
Expected return on plan assets	(558)	(597)	(279)	(212)
Amortization of prior service cost (credit)	155	156	(1,086)	(871)
Recognized net actuarial loss	327	355	371	291
Net periodic benefit cost (credit)	\$ 964	\$ 907	\$ (159)	\$ 163

Viad expects to contribute \$599,000 to its funded pension plans, \$579,000 to its unfunded pension plans and \$600,000 to its postretirement benefit plans in 2007. As of September 30, 2007, Viad had contributed \$528,000 to its funded pension plans, \$425,000 to its unfunded pension plans and \$548,000 to its postretirement benefit plans.

Page 15

Table of Contents**Note 14. Restructuring Charges and Recoveries**

During the nine months ended September 30, 2007, Exhibitgroup recorded restructuring charges totaling \$2.0 million consisting of severance and other employee benefits associated with an organizational realignment. As of September 30, 2007, a liability remained of \$251,000 which was included in the consolidated balance sheets under the caption Other current liabilities. This liability is expected to be paid by the end of 2007. Additionally, in conjunction with the acquisition of Melville, GES recorded a restructuring liability of \$1.3 million consisting primarily of costs associated with the planned consolidation of duplicate facilities at Melville of \$853,000, certain severance and other employee benefit costs of \$281,000 and other exit costs of \$208,000. GES expects to substantially complete the restructuring activities by December 31, 2007; however, payments due under the long-term lease obligations will continue to be made over the remaining terms of the lease agreements. As of September 30, 2007, there was a remaining liability of \$1.1 million of which \$417,000 was included in the consolidated balance sheets under the caption Other current liabilities and \$648,000 under the caption Other deferred items and liabilities.

In 2004, Viad recorded a restructuring charge resulting from the consolidation of certain leased office space at its corporate headquarters. Viad revises this estimated future obligation annually and during the third quarters of 2007 and 2006 recorded a recovery of \$61,000 and a charge of \$355,000, respectively. As of September 30, 2007, a liability of \$958,000 remained of which \$246,000 was included in the consolidated balance sheets under the caption Other current liabilities and \$712,000 under the caption Other deferred items and liabilities.

In 2002, Viad approved a restructuring plan related to Exhibitgroup and as of September 30, 2007, a liability remained of \$1.1 million (comprised solely of future lease payment obligations) of which \$251,000 and \$865,000 were included in the consolidated balance sheets under the captions Other current liabilities and Other deferred items and liabilities, respectively. In 2001, Viad approved a plan of restructuring and as of September 30, 2007, a liability remained of \$6.4 million (comprised solely of future lease payment obligations), of which \$1.6 million and \$4.8 million were included in the consolidated balance sheets under the captions Other current liabilities and Other deferred items and liabilities, respectively. Payments due under long-term lease obligations will continue to be made over the remaining terms of the lease agreements.

A summary of the changes in Viad's restructuring liability balances as of September 30, 2007 is as follows:

	2007	2002	2001
	Restructuring	Restructuring	Restructuring
		(in	
		thousands)	
Balance at January 1, 2007	\$	\$ 1,277	\$ 7,412
Melville acquisition liability	1,342		
Restructuring charges	1,964		
Cash payments	(1,845)	(161)	(1,062)
Non-cash adjustment	(163)		
Adjustments for change in foreign currency	18		
Balance at September 30, 2007	\$ 1,316	\$ 1,116	\$ 6,350

Note 15. Litigation, Claims and Other Contingencies

Viad and certain of its subsidiaries are plaintiffs or defendants to various actions, proceedings and legal matters including claims and counter-claims. Some of the foregoing involve, or may involve, compensatory, punitive or other damages. Litigation is subject to many uncertainties and it is possible that some of the legal actions, proceedings or claims could be decided against Viad. Although the amount of liability as of September 30, 2007, with respect to certain of these matters is not ascertainable, Viad believes that any resulting liability, after taking into consideration amounts already provided for, including insurance coverage, will not have a material impact on the Company's financial position or results of operations.

Viad is subject to various U.S. federal, state and foreign laws and regulations governing the prevention of pollution and the protection of the environment in the jurisdictions in which Viad has or had operations. If the Company has failed to comply with these environmental laws and regulations, civil and criminal penalties could be imposed and Viad could become subject to regulatory enforcement actions in the form of injunctions and cease and desist orders. As is the case with many companies, Viad also faces exposure to actual or potential claims and lawsuits involving environmental matters relating to its past operations. Although Viad is a party to certain environmental disputes, Viad believes that any resulting liabilities, after taking into consideration amounts already provided for, including insurance coverage, will not have a material impact on the Company's financial position or results of operations. As of September 30, 2007 and December 31, 2006, Viad had recorded environmental remediation liabilities of \$8.5 million and \$9.0 million, respectively, related to previously sold operations.

Table of Contents

Included in GES's results of operations for the nine month period ended September 30, 2007 was \$3.9 million related to the favorable resolution of a contract dispute.

As of September 30, 2007, Viad had certain obligations under guarantees to third parties on behalf of its subsidiaries. These guarantees are not subject to liability recognition in the consolidated financial statements and primarily relate to leased facilities and credit or loan arrangements with banks, entered into by Viad's subsidiary operations. The Company would generally be required to make payments to the respective third parties under these guarantees in the event that the related subsidiary could not meet its own payment obligations. The maximum potential amount of future payments that Viad would be required to make under all guarantees existing as of September 30, 2007 would be \$31.4 million, of which \$31.3 million related to guarantees on a leased facility and certain equipment expiring through January 2015. As of September 30, 2007, the aggregate guarantees related to credit or lease arrangements with a bank were \$81,000 which expire concurrent with the lease arrangements. There are no recourse provisions that would enable Viad to recover from third parties any payments made under the guarantees. Furthermore, there are no collateral or similar arrangements whereby Viad could recover payments.

Glacier Park operates the concession portion of its business under concession contracts with the U.S. National Park Service (the "Park Service") for Glacier National Park and with the Canadian Government for Waterton Lakes National Park. Glacier Park's 42-year lease with the Canadian Government expires in 2010, with Glacier Park having an option to renew for two additional terms of 42 years each. Glacier Park's original 25-year concession contract with the Park Service that was to expire on December 31, 2005, was extended for two one-year periods and now expires on December 31, 2007. The Park Service, in its sole discretion, may continue extending Glacier Park's concession contract in increments of one to three years. Management believes the Park Service is likely to extend the contract through December 31, 2008. When this contract ultimately expires, Glacier Park will have the opportunity to bid on a new concession contract. If Glacier Park does secure a new contract, possible terms would be for 10, 15 or 20 years. If a new concessionaire is selected by the Park Service, Glacier Park's remaining business would consist of the operations at Waterton Lakes National Park and East Glacier, Montana. In such a circumstance, Glacier Park would be entitled to an amount equal to its possessory interest, which generally means the value of the structures acquired or constructed, fixtures installed and improvements made to the concession property at Glacier National Park during the term of the concessions contract. This value would be based on the reconstruction cost of a new unit of like kind, less physical depreciation, but not to exceed fair market value. Glacier Park generated 19 percent of Travel and Recreation Services' full year 2006 operating income.

Note 16. Related Party Transactions

On June 30, 2004, Viad separated its payment services business from its other businesses by means of a tax-free spin-off. In January 2006, Viad sold its 50 percent interest in its corporate aircraft and certain related equipment to MoneyGram for \$10.0 million in cash, resulting in a gain of \$1.7 million. In conjunction with this sale, a Joint Ownership Agreement that was in place was terminated. In addition, certain members of Viad's Board of Directors are also Directors of MoneyGram.

Table of Contents**Note 17. Segment Information**

Viad measures profit and performance of its operations on the basis of segment operating income which excludes restructuring charges and recoveries and impairment losses and recoveries. Intersegment sales are eliminated in consolidation and intersegment transfers are not significant. Corporate activities include expenses not allocated to operations. Depreciation and amortization are the only significant non-cash items for the reportable segments. Disclosures regarding Viad's reportable segments with reconciliations to consolidated totals are as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2007	2006	2007	2006
	(in thousands)

Table of Contents**Note 18. Impact of Recent Accounting Pronouncements**

Viad adopted the provisions of FIN 48 on January 1, 2007. Refer to Note 12 for a full discussion of the adoption of FIN 48 and its impact on Viad's consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 emphasizes that fair value is a market-based measurement and not an entity-specific measurement. Accordingly, fair value measurements should be determined based on the assumptions that market participants would use in pricing an asset or liability. SFAS No. 157 generally applies under other accounting pronouncements that require or permit fair value measurements, except for share-based payment transactions and other limited exceptions. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Accordingly, Viad will adopt SFAS No. 157 on January 1, 2008. The Company believes that the adoption of SFAS No. 157 will not have a material impact on its financial position or results of operations.

In September 2006, the FASB also issued SFAS No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires employers to recognize the overfunded or underfunded status of a defined benefit pension plan and also requires employers to measure the funded status of a plan as of the date of its year end statement of financial position. Viad adopted the recognition and disclosure provisions of SFAS No. 158 as of December 31, 2006. However, the requirement to measure plan assets and benefit obligations as of the date of the employer's fiscal year end statement of financial position is effective for fiscal years ending after December 15, 2008. Viad currently utilizes a November 30 measurement date for certain of its pension and postretirement benefit plans and has not yet determined if the adoption of the remaining provisions of SFAS No. 158 will have a material impact on its financial position or results of operations.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, Including an amendment of FASB Statement No. 115. SFAS No. 159 permits companies to choose to measure (on specified election dates) eligible financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings at each subsequent reporting date. The fair value election may generally be applied on an instrument-by-instrument basis (in its entirety) and is irrevocable unless a new election date occurs. SFAS No. 159 is effective as of the beginning of the first fiscal year beginning after November 15, 2007. Accordingly, Viad will adopt SFAS No. 159 on January 1, 2008. The Company believes that the adoption of SFAS No. 159 will not have a material impact on its financial position or results of operations.

Note 19. Common Stock Repurchases

During 2006, Viad announced its intent, under an authorization by its Board of Directors, to repurchase up to an aggregate of two million shares of the Company's common stock from time to time at prevailing prices in the open market. On August 8, 2007, Viad announced its intent to purchase an additional one million shares of common stock from time to time at prevailing prices in the open market. Shares purchased in 2006 totaled 1,476,500 shares for an aggregate of \$49.4 million. During the nine months ended September 30, 2007, Viad repurchased an additional 781,700 shares for \$28.2 million. Viad also has the authority to repurchase common stock for the purpose of replacing shares issued upon exercise of stock options and in connection with other stock compensation plans. The last repurchase by Viad under this program was May 2003.

Note 20. Discontinued Operations

During the nine months ended September 30, 2007 and 2006, Viad recorded income from discontinued operations of \$65,000 and \$11.0 million, respectively. Of these amounts, \$65,000 and \$3.6 million, respectively, primarily related to tax and other matters associated with previously sold operations. Also included in the nine months ended September 30, 2006 was \$7.4 million related to the reversal of certain current liabilities as a result of the expiration of product warranty liabilities associated with a previously sold manufacturing operation.

Note 21. Subsequent Events

In October 2007, Viad received \$2.6 million related to the settlement of a real estate participation interest associated with a parcel of land sold by a discontinued operation several years ago. The settlement amount will be recorded as income from discontinued operations, net of tax, in the fourth quarter of 2007.

In November 2007, the Company acquired the assets of Ethnometrics Corp for \$1.0 million in cash. Ethnometrics provides consulting and analytical services to exhibition and event organizers and exhibitors. Its results will be included in the GES reporting segment.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with Viad Corp's consolidated financial statements and related notes. This discussion contains forward-looking statements that involve risks and uncertainties. Viad Corp's actual results could differ materially from those anticipated due to various factors discussed under "Forward-Looking Statements" and elsewhere in this quarterly report.

Overview:

Viad Corp (Viad or the Company) operates in three reportable business segments as follows:

GES GES Exposition Services, Inc. (GES) and its affiliates provide exhibition and event services throughout North America and in the United Kingdom consisting of: show planning and production; floor plan design and layout; decorating, graphics and signage, and furniture, carpet and fixture procurement and rental. These services are provided to a variety of show organizers, including venues, trade associations and show management companies. GES's customer base also includes exhibitors for which GES provides exhibit design, construction, refurbishment, storage and rental services, including related show services such as logistics and transportation, material handling, electrical, plumbing, rigging and cleaning, and exhibit installation and dismantling. With the acquisition of Melville Exhibition and Event Services Limited and its affiliated company, Corporate Technical Services Limited, (collectively Melville) in February 2007, GES expanded its operations to the major exhibition facilities in the United Kingdom. Melville also provides GES a platform for expansion into other international markets.

Exhibitgroup Exhibitgroup/Giltspur (Exhibitgroup) and its affiliates are a global face-to-face marketing company that specialize in the custom design, fabrication, installation, dismantling and warehousing of exhibition and event exhibits and displays. Full service capabilities include online ordering and e-services, program management, measurement and training services, and event, retail and integrated marketing solutions for clients in diversified industries that participate in exhibitions, corporate and specialty events, road shows and other face-to-face marketing. Exhibitgroup also refurbishes and leases exhibits, designs and builds retail merchandising units, kiosks and permanent displays and provides exhibit transportation.

Travel and Recreation Services Brewster Inc. (Brewster) provides tourism services in the Canadian Rockies in Alberta and in other parts of Western Canada. Brewster's operations include the Banff Gondola, Columbia Icefield Ice Explorer Tours, motorcoach services, charter and sightseeing services, tour boat operations, inbound package tour operations and hotel operations. Glacier Park, Inc. (Glacier Park) operates four historic lodges and three motor inns and provides food and beverage operations, retail operations and tour and transportation services in and around Glacier National Park in Montana and Waterton Lakes National Park in Alberta, Canada. Glacier Park is an 80 percent owned subsidiary of Viad.

The following are financial highlights of the third quarter of 2007 as compared to the third quarter of 2006 that are presented in accordance with accounting principles generally accepted in the United States of America (GAAP):

Viad Corp (Consolidated)

Total revenues of \$228.8 million, a slight decrease from 2006 revenue of \$230.5 million

Net income of \$8.5 million versus \$23.5 million in 2006

Diluted income per share of \$0.41 versus \$1.10 in 2006

Cash and cash equivalents totaled \$147.7 million as of September 30, 2007

Debt was \$14.4 million as of September 30, 2007

Viad repurchased 505,400 shares of its common stock for \$17.7 million

GES

Revenues of \$151.6 million, comparable to 2006 revenue of \$151.7 million

Segment operating loss of \$2.7 million, compared to income of \$9.6 million in 2006

Exhibitgroup

Revenues of \$26.8 million, a decrease of 16.0 percent from 2006

Segment operating loss of \$6.2 million, compared to a loss of \$2.8 million in 2006

A restructuring charge of \$754,000 (\$458,000 after-tax) related to personnel changes that support the organizational realignment at Exhibitgroup

Travel and Recreation Services

Revenues of \$50.3 million, an increase of 7.4 percent from 2006

Segment operating income of \$22.1 million, an increase of 6.1 percent from 2006

Page 20

Table of Contents**Non-GAAP Measure:**

The following discussion includes a presentation of Adjusted EBITDA which is utilized by management to measure the profit and performance of Viad's operations and to facilitate period to period comparisons. Adjusted EBITDA is defined by Viad as net income before interest expense, income taxes, depreciation and amortization, impairment losses and recoveries, changes in accounting principles and the effects of discontinued operations. Adjusted EBITDA is considered a useful operating metric as potential variations arising from taxes, depreciation, debt service costs, impairment losses and recoveries, changes in accounting principles and the effects of discontinued operations are eliminated, thus resulting in an additional measure considered to be indicative of Viad's ongoing operations. Adjusted EBITDA is also used by management to assess Viad's ability to service debt, fund capital expenditures and finance growth. The presentation of Adjusted EBITDA is supplemental to results presented under GAAP and may not be comparable to similarly titled measures used by other companies. This non-GAAP measure should be considered in addition to, but not a substitute for, other measures of financial performance and liquidity reported in accordance with GAAP.

Management believes that the presentation of Adjusted EBITDA provides useful information to investors regarding Viad's results of operations for trending, analyzing and benchmarking the performance and value of Viad's business. Management uses Adjusted EBITDA primarily as a performance measure and believes that the GAAP financial measure most directly comparable to this non-GAAP measure is net income. Although Adjusted EBITDA is used as a financial measure to assess the performance of the business, the use of Adjusted EBITDA is limited because it does not consider material costs, expenses and other items necessary to operate the business. These items include debt service costs, non-cash depreciation and amortization expense associated with long-lived assets, expenses related to U.S. federal, state, local and foreign income taxes, impairment losses or recoveries, and the effects of accounting changes and discontinued operations. Because Adjusted EBITDA does not consider the above items, a user of Viad's financial information should consider net income as an important measure of financial performance because it provides a more complete measure of the Company's performance.

A reconciliation of Adjusted EBITDA to net income is as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2007	2006	2007	2006
	(in thousands)			
Adjusted EBITDA	\$ 16,722	\$ 30,108	\$ 80,929	\$ 86,361
Interest expense	(407)	(444)	(1,252)	(1,219)
Income tax expense	(1,843)	(2,429)	(21,972)	(16,385)
Depreciation and amortization	(5,969)	(5,019)	(16,965)	(15,044)
Impairment recoveries (losses)	72	(193)	172	650
Income (loss) from discontinued operations	(37)	1,496	65	11,026
Net income	\$ 8,538	\$ 23,519	\$ 40,977	\$ 65,389

The decrease in Adjusted EBITDA of \$13.4 million for the third quarter of 2007 compared to the third quarter of 2006 was primarily driven by lower segment operating income at GES and Exhibitgroup, partially offset by higher segment operating income at Travel and Recreation Services and lower corporate costs. The decrease in Adjusted EBITDA of \$5.4 million for the first nine months of 2007 compared to 2006 was primarily due to a decrease in segment operating income at Exhibitgroup and unfavorable net restructuring charges, interest income and the 2006 gain on sale of corporate assets. This was partially offset by an increase in segment operating income at GES and Travel and Recreation Services and lower corporate costs.

See Results of Operations below for a discussion of fluctuations.

Results of Operations:**Comparison of Third Quarter of 2007 to the Third Quarter of 2006**

In the third quarter of 2007, revenues were \$228.8 million compared to \$230.5 million in the third quarter of 2006. The slight decrease was primarily due to negative show rotation at GES and Exhibitgroup, mostly offset by the acquisition of Melville and strong base same-show growth and new business at GES. Income before income taxes and minority interest was \$11.3 million for the third quarter of 2007, compared to \$25.2 million in the third quarter of 2006. Viad's income from continuing operations for the third quarter of 2007 was \$8.6 million, or \$0.41 per diluted share, as compared to \$22.0 million, or \$1.03 per diluted share, in the third quarter of 2006. The decrease was mainly due to a decline in segment operating income from 2006 driven by negative show rotation as well as higher favorable resolution of tax matters of \$5.8 million in the third quarter of 2006 as compared to \$1.9 million in the third quarter of 2007.

Net income for the third quarter of 2007 was \$8.5 million, or \$0.41 per diluted share, including a loss from discontinued operations of \$37,000 primarily related to tax and other matters associated with previously sold operations. This compares to net

Table of Contents

income of \$23.5 million, or \$1.10 per diluted share, in the third quarter of 2006, which included income from discontinued operations of \$1.5 million primarily related to tax and other matters associated with previously sold operations.

GES. Revenues for GES were \$151.6 million for the third quarter of 2007, comparable to \$151.7 million in the third quarter of 2006. Negative show rotation revenue of \$34 million was mostly offset by \$20.4 million in revenue from Melville, strong base same-show growth of 10.9 percent and new business at GES's North American operations. Management defines base same-show revenue growth as growth in exhibitions and events that occur in the same quarter and same city every year. Base same shows represented approximately 45 percent of GES's revenue in the third quarter of 2007.

Segment operating loss was \$2.7 million in the third quarter of 2007, down from income of \$9.6 million in the third quarter of 2006. The decrease was primarily due to the negative show rotation and an expected operating loss at Melville on seasonally lower revenues. An increase in insurance claims expense and cost overruns on certain shows also contributed to the operating loss in the third quarter of 2007.

In general, the exhibition and event industry is experiencing continued signs of modest growth in terms of square footage and number of exhibitors; however the pricing environment is somewhat challenging. The prospects for individual shows tend to be driven by the success of the industry related to those shows. GES has a diversified revenue base and is generally insulated from industry-specific trends.

GES and Exhibitgroup are subject to multiple collective bargaining agreements that affect labor costs, about one-third of which expire each year. Although labor relations between the companies and labor are currently stable, disruptions during future contract negotiations could occur, with the possibility of an adverse impact on the operating results of GES and/or Exhibitgroup.

Exhibitgroup. Revenues for Exhibitgroup were \$26.8 million for the third quarter of 2007, down 16.0 percent from \$32.0 million for the third quarter of 2006. The decrease was primarily due to negative show rotation from the Farnborough Air Show, which contributed approximately \$10 million in revenue during the third quarter of 2006, partially offset by a slight increase in domestic and other international business. Segment operating loss was \$6.2 million in the third quarter of 2007, down from a loss of \$2.8 million in the third quarter of 2006. The decrease in Exhibitgroup's operating results was mainly due to negative show rotation in the third quarter of 2007.

Visibility over future revenues continues to be poor and a sustained increase in customer marketing spending on new exhibit construction has not materialized to date. In response to a challenging exhibit market, management is focused on repositioning Exhibitgroup as a marketing services firm to capture a greater share of its clients' marketing budgets by delivering comprehensive, innovative, value-added solutions that enable clients to generate a higher return on their face-to-face marketing investments. Management is also focused on improving the sales pipeline and win rate to drive profitable revenue growth, as well as cost control, productivity enhancements and increased capacity utilization in order to improve profitability in future years.

Travel and Recreation Services. Revenues of the travel and recreation businesses were \$50.3 million, up from \$46.9 million in the third quarter of 2006. Segment operating income was \$22.1 million for the third quarter of 2007, up from \$20.8 million in the 2006 quarter. During the third quarter of 2007, Brewster realized growth in passenger volume at the Banff Gondola and an increase in occupancy and average daily rates at its Mount Royal Hotel. Glacier Park also realized an increase in room revenue at its inns and lodges.

During 2006, approximately 75 percent of revenue and 86 percent of operating income generated in Viad's Travel and Recreation Services segment was derived through its Canadian operations. These operations are largely dependent on foreign customer visitation, and accordingly, increases in the value of the Canadian dollar compared to other currencies could adversely affect customer volumes, and therefore, revenue and operating income in the Travel and Recreation Services segment.

The operating results related to Viad's Canadian subsidiaries were translated into U.S. dollars at weighted-average exchange rates of 0.95 and 0.89 for the third quarter of 2007 and 2006, respectively. Accordingly, Viad's consolidated results of operations have been favorably impacted by the strengthening of the Canadian dollar relative to the U.S. dollar as it relates to the translation of its Canadian operations. Conversely, decreases in the exchange rates may unfavorably impact overall expected profitability and historical period to period comparisons when operating results

are translated into U.S. dollars.

Glacier Park operates the concession portion of its business under concession contracts with the U.S. National Park Service (the Park Service) for Glacier National Park and with the Canadian Government for Waterton Lakes National Park. Glacier Park's 42-year lease with the Canadian Government expires in 2010, with Glacier Park having an option to renew for two additional terms of 42 years each. Glacier Park's original 25-year concession contract with the Park Service that was to expire on December 31, 2005, was extended for two one-year periods and now expires on December 31, 2007. The Park Service, in its sole discretion, may continue extending Glacier Park's concession contract in increments of one to three years. Management believes the Park Service is likely to extend the contract through December 31, 2008. When this contract ultimately expires, Glacier Park will have the opportunity to bid on a new concession contract. If Glacier Park does secure a new contract, possible terms would be

Page 22

Table of Contents

for 10, 15 or 20 years. If a new concessionaire is selected by the Park Service, Glacier Park's remaining business would consist of the operations at Waterton Lakes National Park and East Glacier, Montana. In such a circumstance, Glacier Park would be entitled to an amount equal to its possessory interest, which generally means the value of the structures acquired or constructed, fixtures installed and improvements made to the concession property at Glacier National Park during the term of the concessions contract. This value would be based on the reconstruction cost of a new unit of like kind, less physical depreciation, but not to exceed fair market value. Glacier Park generated 19 percent of Travel and Recreation Services' full year 2006 operating income.

Corporate Activities. Corporate activities totaled \$2.3 million in the third quarter of 2007 compared to \$3.5 million in the third quarter of 2006. The decrease was primarily due to a decrease in share-based compensation expense.

Net Interest Income. Net interest income totaled \$1.1 million in the third quarter of 2007 compared to \$1.6 million in the third quarter of 2006. The decrease was primarily due to lower cash balances in the third quarter of 2007 as compared to 2006 resulting from Viad's acquisitions and share repurchases.

Income Taxes. The effective tax rate in the third quarter of 2007 on income before income taxes and minority interest was 16.3 percent compared to 9.6 percent for the third quarter of 2006. The low rates were primarily due to the favorable resolution of tax matters of \$1.9 million and \$5.8 million in 2007 and 2006, respectively.

Comparison of First Nine Months of 2007 to the First Nine Months of 2006

Revenues for the first nine months of 2007 increased 12.3 percent to \$788.2 million from \$701.7 million in 2006. The increase was primarily driven by the acquisition of Melville, strong base same-show growth and new business at GES. Income before income taxes and minority interest was \$63.7 million for the first nine months of 2007, down 10.8 percent from \$71.4 million for the comparable period in 2006. Income from continuing operations for the first nine months of 2007 was \$40.9 million, or \$1.95 per diluted share, as compared to \$54.4 million, or \$2.49 per diluted share in the comparable period in 2006. The decrease in income from continuing operations for the 2007 period was primarily due to higher income from the favorable resolution of tax matters of \$10.0 million in the first nine months of 2006 versus \$1.9 million in the comparable period in 2007, the 2006 gains on sale of corporate assets of \$3.5 million (\$2.2 million after-tax) and restructuring charges of \$1.9 million (\$1.2 million after-tax) in the first nine months of 2007 versus restructuring recoveries of \$215,000 (\$122,000 after-tax) in 2006.

Net income for the first nine months of 2007 was \$41.0 million, or \$1.95 per diluted share, compared to \$65.4 million, or \$2.99 per diluted share, for the first nine months of 2006. Net income for the 2006 period included income from discontinued operations of \$11.0 million, or \$0.50 per diluted share, which primarily consisted of \$7.4 million (\$11.8 million pre-tax) related to the expiration of product warranty liabilities associated with a previously sold manufacturing operation. Income from discontinued operations in 2006 also included \$3.6 million primarily related to tax and other matters associated with previously sold operations as compared to \$65,000 in the 2007 period.

GES. Revenues for GES were \$589.3 million for the first nine months of 2007, an increase of 14.4 percent as compared to \$515.2 million in the first nine months of 2006. The increase was primarily due to \$69.9 million in revenue from the acquisition of Melville, strong base same-show growth of 11.1 percent and new business. Base same shows represented approximately 41 percent of GES's revenue in the 2007 period. Segment operating income was \$51.5 million in the first nine months of 2007, up 2.2 percent from \$50.4 million in the 2006 period. Operating margins were 8.7 percent in the first nine months of 2007 as compared to 9.8 percent in the first nine months of 2006. The decline in operating margins was due mainly to the relatively lower margins at Melville. In addition, GES realized an increase in certain insurance-related expenses and cost overruns on certain shows during the 2007 period.

Exhibitgroup. Exhibitgroup's revenue was \$122.7 million for the first nine months of 2007, an increase of 8.0 percent from the 2006 amount of \$113.6 million. The revenue growth reflects positive results from Exhibitgroup's initiatives to reposition the company and to improve its sales pipeline and win rate. Segment operating loss in the first nine months of 2007 was \$6.3 million, versus a loss of \$3.2 million in the first nine months of 2006. The decline in operating results was largely due to investments in those initiatives.

Travel and Recreation Services. Revenues of the Travel and Recreation Services segment were \$76.2 million in the first nine months of 2007, as compared to \$73.0 million in 2006. Segment operating income was \$24.2 million for

the first nine months of 2007, comparable to \$23.9 million for the first nine months of 2006. During the 2007 period, Brewster realized growth in passenger volume at the Banff Gondola and increased room revenue at its Mount Royal Hotel. Glacier Park also realized an increase in room revenues at its inns and lodges.

The operating results related to Viad's Canadian subsidiaries were translated into U.S. dollars at weighted-average exchange rates of 0.95 and 0.90 for the first nine months of 2007 and 2006, respectively. Accordingly, Viad's consolidated results of operations have been favorably impacted by the strengthening of the Canadian dollar relative to the U.S. dollar as it relates to

Table of Contents

the translation of its Canadian operations. Decreases in the exchange rates may adversely impact overall expected profitability and historical period to period comparisons when operating results are translated into U.S. dollars.

Corporate Activities. Corporate activities totaled \$7.4 million in the first nine months of 2007 compared to \$8.7 million in the first nine months of 2006. The decrease was primarily due to a decrease in share-based compensation expense.

Net Interest Income. Net interest income totaled \$3.4 million in the first nine months of 2007 compared to \$4.6 million in the first nine months of 2006. The decrease was primarily due to lower cash balances in the first nine months of 2007 as compared to 2006 resulting from Viad's acquisitions and share repurchases.

Income Taxes. The effective tax rate on income before income taxes and minority interest in the first nine months of 2007 was 34.5 percent compared to 23.0 percent for the first nine months of 2006. The lower rate in 2006 was primarily due to the favorable resolution of tax matters in the first nine months of 2006 of \$10.0 million as compared to \$1.9 million in 2007.

Liquidity and Capital Resources:

Cash and cash equivalents were \$147.7 million as of September 30, 2007 as compared to \$178.1 million as of December 31, 2006, with the decrease primarily due to the acquisition of businesses, share repurchases and capital expenditures, partially offset by cash provided by operating activities. Management believes that Viad's existing sources of liquidity will be sufficient to fund operations and capital commitments for at least the next 12 months.

Viad's total debt as of September 30, 2007 was \$14.4 million compared to \$15.0 million as of December 31, 2006. The debt-to-capital ratio was 0.030 to 1 as of September 30, 2007 compared with 0.033 to 1 as of December 31, 2006. Capital is defined as total debt and capital lease obligations plus minority interest and common stock and other equity.

Effective June 15, 2006, Viad amended and restated its \$150 million secured revolving credit agreement dated June 30, 2004. The term of the amended and restated revolving credit agreement (the "Credit Facility") is five years (expiring on June 15, 2011) and borrowings are to be used for general corporate purposes (including permitted acquisitions) and to support up to \$75 million of letters of credit. The Credit Facility may be increased up to an additional \$75 million under certain circumstances. The lenders have a first perfected security interest in all of the personal property of Viad and GES, including 65 percent of the capital stock of top-tier foreign subsidiaries.

Borrowings under the Credit Facility (of which GES is a guarantor) are indexed to the prime rate or the London Interbank Offering Rate ("LIBOR"), plus appropriate spreads tied to Viad's leverage ratio. Commitment fees and letters of credit fees are also tied to Viad's leverage ratio. As of September 30, 2007, Viad had an outstanding borrowing of \$9.4 million under the Credit Facility. Financial covenants include a minimum consolidated net worth requirement of not less than \$344.6 million plus 50 percent of positive quarterly consolidated net income earned in each fiscal quarter beginning with the quarter ended June 30, 2006, a fixed-charge coverage ratio of not less than 1.25 to 1 and a leverage ratio (defined as total debt to Adjusted EBITDA) of not greater than 2.75 to 1. Significant other covenants include limitations on: investments, common stock dividends, stock repurchases, additional indebtedness, sales/leases of assets, acquisitions, consolidations or mergers and liens on property. Effective August 27, 2007, the Credit Facility was amended to permit Viad to repurchase an additional \$50 million of its common stock (\$110 million in total) during the term of the Credit Facility. As of September 30, 2007, Viad was in compliance with all covenants.

Under a Shelf Registration filed with the Securities and Exchange Commission (the "SEC"), Viad can issue up to an aggregate \$500 million of debt and equity securities. No securities have been issued under the program.

Capital expenditures for the first nine months of 2007 totaled \$23.4 million and primarily related to the purchase of rental inventory and information systems and related costs at GES and new tour buses at Brewster. For the nine months ended September 30, 2006 capital expenditures totaled \$14.7 million and primarily related to manufacturing and other equipment and information systems and related costs.

On February 1, 2007, Viad completed the acquisition of Melville for \$34.4 million in cash and incurred \$565,000 of direct acquisition costs for a total purchase price of \$35.0 million. On April 13, 2007, Brewster completed the acquisition of Lake Minnewanka Boat Tours, a tour boat operator in Banff, Alberta, Canada for \$2.2 million in cash. On June 29, 2007, GES completed the acquisition of Poitras Exposition Services, a convention services contractor in Quebec City, Canada for \$2.2 million, of which \$1.8 million was paid in cash on the acquisition date. On November 7, 2007, the Company acquired the assets of Ethnometrics Corp for \$1.0 million in cash. Ethnometrics

provides consulting and analytical services to exhibition and event organizers and exhibitors. Its results will be included in the GES reporting segment.

During 2006, Viad announced its intent, under an authorization by its Board of Directors, to repurchase up to an aggregate two million shares of the Company's common stock from time to time at prevailing prices in the open market. On August 8, 2007, Viad announced its intent to purchase an additional one million shares of common stock from time to time at prevailing prices in the open market. Shares purchased in 2006 totaled 1,476,500 shares for an aggregate of \$49.4 million. During the nine months

Page 24

Table of Contents

ended September 30, 2007, Viad repurchased an additional 781,700 shares for \$28.2 million. Viad also has the authority to repurchase common stock for the purpose of replacing shares issued upon exercise of stock options and in connection with other stock compensation plans. The last repurchase by Viad under this program was May 2003. See Part II, Item 2 for details of shares repurchased during the third quarter of 2007.

In October 2007, Viad received \$2.6 million related to the settlement of a real estate participation interest associated with a parcel of land sold by a discontinued operation several years ago. The settlement amount will be recorded as income from discontinued operations, net of tax, in the fourth quarter of 2007.

Viad exercises significant judgment in determining its income tax provision due to transactions, credits and calculations where the ultimate tax determination is uncertain. Accordingly, Viad has recorded significant accrued liabilities associated with uncertain tax positions. The final resolution or settlement of uncertain tax positions could result in future cash payments. See *Critical Accounting Policies and Estimates* for further discussion.

Viad and certain of its subsidiaries are plaintiffs or defendants to various actions, proceedings and pending claims, some of which involve, or may involve, compensatory, punitive or other damages. Litigation is subject to many uncertainties and it is possible that some of the legal actions, proceedings or claims could be decided against Viad. Although the amount of liability as of September 30, 2007 with respect to certain of these matters is not ascertainable, Viad believes that any resulting liability, after taking into consideration amounts already provided for, including insurance coverage, will not have a material impact on Viad's business, financial position or results of operations.

Viad is subject to various U.S. federal, state and foreign laws and regulations governing the prevention of pollution and the protection of the environment in the jurisdictions in which Viad has or had operations. If the Company has failed to comply with these environmental laws and regulations, civil and criminal penalties could be imposed and Viad could become subject to regulatory enforcement actions in the form of injunctions and cease and desist orders. As is the case with many companies, Viad also faces exposure to actual or potential claims and lawsuits involving environmental matters relating to its past operations. Although it is a party to certain environmental disputes, Viad believes that any resulting liabilities, after taking into consideration amounts already provided for, including insurance coverage, will not have a material impact on the Company's financial position or results of operations.

Off-Balance Sheet Arrangements:

Viad does not have any off-balance sheet transactions or arrangements with unconsolidated special-purpose or other entities that would affect the Company's financial position, results of operations, liquidity or capital resources. Furthermore, Viad does not have any relationships with special-purpose or other entities that provide off-balance sheet financing; liquidity, market risk or credit risk support; or engage in leasing or other services that expose the Company to liability or risks of loss that are not reflected in Viad's consolidated financial statements.

Critical Accounting Policies and Estimates:

The preparation of financial statements in conformity with GAAP requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities in the consolidated financial statements. The SEC has defined a company's most critical accounting policies as those that are most important to the portrayal of a company's financial position and results of operations, and that require a company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on these criteria, Viad has identified and discussed with its audit committee the following critical accounting policies and estimates pertaining to Viad, and the methodology and disclosures related to those estimates:

Goodwill and other intangible assets Viad performs annual impairment testing of its goodwill based on the estimated fair value of its reporting units, which is estimated based on discounted expected future cash flows using a weighted-average cost of capital rate. Additionally, an assumed terminal value is used to project future cash flows beyond base years. The estimates and assumptions regarding expected cash flows, terminal values and the discount rate require considerable judgment and are based on historical experience, financial forecasts and industry trends and conditions. Viad's policy is to test goodwill for impairment annually as of October 31 of each year or more frequently if indications of impairment exist. As of September 30, 2007, Viad had recorded goodwill of \$183.7 million and \$42.5 million related to GES and Travel and Recreation Services, respectively.

Viad also performs annual impairment testing of its intangible assets not subject to amortization. As of September 30, 2007, Viad had intangible assets with indefinite lives of \$10.0 million, which primarily consist of trademarks and trade names at GES. The fair value of these intangibles is estimated based on expected future cash flows. Viad's policy is to test intangible assets not subject to amortization for impairment annually as of October 31 of each year or more frequently if indications of impairment exist.

Table of Contents

Income taxes Viad is required to estimate and record provisions for income taxes in each of the jurisdictions in which the Company operates. Accordingly, the Company must estimate its actual current income tax liability, and assess temporary differences arising from the treatment of items for tax purposes as compared to the treatment for accounting purposes. These differences result in deferred tax assets and liabilities which are included in Viad's consolidated balance sheets. The Company must assess the likelihood that deferred tax assets will be recovered from future taxable income and to the extent that recovery is not likely, a valuation allowance must be established. As of September 30, 2007 and December 31, 2006, Viad had gross deferred tax assets of \$63.9 million and \$59.6 million, respectively. As of September 30, 2007 and December 31, 2006, the valuation allowance was \$325,000. With respect to all other deferred tax assets, management believes that recovery from future taxable income is more-likely-than-not.

Effective January 1, 2007, Viad adopted Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), an interpretation of Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes. The adoption of FIN 48 resulted in a net decrease to retained earnings of \$10.0 million, an increase to accrued income taxes of \$13.2 million and an increase to deferred tax assets of \$3.2 million.

Viad exercises significant judgment in determining its income tax provision due to transactions, credits and calculations where the ultimate tax determination is uncertain. As of September 30, 2007 and January 1, 2007 (date of adoption), Viad had accrued gross liabilities associated with uncertain tax positions for continuing operations of \$14.3 million and \$15.7 million, respectively. In addition, as of September 30, 2007 and January 1, 2007, Viad had accrued interest and penalties related to uncertain tax positions for continuing operations of \$5.4 million and \$5.1 million, respectively. Upon adoption of FIN 48, the Company elected to continue to classify interest and penalties related to income tax liabilities as a component of income tax expense. During the three months ended September 30, 2007 and 2006, Viad recorded tax-related interest expense of \$343,000 and \$319,000, respectively. During the nine months ended September 30, 2007 and 2006, Viad recorded tax-related interest expense of \$937,000 and \$1.1 million, respectively.

In addition to the above, Viad had accrued gross liabilities associated with uncertain tax positions for discontinued operations of \$636,000 as of September 30, 2007 and \$942,000 as of January 1, 2007. In addition, as of September 30, 2007 and January 1, 2007, Viad had accrued interest and penalties related to uncertain tax positions for discontinued operations of \$203,000 and \$971,000, respectively. Future tax resolutions or settlements that may occur related to these uncertain tax positions would be recorded through discontinued operations (net of federal tax effects, if applicable).

As of September 30, 2007, the entire amount of unrecognized tax benefits for continuing operations of \$14.3 million (excluding federal income tax effects of \$2.9 million) would favorably affect Viad's effective tax rate, if recognized, as the related uncertain tax positions are permanent in nature. However, if amounts accrued are less than amounts ultimately assessed by the taxing authorities, Viad would record additional income tax expense. To the extent that the Company has favorable tax settlements, or determines that accrued amounts are no longer needed due to a lapse in the applicable statute of limitations or other reasons, such liabilities would be reversed as a reduction of income tax expense (net of federal tax effects, if applicable) in the period such determination is made. The Company believes that it is reasonably possible that approximately \$7.1 million (excluding federal income tax effects of \$596,000) of its uncertain tax positions could be resolved or settled within the next 12 months which would reduce the amount of accrued income taxes payable. If such tax resolutions or settlements occur, they could result in cash payments, the recognition of additional income tax expense, or the reversal of accrued income taxes which may impact Viad's effective tax rate in future periods.

Insurance liabilities Viad is self-insured up to certain limits for workers' compensation, automobile, product and general liability and property loss claims. The aggregate amount of insurance liabilities related to Viad's continuing operations was \$22.4 million as of September 30, 2007. Of this total, \$15.8 million related to workers' compensation liabilities and the remaining \$6.6 million related to general/auto liability claims. Viad has also retained and provided for certain insurance liabilities in conjunction with previously sold businesses totaling \$11.5 million as of September 30, 2007, primarily related to workers' compensation liabilities. Provisions for losses for claims incurred, including estimated claims incurred but not yet reported, are made based on Viad's historical experience, claims frequency and

other factors. A change in the assumptions used could result in an adjustment to recorded liabilities. Viad has purchased insurance for amounts in excess of the self-insured levels, which generally range from \$200,000 to \$500,000 on a per claim basis. Viad does not maintain a self-insured retention pool fund as claims are paid from current cash resources at the time of settlement. Viad's net cash payments in connection with these insurance liabilities were \$5.7 million and \$4.4 million for the nine months ended September 30, 2007 and 2006, respectively.

Pension and postretirement benefit plans Viad's pension plans use traditional defined benefit formulas based on years of service and final average compensation. Funding policies provide that payments to defined benefit pension trusts shall be at least equal to the minimum funding required by applicable regulations. The Company presently anticipates contributing \$599,000 to its funded pension plans and \$579,000 to its unfunded pension plans in 2007, of which the Company has contributed \$528,000 and \$425,000 as of September 30, 2007, respectively.

Page 26

Table of Contents

Viad and certain of its subsidiaries have defined benefit postretirement plans that provide medical and life insurance for certain eligible employees, retirees and dependents. The related postretirement benefit liabilities are recognized over the period that services are provided by employees. In addition, Viad retained the obligations for these benefits for retirees of certain sold businesses. While the plans have no funding requirements, Viad expects to contribute \$600,000 to the plans in 2007, of which \$548,000 has been contributed as of September 30, 2007.

The assumed health care cost trend rate used in measuring the 2006 accumulated postretirement benefit obligation for post-age 65 plan participants was eight percent in the year 2006, declining one percent each year to the ultimate rate of five percent by the year 2010 and remaining at that level thereafter. For pre-age 65 plan participants, the assumed health care cost trend rate used in measuring the 2006 accumulated postretirement benefit obligation was seven percent in the year 2006, declining one percent each year to the ultimate rate of five percent by the year 2009 and remaining at that level thereafter.

A one-percentage-point increase in the assumed health care cost trend rate for each year would increase the accumulated postretirement benefit obligation as of December 31, 2006 by approximately \$1.7 million and the total of service and interest cost components by approximately \$127,000. A one-percentage-point decrease in the assumed health care cost trend rate for each year would decrease the accumulated postretirement benefit obligation as of December 31, 2006 by approximately \$1.5 million and the total of service and interest cost components by approximately \$121,000.

The weighted-average discount rate used to determine pension and postretirement benefit obligations as of December 31, 2006 was 5.50 percent. The weighted-average discount rate used to determine net periodic benefit cost for the year ended December 31, 2006 was 5.50 percent. The discount rate used in determining future pension and postretirement benefit obligations is based on rates determined by actuarial analysis and management review, and reflects the estimated rates of return on a high-quality, hypothetical bond portfolio whose cash flows match the timing and amounts of expected benefit payments. The expected return on plan assets used to determine the net periodic benefit cost for the Company's pension plans for the year ended December 31, 2006 was 8.25 percent. The expected return on plan assets used to determine the net periodic benefit cost for postretirement benefit plans for the year ended December 31, 2006 was 3.75 percent.

Share-based compensation Viad has granted share-based compensation awards to officers, directors and certain key employees pursuant to the 1997 Viad Corp Omnibus Incentive Plan (the "1997 Plan") including the following types of awards: (a) incentive and non-qualified stock options, (b) restricted stock and (c) performance-based awards. The 1997 Plan had a ten year life and terminated effective May 31, 2007. Therefore, no further awards will be made from the 1997 Plan after May 31, 2007. Existing awards from the 1997 Plan will continue to vest and be exercisable until such time that all awards have either vested, been exercised, been forfeited or expired. On May 15, 2007, at the 2007 Annual Meeting of Shareholders, the 2007 Viad Corp Omnibus Incentive Plan (the "2007 Plan") was approved by the Company's shareholders. The 2007 Plan, also with a ten year life, provides for the following types of awards to officers, directors and certain other employees: (a) incentive and non-qualified stock options; (b) restricted stock and restricted stock units; (c) performance units or performance shares; (d) stock appreciation rights; (e) cash-based awards and (f) certain other stock-based awards. The number of shares of common stock available for grant under the 2007 Plan is limited to 1,700,000 shares plus shares awarded under the 1997 Plan that subsequently cease for any reason to be subject to such awards (other than by reason of exercise or settlement of the awards to the extent the shares are exercised for, or settled in, vested and non-forfeited shares) up to an aggregate maximum of 1,500,000 shares. All awards granted after May 31, 2007 were made from the 2007 Plan.

Total share-based compensation expense recognized in the consolidated financial statements during the three months ended September 30, 2007 and 2006 was \$1.1 million and \$3.0 million, respectively, and \$7.2 million and \$7.1 million during the nine months ended September 30, 2007 and 2006, respectively. Furthermore, the total tax benefits related to such costs were \$412,000 and \$1.1 million for the three months ended September 30, 2007 and 2006, respectively, and \$2.7 million for the nine months ended September 30, 2007 and 2006. No share-based compensation costs were capitalized during the nine months ended September 30, 2007 or 2006.

Viad uses the Black-Scholes option pricing model for purposes of determining the fair value of each stock option grant for which key assumptions are necessary. These assumptions include Viad's expected stock price volatility; the

expected period of time the stock option will remain outstanding; the expected dividend yield on Viad common stock, and the risk-free interest rate. Changes in the assumptions could result in different estimates of the fair value of stock option grants, and consequently impact Viad's results of operations.

Impact of Recent Accounting Pronouncements:

Viad adopted the provisions of FIN 48 on January 1, 2007. Refer to Note 12 for a full discussion of the adoption of FIN 48 and its impact on Viad's consolidated financial statements.

Page 27

Table of Contents

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 emphasizes that fair value is a market-based measurement and not an entity-specific measurement. Accordingly, fair value measurements should be determined based on the assumptions that market participants would use in pricing an asset or liability. SFAS No. 157 generally applies under other accounting pronouncements that require or permit fair value measurements, except for share-based payment transactions and other limited exceptions. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Accordingly, Viad will adopt SFAS No. 157 on January 1, 2008. The Company believes that the adoption of SFAS No. 157 will not have a material impact on its financial position or results of operations.

In September 2006, the FASB also issued SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires employers to recognize the overfunded or underfunded status of a defined benefit pension plan and also requires employers to measure the funded status of a plan as of the date of its year end statement of financial position. Viad adopted the recognition and disclosure provisions of SFAS No. 158 as of December 31, 2006. However, the requirement to measure plan assets and benefit obligations as of the date of the employer's fiscal year end statement of financial position is effective for fiscal years ending after December 15, 2008. Viad currently utilizes a November 30 measurement date for certain of its pension and postretirement benefit plans and has not yet determined if the adoption of the remaining provisions of SFAS No. 158 will have a material impact on its financial position or results of operations.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, Including an amendment of FASB Statement No. 115. SFAS No. 159 permits companies to choose to measure (on specified election dates) eligible financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings at each subsequent reporting date. The fair value election may generally be applied on an instrument-by-instrument basis (in its entirety) and is irrevocable unless a new election date occurs. SFAS No. 159 is effective as of the beginning of the first fiscal year beginning after November 15, 2007. Accordingly, Viad will adopt SFAS No. 159 on January 1, 2008. The Company believes that the adoption of SFAS No. 159 will not have a material impact on its financial position or results of operations.

Forward-Looking Statements:

As provided by the safe harbor provision under the Private Securities Litigation Reform Act of 1995, Viad cautions readers that, in addition to historical information contained herein, this quarterly report includes certain information, assumptions and discussions that may constitute forward-looking statements. These forward-looking statements are not historical facts, but reflect current estimates, projections, expectations, or trends concerning future growth, operating cash flows, availability of short-term borrowings, consumer demand, new business, investment policies, productivity improvements, ongoing cost reduction efforts, efficiency, competitiveness, legal expenses, tax rates and other tax matters, foreign exchange rates, and the realization of restructuring cost savings. Actual results could differ materially from those discussed in the forward-looking statements. Viad's businesses can be affected by a host of risks and uncertainties. Among other things, natural disasters, gains and losses of customers, consumer demand patterns, labor relations, purchasing decisions related to customer demand for exhibition and event services, existing and new competition, industry alliances, consolidation and growth patterns within the industries in which Viad competes, adverse developments in liabilities associated with discontinued operations, and any deterioration in the economy, may individually or in combination impact future results. In addition to factors mentioned elsewhere, economic, competitive, governmental, technological, capital marketplace and other factors, including further terrorist activities or war and international conditions, could affect the forward-looking statements in this quarterly report. Additional information concerning business and other risk factors that could cause actual results to materially differ from those in the forward looking statements are discussed in Risk Factors in the risk factors sections included in Viad's 2006 Annual Report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Viad's market risk exposures relate to fluctuations in foreign exchange rates, interest rates and certain commodity prices. Foreign exchange risk is the risk that fluctuating exchange rates will adversely affect Viad's financial condition or results of operations. Interest rate risk is the risk that changing interest rates will adversely affect the earnings of Viad. Commodity risk is the risk that changing prices will adversely affect results of operations.

Viad conducts its foreign operations primarily in Canada and the United Kingdom. The functional currency of Viad's foreign subsidiaries is their local currency. Accordingly, for purposes of consolidation, Viad translates the assets and liabilities of its foreign subsidiaries into U.S. dollars at the foreign exchange rates in effect at the balance sheet date. The unrealized gains or losses resulting from the translation of these foreign denominated assets and liabilities are included as a component of accumulated other comprehensive income in Viad's consolidated balance sheets. As a result, significant fluctuations in foreign exchange rates relative to the U.S. dollar may result in material changes to Viad's net equity position reported in its consolidated balance sheets.

Table of Contents

Viad does not currently hedge its equity risk arising from the translation of foreign denominated assets and liabilities. Viad had cumulative unrealized foreign currency translation gains recorded in equity of \$48.5 million and \$23.5 million as of September 30, 2007 and December 31, 2006, respectively. During the three and nine months ended September 30, 2007, unrealized foreign currency translation gains of \$12.4 million and \$24.9 million were recorded in other comprehensive income, respectively. During the three months ended September 30, 2006, unrealized foreign currency translation losses of \$117,000 were recorded in other comprehensive income and during the nine months ended September 30, 2006, \$6.4 million of unrealized foreign currency translation gains were recorded.

In addition, for purposes of consolidation, the revenues, expenses, gains and losses related to Viad's foreign operations are translated into U.S. dollars at the average foreign exchange rates for the period. As a result, Viad's consolidated results of operations are exposed to fluctuations in foreign exchange rates as the operating results of its foreign subsidiaries, when translated, may vary from period to period, even when the functional currency amounts have not changed. Such fluctuations may adversely impact overall expected profitability and historical period to period comparisons. Viad does not currently hedge its net earnings exposure arising from the translation of its foreign operating results. As noted above, Viad primarily conducts its foreign operations in Canada and the United Kingdom. The operating results related to its Canadian subsidiaries were translated into U.S. dollars at weighted-average exchange rates of 0.95 and 0.89 for the third quarters of 2007 and 2006, respectively. The weighted-average exchange rates used to translate into U.S. dollars the operating results for the nine months ended September 30, 2007 and 2006 were 0.95 and 0.90, respectively. The operating results related to its United Kingdom subsidiaries were translated into U.S. dollars at weighted-average exchange rates of 2.03 and 1.87 for the third quarters of 2007 and 2006, respectively. The weighted-average exchange rates used to translate into U.S. dollars the operating results for the nine months ended September 30, 2007 and 2006 were 1.99 and 1.82, respectively. The operating results of Melville have been included in Viad's consolidated financial statements from the February 1, 2007 acquisition date.

Viad is also exposed to foreign exchange transaction risk as its foreign subsidiaries have certain revenue transactions and related accounts receivable denominated in currencies other than the functional currency of the respective subsidiary. From time to time, Viad utilizes foreign currency forward contracts to mitigate the impact on earnings related to these transactions due to fluctuations in foreign exchange rates. The effect of changes in foreign exchange rates, net of the effect of the related forward contracts, has historically been immaterial to Viad's consolidated results of operations. As of September 30, 2007, Viad had aggregate contracts to sell U.S. dollars of \$1.0 million (notional amount) in exchange for British pounds at an average exchange rate of 0.50 (British pounds per U.S. dollar), which matured in October 2007. As of September 30, 2007, the fair value of these contracts was \$20,000 and is included in the consolidated balance sheet under the caption Other current assets.

Viad is exposed to short-term interest rate risk on certain of its debt obligations. Viad currently does not use derivative financial instruments to hedge cash flows for such obligations. As of September 30, 2007, Viad had variable rate debt outstanding of \$9.4 million under the Credit Facility. Interest payments related to Viad's variable rate debt outstanding are indexed to LIBOR. Viad's subsidiaries also have exposure to changing fuel prices. Periodically, Brewster enters into futures contracts with an oil company to purchase two types of fuel and specifies the monthly total volume, by fuel product, to be purchased over the agreed upon term of the contract, which is generally no longer than one year. The main objective of Viad's risk policy related to changing fuel prices is to reduce transaction exposure in order to mitigate the cash flow risk and protect profit margins. As of September 30, 2007, Viad had fuel contracts outstanding to purchase 42,000 gallons of diesel fuel at approximately \$3.06 per gallon (plus applicable taxes), which expired in October 2007.

Item 4. Controls and Procedures.

Under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer of Viad, the effectiveness of the design and operation of disclosure controls and procedures has been evaluated as of September 30, 2007, and, based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective as of September 30, 2007. Disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation,

controls and procedures designed to ensure that information required to be disclosed in such reports is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow for timely decisions regarding required disclosure.

There were no changes in the Company's internal control over financial reporting during the third quarter of 2007 that have materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

Page 29

Table of Contents**PART II OTHER INFORMATION****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

Set forth below is a table showing the total number of shares of Viad common stock repurchased during the third quarter of 2007 by Viad either on the open market as part of a repurchase program or from employees and former employees surrendering previously owned Viad common stock (outstanding shares) to pay for a portion of the exercise price in connection with the exercise of stock options, or to pay the taxes in connection with the vesting of restricted stock awards:

ISSUER PURCHASES OF EQUITY SECURITIES

Period⁽¹⁾	Total Number of Shares Purchased (#)	Average Price Paid Per Share (\$)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (2),(3)
July 2007	48,000	36.65	48,000	199,200
August 2007	469,886	34.87	457,400	741,800
Total	517,886	35.04	505,400	741,800

(1) Months without share repurchases have been excluded from the table.

(2) During 2006 Viad announced its intent, under a program authorized by its Board of Directors, to repurchase up to an aggregate of two million shares of its common stock from time to time at prevailing prices in the open market. On

August 8, 2007, Viad announced its intent to purchase an additional one million shares of its common stock from time to time at prevailing prices in the open market. Shares purchased in 2006 and the first nine months of 2007 under this program amounted to 1,476,500 and 781,700, respectively.

- (3) Under authorization by the Board of Directors, Viad may also repurchase, at prevailing prices on the open market, its common stock for the purpose of replacing shares issued upon exercise of stock options and in connection with other stock compensation plans. The last repurchase by Viad under this program occurred in May 2003.
