SYNCOR EXPECTS TO FILE NOTIFICATION
OF DELAY IN FORM 10-Q FILING

WOODLAND HILLS, California, November 13, 2002 - Syncor International Corporation (Nasdaq: SCOR) today announced that it expects to file a Notification of Late Filing on Form 12b-25 in order to obtain an automatic five day extension to file its Form 10-Q for the quarter ended September 30, 2002. The delay is due to the fact that the Company and its auditors require additional time in order to confirm that the results of a previously announced investigation do not impact the Company's financial statements. As publicly announced by Syncor on November 6, 2002, a committee of outside directors, together with outside counsel, has been investigating the propriety of certain payments made by international subsidiaries of Syncor to customers in several foreign countries.

Syncor said that, although the Company and its independent accountants are working diligently to complete the Form 10-Q filing, until further work in the investigation is completed, there can be no assurance that Syncor will be able to file a third quarter 10-Q that complies with all applicable rules within the five day extension period.

Based on the results of the investigation to date, Syncor does not believe that the amount of the questionable payments are material to the financial results of the Company or will result in a material adjustment or restatement of the Company's historical financial statements. The Company said it must await the completion of further work in the investigation to be able to determine the full impact on its financials.
