

OXBRIDGE RE HOLDINGS Ltd
Form 424B3
August 15, 2016

Prospectus Supplement Filed Pursuant to Rule 424(b)(3)
Registration No. 333-193577

PROSPECTUS SUPPLEMENT NO. 20
DATED AUGUST 15, 2016
(To Prospectus Declared Effective on February 28, 2014
and Dated March 21, 2014)

OXBRIDGE RE HOLDINGS LIMITED

Maximum of 4,884,650 Units

Minimum of 1,700,000 Units
Each Unit Consisting of One Ordinary Share and One Warrant

This Prospectus Supplement No. 20 supplements information contained in, and should be read in conjunction with, that certain Prospectus, dated March 21, 2014, of Oxbridge Re Holdings Limited, as supplemented by that certain Prospectus Supplement No. 1 through No. 19 thereto, relating to the offer and sale by us of up to 4,884,650 units, each unit consisting of one ordinary share and one warrant. This Prospectus Supplement No. 20 is not complete without, and may not be delivered or used except in connection with, the original Prospectus and Supplement No. 1 through No. 19 thereto.

This Prospectus Supplement No. 20 includes the following document, as filed by us with the Securities and Exchange Commission:

The attached Quarterly Report on Form 10-Q of Oxbridge Re Holdings Limited, as filed with the Securities and Exchange Commission on August 15, 2016.

Our units began trading on the Nasdaq Capital Market under the symbol "OXBRU." When the units were split into their component parts, the units ceased trading and our ordinary shares and warrants began trading separately on the Nasdaq Capital Market under the symbols "OXBR" and "OXBRW" respectively.

The Securities and Exchange Commission and state securities regulators have not approved or disapproved these securities or determined if this Prospectus Supplement No. 20 (or the original Prospectus or Supplement No. 1 through No. 19 thereto) is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this Prospectus Supplement No. 20 is August 15, 2016.

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

1.

ORGANIZATION AND BASIS OF PRESENTATION

(a)

Organization

Oxbridge Re Holdings Limited was incorporated as an exempted company on April 4, 2013 under the laws of the Cayman Islands. Oxbridge Re Holdings Limited owns 100% of the equity interest in Oxbridge Reinsurance Limited (the "Subsidiary"), an entity incorporated on April 23, 2013 under the laws of the Cayman Islands and for which a Class "C" Insurer's license was granted on April 29, 2013 under the provisions of the Cayman Islands Insurance Law. Oxbridge Re Holdings Limited and the Subsidiary (collectively, the "Company") have their registered offices at P.O. Box 309, Ugland House, Grand Cayman, Cayman Islands.

The Company's ordinary shares and warrants are listed on The NASDAQ Capital Market under the symbols "OXBR" and "OXBRW," respectively.

The Company operates as a single business segment through the Subsidiary, which provides collateralized reinsurance to cover excess of loss catastrophe risks of various affiliated and non-affiliated ceding insurers, including Claddaugh Casualty Insurance Company, Ltd. ("Claddaugh") and Homeowners Choice Property & Casualty Insurance Company ("HCPCI"), which are related-party entities domiciled in Bermuda and Florida, respectively.

(b)

Basis of Presentation

The accompanying unaudited, consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information, and the Securities and Exchange Commission ("SEC") rules for interim financial reporting. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been omitted pursuant to such rules and regulations. However, in the opinion of management, the accompanying interim consolidated financial statements reflect all normal recurring adjustments necessary to present fairly the Company's consolidated financial position as of June 30, 2016 and the consolidated results of operations and cash flows for the periods presented. The consolidated results of operations for interim periods are not necessarily indicative of the results of operations to be expected for any subsequent interim period or for the fiscal year ended December 31, 2016. The accompanying unaudited consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2015 included in the Company's Form 10-K, which was filed with the SEC on March 17, 2016.

In preparing the interim unaudited consolidated financial statements, management was required to make certain estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures at the financial reporting date and throughout the periods being reported upon. Certain of the estimates result from judgments that can be subjective and complex and consequently actual results may differ from these estimates, which would be reflected in future periods.

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

Material estimates that are particularly susceptible to significant change in the near-term relate to the determination of the reserve for losses and loss adjustment expenses, valuation of investments and assessment of other-than-temporary impairment ("OTTI") and loss experience refund payable. Although considerable variability is likely to be inherent in these estimates, management believes that the amounts provided are reasonable. These estimates are continually reviewed and adjusted if necessary. Such adjustments are reflected in current operations.

All significant intercompany balances and transactions have been eliminated.

2.

SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents: Cash and cash equivalents are comprised of cash and short term investments with original maturities of three months or less.

Restricted cash and cash equivalents: Restricted cash and cash equivalents represent funds held in accordance with the Company's trust agreements with ceding insurers and trustees, which require the Company to maintain collateral with a market value greater than or equal to the limit of liability, less unpaid premium.

Investments: The Company's investments consist of fixed-maturity securities and equity securities, and are classified as available-for-sale. The Company's investments are carried at fair value with changes in fair value included as a separate component of accumulated other comprehensive loss in shareholders' equity.

Unrealized gains or losses are determined by comparing the fair market value of the securities with their cost or amortized cost. Realized gains and losses on investments are recorded on the trade date and are included in the consolidated statements of income. The cost of securities sold is based on the specified identification method. Investment income is recognized as earned and discounts or premiums arising from the purchase of debt securities are recognized in investment income using the interest method over the remaining term of the security.

The Company reviews all securities for other-than-temporary impairment ("OTTI") on a quarterly basis and more frequently when economic or market conditions warrant such review. When the fair value of any investment is lower than its cost, an assessment is made to see whether the decline is temporary or other-than-temporary. If the decline is determined to be other-than-temporary the investment is written down to fair value and an impairment charge is recognized in income in the period in which the Company makes such determination. For a debt security that the Company does not intend to sell nor is it more likely than not that the Company will be required to sell before recovery of its amortized cost, only the credit loss component is recognized in income, while impairment related to all other factors is recognized in other comprehensive income (loss). The Company considers various factors in determining whether an individual security is other-than-temporarily impaired (see Note 4).

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

Fair value measurement: GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are as follows:

Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date;

Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active; and

Level 3 Inputs that are unobservable.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. For debt securities, inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, broker quotes for similar securities and other factors. The fair value of investments in common stocks and exchange-traded funds is based on the last traded price. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Company's investment custodians. The investment custodians consider observable data to be market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant markets. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument.

Deferred policy acquisition costs ("DAC"): Policy acquisition costs consist of brokerage fees, federal excise taxes and other costs related directly to the successful acquisition of new or renewal insurance contracts, and are deferred and amortized over the terms of the reinsurance agreements to which they relate. The Company evaluates the recoverability of DAC by determining if the sum of future earned premiums and anticipated investment income is greater than the expected future claims and expenses. If a loss is probable on the unexpired portion of policies in force, a premium deficiency loss is recognized. At June 30, 2016, the DAC was considered fully recoverable and no premium deficiency loss was recorded.

Property and equipment: Property and equipment are recorded at cost when acquired. Property and equipment are comprised of motor vehicles, furniture and fixtures, computer equipment and leasehold improvements and are depreciated, using the straight-line method, over their estimated useful lives, which are five years for furniture and fixtures and computer equipment and four years for motor vehicles. Leasehold improvements are amortized over the lesser of the estimated useful lives of the assets or remaining lease term. The Company periodically reviews property and equipment that have finite lives, and that are not held for sale, for impairment by comparing the carrying value of the assets to their estimated future undiscounted cash flows. For the three-month and six-month periods ended June 30, 2016, there were no impairments in property and equipment.

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

Allowance for uncollectible receivables: Management evaluates credit quality by evaluating the exposure to individual counterparties; where warranted management also considers the credit rating or financial position, operating results and/or payment history of the counterparty. Management establishes an allowance for amounts for which collection is considered doubtful. Adjustments to previous assessments are recognized as income in the year in which they are determined. At June 30, 2016, no receivables were determined to be overdue or impaired and, accordingly, no allowance for uncollectible receivables has been established.

Reserves for losses and loss adjustment expenses: The Company determines its reserves for losses and loss adjustment expenses on the basis of the claims reported by the Company's ceding insurers. Incurred but not reported ("IBNR") reserves are estimated by management using various actuarial methods in addition to the ceding insurer's estimated IBNR, historical industry loss experience and management's professional judgment. The reserves for losses and loss adjustment expenses represent management's best estimate of the ultimate settlement costs of all losses and loss adjustment expenses. Management believes that the amounts are adequate; however, the inherent impossibility of predicting future events with precision, results in uncertainty as to the amount which will ultimately be required for the settlement of losses and loss expenses, and the differences could be material. Adjustments are reflected in the consolidated statements of income in the period in which they are determined.

Loss experience refund payable: Certain contracts include retrospective provisions that adjust premiums or result in profit commissions in the event losses are minimal or zero. In accordance with GAAP, the Company will recognize a liability in the period in which the absence of loss experience obligates the Company to pay cash or other consideration under the contracts. On the contrary, the Company will derecognize such liability in the period in which a loss experience arises. Such adjustments to the liability, which accrue throughout the contract terms, will reduce the liability should a catastrophic loss event covered by the Company occur.

Premiums assumed: The Company records premiums assumed, net of loss experience refunds, as earned pro-rata over the terms of the reinsurance agreements and the unearned portion at the balance sheet date is recorded as unearned premiums reserve. A reserve is made for estimated premium deficiencies to the extent that estimated losses and loss adjustment expenses exceed related unearned premiums. Investment income is not considered in determining whether or not a deficiency exists.

Certain contracts allow for reinstatement premiums in the event of a full limit loss prior to the expiration of the contract. A reinstatement premium is not due until there is a full limit loss event and therefore, in accordance with GAAP, the Company records a reinstatement premium as written only in the event that the reinsured incurs a full limit loss on the contract and the contract allows for a reinstatement of coverage upon payment of an additional premium. For catastrophe contracts which contractually require the payment of a reinstatement premium equal to or greater than the original premium upon the occurrence of a full limit loss, the reinstatement premiums are earned over the original contract period. Reinstatement premiums that are contractually calculated on a pro-rata basis of the original premiums are earned over the remaining coverage period.

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

Uncertain income tax positions: The authoritative GAAP guidance on accounting for, and disclosure of, uncertainty in income tax positions requires the Company to determine whether an income tax position of the Company is more likely than not to be sustained upon examination by the relevant tax authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. For income tax positions meeting the more likely than not threshold, the tax amount recognized in the financial statements, if any, is reduced by the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement with the relevant taxing authority. The application of this authoritative guidance has had no effect on the Company's consolidated financial statements because the Company had no uncertain tax positions at June 30, 2016.

Earnings per share: Basic earnings per share has been computed on the basis of the weighted-average number of ordinary shares outstanding during the periods presented. Diluted earnings per share is computed based on the weighted-average number of ordinary shares outstanding and reflects the assumed exercise or conversion of diluted securities, such as stock options and warrants, computed using the treasury stock method.

Stock-Based Compensation: The Company accounts for stock-based compensation under the fair value recognition provisions of GAAP which requires the measurement and recognition of compensation for all stock-based awards made to employees and directors, including stock options and restricted stock issuances based on estimated fair values. The Company measures compensation for restricted stock based on the price of the Company's ordinary shares at the grant date. Determining the fair value of share purchase options at the grant date requires significant estimation and judgment. The Company uses an option-pricing model (Black-Scholes option pricing model) to assist in the calculation of fair value for share purchase options. The Company's shares have not been publicly traded for a sufficient length of time to solely use the Company's performance to reasonably estimate the expected volatility. Therefore, when estimating the expected volatility, the Company takes into consideration the historical volatility of similar entities. The Company considers factors such as an entity's industry, stage of life cycle, size and financial leverage when selecting similar entities. The Company uses a sample peer group of companies in the reinsurance industry as well as the Company's own historical volatility in determining the expected volatility. Additionally, the Company uses the full life of the options, ten years, as the estimated term of the options, and has assumed no forfeitures during the life of the options.

The Company uses the straight-line attribution method for all grants that include only a service condition. Compensation expense related to all awards is included in general and administrative expenses.

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

Recent accounting pronouncements:

Accounting Standards Update No. 2016-09. In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2016-09 (“ASU 2016-09”), Compensation-Stock Compensation (Topic 718), which affects all entities that issue share-based awards to their employees. Among the amendments affecting share-based payment transactions are their income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. ASU 2016-09 is effective for all public entities for reporting periods beginning after December 15, 2016 and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2017, and for interim periods within fiscal years beginning after December 15, 2018. Early adoption is permitted for all entities. The Company is currently evaluating the impact of this guidance on the Company’s consolidated financial statements.

Accounting Standards Update No. 2016-02. In February 2016, the FASB issued Accounting Standards Update No. 2016-02 (“ASU 2016-02”), Leases (Topic 842), which supersedes Topic 840 and creates the new lease accounting standards for lessees and lessors, primarily related to the recognition of lease assets and liabilities by lessees for leases classified as operating leases. ASU 2016-02 is effective for all public entities for reporting periods beginning after December 15, 2018 and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2019, and for interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted for all entities. The Company is currently evaluating the impact of this guidance on the Company’s consolidated financial statements.

Accounting Standards Update No. 2016-01. In January 2016, the FASB issued Accounting Standards Update No. 2016-01 (“ASU 2016-01”), Financial Instruments (Subtopic 825-10), which addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. One of the changes is to require certain equity investments to be measured at fair value with changes in fair value recognized in net income. ASU 2016-01 is effective for all public entities for reporting periods beginning after December 15, 2017 and interim periods within those fiscal years. For all other entities, the amendments in ASU 2016-01 are effective for fiscal years beginning after December 15, 2018, and for interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted for financial statements that have not been previously issued. The Company is currently evaluating the impact of this guidance on the Company’s consolidated financial statements.

Reclassifications: Certain reclassifications of prior period amounts have been made to conform to the current period presentation.

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

4. INVESTMENTS (continued)

The Company regularly reviews its individual investment securities for OTTI. The Company considers various factors in determining whether each individual security is other-than-temporarily impaired, including:

the financial condition and near-term prospects of the issuer, including any specific events that may affect its operations or income;

the length of time and the extent to which the market value of the security has been below its cost or amortized cost;

general market conditions and industry or sector specific factors;

nonpayment by the issuer of its contractually obligated interest and principal payments; and

the Company's intent and ability to hold the investment for a period of time sufficient to allow for the recovery of costs.

Securities with gross unrealized loss positions at June 30, 2016 and December 31, 2015, aggregated by investment category and length of time the individual securities have been in a continuous loss position, are as follows:

	Less Than Twelve		Twelve Months or		Total	
	Months		Greater			
As of June 30, 2016	Gross	Estimated	Gross	Estimated	Gross	Estimated
	Unrealized	Fair	Unrealized	Fair	Unrealized	Fair

Total equity securities	1,579	4,328	84	316	1,663	4,644
Total available for sale securities	\$1,579	\$4,328	\$84	\$316	\$1,663	\$4,644

At December 31, 2015, there were 24 securities in an unrealized loss position of which 2 of these positions had been in an unrealized loss position for 12 months or greater.

The Company believes there were no fundamental issues such as credit losses or other factors with respect to its fixed-maturity securities. It is expected that the securities would not be settled at a price less than the par value of the investments and because the Company has the ability and intent to hold these securities and it is probable that the Company will not be required to sell these securities until a market price recovery or maturity, the Company does not consider any of its fixed-maturity securities to be other-than-temporarily impaired at June 30, 2016 and December 31, 2015.

In determining whether equity securities are other than temporarily impaired, the Company considers its intent and ability to hold a security for a period of time sufficient to allow for the recovery of cost, along with factors including the length of time each security had been in an unrealized loss position, the extent of the decline and the near term prospect for recovery. Based on management's evaluation, the Company does not consider any of its equity securities to be other-than-temporarily impaired at June 30, 2016 and December 31, 2015.

5. TAXATION

Under current Cayman Islands law, no corporate entity, including the Company and the Subsidiary, is obligated to pay taxes in the Cayman Islands on either income or capital gains. The Company and the Subsidiary have an undertaking from the Governor-in-Cabinet of the Cayman Islands, pursuant to the provisions of the Tax Concessions Law, as amended, that, in the event that the Cayman Islands enacts any legislation that imposes tax on profits, income, gains or appreciations, or any tax in the nature of estate duty or inheritance tax, such tax will not be applicable to the Company and the Subsidiary or their operations, or to the ordinary shares or related obligations, until April 23, 2033 and May 17, 2033, respectively.

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

6. LOSSES AND LOSS ADJUSTMENT EXPENSES

The following table summarizes the Company's loss and loss adjustment expenses ("LAE") and the reserve for loss and LAE reserve movements for the three and six-month periods ending June 30, 2016 and 2015:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2016	2015	2016	2015
	(\$ in thousands)		(\$ in thousands)	
Balance, beginning of period	\$63	-	\$-	-
Incurred related to:				
Current period	2,215	-	2,278	-
Prior period	-	-	-	-
Total incurred	2,215	-	2,278	-
Paid related to:				
Current period	(28)	-	(28)	-
Prior period	-	-	-	-
Total paid	(28)	-	(28)	-
Balance, end of period	\$2,250	-	\$2,250	-

The reserves for losses and LAE are comprised of case reserves (which are based on claims that have been reported) and incurred but not reported ("IBNR") reserves (which are based on losses that are believed to have occurred but for which claims have not yet been reported and may include a provision for expected future development on existing case reserves).

The uncertainties inherent in the reserving process and potential delays by cedants and brokers in the reporting of loss information, together with the potential for unforeseen adverse developments, may result in the reserve for losses and LAE ultimately being significantly greater or less than the reserve provided at the end of any given reporting period. The degree of uncertainty is further increased when a significant loss event takes place near the end of a reporting period. Reserve for losses and LAE estimates are regularly reviewed and updated as new information becomes known. Any resulting adjustments are reflected in income in the period in which they become known.

The Company's reserving process is highly dependent on the timing of loss information received from its cedants and related brokers.

7. EARNINGS PER SHARE

	Three Months Ended		Six Months Ended	
	March 31,		June 30,	
	2016	2015	2016	2015
Numerator:				
Net earnings	\$872	1,657	\$1,915	3,487
Denominator:				
Weighted average shares - basic	6,058,687	6,060,000	6,059,347	6,052,376
Effect of dilutive securities - Stock options	-	-	-	-
Shares issuable upon conversion of warrants	-	-	-	-
Weighted average shares - diluted	6,058,687	6,060,000	6,059,347	6,052,376
Earnings per shares - basic	\$0.14	0.27	\$0.32	0.58
Earnings per shares - diluted	\$0.14	0.27	\$0.32	0.58

For the three and six-month periods ended June 30, 2016 and 2015, 215,000 options to purchase 215,000 ordinary shares and 180,000 options to purchase 180,000 ordinary shares, respectively, were anti-dilutive as the sum of the proceeds, including unrecognized compensation expense, exceeded the average market price of the Company's ordinary share during the periods presented.

For the three and six-month periods ended June 30, 2016 and 2015, 8,230,700 warrants to purchase an aggregate of 8,230,700 ordinary shares were not dilutive because the exercise price of \$7.50 exceeded the average market price of the Company's ordinary share during the periods presented.

GAAP requires the Company to use the two-class method in computing basic earnings per share since holders of the Company's restricted stock have the right to share in dividends, if declared, equally with common stockholders. These participating securities effect the computation of both basic and diluted earnings per share during periods of net income.

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

8. SHAREHOLDERS' EQUITY

On February 28, 2014, the Company's Registration Statement on Form S-1, as amended, relating to the initial public offering of the Company's units was declared effective by the SEC. The Registration Statement covered the offer and sale by the Company of 4,884,650 units, each consisting of one ordinary share and one warrant ("Unit"), which were sold to the public on March 26, 2014 at a price of \$6.00 per Unit. The ordinary shares and warrants comprising the Units began separate trading on May 9, 2014. The ordinary shares and warrants are traded on the Nasdaq Capital Market under the symbols "OXBR" and "OXBRW," respectively. One warrant may be exercised to acquire one ordinary share at an exercise price equal to \$7.50 per share on or before March 26, 2019. At any time after September 26, 2014 and before the expiration of the warrants, the Company at its option may cancel the warrants in whole or in part, provided that the closing price per ordinary share has exceeded \$9.38 for at least ten trading days within any period of twenty consecutive trading days, including the last trading day of the period.

The initial public offering resulted in aggregate gross proceeds to the Company of approximately \$29.3 million (of which approximately \$5 million related to the fair value proceeds on the warrants issued) and net proceeds of approximately \$26.9 million after deducting underwriting commissions and offering expenses.

The fair value of the warrants issued in the initial public offering and initial private placement offering of \$1.04 per warrant was determined by the Black-Scholes pricing model using the following assumptions: volatility of 48%, an expected life of 5 years, expected dividend yield of 8% and a risk-free interest rate of 1.69%. There were 8,230,700 warrants outstanding at June 30, 2016 and 2015. No warrants were exercised during the three and six-month periods ended June 30, 2016 and 2015.

On January 20, 2016, our Board of Directors declared a quarterly cash dividend of \$0.12 per share payable on March 30, 2016 to shareholders of record on March 1, 2016.

On May 12, 2016, our Board of Directors declared a quarterly cash dividend of \$0.12 per share payable on June 30, 2016 to shareholders of record on June 20, 2016.

On August 13, 2016, our Board of Directors declared a quarterly cash dividend of \$0.12 per share payable on September 30, 2016 to shareholders of record on September 23, 2016.

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

8. SHAREHOLDERS' EQUITY (continued)

In May 2016, the Company's Board of Directors authorized a plan to repurchase up to \$2,000,000 of the Company's common shares, inclusive of commissions and fees. During the three and six months ended June 30, 2016, the Company repurchased and retired a total of 11,530 shares at a weighted average price per share of \$5.20 under this authorized repurchase plan. The total cost of shares repurchased, inclusive of fees and commissions, during the three and six months ended June 30, 2016 was \$60,000, or \$5.22 per share.

As of June 30, 2016, none of the Company's retained earnings were restricted from payment of dividends to the Company's shareholders. However, since most of the Company's capital and retained earnings may be invested in the Subsidiary, a dividend from the Subsidiary would likely be required in order to fund a dividend to the Company's shareholders and would require notification to the Cayman Islands Monetary Authority ("CIMA").

Under Cayman Islands law, the use of additional paid-in capital is restricted, and the Company will not be allowed to pay dividends out of additional paid-in capital if such payments result in breaches of the prescribed and minimum capital requirement. See also Note 10.

9. SHARE-BASED COMPENSATION

The Company currently has outstanding stock-based awards granted under the 2014 Omnibus Incentive Plan (the "Plan"). Under the Plan, the Company has discretion to grant equity and cash incentive awards to eligible individuals, including the issuance of up to 1,000,000 of the Company's ordinary shares. At June 30, 2016, there were 725,000 shares available for grant under the Plan.

Stock options

The Company accounts for share-based compensation under the fair value recognition provisions of ASC Topic 718 – "Compensation – Stock Compensation." Stock options granted and outstanding under the Plan vests quarterly over four years, and are exercisable over the contractual term of ten years.

9. SHARE-BASED COMPENSATION (continued)

A summary of the stock option activity for the three and six-month periods ended June 30, 2016 and 2015 is as follows (option amounts not in thousands):

		Weighted-		
		Weighted- Average		
	Number	Average	Remaining	Aggregate
	of	Exercise	Contractual	Intrinsic
	Options	Price	Term	Value (\$000)
Outstanding at January 1, 2016	180,000			
Granted	35,000			
Outstanding at March 31, 2016	215,000	\$6	8.9 years	\$-
Outstanding at June 30, 2016	215,000	\$6	8.7 years	\$-
Exercisable at June 30, 2016	71,875	\$6	8.7 years	\$-
Outstanding at January 1, 2015	-			
Granted	180,000	\$6		
Outstanding at March 31, 2015	180,000	\$6	9.75 years	\$-
Outstanding at June 30, 2015	180,000	\$6	9.5 years	\$9,000
Exercisable at June 30, 2015	22,500	\$6	9.5 years	\$1,125

Compensation expense recognized for the three-month periods ended June 30, 2016 and 2015 totaled \$8,000 and \$7,000, respectively, and for the six-month periods ended June 30, 2016 and 2015 totaled \$16,000 and \$14,000, respectively. Compensation expense is included in general and administrative expenses. At June 30, 2016 and 2015, there was approximately \$82,000 and \$101,000, respectively, of unrecognized compensation expense related to non-vested stock options granted under the Plan, which the Company expects to recognize over a weighted-average period of thirty two (32) months.

During the three and six-month periods ended June 30, 2016 and 2015, 35,000 options and 180,000 options, respectively, were granted with fair value estimated on the date of grant using the following assumptions and the Black-Scholes option pricing model:

Restricted Stock Awards

The Company has granted and may grant restricted stock awards to eligible individuals in connection with their service to the Company. The terms of the Company's outstanding restricted stock grants may include service, performance and market-based conditions. The fair value of the awards with market-based conditions is determined using a Monte Carlo simulation method, which calculates many potential outcomes for an award and then establishes fair value based on the most likely outcome. The determination of fair value with respect to the awards with only performance or service-based conditions is based on the value of the Company's stock on the grant date. Information with respect to the activity of unvested restricted stock awards during the three and six-month periods ended June 30, 2016 and 2015 is as follows (share amounts not in thousands):

	Weighted-

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

9. SHARE-BASED COMPENSATION (continued)

Compensation expense recognized for the three-month periods ended June 30, 2016 and 2015 totaled \$22,000, and for the six-month periods ended June 30, 2016 and 2015, totaled \$44,000, and is included in general and administrative expenses. At June 30, 2016, there was approximately \$220,000 unrecognized compensation expense related to non-vested restricted stock granted under the Plan, which the Company expects to recognize over a weighted-average period of thirty (30) months.

10. NET WORTH FOR REGULATORY PURPOSES

The Subsidiary is subject to a minimum and prescribed capital requirement as established by CIMA. Under the terms of its license, the Subsidiary is required to maintain a minimum and prescribed capital requirement of \$500 in accordance with the Subsidiary's approved business plan filed with CIMA. At June 30, 2016, the Subsidiary's net worth of \$24.4 million exceeded the minimum and prescribed capital requirement. For the three and six-month periods ended June 30, 2016, the Subsidiary's net income was approximately \$600 thousand and \$1.4 million, respectively. The Subsidiary is not required to prepare separate statutory financial statements for filing with CIMA, and there were no material differences between the Subsidiary's GAAP capital, surplus and net income, and its statutory capital, surplus and net income as of June 30, 2016 or for the periods then ended.

11. FAIR VALUE AND CERTAIN RISKS AND UNCERTAINTIES

Fair values

With the exception of balances with respect of insurance contracts (which are specifically excluded from fair value disclosures under GAAP) and investment securities as disclosed in Note 4 of these consolidated financial statements, the carrying amounts of all other financial instruments, which consist of cash and cash equivalents, restricted cash and cash equivalents, accrued interest and dividends receivable, premiums receivable and other receivables and accounts payable and accruals, approximate their fair values due to their short-term nature.

Concentration of underwriting risk

A substantial portion of the Company's current reinsurance business ultimately relates to the risks of two entities domiciled in Florida in the United States, one of which is under common directorship; accordingly the Company's underwriting risks are not significantly diversified.

OXBRIDGE RE HOLDINGS LIMITED AND SUBSIDIARY

Notes to Consolidated Financial Statements (unaudited)

June 30, 2016

11. FAIR VALUE AND CERTAIN RISKS AND UNCERTAINTIES (continued)

Credit risk

The Company is exposed to credit risk in relation to counterparties that may default on their obligations to the Company. The amount of counterparty credit risk predominantly relates to premiums receivable and assets held with counterparties. The Company mitigates its counterparty credit risk by using several counterparties which decreases the likelihood of any significant concentration of credit risk with any one counterparty. In addition, the Company is exposed to credit risk on fixed-maturity debt instruments to the extent that the debtors may default on their debt obligations.

Market risk

Market risk exists to the extent that the values of the Company's monetary assets fluctuate as a result of changes in market prices. Changes in market prices can arise from factors specific to individual securities or their respective issuers, or factors affecting all securities traded in a particular market. Relevant factors for the Company are both volatility and liquidity of specific securities and markets in which the Company holds investments. The Company has established investment guidelines that seek to mitigate significant exposure to market risk.

12. COMMITMENTS AND CONTINGENCIES

The Company has an operating lease for office space located at Strathvale House, 2nd Floor, 90 North Church Street, Grand Cayman, Cayman Islands. The term of the lease is thirty-eight months and commenced on April 17, 2015. Rent expense under this lease for the three and six-month periods ended June 30, 2016 was \$13,300 and \$26,600, respectively and lease commitments at June 30, 2016 were \$118,400.

The Company also has an operating lease for residential space at Britannia Villas #616, Grand Cayman, Cayman Islands that runs through October 31, 2017. Rent expense under this lease for the three and six-month periods ended June 30, 2016 was \$12,900 and \$25,800, respectively, and lease commitments at June 30, 2016 were \$68,800.

13. RELATED PARTY TRANSACTIONS

The Company has entered into reinsurance agreements with Claddaugh and HCPCI, both of which are related entities through common directorships. At June 30, 2016 and December 31, 2015, included within loss experience refund payable and unearned premiums reserve on the consolidated balance sheets are the following related-party amounts:

14. SUBSEQUENT EVENTS

We evaluate all subsequent events and transactions for potential recognition or disclosure in our financial statements.

Except as disclosed in Note 8 of these consolidated financial statements, there were no other events subsequent to June 30, 2016 for which disclosure was required.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

SPECIAL NOTE ABOUT FORWARD-LOOKING STATEMENTS

Certain statements in this Quarterly Report on Form 10-Q, including in this Management's Discussion and Analysis, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These forward-looking statements generally are identified by the words "believe," "project," "predict," "expect," "anticipate," "estimate," "intend," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result," and other expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. A detailed discussion of risks and uncertainties that could cause actual results and events to differ materially from such forward-looking statements is included in the section entitled "Risk Factors" contained in our Form 10-K filed with the Securities and Exchange Commission ("SEC") on March 17, 2016. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. Readers are cautioned not to place undue reliance on the forward-looking statements which speak only to the dates on which they were made.

GENERAL

The following is a discussion and analysis of our results of operations for the three-month periods ended June 30, 2016 and 2015 and our financial condition as of June 30, 2016 and December 31, 2015. The following discussion should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q and in our Form 10-K filed with the Securities and Exchange Commission ("SEC") on March 17, 2016. References to "we," "us," "our," "our company," or "the Company" refer to Oxbridge Re Holdings Limited and its wholly-owned subsidiary, Oxbridge Reinsurance Limited, unless the context dictates otherwise.

Overview

We are a Cayman Islands specialty property and casualty reinsurer that provides reinsurance solutions through our subsidiary, Oxbridge Reinsurance Limited. We focus on underwriting fully-collateralized reinsurance contracts primarily for property and casualty insurance companies in the Gulf Coast region of the United States, with an emphasis on Florida. We specialize in underwriting medium frequency, high severity risks, where we believe sufficient data exists to analyze effectively the risk/return profile of reinsurance contracts.

We underwrite reinsurance contracts on a selective and opportunistic basis as opportunities arise based on our goal of achieving favorable long-term returns on equity for our shareholders. Our goal is to achieve long-term growth in book value per share by writing business that generates attractive underwriting profits relative to the risk we bear. Unlike other insurance and reinsurance companies, we do not intend to pursue an aggressive investment strategy and instead will focus our business on underwriting profits rather than investment profits. However, we intend to complement our underwriting profits with investment profits on an opportunistic basis. Our primary business focus is on fully collateralized reinsurance contracts for property catastrophes, primarily in the Gulf Coast region of the United States, with an emphasis on Florida. Within that market and risk category, we attempt to select the most economically attractive opportunities across a variety of property and casualty insurers. As our capital base grows, however, we expect that we will consider growth opportunities in other geographic areas and risk categories.

Our level of profitability is primarily determined by how adequately our premiums assumed and investment income cover our costs and expenses, which consist primarily of acquisition costs and other underwriting expenses, claim payments and general and administrative expenses. One factor leading to variation in our operational results is the timing and magnitude of any follow-on offerings we undertake (if any), as we are able to deploy new capital to collateralize new reinsurance treaties and consequently, earn additional premium revenue. In addition, our results of operations may be seasonal in that hurricanes and other tropical storms typically occur during the period from June 1 through November 30. Further, our results of operations may be subject to significant variations due to factors affecting the property and casualty insurance industry in general, which include competition, legislation, regulation, general economic conditions, judicial trends, and fluctuations in interest rates and other changes in the investment environment.

Because we employ an opportunistic underwriting and investment philosophy, period-to-period comparisons of our underwriting results may not be meaningful. In addition, our historical investment results may not necessarily be indicative of future performance. Due to the nature of our reinsurance and investment strategies, our operating results will likely fluctuate from period to period.

PRINCIPAL REVENUE AND EXPENSE ITEMS

Revenues

We derive our revenues from two principal sources:

premiums assumed from reinsurance on property and casualty business; and

income from investments.

Premiums assumed include all premiums received by a reinsurance company during a specified accounting period, even if the policy provides coverage beyond the end of the period. Premiums are earned over the term of the related policies. At the end of each accounting period, the portion of the premiums that are not yet earned are included in the unearned premiums reserve and are realized as revenue in subsequent periods over the remaining term of the policy. Our policies typically have a term of twelve months. Thus, for example, for a policy that is written on July 1, 2016, one-half of the premiums will be earned in 2016 and the other half will be earned during 2017.

Premiums from reinsurance on property and casualty business assumed are directly related to the number, type and pricing of contracts we write.

Premiums assumed are recorded net of change in loss experience refund, which consists of changes in amounts due to the cedants under two of our reinsurance contracts. These contracts contain retrospective provisions that adjust premiums in the event losses are minimal or zero. We recognize a liability pro-rata over the period in which the absence of loss experience obligates us to refund premiums under the contracts, and we will derecognize such liability in the period in which a loss experience arises. The change in loss experience refund is negatively correlated to loss and loss adjustment expenses described below.

Income from our investments is primarily comprised of interest income, dividends and net realized gains on investment securities. Such income is primarily from the Company's investments, including investments held in trust accounts that collateralize the reinsurance policies that we write. The investment parameters for collateral held in such trust accounts are generally be established by the cedant for the relevant policy.

Expenses

Our expenses consist primarily of the following:

- losses and loss adjustment expenses;

- policy acquisition costs and underwriting expenses; and

- general and administrative expenses.

Loss and loss adjustment expenses are a function of the amount and type of reinsurance contracts we write and of the loss experience of the underlying coverage. As described below, loss and loss adjustment expenses are based on the claims reported by our company's ceding insurers, and where necessary, may include an actuarial analysis of the estimated losses, including losses incurred during the period and changes in estimates from prior periods. Depending on the nature of the contract, loss and loss adjustment expenses may be paid over a period of years.

Policy acquisition costs and underwriting expenses consist primarily of brokerage fees, ceding commissions, premium taxes and other direct expenses that relate to our writing of reinsurance contracts. We amortize deferred acquisition costs over the related contract term.

General and administrative expenses consist of salaries and benefits and related costs, including costs associated with our professional fees, rent and other general operating expenses consistent with operating as a public company.

RESULTS OF OPERATIONS

The following table summarizes our results of operations for the three and six-month periods ended June 30, 2016 and 2015 (dollars in thousands, except per share amounts):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2016	2015	2016	2015
	(Unaudited)		(Unaudited)

Performance ratios to net premiums earned:

Edgar Filing: OXBRIDGE RE HOLDINGS Ltd - Form 424B3

Loss ratio	66.2%	0.0%	48.2%	0.0%
Acquisition cost ratio	2.0%	5.3%	2.7%	5.5%
Expense ratio	13.3%	24.9%	18.4%	26.5%
Combined ratio	79.5%	24.9%	66.6%	26.5%

General. Net income for the quarter ended June 30, 2016 was \$872 thousand, or \$0.14 per basic and diluted share, compared to a net income of \$1.65 million, or \$0.27 per basic and diluted share, for the quarter ended June 30, 2015. The decrease in net income from \$1.65 million to \$872 thousand was primarily due to losses reported during the quarter ended June 30, 2016 compared with the previous quarter, as well as the lower realized gains on investments during the quarter ending June 30, 2016.

Net income for the six month ended June 30, 2016 was \$1.9 million, or \$0.32 per basic and diluted share, compared to a net income of \$3.5 million, or \$0.58 per basic and diluted share, for the quarter ended June 30, 2015. The decrease in net income from \$3.5 million to \$1.9 million was primarily due to losses reported during the quarter ended June 30, 2016 compared with the previous quarter, as well as the lower realized gains on investments during the six months ending June 30, 2016.

Premium Income. Premiums earned reflects the pro rata inclusion into income of premiums assumed (net of loss experience refund) over the life of the reinsurance contracts.

Net premiums earned for the quarter ended June 30, 2016 increased \$1.7 million, or 105%, to \$3.3 million, from \$1.6 million for the quarter ended June 30, 2015. The increase in net premiums earned was primarily as a result of the derecognition of approximately \$1.8 million of loss experience refund reserve during the quarter as the Company experienced losses under one of its contracts. This was marginally offset by lower rates on policies in force during the quarter ended June 30, 2016, compared with the previous quarter.

Net premiums earned for the six months ended June 30, 2016 increased \$1.5 million, or 49%, to \$4.7 million, from \$3.1 million for the quarter ended June 30, 2015. The increase in net premiums earned was primarily as a result of the derecognition of approximately \$1.8 million of loss experience refund reserve during the six months ended June 30, 2016 as the Company experienced losses under one of its contracts. This was marginally offset by lower rates on policies in force during the quarter ended June 30, 2016, compared with the previous period.

Losses Incurred. Losses incurred for the quarter ended June 30, 2016 increased \$2.2 million as a result of the establishment of a reserve for losses and loss adjustment expenses for losses reported under one of our contracts.

There were no losses incurred for the three months ended June 30, 2015.

Losses incurred for the six months ended June 30, 2016 increased \$2.3 million as a result of the establishment of a reserve for losses and loss adjustment expenses for losses reported under one of our contracts, as well the payment of losses occurring under a separate contract. There were no losses incurred for the six months ended June 30, 2015.

Policy Acquisition Costs and Underwriting Expenses. Acquisition costs represent the amortization of the brokerage fees and federal excise taxes incurred on reinsurance contracts placed. Policy acquisition costs and underwriting expenses for the quarter ended June 30, 2016 decreased \$19 thousand, or 22%, to \$68 thousand from \$87 thousand for the quarter ended June 30, 2015. The decrease is the result of both decreased net premiums earned (excluding the \$1.8 million adjustment mentioned above) and the lower weighted-average acquisition costs on reinsurance contracts in force during the quarter ended June 30, 2016, when compared with the previous quarter.

Policy acquisition costs and underwriting expenses for the six months ended June 30, 2016 decreased \$46 thousand, or 26%, to \$128 thousand from \$174 thousand for the six months ended June 30, 2015. The decrease is the result of both decreased net premiums earned (excluding the \$1.8 million adjustment mentioned above) and the lower weighted-average acquisition costs on reinsurance contracts in force during the six months ended June 30, 2016, when compared with the previous period.

General and Administrative Expenses. General and administrative expenses for the quarter ended June 30, 2016 increased \$56 thousand, or 17%, to \$377 thousand, from \$321 thousand for the quarter ended June 30, 2015. The increase was not effected by any major increase in any expense item, but overall higher expenses associated with lease rental, salaries and other expenses associated with being a public company.

General and administrative expenses for the six months ended June 30, 2016 increased \$71 thousand, or 11%, to \$742 thousand, from \$671 thousand for the six months ended June 30, 2015. The increase was due primarily to management bonuses of \$50 thousand paid during the six months ending June 30, 2016, compared with \$0 in the previous period. The remaining increase was not effected by any major increase in any expense item, but overall higher expenses associated with lease rental, salaries and other expenses associated with being a public company.

MEASUREMENT OF RESULTS

We use various measures to analyze the growth and profitability of business operations. For our reinsurance business, we measure growth in terms of premiums assumed and we measure underwriting profitability by examining our loss, underwriting expense and combined ratios. We analyze and measure profitability in terms of net income and return on average equity.

Premiums Assumed. We use gross premiums assumed to measure our sales of reinsurance products. Gross premiums assumed also correlates to our ability to generate net premiums earned. See also the analysis above relating to the growth in premiums assumed.

Loss Ratio. The loss ratio is the ratio of losses and loss adjustment expenses incurred to premiums earned and measures the underwriting profitability of our reinsurance business. The loss ratio increased from 0% for the quarter ended June 30, 2015 to 66.2% for the quarter ended June 30, 2016. The increase is wholly due to the establishment of a reserve for loss and loss adjustment expenses for losses expected due to a covered event occurring during the quarter ended June 30, 2016.

The loss ratio increased from 0% for the six months ended June 30, 2015 to 48.2% for the quarter ended June 30, 2016. The increase is wholly due to the establishment of a reserve for loss and loss adjustment expenses for losses expected due to a covered event occurring during the six months ended June 30, 2016, as well as the as well the payment of losses occurring under a separate covered event during the period.

Acquisition Cost Ratio. The acquisition cost ratio is the ratio of policy acquisition costs and other underwriting expenses to net premiums earned. The acquisition cost ratio measures our operational efficiency in producing, underwriting and administering our reinsurance business. The acquisition cost ratio decreased from 5.3% for the quarter ended June 30, 2015 to 2.0% for the quarter ended June 30, 2016. The decrease is due to the overall lower weighted-average acquisition costs on reinsurance contracts in force during the three-month period ended June 30, 2016, compared with three-month period ended June 30, 2015, as well as the impact of the \$1.8 million adjustment to net premiums earned due to the derecognition of loss experience refund reserves.

The acquisition cost ratio decreased from 5.5% for the six months ended June 30, 2015 to 2.7% for the six months ended June 30, 2016. The decrease is due to the overall lower weighted-average acquisition costs on reinsurance contracts in force during the three-month period ended June 30, 2016, compared with three-month period ended June 30, 2015, as well as the impact of the \$1.8 million adjustment to net premiums earned due to the derecognition of loss experience refund reserves.

Expense Ratio. The expense ratio is the ratio of policy acquisition costs, other underwriting expenses and other administrative expenses to net premiums earned. We use the expense ratio to measure our operating performance. The expense ratio decreased from 24.9% for the three-month period ended June 30, 2015 to 13.3% for the three-month period ended June 30, 2016. The decrease is as a result of higher net premiums earned due to derecognition of loss experience refund reserves mentioned above. There is also no correlation between such adjustment to net premiums earned and changes in general and administrative expenses.

The expense ratio decreased from 26.5% for the six-month period ended June 30, 2015 to 18.4% for the six-month period ended June 30, 2016. The decrease is as a result of higher net premiums earned due to derecognition of loss experience refund reserves mentioned above. There is also no correlation between such adjustment to net premiums earned and changes in general and administrative expenses.

Combined Ratio. We use the combined ratio to measure our underwriting performance. The combined ratio is the sum of the loss ratio and the expense ratio. If the combined ratio is at or above 100%, we are not underwriting profitably and may not be profitable. The combined ratio increased from 24.9% for the three-month period ended June 30, 2015 to 79.5% for the three-month period ended June 30, 2016. The increase in the combined ratio is due to the factor mentioned in expense ratio above, as well as due to the recording of loss reserves for the quarter ending June 30, 2016, compared with none for the quarter ending June 30, 2015.

The combined ratio increased from 26.5% for the six-month period ended June 30, 2015 to 66.6% for the six-month period ended June 30, 2016. The increase in the combined ratio is due to the factor mentioned in expense ratio above, as well as due to the recording of loss reserves and payment of losses during the six months ending June 30, 2016, compared with none for the six month period ending June 30, 2015.

FINANCIAL CONDITION – JUNE 30, 2016 COMPARED TO DECEMBER 31, 2015

Investments. As of June 30, 2016, our available-for-sale securities increased by \$4.3 million, or 47%, to \$13.7 million, from \$9.3 million as of December 31, 2015. The increase is primarily a result of net purchases of fixed-maturity and equity securities during the six-month period ended June 30, 2016.

Premiums Receivable. As of June 30, 2016, our premiums receivable increased by approximately \$5.5 million, or 133%, to \$9.6 million, from \$4.1 million as of December 31, 2015. The increase is due to premiums assumed for treaty year beginning June 1, 2016 offset by receipt of premium installments during the six-month period ended June 30, 2016.

Loss Experience Refund Payable. As of June 30, 2016, our loss experience refund payable decreased by \$5.2 million, or 52%, to \$4.7 million, from \$9.9 million at December 31, 2015. The decrease is due to both the recognition of a pro-rated liability over the six-month period ended June 30, 2015, because the absence of loss experience under two of our reinsurance contracts obligates us to refund premium to two of our ceding reinsurers, offset by the cash settlement of our loss experience refund liability under one of our reinsurance contracts, as well as the derecognition of liability under one of our contracts since we experience losses during the period.

Unearned Premiums Reserve. As of June 30, 2016, our unearned premiums reserve increased by \$8 million, or 143%, to \$13.5 million, from \$5.6 million at December 31, 2015. The increase is due primarily the successful placement of reinsurance contracts for the treaty year effective June 1, 2016.

LIQUIDITY AND CAPITAL RESOURCES

General

We are organized as a holding company with substantially no operations at the holding company level. Our operations are conducted through our sole reinsurance subsidiary, Oxbridge Reinsurance Limited, which underwrites risks associated with our property and casualty reinsurance programs. We have minimal continuing cash needs at the holding company level, with such expenses principally being related to the payment of administrative expenses and shareholder dividends. There are restrictions on Oxbridge Reinsurance Limited's ability to pay dividends which are described in more detail below.

Sources and Uses of Funds

Our sources of funds primarily consist of premium receipts (net of brokerage fees and federal excise taxes, where applicable) and investment income, including interest, dividends and realized gains. We use cash to pay losses and loss adjustment expenses, other underwriting expenses, dividends, and general and administrative expenses. Substantially all of our surplus funds, net of funds required for cash liquidity purposes, are invested in accordance with our investment guidelines. Our investment portfolio is primarily comprised of cash and highly liquid securities, which can be liquidated, if necessary, to meet current liabilities. We believe that we have sufficient flexibility to liquidate any long-term securities that we own in a rising market to generate liquidity.

As of June 30, 2016, we believe we had sufficient cash flows from operations to meet our liquidity requirements. We expect that our operational needs for liquidity will be met by cash, investment income and funds generated from underwriting activities. We have no plans to issue debt and expect to fund our operations for the foreseeable future from operating cash flows, as well as from potential future equity offerings. However, we cannot provide assurances that in the future we will not incur indebtedness to implement our business strategy, pay claims or make acquisitions. Although Oxbridge Re Holdings Limited is not subject to any significant legal prohibitions on the payment of dividends, Oxbridge Reinsurance Limited is subject to Cayman Islands regulatory constraints that affect its ability to pay dividends to us and include a minimum net worth requirement. Currently, the minimum net worth requirement for Oxbridge Reinsurance Limited is \$500. As of June 30, 2016, Oxbridge Reinsurance Limited exceeded the minimum required. By law, Oxbridge Reinsurance Limited is restricted from paying a dividend if such a dividend would cause its net worth to drop to less than the required minimum.

Cash Flows

Our cash flows from operating, investing and financing activities for the three-month periods ended June 30, 2016 and 2015 are summarized below.

Cash Flows for the Six months ended June 30, 2016 (in thousands)

Net cash provided by operating activities for the six months ended June 30, 2016 totaled \$1,183, which consisted primarily of cash received from net written premiums less cash disbursed for operating expenses. Net cash used in investing activities of \$3,594 was primarily due to the net purchases of available for sale securities, and the addition of collateral upon renewal or underwriting of new reinsurance contracts. Net cash used in financing activities totaled \$1,515 representing cash dividend payments and cash used to repurchase ordinary shares under the Company's share repurchase plan.

Cash Flows for the Six months ended June 30, 2015 (in thousands)

Net cash provided by operating activities for the six months ended June 30, 2015 totaled \$1,735, which consisted primarily of cash received from net written premiums less cash disbursed for operating expenses. Net cash provided by investing activities of \$14,579 was primarily due to the net sales of available for sale securities, and the return of collateral upon expiration of a number of reinsurance contracts. Net cash used in financing activities totaled \$1,455 representing cash dividend payments.

Share Repurchase Program

On May 12, 2016, the Board of Directors of Oxbridge Re Holdings Limited (the "Company") authorized a share repurchase program (the "Share Repurchase Program"), pursuant to which the Company may, from time to time, purchase shares of its common stock for an aggregate repurchase price not to exceed \$2 million. The plan expires on December 31, 2017. Share repurchases may be executed through various means, including, without limitation, open market transactions, privately negotiated transactions or tender offers. The repurchases will be funded from cash on hand or other capital markets sources. The stock repurchase program may be suspended or discontinued at any time without prior notice.

The Company has adopted a Rule 10b5-1 share repurchase plan under the Securities Exchange Act of 1934 (the "Plan") in connection with the Share Repurchase Program. The Plan allows the Company to repurchase its shares at times when it otherwise might be prevented from doing so under insider trading laws or because of self-imposed trading blackout periods. Because repurchases under the Plan are subject to certain pricing parameters, there is no guarantee as to the exact number of shares that will be repurchased under the Plan or that there will be any repurchases pursuant to the Plan. Subject to applicable regulations, the Company may elect to amend or cancel the Plan at its discretion. At June 30, 2016, there was approximately \$1,940,000 available under the plan. See Note 8- "Shareholders' Equity" to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q.

OFF-BALANCE SHEET ARRANGEMENTS

As of June 30, 2016, we had no off-balance sheet arrangements as defined in Item 303(a)(4) of Regulation S-K.

EXPOSURE TO CATASTROPHES

As with other reinsurers, our operating results and financial condition could be adversely affected by volatile and unpredictable natural and man-made disasters, such as hurricanes, windstorms, earthquakes, floods, fires, riots and explosions. Although we attempt to limit our exposure to levels we believe are acceptable, it is possible that an actual catastrophic event or multiple catastrophic events could have a material adverse effect on our financial condition, results of operations and cash flows. As described under “CRITICAL ACCOUNTING POLICIES—Reserves for Losses and Loss Adjustment Expenses” below, under GAAP, we are not permitted to establish loss reserves with respect to losses that may be incurred under reinsurance contracts until the occurrence of an event which may give rise to a claim. As a result, only loss reserves applicable to losses incurred up to the reporting date may be established, with no provision for a contingency reserve to account for expected future losses.

CRITICAL ACCOUNTING POLICIES

We are required to make estimates and assumptions in certain circumstances that affect amounts reported in our consolidated financial statements and related footnotes. We evaluate these estimates and assumptions on an on-going basis based on historical developments, market conditions, industry trends and other information that we believe to be reasonable under the circumstances. These accounting policies pertain to premium revenues and risk transfer, reserve for loss and loss adjustment expenses and the reporting of deferred acquisition costs.

Premium Revenue and Risk Transfer. We record premiums revenue as earned pro-rata over the terms of the reinsurance agreements and the unearned portion at the balance sheet date is recorded as unearned premiums reserve. A reserve is made for estimated premium deficiencies to the extent that estimated losses and loss adjustment expenses exceed related unearned premiums. Investment income is not considered in determining whether or not a deficiency exists.

We account for reinsurance contracts in accordance with ASC 944, “Financial Services – Insurance.” Assessing whether or not a reinsurance contract meets the conditions for risk transfer requires judgment. The determination of risk transfer is critical to reporting premiums written. If we determine that a reinsurance contract does not transfer sufficient risk, we must account for the contract as a deposit liability.

Loss experience refund payable. Certain contracts include retrospective provisions that adjust premiums or result in profit commissions in the event losses are minimal or zero. Under such contracts, the Company expects to recognize aggregate liabilities payable to the ceding insurers assuming no losses occur during the contract period. In accordance with GAAP, the Company will recognize a liability in the period in which the absence of loss experience obligates the Company to pay cash or other consideration under the contract. On the contrary, the Company will derecognize such liability in the period in which a loss experience arises. Such adjustments to the liability, which accrue throughout the contract term, will reduce the liability should a catastrophic loss event covered by the Company occur.

Reserves for Losses and Loss Adjustment Expenses. We determine our reserves for losses and loss adjustment expenses on the basis of the claims reported by our ceding insurers. Incurred but not reported (“IBNR”) reserves are estimated by management using various actuarial methods in addition to the ceding insurer’s estimated IBNR, historical industry loss experience and our professional judgment. The reserves for losses and loss adjustment expenses represent management’s best estimate of the ultimate settlement costs of all losses and loss adjustment expenses. We believe that the amounts are adequate; however, the inherent impossibility of predicting future events with precision, results in uncertainty as to the amount which will ultimately be required for the settlement of losses and loss expenses, and the differences could be material. Adjustments are reflected in the consolidated statements of income in the period in which they are determined.

Under GAAP, we are not permitted to establish loss reserves until the occurrence of an actual loss event. As a result, only loss reserves applicable to losses incurred up to the reporting date may be recorded, with no allowance for the provision of a contingency reserve to account for expected future losses. Losses arising from future events, which could be substantial, are estimated and recognized at the time the loss is incurred.

As at June 30, 2016 our best estimate for reserves for loss and loss adjustment expenses was \$2.25 million, with IBNR representing approximately 100% of such reserves.

Our reserving methodology does not lend itself well to a statistical calculation of a range of estimates surrounding the best point estimate of our reserve for loss and loss adjustment expense. Due to the low frequency and high severity nature of claims within much of our business, our reserving methodology principally involves arriving at a specific point estimate for the ultimate expected loss on a contract by contract basis, and our aggregate loss reserves are the sum of the individual loss reserves established.

Deferred Acquisition Costs. We defer certain expenses that are directly related to and vary with producing reinsurance business, including brokerage fees on gross premiums assumed, premium taxes and certain other costs related to the acquisition of reinsurance contracts. These costs are capitalized and the resulting asset, deferred acquisition costs, is amortized and charged to expense in future periods as premiums assumed are earned. The method followed in computing deferred acquisition costs limits the amount of such deferral to its estimated realizable value. The ultimate recoverability of deferred acquisition costs is dependent on the continued profitability of our reinsurance underwriting. If our underwriting ceases to be profitable, we may have to write off a portion of our deferred acquisition costs, resulting in a further charge to income in the period in which the underwriting losses are recognized.

Stock-Based Compensation: The Company accounts for stock-based compensation under the fair value recognition provisions of GAAP which requires the measurement and recognition of compensation for all stock-based awards made to employees and directors, including stock options and restricted stock issuances based on estimated fair values. The Company measures compensation for restricted stock based on the price of the Company’s ordinary shares at the grant date. Determining the fair value of share purchase options at the grant date requires significant estimation and judgment. The Company uses an option-pricing model (Black-Scholes option pricing model) to assist in the calculation of fair value for share purchase options. The Company's shares have not been publicly traded for a sufficient length of time to solely use the Company's performance to reasonably estimate the expected volatility. Therefore, when estimating the expected volatility, the Company takes into consideration the historical volatility of similar entities. The Company considers factors such as an entity's industry, stage of life cycle, size and financial leverage when selecting similar entities. The Company uses a sample peer group of companies in the reinsurance industry as well as the Company’s own historical volatility in determining the expected volatility. Additionally, the Company uses the full life of the options, ten years, as the estimated term of the options, and has assumed no forfeitures during the life of the options.

The Company uses the straight-line attribution method for all grants that include only a service condition. Compensation expense related to all awards is included in general and administrative expenses.

Item 3.

Quantitative and Qualitative Disclosures About Market Risk

Because we are a smaller reporting company, we are not required to provide this information.

Item 4.

Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our Chief Executive Officer (our principal executive officer) and our Financial Controller (our principal financial officer), we have evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and our Financial Controller have concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1.

Legal Proceedings

We are not currently involved in any litigation or arbitration. We anticipate that, similar to the rest of the insurance and reinsurance industry, we will be subject to litigation and arbitration in the ordinary course of business.

Item 1A.

Risk Factors

There have been no material changes to the risk factors previously disclosed in the section entitled “Risk Factors” in our Form 10-K, which was filed with the Securities and Exchange Commission on March 17, 2016.

Item 2.

Unregistered Sales of Equity Securities and Use of Proceeds

(a)

Sales of Unregistered Securities

None.

(b)

Repurchases of Equity Securities

The table below summarizes the number of common shares repurchased during the three months ended June 30, 2016 under a share repurchase plan (dollar amounts in thousands, except share and per share amounts):

	Total Number of	Maximum Dollar	
		Value of Shares That	
	Shares Purchased as	Average	May Yet Be
	Part of Publicly	Price Paid	Purchased Under
	Announced Plans	The Plans	
For the Month Ended or Programs (a)		Per Share	or Programs (b)
30-Apr-16	-	\$-	\$-
31-May-16	-	\$-	\$2,000,000
30-Jun-16	11,530	\$5.22	\$1,939,853
	11,530	\$5.22	

(a)

The share repurchase plan approved by our Board of Directors on May 12, 2016 commenced in June 2016.

(b)

Represents the balances inclusive of commissions and fees at the end of each month.

(c)

Use of Proceeds

None.

43

Item 3.
Defaults Upon Senior Securities

None.

Item 4.
Mine Safety Disclosures

Not applicable.

Item 5.
Other Information

The following information is provided in lieu of the filing of a Form 8-K:
Information Reportable Under Item 5.02 of Form 8-K

On August 13, 2016, the Board of Directors approved amendments to the employment agreements with executive officers Jay Madhu and Wrendon Timothy. These amendments have been as filed in Exhibits 10.31 and Exhibits 10.41 to this Quarterly Report on Form 10-Q.

Item 6.
Exhibits

The following exhibits are filed herewith:

Exhibit No.	Document
10.31	Amendment dated July 19, 2016 to Employment Agreement between Jay Madhu and Oxbridge Re Holdings Limited dated July 18, 2013.
10.41	Amendment dated August 1, 2015 to Employment Agreement between Wrendon Timothy and Oxbridge Re Holdings Limited dated August 1, 2013.
31.1	Certifications of the Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act and Rule 13a-14(a) or 15d-14(a) under the Securities Exchange Act of 1934.
31.2	Certifications of the Financial Controller pursuant to Section 302 of the Sarbanes-Oxley Act and Rule 13a-14(a) or 15d-14(a) under the Securities Exchange Act of 1934.
32	Written Statement of the Chief Executive Officer and Financial Controller pursuant to 18 U.S.C. §1350.
101	The following materials from Oxbridge Re Holdings Limited's Quarterly Report on Form 10-Q for the quarter ended June 30, 2016 are filed herewith, formatted in XBRL (Extensible Business Reporting Language): (i) the Consolidated Balance Sheets, (ii) the Consolidated Statements of Income, (iii) the Consolidated Statements of Comprehensive Income, (iv) the Consolidated Statements of Cash Flows, (v) the Consolidated Statements of Changes in Shareholders' Equity and (vi) the Notes to Consolidated Financial Statements.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
