Six Month Period ended September 30, 2006 compared to the Six Month period ended September 30, 2005

Net Sales. During the six-month period ended September 30, 2006, our sales increased 8% from approximately \$34,112,000 for the six-month period ended September 30, 2005, to approximately \$36,831,000. The increased sales were primarily the result of increase of demand for our scales products. Sales from our scales business increased by approximately \$4,944,000 from \$22,183,000 for the six-month period ended September 30, 2005 to \$27,127,000 for the six-month period ended September 30, 2006. Sales from our telecommunications products decreased by approximately \$2,225,000 from approximately \$11,929,000 for the period ended September 30, 2005 to \$9,704,000 for the period ended September 30, 2006.

Gross Margin. Gross margin as a percentage of revenue decreased to 18.9% during the six-month period ended September 30, 2006 as compared to 19.7% during the same period in the prior year. This decline was primarily the result of our cost increase in the area of materials and labor and the increased pressure on the sales price from our customers for both our FRS telecommunication products and scales products.

Selling Expenses. Selling expenses increased by 13% from approximately \$1,107,000 for the six-month period ended September 30, 2005 to approximately \$1,256,000 for the six-month period ended September 30, 2006. The increase was primarily the result of increased in sales and the increase in freight cost due

Edgar Filing: BONSO ELECTRONICS INTERNATIONAL INC - Form 6-K

to the rise in oil price. Selling expenses increased as a percentage of revenue to 3.4% during the six-month period ended September 30, 2006 as compared to 3.2% during the period in the prior year.

Salaries And Related Costs. Salaries and related costs increased by 2% from approximately \$2,743,000 for the six-month period ended September 30, 2005 to approximately \$2,793,000 for the six-month period ended September 30, 2006. This increase was primary due to the increased in salaries to our employee.

Research And Development. Research and development expenses decreased 13% from approximately \$272,000 for the six-month period ended September 30, 2005 to approximately \$236,000 for the six-month period ended September 30, 2006. The decrease was primarily due to the completion of various new products design in early this calendar year. This decrease was primarily the result of decreased expenses in consultancy fee and repair and maintenance fee.

Income From Operations. As a result of the above changes, income from operations increased by 25% from approximately \$894,000 for the six-month period ended September 30, 2005 to \$1,116,000 for the six-month period ended September 30, 2006.

Interest Income. Interest income amounted to approximately \$123,000 for the six-month period ended September 30, 2006, compared to \$86,000 in the six-month period ended September 30, 2005. 6

Other Income. Other income decreased 62% from approximately \$255,000 for the six-month period ended September 30, 2005 to approximately \$96,000 for the six-month period ended September 30, 2006. The decrease was primarily due to a decrease in the disposal of fixed assets.

As of September 30, 2006, we had \$10,692,437 in cash and cash equivalents as compared to \$8,582,257 as of March 31, 2006. Working capital at September 30, 2006 was \$18,221,760 compared to \$16,847,370 at March 31, 2006. We believe that our cash flows from operations, our current cash balance and funds available under our working capital and credit facilities will be sufficient to meet our working capital needs and planned capital expenditures in the foreseeable future.
