Item 2. Acquisition or Disposition of Assets.

Effective May 30, 2003, Omni Medical Holdings, Inc. ("OMH" or the "Company"), through its wholly-owned subsidiary, Omni Medical Services, Inc., ("OMS"), completed an asset purchase agreement with Medical Billing Management, Inc. ("MBM"), a corporation based in Mississippi and a provider of medical billing and collection services to medical practitioners. The aggregate purchase price of \$450,000, including \$150,000 paid at closing, \$75,000 payable on November 30, 2003 (paid in February 2004) and \$225,000 payable on May 31, 2004. The May 31, 2004 payment is subject to an adjustment which is to be calculated based on a multiple of the amount by which revenues for the year ending May 31, 2004 are more or less than a baseline amount. The adjustment will be recorded as an adjustment to the acquisition cost of MBM.

The purchase price was allocated \$124,564 for equipment, furniture and other depreciable assets; \$135,000 for accounts receivable and work in process and \$100,000 for a related Covenant Not to Compete of Margaret Brown, MBM's President, who was also given a one year Employment Agreement; and the

balance as goodwill. A complete list of the equipment acquired and the Employment Agreement are respectively Exhibits A and C to the Asset Purchase Agreement.

The consideration paid was negotiated "arms length," and the directors of the Company determined that the consideration for the purchase was reasonable, under these circumstances.

No director, executive officer or five percent or more stockholder of the Company had any direct or indirect interest in MBM prior to the completion of the Asset Purchase Agreement.

For more information regarding this transaction, see the Asset Purchase Agreement and related Exhibits attached hereto and incorporated herein by reference. See Item 7 of this Current Report.

NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED DECEMBER 31, 2002 AND 2001  
THREE MONTHS ENDED MARCH 31, 2003 AND 2002 (UNAUDITED)

1. Organization and interim financial statements:

Medical Billing Management, Inc, ("the Company"), a Mississippi corporation, provides medical billing and collection services to medical practitioners. The Company operates out of its facility in Jackson, Mississippi.

The balance sheet as of March 31, 2003, the related statements of operations and cash flows for the three months ended March 31, 2003 and 2002, and the statement of shareholders' equity for the three months ended March 31, 2003, have been prepared by the Company without audit. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for all such periods have been made. The results of operations for the three months ended March 31, 2003, are not necessarily indicative of the operating results for the full year.

2. Significant accounting policies:

Cash and cash equivalents:

Cash and cash equivalents include cash on hand, money market accounts and short-term investments purchased with an original maturity of three months or less.

Accounts receivable and concentration of credit risk:

The Company extends credit to its customers in the normal course of business. The Company maintains reserves for potential credit losses based upon its loss history and its aging analysis. At December 31, 2002 and March 31, 2003, four customers, individually, accounted for more than 10% of accounts receivable.

Customers that accounted for more than 10% of revenues are as follows:

	December 31, 2002	December 31, 2001	March 31, 2003 (unaudited)	March 31, 2002 (unaudited)

### 2. Significant accounting policies (continued):

#### Furniture and equipment:

Furniture and equipment are recorded at cost. Depreciation is provided by use of straight-line and accelerated methods over the estimated useful lives of the assets ranging from 3 to 10 years.

The Company periodically evaluates the carrying value of its long-lived assets for purposes of determining if impairment has occurred. If the Company determines that impairment has occurred, a loss is recognized based on the difference between the assets' carrying value and their estimated fair value. Based upon its review, the Company does not believe that any impairment has occurred as of December 31, 2002.

#### Revenue recognition:

Revenue is recognized only after the following criteria are met: (i) there exists adequate evidence of the transactions; (ii) services have been performed; and (iii) the price is not contingent on future activity and (iv) collectibility is assured.

#### Fair value of financial instruments:

The carrying amounts of the Company's financial instruments approximate fair values due to the short maturities of these instruments.

#### Income taxes:

The Company has elected to be taxed under the provisions of Subchapter S of the Internal Revenue Code. Under these provisions, each shareholder reports his proportionate share of the Company's income on his individual income tax return. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements.

#### Comprehensive income:

SFAS No. 130, Reporting Comprehensive Income, establishes requirements for disclosure of comprehensive income. During the years ended December 31, 2002 and 2001 and the three months ended March 31, 2003 and 2002, the Company did not have any components of comprehensive income to report.

### 2. Significant accounting policies (continued):

#### Recently issued accounting pronouncements:

In May 2003, the Financial Accounting Standards Board (FASB) issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. SFAS No. 150 establishes new standards on how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. The

## Edgar Filing: OMNI MEDICAL HOLDINGS INC - Form 8-K

provisions of SFAS No. 150 are generally effective for all financial instruments entered into or modified after May 31, 2003, except for those provisions relating to mandatorily redeemable non-controlling interests, which have been deferred. The adoption of SFAS No. 150 did not have a material impact on the financial position or results operation of the Company. If the deferred provisions of SFAS No. 150 are finalized in their current form, management does not expect adoption to have a material effect on the financial position or results of operation of the Company.

In January 2003, the Financial Accounting Standards Board ("FASB") issued SFAS Interpretation No. 46, Consolidation of Variable Interest Entities ("FIN No. 46"), which changes the criteria by which one company includes another entity in its consolidated financial statements. FIN No. 46 requires a variable interest entity ("VIE") to be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. In December 2003, the FASB approved a partial deferral of FIN No. 46 along with various other amendments. The effective date for this interpretation has been extended until the first fiscal period ending after December 15, 2004. However, prior to the required application of this interpretation, a public entity that is a small business issuer shall apply this interpretation to those entities that are considered to be special purpose entities no later than as of the end of the first reporting period after December 15, 2003. As the Company does not currently have an interest in a VIE, management does not expect that the adoption of FIN No. 46 will have a significant immediate impact on the financial condition or results of operations of the Company.

In November 2002, the FASB issued SFAS Interpretation No. 45 ("FIN No. 45"), Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees and Indebtedness of Others. FIN No. 45 elaborates on the disclosures to be made by the guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. It also requires that a guarantor recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and measurement provisions of this interpretation are applicable on a prospective basis to guarantees issued or modified after December 31, 2002, while the provisions of the disclosure requirements are effective for financial statements of interim or annual reports ending after December 15, 2002. The Company is currently evaluating the recognition provisions of FIN No. 45, but does not expect that the adoption of FIN No. 45 will have a significant immediate impact on the financial condition or results of operations of the Company, as the Company has made no guarantees.

### 2. Significant accounting policies (continued):

Recently issued accounting pronouncements (continued):

In December 2002, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure. This statement amends SFAS No. 123, Accounting for Stock-Based Compensation and establishes two alternative methods of transition from the intrinsic value method to the

## Edgar Filing: OMNI MEDICAL HOLDINGS INC - Form 8-K

fair value method of accounting for stock-based employee compensation. In addition, SFAS No. 148 requires prominent disclosure about the effects on reported net income and requires disclosure for these effects in interim financial information. The provisions for the alternative transition methods are effective for fiscal years ending after December 15, 2002 and the amended disclosure requirements are effective for interim periods beginning after December 15, 2002. As the Company does not have stock-based compensation, management does not expect that the adoption of SFAS No. 148 will have a significant immediate impact on the Company's financial condition or results of operations of the Company.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the balance sheet and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

### 3. Furniture and equipment:

At December 31, 2002 and March 31, 2003 (unaudited), furniture and equipment consist of the following:

During each of the years ended December 31, 2001 and 2002, the Company made dividend distributions to its shareholders of \$100,000.

### 6. Subsequent events (unaudited):

Effective May 30, 2003, the Company entered into a sales agreement with Omni Medical Holdings Inc. ("OMH"), a Nevada corporation based in the state of South Dakota. Under the terms of the agreement, the Company sold certain assets (primarily customer list, accounts receivable, and furniture and equipment) and transferred certain lease obligations to OMH in exchange for a purchase price of \$450,000, of which \$150,000 was paid at closing, \$75,000 was payable on November 30, 2003 (paid in February 2004) and \$225,000 is payable on May 31, 2004.
