OUTLOOK

We expect second quarter 2003 results to be lower than the second quarter of last year. For the remainder of the year, the expected continuation of positive available cash flow will contribute to a further decline in net debt. Implemented and planned cost reduction measures will further contribute to the earnings development. Given the continued uncertain economic situation we refrain from giving an earnings forecast for the full year 2003.

CEO's STATEMENT

Commenting on the developments in the first quarter of 2003, Buhmann CEO Frans Koffrie said: "We are beginning to reap the fruits of last year's cost reductions and efficiency improvement initiatives in all divisions. In North America we managed to achieve an improvement in margins over the previous quarters, despite the fact that there is no notable improvement in economic circumstances. In Europe market conditions remain difficult, and we do not anticipate an improvement in the short-term. Nevertheless, aided by a disciplined approach to working capital management, cash flow remains strong. This allows us to further reduce debt and weather the adverse market circumstances."

SUMMARY FIRST QUARTER 2003

Organically sales increased by 1% in the Office Products North America Division, while in the other divisions sales declined organically. This resulted in a 4% organic decrease in sales for the total Buhmann Group. First quarter net sales totalled EUR 2,154 million (first quarter 2002: EUR 2,547 million). The 15% decrease includes a 10% negative effect caused by currency exchange rate movements (mainly due to an 18% drop in the average exchange rate of the US dollar against the Euro).

Net profit from operations before amortisation of goodwill totalled EUR 91 million, including EUR 56 million of exceptional items and a tax benefit of EUR 30 million. Excluding these items first quarter net profit from operations before amortisation of goodwill totalled EUR 5 million (first quarter 2002: EUR 37 million). Per ordinary share net profit on

Edgar Filing: BUHRMANN NV - Form 6-K

operations before amortisation of goodwill totalled EUR 0.57 (excluding exceptional items and tax benefit EUR 0.02).

Cash flow from operational activities totalled EUR 83 million positive (first quarter 2002: EUR 75 million negative), aided by continued stringent working capital management. Average working capital over the quarter decreased from 13.6% to 13.5% of sales.

Interest-bearing net debt was further reduced to EUR 1,636 million from EUR 1,735 million at year-end 2002 (including a EUR 41 million positive translation effect) and EUR 2,183 million at the end of the first quarter of last year (including a EUR 295 million positive translation effect).

KEY FINANCIAL INFORMATION

CASH FLOW AND FINANCING

Working capital continued to benefit from our stringent management focus. While the normal seasonal upward movement resulted in a minor increase compared to the previous quarter, working capital requirements were lower compared to the first quarter of 2002. Cash flow from operational activities amounted to a positive EUR 83 million in the first quarter (2002: EUR 75 million negative). Apart from working capital improvements, this was also attributable to the inclusion of the indemnity payment.

Net interest-bearing debt was reduced by EUR 99 million to EUR 1,636 million from EUR 1,735 million at the end of 2002 and EUR 2,183 million a year ago. As a consequence of early repayments of bank debts in March 2003, no mandatory redemptions remain this year. Debt as a percentage of shareholders' equity improved from 96% at the end of 2002 to 88% at the end of the first quarter of 2003. Group equity as a percentage of total assets improved from 33.5% at the end of 2002 to 36% at the end of the first quarter of 2003.

The four quarter rolling cash interest cover at the end of the first quarter was 2.7 times, which equals the level at the end of the corresponding period a year ago.

EXCEPTIONAL ITEMS

As announced in February, the first quarter results includes an indemnity payment of EUR 79 million, awarded to Buhrmann as the outcome of an arbitration case. After deduction of costs and taxes, this has resulted in an exceptional operating profit of EUR 58 million. Furthermore, we recorded an exceptional operating expense of EUR 2 million. Following the receipt of the indemnity payment, we acknowledged a tax benefit of EUR 30 million resulting from the release of a valuation allowance regarding the former ISD* (France) investments.

First quarter office products sales totalled EUR 1,381 million (first quarter 2002: EUR 1,667 million). Worldwide office products sales decreased by 1% organically in the first quarter of 2003, compared to the first quarter of last year, while eCommerce sales increased to over 30% of Buhrmann's office products sales. This corresponds with an annual run-rate of EUR 1.7 billion. Average capital employed decreased sharply, particularly as a result of various initiatives in the area of working capital management as well as the impact of currency exchange rate movements. Our global office products distribution operations continued to be successful in winning new accounts in the large account customer segment.

The Office Products North America Division completed the implementation of its ISIS single operating system, entered the Mexican market, and added new functionalities to its award winning E-Way internet ordering tool. First quarter sales totalled EUR 1,003 million (first quarter 2002: EUR 1,271 million). Organic sales growth was 1%, compared to the first quarter of last year.

The division recorded a further proportionate increase in sales of contract items, continued to increase its computer supplies business, and strengthened its position in the large account customer segment. Despite the continued shift in the sales mix towards lower margin sales, the division's progress in margin management is demonstrated by maintaining a sound gross margin. Added value as a

3

percentage of sales totalled 27.5% in the first quarter of 2003, compared to 28.0% a year ago. First quarter operating profit (EBITA) totalled EUR 43 million. As a percentage of sales EBITA recovered to 4.3%, from 2.1% in the fourth quarter and 3.4% in the third quarter of 2002.

First quarter sales of the combined Office Products Europe and Australia Divisions totalled EUR 378 million (first quarter 2002: EUR 396 million). The overall 4% organic sales decline was similar to the rate of decline in the fourth quarter of 2002 and is mainly attributable to continued weak market conditions in the large account customer segments in the UK and the Netherlands, partly offset by the Australian operations that continued to realise higher sales. In addition, in countries in which we have a strong presence in the customer segment of small and medium-sized enterprises, our operations reported continued sales growth. Added value remained relatively stable in most countries, with the notable exception of Germany. Operational costs are developing as planned, which includes some incidental expenses related to a new warehouse in Australia. The Office Products Europe Division has continued the extension of its product offer with the introduction of office products, paper, and computer supplies that are being marketed under its own brand name, Corporate Express. By further streamlining the European branch network, we work on realising envisioned cost savings. In Australia and New Zealand, we are successfully continuing product assortment extensions.

First quarter sales of the Paper Merchanting Division totalled EUR 710 million (first quarter 2002: EUR 780 million). The division reported an organic decline of 7% in first quarter sales, against the

4

background of a further weakening of the commercial print market in Europe, which is reflected in a 4% drop in volumes and 3% lower average prices. While the market volume continued to decrease, Buhmann's Paper Merchanting Division maintained its leading position without compromising its margins. As a consequence of our decisions to withdraw from business that yields unsatisfactory returns, we have sacrificed volume in France and Germany. Added value as a percentage of sales improved to 15.8%, compared to 15.4% in the first quarter 2002. Operating profit (EBITA) totalled EUR 15 million (first quarter 2002: EUR 20 million).

The Graphic Systems Division recorded lower sales and earnings results. First quarter sales totalled EUR 62 million (first quarter 2002: EUR 100 million), decreasing by 25% organically. The first quarter is traditionally the weakest quarter for graphic equipment sales. In addition, the overall sales figure was affected by the negative effect this quarter of EUR 13 million, due to a change in Dutch accounting guidelines requiring to record equipment sales after installation, instead of after delivery. The effect on first quarter EBITA was EUR 2 million. The full

Edgar Filing: BUHRMANN NV - Form 6-K

year effect on sales and EBITA is estimated to be EUR 35 million and EUR 8 million respectively. Meanwhile, the division continues to build successfully on its offer of services, supplies, and spare parts. Added value as a percentage of sales increased to 25.0% in the first quarter of 2003 (first quarter 2002: 24.3%). First quarter operating result (EBITA) was a EUR 9 million loss (first quarter 2002: EUR 0.5 million profit).

HOLDINGS

First quarter operating result (EBITA) includes some small incidental expenses, as well as the exceptional items of EUR 56 million.

Profile of Buhrmann

As an international business services and distribution group, Buhrmann is the world's major supplier of office products, paper and graphic systems for the business market. By combining modern Internet technology with intelligent logistic processes Buhrmann is able to distribute these products in a highly efficient way. Internet sales account for a rapidly growing proportion of total sales.

With its Office Products Divisions operating under the name of Corporate Express, Buhrmann is market leader in the business market for office products in North America and Australia. In Europe Corporate Express ranks second. Buhrmann is European market leader in paper merchandising and in the distribution of graphic systems. The group has its head office in Amsterdam and generates annual sales of about EUR 10 billion with around 25,000 employees in over 30 countries.

Safe Harbour Statement

Statements included in this press release which are not historical facts are forward-looking statements made pursuant to the safe harbour provisions of the Private Securities Litigation Reform Act of 1995 and the Securities Exchange Act of 1934. Such forward-looking statements are made based upon management's expectations and beliefs concerning future events impacting Buhrmann and therefore involve a number of uncertainties and risks, including, but not limited to industry conditions, changes in product supply, pricing and customer demand, competition, risks in integrating new businesses, currency fluctuations and the other risks described from time to time in the Company's filings with the US Securities and Exchange Commission, including the Company's Annual Report on Form 20-F filed with the Securities and Exchange Commission on May 17, 2002. As a result, the actual results of operations or financial conditions of the Company could differ materially from those expressed or implied in such forward-looking statements. Shareholders and other readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. The Company undertakes no obligation to update publicly or revise any forward-looking statements.

Accounting policies

Edgar Filing: BUHRMANN NV - Form 6-K

Buhrmann's accounting policies did not change compared with the principles applied in the Group's financial statements for 2002, with the exception of:

Exceptional items In accordance with the new Guideline for Annual Reporting on extraordinary and exceptional items (270.4) applicable in the Netherlands, results that are not directly related to normal business operations in the period under review are treated as exceptional (comparable 2002 figures will be restated).

6

Revenue recognition (for equipment sales of the Graphic Systems Division) Following the release of the new Guideline for Annual Reporting on Revenue Recognition (270.2) from 2003 onwards the equipment sales are recorded at the time of installation, instead of at delivery.

It is noted that, as per 2002 financial statements, working capital as part of capital employed has been presented excluding cash, deposits, accruals for income tax and interest. This change has been implemented in the figures retrospectively. In addition, as per Annual Report 2002, organic growth rates exclude all factors that disturb a like-for-like comparison, such as: currency exchange rate movements, acquisitions, divestments, variations in the number of working days, the change- to a commission-based model at our ASAP Software subsidiary, and the change in the sales recognition of the Graphic Systems Division.

The figures included in this report were not audited by the external accountant.
