WEIS MARKETS, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(1) Significant Accounting Policies

**Basis of Presentation:** The accompanying unaudited Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments (consisting of normal recurring deferrals and accruals) considered necessary for a fair presentation have been included. The operating results for the periods presented are not necessarily indicative of the results to be expected for the full year. The Company has evaluated subsequent events for disclosure through the date of issuance of the accompanying unaudited consolidated interim financial statements and there were no material subsequent events which require additional disclosure. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company's latest Annual Report on Form 10-K.

(2) Current Relevant Accounting Standards

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606), as amended by several subsequent ASU's, which establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. In August 2015, the FASB issued a one-year deferral of the effective date of this new guidance resulting in it now being effective for the Company beginning in fiscal year 2018. The Company is currently in the process of evaluating the impact of adoption of the ASU. The Company expects that the adoption of the ASU will not have a significant impact on the Company's point of sale product sales.

In January 2016, the FASB issued ASU 2016-01 Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. ASU 2016-01 generally requires that equity investments (excluding equity method investments) be measured at fair value with changes in fair value recognized in net income. The Company expects that the adoption of ASU 2016-01 will likely have an impact on the net income reported in the Company's Consolidated Statements of Income, but will not impact the Company's comprehensive income or shareholders' equity. The amendment is effective for fiscal years beginning after December 15, 2017, with the cumulative effect of the adoption made to the balance sheet as of the date of adoption. Adoption will result in a reclassification of the related accumulated unrealized appreciation, net of applicable deferred income taxes, currently included in accumulated other comprehensive income to retained earnings, resulting in no impact on the Company's shareholders' equity.

In February 2016, the FASB issued ASU 2016-02 Leases (Topic 842). ASU 2016-02 requires lessees to recognize assets and liabilities for the rights and obligations created by their leases with lease terms more than 12 months. ASU

2016-02 will become effective for annual periods beginning after December 15, 2018 and for interim periods within those fiscal years. The Company is currently in the process of evaluating the impact of adoption of the ASU and expects the adoption to have a significant impact on the Company's Consolidated Balance Sheet.

In March 2016, the FASB issued ASU 2016-04 Liabilities – Extinguishments of Liabilities (Subtopic 405-20) Recognition of Breakage for Certain Prepaid Stored-Value Products. ASU 2016-04 requires that an entity must disclose the methodology and specific judgements made in applying the breakage recognized. ASU 2016-04 will become effective for the financial statements issued for the fiscal years beginning after December 15, 2017. Early application is permitted including adoption in an interim period. The Company expects that the adoption of the ASU will not have a significant impact on the Company's Consolidated Financial Statements.

WEIS MARKETS, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(3) Marketable Securities

The Company's marketable securities are all classified as available-for-sale within "Current Assets" in the Company's Consolidated Balance Sheets. FASB has established three levels of inputs that may be used to measure fair value:

Level 1 Observable inputs such as quoted prices in active markets for identical assets or liabilities;

Level 2 Observable inputs, other than Level 1 inputs in active markets, that are observable either directly or indirectly; and

Level 3 Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions.

The Company's marketable securities valued using Level 1 inputs include highly liquid equity securities, for which quoted market prices are available. The Company's municipal bond portfolio is valued using Level 2 inputs. The Company's municipal bonds are valued using a combination of pricing for similar securities, recently executed transactions, cash flow models with yield curves and other pricing models utilizing observable inputs, which are considered Level 2 inputs.

For Level 2 investment valuation, the Company utilizes standard pricing procedures of its investment advisory firm(s) which include various third party pricing services. These procedures also require specific price monitoring practices as well as pricing review reports, valuation oversight and pricing challenge procedures to maintain the most accurate representation of investment fair market value.

The Company accrues interest on its bond portfolio throughout the life of each bond held. Dividends from the equity securities are recognized as received. Both interest and dividends are recognized in "Investment income and interest expense" on the Company's Consolidated Statements of Income. Investment income was \$1.1 million and \$637 thousand for the first quarter of 2017 and 2016, respectively.

Marketable securities, as of April 1, 2017 and December 31, 2016, consisted of:

	Gross	Gross	
(dollars in thousands)	Amortized	Unrealized	Unrealized Fair

April 1, 2017	Cost	Holding Gains	Holding Losses	Value
Available-for-sale:				
Level 1				
Equity securities	\$ 1,198	\$ 7,804	\$ -	\$ 9,002
Level 2				
Municipal bonds	54,773	784	(280)	55,277
	\$ 55,971	\$ 8,588	\$ (280)	\$ 64,279

(dollars in thousands)	Amortized Cost	Gross Unrealized Holding Gains	Gross Unrealized Holding Losses	Fair Value
December 31, 2016				
Available-for-sale:

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

## (3) Marketable Securities (continued)

The Company also maintains a non-qualified supplemental executive retirement plan and a non-qualified pharmacist deferred compensation plan for certain of its associates which allows them to defer income to future periods. Participants in the plans earn a return on their deferrals based on mutual fund investments. The Company chooses to invest in the underlying mutual fund investments to offset the liability associated with the non-qualified deferred compensation plans. Such investments are reported on the Company's Consolidated Balance Sheet as "SERP investment," are classified as trading securities and are measured at fair value using Level 1 inputs with gains and losses included in "Investment income and interest expense" on the Company's Consolidated Statements of Income. The changes in the underlying liability to the associates are recorded in "Operating, general and administrative expenses."

## (4) Accumulated Other Comprehensive Income

All balances in accumulated other comprehensive income are related to available-for-sale marketable securities. The following table sets forth the balance of the Company's accumulated other comprehensive income, net of tax.

(dollars in thousands)	Unrealized Gains on Available-for-Sale Marketable Securities
Accumulated other comprehensive income balance as of December 31, 2016	\$ 4,852
Other comprehensive income before reclassifications	64
Amounts reclassified from accumulated other comprehensive income	-
Net current period other comprehensive income	64
Accumulated other comprehensive income balance as of April 1, 2017	\$ 4,916

## Edgar Filing: WEIS MARKETS INC - Form 10-Q

The following table sets forth the effects on net income of the amounts reclassified out of accumulated other comprehensive income for the periods ended April 1, 2017 and March 26, 2016.

		Gains Reclassified from Accumulated Other Comprehensive Income to the Consolidated Statements of Income 13 Weeks Ended April 1,      March 2017   26, 2016	
(dollars in thousands)	Location		
Unrealized gains on available-for-sale marketable securities			
	Investment income	\$ -	\$ 269
	Provision for income taxes	-	(111)
Total amount reclassified, net of tax		\$ -	\$ 158

### (5) Acquisitions

On August 1, 2016, the Company purchased five Mars Super Market stores located in Maryland. Weis Markets, Inc. acquired these locations and their operations in an effort to expand its presence in the Baltimore County region. The results of operations of the former Mars Super Market acquisition are included in the accompanying Consolidated Financial Statements from the date of acquisition. The five former Mars Super Market stores contributed \$23.2 million to sales in the first quarter of 2017. The cash purchase price paid was \$24.6 million for the property, equipment, inventories, prepaid expenses and goodwill related to this purchase. The Company accounted for this transaction as a business combination in accordance with the acquisition method. The fair value of intangibles was determined based on the discounted cash flow model and property and equipment were determined based on external appraisals. Weis Markets, Inc. assumed two lease obligations in the acquisition of the former Mars Super Market stores and entered into two new lease agreements. Goodwill of \$13.3 million has been recorded, based upon the expected benefits to be derived from new management business strategy and cost synergies. The goodwill is

deductible for tax purposes.

7

WEIS MARKETS, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(5) Acquisitions (continued)

In September 2016, the Company began its acquisition of 38 former Food Lion, LLC stores. Within eight weeks, ending in October 2016, Weis Markets acquired 21 Maryland, 13 Virginia and 4 Delaware former Food Lion, LLC stores. The results of operations of the 38 former Food Lion, LLC stores are included in the accompanying Consolidated Financial Statements from the date of acquisition. The Company accounted for this transaction as a business combination in accordance with the acquisition method. The fair value of intangibles was determined based on the discounted cash flow model and property and equipment were determined based on external appraisals. The acquired locations were part of a FTC forced divestiture in the approval process of the merger of Ahold and Delhaize Group, which resulted in a below fair value purchase price consideration. The cash purchase price paid was \$29.4 million for the property, equipment, inventories, prepaid expenses and liabilities. Weis Markets, Inc. assumed thirty lease obligations and ownership of eight locations. The Company recognized a gain of \$23.9 million on the purchase of the 38 former Food Lion, LLC stores. The 38 former Food Lion, LLC stores contributed \$93.7 million to sales in the first quarter of 2017.

On October 30, 2016, Weis Markets acquired a former Nell's Family Market store located in East Berlin, Pa from C&S Wholesale Grocers. The results of operations of the former Nell's Family Market acquisition are included in the accompanying Consolidated Financial Statements from the date of acquisition. The purchase price was \$13.0 million, of which \$3.4 million is payable over a 4 year term for the property, equipment, inventory, prepaid expenses and liabilities. The Company accounted for this transaction as a business combination in accordance with the acquisition method. The fair value of intangibles was determined based on the discounted cash flow model and property and equipment were determined based on external appraisals. The former Nell's Family Market contributed \$4.1 million worth of sales in the first quarter of 2017. Goodwill of \$3.9 million has been recorded, based upon the expected benefits to be derived from new management business strategy and cost synergies. The goodwill is deductible for tax purposes.

The pro forma information includes historical results of operations of the 38 former Food Lion Supermarket and 5 former Mars Super Market stores but does not include efficiencies, cost reductions, synergies or investments in lower prices for the Company's customers expected to result from the acquisitions. The unaudited pro forma financial information is not necessarily indicative of the results that actually would have occurred had the 38 former Food Lion Supermarket and the 5 former Mars Super Market stores been acquired at the beginning of 2016. Pro forma results of sales, assuming the acquisitions had taken place at the beginning of 2016, are included in the following table. The Company does not have reliable information to provide additional pro forma disclosures.

(dollars in thousands)	April 1, 2017	March 26, 2016
Sales	\$ 852,229	\$ 878,323

#### (6) Long-Term Debt

On September 1, 2016, Weis Markets entered into a revolving credit agreement with Wells Fargo Bank, National Association (the Credit Agreement). The Credit Agreement provides for an unsecured revolving credit facility with an aggregate principal amount not to exceed \$100.0 million with an additional discretionary amount available of \$50.0 million. On March 13, 2017, the unsecured revolving credit facility was increased to \$120.0 million. As of April 1, 2017, \$70.9 million of the available \$120.0 million was borrowed from the credit facility. The loan will bear interest on the outstanding principal amount at the one month LIBOR rate plus the applicable margin rate of 0.65% until its maturity on September 1, 2019. The loan was used to fund the recent acquisitions and the Company's working capital requirements. The only financial covenant in the credit facility requires the Company's minimum EBITDA to be at least \$75.0 million. The Credit Agreement is also being utilized by the Company for letters of credit. As of April 1, 2017, the Company had \$16.7 million, of the available \$120.0 million from the credit facility, committed to outstanding letters of credit. The letters of credit are maintained primarily to support performance, payment, deposit or surety obligations of the Company. The Company does not anticipate drawing on any of them.

Interest expense related to long-term debt was \$273,000 for the 13 week period ending April 1, 2017.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of Weis Markets, Inc.'s (the "Company") financial condition and results of operations should be read in conjunction with the unaudited Consolidated Financial Statements and related notes included in Item 1 of this Quarterly Report on Form 10-Q, the Company's audited Consolidated Financial Statements and the related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, filed with the U.S. Securities and Exchange Commission, as well as the cautionary statement captioned "Forward-Looking Statements" immediately following this analysis.

Company Summary

Weis Markets is a conventional supermarket chain that operates 204 retail stores with a total of 23,000 associates located in Pennsylvania and six surrounding states: Delaware, Maryland, New Jersey, New York, Virginia and West Virginia. Its products sold include groceries, dairy products, frozen foods, meats, seafood, fresh produce, floral, pharmacy services, deli products, prepared foods, bakery products, beer and wine, fuel, and general merchandise items, such as health and beauty care and household products. The store product selection includes national, local and private brands and the Company promotes by using Everyday Low Price, Low Price Guarantee and Loyalty programs. The Loyalty program includes fuel rewards that may be redeemed at the Company's fuel stations or one of its third party fuel station partners.

Utilizing its own centrally located distribution center and transportation fleet, Weis Markets self distributes approximately 67% of product with the remaining being supplied by direct store vendors. In addition, the Company has three manufacturing facilities which process milk, ice cream and fresh meat products. The corporate offices are located in Sunbury, Pa where the Company was founded in 1912. The Company's operations are reported as a single reportable segment.

In 2016, Weis Markets acquired five Mars Super Market locations in Baltimore County, Md, 38 Food Lion stores throughout Maryland, Virginia and Delaware, and a Nell's Family Market in East Berlin, Pa. The completion of these individual acquisitions expanded the Company's footprint into Virginia and Delaware, and increased its store count by 25 percent. Beginning August 1, 2016, the Company converted the 44 stores to Weis Markets stores in 96 days ending in November, during which it interviewed and hired more than 2,000 team members who were previously employed at the acquired locations. In 2017, the acquired store group is providing a positive cash flow for the Company as management continues to develop the stores using its business model. Although there are no pending acquisitions, the Company continues to investigate acquisition opportunities as well as grow its existing store base organically.

On March 9, 2017, the Company opened its new 65,000 square-foot prototype store next to a major competitor in Enola, Pa. Designated the “Community Market” format, the store features a brand new store layout and unique features to elevate the shopping experience including a pub, grill and ice cream parlor, featuring the Company’s own ice cream. The store contains a Pennsylvania foods section and more than 1,900 organic and gluten-free products, along with a mix-and-match pick K-cup 12-packs section and a Chobani Yogurt Bar. The Company plans to review the success of the new features and utilize them where appropriate in other stores.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
(continued)

## Results of Operations (continued)

## Net Sales

## Analysis of Sales

	Percentage Changes 2017 vs. 2016 13 Weeks Ended
Net Sales	15.4 %
Net sales, excluding fuel sales	15.2
Comparable store sales	(0.3)
Comparable store sales, excluding fuel sales	(0.9)
Comparable store sales, adjusted for holiday impact	1.1
Comparable store sales, adjusted for holiday impact, excluding fuel sales	0.5
Average sales per customer transaction	(3.3)
Identical customer store visits	0.7 %

When calculating the percentage change in comparable store sales, the Company defines a new store to be comparable when it has been in operation for five full quarters. Relocated stores and stores with expanded square footage are included in comparable store sales since these units are located in existing markets and are open during construction. Planned store dispositions are excluded from the calculation. The Company only includes retail food stores in the calculation.

The Company's first quarter 2016 sales benefited from the Easter and New Year holiday periods, which fell in the first quarter last year. In 2016, Easter sales week occurred on the last week of the quarter. Due to the Company's 2016 fiscal year being comprised of 53 weeks, the first quarter of 2017 did not include a New Year holiday sales week and Easter fell in the second quarter of 2017. Management estimates the incremental holiday sales impact was approximately \$10.1 million.

According to the latest U.S. Bureau of Labor Statistics' report, the annual Seasonally Adjusted Food-at-Home Consumer Price Index decreased 1.5% compared to an increase of 0.3% for the same period last year. Even though the U.S. Bureau of Labor Statistics' index rates may be reflective of a trend, it will not necessarily be indicative of the Company's actual results. According to the U.S. Department of Energy, the thirteen week average price of gasoline in the Central Atlantic States increased 22.2% or \$0.47 per gallon in the first quarter of 2017 compared to the same quarter in 2016.

The Company experienced deflation for the first quarter of 2017 in its core sales compared to the same quarter last year, particularly in its meat, produce, dairy and seafood departments. It was partially able to offset the impact of deflation by increasing the number of units sold. Pharmacy sales increased as script counts grew proportionally. Fuel sales benefited from inflation as comparable fuel sales rose 18.8%. In addition to deflation, management estimates winter weather events negatively impacted the sales comparison between quarters by approximately \$7 million on a comparable store basis.

Although the Company experienced retail inflation and deflation in various commodities for the quarters presented, management cannot accurately measure the full impact of inflation or deflation on retail pricing due to changes in the types of merchandise sold between periods, shifts in customer buying patterns and the fluctuation of competitive factors. Management remains confident in its ability to generate sales growth in a highly competitive environment, but also understands some competitors have greater financial resources and could use these resources to take measures which could adversely affect the Company's competitive position.

#### Cost of Sales and Gross Profit

Cost of sales consists of direct product costs (net of discounts and allowances), distribution center and transportation costs, as well as manufacturing facility operations. Almost all of the increase in cost of sales in 2017 as compared to 2016 is due to the increased sales volume in 2017. Both direct product cost and distribution cost increase when sales volume increases.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
(continued)

Results of Operations (continued)

Cost of Sales and Gross Profit (continued)

The 1.1% decline in gross profit margin from first quarter 2016 to 2017 was attributable to the comparable store sales volume decline described previously. Decreased sales volume negatively impacts the gross profit margin by increasing inventory shrinkage, increasing fixed distribution costs comparative rate and decreasing the margin between product cost and retail pricing in a deflationary market due to slower inventory turns. As a percentage of sales, the cost of diesel fuel used by the Company to deliver goods from its distribution center to its stores increased 0.05%, reducing gross margin in the first quarter of 2017 compared to the first quarter of 2016. In addition, the 2016 acquired stores product mix reduced gross profit margin by 0.06%. Management believes that any distribution synergies gained from the acquired stores will be offset by the increased transportation costs due to the distance of the acquired stores.

Non-cash LIFO inventory valuation adjustments changed from expense of \$0.7 million for the first quarter of 2016 to income of \$0.1 million during the same quarter in 2017, accounting for 0.1% of the gross margin increase in 2017 versus 2016.

Although the Company experienced product cost inflation and deflation in various commodities for the quarters presented, management cannot accurately measure the full impact of inflation or deflation on costs due to changes in the types of merchandise sold between periods, shifts in customer buying patterns and the fluctuation of competitive factors.

Operating, General and Administrative Expenses

The majority of the increase in operating, general and administrative expenses was driven by increased sales volume.

Employee-related costs such as wages, employer paid taxes, health care benefits and retirement plans, comprise approximately 60% of the total "Operating, general and administrative expenses." As a percent of sales, direct store labor increased 0.2% in the first quarter of 2017 compared to the first quarter of 2016. Of the total increase of \$14.5 million, \$14.1 million of the direct store labor increase was attributable to the stores acquired in 2016. The Company continues to monitor store labor efficiencies and develop labor standards to reduce cost while maintaining the Company's customer service expectations.

The Company's self-insured health care benefit expenses decreased \$476,000 or 8.4% in the first quarter of 2017 compared to the same quarter last year. The variance is mainly attributed to a decrease in claims costs. However, the Company remains concerned about the impact that The Patient Protection and Affordable Care Act (ACA) will have on its future operating expenses.

Depreciation and amortization expense was \$20.9 million, or 2.5% of net sales for the first quarter of 2017 compared to \$18.4 million or 2.5% of net sales for the first quarter of 2016. The increase in depreciation and amortization expense was the result of additional capital expenditures as the Company implements its capital expansion program and the 2016 acquisitions. See the Liquidity and Capital Resources section for further information regarding the Company's capital expansion program.

A breakdown of the material increases (decreases) as a percent of sales in "Operating, general and administrative expenses" is as follows:

(dollars in thousands)	13 Weeks Ended		
	Increase	Increase (Decrease)	
		as a % of	
April 1, 2017	(Decrease)	sales	
Employee-related expenses	\$ 18,464	0.2	%
Store supply expense	1,501	0.1	
Utility expense	2,041	0.1	
Rent expense	2,642	0.2	
Repairs/Maintenance expense	\$ 1,936	0.2	%

The variance in the percent of sales for the above expense items are primarily driven by the acquisition of five former Mars stores, 38 former Food Lion stores and a former Nell's Family Market store in the second half of 2016. The Company expects the percent of sales to decrease over time as it develops the acquisition stores' sales and implements cost saving strategies.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
(continued)

Results of Operations (continued)

Provision for Income Taxes

The effective income tax rate was 43.8% and 36.9% for the first quarter of 2017 and 2016, respectively. The increase in the effective income tax rate is due to a discrete item recorded in the first quarter of 2017 and an increase in the state tax expense. Historically, the effective income tax rate differed from the federal statutory rate, primarily due to the effect of state taxes, net of permanent differences.

Liquidity and Capital Resources

The primary sources of cash are cash flows generated from operations and borrowings under the 2016 revolving credit agreement from Wells Fargo Bank, NA. The Company's revolving credit agreement has a principal amount of \$100.0 million with an additional discretionary availability of \$50.0 million. On March 13, 2017, the Company was approved to access \$20.0 million of the discretionary amount bringing the Company's immediate borrowing capacity to \$120.0 million. As of April 1, 2017 the Company's unused availability under the revolving credit agreement was \$32.4 million with \$70.9 million of borrowings outstanding and \$16.7 million of letters of credit outstanding. The letters of credit are maintained primarily to support performance, payment, deposit or surety obligations of the Company. The Company does not anticipate drawing on any of them.

The Company's investment portfolio consists of marketable securities, which currently includes municipal bonds and equity securities. As of April 1, 2017, the portfolio totaled \$64.3 million. Management anticipates maintaining the investment portfolio, but has the ability to liquidate if needed.

The Company's capital expansion program includes the construction of new superstores, the expansion and remodeling of existing units, the acquisition of sites for future expansion, new technology purchases and the continued upgrade of the Company's distribution facilities and transportation fleet. Management currently plans to invest approximately \$90.0 million in its capital expansion program in 2017.

The Company expects that cash generated from operations and available under the 2016 revolving credit agreement will fund its working capital requirements, debt requirements, capital expansion program, acquisitions and

dividends. The Company has no other commitment of capital resources as of April 1, 2017, other than the lease commitments on its store facilities and transportation equipment under operating leases that expire at various dates through 2033.

The Board of Directors' 2004 resolution authorizing the repurchase of up to one million shares of the Company's common stock has a remaining balance of 752,468 shares.

#### Quarterly Cash Dividends

At its regular meeting held in April, the Board of Directors unanimously approved a quarterly dividend of \$.30 per share, payable on May 22, 2017 to shareholders of record on May 8, 2017. The Company expects to continue paying regular cash dividends on a quarterly basis. However, the Board of Directors reconsiders the declaration of dividends quarterly. The Company pays these dividends at the discretion of the Board of Directors and the continuation of these payments and the amount of the dividends depends upon the results of operations, the financial condition of the Company and other factors which the Board of Directors deems relevant.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
(continued)

## Cash Flow Information

	13 Weeks Ended		2017 vs. 2016
(dollars in thousands)	April 1, 2017	March 26, 2016	13 Weeks Ended
Net cash provided by (used in):			
Operating activities	\$ 14,632	\$ 38,069	\$ (23,437)
Investing activities	(15,318)	(17,194)	1,876
Financing activities	\$ (1,672)	\$ (8,070)	\$ 6,398

## Operating

Cash flows from operating activities decreased in the first quarter of 2017 mainly as a result of decreased operating income compared to the first quarter of 2016. In addition, long-term incentive payments to associates of \$11.8 million were issued during the quarter.

## Investing

Property and equipment purchases during the first quarter of 2017 totaled \$17.1 million compared to \$29.9 million in the first quarter of 2016. The decrease of \$12.9 million was partially attributable to the Company purchasing four properties in the first quarter of 2016. As a percentage of sales, capital expenditures were 2.0% and 4.1% in the first quarter of 2017 and 2016, respectively. In 2016, the Company sold \$15.2 million of marketable securities as it prepared to finance future acquisitions.

## Financing

The Company paid a dividend of \$8.1 million for the first quarters of both 2017 and 2016. In 2017, proceeds from long-term debt offset the dividend thereby reducing cash used in financing activities by \$6.4 million.

## Accounting Policies and Estimates

The Company has chosen accounting policies that it believes are appropriate to accurately and fairly report its operating results and financial position, and the Company applies those accounting policies in a consistent manner. The Significant Accounting Policies are summarized in Note 1 to the Consolidated Financial Statements included in the 2016 Annual Report on Form 10-K. There have been no changes to the Significant Accounting Policies since the Company filed its Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

#### Forward-Looking Statements

In addition to historical information, this 10-Q Report may contain forward-looking statements, which are included pursuant to the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. Any forward-looking statements contained herein are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. For example, risks and uncertainties can arise with changes in: general economic conditions, including their impact on capital expenditures; business conditions in the retail industry; the regulatory environment; rapidly changing technology and competitive factors, including increased competition with regional and national retailers; and price pressures. Readers are cautioned not to place undue reliance on forward-looking statements, which reflect management's analysis only as of the date hereof. The Company undertakes no obligation to publicly revise or update these forward-looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the risk factors described in other documents the Company files periodically with the Securities and Exchange Commission.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Quantitative Disclosure - There have been no material changes in the Company's market risk during the three months ended April 1, 2017. Quantitative information is set forth in Item 7a on the Company's Annual Report on Form 10-K under the caption "Quantitative and Qualitative Disclosures About Market Risk," which was filed for the fiscal year ended December 31, 2016 and is incorporated herein by reference.

Qualitative Disclosure - This information is set forth in the Company's Annual Report on Form 10-K under the caption "Liquidity and Capital Resources," within "Management's Discussion and Analysis of Financial Condition and Results of Operations," which was filed for the fiscal year ended December 31, 2016 and is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES

The Chief Executive Officer and the Chief Financial Officer, together with the Company's Disclosure Committee, evaluated the Company's disclosure controls and procedures as of the fiscal quarter ended April 1, 2017. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act of 1934, as amended, was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports was accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

In connection with the evaluation described above, there was no change in the Company's internal control over financial reporting during the fiscal quarter ended April 1, 2017, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
