* On July 15, 2015, the Company issued options to certain directors and non-employee directors of the Company to purchase an aggregate of 850,000 shares of common stock of the Company at an exercise price of \$1.50. The options for 425,000 shares will expire on March 31, 2020, and options for 425,000 shares will expire on March 31, 2025. The exercise prices of these options were equal to the fair market value at the time of grant. There was a one-time compensation expense of approximately \$801,000 due to stock options granted, which was recorded in our financial statements for the fiscal year ended March 31, 2016 as filed in our Form 20-F on August 15, 2016. However, this compensation expense was not recorded in our consolidated balance sheet and statement of operations for the six-month period ended September 30, 2015 as mentioned in Item 15 of our Amended Form 20-F filed on November 18, 2016. Therefore, we are updating the statement of operations for the six-month period ended September 30, 2015 for the comparison with the financial statements for the six-month period ended September 30, 2016.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Bonso Electronics designs, develops, manufactures, assembles and markets a comprehensive line of electronic scales, weighing instruments, health care products and pet electronics products.

During the six-month period ended September 30, 2016, our net sales decreased approximately \$2,670,000, or 20.8%, as compared to the six-month period ended September 30, 2015. The primary reason for the decrease in net sales was the decreased overall demand for our products during the period. We recognized a net income of approximately \$1,098,000 for the six-month period ended September 30, 2016, as compared to a net income of approximately \$154,000 during the six-month period ended September 30, 2015.

On February 17, 2017, the Company issued a press release disclosing its results of operations for the six-month period ended September 30, 2016. A copy of this press release is attached to this Form 6-K as exhibit 99.1.

Results of Operations

Six-Month Period Ended September 30, 2016 Compared to the Six-Month Period Ended September 30, 2015

Net Sales. During the six-month period ended September 30, 2016, our sales decreased 20.8%, or approximately \$2,670,000, from approximately \$12,833,000 for the six-month period ended September 30, 2015 to approximately \$10,163,000. The decreased sales were primarily the result of a decrease in demand for our products during the period.

Cost of Sales. During the six-month period ended September 30, 2016, cost of sales decreased to approximately \$7,006,000 from approximately \$9,516,000 during the six-month period ended September 30, 2015, a decrease of approximately \$2,510,000, or 26.4%. As a percentage of sales, the cost of sales decreased from 74.2% to 68.9%. Cost of sales decreased primarily because we reduced our production of certain lower margin electronic scales.

Gross Margin. As a result of the factors noted above, gross margin as a percentage of revenue increased to 31.1% during the six-month period ended September 30, 2016 as compared to 25.8% during the same period in the prior year.

Selling Expenses. Selling expenses decreased by 41.5%, or approximately \$107,000, from approximately \$258,000 for the six-month period ended September 30, 2015 to approximately \$151,000 for the six-month period ended September 30, 2016. The decrease was primarily the result of decreased shipping costs due to less shipments for bulkier electronic bathroom scales arranged during the six-month period ended September 30, 2016, compared to the same period in the prior year.

Salaries And Related Costs. Salaries and related costs decreased by 1.0% or approximately \$12,000 from approximately \$1,191,000 for the six-month period ended September 30, 2015 to approximately \$1,179,000 for the six-month period ended September 30, 2016. This decrease was a result of the reduction in total staff.

Research And Development Expenses. Research and development expenses decreased by 47.7%, or approximately \$94,000, from approximately \$197,000 for the six-month period ended September 30, 2015 to approximately \$103,000 for the six-month period ended September 30, 2016. This decrease was a result of the reduction in the number of engineers responsible for previous lower margin electronic scales products. As a percentage of sales, research and development expenses decreased from 1.5% to 1.0%.

Administration And General Expenses. Administration and general expenses decreased by 28.4%, or approximately \$607,000, from approximately \$2,138,000 for the six-month period ended September 30, 2015 to approximately \$1,531,000 for the six-month period ended September 30, 2016. The decrease was primarily the result of a one-time compensation expense of approximately \$801,000 due to stock options granted during six-month period ended September 30, 2015. Except for the one-time compensation expense of approximately \$801,000 due to stock options granted, the administration and general expenses for the six-month period ended September 30, 2016 were approximately \$194,000 more than that for the six-month period ended September 30, 2015. The increase was primarily the result of increases in charity donation, motor vehicle expenses, and repair and maintenance expenses during the six-month period ended September 30, 2016.

Other Income. Other income decreased approximately \$4,000, or 0.5%, from approximately \$825,000 for the six-month period ended September 30, 2015 to approximately \$821,000 for the six-month period ended September 30, 2016. The other income for the six-month period ended September 30, 2016 remained almost the same as that for the six-month period ended September 30, 2015.

Income From Operations. As a result of the above changes, income from operations was approximately \$1,014,000 for the six-month period ended September 30, 2016, compared to an income from operations of approximately \$358,000 for the six-month period ended September 30, 2015, an increase of approximately \$656,000.

Interest Income. Interest income decreased from approximately \$7,000 for the six-month period ended September 30, 2015 to approximately \$4,000 for the six-month period ended September 30, 2016. The decrease was primarily the result of the lower interest rate from deposits during the six-month period ended September 30, 2016.

Interest Expenses. Interest expenses decreased 68.8%, or approximately \$53,000 from approximately \$77,000 for the six-month period ended September 30, 2015 to approximately \$24,000 for the six-month period ended September 30, 2016. The decrease of interest expenses was the result of the decreased utilization of the Company's banking facilities.

Foreign Exchange Gain / (Loss). Foreign exchange gain increased approximately \$279,000 from a loss of approximately \$129,000 for the six-month period ended September 30, 2015 to a gain of approximately \$150,000 for the six-month period ended September 30, 2016. The increase in foreign exchange gain was primarily attributable to a gain in exchange to Chinese Yuan from United States Dollars, as a result of the depreciation of the Chinese Yuan against the United States Dollar during the six-month period ended September 30, 2016.

Net Income. As a result of the above changes, net income increased from a net income of approximately \$154,000 for the six-month period ended September 30, 2015 to a net income of approximately \$1,098,000 for the six-month period ended September 30, 2016, an increase of approximately \$944,000.

Foreign Currency Translation Adjustments, Net of Tax. Foreign currency translation adjustments, net of tax decreased from a gain of approximately \$183,000 for the six-month period ended September 30, 2015 to a loss of approximately \$676,000 for the six-month period ended September 30, 2016, a decrease of approximately \$859,000. The loss was primarily attributable to revaluation of assets denominated in the Chinese Yuan, as a result of the depreciation of the Chinese Yuan against the United States Dollar during the six-month period ended September 30, 2016.

Comprehensive Income. As a result of the factors described above, comprehensive income increased from an income of approximately \$337,000 for the six-month period ended September 30, 2015, to an income of approximately \$422,000 for the six-month period ended September 30, 2016.

Liquidity and Capital Resources

We have financed our growth and cash needs to date primarily from internally generated funds and bank debt. We do not use off-balance sheet financing arrangements, such as securitization of receivables or obtaining access to assets through special purpose entities, as sources of liquidity. Our primary uses of cash have been to fund operations, expansions and upgrades of our manufacturing facilities.

As of September 30, 2016 we had approximately \$3,322,000 in cash and cash equivalents as compared to approximately \$3,547,000 as of March 31, 2016. Our working capital position improved during the six-month period ended September 30, 2016. At September 30, 2016 working capital was \$1,069,000 compared to negative \$530,000 at March 31, 2016. We believe that the improvement was the result of income generated from operations, during the six-month period ended September 30, 2016.

One of our key customers, who accounted for 59% of net sales for the fiscal year ended March 31, 2016, has advised that they will discontinue manufacturing with us effective during the quarter ending June 30, 2017. This will impact negatively our future sales, profitability and cash flow.

We believe that our cash flows from operations, our current cash balance and funds available under our working capital and credit facilities will be sufficient to meet our working capital needs and planned capital expenditures for the next twelve months.

Stock Repurchase Program

On September 17, 2015, the Company's Board of Directors authorized an additional \$1,500,000 for the Company's repurchase of its common stock under the same repurchase program. This authorization to repurchase shares increased the amount authorized for repurchase from \$1,500,000 to \$3,000,000. The following table contains the Company's purchases of equity securities during the six-month period ended September 30, 2016.

Issuer Purchases of Equity Securities

| Period | (a) Total Number of Shares (or Units) Purchased | (b) Average Price Paid per Share (or Unit) | (c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs | (d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs |
|---|---|--|--|---|
| April 1, 2016 to April 30, 2016 | 19,000 | 1.40 | 19,000 | \$ 1,409,000 |
| May 1, 2016 to May 31, 2016 | - | | - | \$ 1,409,000 |
| June 1, 2016 to June 30, 2016 | - | | - | \$ 1,409,000 |
| July 1, 2016 to July 31, 2016 | - | | - | \$ 1,409,000 |
| August 1, 2016 to August 31, 2016 | - | | - | \$ 1,409,000 |
| September 1, 2016 to September 30, 2016 | - | | - | \$ 1,409,000 |
| TOTAL | 19,000 | 1.40 | 19,000 | \$ 1,409,000 |

During the six-month period ended September 30, 2016, the Company has purchased 19,000 shares of its common stock under the share repurchase program. As of September 30, 2016, the Company (through its subsidiary) had repurchased an aggregate of 423,208 shares of its common stock. The Company may from time to time repurchase additional shares of its Common Stock under this program.
