- (1) Non-cash stock compensation expense resulted from stock options and restricted stock converted in connection with the Centigram and Broadband Access Systems acquisitions. We do not incur any other non-cash stock compensation expense in the ordinary course of business. If we had reported this non-cash stock compensation in existing expense categories, research and development expense and selling and administration expense would have increased by \$1.8 million and \$3.1 million, respectively, for the three months ended January 31, 2001 and \$0.4 million and \$0.2 million, respectively, for the three months ended January 31, 2000.

**ADC TELECOMMUNICATIONS, INC. AND SUBSIDIARIES**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED**

Note 1 **Basis of Presentation:** All historical financial information has been restated to reflect the acquisitions of PairGain Technologies, Inc. ( PairGain ) and Broadband Access Systems, Inc. ( BAS ) which were completed in the third quarter and fourth quarter of fiscal year 2000, respectively, and were accounted for as poolings of interests.

The interim information furnished in this report is unaudited but reflects all adjustments which are necessary, in the opinion of management, for a fair statement of the results for the interim periods. The operating results for the quarter ended January 31, 2001 are not necessarily indicative of the operating results to be expected for the full fiscal year. These statements should be read in conjunction with our most recent Annual Report on Form 10 K.

Recently Issued Accounting Pronouncements

In December 1999, the Securities and Exchange Commission ( SEC ) issued Staff Accounting Bulletin No. 101 Revenue Recognition in Financial Statements ( SAB 101 ). SAB 101, as amended, summarizes some of the SEC s views in applying generally accepted accounting principles to revenue recognition in financial statements. At this time, we do not expect the adoption of SAB 101 to have a material effect on our operations or financial position. We are required to adopt SAB 101 in the fourth quarter of fiscal 2001.

Note 2 **Inventories:** Inventories include material, labor and overhead and are stated at the lower of first in, first out cost or market. Inventories consisted of (in millions):

|   | January 31,<br>2001 | October 31,<br>2000 |
|---|---------------------|---------------------|
| Purchased materials and manufactured products | \$507.2             | \$452.4             |
| Work in process                               | 29.7                | 33.7                |
|   | \$536.9             | \$486.1             |

Note 3 **Acquisitions:** On November 20, 2000, we acquired France Electronique S.A. s telecom systems integration business ( France Electronique ) based near Paris, France. France Electronique s systems integration services enable communications service providers to offer applications that integrate Internet, e-mail, voicemail, fax and voice services for delivery to wireless and wireline communication devices. We paid \$44 million in cash to complete the transaction, which was accounted for using the purchase method. The entire value of the transaction is primarily goodwill and is being amortized over 7 years using a straight-line method.

On February 26, 2001, we acquired all of the outstanding equity interests in CommTech Corporation, a Cranbury, New Jersey-based company ( CommTech ). CommTech is a provider of end-to-end service order management, provisioning and activation software for communications service providers. In the transaction, we issued approximately 11.65 million shares of our common stock to CommTech s

shareholders. We also converted all outstanding CommTech stock options into options to acquire approximately 1.6 million shares of our common stock. The transaction was accounted for as a pooling of interests. Since the historical operations of CommTech were not material to our consolidated operations or financial position, prior period financial statements will not be restated for this acquisition.

**Note 4 Comprehensive (Loss) Income:** The following table presents the calculation of comprehensive income as required by SFAS No. 130. Comprehensive income has no impact on our net income, balance sheet or shareowners' equity. The components of comprehensive income are as follows (in millions):

| <b>Total</b>                                | <b>\$524.3</b> |

In addition, we own an approximate 22% interest in MIND C.T.I. Ltd. ( MIND ). As of January 31, 2001, our investment in MIND had a market value of approximately \$35.2 million. This investment is accounted for using the equity method. Under the equity method, a pro rata portion of MIND's profits or losses is reflected in our consolidated income statement.

On February 22, 2001, Siemens and Efficient Networks, Inc. announced that they have entered into a definitive merger agreement. Pursuant to the merger agreement, Siemens will purchase all of the outstanding shares of Efficient Networks for \$23.50 in cash per share. The merger transaction is expected to close in April 2001. As of January 31, 2001, we held approximately 1.8 million shares of Efficient Networks at a cost basis of \$4.3 million.

**Note 5 Earnings Per Share:** Basic earnings per common share was calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share was calculated by dividing net income by the sum of the weighted average number of common shares outstanding plus all additional common shares that would have been outstanding if potentially dilutive common shares had been issued. The following table reconciles the number of shares utilized in the earnings per share calculations for the periods ended January 31, 2001 and 2000 (in millions, except earnings per share):

Note 6 **Segment Reporting:** The management approach required by SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, requires us to disclose selected financial data by operating segment. This approach is based upon the way management organizes segments within an enterprise for making operating decisions and assessing performance. We have identified three reportable segments based on our internal organization structure, management of operations and performance evaluation. These segments are: Broadband Connectivity, Broadband Access and Transport, and Integrated Solutions. Segment detail is summarized as follows:

(1) Excluding goodwill amortization and certain other income/(expense) items, includes non-cash stock compensation charges of \$4.9 million and non-recurring and other restructuring related charges of \$76.4 million. (See Note 7).

Note 7 **Non-Recurring and Other Restructuring Related Charges:** During the first quarter of 2001, we launched an initiative to discontinue product lines that no longer fit our current focus and growth strategy and to consolidate unproductive and duplicative facilities. The non-recurring charges and restructuring related charges associated with this program totaled \$70.9 million (\$46.4 million net of tax) for the quarter ended January 31, 2001. The restructuring plans are to be completed by the end of the first quarter of fiscal year 2002. An additional \$5.5 million (\$3.5 million net of tax) related to prior year acquisition integration and restructuring initiatives was also incurred in the first quarter of 2001. As of January 31, 2001, a total of \$19.1 million of these charges and initiatives had been expended and \$57.3 million was accrued as a future liability. Non-recurring and restructuring related charges by category of expenditures are as follows for the quarter ended January 31, 2001 (in millions):
