ITEM 2.01 ACQUISITION OR DISPOSITION OF ASSETS

As previously disclosed in a Current Report on Form 8-K filed on July 14, 2004, on June 30, 2004, pursuant to an Asset Purchase Agreement dated as of such date (the "Asset Purchase Agreement"), Woodmark International, L.P. ("New Woodmark"), a Delaware limited partnership between P & F Industries, Inc. (the "Registrant") and Countrywide Hardware, Inc., a wholly-owned subsidiary of the Registrant, acquired certain assets (the "Purchased Property") comprising the business of the former Woodmark International L.P., a Texas limited partnership, and its wholly-owned subsidiary, the former Stair House, Inc., a Georgia corporation (collectively, the "Sellers"), and assumed certain of the Sellers' related liabilities. At the closing of the transaction, New Woodmark paid \$30,568,000 to acquire the Purchased Property, which purchase price consisted of \$27,160,000 in cash and certain subordinated notes in the aggregate principal amount of \$3,408,000. Subject to certain conditions, New Woodmark also agreed to pay additional cash consideration to the Sellers after the third or the fifth anniversary of the closing of the acquisition if certain financial targets described in the Asset Purchase Agreement are met. The acquisition of the Purchased Property was financed primarily via the senior credit facility of the Registrant and its subsidiaries.

The Purchased Property was used by the Sellers in the business of, among other things, importing and manufacturing builders' hardware, including staircase components and kitchen and bath hardware and accessories. The Registrant intends to use the Purchased Property to continue such business via its subsidiary, New Woodmark.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Partners of Woodmark
International L.P.

We have audited the accompanying consolidated balance sheets of Woodmark International L.P. and Subsidiary (the "Company") as of December 31, 2003 and 2002, and the related consolidated statements of income, changes in partner's equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements based on our audits. The financial statements as of December 31, 2001 and for the year then ended were audited by Baggett Drews Adams & Kipp, LLP, who merged with KBA Group LLP as of March 1, 2003, and whose report dated May 29, 2002 expressed an unqualified opinion on those statements.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Woodmark International L.P. and Subsidiary as of December 31, 2003 and 2002, and the consolidated results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 11, the Company sold substantially all of its operating assets and liabilities on June 30, 2004.

WOODMARK INTERNATIONAL L.P. AND SUBSIDIARY

Notes to Consolidated Financial Statements

December 31, 2003, 2002, and 2001

NOTE 1 - BACKGROUND AND ORGANIZATION

Woodmark International L.P., a limited partnership, (formerly Woodmark International, Inc.) and its wholly owned subsidiary, Stair House, Inc., collectively referred to as the Company, are engaged in the distribution of builder's hardware and supplies to customers located in the continental United States, Canada and Mexico. The Company's predecessor, Woodmark International, Inc., was incorporated on April 10, 1984, and subsequently was reorganized into a limited partnership on February 16, 2002.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Principles of Consolidation

The consolidated financial statements include the accounts of Woodmark International L.P. and its wholly-owned subsidiary, Stair House, Inc. All significant intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and money market accounts.

Accounts Receivable

Accounts receivable represents amounts due from customers related to the sale of the Company's products and are stated at the amount the Company expects to collect. Management performs ongoing credit evaluations of its customers, and generally does not require collateral. The Company estimates an allowance for doubtful accounts based on the creditworthiness of its customers as well as general economic conditions. Consequently, an adverse change in these factors could affect the Company's estimate of its bad debts and additional allowances would be required. Based on management's assessment, the Company provides for estimated uncollectible amounts through a charge to earnings and a credit to a valuation allowance. Balances that remain outstanding after the Company has used reasonable collection efforts are written off through a charge to the valuation allowance.

Inventory

Inventory consists of finished goods and is stated at the lower of average cost or market. An allowance for slow moving inventory is recorded when necessary to state inventory at market. At December 31, 2003, the allowance for slow moving inventory was \$595,465.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation. Depreciation is provided in amounts sufficient to relate the cost of depreciable assets to operations over their estimated service lives by the straight-line method.

Major repairs or replacements of property and equipment are capitalized. Maintenance repairs and minor replacements are charged to operations as incurred.

Long-Lived Assets

Long-lived assets are reviewed on an annual basis or whenever events or changes in circumstance indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets held and used is generally measured by a comparison of the carrying amount of an asset to undiscounted future net cash flows expected to be generated by that asset. If it is determined that the carrying amount of an asset may not be recoverable, an impairment loss is recognized for the amount by which the carrying amount of the asset exceeds the fair value of the asset. Fair value is the estimated value at which the asset could be bought or sold in a transaction between willing parties.

Revenue Recognition

Revenue is recognized as products are shipped, net of returns and allowances.

Income Taxes

On February 16, 2002, the Company reorganized by converting from a corporation to a partnership. The partnership is not subject to federal income tax. Prior to February 16, 2002, the Company elected Subchapter S status under the Internal Revenue Code. Due to this election, the Company was not subject to federal income taxes. The Company provides for state income taxes when appropriate.

Discontinued Operations

Edgar Filing: P&F INDUSTRIES INC - Form 8-K/A

Operating activity and cash flows that have been or will be eliminated from the ongoing operations of the Company and that the Company will have no significant continuing involvement are accounted for as discontinued operations. The results of discontinued operations are reported as a separate component of income. The net assets of discontinued operations are reported separately as assets held for sale. All prior periods are restated for comparability purposes.

Concentrations

Financial instruments that potentially subject the Company to concentration of credit risk consist principally of trade receivables. Concentration of credit risk, with respect to trade receivables, is limited due to the large number of customers comprising the Company's customer base.

Funds deposited in banks are federally insured up to \$100,000. The Company, from time to time, exceeds the federally insured limit.

During the years ended December 31, 2003, and 2002, the Company recorded sales to one customer totaling \$3,105,900, and \$2,500,515, respectively, representing 12% and 11% of the Company's total sales, respectively.

The Company buys a significant portion of its faucet, iron and wood stairs inventory from three off-shore suppliers. Each inventory type has a primary supplier from whom most of the Company's purchases in that type are made. In aggregate, these purchases represent a significant portion of the Company's purchases. Management believes that other suppliers could provide inventory on comparable terms.

Shipping and Handling Costs

Shipping and handling costs of \$313,614, \$336,852 and \$289,419 for the years ended December 31, 2003, 2002 and 2001, respectively, are included in selling, general and administrative expenses.

Reclassifications of Prior Year Amounts

Certain prior year amounts have been reclassified to conform with the 2003 presentation or in accordance with applicable accounting requirements.

Recent Accounting Standards

In December 2003, the Financial Accounting Standards Board issued FASB Interpretation No. 46, Consolidation of Variable Interest Entities, as revised (FIN 46). Prior to its effectiveness, a reporting entity has generally included another entity in its consolidated financial statements only if it controlled the entity through voting interests. FIN 46 changes this general rule by requiring a variable interest entity to be consolidated by a reporting entity if the reporting entity is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. FIN 46 also requires disclosure of variable interest entities that are not required to be consolidated, but in which the reporting entity has a significant variable interest. This pronouncement will be adopted by the Company effective January 1, 2005. Management has not yet determined the potential effect of adopting this pronouncement.

NOTE 3 - SALE OF FORTRESS DIVISION

Effective March 31, 2003, the Company entered into an agreement to sell the operating assets and liabilities associated with a business unit to Fortress Iron, LP (Fortress), an entity affiliated through common ownership. Under the terms of the agreement, Fortress purchased the net assets of the Company for consideration totaling \$230,000. The remaining \$1,500,000 matured in June 2002. Effective October 2002, the Company entered into a new line of credit in the amount of \$550,000. The new line of credit matures on May 15, 2006, and bears interest at the bank's prime rate minus 1/2%, with all accrued and unpaid interest due quarterly, beginning on May 15, 2004. Advances under the line of credit agreement are subject to certain availability requirements based on eligible accounts receivable and inventory. The line of credit is secured by inventory, accounts receivable, furniture, equipment and Company equity. During the years ended December 31, 2003, 2002 and 2001, no advances were made under this agreement.

NOTE 8 - RELATED PARTY TRANSACTIONS

At December 31, 2003 and 2002, the Company owed \$4,340,384 and \$2,805,000, respectively, to the limited partner under note agreements. The note was unsecured and subordinate to the line of credit agreement discussed in Note 7. On July 28, 2003, a new note was entered into bearing interest at 4% and maturing December 31, 2006. This note included a deemed distribution of \$1,750,000 that was loaned back to the Company. The note is also unsecured and subordinate to the line of credit agreement. The Company also made net advances to Fortress after the sale, totaling \$249,057 as of December 31, 2003. These advances are not secured, non-interest bearing, and have no specified maturity date.

WOODMARK INTERNATIONAL, L.P. AND SUBSIDIARY

NOTES TO UNAUDITED CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF ACCOUNTING POLICIES

BASIS OF FINANCIAL STATEMENT PRESENTATION

The financial statements of Woodmark International L.P., a Texas limited partnership, and its wholly-owned subsidiary, Stair House, Inc., a Georgia corporation (collectively, Woodmark or the Company), for the periods ended June 30, 2004 and June 30, 2003 are presented as unaudited, but, in the opinion of management, they include all adjustments necessary for a fair statement of the results of operations for those periods. All such adjustments are of a normal recurring nature. These interim financial statements should be read in conjunction with the financial statements and notes thereto of Woodmark included in Item 9.01(a) of this Form 8-K/A.

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CONCENTRATIONS

During the six month periods ended June 30, 2004 and 2003, the Company recorded sales to one customer totaling approximately \$2,238,000 and \$1,393,000, respectively, representing approximately 13.6% and 11.4% of the Company's total sales, respectively.

The Company buys a significant portion of its faucet, iron and wood stairs inventory from three off-shore suppliers. Each inventory type has a primary supplier from whom most of the Company's purchases in that type are made. In aggregate, these purchases represent a significant portion of the Company's purchases. Management believes that other suppliers could provide inventory on comparable terms.

NOTE 2 - RELATED PARTY TRANSACTIONS

Edgar Filing: P&F INDUSTRIES INC - Form 8-K/A

At June 30, 2004, the Company owed \$4,340,384 to the limited partner under note agreements. Prior to July 28, 2003, a note agreement was due on demand and bore interest at the rate of 7.25% with no scheduled principal and interest payments. The note was unsecured and subordinate to the line of credit agreement. On July 28, 2003, a new note was issued bearing interest at 4% and maturing December 31, 2006. This note included a deemed distribution of \$1,750,000 that was loaned back to the Company. The note is also unsecured and subordinate to the line of credit agreement. Interest expense associated with these loans for the six month periods ended June 30, 2004 and 2003 totaled \$86,570 and \$90,475, respectively.

On March 31, 2003, the Company sold an operating business unit to Fortress Iron, LP, an entity affiliated through common ownership. At June 30, 2004, the Company maintained a note receivable from Fortress in the amount of \$207,000. The note is unsecured, bears interest at 5%, and matures December 31, 2008. The Company also made net advances to Fortress after the sale, totaling \$710,584 as of June 30, 2004. These advances are not secured, non-interest bearing, and have no specified maturity date.

The Company subleases warehouse space to Fortress on a month to month basis. For the six month periods ended June 30, 2004 and 2003, the Company recorded \$5,252 and \$7,626, respectively, related to this arrangement as a reduction of rent expense.

ITEM 9.01 FINANCIAL STATEMENTS, PRO FORMA FINANCIAL INFORMATION AND EXHIBITS

(b) Unaudited Pro Forma Financial Statements

On June 30, 2004, Woodmark International, L.P. (Woodmark), a Delaware limited partnership between P & F Industries, Inc. (the Registrant) and Countrywide Hardware, Inc., a wholly-owned subsidiary of the Registrant, acquired certain assets comprising the business of the former Woodmark International L.P. (Woodmark), a Texas limited partnership and its wholly-owned subsidiary, the former Stair House, Inc., a Georgia corporation (collectively, the Sellers), and assumed certain of the Sellers' related liabilities. The following unaudited pro forma combined statements of income are set forth herein to give effect to this acquisition as if it had been consummated at the beginning of the earliest period presented (January 1, 2003).

The acquisition was accounted for under the purchase method of accounting in accordance with generally accepted accounting principles. Under this method, tangible and identifiable intangible assets acquired and liabilities assumed are recorded at their estimated fair values. The excess of the purchase price, plus estimated fees and expenses related to the acquisition, over the fair value of net assets acquired is recorded as goodwill.

The unaudited pro forma combined statements of income do not reflect any potential cost savings which may be realized following the acquisition. The pro forma adjustments and assumptions are based on estimates, evaluations and other data currently available and, in the Company's opinion, provide a reasonable basis for the fair presentation of the estimated effects directly attributable to the acquisition and related transactions. The unaudited pro forma combined statements of income are provided for illustrative purposes only and are not necessarily indicative of what the combined results of operations or financial position would actually have been had the acquisition occurred on January 1, 2003, nor do they represent a forecast of the combined results of operations or financial position for any future period or date.

All information contained herein should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2003, its Quarterly Report on Form 10-Q for the quarter ended June 30, 2004, the financial statements and notes thereto of Woodmark included in Item 9.01(a) of this Form 8-K/A and the notes to unaudited pro forma combined statements of income included herein.

Notes to Unaudited Pro Forma Combined Statements of Income**1. The Acquisition**

The unaudited pro forma combined statements of income reflect the acquisition of certain assets and the assumption of certain liabilities of Woodmark by the Company on June 30, 2004. The pro forma adjustments give effect to the acquisition as if it had been consummated at the beginning of the earliest period presented (January 1, 2003).

The purchase price for this acquisition was as follows:

Cash paid at closing	\$	27,160,000
Notes payable		3,408,000
Direct acquisition costs		817,000
Liabilities assumed		711,000
Total purchase price	\$	32,096,000

The acquisition was financed through the Company's senior credit facility with Citibank.

The Company obtained an independent third-party valuation of identifiable intangible assets, which consist of a trademark and customer and vendor relationships. The excess of the total purchase price over the fair value of the assets acquired, including the value of the identifiable intangible assets, has been allocated to goodwill. These fair values are based on current information and are subject to change.

The following table presents the unaudited estimated fair values of the assets acquired and the amount allocated to goodwill:

Current and other assets	\$	10,211,000
Property and equipment		627,000
Identifiable intangible assets:		
Customer relationships	7,260,000	
Vendor relationship	890,000	
Trademark	690,000	8,840,000
Total fair value of assets acquired		19,678,000

Edgar Filing: P&F INDUSTRIES INC - Form 8-K/A

Goodwill		12,418,000
Total purchase price	\$	32,096,000

Woodmark also agreed to make additional payments to the Sellers. The amount of these payments, which would be made as of either June 30, 2007 or June 30, 2009, are to be based on increases in earnings before interest and taxes, for the year ended on the respective date, over a base of \$5,100,000. Woodmark has the option to make a payment as of June 30, 2007 in an amount equal to 48% of this increase. If Woodmark does not make this payment as of June 30, 2007, the Sellers may demand payment as of June 30, 2009 in an amount equal to 40% of the increase. Any such additional payments will be treated as additions to goodwill.

2. Accounting Periods Presented

The historical information for the Company included in the unaudited pro forma combined statement of income for the six months ended June 30, 2004 includes no results of operations of Woodmark, since the acquisition was effective as the close of business on June 30, 2004.

3. Pro Forma Adjustments

The following adjustments were applied to the historical statements of income for P & F and Woodmark for the six months ended June 30, 2004 and the year ended December 31, 2003 to arrive at the unaudited pro forma combined statement of income for the respective periods as if the acquisition had taken place on January 1, 2003:

- (a) To reflect amortization of intangible assets arising from the acquisition, over periods ranging from 10 years to 15 years.
- (b) To reflect additional compensation related to an employment agreement.
- (c) To reflect additional interest expense on monies borrowed to finance the acquisition.
- (d) To adjust the provision for income taxes to reflect the estimated provision for taxes on a pro forma combined basis.
