Bond Ratings (unaudited)

The definitions of the applicable rating symbols are set forth below:

Standard & Poor's Ratings Service (Standard & Poor's) Ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standings within the major rating categories.

AAA Bonds rated AAA have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.

AA Bonds rated AA have a very strong capacity to pay interest and repay principal and differs from the highest rated issue only in a small degree.

A Bonds rated A have a strong capacity to pay interest and repay principal although they are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.

BBB Bonds rated BBB are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for debt in this category than in higher rated categories.

BB, B, CCC, CC and C Bonds rated BB, B, CCC, CC and C are regarded, on balance, as predominantly speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. BB represents the lowest degree of speculation and C the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.

Moody's Investors Service (Moody's) Numerical modifiers 1, 2 and 3 may be applied to each generic rating from Aa to Caa, where 1 is the highest and 3 the lowest ranking within its generic category.

Aaa Bonds rated Aaa are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as gilt edge. Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.

Aa Bonds rated Aa are judged to be of high quality by all standards. Together with the Aaa group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large in Aaa securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in Aaa securities.

Bond Ratings (unaudited) (continued)

A Bonds rated A possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.

Baa Bonds rated Baa are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.

B Bonds that are rated B generally lack characteristics of desirable investments. Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.

Caa Bonds rated Caa are of poor standing. These issues may be in default, or present elements of danger may exist with respect to principal or interest.

NR Indicates that the bond is not rated by Moody's or Standard & Poor's.

Short-Term Security Ratings (unaudited)

SP-1 Standard & Poor's highest rating indicating very strong or strong capacity to pay principal and interest; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.

A-1 Standard & Poor's highest commercial paper and variable rate demand obligation (VRDO) rating indicating that the degree of safety regarding timely payment is either overwhelming or very strong; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.

MIG1 Moody's highest rating for short-term municipal obligations.

VMIG 1 Moody's highest rating for issues having a demand feature VRDO.

P-1 Moody's highest rating for commercial paper and for VRDO prior to the advent of the VMIG 1 rating.

Notes to Financial Statements (unaudited)

Note 1. Organization and Significant Accounting Policies

Salomon Brothers Municipals Partners Fund II Inc. (Fund), was incorporated in Maryland on June 21, 1993 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended.

The following are significant accounting policies consistently followed by the Fund. These policies are in conformity with U.S. generally accepted accounting principles (GAAP).

(a) Investment Valuation. Tax-exempt securities are valued by independent pricing services which use prices provided by market-makers or estimates of market values obtained from yield data relating to instruments or securities with similar characteristics. Securities for which reliable quotations are not readily available are valued at fair value as determined in good faith by, or under procedures established by, the Board of Directors. Short-term investments having a maturity of 60 days or less are valued at amortized cost, which approximates value.

(b) Investment Transactions. Investment transactions are recorded on the trade date.

Note 2. Investments

At March 31, 2005, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$	4,732,984
Gross unrealized depreciation		(750,220)
Net unrealized appreciation	\$	3,982,764

Note 3. Concentration of Risk

Since the Fund invests a portion of its assets in issuers located in a single state, it may be affected by economic and political developments in a specific state or region. Certain debt obligations held by the Fund are entitled to the benefit of insurance, standby letters of credit or other guarantees of banks or other financial institutions.

ITEM 2.

CONTROLS AND PROCEDURES.

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act)) are effective as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the 1940 Act and 15d-15(b) under the Securities Exchange Act of 1934

(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant's last fiscal quarter that have materially affected, or are likely to materially affect the registrant's internal control over financial reporting.

ITEM 3.

EXHIBITS.

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940, as amended, are attached hereto.
