REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants and the Administrator of

sanofi-aventis Puerto Rico Savings Plan:

We have audited the accompanying statements of net assets available for benefits of the sanofi-aventis Puerto Rico Savings Plan (the Plan) as of December 31, 2012 and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012, and the changes in its net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2012 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of
sanofi-aventis Puerto Rico Savings Plan

In our opinion, the accompanying statement of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of sanofi-aventis Puerto Rico Savings Plan (the Plan) at December 31, 2011, and the changes in net assets available for benefits for the year ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion. The financial statements of the Plan as of and for the year ended December 31, 2010 were audited by other auditors whose report dated June 24, 2011, expressed an unqualified opinion on those financial statements.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

sanofi-aventis Puerto Rico Savings Plan

Notes to the Financial Statements

December 31, 2012 and 2011

1. Description of the Plan

The following description of sanofi-aventis Puerto Rico Savings Plan (the "Plan"), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Description The Plan is a defined contribution plan that covers substantially all the employees of sanofi-aventis Puerto Rico Inc. as they meet the prescribed eligibility requirements. All employees are eligible to participate in the Plan beginning on the first day of employment. Effective October 1, 2012, sanofi-aventis Puerto Rico Inc. (the "Company") assumed the sponsorship and all related obligations and responsibilities of the Plan, transferred from predecessor plan sponsor sanofi-aventis U.S. LLC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Master Trust Effective April 1, 2012, Sanofi U.S. LLC, Sanofi Pasteur Inc., sanofi-aventis Puerto Rico Inc. and T. Rowe Price Trust Company entered into an amended and restated Master Trust Agreement, and the sanofi-aventis U.S. Savings Master Trust was renamed the Sanofi U.S. Group Savings Master Trust (the "Master Trust") to serve as the funding vehicle for the Plan. Accordingly, the assets of the Plan are maintained, for investment and administrative purposes only, on a commingled basis with the assets of the other plans of the employers within the parent company. The investments included in the Master Trust are equities, mutual funds, commingled funds, and guaranteed investment contracts. No plan has any interest in the specific assets of the Master Trust, but maintains beneficial interests in such assets. The portion of assets, net earnings, gains and/or losses and administrative expenses allocable to each plan is based upon the relationship of the plan's beneficial interest in the Master Trust to the total beneficial interest of all plans in the Master Trust (Note 3).

Trustee and Recordkeeper Banco Popular is the Plan's titular trustee (the "Trustee"). T. Rowe Price Trust Company is party to the Master Trust agreement discussed above which governs and maintains the Plan's commingled assets. T. Rowe Price Retirement Plan Services Inc. is the Plan's recordkeeper (Note 6).

Plan Administration The sanofi-aventis U.S. Administrative Committee (the "Committee" or "Plan Administrator"), as appointed by the sanofi-aventis U.S. Pension Committee, is responsible for the general administration of the Plan. The Board of Directors has appointed the Trustee with the responsibility for the administration of the Master Trust Agreement and the management of the assets.

Participant Accounts Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings, and is charged with an allocation of administrative expenses and Plan losses. Allocations are based on participant earnings or account balances. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. Unallocated forfeitures balances as of December 31, 2012 and 2011 were \$-0-. During 2012, forfeitures of \$296 were used to offset 2012 employer matching contributions to the Plan. The benefit to which a participant is entitled upon leaving the Company is the benefit that can be

provided from the participant's account.

sanofi-aventis Puerto Rico Savings Plan

Notes to the Financial Statements

December 31, 2012 and 2011

Employee Contributions The Plan offers auto-enrollment with a 30-day opt-out from date of hire. Prior to April 1, 2012, eligible participants were allowed to make salary deferral contributions of an amount up to 30% of the participant's pre-tax eligible compensation. After-tax contributions of up to 10% of eligible compensation were also available. Effective April 1, 2012, participants are allowed to contribute up to 75% of their eligible compensation as pre-tax contributions, and up to 10% in after-tax contributions. Contributions are subject to certain Puerto Rico Internal Revenue Code Section 1165(e) limitations (\$13,000 and \$10,000 for 2012 and 2011). Employees 50 years old or older may make an additional catch-up contribution of up to \$1,500 and \$1,000 for 2012 and 2011, respectively.

Plan participants may make a direct or indirect rollover contribution to the Plan from a former employer's tax qualified plan. Participants can also rollover IRA distributions (excluding minimum required distributions and nondeductible contributions).

Employer Matching Contributions Prior to April 1, 2012, the Company provided a matching contribution based upon a participant's years of service and the total amount of their pre-tax, after-tax, and catch-up contributions. The Company match contribution was limited to a maximum of 6% of eligible compensation in 3 tiers according to service years shown in the table below:

| Years of Service | Company Match Tiers |
|------------------|---------------------|
| 0-2 | 100% |
| 3-6 | 125% |
| 7 or more | 150% |

Effective April 1, 2012, the Company match contribution is amended to 150% of the pre-tax contributions for all participants, up to 6% of total compensation.

There are certain defined limitations on the amount of contributions that may be credited to a participant's account and the annual amount of the employer contribution is limited to the maximum deductible for Puerto Rico income tax purposes. The Plan includes specific procedures for the treatment of any excess account additions beyond those allowable as noted above.

Upon Plan enrollment, a participant may direct employee contributions into any of the Plan's fund choices. Participants may change their investment choices at any time. The Company's contributions are allocated in the same manner as that of the participants' elective contributions.

Vesting Effective April 1, 2012, all eligible employees hired on or before March 31, 2012 became 100% vested in their Company matching contribution account. Employees hired on or after April 1, 2012 will be 100% vested in their Company matching contribution account after 2 years of service. Participants are always 100% vested in their pre-tax, catch up, and after-tax contribution accounts (contributions and related

Edgar Filing: Sanofi - Form 11-K

earnings). Prior to April 1, 2012, employees who were participants on or before December 31, 2005 were 100% vested in their Company matching contribution account (contribution and related earnings), and employees hired on or after January 1, 2006 were 100% vested in their Company matching contribution account after three years of service.

sanofi-aventis Puerto Rico Savings Plan

Notes to the Financial Statements

December 31, 2012 and 2011

Distributions Plan participants who leave sanofi-aventis Puerto Rico Inc. as a result of death, disability, retirement, or termination may choose one or a combination of the following distribution methods: receive the entire amount of their account balance in one lump-sum payment; or receive the distribution in the form of recurring annual installments over a period of between three and fifteen years. If a participant dies, the participant's designated beneficiary will receive the payments.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan.

Participant Loans Plan participants may borrow from \$1,000 up to a maximum equal to the lesser of 50% of the value of their vested account balance or \$50,000 less the highest outstanding loan balance in the preceding 12 months, subject to certain limitations described in the Plan document. Loans bear interest at a rate commensurate with the prevailing market rate, as determined by the Plan Administrator. Currently, interest rates associated with participant loans range from 4.25% to 9.25%. Loan balances are payable in semimonthly installments generally over a term of up to five years. As of April 1, 2012, a participant may not have more than two loans outstanding at any point in time. Extended terms of up to 15 years are available should the loan relate to the purchase of a primary residence.

Fees and Administrative Expenses All external third party expenses and internal expenses relating to the administration of the Master Trust and managing the funds established thereunder are borne by the participating plans, unless they are paid by the Company. Brokerage commissions, transfer taxes and other charges incurred in connection with the purchase and sale of securities are paid out of the funds to which such charges are attributable.

2. Summary of Significant Accounting Policies

Basis of Accounting The financial statements of the Plan have been prepared on the accrual basis of accounting.

Benefit Payments Benefits are recorded when paid.

Use of Estimates The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements, accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation For investment and administrative purposes, the Plan's assets are custodied in the Master Trust. The Plan's investment in the Master Trust represents the Plan's interest in the net assets of the Master Trust. The Plan's interest in the Master Trust is stated at fair value and is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income or loss less actual distributions and allocated administrative expenses.

Notes Receivable from Participants Notes receivables from participants represent loans recorded at their unpaid principal balance plus accrued interest. Interest income generated on the notes receivable is recorded when earned. A provision for doubtful accounts has not been recorded as of December 31, 2012 and 2011.

sanofi-aventis Puerto Rico Savings Plan

Notes to the Financial Statements

December 31, 2012 and 2011

Risks and Uncertainties The Plan provides for various investment options representing varied combinations of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

New Accounting Pronouncements In May 2011, the FASB issued Accounting Standards Update 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). The objective of this update is to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and International Financial Reporting Standards (IFRSs), by changing the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and disclosing information about fair value measurements. The amendments include those that clarify FASB's intent about the application of existing fair value measurement and disclosure requirements and those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. ASU 2011-04 is to be applied prospectively and is effective for interim and annual periods beginning after December 15, 2011. The Plan adopted ASU 2011-04 for the year ended December 31, 2012.

3. Investments in Plan Master Trust

At December 31, 2012, the Master Trust comprises the investment assets of the Plan and Sanofi U.S. Group Savings Plan. At December 31, 2011 and through April 1, 2012, the Master Trust also comprised the investment assets of the Sanofi Pasteur 401(k) Plan. Certain investment assets of the Master Trust, related earnings (losses) and expenses are allocated to the plans participating in the Master Trust based upon the total of each individual participant's share of the Master Trust (See Note 1).

At December 31, 2012 and 2011, the Plan's interest in the Master Trust was approximately 1%. The Plan's interest in the Master Trust represented 5% or more of the Plan's net assets available for benefits, as of December 31, 2012 and 2011.

sanofi-aventis Puerto Rico Savings Plan**Notes to the Financial Statements****December 31, 2012 and 2011**

The Master Trust is comprised of the following types of investments, at fair value, as of December 31, 2012 and 2011:

| Investments | 2012 | 2011 |
|--|------------------|------------------|
| Common and commingled trusts | | |
| Retirement date trusts (a) | \$ 2,592,929,055 | \$ 1,705,744,651 |
| U.S. and International equities | 283,225,194 | 187,051,810 |
| Separately managed accounts | | |
| U.S. and International equities | 131,383,229 | 110,485,079 |
| Company stock | 102,122,750 | 78,705,563 |
| Mutual funds | | |
| Fixed income securities | 208,606,663 | 159,312,780 |
| U.S. and International equities | 71,674,258 | 61,364,917 |
| Money market | 1,089,422 | 722,574 |
| Stable value fund (b) | | |
| Short-term investment fund (c) | 72,796,889 | 44,429,519 |
| Synthetic investment contracts | 382,753,686 | 368,296,867 |
| Guaranteed investment contracts | 31,417,458 | 36,372,475 |
| Total investments | 3,877,998,604 | 2,752,486,235 |
| Adjustment from fair value to contract value for fully benefit-responsive investment contracts | (21,678,875) | (18,435,293) |
| | \$ 3,856,319,729 | \$ 2,734,050,942 |

(a) This category includes investments in a blend of diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances gauged upon an expected retirement date. The funds share the common goal of growing principal in earlier years and then later preserving the principal balance closer to an expected retirement date.

(b) This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund. The fair value of this fund has been estimated based on the fair value of the underlying investment contracts in the fund as reported by the issuer of the fund. The fair value differs from the contract value which is the relevant measurement basis attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

(c) This category includes a common/collective trust fund that is designed to protect capital with low-risk investments and includes cash, bank notes, corporate notes, government bills and various short-term debt instruments. There are currently no redemption restrictions on this investment. The fair value of the investment in this category has been estimated using the net asset value per share.

The Master Trust's investment income for the year ended December 31, 2012 is presented in the following table. The net appreciation (depreciation) consists of both realized gains (losses) on investments bought and sold, as well as, the changes in unrealized gains (losses) on the investments held during the year by the Master Trust.

sanofi-aventis Puerto Rico Savings Plan**Notes to the Financial Statements****December 31, 2012 and 2011****Net appreciation in fair value of investments**

| | 2012 |
|------------------------------|----------------|
| Company stock | \$ 23,311,893 |
| Mutual funds | 11,839,867 |
| Common and commingled trusts | 312,444,251 |
| Separate accounts | 14,648,824 |
| Net appreciation | 362,244,835 |
| Dividend income | 16,419,335 |
| Interest income | 11,887,002 |
| Total investment income | \$ 390,551,172 |

Investment Valuation and Income Recognition Master Trust investments are stated at fair value. Investments in mutual funds are valued at the published net asset value of shares held at year end. Investments in commingled funds are stated at fair value based on unit values provided by the administrator, which are based on market values of underlying investments. Common stock is valued at the last closing price at end of the year. Short term securities are valued at amortized cost which includes cost plus accrued interest, which approximates fair value. Traditional GICs are stated at fair value based on a discounted cash flow method. The fair value of synthetic GICs equals the total of the fair value of the underlying assets plus the total wrap rebid value.

Securities transactions are recorded on the trade-date (the day the order to buy or sell is executed). Interest income is recorded on the accrual basis, and dividend income is recorded on the ex-dividend date.

Guaranteed Investment Contracts The Master Trust entered into benefit-responsive investment contracts in the Stable Value Fund which invest primarily in investment contracts issued by high-quality insurance companies and banks as rated by T. Rowe Price Associates, Inc. (investment advisor). Contract values represent contributions made to the investment contracts plus earnings, less participant withdrawals and administrative expenses. These are interest bearing contracts in which the principal and interest are guaranteed by the issuing companies. The contracts are considered fully benefit-responsive and are comprised of traditional guaranteed investment contracts (GICs) and synthetic contracts (SICs). These investment contracts are recorded at fair value; however, since these contracts are fully-benefit responsive, an adjustment is reflected in the statement of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The fair value of traditional GICs equals the total of the fair value of the underlying assets calculated using the present value of contract cash flows. The fair value of synthetic GICs equals the total of the fair value of the underlying assets plus the total wrap rebid value. The wrap rebid value is \$212,331 and \$335,050 at December 31, 2012 and 2011, respectively.

sanofi-aventis Puerto Rico Savings Plan

Notes to the Financial Statements

December 31, 2012 and 2011

The issuers of the synthetic GICs are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The fund deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise and do not permit the insurance companies to terminate the agreement prior to the scheduled maturity date. Each contract is subject to early termination penalties that may be significant.

The average crediting rate for the investment contracts was 2.91% and 3.46% and the average yield was 2.85% and 3.30% during 2012 and 2011, respectively. The Plan's interest in the GICs within the Master Trust was approximately 1% at December 31, 2012 and 2011.

Certain events could limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Fair Value Measurements The accounting guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

sanofi-aventis Puerto Rico Savings Plan

Notes to the Financial Statements

December 31, 2012 and 2011

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation technique used needs to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Mutual Funds Valued at the net asset value (NAV) of shares held by the Master Trust at year end, which are based on quoted market prices. They are classified within Level 1 of the valuation hierarchy.

Guaranteed Investment Contracts Valued at fair value by discounting the related cash flows based on current yields of a similar instrument with comparable durations considering the credit-worthiness of the issuer. The traditional GICs are classified within Level 3 of the valuation hierarchy.

Synthetic Guaranteed Investment Contracts The fair value of the synthetic guaranteed investment contracts is based on the underlying investments. As of December 31, 2012, the investments underlying the synthetic guaranteed investment contracts were approximately 38% corporate securities, 29% asset-backed securities, 14% agency debt securities, and 16% in US treasury securities, 3% in other securities, which are publically traded. As of December 31, 2011, the investments underlying the synthetic guaranteed investment contracts were approximately 38% corporate securities, 35% asset-backed securities, 12% agency debt securities, 14% in US treasury securities and 1% in other investments, which are publically traded. The value of the wrapper contracts is determined using rebid rates from the wrapper provider, and is included in the synthetic guaranteed investment contracts amount of the Master Trust shown below. The synthetic GICs are classified within Level 2 of the valuation hierarchy.

Company Stock and Other Common Stocks These investments are valued at the publicly traded price of equity securities held in all of the Master Trust's separate accounts. Company stock and other common stocks are classified within Level 1 of the valuation hierarchy.

Edgar Filing: Sanofi - Form 11-K

Common and Commingled Trust Funds These investments are public investment vehicles consisting of target date funds and equity index funds. These funds permit daily redemptions of units and are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of underlying assets owned by the fund, less its liabilities, and then divided by the number of units outstanding. The NAV is a quoted price in a market that is not active and classified within Level 2 of the valuation hierarchy.

Short-Term Investments Short-term investments include corporate debt instruments, U.S. government and federal agency obligations, U.S. government-sponsored enterprise obligations, and other. Short-term investments are classified within Level 2 of the valuation hierarchy.

sanofi-aventis Puerto Rico Savings Plan**Notes to the Financial Statements****December 31, 2012 and 2011**

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with ASC 820 guidance, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The following table sets forth by level, within the fair value hierarchy, the Master Trust assets at fair value as of December 31, 2012 and 2011:

| | 2012 | | | | |
|---|----------------|------------------|----------------|--------------|------------------|
| | Level 1 | Level 2 | Level 3 | Total | |
| Common and commingled trusts: | | | | | |

The table below sets forth a summary of changes in the fair value of the Master Trust Level 3 assets for the year ended December 31, 2012:

| | 2012 |
|--|---------------|
| Balance at beginning of year | \$ 36,372,475 |
| Unrealized gain relating to instruments still held at the reporting date | 11,865 |
| Purchases, sales, issuances and settlements: | |
| Purchases and issuances | 10,000,000 |
| Settlements | (14,966,882) |
| Total Purchase, sales, issuances and settlements (net) | (4,955,017) |
| Balance at end of year | \$ 31,417,458 |
| Amount of gains or losses for the year attributed to the change in unrealized gains (losses) relating to assets and liabilities still held at year end | \$ 11,865 |

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

Edgar Filing: Sanofi - Form 11-K

The following table represents the Master Trust's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

sanofi-aventis Puerto Rico Savings Plan**Notes to the Financial Statements****December 31, 2012 and 2011**

| Instrument | Fair Value | Principal Valuation Technique | Unobservable Inputs | Range of Significant Input Values | Weighted Average |
|---------------------------------|-------------------|--|--------------------------------|--|-----------------------------|
| Guaranteed investment contracts | \$ 31,417,458 | Discounted Cash Flow | Duration Payout Date | 0.2-2.9 03/14/2013- 12/15/2015 | 1.6 |

4. Income Tax Status

On April 25, 2012, the Plan received a determination letter from the Commonwealth of Puerto Rico's Department of Treasury stating that the Plan, as then designed, was qualified under Sections 1165(a) and 1165(e) of the Puerto Rico Internal Revenue Code of 1994 (the "PR Code"). The Plan has been amended and restated since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the PR Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the Puerto Rico Department of Treasury. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

5. Reconciliation of Financial Statements to Form 5500

GICs and synthetic GICs are reported at fair value for Form 5500 purposes. For financial statement purposes, such items are recorded at gross fair value and adjusted to net contract value. Such differing treatments result in a reconciling item between the total net assets available for benefits recorded on the Form 5500 and the total net assets available for benefits included in the accompanying financial statements.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

2012

2011

Edgar Filing: Sanofi - Form 11-K

| | | | | |
|--|----|------------|----|------------|
| Net assets available for benefits per the financial statements | \$ | 22,099,635 | \$ | 19,273,460 |
| Adjustment from fair value to contract value for fully benefit responsive investment contracts | | 270,215 | | 236,356 |
| Net assets available for benefits per Form 5500 | \$ | 22,369,850 | \$ | 19,509,816 |

sanofi-aventis Puerto Rico Savings Plan

Notes to the Financial Statements

December 31, 2012 and 2011

The following is a reconciliation of investment income per the financial statements to Form 5500 for the year ended December 31, 2012.

| | 2012 |
|--|--------------|
| Net investment income at fair value per the financial statements | \$ 2,285,487 |
| Adjustment from fair value to contract value for fully benefit responsive investment contracts | 33,859 |
| Net investment income per Form 5500 | \$ 2,319,346 |

6. Related Party and Party-in-Interest Transactions

Certain Master Trust investments are shares of mutual funds managed by T. Rowe Price Trust Company, the trustee of the Plan. T. Rowe Price Retirement Plan Services Inc. is the recordkeeper of the Plan. Therefore, these transactions qualify as party-in-interest transactions.

The Master Trust invests in shares of the parent company, Sanofi; therefore, these transactions qualify as party-in-interest transactions. The above transactions are not considered prohibited transactions under the prohibited transaction rules. During the year ended December 31, 2012, the Master Trust made purchases of approximately \$ 8,620,960, sales of approximately \$7,118,806, realized gains of \$1,834,073 and dividend income of \$ 3,057,453 earned from the investment in Sanofi common stock. Total shares and market value held at December 31, 2012 was 5,877,113 and \$102,122,750, respectively.

Loans to participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the PR Code.

8. Subsequent Events

Plan management has evaluated all subsequent events through June 25, 2013, the date the financial statements were issued.
