Abbott Laboratories and Subsidiaries

## Notes to Condensed Consolidated Financial Statements

September 30, 2013

(Unaudited)

### Note 1 Basis of Presentation

The accompanying unaudited, condensed consolidated financial statements have been prepared pursuant to rules and regulations of the Securities and Exchange Commission and, therefore, do not include all information and footnote disclosures normally included in audited financial statements. However, in the opinion of management, all adjustments (which include only normal adjustments) necessary to present fairly the results of operations, financial position and cash flows have been made. It is suggested that these statements be read in conjunction with the financial statements included in Abbott's Annual Report on Form 10-K/A for the year ended December 31, 2012. The consolidated financial statements include the accounts of the parent company and subsidiaries, after elimination of intercompany transactions. The Condensed Consolidated Statement of Cash Flows for the nine months ended September 30, 2012 has been appropriately revised to reflect contingent and other consideration payments related to business acquisitions as cash flow used in financing activities. The amounts had been previously reflected as cash flow used in investing activities.

### Note 2 Separation of AbbVie Inc.

On November 28, 2012, Abbott's board of directors declared a special dividend distribution of all of the outstanding shares of common stock of AbbVie Inc. (AbbVie), the company formed to hold Abbott's research-based proprietary pharmaceuticals business. For each Abbott common share held at the close of business on December 12, 2012, Abbott shareholders received one share of AbbVie stock on January 1, 2013. Abbott has received a ruling from the Internal Revenue Service that the separation qualifies as a tax-free distribution to Abbott and its U.S. shareholders for U.S. federal income tax purposes.

The historical results of operations of the research-based proprietary pharmaceuticals business have been presented as discontinued operations in the Condensed Consolidated Statement of Earnings. Discontinued operations include the results of AbbVie's business except for certain corporate overhead costs and certain costs associated with transition services that will be provided by Abbott to AbbVie. Discontinued operations also includes other costs incurred by Abbott to separate AbbVie as well as an allocation of interest assuming a uniform ratio of consolidated debt to equity for all of Abbott's historical operations. Prior-year balance sheets and statements of cash flows have not been adjusted to reflect the effect of the separation.

The following is a summary of the assets and liabilities transferred to AbbVie as part of the separation on January 1, 2013. The summary has been revised to appropriately reduce the amount of long-term deferred tax assets transferred to AbbVie and the corresponding distribution from

# Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

equity by approximately \$580 million: *(dollars in billions)*

Net Assets Transferred to AbbVie Inc.	\$	2.7

# Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

## Notes to Condensed Consolidated Financial Statements

September 30, 2013

(Unaudited), continued

In addition, approximately \$1.1 billion of accumulated other comprehensive losses, net of income taxes, primarily related to the pension and other benefit plan net liabilities as well as foreign translation was transferred to AbbVie.

In the third quarter 2013, discontinued operations includes a favorable adjustment to tax expense of \$193 million as a result of the resolution of various tax positions related to AbbVie's operations prior to separation. Summarized financial information for discontinued operations for 2012 is as follows: (*dollars in millions*)

	Three Months Ended September 30 2012		Nine Months Ended September 30 2012	
Net sales	\$	4,508	\$	13,175
Earnings before taxes		1,641		4,164
Taxes on earnings		37		355
Net earnings		1,604		3,809

Abbott and AbbVie entered into transitional services agreements prior to the separation pursuant to which Abbott and AbbVie are providing to each other, on an interim transitional basis, various services. Transition services may be provided for up to 24 months with an option for a one-year extension by the recipient. Services being provided by Abbott include certain information technology and back office support. Billings by Abbott under these transitional services agreements are recorded as a reduction of the costs to provide the respective service in the applicable expense category in the Condensed Consolidated Statement of Earnings. This transitional support will enable AbbVie to establish its stand-alone processes for various activities that were previously provided by Abbott and does not constitute significant continuing support of AbbVie's operations.

For a small portion of AbbVie's operations, the legal transfer of AbbVie's assets (net of liabilities) did not occur with the separation of AbbVie on January 1, 2013 due to the time required to transfer marketing authorizations and other regulatory requirements in each of these countries. Under the terms of the separation agreement with Abbott, AbbVie is subject to the risks and entitled to the benefits generated by these operations and assets. The majority of these operations are expected to be transferred to AbbVie in 2013 with the remainder transferring in 2014. These assets and liabilities have been presented as held for disposition in the Condensed Consolidated Balance Sheet. At September 30, 2013, the assets and liabilities held for disposition consist of inventories of \$173 million, trade accounts receivable of \$338 million, equipment of \$31 million, other assets of \$74 million, trade accounts payable of \$286 million and other liabilities of \$69 million. Abbott's obligation to transfer the net assets held for disposition to AbbVie of \$261 million is included in Other accrued liabilities.

Abbott has retained all liabilities for all U.S. federal and foreign income taxes on income prior to the separation, as well as certain non-income taxes attributable to AbbVie's business. AbbVie generally will be liable for all other taxes attributable to its business. In connection with the separation, Abbott has adjusted its employee stock compensation awards and separated its defined benefit programs for pensions and post-employment medical and dental benefit plans. See notes 7 and 9 for additional information.

## Note 3 Supplemental Financial Information

Unvested restricted stock that contain non-forfeitable rights to dividends are treated as participating securities and are included in the computation of earnings per share under the two-class method. Under the two-class method, net earnings are allocated between common shares and participating securities. Net earnings allocated to common shares for the three months and nine months ended September 30, 2013 were \$959 million and \$1.973 billion, respectively, and net earnings allocated to common shares for the three months and nine months ended September 30, 2012 were \$1.928 billion and \$4.871 billion, respectively.

Other (income) expense, net, in the third quarter of 2013 primarily relates to gains from the sales of equity securities. Other, net in Net cash from operating activities for 2013 includes the recognition of \$433 million of tax benefits in the third quarter as a result of the favorable resolution of various tax positions pertaining to prior years. Other, net in Net cash from operating activities for 2012 includes payments of approximately \$800 million to settle certain government investigations related to AbbVie's business operations and the recognition of \$386 million of tax benefits in the third quarter as a result of the favorable resolution of various tax positions pertaining to a prior year. These items were offset by increases in Other accrued liabilities primarily related to cost reduction initiatives and the timing of various payments. Other, net in Net cash from operating activities for 2013 and 2012 includes the effects of contributions to defined benefit plans of approximately \$680 million and \$360 million, respectively.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Notes to Condensed Consolidated Financial Statements

September 30, 2013

(Unaudited), continued

The components of long-term investments as of September 30, 2013 and December 31, 2012 are as follows:

(dollars in millions)	September 30 2013	December 31 2012
Equity securities	\$ 114	\$ 213
Other	29	61
Total	\$ 143	\$ 274

The reduction in long-term investments from December 31, 2012 to September 30, 2013 is due primarily to the separation of AbbVie on January 1, 2013.

Note 4 Other Comprehensive Income

(a) Reclassified amounts for foreign currency translation are recorded in the Condensed Consolidated Statement of Earnings as Net foreign exchange loss (gain); gains on marketable equity securities as Other (income) expense and cash flow hedges as Cost of products sold. Net actuarial losses and prior service cost is included as a component of net periodic benefit plan costs; see Note 7 for additional details.

Notes to Condensed Consolidated Financial Statements

September 30, 2013

(Unaudited), continued

Note 5 Taxes on Earnings

Taxes on earnings reflect the estimated annual effective rates and include charges for interest and penalties. In the third quarter of 2013 taxes on earnings reflect the recognition of \$241 million of tax benefits in continuing operations as the result of the favorable resolution of various tax positions pertaining to prior years. 2013 Earnings from Discontinued Operations, net of tax, reflect the recognition of \$193 million of tax benefits as a result of the favorable resolution of various tax positions related to AbbVie's operations prior to separation. The conclusion of these tax matters decreased the gross amount of unrecognized tax benefits by approximately \$560 million. In addition, as a result of the American Taxpayer Relief Act of 2012 signed into law in January 2013, Abbott recorded a tax benefit to taxes on continuing operations of approximately \$103 million in the first quarter of 2013 for the retroactive extension of the research tax credit and the look-through rules of section 954(c)(6) of the Internal Revenue Code to the beginning of 2012. Taxes on earnings on continuing operations in 2012 reflect the recognition of \$196 million of tax benefits in the third quarter as a result of the favorable resolution of various tax positions pertaining to a prior year.

Exclusive of these discrete items, the effective tax rates are less than the statutory U.S. federal income tax rate principally due to the benefit of lower statutory tax rates and tax exemptions in several foreign taxing jurisdictions. Tax authorities in various jurisdictions regularly review Abbott's income tax filings. Abbott believes that it is reasonably possible that the recorded amount of gross unrecognized tax benefits may decrease by \$400 million to \$450 million, including cash adjustments, within the next twelve months as a result of concluding various domestic and international tax matters.

Note 6 Litigation and Environmental Matters

Abbott has been identified as a potentially responsible party for investigation and cleanup costs at a number of locations in the United States and Puerto Rico under federal and state remediation laws and is investigating potential contamination at a number of company-owned locations. Abbott has recorded an estimated cleanup cost for each site for which management believes Abbott has a probable loss exposure. No individual site cleanup exposure is expected to exceed \$4 million, and the aggregate cleanup exposure is not expected to exceed \$15 million.

Abbott is involved in various claims and legal proceedings, and Abbott estimates the range of possible loss for its legal proceedings and environmental exposures to be from approximately \$80 million to \$100 million. The recorded accrual balance at September 30, 2013 for these proceedings and exposures was approximately \$85 million. This accrual represents management's best estimate of probable loss, as defined by FASB ASC No. 450, Contingencies. Within the next year, legal proceedings may occur that may result in a change in the estimated loss accrued by Abbott. While it is not feasible to predict the outcome of all such proceedings and exposures with certainty, management believes that their ultimate disposition should not have a material adverse effect on Abbott's financial position, cash flows, or results of operations.

Note 7 Post-Employment Benefits

## Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Retirement plans consist of defined benefit, defined contribution, and medical and dental plans. Net cost recognized in continuing operations for the three and nine months ended September 30 for Abbott's major defined benefit plans and post-employment medical and dental benefit plans is as follows:

(dollars in millions)	Defined Benefit Plans				Medical and Dental Plans			
	Three Months Ended Sept. 30		Nine Months Ended Sept. 30		Three Months Ended Sept. 30		Nine Months Ended Sept. 30	
	2013	2012	2013	2012	2013	2012	2013	2012
Service cost — benefits earned during the period	\$ 70	\$ 57	\$ 222	\$ 175	\$ 10	\$ 8	\$ 33	\$ 24
Interest cost on projected benefit obligations	66	66	198	199	15	10	45	32
Expected return on plans' assets	(109)	(90)	(296)	(272)	(9)	(4)	(27)	(13)
Net amortization	41	33	123	106	(1)	(1)	(1)	(3)
Net Cost	\$ 68	\$ 66	\$ 247	\$ 208	\$ 15	\$ 13	\$ 50	\$ 40

# Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

## Notes to Condensed Consolidated Financial Statements

September 30, 2013

(Unaudited), continued

Abbott funds its domestic defined benefit plans according to IRS funding limitations. International pension plans are funded according to applicable regulations. In the first nine months of 2013 and 2012, approximately \$680 million and \$360 million, respectively, was contributed to defined benefit plans and \$40 million was contributed to the post-employment medical and dental benefit plans in each period.

The separation agreement with AbbVie obligates Abbott to transfer certain defined benefit and medical and dental plan liabilities and assets to AbbVie. The net obligation is included in the assets and liabilities transferred to AbbVie as part of the separation on January 1, 2013. The following table summarizes these projected benefit obligations and assets at January 1, 2013, based on the final actuarial valuations:

(dollars in millions)	Defined Benefit Plans		Medical and Dental Plans	
Projected benefit obligations	\$	4,534	\$	472
Plans' assets		3,111		
Net obligation transferred to AbbVie	\$	1,423	\$	472

In addition, Abbott transferred to AbbVie Accumulated other comprehensive income (loss), net of income taxes, of approximately \$1.2 billion.

## Note 8 Segment Information

Abbott's principal business is the discovery, development, manufacture and sale of a broad line of health care products. Abbott's products are generally sold directly to retailers, wholesalers, hospitals, health care facilities, laboratories, physicians' offices and government agencies throughout the world. As a result of the separation of AbbVie, Abbott no longer has a Proprietary Pharmaceutical Products segment and this business has been removed from the 2012 historical information presented below. Abbott's reportable segments are as follows:

*Established Pharmaceutical Products* International sales of a broad line of branded generic pharmaceutical products.

*Nutritional Products* Worldwide sales of a broad line of adult and pediatric nutritional products.

*Diagnostic Products* Worldwide sales of diagnostic systems and tests for blood banks, hospitals, commercial laboratories and alternate-care testing sites. For segment reporting purposes, the Core Laboratories Diagnostics, Molecular Diagnostics, Point of Care and Ibis diagnostic divisions are aggregated and reported as the Diagnostic Products segment.

*Vascular Products* Worldwide sales of coronary, endovascular, structural heart, vessel closure and other medical device products.

Non-reportable segments include the Diabetes Care and Medical Optics segments.

Abbott's underlying accounting records are maintained on a legal entity basis for government and public reporting requirements. Segment disclosures are on a performance basis consistent with internal management reporting. The cost of some corporate functions and the cost of certain employee benefits are charged to segments at predetermined rates that approximate cost. Remaining costs, if any, are not allocated to segments. In addition, effective January 1, 2013, intangible asset amortization is not allocated to operating segments, and intangible assets and goodwill are not included in the measure of each segment's assets. After removal of intangible assets and goodwill from the measure of segment assets, the assets of the Established Pharmaceutical Products and the Vascular Products segments totaled \$2.6 billion and \$1.8 billion, respectively, as of September 30, 2013. The segment information below for 2012 has been adjusted to exclude intangible asset amortization. The following segment information has been prepared in accordance with the internal accounting policies of Abbott, as described above, and are not presented in accordance with generally accepted accounting principles applied to the consolidated financial statements.

Other	627	605	1,881	1,868				
Net Sales	\$ 5,369	\$ 5,265	\$ 16,193	\$ 15,862				
Corporate functions and benefit plans costs					(117)	(164)	(364)	(507)
Non-reportable segments					89	98	276	285
Net interest expense					(24)	(88)	(73)	(218)
Share-based compensation (a)					(45)	(51)	(222)	(236)
Amortization of intangible assets					(197)	(195)	(593)	(599)
Other, net (b)					(195)	(414)	(467)	(525)
Consolidated Earnings from Continuing Operations Before Taxes					\$ 628	\$ 231	\$ 1,783	\$ 1,224

(a) Approximately 40 to 45 percent of the annual net cost of share-based awards will typically be recognized in the first quarter due to the timing of the granting of share-based awards.

(b) The decrease in Other, net, in the third quarter of 2013 is due primarily to lower expenses in 2013 related to cost reduction initiatives compared to 2012.

## Note 9 Incentive Stock Programs

In connection with the separation of AbbVie on January 1, 2013, Abbott modified its outstanding equity awards granted under incentive stock programs for its employees. The awards were generally modified such that immediately following the separation, the awardees held the same number of awards in Abbott stock and an equal number of awards in AbbVie stock. The exercise price on outstanding Abbott options was adjusted and the exercise price on the AbbVie options granted under this modification was established with the intention of generally preserving the value of the awards immediately prior to the separation. This modification did not result in additional compensation expense.

## Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

In the first nine months of 2013, Abbott granted 4,733,378 stock options, 918,819 replacement stock options, 840,535 restricted stock awards and 6,074,381 restricted stock units under its incentive stock programs. At September 30, 2013, approximately 130 million shares were reserved for future grants. Information regarding the number of options outstanding and exercisable at September 30, 2013 is as follows:

	Outstanding		Exercisable	
Number of shares	45,693,210		38,893,329	
Weighted average remaining life ( <i>years</i> )	4.0		3.2	
Weighted average exercise price	\$	26.22	\$	25.12
Aggregate intrinsic value ( <i>in millions</i> )	\$	338	\$	324

The total unrecognized share-based compensation cost at September 30, 2013 amounted to approximately \$195 million which is expected to be recognized over the next three years.

Notes to Condensed Consolidated Financial Statements

September 30, 2013

(Unaudited), continued

Note 10 Business Acquisitions

In August 2013, Abbott acquired 100 percent of IDEV Technologies, net of debt, for \$310 million, in cash. The acquisition of IDEV Technologies expands Abbott's endovascular portfolio. The preliminary allocation of the fair value of the acquisition resulted in non-deductible acquired in-process research and development of approximately \$200 million which is accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation, non-deductible definite-lived intangible assets of approximately \$90 million, non-deductible goodwill of approximately \$90 million and net deferred tax liabilities of \$80 million. Acquired intangible assets consist of developed technology and are being amortized over 11 years.

In August 2013, Abbott acquired 100 percent of OptiMedica for \$260 million, in cash, plus additional payments up to \$150 million to be made upon completion of certain development, regulatory and sales milestones. The acquisition of OptiMedica provides Abbott with an immediate entry point into the laser assisted cataract surgery market. The preliminary allocation of the fair value of the acquisition resulted in non-deductible definite-lived intangible assets of approximately \$165 million, non-deductible acquired in-process research and development of approximately \$60 million which is accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation, non-deductible goodwill of approximately \$145 million, net deferred tax liabilities of \$70 million and contingent consideration of approximately \$60 million. The fair value of the contingent consideration was determined based on an independent appraisal. Acquired intangible assets consist of developed technology and are being amortized over 18 years.

The preliminary allocations of the fair value of these acquisitions will be finalized when the appraisals are completed. Had the above acquisitions taken place on January 1 of the previous year, consolidated net sales and income would not have been significantly different from reported amounts.

Note 11 Financial Instruments, Derivatives and Fair Value Measures

Certain Abbott foreign subsidiaries enter into foreign currency forward exchange contracts to manage exposures to changes in foreign exchange rates for anticipated intercompany purchases by those subsidiaries whose functional currencies are not the U.S. dollar. These contracts, totaling \$192 million and \$1.6 billion at September 30, 2013 and December 31, 2012, respectively, are designated as cash flow hedges of the variability of the cash flows due to changes in foreign exchange rates and are recorded at fair value. Contracts totaling \$1.0 billion were transferred to AbbVie as part of the separation on January 1, 2013. Accumulated gains and losses as of September 30, 2013 will be included in Cost of products sold at the time the products are sold, generally through the next twelve months. The amount of hedge ineffectiveness was not significant in 2013 and 2012.

Abbott enters into foreign currency forward exchange contracts to manage currency exposures for foreign currency denominated third-party trade payables and receivables, and for intercompany loans and trade accounts payable where the receivable or payable is denominated in a currency other than the functional currency of the entity. For intercompany loans, the contracts require Abbott to sell or buy foreign currencies,

## Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

primarily European currencies and Japanese yen, in exchange for primarily U.S. dollars and other European currencies. For intercompany and trade payables and receivables, the currency exposures are primarily the U.S. dollar, European currencies and Japanese yen. At September 30, 2013 and December 31, 2012, Abbott held \$11.6 billion and \$18.2 billion, respectively, of such foreign currency forward exchange contracts, of which \$4.3 billion of these contracts were transferred to AbbVie as part of the separation on January 1, 2013.

Abbott has designated foreign denominated short-term debt as a hedge of the net investment in a foreign subsidiary of approximately \$540 million and approximately \$615 million as of September 30, 2013 and December 31, 2012, respectively. Accordingly, changes in the fair value of this debt due to changes in exchange rates are recorded in Accumulated other comprehensive income (loss), net of tax.

Abbott is a party to interest rate swap contracts totaling approximately \$1.5 billion at September 30, 2013 and \$9.5 billion at December 31, 2012 to manage its exposure to changes in the fair value of fixed-rate debt. \$8.0 billion of these contracts related to debt issued by AbbVie Inc. in the fourth quarter of 2012 and were transferred to AbbVie as part of the separation on January 1, 2013. These contracts are designated as fair value hedges of the variability of the fair value of fixed-rate debt due to changes in the long-term benchmark interest rates. The effect of the hedge is to change a fixed-rate interest obligation to a variable rate for that portion of the debt. Abbott records the contracts at fair value and adjusts the carrying amount of the fixed-rate debt by an offsetting amount. No hedge ineffectiveness was recorded in income in 2013 or 2012 for these hedges.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Notes to Condensed Consolidated Financial Statements

September 30, 2013

(Unaudited), continued

The following table summarizes the amounts and location of certain derivative financial instruments as of September 30, 2013 and December 31, 2012:

(dollars in millions)	Sept. 30 2013	Fair Value - Assets		Sept. 30 2013	Fair Value - Liabilities	
		Dec. 31 2012	Balance Sheet Caption		Dec. 31 2012	Balance Sheet Caption
Interest rate swaps designated as fair value hedges	\$ 114	\$ 185	Deferred income taxes and other assets	\$	\$ 80	Post-employment obligations, deferred income taxes and other long-term liabilities
Foreign currency forward exchange contracts						
Hedging instruments	10	22	Prepaid expenses, deferred income taxes, and other receivables		11	Other accrued liabilities
Others not designated as hedges	90	98		86	135	
Debt designated as a hedge of net investment in a foreign subsidiary			n/a	540	615	Short-term borrowings
	\$ 214	\$ 305		\$ 626	\$ 841	

The following table summarizes the activity for foreign currency forward exchange contracts designated as cash flow hedges, debt designated as a hedge of net investment in a foreign subsidiary and the amounts and location of income (expense) and gain (loss) reclassified into income in the third quarter and first nine months of 2013 and 2012 and for certain other derivative financial instruments. The amount of hedge ineffectiveness was not significant in 2013 and 2012 for these hedges.

(dollars in millions)	Gain (loss) Recognized in Other Comprehensive Income (loss)				Income (expense) and Gain (loss) Reclassified into Income				Income Statement Caption
	Three Months Ended Sept. 30 2013	Three Months Ended Sept. 30 2012	Nine Months Ended Sept. 30 2013	Nine Months Ended Sept. 30 2012	Three Months Ended Sept. 30 2013	Three Months Ended Sept. 30 2012	Nine Months Ended Sept. 30 2013	Nine Months Ended Sept. 30 2012	
Foreign currency forward exchange contracts designated as cash flow hedges	\$	\$ (7)	\$ 31	\$ (9)	\$ 15	\$ 36	\$ 29	\$ 75	Cost of products sold
Debt designated as a hedge of net investment in a foreign subsidiary		(15)	75	(5)	n/a	n/a	n/a	n/a	n/a
Interest rate swaps designated as fair value hedges	n/a	n/a	n/a	n/a	10	78	(71)	161	Interest expense
Foreign currency forward exchange contracts not designated as hedges	n/a	n/a	n/a	n/a	(70)	7	70	145	Net foreign exchange loss (gain)

The interest rate swaps are designated as fair value hedges of the variability of the fair value of fixed-rate debt due to changes in the long-term benchmark interest rates. The hedged debt is marked to market, offsetting the effect of marking the interest rate swaps to market.

## Notes to Condensed Consolidated Financial Statements

September 30, 2013

(Unaudited), continued

The carrying values and fair values of certain financial instruments as of September 30, 2013 and December 31, 2012 are shown in the table below. The carrying values of all other financial instruments approximate their estimated fair values. The counterparties to financial instruments consist of select major international financial institutions. Abbott does not expect any losses from nonperformance by these counterparties.

(dollars in millions)	September 30 2013		December 31 2012	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Long-term Investment Securities:				
Equity securities	\$ 114	\$ 114	\$ 213	\$ 213
Other	29	26	61	56
Total Long-term Debt	(3,667)	(4,157)	(18,394)	(19,588)
Foreign Currency Forward Exchange Contracts:				
Receivable position	100	100	120	120
(Payable) position	(86)	(86)	(146)	(146)
Interest Rate Hedge Contracts				
Receivable position	114	114	185	185
(Payable) position			(80)	(80)

The fair value of the debt was determined based on significant other observable inputs, including current interest rates.

The following table summarizes the bases used to measure certain assets and liabilities at fair value on a recurring basis in the balance sheet:

(dollars in millions)	Basis of Fair Value Measurement			
	Outstanding Balances	Quoted Prices in Active Markets	Significant Other Observable Inputs	Significant Unobservable Inputs
September 30, 2013:				
Equity securities	\$ 49	\$ 49	\$	\$
Interest rate swap derivative financial instruments	114		114	
Foreign currency forward exchange contracts	100		100	
Total Assets	\$ 263	\$ 49	\$ 214	\$
Fair value of hedged long-term debt	\$ 1,640	\$	1,640	\$
Foreign currency forward exchange contracts	86		86	
Contingent consideration related to business combinations	265			265
Total Liabilities	\$ 1,991	\$	1,726	\$ 265
December 31, 2012:				
Equity securities	\$ 76	\$ 76	\$	\$

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Interest rate swap derivative financial instruments		185				185	
Foreign currency forward exchange contracts		120				120	
Total Assets	\$	381	\$	76	\$	305	\$
Fair value of hedged long-term debt	\$	9,632	\$		\$	9,632	\$
Interest rate swap derivative financial instruments		80				80	
Foreign currency forward exchange contracts		146				146	
Contingent consideration related to business combinations		323					323
Total Liabilities	\$	10,181	\$		\$	9,858	\$ 323

The fair value of the debt was determined based on the face value of the debt adjusted for the fair value of the interest rate swaps, which is based on a discounted cash flow analysis. The fair value of the contingent consideration was determined based on an independent appraisal adjusted for the time value of money, exchange, payments and other changes in fair value. The balance at September 30, 2013 reflects contingent consideration related to the acquisition of OptiMedica.

Notes to Condensed Consolidated Financial Statements

September 30, 2013

(Unaudited), continued

Note 12 Goodwill and Intangible Assets

Abbott recorded goodwill of approximately \$235 million in 2013 related to the acquisitions of IDEV Technologies and OptiMedica. Goodwill related to the IDEV acquisition was allocated to the Vascular Products segment and goodwill related to OptiMedica was allocated to a non-reportable segment. Foreign currency translation adjustments and other adjustments decreased goodwill in the first nine months of 2013 by approximately \$155 million, while there were no significant changes in 2012. In addition, in connection with the separation of AbbVie on January 1, 2013, Abbott transferred approximately \$6.1 billion of goodwill to AbbVie. The amount of goodwill related to reportable segments at September 30, 2013 was \$2.9 billion for the Established Pharmaceutical Products segment, \$210 million for the Nutritional Products segment, \$386 million for the Diagnostic Products segment, and \$2.8 billion for the Vascular Products segment. Other than the effects of the separation of AbbVie, there were no reductions of goodwill relating to the disposal of all or a portion of a business. There was no reduction of goodwill relating to impairments.

The gross amount of amortizable intangible assets, primarily product rights and technology was \$12.0 billion as of September 30, 2013 and \$17.6 billion as of December 31, 2012, and accumulated amortization was \$6.6 billion as of September 30, 2013 and \$9.7 billion as of December 31, 2012. Indefinite-lived intangible assets, which relate to in-process research and development acquired in a business combination, was approximately \$520 million at September 30, 2013 and \$691 million at December 31, 2012. Gross amortizable intangible assets, accumulated amortization and indefinite-lived intangible assets of \$5.8 billion, \$3.9 billion and \$416 million, respectively, were transferred to AbbVie as part of the separation on January 1, 2013. Abbott's estimated annual amortization expense for intangible assets is approximately \$800 million in 2013, \$685 million in 2014, \$635 million in 2015, \$620 million in 2016 and \$585 million in 2017. Amortizable intangible assets are amortized over 4 to 20 years (average 11 years).

Note 13 Restructuring Plans

In the third quarter of 2013, Abbott management approved a plan to streamline certain manufacturing operations in order to reduce costs and improve efficiencies in Abbott's established pharmaceutical business. In addition, in the third quarter of 2012, Abbott management approved plans to streamline various commercial operations in order to reduce costs and improve efficiencies in Abbott's core diagnostics, established pharmaceutical and nutritional businesses. Abbott recorded employee related severance charges of approximately \$19 million and \$167 million in 2013 and 2012, respectively. Additional charges of approximately \$4 million and \$22 million were also recorded in 2013 and 2012, respectively, primarily for asset impairments. Approximately \$23 million in 2013 and \$70 million in 2012 is recorded in Cost of products sold and approximately \$119 million as Selling, general and administrative expense in 2012. Through December 31, 2012, no significant cash payments were made relating to the 2012 action. The following summarizes the activity for these restructurings: (*dollars in millions*)

	2013	
Restructuring charges recorded in 2012	\$	167
Restructuring charges		19
Payments and other adjustments		(77)
Accrued balance at September 30	\$	109

## Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

In 2013 and prior years, Abbott management approved plans to realign its worldwide pharmaceutical and vascular manufacturing operations and selected domestic and international commercial and research and development operations in order to reduce costs. In 2013, Abbott recorded employee related severance charges of approximately \$11 million. Additional charges of approximately \$12 million were also recorded in 2013 primarily for accelerated depreciation. Approximately \$23 million in 2013 is recorded in Cost of products sold. The following summarizes the activity for these restructurings: (*dollars in millions*)

	<b>2013</b>		<b>2012</b>
Accrued balance at December 31, 2012 and 2011	\$ 129	\$ 177	
Restructuring charges	11		
Transfer of liability to AbbVie	(62)		
Payments and other adjustments	(47)	(19)	
Accrued balance at September 30	\$ 31	\$ 158	

Additional charges of \$24 million and \$21 million were recorded in the first nine months of 2013 and 2012, respectively, relating to these restructurings, primarily for accelerated depreciation.

## Notes to Condensed Consolidated Financial Statements

September 30, 2013

(Unaudited), continued

In 2012 and 2010, Abbott management approved restructuring plans primarily related to the acquisition of Solvay Pharmaceuticals. These plans streamline operations, improve efficiencies and reduce costs in certain sites and functions as well as in certain commercial organizations in various countries. The following summarizes the activity for these restructurings: (*dollars in millions*)

	<b>2013</b>		<b>2012</b>	
Accrued balance at December 31, 2012 and 2011	\$	115	\$	108
Restructuring charges				150
Transfer of liability to AbbVie		(115)		
Payments and other adjustments				(108)
Accrued balance at September 30	\$		\$	150

In 2011 and 2008, Abbott management approved plans to streamline global manufacturing operations, reduce overall costs, and improve efficiencies in Abbott's core diagnostic business. The following summarizes the activity for these restructurings: (*dollars in millions*)

	<b>2013</b>		<b>2012</b>	
Accrued balance at December 31, 2012 and 2011	\$	56	\$	79
Payments and other adjustments		(10)		(22)
Accrued balance at September 30	\$	46	\$	57

Additional charges of approximately \$6 million and \$12 million were recorded in the first nine months of 2013 and 2012, respectively, relating to this restructuring, primarily for product transfer costs.

FINANCIAL REVIEWResults of Operations

The following table details sales by reportable segment for the three months and nine months ended September 30. Percent changes are versus the prior year and are based on unrounded numbers.

(dollars in millions)	Net Sales to External Customers							
	Three Months Ended September 30				Nine Months Ended September 30			
	2013	Percent Change	2012	Percent Change	2013	Percent Change	2012	Percent Change
Established Pharmaceutical Products	\$ 1,235	(2.9)	\$ 1,272	(7.3)	\$ 3,685	(2.4)	\$ 3,775	(5.0)
Nutritional Products	1,635	1.9	1,603	4.6	5,038	6.2	4,746	7.0
Diagnostic Products	1,125	8.0	1,042	1.6	3,349	5.9	3,162	3.8
Vascular Products	747	0.6	743	(10.2)	2,240	(3.1)	2,311	(7.8)
Total Reportable Segments	4,742	1.8	4,660	(2.0)	14,312	2.3	13,994	0.2
Other	627	3.6	605	(7.1)	1,881	0.7	1,868	(3.1)
Net Sales	\$ 5,369	2.0	\$ 5,265	(2.6)	\$ 16,193	2.1	\$ 15,862	(0.2)
Total U.S.	\$ 1,587	3.3	\$ 1,536	(3.8)	\$ 4,681	(1.0)	\$ 4,726	1.2
Total International	\$ 3,782	1.4	\$ 3,729	(2.2)	\$ 11,512	3.4	\$ 11,136	(0.8)

The net sales growth for the third quarter and first nine months of 2013 reflects unit growth, partially offset by unfavorable exchange. Excluding 2.3 percent and 1.9 percent of unfavorable exchange for the third quarter and first nine months of 2013, respectively, net sales increased 4.3 percent and 4.0 percent, respectively. The relatively stronger U.S. dollar decreased third quarter 2013 Total International sales by 3.3 percent, decreased Established Pharmaceutical Products segment sales by 3.5 percent, decreased Nutritional Product segment sales by 1.5 percent, decreased Diagnostic Products segment sales by 2.5 percent and decreased Vascular Products segment sales by 1.9 percent over the third quarter of 2012. The relatively stronger U.S. dollar decreased the first nine months 2013 Total International sales by 2.7 percent, decreased Established Pharmaceutical Products segment sales by 3.1 percent, decreased Nutritional Product segment sales by 0.8 percent, decreased Diagnostic Products segment sales by 2.2 percent and decreased Vascular Products segment sales by 1.8 percent over the first nine months of 2012. In addition to unfavorable exchange, the decrease in 2013 and 2012 Vascular Products sales reflects the winding down of royalty and supply agreements related to certain third-party products, including Promus. Excluding this royalty and supply agreement revenue in both periods and the unfavorable effect of exchange, year-to-date Vascular Products sales decreased 0.4 percent in 2013 and increased 4.3 percent in 2012. The decrease in 2013 is due primarily to pricing pressures on drug eluting stents and other coronary products as a result of market competition in major markets, offset by share gains from the sales of new products.

The net sales growth for the third quarter and first nine months of 2012 reflects unit growth, partially offset by unfavorable exchange. Excluding 4.9 percent and 3.8 percent of unfavorable exchange for the third quarter and first nine months of 2012, net sales increased 2.3 percent and 3.6 percent, respectively. The relatively stronger U.S. dollar decreased third quarter 2012 Total International sales by 7.0 percent, decreased Established Pharmaceutical Products segment sales by 9.6 percent, decreased Nutritional Product segment sales by 1.8 percent, decreased Diagnostic Products segment sales by 5.0 percent and decreased Vascular Products segment sales by 3.9 percent over the third quarter of 2011. The relatively stronger U.S. dollar decreased the first nine months 2012 Total International sales by 5.4 percent, decreased Established Pharmaceutical Products segment sales by 7.7 percent, decreased Nutritional Product segment sales by 1.4 percent, decreased Diagnostic Products segment sales by 3.8 percent and decreased Vascular Products segment sales by 2.6 percent over the first nine months of 2011.

## FINANCIAL REVIEW

(continued)

A comparison of significant product group sales for the nine months ended September 30 is as follows. Percent changes are versus the prior year and are based on unrounded numbers.

(dollars in millions)	2013	Percent Change	2012	Percent Change
<b>Established Pharmaceutical Products sales</b>				
Key Emerging Markets	\$ 1,747	1	\$ 1,729	4
Other Markets	1,938	(5)	2,046	(11)
<b>Nutritionals</b>				
U.S. Pediatric Nutritionals	1,127		1,122	16
International Pediatric Nutritionals	1,708	14	1,496	5
U.S. Adult Nutritionals	1,030		1,032	4
International Adult Nutritionals	1,173	7	1,096	4
<b>Diagnostics</b>				
Immunochemistry	2,549	5	2,429	4
<b>Vascular Products (1)</b>				
Drug Eluting Stents (DES) and Bioresorbable Vascular Scaffold (BVS) products	1,160	(3)	1,199	3
Other Coronary products	430	(4)	448	(1)
Endovascular	351	4	338	

(1) Other Coronary Products include primarily guidewires and balloon catheters. Endovascular includes vessel closure, carotid stents and other peripheral products.

The Established Pharmaceutical Products segment is focused on 14 key emerging markets including India, Russia, China and Brazil. Sales in Other Markets in the Established Pharmaceutical Products segment decreased in 2013 and 2012 due primarily to price declines from the continued effect of European austerity measures, the impact of 2012 price reductions in Japan, and unfavorable exchange. U.S. Pediatric sales were flat in 2013 due to lower formula share in the Supplemental Nutrition Program for Women, Infants and Children (WIC) segment, partially offset by higher shipments of toddler products. In 2012, U.S. Pediatric Nutritional sales reflect market share gains for *Similac*, including the recovery from the September 2010 voluntary recall as well as unit growth for Pediatric Nutritionals. International Pediatric Nutritionals sales increased in 2013 and 2012 due primarily to volume growth in developing countries. In the third quarter of 2013, International Pediatric Nutritional sales were negatively impacted by a supplier recall in early August in certain international markets of pediatric nutritional products. While there were no health issues associated with this supplier recall and the supplier subsequently determined that the products had been safe for consumption, this event created significant disruption in these markets. Abbott expects this sales disruption to continue to negatively impact International Pediatric Nutritional growth in the fourth quarter of 2013 and the first half of 2014. U.S. Adult Nutritional sales in 2013 were negatively impacted by the exit from certain non-core business lines as part of the business margin improvement initiative. In the Vascular Products segment, decreased sales of DES and Other Coronary products in 2013 reflect pricing pressure as a result of market competition in major markets and the negative effect of the stronger U.S. dollar.

## Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

The gross profit margin was 50.7 percent for the third quarter 2013 compared to 49.0 percent for the third quarter 2012. First nine months 2013 gross profit margin was 50.5 percent compared to 50.7 percent in the first nine months 2012. The third quarter and first nine months 2013 gross margins reflect improved gross margins in the nutritional and diagnostics segments. During the first nine months of 2013 this was partially offset by pricing pressure in certain developed markets, the negative effect of exchange and costs associated with various restructuring programs.

Research and development expenses increased 1.8 percent in the third quarter 2013 and decreased 1.7 percent for the first nine months 2013 due primarily to the timing of expenditures. For the first nine months ended September 30, 2013, research and development expenditures totaled \$251 million for the Vascular Products segment, \$301 million for the Diagnostics Products segment, \$171 million for the Established Pharmaceutical Products segment and \$136 million for the Nutritional Products segment.

## FINANCIAL REVIEW

(continued)

Selling, general and administrative expenses for the third quarter and first nine months 2013 decreased 9.7 percent and 6.1 percent, respectively, due primarily to the inclusion in 2012 of certain corporate costs that transferred to AbbVie in the separation and certain costs that are being charged to AbbVie under transitional services agreements in 2013, as well as expense control initiatives across all of Abbott's businesses.

### Business Combinations

In August 2013, Abbott acquired 100 percent of IDEV Technologies, net of debt, for \$310 million, in cash. The acquisition of IDEV Technologies expands Abbott's endovascular portfolio. The preliminary allocation of the fair value of the acquisition resulted in non-deductible acquired in-process research and development of approximately \$200 million which is accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation, non-deductible definite-lived intangible assets of approximately \$90 million, non-deductible goodwill of approximately \$90 million and net deferred tax liabilities of \$80 million. Acquired intangible assets consist of developed technology and are being amortized over 11 years.

In August 2013, Abbott acquired 100 percent of OptiMedica for \$260 million, in cash, plus additional payments up to \$150 million to be made upon completion of certain development, regulatory and sales milestones. The acquisition of OptiMedica provides Abbott with an immediate entry point into the laser assisted cataract surgery market. The preliminary allocation of the fair value of the acquisition resulted in non-deductible definite-lived intangible assets of approximately \$165 million, non-deductible acquired in-process research and development of approximately \$60 million which is accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation, non-deductible goodwill of approximately \$145 million, net deferred tax liabilities of \$70 million and contingent consideration of approximately \$60 million. The fair value of the contingent consideration was determined based on an independent appraisal. Acquired intangible assets consist of developed technology and are being amortized over 18 years.

The preliminary allocations of the fair value of these acquisitions will be finalized when the appraisals are completed. Had the above acquisitions taken place on January 1 of the previous year, consolidated net sales and income would not have been significantly different from reported amounts.

### Restructuring Plans

In the third quarter of 2013, Abbott management approved a plan to streamline certain manufacturing operations in order to reduce costs and improve efficiencies in Abbott's established pharmaceutical business. In addition, in the third quarter of 2012, Abbott management approved plans to streamline various commercial operations in order to reduce costs and improve efficiencies in Abbott's core diagnostics, established pharmaceutical and nutritional businesses. Abbott recorded employee related severance charges of approximately \$19 million and \$167 million in 2013 and 2012, respectively. Additional charges of approximately \$4 million and \$22 million were also recorded in 2013 and 2012, respectively, primarily for asset impairments. Approximately \$23 million in 2013 and \$70 million in 2012 is recorded in Cost of products sold and approximately \$119 million as Selling, general and administrative expense in 2012. Through December 31, 2012, no significant cash payments were made relating to the 2012 action. The following summarizes the activity for these restructurings: (*dollars in millions*)

	2013	
Restructuring charges recorded in 2012	\$	167
Restructuring charges		19
Payments and other adjustments		(77)
Accrued balance at September 30	\$	109

In 2013 and prior years, Abbott management approved plans to realign its worldwide pharmaceutical and vascular manufacturing operations and selected domestic and international commercial and research and development operations in order to reduce costs. In 2013, Abbott recorded employee related severance charges of approximately \$11 million. Additional charges of approximately \$12 million were also recorded in 2013 primarily for accelerated depreciation. Approximately \$23 million in 2013 is recorded in Cost of products sold. The following summarizes the activity for these restructurings: (*dollars in millions*)

	2013		2012	
Accrued balance at December 31, 2012 and 2011	\$	129	\$	177
Restructuring charges		11		
Transfer of liability to AbbVie		(62)		
Payments and other adjustments		(47)		(19)
Accrued balance at September 30	\$	31	\$	158

## FINANCIAL REVIEW

(continued)

Additional charges of \$24 million and \$21 million were recorded in the first nine months of 2013 and 2012, respectively, relating to these restructurings, primarily for accelerated depreciation.

In 2012 and 2010, Abbott management approved restructuring plans primarily related to the acquisition of Solvay Pharmaceuticals. These plans streamline operations, improve efficiencies and reduce costs in certain sites and functions as well as in certain commercial organizations in various countries. The following summarizes the activity for these restructurings: *(dollars in millions)*

	2013	2012
Accrued balance at December 31, 2012 and 2011	\$ 115	\$ 108
Restructuring charges		150
Transfer of liability to AbbVie	(115)	
Payments and other adjustments		(108)
Accrued balance at September 30	\$	\$ 150

In 2011 and 2008, Abbott management approved plans to streamline global manufacturing operations, reduce overall costs, and improve efficiencies in Abbott's core diagnostic business. The following summarizes the activity for these restructurings: *(dollars in millions)*

	2013	2012
Accrued balance at December 31, 2012 and 2011	\$ 56	\$ 79
Payments and other adjustments	(10)	(22)
Accrued balance at September 30	\$ 46	\$ 57

Additional charges of approximately \$6 million and \$12 million were recorded in the first nine months of 2013 and 2012, respectively, relating to this restructuring, primarily for product transfer costs.

### Interest Expense (Income)

Interest expense decreased in the third quarter and first nine months of 2013 compared to 2012 due to a lower level of borrowings.

### Other (Income) Expense, net

## Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Other (income) expense, net, in the third quarter of 2013 primarily relates to gains from the sales of equity securities.

### Taxes on Earnings

Taxes on earnings reflect the estimated annual effective rates and include charges for interest and penalties. In the third quarter of 2013, taxes on earnings reflect the recognition of \$241 million of tax benefits in continuing operations as the result of the favorable resolution of various tax positions pertaining to prior years. 2013 Earnings from Discontinued Operations, net of tax, reflect the recognition of \$193 million of tax benefits as a result of the favorable resolution of various tax positions related to AbbVie's operations prior to separation. The conclusion of these tax matters decreased the gross amount of unrecognized tax benefits by approximately \$560 million. In addition, as a result of the American Taxpayer Relief Act of 2012 signed into law in January 2013, Abbott recorded a tax benefit to taxes on continuing operations of approximately \$103 million in the first quarter of 2013 for the retroactive extension of the research tax credit and the look-through rules of section 954(c)(6) of the Internal Revenue Code to the beginning of 2012. Taxes on earnings on continuing operations in 2012 reflect the recognition of \$196 million of tax benefits in the third quarter as a result of the favorable resolution of various tax positions pertaining to a prior year.

Exclusive of these discrete items, the effective tax rates are less than the statutory U.S. federal income tax rate principally due to the benefit of lower statutory tax rates and tax exemptions in several foreign taxing jurisdictions. Tax authorities in various jurisdictions regularly review Abbott's income tax filings. Abbott believes that it is reasonably possible that the recorded amount of gross unrecognized tax benefits may decrease by \$400 million to \$450 million, including cash adjustments, within the next twelve months as a result of concluding various domestic and international tax matters.

## FINANCIAL REVIEW

(continued)

Separation of AbbVie Inc.

On November 28, 2012, Abbott's board of directors declared a special dividend distribution of all of the outstanding shares of common stock of AbbVie Inc. (AbbVie), the company formed to hold Abbott's research-based proprietary pharmaceuticals business. For each Abbott common share held at the close of business on December 12, 2012, Abbott shareholders received one share of AbbVie stock on January 1, 2013. Abbott has received a ruling from the Internal Revenue Service that the separation qualifies as a tax-free distribution to Abbott and its U.S. shareholders for U.S. federal income tax purposes.

The historical results of operations of the research-based proprietary pharmaceuticals business have been presented as discontinued operations in the Condensed Consolidated Statement of Earnings. Discontinued operations include the results of AbbVie's business except for certain corporate overhead costs and certain costs associated with transition services that will be provided by Abbott to AbbVie. Discontinued operations also includes other costs incurred by Abbott to separate AbbVie as well as an allocation of interest assuming a uniform ratio of consolidated debt to equity for all of Abbott's historical operations. Prior-year balance sheets and statements of cash flows have not been adjusted to reflect the effect of the separation.

The following is a summary of the assets and liabilities transferred to AbbVie as part of the separation on January 1, 2013. The summary has been revised to appropriately reduce the amount of long-term deferred tax assets transferred to AbbVie and the corresponding distribution from equity by approximately \$580 million: *(dollars in billions)*

Assets:		
Cash and cash equivalents	\$	5.9
Investments		2.2
Trade receivables, less allowances		3.2
Inventories		0.7
Prepaid expenses, deferred income taxes, and other current receivables		2.9
Net property and equipment		2.2
Intangible assets, net of amortization		2.3
Goodwill		6.1
Deferred income taxes and other assets		1.0
		26.5
Liabilities:		
Short-term borrowings		1.0
Trade accounts payable and other current liabilities		5.1
Long-term debt		14.6
Post-employment obligations, deferred income taxes and other long-term liabilities		3.1
		23.8
Net Assets Transferred to AbbVie Inc.	\$	2.7

In addition, approximately \$1.1 billion of accumulated other comprehensive losses, net of income taxes, primarily related to the pension and other benefit plan net liabilities as well as foreign translation was transferred to AbbVie.

# Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

In the third quarter 2013, discontinued operations includes a favorable adjustment to tax expense of \$193 million as a result of the resolution of various tax positions related to AbbVie's operations prior to separation. Summarized financial information for discontinued operations for 2012 is as follows: *(dollars in millions)*

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>September 30 2012</b>		<b>September 30 2012</b>	
Net sales	\$	4,508	\$	13,175
Earnings before taxes		1,641		4,164
Taxes on earnings		37		355
Net earnings		1,604		3,809

## FINANCIAL REVIEW

(continued)

Abbott and AbbVie entered into transitional services agreements prior to the separation pursuant to which Abbott and AbbVie are providing to each other, on an interim transitional basis, various services. Transition services may be provided for up to 24 months with an option for a one-year extension by the recipient. Services being provided by Abbott include certain information technology and back office support. Billings by Abbott under these transitional services agreements are recorded as a reduction of the costs to provide the respective service in the applicable expense category in the Condensed Consolidated Statement of Earnings. This transitional support will enable AbbVie to establish its stand-alone processes for various activities that were previously provided by Abbott and does not constitute significant continuing support of AbbVie's operations.

For a small portion of AbbVie's operations, the legal transfer of AbbVie's assets (net of liabilities) did not occur with the separation of AbbVie on January 1, 2013 due to the time required to transfer marketing authorizations and other regulatory requirements in each of these countries. Under the terms of the separation agreement with Abbott, AbbVie is subject to the risks and entitled to the benefits generated by these operations and assets. The majority of these operations are expected to be transferred to AbbVie in 2013 with the remainder transferring in 2014. These assets and liabilities have been presented as held for disposition in the Condensed Consolidated Balance Sheet. At September 30, 2013, the assets and liabilities held for disposition consist of inventories of \$173 million, trade accounts receivable of \$338 million, equipment of \$31 million, other assets of \$74 million, trade accounts payable of \$286 million and other liabilities of \$69 million. Abbott's obligation to transfer the net assets held for disposition to AbbVie of \$261 million is included in Other accrued liabilities.

Abbott has retained all liabilities for all U.S. federal and foreign income taxes on income prior to the separation, as well as certain non-income taxes attributable to AbbVie's business. AbbVie generally will be liable for all other taxes attributable to its business. In connection with the separation, Abbott has adjusted its employee stock compensation awards and separated its defined benefit programs for pensions and post-employment medical and dental benefit plans. See notes 7 and 9 for additional information.

### Liquidity and Capital Resources September 30, 2013 Compared with December 31, 2012

The reduction of cash and cash equivalents from \$10.8 billion at December 31, 2012 to \$2.9 billion at September 30, 2013 reflects the transfer of \$5.9 billion of cash and cash equivalents to AbbVie as part of the separation on January 1, 2013 and the investment of cash and cash equivalents in short-term instruments.

Net cash from operating activities for the first nine months 2013 totaled approximately \$1.7 billion. The (\$1.583) billion in the Other, net category in net cash from operating activities reflects approximately \$435 million of one-time net cash outflows related to the separation of AbbVie, the noncash impact of \$433 million for the favorable resolution of various tax positions pertaining to prior years, the first quarter noncash impact of the \$103 million tax benefit for the retroactive impact of U.S. tax law changes due to the timing of tax filings, and the effects of \$680 million of contributions to defined benefit plans. Other, net in Net cash from operating activities for 2012 includes payments of approximately \$800 million to settle certain government investigations related to AbbVie's business operations. In addition, Other, net in Net cash from operating activities for 2012 includes the effects of contributions to defined benefit plans of \$360 million. These items were offset by increases in Other accrued liabilities primarily related to cost reduction initiatives and the timing of various payments. Abbott expects annual cash flow from operating activities to continue to exceed Abbott's capital expenditures and cash dividends.

## Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Working capital was \$8.4 billion at September 30, 2013 and \$18.0 billion at December 31, 2012. The decrease in working capital in 2013 is due primarily to the separation of AbbVie from Abbott on January 1, 2013.

Substantially all of Abbott's trade receivables in Italy, Spain, Portugal, and Greece are with governmental health systems. Outstanding net governmental receivables in these countries at September 30, 2013 were: (*dollars in millions*)

	<b>Net Receivables</b>	<b>Percentage Over One Year Past Due</b>
Italy	\$ 227	17.2
Spain	162	19.8
Portugal	46	37.3
Greece	27	30.7

Abbott closely monitors economic conditions and budgetary and other fiscal developments in these countries. Abbott regularly communicates with its customers regarding the status of receivable balances, including their payment plans and obtains positive confirmation of the validity of the receivables. Abbott also monitors the potential for and periodically has utilized factoring arrangements to mitigate risk although such arrangements were not material in the first nine months of 2013.

## FINANCIAL REVIEW

(continued)

At September 30, 2013, Abbott's long-term debt rating was A+ by Standard & Poor's Corporation and A1 by Moody's Investors Service. Abbott has readily available financial resources, including unused lines of credit of \$5.0 billion that support commercial paper borrowing arrangements which expire in 2017.

In October 2008, the board of directors authorized the purchase of up to \$5 billion of Abbott's common shares from time to time and 32.9 million and 27.2 million shares were purchased in the first nine months of 2013 and 2012, respectively, under this authorization at a cost of approximately \$1.2 billion and \$1.6 billion, respectively. Effective in the second quarter 2013, no additional purchases of common shares will be made from this authorization. On June 14, 2013, the board of directors authorized the purchase of up to \$3.0 billion of Abbott's common shares from time to time and 9.5 million shares were purchased in the third quarter under this authorization at a cost of \$350 million.

In the first three quarters of 2013, Abbott declared a dividend of \$0.14 per share each quarter on its common shares. The change in the dividend compared to 2012 reflects the impact of the separation of AbbVie. In addition, Abbott announced in October 2013 an increase in the company's quarterly dividend to \$0.22 per share, representing an increase of 57 percent. The increase will take effect with the dividend to be paid on February 15, 2014 to shareholders of record at the close of business on January 15, 2014.

### Legislative Issues

In 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively referred to herein as health care reform legislation) were signed into law in the U.S. Beginning in 2013, Abbott started recording a 2.3 percent excise tax imposed by health care reform legislation on the sale of certain medical devices in the U.S.

Abbott's primary markets are highly competitive and subject to substantial government regulations throughout the world. Abbott expects debate to continue over the availability, method of delivery, and payment for health care products and services. It is not possible to predict the extent to which Abbott or the health care industry in general might be adversely affected by these factors in the future. A more complete discussion of these factors is contained in Item 1, Business, and Item 1A, Risk Factors, in the 2012 Annual Report on Form 10-K/A.

### Private Securities Litigation Reform Act of 1995 – A Caution Concerning Forward-Looking Statements

Under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, Abbott cautions investors that any forward-looking statements or projections made by Abbott, including those made in this document, are subject to risks and uncertainties that may cause actual results to differ materially from those projected. Economic, competitive, governmental, technological and other factors that may affect Abbott's operations are discussed in Item 1A, Risk Factors, in the 2012 Annual Report on Form 10-K/A.

PART I. FINANCIAL INFORMATION

Item 4. Controls and Procedures

(a) *Evaluation of disclosure controls and procedures.* The Chief Executive Officer, Miles D. White, and Chief Financial Officer, Thomas C. Freyman, evaluated the effectiveness of Abbott Laboratories' disclosure controls and procedures as of the end of the period covered by this report, and concluded that Abbott Laboratories' disclosure controls and procedures were effective to ensure that information Abbott is required to disclose in the reports that it files or submits with the Securities and Exchange Commission (the "Commission") under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms, and to ensure that information required to be disclosed by Abbott in the reports that it files or submits under the Exchange Act is accumulated and communicated to Abbott's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) *Changes in internal control over financial reporting.* During the quarter ended September 30, 2013, there were no changes in Abbott's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, Abbott's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Abbott is involved in various claims, legal proceedings and investigations, including (as of September 30, 2013, except where noted below) those described below. While it is not feasible to predict the outcome of such pending claims, proceedings and investigations with certainty, management is of the opinion that their ultimate resolution should not have a material adverse effect on Abbott's financial position, cash flows, or results of operations.

In its 2012 Annual Report on Form 10-K/A and Form 10-Q for the quarter ended June 30, 2013, Abbott reported that Cordis Corporation and Wyeth sued Abbott in the United States District Court for the District of New Jersey alleging that the Xience V stent infringes certain of their patents, and that in June 2013, the appeals court affirmed the district court's order invalidating the patents. On October 11, 2013, the appeals court denied Cordis and Wyeth's petition for rehearing or rehearing en banc.

Item 2.                    Unregistered Sales of Equity Securities and Use of Proceeds

(c) *Issuer Purchases of Equity Securities*

July 1, 2013	July 31, 2013	7,040,944(1)	\$	36.676	7,000,000	\$	2,743,250,000(2)
September 1, 2013	September 30, 2013	44,039(1)	\$	34.829	0	\$	2,650,000,001(2)

(1)                    These shares include:

(i)                    the shares deemed surrendered to Abbott to pay the exercise price in connection with the exercise of employee stock options    40,944 in July, 45,153 in August, and 10,809 in September; and

(ii)                    the shares purchased on the open market for the benefit of participants in the Abbott Laboratories, Limited Employee Stock Purchase Plan - 0 in July, 33,230 in August, and 33,230 in September.

These shares do not include the shares surrendered to Abbott to satisfy tax withholding obligations in connection with the vesting of restricted stock or restricted stock units.

(2)                    On June 14, 2013, Abbott announced that its board of directors approved the purchase of up to \$3 billion of its common shares, from time to time.
