Item 1.01 Entry into a Material Definitive Agreement.

On April 5, 2005, Geron Corporation ("the Company") and Exeter Life Sciences, an Arizona corporation ("Exeter"), entered into a Formation and Shareholders Agreement (the "FSA") and Contribution and License Agreement (the "CLA") to establish a joint venture called stART Licensing, Inc. ("stART"). The

Company and Exeter own 49.9% and 50.1% of stART, respectively. stART will manage and license a broad portfolio of intellectual property rights related to animal reproductive technologies.

Pursuant to the CLA, the Company granted a worldwide, exclusive, non-transferable license, with the right to sublicense, to its patent rights to nuclear transfer technology for use in animal cloning. These patent rights include patents originally licensed from the Roslin Institute in Edinburgh, Scotland in conjunction with Geron's 1999 acquisition of Roslin BioMed, as well as patents covering technology arising from subsequent animal cloning work that the Company funded at the Roslin Institute. Geron has retained all rights to nuclear transfer technology for use in human cells. Exeter granted a worldwide, exclusive, non-transferable license, with the right to sublicense, to its patent rights for the use of the Roslin nuclear transfer technology for the production of proteins in milk of animals, as well as rights to other cloning technologies, including chromatin transfer, a technology developed at the University of Massachusetts.

Pursuant to the FSA, Exeter will provide initial operating capital and other management services for stART. Exeter will make an initial capital contribution, of which an amount is immediately payable and the remainder will be provided from time to time, but in any event within 24 months following the execution of the FSA. Geron has no financial obligations to provide operating capital to stART and received an upfront payment in cash of \$4.0 million from stART upon the execution of the FSA. Geron is also entitled to receive payments upon achievement of certain future milestones.

The Board of Directors of stART initially shall comprise five members, three of whom (including the Chairman) shall be nominated by Exeter and two of whom shall be nominated by Geron. A supermajority approval is necessary to execute certain actions.
