The accompanying notes are an integral part of the financial statements.

ADVANT-E CORPORATION AND SUBSIDIARY
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (Unaudited)**Note 1: Basis of Presentation**

The accompanying unaudited consolidated financial statements include the accounts of Advant-e Corporation and its wholly-owned subsidiary Edict Systems, Inc. (the Company).

The statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and the instructions to Form 10-QSB. Accordingly, they do not include all of the information and notes to financial statements required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, the unaudited consolidated financial statements include all adjustments considered necessary for a fair presentation of financial position, results of operations, and cash flows for the interim periods.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Results of operations for the three months ended March 31, 2004 are not necessarily indicative of the results to be expected for the full year ending December 31, 2004. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements, accounting policies, and financial notes thereto included in Advant-e Corporation's 2003 Form 10-KSB filed with the Securities and Exchange Commission.

Note 2: Software Development Costs

Software development costs at March 31, 2004 and the changes during the three months then ended are summarized as follows:

| | <u>Cost</u> | <u>Accumulated Amortization</u> | <u>Net</u> |
|--------------------------|---------------------|-------------------------------------|----------------|
| Balance, January 1, 2004 | \$ 1,067,297 | 585,619 | 481,678 |
| Additions | 43,359 | | 43,359 |
| Amortization | | 80,252 | (80,252) |
| Balance, March 31, 2004 | <u>\$ 1,110,656</u> | <u>665,871</u> | <u>444,785</u> |

Edgar Filing: ADVANT E CORP - Form 10QSB

The unamortized costs relate exclusively to internal use software and costs associated with web site development and related enhancements.

The ongoing assessment of recoverability of capitalized software development costs requires considerable judgment by management with respect to certain external factors, including, but not limited to, anticipated future revenues, estimated economic life and changes in software and hardware technologies. Impairment of asset value is considered whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Note 3: Income taxes

Income tax expense for the three months ended March 31, 2004 and income tax benefit for the three months ended March 31, 2003 consist solely of deferred taxes. The current tax expense for the three months ended March 31, 2004 of \$77,100 was offset by the benefit from a net operating loss carryforward.

The following is a reconciliation of the income tax expense (benefit) to the amount computed at the statutory rate of 34%:

| | Three Months Ended | |
|--|--------------------|-----------------|
| | March 31, | |
| | 2004 | 2003 |
| Income taxes (benefit) at statutory rate | \$ 64,500 | (27,823) |
| State income taxes | 10,900 | (4,910) |
| Amount attributable to lower graduated rates expected to apply when tax benefits are expected to be realized | | 13,317 |
| Non-deductible interest on debt discount amortization | | 7,409 |
| Federal income tax expense (benefit) applicable to income (loss) before income tax | \$ 75,400 | (12,007) |

Management has not recognized a valuation allowance for the net deferred tax assets because it believes that it is more likely than not that future taxable income will result in realization of such assets. This amount, however, could be reduced in the near term if estimates of future taxable income during the net operating loss carryforward period are reduced. The Company's net operating loss carryforwards of approximately \$611,000 begin to expire in 2020.

Note 4: Earnings (loss) per share

The reconciliation of the numerators and denominators of the basic and diluted earnings per share calculations for the three months ended March 31, 2004 and 2003 follows:

| | Income | Shares | Per Share |
|---|-------------|---------------|-----------|
| | (Numerator) | (Denominator) | Amount |
| Three months ended March 31, 2004 | | | |
| Basic earnings per share: | | | |
| Net income available to common shareholders | \$ 114,241 | 6,244,917 | \$ 0.02 |
| Effect of dilutive securities: | | | |
| Outstanding warrants | | 281,719 | |
| Convertible subordinated notes | 200 | 15,550 | |

Edgar Filing: ADVANT E CORP - Form 10QSB

| | | | |
|--|-------------|-----------|-----------|
| Diluted earnings per share: | | | |
| Net income available to common shareholders plus assumed exercise and conversion | 114,441 | 6,542,186 | 0.02 |
| <u>Three months ended March 31, 2003</u> | | | |
| Basic earnings (loss) per share: | | | |
| Net loss available to common shareholders | (69,824) | 5,661,002 | (0.01) |
| Effect of dilutive securities: | | | |
| Outstanding warrants | | | |
| Convertible subordinated notes | | | |
| Diluted earnings (loss) per share: | | | |
| Loss available to common shareholders plus assumed exercise and conversion | \$ (69,824) | 5,661,002 | \$ (0.01) |

In the three-month period ended March 31, 2003 the effects of the outstanding warrants and the assumed conversion of the convertible subordinated notes are antidilutive.

The Company has outstanding warrants for the issuance of 750,000 shares of the Company's common stock at \$1.205 per common share; for the issuance of 250,000 shares at \$1.25 per common share; and for the issuance of 20,000 shares at \$1.48 per common share. The warrants are exercisable as follows: 925,000 warrants between September 27, 2005 and December 13, 2005, 20,000 warrants through June 25, 2006, and 75,000 warrants through December 5, 2006.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Form 10-QSB contains forward-looking statements, including statements regarding the expectations of future operations. For this purpose, any statements contained in this Form 10-QSB that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, words such as may, will, expect, believe, anticipate, estimate, or continue or comparable terminology are intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties, and actual results may differ materially depending on a variety of factors, many of which are not within the Company's control. These factors include, but are not limited to, economic conditions generally and in the industries in which the Company may participate, competition within the chosen industry, including competition from much larger competitors, technological advances, and the failure to successfully develop business relationships. In light of these risks and uncertainties, you are cautioned not to place undue reliance on these forward looking statements. The Company acknowledges that the safe harbor contained in the Litigation Reform Act of 1995 is not applicable to the disclosure in this Form 10-QSB.

This item should be read in conjunction with Item 1. Financial Statements and other items contained elsewhere in this report.

Products and services

The Company, through its wholly owned subsidiary Edict Systems, Inc., is a provider of business-to-business (B2B) electronic commerce (e-commerce) products and services, offering EDI-based and proprietary solutions for businesses of all sizes. The Company develops, markets, and supports B2B e-commerce software products and provides Internet-based communication and data processing services that enable businesses to process transactions electronically.

The Company s software products enable businesses to integrate e-commerce data into their businesses and enable smaller companies to process electronic transactions.

The Company provides consultative services for its customers, generally small and medium sized suppliers of larger companies, where the Company interfaces between its customers and the buyers to facilitate the EDI connectivity required for document processing.

The following comprise the Company s four principal business products/services:

Web EDI Internet-based supply chain solution for the grocery and other industries

EnterpriseEC Internet-based Electronic Business Transaction Network Services

Formula_One EDI software and Bar Code Label Module software

Value-Added Applications Internet-based solutions that enhance the value of electronic commerce capabilities

Critical Accounting Estimates and Policies

Revenue recognition for Web-EDI and EnterpriseEC subscription fees

The Company recognizes monthly subscription fees of \$25 per month per customer (\$45 if the Customer does not pay by credit card) and \$5 per month per trading partner the customer connects to (up to 5 partners) upon the completion of one month of services. These fees are non-refundable. The Company recognizes transaction fees (document processing fees) upon completion of the processed transactions; these transactions are invoiced or charged to a customer s credit card once per month at the end of a monthly period. These fees are non-refundable and are only billed after services are provided.

The Company recognizes as revenues one-time Account Activation Fees (\$100 per new customer), Trading Partner Setup Fees (\$50 per partner for web-EDI) and Interconnect Setup Fees (\$50 per interconnect) after the Company performs consultative work required in order to establish the electronic trading partnership between the customer and their desired trading partner. The Company s EDI administration, technical support and systems maintenance personnel provide these consultative services that enable the Company s customers (suppliers) and their trading partners (usually buying organizations of large companies or hubs) to conduct EDI transactions as requested by the hub by interfacing with the

Edgar Filing: ADVANT E CORP - Form 10QSB

hub on behalf of the Company's customers. Because each hub has established processes in place to migrate a non-EDI supplier to an EDI-enabled supplier, and because these procedures vary among the hubs, the Company acts as a liaison between its customers and the hub to establish this EDI connection. Since most of the Company's customers are small to medium-sized companies, they recognize that the Company has the resources and expertise to establish this connection for them. This trading partner connection and relationship, once established, is portable to other EDI service providers if the customer chooses to do so.

Time periods of these web-EDI agreements can be cancelled at any time by customers with 30-days prior written notice. EnterpriseEC agreements can be cancelled at any time during the first year with 90-days prior written notice and in subsequent years with 30-days prior written notice.

Software Development Costs

The Company capitalizes software development costs and amortizes those costs over a three-year estimated economic life of the software applications. Internet technology can change and does change quickly. As a result, any or all of our products could have an economic life of less than (or more than) three years. In addition, our products could become economically obsolete if we cannot sell the products in the marketplace at a margin that is adequate to produce cash flow. We review quarterly the economic lives of our capitalized products, expected cash flow, and profitability of our products. Capitalized software costs are reported at the lower of unamortized cost or net realizable value.

Deferred Income Taxes

Deferred income taxes are provided to recognize future tax benefits of net operating loss carry forwards, to the extent realization of such benefits is more likely than not. Deferred income taxes are also provided for temporary differences in recognition of assets and liabilities for financial statements and for income tax purposes. The tax rates used are those expected to be in effect when the temporary differences reverse.

Results of Operations First Quarter of 2004 Compared to First Quarter of 2003

The Company's improved results of operations in the first quarter of 2004 (Q1 2004) compared to the same quarter of 2003 (Q1 2003) resulted primarily from increased revenues related to the growth and market acceptance of the Company's internet-based electronic commerce subscription services, primarily GroceryEC.

The following table sets forth certain condensed consolidated statements of operations data as a percentage of revenues for the quarterly periods ended March 31, 2004 and 2003, respectively:

| | Quarter Ended | |
|--|----------------------|-------------|
| | March 31, | |
| | 2004 | 2003 |
| | — | — |
| Revenues | 100% | 100% |
| Cost of revenues | 35 | 47 |
| | — | — |
| Gross margin | 65 | 53 |
| Marketing, general and administrative expenses | 42 | 57 |
| | — | — |
| Operating income (loss) | 23% | (4)% |

The Company's gross margin improved primarily because revenues increased by \$189,257, or 29.1%. Marketing, general and administrative expenses declined as a percent of sales due to the increased revenues; however, marketing general and

Edgar Filing: ADVANT E CORP - Form 10QSB

administrative expenses also declined in absolute dollars, from \$374,111 in the first quarter of 2003 to \$352,597 in the first quarter of 2004. This 5.7% decrease in expenses resulted from the Company's continued emphasis on cost containment and control.

The following table sets forth a breakdown of revenues by product and percentage growth for the quarterly periods ended March 31, 2004 and 2003, respectively:

| | Quarter Ended March 31, | | |
|---------------------------------------|-------------------------|---------|---------------------|
| | 2004 | 2003 | Growth (Decline) |
| Internet products and services | | | |
| Web-EDI GroceryEC | \$ 703,419 | 556,033 | 27% |
| Web-EDI other | 28,209 | 20,398 | 38% |
| EnterpriseEC | 65,220 | 33,512 | 95% |
| | 796,848 | 609,944 | 31% |
| Software and software licenses | 41,787 | 39,434 | 6% |
| | \$ 838,635 | 649,378 | 29% |

Revenues grew substantially across all Internet products and services in the first quarter of 2004 compared to the first quarter of 2003. Web-EDI for the grocery industry continues to provide the largest source of revenue for the Company. The Company is a leading provider of web-based B2B e-commerce in the grocery industry with its GroceryEC service.

The Company is currently strengthening its sales and marketing capabilities through the addition of new sales people. This strengthening has a three-fold objective of increasing market share in the grocery industry, identifying and improving the marketing of Web-EDI services to companies in other industries and increasing revenues from EnterpriseEC services. The Company expects to benefit from the addition of the sales people in the third and fourth quarters of 2004.

Interest expense

Interest expense in the first quarter of 2004 declined dramatically compared to the first quarter of 2003. The following table presents a breakdown of interest expense for the quarterly periods ended March 31, 2004 and 2003, respectively:

| | Quarter Ended March 31, | | |
|--|-------------------------|------|------------------------|
| | 2004 | 2003 | Increase (Decrease) |

Edgar Filing: ADVANT E CORP - Form 10QSB

| | | | |
|-------------------------------------|-------------------|-------------------|-------------------|
| Convertible Subordinated Notes | \$ 333 | 50,589 | (50,256) |
| Demand notes payable to shareholder | 620 | 900 | (280) |
| Bank note and other | 1,227 | 1,797 | (570) |
| | <u> </u> | <u> </u> | <u> </u> |
| Total | \$ 2,180 | 53,286 | (51,106) |
| | <u> </u> | <u> </u> | <u> </u> |

In the first quarter of 2004 the Company paid in full the principal and accrued interest on all notes payable that were outstanding at December 31, 2003, including a Convertible Subordinated Note, a note payable to bank and the demand note payable to the Company's major shareholder.

Capitalized Development Costs

The following table sets forth the cost and accumulated amortization of the products comprising the Software Development Costs asset at March 31, 2004:

| Product | Cost | Accumulated | |
|----------------------|---------------------|----------------|----------------|
| | | Amortization | Net |
| GroceryEC (Web EDI) | \$ 428,260 | 360,612 | 67,648 |
| Web EDI enhancements | 211,735 | 50,318 | 161,417 |
| EnterpriseEC | 470,661 | 254,941 | 215,720 |
| Total | \$ 1,110,656 | 665,871 | 444,785 |

GroceryEC (WebEDI) is the Company's largest and primary source of revenue. Sales of EnterpriseEC continue to grow in 2004, up 95% from Q1 2003. Based on our current marketplace analysis and marketing efforts we expect EnterpriseEC product revenues and cash flows to continue to increase.

Liquidity and Capital Resources

In the quarter ended March 31, 2004 the Company reported net cash provided by operating activities of \$266,182. The Company paid in full all its remaining notes payable in the aggregate principal amount of \$94,965 and all accrued interest. At March 31, 2004 the Company shows improved liquidity, evidenced by cash of \$336,934, net working capital of \$591,033, and notes payable of zero. In addition, total shareholders equity at March 31, 2004 is \$991,561

ITEM 3. CONTROLS AND PROCEDURES

Disclosure controls and procedures. The Chief Executive Officer and the Director of Accounting have carried out an evaluation of the effectiveness of Advant-e's disclosure controls and procedures that are designed to ensure that information relating to Advant-e required to be disclosed by Advant-e in the reports that it files or submits under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Based upon this evaluation, these officers have concluded, that as of March 31, 2004, Advant-e's disclosure controls and procedures were adequate.

Changes in internal control over financial reporting. During the period covered by this report, there were no changes in Advant-e's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, Advant-e's internal control over

financial reporting.
