(Former name or former address, if changed since last report)

The BioMarin Pharmaceutical Inc. (the Registrant) Current Report on Form 8-K filed with the Securities and Exchange Commission (the Commission) on June 2, 2004 is hereby amended and restated to read in its entirety as follows:

Item 2. Acquisition or Disposition of Assets.

As previously reported in the Current Report on Form 8-K filed by the Registrant with the Commission on June 2, 2004 (the Prior Report), on May 18, 2004, Registrant completed its acquisition of the business of making, manufacturing, marketing, selling, distributing and developing Orapred®, certain oral liquid prednisolone solution products and oral dissolving tablet prednisolone products (the Pediatrics Business) conducted by Ascent Pediatrics, Inc. (Ascent), a subsidiary of Medicis Pharmaceutical Corporation (Medicis).

Under the terms of the asset purchase agreement, securities purchase agreement, and license agreement (collectively, the Transaction Agreements) that govern the transactions, the Registrant (i) acquired from Medicis, Ascent and Medicis Manufacturing Corporation, a wholly-owned subsidiary of Medicis, certain pharmaceutical assets relating to the Pediatrics Business, including ORAPRED® inventory, tangible assets, sales-related materials, contracts, and copyrights, in consideration for the payment of approximately \$765,582 in cash and the assumption of certain liabilities under contracts entered into in connection with the Pediatrics Business, (ii) obtained from Medicis an option (the Option) to purchase, in approximately five years, all of the issued and outstanding capital stock of Ascent in consideration for the payment of \$62.0 million in cash and \$20.0 million in the Registrant's common stock, and (iii) obtained from Ascent a worldwide, exclusive license to (with a right to sublicense) certain assets used in or relating to the Pediatrics Business, including technology, trademarks and improvements, in consideration for license payments totaling approximately \$93.0 million in cash, which are to be paid over a five-year period and the assumption by the Registrant of \$15.0 million of liabilities. The Registrant is obligated to exercise the Option in approximately five years unless product sales from the Pediatrics Business for the twelve months ending March 31, 2009 exceed 150% of the Pediatrics Business product sales in the twelve months ended March 31, 2004, in which event the Registrant has the right to elect not to exercise the Option. The exercise of the Option is subject to acceleration on specified material breaches of the license or a bankruptcy or insolvency proceeding involving Medicis or Ascent, and if such acceleration is due to a specified breach of the license by the Registrant, then all license payments will become due on the closing date for the purchase of shares under the Option. The license is terminable upon specified material breaches of the license and in the event of a specified breach by the Registrant, at Ascent's election, the license becomes non-exclusive. In connection with the acquisition of the Pediatrics Business of Ascent, the Registrant also employed approximately 70 employees of Ascent involved in the sales and marketing activities of the Pediatrics Business.

The cash consideration that the Registrant paid at the closing was paid from the working capital of the Registrant and the Registrant anticipates that the cash consideration to be paid in the future in connection with the exercise of the Option and the under the license will be paid from the working capital of the Registrant. The shares of the Registrant's Common Stock to be issued in connection with the exercise of the Option will be measured by the average closing sales price per share of Registrant's Common Stock over the twenty trading days immediately preceding the Option closing date.

The amount of the consideration given, or to be given, in connection with the Transaction Agreements was based on a variety of factors, including the advice of the Registrant's financial advisors and the value of comparable assets and transactions.

Item 7. Financial Statements, Pro Forma Financial Statements and Exhibits.

(a) Financial Statements of Business Acquired.

Report of Ernst & Young LLP, Independent Registered Public Accounting Firm

To the Board of Directors and

Stockholders of Medicis Pharmaceutical Corporation

We have audited the accompanying statements of selected assets and liabilities of Ascent Pediatrics (the Company) (a wholly owned carve out business of Ascent Pediatrics, Inc., which is a wholly owned subsidiary of Medicis Pharmaceutical Corporation) as of March 31, 2004, June 30, 2003, and June 30, 2002 and the related statements of revenues and expenses, changes in net assets and cash flows for the nine months ended March 31, 2004, the year ended June 30, 2003, and the period from November 15, 2001 to June 30, 2002. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the statements of selected assets and liabilities of the Company as of March 31, 2004, June 30, 2003 and June 30, 2002, and the revenues and expenses and its cash flows for the nine months ended March 31, 2004, the year ended June 30, 2003, and the period from November 15, 2001 to June 30, 2002, in conformity with U.S. generally accepted accounting principles.

ASCENT PEDIATRICS

(A wholly owned carve out business of Medicis Pharmaceutical Corporation)

NOTES TO FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION AND BASIS OF PRESENTATION

Ascent Pediatrics (Ascent or the Company) (a wholly owned carve out business of Ascent Pediatrics, Inc., which is a wholly owned subsidiary of Medicis Pharmaceutical Corporation) is a specialty pharmaceutical business focusing primarily on developing and marketing drugs in the United States to pediatricians. Ascent's primary product, ORAPRED[®], is a liquid corticosteroid for the treatment of pediatric asthma. On November 15, 2001, Medicis Pharmaceutical Corporation (Medicis or Parent) purchased all of the outstanding capital stock of Ascent Pediatrics, Inc., and Ascent Pediatrics, Inc. became a wholly owned subsidiary of Medicis. On May 18, 2004, BioMarin Pharmaceutical Inc. (BioMarin) and Medicis closed an asset purchase agreement and license agreement and executed a securities purchase agreement. The asset purchase agreement involved BioMarin's purchase of selected assets related to ORAPRED[®], including assets concerning the Ascent sales force. The license agreement granted BioMarin the exclusive worldwide rights to ORAPRED[®] including proprietary taste-masking technologies and related development technologies. The license agreement terminates in July 2009 and under the terms of the securities purchase agreement; BioMarin has the option to purchase all outstanding shares of common stock of Ascent Pediatrics, Inc. from Medicis based on certain conditions. The selected assets and liabilities of the purchased carve out business and the related revenues and expenses and cash flows have been presented in the accompanying financial statements. During the term of the license agreement, Medicis will maintain ownership of the intellectual property and, consequently, will continue to amortize the related intangible assets. These assets have not been reflected in these financial statements.

As a result of the transactions between BioMarin and Medicis, the Ascent business is presented in these financial statements on a stand-alone basis for the period beginning as of the date of the Medicis-Ascent purchase transaction (November 15, 2001) to March 31, 2004.

The accompanying financial statements have been prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission for inclusion in a BioMarin Form 8-K.

Assets and liabilities separately and distinctly identifiable to Ascent are reflected in the accompanying statements of selected assets and liabilities. No other assets, liabilities or debt of the Parent have been allocated to Ascent.

Sales and primarily all expenses are separately and distinctly identifiable to Ascent from the Parent, except for certain corporate overhead costs and depreciation expense for which cost allocations have been charged and reflected in the financial statements. In the opinion of management, historical charges and allocations have been determined on a reasonable basis and reflect the expenses of Ascent. However, such charges and allocations are not necessarily indicative of the level of expenses which might have been incurred had Ascent been operating as a stand-alone business. For additional information regarding the expenses charged or allocated to Ascent by the Parent see Note 4.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Inventories

The Company utilizes third parties to manufacture and package inventories held for sale, takes title to certain inventories once manufactured, and warehouses such goods until packaged for final distribution and sale. Inventories consist of salable products held at third party warehouses, as well as raw materials and components at the manufacturers' facilities, and are valued at the lower of cost or market using the first-in, first-out method.

F-7

ASCENT PEDIATRICS

(A wholly owned carve out business of Medicis Pharmaceutical Corporation)

NOTES TO FINANCIAL STATEMENTS (continued)**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Inventories are as follows (amounts in thousands):

	March 31,	June 30,	June 30,
	2004	2003	2002
Raw materials	\$ 4,136	\$ 1,912	\$ 1,372
Finished goods	846	338	658
Total inventories	\$ 4,982	\$ 2,250	\$ 2,030

Property and Equipment

Property and equipment are stated at cost. Depreciation is calculated on a straight-line basis over the estimated useful lives of property and equipment (three to five years). Property and equipment consist of the following (amounts in thousands):

	March 31,	June 30,	June 30,
	2004	2003	2002
Furniture, fixtures and equipment	\$ 248	\$ 248	\$ 248
Less: accumulated depreciation	(117)	(79)	(29)
	\$ 131	\$ 169	\$ 219

Managed Care and Medicaid Reserves

Edgar Filing: BIOMARIN PHARMACEUTICAL INC - Form 8-K/A

The Company establishes and maintains reserves for amounts payable to Managed Care Organizations and state Medicaid programs for the reimbursement of a portion of the retail price of prescriptions filled that are covered by the respective plans. The amounts estimated to be paid relating to products sold are recognized as revenue reductions and as additions to accrued expenses at the time of sale based on the Company's best estimate of the expected prescription fill rate to these Managed Care and state Medicaid patients using historical experience adjusted to reflect known changes in the factors that impact such reserves.

Revenue Recognition

Revenue from product sales is recognized when the merchandise is shipped to an unrelated third party pursuant to Staff Accounting Bulletin No. 104, Revenue Recognition in Financial Statements. Accordingly, revenue is recognized when all four of the following criteria are met: (i) persuasive evidence that an arrangement exists; (ii) delivery of the products has occurred; (iii) the selling price is both fixed and determinable; and (iv) collectibility is reasonably assured. The Company's customers consist primarily of large pharmaceutical wholesalers who sell directly into the retail channel. Provisions for sales discounts, and estimates for chargebacks, rebates, damaged product returns, and exchanges for expired product are established as a reduction of product sales revenues at the time such revenues are recognized. These revenue reductions are established by the Company's management as its best estimate at the time of sale based on historical experience adjusted to reflect known changes in the factors that impact such reserves. These revenue reductions are generally reflected either as a direct reduction to accounts receivable through an allowance, or as an addition to accrued expenses if the provision is due to a party other than the wholesale or retail customer.

ASCENT PEDIATRICS

(A wholly owned carve out business of Medicis Pharmaceutical Corporation)

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company does not provide any forms of price protection to its wholesale customers and permits product returns only if the product is damaged or if it is returned with 6-12 months of expiration and the customer is committed to accept replacement product in exchange. The Company's customers consist principally of financially viable wholesalers so revenue is recorded upon sale to the wholesaler, net of estimated provisions.

Advertising

The Company expenses advertising as incurred. Advertising expenses for the nine months ended March 31, 2004, the year ended June 30, 2003 and the period from November 15, 2001 to June 30, 2002 were approximately \$1.7 million, \$1.3 million and \$1.1 million, respectively. Advertising expenses include samples of the Company's products given to physicians for marketing to their patients.

Stock-Based Compensation

As of March 31, 2004, the Company was included in five active Medicis Stock Option Plans (the 2002, 1998, 1996, 1995 and 1992 Plans or, collectively, the Plans). As of March 31, 2004 the 2002, 1998, 1996, 1995 and 1992 Plans had the following options outstanding to employees of the Company: 889,000, 363,140, 23,750, 0 and 0, respectively. The Plans allow the Company to designate options as qualified incentive or non-qualified on an as-needed basis. Qualified and non-qualified stock options vest over a period determined at the time the options are granted, ranging from one to five years, and generally have a maximum term of ten years. Options are granted at the fair market value on the grant date. Medicis granted stock options for a fixed number of shares of Medicis common stock to Ascent employees with an exercise price equal to the fair value of the shares at the date of grant.

The Company accounts for its stock option grants in accordance with the provisions of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees* and related Interpretations. In Fiscal 1998, the Company adopted the disclosure-only provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, (SFAS No. 123). This allows entities to continue to apply the provisions of APB Opinion No. 25 and provide pro forma net income disclosures as if the fair-value-based method defined in SFAS No. 123 had been applied. The following table illustrates the effect on net income as if the Company had applied the fair value recognition provisions of SFAS No. 123 to employee stock options (amounts in thousands):

Year November 15,

Edgar Filing: BIOMARIN PHARMACEUTICAL INC - Form 8-K/A

	Nine Months Ended	Ended	2001 to
	March 31, 2004	June 30, 2003	June 30, 2002
Net income, as reported	\$ 3,067	\$ 16,957	\$ 10,547
Deduct: Total stock-based employee compensation expense determined under fair value methods of all awards, net of related tax effects	1,289	1,035	482
Pro forma net income	\$ 1,778	\$ 15,922	\$ 10,065

The pro forma disclosures above include Medicis stock options granted to Ascent employees since November 15, 2001. Consequently, the effect of applying SFAS No. 123 for providing pro forma disclosures may not be representative of the effects on reported net income for future years until all options outstanding are included in the pro forma disclosures. For purposes of pro forma disclosures, the estimated fair value of stock-based compensation plans and other options is amortized to expense primarily over the vesting period. The fair value of

ASCENT PEDIATRICS

(A wholly owned carve out business of Medicis Pharmaceutical Corporation)

NOTES TO FINANCIAL STATEMENTS (continued)**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

these options was estimated at the date of grant using a Black-Scholes option pricing model with the following assumptions:

	Nine Months	Year	November 15,
	Ended	Ended	2001 to
	March 31, 2004	June 30, 2003	June 30, 2002
Expected dividend yield	0.3%	0.3%	0.0%
Expected stock price volatility	0.5	0.5	0.4
Risk-free interest rate	3.3%	2.5%	3.0%
Expected life options	5 Years	5 Years	5 Years

The Black-Scholes option pricing model was developed for use in estimating the fair value of traded options, which, unlike options granted by the Company, have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions, including the expected stock price volatility. Because the Medicis stock options granted to Ascent employees have characteristics significantly different from options traded on an exchange, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its stock options.

Shipping and Handling Costs

Substantially all costs of shipping and handling of products to customers are included in selling, general and administrative expense. Shipping and handling costs for the nine months ended March 31, 2004, the year ended June 30, 2003 and the period from November 15, 2001 to June 30, 2002 were approximately \$0.2 million, \$0.6 million and \$0.5 million, respectively.

Research and Development Costs

All research and development costs, including payments related to products under development, and research consulting agreements, are expensed as incurred. The Company makes up-front, non-refundable payments to third parties for new technologies and for research and

Edgar Filing: BIOMARIN PHARMACEUTICAL INC - Form 8-K/A

development work that has been completed. These up-front payments may be expensed at the time of payment depending on the nature of the payment made.

Income Taxes

The results of Ascent's operations are included in Medicis' consolidated U.S. federal tax returns. The provision for federal and state income taxes was allocated to Ascent based on the statutory tax rate.

Use of Estimates and Risks and Uncertainties

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates based upon future events, which could include, among other risks, changes in the regulations governing the manner in which the Company sells its products, changes in the health care environment and the reliance on contract manufacturing services.

ASCENT PEDIATRICS

(A wholly owned carve out business of Medicis Pharmaceutical Corporation)

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company purchases its inventory from third party manufacturers, many of whom are the sole source of products for the Company. The failure of such manufacturers to provide an uninterrupted supply of products could adversely impact the Company's ability to sell such products.

Fair Value of Financial Instruments

The carrying amount of accounts receivable, accounts payable and accrued liabilities reported in the statements of selected assets and liabilities approximates fair value because of the immediate or short-term maturity of these financial instruments.

Statement of Cash Flows

Medicis utilizes a centralized cash management system under which all cash received and disbursements made by Ascent are controlled by Medicis, resulting in Ascent's cash balance always being zero. The net cash generated or used by Ascent in the statement of cash flows is reflected as the net transfers to Medicis Pharmaceutical Corporation.

Recently Issued Accounting Pronouncements

In January 2003, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 46 (FIN 46), Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51, which addresses consolidation by business enterprises of variable interest entities (VIEs) either: (1) that do not have sufficient equity investment at risk to permit the entity to finance its activities without additional subordinated financial support, or (2) in which the equity investors lack an essential characteristic of a controlling financial interest. In December 2003, the FASB completed deliberations of proposed modifications to FIN 46 (Revised Interpretations), resulting in multiple effective dates based on the nature as well as the creation date of the VIE. VIEs created after January 31, 2003, but prior to January 1, 2004, may be accounted for either based on the original interpretation or the Revised Interpretations. For VIEs created or acquired prior to February 1, 2003, the provisions of FIN 46 must be applied for the first interim or annual period ending after December 15, 2003. Certain disclosures are effective immediately. VIEs created after January 1, 2004 must be accounted for under the Revised Interpretations. The Company currently has no contractual relationship or other business relationship with a variable interest entity, and therefore neither the adoption of FIN 46 nor the Revised Interpretations have an effect on the Company's financial position, results of operations or cash flows.

Edgar Filing: BIOMARIN PHARMACEUTICAL INC - Form 8-K/A

In April 2003, the FASB issued Statement of Financial Accounting Standards No. 149 (FAS 149), Amendment of Statement 133 on Derivative Instruments and Hedging Activities. This statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under FAS 133. FAS 149 is effective for contracts entered into or modified after June 30, 2003. The adoption of FAS 149 did not have an effect on the Company's financial position, results of operations or cash flows.

In May 2003, the FASB issued Statement of Financial Accounting Standards No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity. This Statement requires that certain instruments that were previously classified as equity on a company's statement of financial position now be classified as liabilities. The Statement is effective for financial instruments entered into or modified after May 31, 2003, and to all other instruments that exist as of the beginning of the first interim financial reporting period beginning after June 15, 2003. The Company currently has no instruments impacted by the adoption of this statement, and therefore the adoption did not have an effect on the Company's financial position, results of operations or cash flows.

F-11

ASCENT PEDIATRICS

(A wholly owned carve out business of Medicis Pharmaceutical Corporation)

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 3. FINANCIAL INSTRUMENTS CONCENTRATIONS OF CREDIT RISK

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of accounts receivable.

At March 31, 2004, June 30, 2003 and 2002, three customers comprised approximately 89.3 %, 85.3% and 80.6%, respectively, of accounts receivable. The Company does not require collateral from its customers, but performs periodic credit evaluations of its customers' financial condition. Management does not believe a significant credit risk existed at March 31, 2004.

NOTE 4. RELATED PARTY TRANSACTIONS

Medicis has allocated certain corporate selling, general and administrative expenses to Ascent in preparing these financial statements. These expenses primarily relate to corporate payroll and other benefits, directors' and officers' insurance, outside services, depreciation and other costs. These costs have generally been allocated to Ascent based on ORAPRED®'s net revenues as a percentage of Medicis' total net revenues or other rational methods. Total selling, general and administrative expense allocated to Ascent was approximately \$3.9 million, \$4.3 million and \$2.9 million for the nine months ended March 31, 2004, the year ended June 30, 2003 and the period from November 15, 2001 to June 30, 2002, respectively. In the opinion of management, the allocation of these costs has been determined on a reasonable basis and reflects the expenses of Ascent.

NOTE 5. CONTINGENCIES

On November 9, 2001, prior to its merger with Medicis, Ascent received notice that Triumph-Connecticut Limited Partnership and related parties (Triumph) had brought a civil action against it in Massachusetts. In the action, the Triumph group claimed that the execution by Ascent of the merger agreement and the consummation of the merger without the consent of the Triumph group or the payment to the Triumph group of a specified amount breaches the terms of a January 1997 securities purchase agreement, the terms of warrants issued to the Triumph group, an implied covenant of good faith and fair dealing, and certain deceptive trade laws. The Triumph group sought damages in an amount not less than \$22.1 million, plus treble damages. A hearing on cross-motions for summary judgment was held on October 16, 2003. On April 9, 2004, the court ruled on the cross-motions in Ascent's favor. Triumph's cross-motion for summary judgment was denied and Ascent's cross-motion for summary judgment was granted on all claims. The court entered its order dismissing the lawsuit on April 13, 2004. Triumph filed a notice of appeal on May 6, 2004. The Company continues to believe that the claims of the Triumph group are without merit and will vigorously contest the appeal.

Edgar Filing: BIOMARIN PHARMACEUTICAL INC - Form 8-K/A

The Company is involved in certain other litigation and claims arising in the normal course of business. In the opinion of management, the resolution of these matters will not have a material adverse effect on the financial condition or results of operations of the Company.

NOTE 6. DEFINED CONTRIBUTION PLAN

Medicis has a defined contribution plan (the "Contribution Plan") that is intended to qualify under Section 401(k) of the Internal Revenue Code. Ascent employees are permitted to participate in the Contribution Plan in accordance with the Plan's requirements. All employees, except those who have not attained the age of 21, are eligible to participate in the Contribution Plan. Participants may contribute, through payroll deductions, up to 20.0% of their basic compensation, not to exceed Internal Revenue Code limitations. Although the Contribution Plan provides for profit sharing contributions by Medicis, Medicis had not made any such contributions prior to April 2002. Beginning in April 2002, Medicis began matching employee contributions at 50% of the first 3% of basic
