EXPLANATORY NOTE

Baxter International Inc. is filing this Form 10-K/A Amendment No. 2 for the year ended December 31, 2003 to reflect the restatement of its consolidated financial statements for the years ended December 31, 2001 through 2003. The restatement arises from the controls surrounding the income tax accounts. Specifically, current income taxes payable balances were not reconciled to expected tax payments due, and the company did not adequately review the difference between the income tax basis and the financial reporting basis of assets and liabilities, and reconcile the difference to recorded deferred income tax assets and liabilities. Refer to Note 1B for a complete description and quantification of the restatement. Also, refer to Note 1A regarding the company's previous restatement of its consolidated financial statements for the years ended December 31, 2001 through 2003, filed as Amendment No. 1.

The information in this Form 10-K/A Amendment No. 2 has not been updated from the Form 10-K or Form 10-K Amendment No. 1 except as required to reflect the effects of the restatement. This restatement includes changes to Items 6, 7, 8, 9A and 15. Items included in the original Form 10-K that are not included herein are not amended and remain in effect as of the date of the original filing. Additionally, this Form 10-K/A does not purport to provide an update or a discussion of any other developments at the company subsequent to the original filing.

**Item 9A. Controls and Procedures.**

*Controls and Procedures.* The company carried out an evaluation, under the supervision and with the participation of the company's Disclosure Committee and the company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the company's disclosure controls and procedures (as such term is defined in Rules 13a-15(d) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of December 31, 2003. The company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported on a timely basis and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the company's disclosure controls and procedures were not effective as of December 31, 2003 for the reasons described below.

The company has restated its previously issued financial results for the years 2001 through 2003, and will restate each of the quarters in 2004 as promptly as possible. This restatement was primarily the result of a material weakness that existed as it relates to the controls surrounding the income tax accounts. Specifically, current income taxes payable were not reconciled to expected tax payments due, and the company did not adequately review the difference between the income tax basis and financial reporting basis of assets and liabilities and reconcile the difference to recorded deferred income tax assets and liabilities. Refer to Note 1B to the consolidated financial statements for further information regarding this restatement. To address this material weakness, subsequent to December 31, 2004, the company's management has taken the following actions:

1. Performed an extensive study and reconciliation of the income tax accounts.
2. During that study, the company identified adjustments to the income tax accounts that relate to prior periods.
3. Assessed the materiality of these adjustments with the Chief Executive Officer and the Chief Financial Officer and the Audit Committee and concluded that the historical consolidated financial statements indicated above should be restated.

As a result of these actions, management believes that the financial statements included in this report fairly present in all material respects our financial condition, results of operations and cash flows for the periods presented. In addition, the more enhanced reconciliation procedures performed to address this issue subsequent to the 2004 year-end will continue to be performed in the future to ensure this matter is remediated.

In addition, as previously disclosed in the company's Amendment to its Annual Report on Form 10-K for the year ended December 31, 2003, in August 2004 the company restated its previously issued financial results for the years 2001 through 2003, and for the first quarter of 2004. This restatement was primarily the result of the inappropriate application of accounting principles for revenue recognition and inadequate provisions for bad debts in Brazil during this period. Senior management became aware of these issues in 2004 through the reporting procedures established under Baxter's Global Business Practice Standards. Upon becoming aware of the issues in Brazil, senior management, with the assistance of the company's internal audit team, conducted a preliminary investigation. This preliminary investigation was followed by a more comprehensive investigation by the Audit Committee of Baxter's Board of Directors, with the assistance of independent legal counsel and forensic and other accountants. Refer to Note 1A to the consolidated financial statements for further information regarding this restatement.

The investigations described above identified the following, which collectively constitute a material weakness in the company's internal control over financial reporting:

## Edgar Filing: BAXTER INTERNATIONAL INC - Form 10-K/A

an ineffective control environment maintained by senior management in Brazil, including intentional overrides by senior management in Brazil of internal controls;

inadequate revenue recognition controls in Brazil;

inadequate controls in Brazil to ensure adherence to generally accepted accounting principles for loss contingencies, including bad debts; and

ineffective financial review by management responsible for the Intercontinental region, which includes Latin America.

During the third and fourth quarters of 2004, the company took several actions that it believes has remediated this material weakness. These actions include:

Terminated four members of senior management in the company's Brazilian operations and replaced the Vice President, Finance responsible for the Intercontinental region;

Completed monthly detailed internal audits of the Brazilian operations, beginning in July 2004, with an emphasis on the areas that gave rise to the inaccurate financial reporting;

Completed additional training for finance, accounting and sales personnel in Brazil on appropriate accounting for revenue recognition;

Completed additional training for finance and accounting personnel in Brazil on accounting and reporting policies, including those relating to accounting in accordance with Statement of Financial Accounting Standards No. 5 Accounting for Contingencies and SEC Staff Accounting Bulletin No. 99 Materiality;

Completed enhanced training for employees in Brazil regarding Baxter's Global Business Practice Standards, including obligations to maintain accurate books and records and to report wrongdoing promptly;

Implemented enhanced financial review procedures at the Intercontinental region level, including quarterly financial reviews for each significant country;

Hired a director of internal control for the Intercontinental region;

Implemented improved procedures for reporting legal contingencies and establishing appropriate legal reserves, and provided training on these procedures;

Engaged a prominent independent public accounting firm (other than PricewaterhouseCoopers LLP) to perform a comprehensive review of internal control over financial reporting in Brazil.

Implemented new controls in Brazil relating to the recording of revenues and loss contingencies, including new revenue recognition procedures with enhanced documentation requirements, monitoring of inventory levels at distributors and specific tracking of equipment installation; and

## Edgar Filing: BAXTER INTERNATIONAL INC - Form 10-K/A

Implemented new procedures in Brazil for determining bad debt reserve requirements.

The changes to internal control over financial reporting described above were implemented subsequent to the quarter ended December 31, 2003. There has been no change in the company's internal control over financial reporting that occurred during the quarter ended December 31, 2003 that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.
