ADVANT-E CORPORATION AND SUBSIDIARY

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (Unaudited)

June 30, 2005

Note 1: Basis of Presentation

The accompanying unaudited consolidated financial statements include the accounts of Advant-e Corporation and its wholly-owned subsidiary Edict Systems, Inc. (the Company). Inter-company accounts and transactions are eliminated in consolidation.

The statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and the instructions to Form 10-QSB. Accordingly, they do not include all of the information and notes to financial statements required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, the unaudited consolidated condensed financial statements include all adjustments considered necessary for a fair presentation of financial position, results of operations, and cash flows for the interim periods.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Results of operations for the six months ended June 30, 2005 are not necessarily indicative of the results to be expected for the full year ending December 31, 2005. These unaudited consolidated condensed financial statements should be read in conjunction with the consolidated financial statements, accounting policies, and financial notes thereto included in Advant-e Corporation s 2004 Form 10-KSB filed with the Securities and Exchange Commission.

Note 2: Software Development Costs

Software development costs at June 30, 2005 and the changes during the six months then ended are summarized as follows:

		Accumulated		
	Cost	Amortization	Net	
Balance, December 31, 2004	\$ 1,216,858	918,049	298,809	
Additions	44,309		44,309	
Amortization		134,639	(134,639)	
Balance, June 30, 2005	\$ 1,261,167	1,052,688	208,479	

The unamortized costs relate exclusively to internal use software and costs associated with web site development and related enhancements.

The ongoing assessment of recoverability of capitalized software development costs requires considerable judgment by management with respect to certain external factors, including, but not limited to, anticipated future revenues, estimated economic life and changes in software and hardware technologies. Impairment of asset value is considered whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Note 3: Deferred revenue

Deferred revenue is comprised of the following:

	June 30,	December 31,
	2005	2004
Annual software license fees recognized as revenue ratably over twelve months	\$ 32,304	56,259
Amounts received for customized Web EDI and EnterpriseEC development recognized as revenue over twelve months when services are performed	51,856	56,541
Advance payments from a customer in exchange for discounted future services recognized as revenue monthly as services are performed		29,988
	\$ 84,160	142,788

Note 4: Income taxes

Income tax expense consists of the following:

		Three Months Ended June 30,		s Ended
	2005	2004	2005	2004
Current expense	\$ 84,100		182,100	
Deferred expense (benefit)	(4,000)	73,000	(32,000)	148,400
Total income tax expense	\$ 80,100	73,000	150,100	148,400

The current tax expense for the three months ended June 30, 2004 of \$136,900 and for the six months ended June 30, 2004 of \$214,000 was offset by the benefit from a net operating loss carryforward.

The following is a reconciliation of income tax at the federal statutory rate of 34% to the income tax expense:

2005 2004 2005	2004
	2004
Income taxes at federal statutory rate \$ 68,000 61,000 128,000 State income taxes 12,100 12,000 22,100	25,500 22,900
Income tax expense \$ 80,100 73,000 150,100	48,400

Note 5: Earnings per share

The reconciliation of the numerators and denominators of the basic and diluted earnings per share calculations for the three months and the six months ended June 30, 2005 and 2004, respectively, follows:

	Income	Average Shares	Per Share
	(Numerator)	(Denominator)	Amount
Three months ended June 30, 2005			

Basic and diluted earnings per share:					
Net income available to shareholders	\$	120,270	6,294,917	\$	0.02
Effect of potentially dilutive securities:					
Outstanding warrants					
Net income available to shareholders with assumed exercise of warrants	\$	120,270	6,294,917	\$	0.02
	_			_	
Three months ended June 30, 2004

Convertible subordinated notes	200	7,818	Ì	
Diluted earnings per share:				
Net income available to shareholders with assumed exercise of warrants and conversion of				
convertible subordinated notes	\$ 221,784	6,627,694	\$ 0.03	

At June 30, 2005 the Company has 970,000 outstanding warrants for the purchase of the Company s common stock, as follows: 700,000 shares at \$1.205 per share; 250,000 shares at \$1.25 per share; and 20,000 shares at \$1.48 per share. The warrants expire as follows: 875,000 warrants between September 27, 2005 and December 13, 2005; 75,000 warrants through December 5, 2006; and 20,000 through June 25, 2006.

Warrants for 50,000 shares at \$1.205 per common share were exercised in February 2005.

ITEM 2 - MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Form 10-QSB contains forward-looking statements, including statements regarding the expectations of future operations. For this purpose, any statements contained in this Form 10-QSB that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, words such as may, will, expect, believe, anticipate, estimate, or continue or comparable terminology intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties, and actual results may differ materially depending on a variety of factors, many of which are not within the Company s control. These factors include, but are not limited to, economic conditions generally and in the industries in which the Company may participate, competition within the chosen industry, including competition from much larger competitors, technological advances, and the failure to successfully develop business relationships. In light of these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. The Company acknowledges that the safe harbor contained in the Litigation Reform Act of 1995 is not applicable to the disclosure in this Form 10-QSB. This item should be read in conjunction with Item 1. Financial Statements and other items contained elsewhere in this report.

The Company, through its wholly-owned subsidiary Edict Systems, Inc., is a provider of business-to-business (B2B) electronic commerce (e-commerce) products and services, offering Electronic Data Interchange (EDI) based and proprietary solutions for businesses of all sizes. The Company develops, markets, and supports B2B e-commerce software products and provides Internet-based communication and data processing services that enable businesses to process transactions electronically.

The Company s software products enable businesses to integrate e-commerce data into their businesses and enable smaller companies to process electronic transactions.

The Company provides consultative services for its customers, generally small and medium sized suppliers of larger companies, where the Company interfaces between its customers and the buyers to facilitate the EDI connectivity required for document processing.

The following comprise the Company s four principal business products/services:

Web-based Electronic Commerce/Electronic Data Interchange (web-EDI) document processing systems (WebEDI.com) and branded vertical industry sites such as GroceryEC.com, RetailEC.com, CPGSupplier.com, MfgEC.com, and LogisticsEC.com.

Electronic Commerce and Bar Coding Software Formula_One EDI software and Bar Code Label Modules.

Value-Added Applications Internet-based solutions that enhance the value of electronic commerce capabilities

Critical Accounting Estimates and Policies

Revenue recognition for Web-EDI and EnterpriseEC subscription fees

The Company recognizes monthly subscription fees of \$25 per month per customer (\$45 if the Customer does not pay by credit card) and \$5 per month per trading partner the customer connects to (up to 5 partners) upon the completion of one month of services. These fees are non-refundable. The Company recognizes transaction fees (document processing fees) upon completion of the processed transactions; these transactions are invoiced or charged to a customer s credit card once per month at the end of a monthly period. These fees are non-refundable and are only billed after services are provided.

The Company recognizes as revenues one-time Account Activation Fees (\$100 per new customer), Trading Partner Setup Fees (\$50 per partner for web-EDI) and Interconnect Setup Fees (\$50 per interconnect) after the Company performs consultative work required in order to establish the electronic trading partnership between the customer and their desired trading partner. The Company s EDI administration, technical support and systems maintenance personnel provide these consultative services that enable the Company s customers (suppliers) and their trading partners (usually buying organizations of large companies or hubs) to conduct EDI transactions as requested by the hub by interfacing with the hub on behalf of the Company s customers. Because each hub has established processes in place to migrate a non-EDI supplier to an EDI-enabled supplier, and because these procedures vary among the hubs, the Company acts as a liaison between its customers and the hub to establish this EDI connection. Since most of the Company s customers are small to medium-sized companies, they recognize that the Company has the resources and expertise to establish this connection for them. This trading partner connection and relationship, once established, is portable to other EDI service providers if the customer chooses to do so.

Time periods of these web-EDI agreements can be cancelled at any time by customers with 30-days prior written notice. EnterpriseEC agreements can be cancelled at any time during the one-year contract period with 90-days prior written notice and in subsequent years, when the agreement extends automatically on a month-to-month basis, with 30-days prior written notice.

The Company periodically receives payments from customers in advance for the Company s development of Web-EDI and EnterpriseEC applications designed to meet specific customer specifications for processing Internet transactions. The Company expects to re-sell some of these applications, with minor modifications, to other customers. The Company recognizes these advance payments as revenue over the twelve-month contract period.

Software Development Costs

The Company capitalizes software development costs and amortizes those costs over a three-year estimated economic life of the software applications. Internet technology can change and does change rapidly. As a result, any or all of the Company s products could have an economic life of less than (or more than) three years. In addition, the products could become economically obsolete if the Company cannot sell the products in the marketplace at a margin that is adequate to produce positive cash flow. The economic lives of the capitalized products, expected cash flow, and profitability of our products are reviewed quarterly. Capitalized software costs are reported at the lower of unamortized cost or net realizable value.

Results of Operations

Revenue

Revenue for the second quarter of 2005 of \$1,076,385 exceeded revenue for the second quarter of 2004 of \$851,982 by \$224,403, or 26%. Revenue for the six months ended June 30, 2005 of \$2,115,873 exceeded revenue for the six months ended June 30, 2004 of \$1,690,617 by \$425,256, or 25%. On a quarter-to-quarter basis, revenue in the second quarter of 2005 increased by \$36,897, or 4%, over revenue in the first quarter of 2005.

The following table details revenues by product and percentage growth for the quarter and the six months ended June 30, 2005 and 2004, respectively:

		Quarte	er Ended June	e 30,	Six Mo	ne 30,	
		2005	2004	Growth (Decline)	2005	2004	Growth (Decline)
Internet products and services							
Web EDI groceryEC	\$	838,306	\$ 729,456	15%	1,645,679	\$ 1,432,875	15%
Web EDI other industries		111,213	25,968	328%	218,015	54,177	302%
EnterpriseEC	_	108,202	71,218	52%	209,165	136,438	53%
		1,057,721	826,642	28%	2,072,859	1,623,490	28%
Software and software licenses		18,664	25,340	(26)%	43,014	67,127	(36)%
	_						
	\$	1,076,385	851,982	26%	2,115,873	1,690,617	25%

Our Web-EDI service for the grocery industry continues to provide the largest source of revenue for the Company. The Company is a leading provider of web-based B2B e-commerce in the grocery industry with its GroceryEC service. Revenue from other industries including retail and automotive grew at a rate in excess of 300% reflecting the Company s continuing attempts to increase market share for Web-EDI services in industries other than grocery. Revenues from the sale of software and software licenses continue to decline as the Company focuses on Internet products and services.

Gross Margin

The Company s gross margin, as a percent of revenue, was relatively constant at 65% in the second quarter of 2005 compared to 64% in the second quarter of 2004 and 64% in the first six months of both 2004 and 2005.

Expenses

Marketing, general and administrative expenses amounted to approximately 47% of revenue in the second quarter of 2005 compared to 42% in the second quarter of 2004, and 46% in the first six months of 2005 compared to 42% in the first six months of 2004. These percentage increases as well as absolute dollar increases of \$140,305 in the second quarter and \$260,863 in the first six months reflect the increased cost of the Company s continuing efforts to strengthen its sales and marketing programs designed to increase market penetration in the grocery industry and to diversify more rapidly into industries other than the grocery industry; and for salary increases for key personnel.

Income taxes

Income taxes are recorded at 40% in 2005 and 2004, respectively, reflecting statutory rates for Federal and state income taxes.

Net income

Net income in the second quarter of \$120,270 increased by 14% over net income reported in the first quarter of 2005 and by 12% over net income reported in the second quarter of last year, indicating that the Company s revenue increases are beginning to exceed the additional costs of its sales and marketing efforts, infrastructure improvements and additional personnel costs.

Capitalized Development Costs

The following table sets forth the cost and accumulated amortization of the products comprising the Software Development Costs asset at June 30, 2005:

		Accumulated	
Product	Cost	Amortization	Net
Web EDI (including GroceryEC)	\$ 428,260	428,260	
Web EDI enhancements	362,246	173,378	188,868
EnterpriseEC	470,661	451,050	19,611
•			
Total	\$ 1,261,167	1,052,688	208,479

Web EDI, including GroceryEC, is the Company s largest and primary source of revenue and continues to grow. Sales of EnterpriseEC continue to grow in 2005, up 53% compared to the first six months of 2004. Based on our ongoing review of the marketplace and our marketing efforts we expect cash flow and revenue from EnterpriseEC services to continue.

Liquidity and Capital Resources

In the first six months of 2005, net cash flows from operating activities was \$526,131, which added to the Company s cash position and was used to fund additional investments in software development costs and equipment purchases. The Company s cash and cash equivalents increased by \$467,353 during this period to \$1,412,245.

In February 2005 the Company received \$60,250 cash proceeds for the issuance of 50,000 shares of the Company s common stock as a result of the exercise of warrants at \$1.205 per common share.

ITEM 3. Controls and Procedures

Disclosure controls and procedures. The Chief Executive Officer and the Chief Financial Officer have carried out an evaluation of the effectiveness of Advant-e s disclosure controls and procedures that are designed to ensure that information relating to Advant-e required to be disclosed by Advant-e in the reports that it files or submits under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission s rules and forms. Based upon this evaluation, these officers have concluded, that as of June 30, 2005, Advant-e s disclosure controls and procedures were effective.

Changes in internal control over financial reporting. During the period covered by this report, there were no changes in Advant-e s internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, Advant-e s internal control over financial reporting.

ITEM 4. Submission of Matters to a Vote of Security Holders

On April 25, 2005, a majority of the shareholders of the Company took action by written consent in lieu of a special meeting to increase the size of the Board of Directors from two to three members and elected James E. Lesch to serve on the Board in the newly created position. The term of office of the other two directors, Jason D. Wadzinski and John F. Sheffs, continued after this action.
