Item 8.01 Other Events

In November 2005, Saul Centers, Inc. (the Company) acquired two shopping center properties. The initial purchase price of each of these acquisitions individually, as provided below, did not exceed 10% of the Company's total assets as of December 31, 2004, but the aggregate purchase price for both properties, along with the purchase price of a property purchased in March 2005, did exceed such amount. A Form 8-K was not filed for the March 2005 acquisition as the purchase price did not exceed 5% of the Company's total assets as of December 31, 2004.

On November 17, 2005, the Company acquired Jamestown Place, a 96,400 square foot neighborhood shopping center, located in Altamonte Springs, Florida. The center, constructed in 1986, was approximately 96% leased at the date of acquisition and is anchored by a 55,000 square foot Publix supermarket. The property was acquired for \$14.8 million. The Company has no material renovation, improvement or development plans for this property.

On November 30, 2005, the Company acquired Seabreeze Plaza, a 146,700 square foot neighborhood shopping center, in Palm Harbor, Florida. The center, constructed in 1985 and renovated in 2003 was 100% leased at the date of acquisition and is anchored by a 45,000 square foot Publix supermarket. The center was acquired for a purchase price of \$25.9 million, subject to the assumption of a \$13.6 million mortgage note with an interest rate of 5.28%. The Company has no material renovation, improvement or development plans for this property.

The acquisitions were made pursuant to separate acquisition agreements, the sellers of which were unrelated to the Company or each other. The purchase price of each property was funded from the Company's line of credit and cash on hand. In acquiring both properties, the Company evaluated the following factors:

the location and accessibility of the properties;

the geographic area and demographic characteristics of the surrounding communities, as well as the local real estate markets, including potential for growth and potential regulatory impediments to development;

the size of the properties;

the purchase prices;

the non-financial terms of the acquisitions;

the availability of funds or other consideration for the acquisitions and the costs thereof;

the fit of the properties with the Company's existing portfolio;

the potential for any environmental problems;

the current and historical occupancy rates of the properties as well as comparable and competing properties in the same market;

the quality of construction and design and the current physical condition of the properties;

Edgar Filing: SAUL CENTERS INC - Form 8-K

the financial and other characteristics (including market share) of the anchor tenants and the terms of existing anchor leases; and

the potential for capital appreciation.

The Company is not aware of any material factors relating to the properties other than those discussed above that would cause the financial information included in Item 9.01 below not to be necessarily indicative of future operating results.

Notes to Historical Statement of Revenues in Excess of Certain Operating Expenses

Period from January 1, 2005 through September 30, 2005 (unaudited) and the year ended December 31, 2004

1. Description of real property acquired

On November 17, 2005, Saul Centers, Inc. (the Company) acquired Jamestown Place (the Property), a 96,400 square foot neighborhood shopping center, located in Altamonte Springs, Florida for a purchase price of \$14.8 million from Sun Life Assurance Company of Canada. The center, constructed in 1986, was approximately 96% leased at the date of acquisition. The center is anchored by a 55,000 square foot Publix supermarket. The Company has no material renovation, improvement or development plans for this property. The Company is organized as a real estate investment trust and engages in ownership operation, management, leasing, acquisition, renovation, expansion, development and financing of community and neighborhood shopping centers and office properties primarily in the Washington, D.C./Baltimore metropolitan area.

2. Basis of accounting

The accompanying Historical Statement of Revenues in Excess of Certain Operating Expenses is presented in conformity with accounting principles generally accepted in the United States and in accordance with the applicable rules and regulations of the Public Company Accounting Oversight Board (United States) for the real estate acquired. Accordingly, the Historical Statement excludes certain historical expenses that are not comparable to the proposed future operations of the Property such as amortization, depreciation and corporate expenses. Therefore, the Historical Statement, as presented by the Company, will not be comparable to the Property's statement of operations as presented by Sun Life Assurance Company of Canada.

3. Significant accounting policies

Revenue recognition

Rental revenue is recognized on a straight-line basis over the terms of the related leases. The excess of recognized rental income over amounts due pursuant to lease terms is recorded as straight-line rent receivable. The impact of the straight-line adjustment increased revenue by approximately \$3,700 for the year ended December 31, 2004.

Use of estimates

Management is required to make estimates and assumptions that affect the reported amounts of revenues and expenses during the periods presented in order to prepare this Historical Statement of Revenues in Excess of Certain Operating Expenses in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

Unaudited interim Historical Statement

The Historical Statement of Revenues in Excess of Certain Operating Expenses for the period from January 1, 2005 through September 30, 2005 is unaudited. In the opinion of management, all adjustments, consisting of normal recurring accruals, necessary for a fair presentation of the Historical Statement of Revenues in Excess of Certain Operating Expenses for the interim period have been included. The results of operations for the interim period are not necessarily indicative of the results to be expected for the full year of the Property.

Property management fees

The Property was managed by Lincoln Realty Services pursuant to the terms of the management agreement. Property management fees were calculated at 4% of gross revenue collected.

4. Description of leasing arrangements

The retail space in the Property is leased to tenants under leases with terms that vary in length and conditions. Most leases contain operating expense and real estate tax recovery clauses and certain leases contain renewal options. All interests in all lease agreements were assigned to the Company upon its acquisition of the property.

Future minimum gross rental commitments for the years ended December 31 are as follows:
