## THE BOARD, ITS COMMITTEES AND ITS COMPENSATION

Our Board of Directors is responsible for establishing broad corporate policies and for overseeing the overall management of the Company. In addition to considering various matters which require its approval, our Board of Directors provides advice and counsel to, and ultimately monitors the performance of, our senior management.

### Board Leadership Structure and Committee Composition

The Board of Directors takes a flexible approach to the issue of whether the offices of Chairman and Chief Executive Officer ( CEO ) should be separated or combined. This approach allows the Board to regularly evaluate whether it is in the best interests of the Company for the CEO or another director to hold the position of Chairman. Currently, the Company has separated the position of Chairman of the Board and Chief Executive Officer since the Company emerged from bankruptcy in January 2008. We believe that this is the appropriate leadership structure, as it permits our Chief Executive Officer, Mr. Keller, to focus his attention on running the business and developing corporate strategy, while our Chairman of the Board, Mr. Macaluso, provides independent leadership to the Board of Directors in performing its advisory, governance and oversight functions.

The Board of Directors has three (3) standing committees: the Audit Committee, the Compensation Committee, and the Nominating and Corporate Governance Committee.

The current membership of the standing committees is as follows:

Charles Macaluso		X	
Carl Bartoli	X		X
Terence J. Cryan		Chairman	Chairman
Eugene I. Davis	Chairman		X
Michael E. Salvati	X		X
Frank E. Williams, Jr.	X	X	

**Audit Committee.** The Audit Committee assists the Board of Directors in overseeing our accounting and financial reporting processes and the audits of our consolidated financial statements, including monitoring the integrity of our financial statements and the independence and performance of our independent registered public accounting firm. The Audit Committee appoints and oversees an independent registered public accounting firm to audit our financial statements. In addition, the Audit Committee approves the scope of the annual audits and fees to be paid to our independent registered public accounting firm. The Audit Committee held five (5) meetings during 2011.

The Audit Committee regularly reviews and reassesses the adequacy of its Audit Committee Charter. A copy of the current Audit Committee Charter is available under the heading Corporate Governance of the Investor Relations section of our website at <http://www.globalpower.com/>.

Our Board of Directors has determined that:

Messrs. Bartoli, Davis, Salvati and Williams each qualifies as an audit committee financial expert, as defined by Item 407(d)(5) of Regulation S-K of the Securities Exchange Act of 1934, as amended (the Exchange Act );

has not participated in the preparation of the financial statements of the Company or any current subsidiary of the Company at any time during the past three years, and

is able to read and understand fundamental financial statements, including a company's balance sheet, income statement and cash flow statement.

**Compensation Committee.** The Compensation Committee reviews the performance of our executive officers, establishes compensation programs for the executive officers (including salary and short and long-term incentive programs) and reviews the overall compensation programs of the Company. The Compensation Committee also administers our stock incentive plans and awards. During 2011, the Compensation Committee held nine (9) meetings.

The Compensation Committee regularly reviews and reassesses the adequacy of its Compensation Committee Charter. ### **Director Independence**

Our Board of Directors has reviewed the criteria for determining the independence of our directors under Nasdaq and Securities and Exchange Commission ( SEC ) rules. It has affirmatively determined that each of Messrs. Macaluso, Bartoli, Cryan, Davis, Salvati and Williams is independent under such criteria. Accordingly, during 2011 and continuing through the date of this proxy statement, our Board of Directors has been comprised of a substantial majority of directors who qualify as independent directors under the rules adopted by the SEC and Nasdaq.

In considering the independence of our directors, the Board of Directors specifically addressed those matters disclosed in Certain Relationships and Related Transactions, beginning on page 41 below. The Compensation Committee oversees our compensation programs and reviews the conduct incented by those programs, including the impact on risk-taking by our executive officers and employees, as further described under Compensation Discussion and Analysis Risk Assessment beginning on page 26 below. The Nominating and Corporate Governance Committee oversees the organization, membership and structure of our Board of Directors and our corporate governance practices. The Committee members regularly report to the full Board of Directors on material developments in their areas of oversight.

Any mail received by the Corporate Secretary will then be forwarded to the members of the Board of Directors or the appropriate committee for further action, if necessary. The non-management directors have requested that the Corporate Secretary not forward to them advertisements, solicitations for periodicals or other subscriptions, and other similar communications.

### **Director Compensation**

The compensation of our directors is determined by the Nominating and Corporate Governance Committee subject to approval by the entire Board of Directors. The objectives for our non-employee director compensation program are to attract highly-qualified individuals to serve on the Board of Directors and align directors' interests with the interests of our stockholders. The Nominating and Corporate Governance Committee reviews the program periodically to ensure that it continues to meet these objectives. To determine whether the director compensation program is competitive, the Nominating and Corporate Governance Committee considers general market information on program design. In recommending director compensation levels, the Nominating and Corporate Governance Committee also considers the significant amount of time that directors expend in fulfilling their duties to the Company as well as the skill level required by the Company of members of the Board of Directors. The Nominating and Corporate Governance Committee recommends any change it considers appropriate to the full Board of Directors for its review and approval, and includes the relevant information and data for the Board of Directors to use in its considerations.

Directors who are employed by our Company or any of our subsidiaries do not receive compensation for serving as directors. Directors who are not employees of our Company or any of our subsidiaries are entitled to receive:

an annual retainer as follows:

\$47,500 for each non-employee director;

\$10,000 for membership in each committee;

\$50,000 for the Board of Directors Chairperson;

\$20,000 for the Audit Committee Chairperson;

\$13,750 for the Compensation Committee Chairperson, and

\$13,750 for the Nominating and Corporate Governance Committee Chairperson.

In addition, directors are entitled to receive

a meeting fee of \$1,500 for each Board of Directors meeting attended in person;

a meeting fee of \$1,000 for each Board of Directors meeting attended telephonically;

a meeting fee of \$1,000 for each committee meeting attended in person or telephonically; and

a meeting fee of \$1,500 for each Board of Directors or committee meeting attended in person outside of normal Board and committee meetings.

We provide directors with an annual allowance in respect of continuing education, the amount of which is set by the Board of Directors from time to time. For 2012, this amount has been set at \$10,000, which will remain in effect until such amount may be changed by the Board of Directors. We also reimburse non-employee directors for out-of-pocket expenses incurred in connection with attending Board and committee meetings.

On January 22, 2011, each of the non-executive directors received 3,365 restricted shares of our Common Stock (which consisted of \$80,020 worth of shares calculated based on the closing price of our Common Stock on January 21, 2011) under our 2008 Director's Equity Incentive Plan. Of the 3,365 restricted shares, 842 shares vested on January 22, 2012 and 841 shares will vest on each of January 22, 2013, 2014 and 2015, subject to continued service as a director through the vesting dates.

**PROPOSAL NO. 2****RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee has appointed BDO USA, LLP as the Company's independent registered public accounting firm for 2012. The Board of Directors is asking stockholders to ratify this appointment. Although SEC regulations and the Nasdaq listing requirements require the Company's independent registered public accounting firm to be engaged, retained, and supervised by the Audit Committee, the Board considers the selection of an independent registered public accounting firm to be an important matter to stockholders. Accordingly, the Board considers a proposal for stockholders to ratify this appointment to be an opportunity for stockholders to provide input to the Audit Committee and the Board on a key corporate governance issue.

Representatives of BDO USA, LLP are expected to be present at the Annual Meeting and will be offered the opportunity to make a statement if they so desire. They will also be available to answer questions.

All audit and non-audit services for 2011 were pre-approved by the Audit Committee.

When considered necessary, management prepares an estimate of fees for the service and submits the estimate to the Audit Committee for its review and pre-approval. Any modifications to the estimates will be submitted to the Audit Committee for pre-approval at the next regularly scheduled Audit Committee meeting. All fees paid to our independent registered public accounting firm during 2011 were in accordance with this pre-approval policy.

**Required Vote**

Ratification of the appointment of BDO USA, LLP as our independent registered public accounting firm for the year ending December 31, 2012 requires the affirmative vote of a majority of the votes cast at the Annual Meeting. Abstentions will have no effect on the results of this vote. Brokerage firms have authority to vote customers' unvoted shares held by the firms in street name on this proposal. If a broker does not exercise this authority, such broker non-votes will have no effect on the results of this vote.

If the stockholders fail to ratify the appointment, the Audit Committee will reconsider its selection. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

**Recommendation of the Board of Directors**

**The Board recommends a vote FOR ratification of the appointment of BDO USA, LLP as the Company's independent registered public accounting firm for 2012.**

## EXECUTIVE COMPENSATION

### Compensation Discussion and Analysis

This Compensation Discussion and Analysis provides an analysis of the compensation arrangements and decisions with respect to David L. Keller Chief Executive Officer; David L. Willis Chief Financial Officer; Dean J. Glover President of our Products Division; Kenneth W. Robuck President of our Services Division; and Gene F. Schockemoehl, Senior Vice President and President of Braden Manufacturing, L.L.C. We sometimes refer to these executives as our named executive officers.

### Executive Summary

We are committed to providing total direct compensation consisting of base salary, annual incentives and long-term incentives that supports our business strategies and aligns the interests of our executives with the interests of our stockholders. As a result, a meaningful portion of our named executive officers total direct compensation is variable and contingent upon financial and strategic performance.

The fixed components of total direct compensation include base salary and time-based restricted stock units, which generally vest in equal installments over a four-year period to enhance our retention incentives. The variable compensation elements consist of the following items:

An annual incentive opportunity, which is paid in cash based on the extent to which certain annual operating income and individual performance goals are achieved. The annual incentive opportunity helps to retain our named executive officers and encourages them to strive to achieve annual goals and initiatives.

An award of performance-based restricted stock units. The performance-based restricted stock units vest over time based in part on achievement of the annual operating income goal and in part on continuing employment of the named executive officer. The long-term incentive encourages our named executive officers to continue to make decisions and to deliver results over a broader time period, thus keeping a focus on the long-term horizon and the retention of our executives.

We supplement our pay-for-performance program with a number of compensation policies that are aligned with the long-term interests our stockholders. For example:

*Stock Ownership Policy.* Our stock ownership policy requires the officers and directors of the Company to hold a minimum level of the Company's shares of Common Stock to ensure that each executive has personal wealth tied to the long-term success of the Company and is therefore aligned with stockholders.

*Claw-Back Policy.* We maintain a claw-back policy, under which we may require the reimbursement of any incentive compensation paid to the executive officers of the Company if the payment was predicated upon financial results that were subsequently the subject of a restatement.

*No Excise Tax Gross-Ups.* We do not provide excise tax gross-ups for severance benefits received in connection with a change in control of the Company.

*No SERP.* We do not maintain a supplemental executive retirement plan, or any other type of defined benefit retirement plan.

### Our Compensation Objectives

Our compensation objectives are as follows:

Edgar Filing: GLOBAL POWER EQUIPMENT GROUP INC. - Form DEF 14A

to provide a target total reward opportunity sufficient to attract and retain high-caliber executives who can effectively manage Global Power's complex global business, taking into account the competitive marketplace as well as each executive's experience and performance;

to link the majority of the total compensation opportunity to performance-based incentives, annual financial and strategic goals, and the creation of sustainable stockholder value consistent with Global Power's long-term strategic goals;

to align our executives' interests with those of our stockholders by making stock-based incentives a core element of our executives' compensation;

to recognize the cyclical nature of our business and the need to manage for value throughout the business cycle; and

to provide flexibility to recognize, differentiate and reward individual performance.

#### **Consideration of Results of Shareholder Advisory Votes on Executive Compensation**

As required by the Dodd-Frank Wall Street Reform and Consumer Protection Act, we included two stockholder votes on executive compensation in our 2011 proxy statement. In those votes, which were advisory and not binding, our stockholders approved the compensation of our named executive officers as disclosed in the 2011 proxy statement (commonly referred to as a "say-on-pay" vote) and approved our Board's recommendation to hold future say-on-pay votes on an annual basis. The Compensation Committee views the results of these advisory votes, especially the strong support (approximately 99% of the votes cast) for the say-on-pay proposal, as confirmation that our compensation program, including our emphasis on pay-for-performance, is structured and designed to achieve our stated goals and objectives. We will continue to emphasize pay-for-performance alignment, and our 2011 compensation program for the named executive officers, as described below, continues to reflect this philosophy.

#### **Benchmarking**

We believe that each element of our compensation program should remain competitive in order to retain, and, if necessary, attract experienced, high-caliber executives. To achieve this objective, the Compensation Committee generally attempts to establish base salary, annual incentive and long-term incentive opportunities at the approximated median of the competitive market data described below. However, market data is regarded as a general reference point. The Compensation Committee retains the flexibility to make adjustments in order to respond to market conditions, promotions, individual performance or other relevant circumstances.

To help determine the competitive market, the Compensation Committee retained the consulting firm Towers Watson to review competitive compensation data, compare current Global Power compensation levels to the market, and assist in establishing compensation levels in 2011. In response, Towers Watson provided information about the market levels for the following components of our executives' compensation:

Base salary;

Target annual incentives;

Total target cash compensation, which is base salary plus target annual incentives;

Long-term incentive awards; and

Total direct compensation, which is total target cash compensation plus long-term incentive awards.

The market data was derived from several sources, including the companies in a compensation peer group established by the Compensation Committee, with the advice of Towers Watson, and selected compensation surveys. Each of these sources is described below.

*Compensation Peer Group.* At the Compensation Committee's request, management worked with Towers Watson to establish a compensation peer group of companies that reasonably corresponds to the market for executive talent. To be included in the peer group, a company had to have (i) the same General Industry Classification as Global Power and (ii) similar lines of business and operations as Global Power. The

Compensation Committee wanted the peer group to be weighted more toward those providing services to reflect the industry shift of Global Power. Using these criteria, the Compensation Committee, upon the advice and recommendation of Towers Watson, established the following compensation peer group for 2011 compensation decisions:

Ameron International Corporation	Matrix Service Company
Astec Industries, Inc.	McDermott International, Inc.
Azz Incorporated	MYR Group Inc.
Chicago Bridge and Iron Company N.V.	PMFG Inc.
Donaldson Company, Inc.	Quanta Services, Inc.
Dycom Industries, Inc.	The Shaw Group Inc.
Foster Wheeler AG	Team Industries, Inc.
Graham Corporation	Willbros Group, Inc.
Aegion Corporation	

The 17 companies had a revenue range of \$60 million to \$7.2 billion, with median revenue of \$800 million.

Towers Watson gathered compensation data from the proxy statements filed by each member of the peer group. The peer group compensation data were adjusted to Global Power's corporate or division revenue, where applicable. To address the fact that the median peer group size was larger than Global Power's revenue, Towers Watson regressed or size-adjusted the peer group data for benchmarking purposes, using the applicable Global Power corporate or division revenues. Regression is a statistical technique that analyzes the relationship between two variables. In compensation analysis, it is most often used to measure the relationship between compensation and company revenue (or some other factor that strongly indicates the scope of a position). In this case, revenue was used.

*Compensation Surveys.* Towers Watson also used survey information collected from the 2009/2010 Watson Wyatt Top Management Compensation Survey, the 2009 Towers Perrin General Industry Executive Database, and the 2009 Mercer Executive Compensation Survey. Each survey is based on an extensive database comprised of 100 to 1,000 companies depending on the position. Together, the surveys provide a general overview of the market with respect to compensation levels.

*Coordination of the Various Sources of Market Data.* Recognizing that each data source has its own strengths and weaknesses, Towers Watson combined the data from the compensation peer group with the survey sources to provide different reference points and a broader context for assessment. In general, Towers Watson tailored the market data for each named executive officer to ensure that (i) executive roles were matched to market comparable positions based on job responsibilities and (ii) where applicable, premiums or discounts were applied to reflect additional incumbent responsibilities or the appropriate level of the position within the organization. Because the peer group and survey data sources were seen as equally relevant sources of market data, each generally was weighted equally to assess the competitiveness of the compensation levels at Global Power.

*Changes for 2012.* For 2012, upon the advice and recommendation of Towers Watson, the Compensation Committee modified the compensation peer group to (i) remove two of the largest companies in the group—The Shaw Group Inc. and McDermott International Inc.; (ii) remove the smallest company—Graham Corporation—and add Powell Industries in its place; (iii) remove Ameron International Corporation and add The Babcock and Wilcox Company; and (iv) make other revisions to reflect corporate transactions that occurred in 2011. The Compensation Committee believes that this new group, consisting of 15 companies with a revenue range of \$122 million to \$4.1 billion and a median revenue of \$915 million, better reflects the current market in which we compete for executive talent.

## Elements of Total Direct Compensation

A brief summary of the components of the base salary, annual incentive opportunities and long-term incentive opportunities for our named executive officers is set forth below.

### *Annual Base Salaries*

The Compensation Committee intends to provide our named executive officers with competitive base salaries that are commensurate with their job responsibilities, experience and performance.

As part of its annual management performance evaluation, the Compensation Committee reviewed the base salary levels of the named executive officers to determine whether any adjustments were appropriate for 2011. The Compensation Committee reviewed the survey data, performance evaluations conducted by the Chief Executive Officer, and base salary histories. Based on this review, the Compensation Committee approved a 2% to 3% base salary merit increase for the named executive officers other than Mr. Willis and Mr. Keller. This merit increase was in line with the 2.5% merit pool authorized for the general employee population. The Compensation Committee also approved a 6% salary increase for Mr. Willis and a 10% salary increase for Mr. Keller in an effort to bring their base salary levels closer to the market median levels for their position.

For more information about the 2011 base salaries for each of our named executive officers, please refer to the Salary column of and the related footnotes to the Summary Compensation Table on page 28.

### *Annual Incentive Compensation*

The Compensation Committee grants annual incentive opportunities to our named executive officers to motivate them to increase the value of the Company.

### *Annual Incentive Opportunities*

In 2011, the Compensation Committee established threshold, target and maximum award opportunities for each of the named executive officers, which were expressed as a percentage of base salary. The Compensation Committee increased Mr. Willis's target annual incentive opportunity to bring it closer to the market median of the survey data. The Committee did not adjust the target annual incentive opportunity for each of the other named executive officers, because the levels were already competitively positioned for his role. The threshold, target and maximum levels are set forth in the table below.

	<b>Threshold</b>	<b>Target</b>	<b>Maximum</b>
D. Keller	40%	80%	160%
D. Willis	32.5%	65%	130%
D. Glover	32.5%	65%	130%
K. Robuck	32.5%	65%	130%
G. Schockemoehl	27.5%	55%	110%

### *Performance Goals*

The annual incentive opportunity for each named executive officer was allocated as follows: (i) 70% was based on the extent to which we achieved certain financial performance goals set forth below; and (ii) the remaining 30% was based on the extent to which the executive achieved specified individual goals set forth below.

### Financial Goals 70%

In 2011, the Compensation Committee decided to change the financial performance goal under the annual incentive plan from EBITDA to an equivalent percentage of specified divisional operating income performance goals. The Compensation Committee believed that operating income would be a more appropriate measure going

forward because it is tied to a GAAP (Generally Accepted Accounting Principles) measure. For this purpose, we define operating income as the subtotal of net income or (loss) for the year plus (a) the following to the extent deducted in calculating net income for such period: interest charges; letter of credit fees; the provision for federal, state, local and foreign income taxes; other non-recurring, non-cash expenses; and any other non-cash write-downs or non-cash write-offs including fixed asset impairment or write-downs, intangible asset impairments, deferred tax asset write-offs and non-cash stock compensation expenses; and minus (b) the following, to the extent included in calculating such net income: federal, state, local and foreign income tax benefits recorded by the Company; interest income; and all extraordinary, non-recurring, non-cash items increasing net income for such period.

The Compensation Committee established threshold, target and maximum performance levels for the operating income goals for both the corporate and divisional level executives. If actual performance for an operating income goal fell below the threshold level, then no bonus would be funded with respect to that goal. If actual performance for an operating income goal exceeded the maximum performance level, then the bonus for that goal would be capped.

For 2011, the financial performance goal for Messrs. Keller and Willis was based on the subtotal of the Products and Services operating income goals because they have broad overall responsibilities across all business units. The financial performance goals for the remaining executive officers were based 70% on their divisional goal (Mr. Glover Products, Mr. Robuck Services and Mr. Schockemoehl Braden Manufacturing, L.L.C.) and 30% on the subtotal of the Products and Services operating income to reflect their individual areas of focus.

The 2011 operating income targets and actual performance results for purposes of the annual incentive plan were as follows:

	Threshold	Target	Maximum	Actual	Achievement Level
Products OI <sup>(1)</sup>	\$ 14,064,000	\$ 17,580,000	\$ 24,153,000	\$ 24,063,000	198.6%
Services OI	\$ 20,870,000	\$ 26,088,000	\$ 33,861,000	\$ 25,782,000	96.1%

- (1) Reflects adjusted targets for the Products Division. The Product Division's operating income targets were adjusted in connection with the sale of the Deltak business to Hamon Corporation on August 31, 2011 to reflect the \$2.3 million of operating income that management forecasted for Deltak for the final four months of the year. The adjusted targets took into account the fact that Deltak was operated in the ordinary course throughout the sale process, and also ensured that the completion of the sale would not adversely impact the achievement of such targets. The Compensation Committee decided that this approach was appropriate given the strategic nature of the Deltak divestiture.

#### Individual Goals 30%

The Compensation Committee bases a meaningful portion of the annual incentive opportunity on the achievement of individual goals, in order to provide flexibility to recognize, differentiate and reward individual performance. The individual goals were developed and approved by the Compensation Committee in consultation with the Chief Executive Officer. The individual goals for each named executive officer consisted of a combination of strategic and operational objectives, including those set forth in below:

*Mr. Keller:* Achieving merger and acquisition objectives; implementing an executive management succession plan; improving the safety culture at the Company; and developing a revised investor relations strategy.

*Mr. Willis:* Maintaining effective internal controls; developing a revised investor relations strategy; supporting merger and acquisition objectives; and implementing enterprise risk management objectives.

*Mr. Glover:* Achieving merger, acquisition and divestiture objectives; achieving improvements in safety; and implementing enterprise risk management objectives.

*Mr. Robuck:* Achieving improvements in safety; restructuring the sales and business development department; implementing the strategic plan in our Services Division; and successful completion of existing projects with major clients.

*Mr. Schockemoehl:* Achieving quality and on-time delivery objectives; achieving improvements in safety; achieving new product improvements across the product line; and implementing enterprise risk management objectives.

The Compensation Committee reviewed Mr. Keller's performance with respect to his 2011 individual goals. With regard to the other named executive officers, Mr. Keller made recommendations to the Compensation Committee concerning the level of performance of each officer with respect to the person's goals for 2011. After taking Mr. Keller's recommendations into consideration, and after making its own assessment of each person's performance, the Compensation Committee approved the following individual achievement levels, as a percentage of target: Keller 156.67%; Willis 165.00%; Glover 160.00%; Robuck 163.33%; and Schockemoehl 150.00%.

#### *Payouts*

The aggregate financial and individual achievement levels, as a percentage of the 2011 target annual incentive for each named executive officer, were as follows: Keller 147.14%; Willis 149.64%; Glover 175.37%; Robuck 126.14%; and Schockemoehl 156.91%. The amount of the 2011 annual incentive payments for each named executive officer is set forth in the Non-Equity Incentive Plan Compensation column of, and the related footnotes to, the Summary Compensation Table of this proxy statement at page 28.

For more information on the 2011 annual incentive opportunities for our named executive officers, please refer to the Grants of Plan-Based Awards During 2011 section of this proxy statement at page 30.

#### *Long-Term Incentive Compensation*

We view grants of equity to our named executive officers as a means of motivating them to increase the value of the Company over time and as a means of encouraging them to remain in the Company's employ.

When considering appropriate award levels, the Compensation Committee considers its assessment of each executive's general performance during the year, as well as their relative roles and responsibilities and potential within the Company, the estimated accounting expense, the potential dilution that will occur to our stockholders and the median levels of the market survey.

Once the Compensation Committee established the target number of shares of Common Stock for each named executive officer, one half of the amount was awarded as time-based restricted stock units and the other half was awarded as performance-based restricted stock units.

*Time-Based Restricted Stock Units.* In order to enhance our retention incentives, the restricted stock units generally vest in equal installments over a four year period, provided that the executive remains employed on the applicable vesting date.

*Performance-Based Restricted Stock Units.* In order to enhance our pay-for-performance philosophy, the performance-based restricted stock units generally vest in equal installments over a four year period, provided that (i) the Company attains its operating income annual target under the annual incentive plan for the applicable year, and (ii) the executive remains employed on the applicable vesting date.

The following chart illustrates the number of time-based restricted stock units and performance-based restricted stock units granted to each named executive officer in 2011.

	# of Time-Based Restricted Stock Units	# of Performance-Based Restricted Stock Units
D. Keller	16,752	16,748
D. Willis	5,000	5,000
D. Glover	4,000	4,000
K. Robuck	5,000	5,000
G. Schockemoehl	2,750	2,750

The Compensation Committee believed that the number of shares granted to each of our named executive officers as reflected in the table above was appropriate in light of the relative contributions to our success made and expected to be made by each individual named executive officer.

#### *Payout of Awards*

As described above under the description of *Annual Incentive Compensation*, our 2011 operating income for purposes of the annual incentive plan was \$49,845,000, which exceeded the target level of \$43,668,000. As a result, the performance-based restricted stock units allocated to the 2011 performance period (*i.e.*, 12.5% of the 2008, 2009, 2010 and 2011 grants) were fully earned by the named executive officers. For each named executive officer's actual payout, please refer to the 2011 Stock Vested section on page 32 of this proxy statement.

#### **Severance and Change in Control Protections**

The Company maintains employment agreements for each of its named executive officers in order to attract and retain highly-qualified executives and to protect the Company's interests. The Company believes that maintaining employment agreements with our named executive officers promotes stability at the Company, which is important given the highly competitive nature of the market in which it operates.

Each named executive officer is entitled to severance benefits under his employment agreement in the event of an involuntary termination of employment without cause or a termination by the executive for good reason. In exchange for the severance benefits, the named executive officers must sign a release of claims against the Company, agree not to disclose Company confidential information, and agree not to compete against the Company or solicit its employees or customers for one year after termination. These provisions protect the Company's interests and help to ensure its long-term success. Each named executive officer other than Mr. Keller is also entitled to severance if the Company elects not to renew the term of his agreement.

The restricted stock units granted to our named executive officers provide for full accelerated vesting of all restricted stock units (including both time-based and performance-based restricted stock units) if the Company undergoes a change of control. The committee believes that the immediate vesting upon a change of control in our restricted stock unit agreements is appropriate on the basis that our named executive officers should receive the full benefit of restricted share units if the Company is sold or otherwise comes under the control of an outside party. The named executive officers are not entitled to enhanced cash severance benefits as the result of a change in control, and we do not provide excise tax gross-up protection with respect to any benefits received in connection with a change of control.

Please refer to the Estimated Payments Upon Termination Without Cause or Related to a Change in Control section of this proxy statement on page 33 for information regarding potential payments and benefits, if any, that each named executive officer is entitled to receive under his employment agreement or outstanding and unvested restricted stock unit awards.

### Retirement and Welfare Benefits

We make available to each of our named executive officers certain benefits that are generally available to all salaried employees, including medical, dental, vision, life, accidental death and dismemberment, travel accident and short and long-term disability insurance. All of our named executive officers are entitled to participate in the Company's 401(k) plan and its flexible spending benefit plan and four weeks of paid vacation each year. We make these benefits available so that we can provide a competitive compensation package to our salaried employees and our named executive officers.

### Perquisites

We provide our named executive officers modest perquisites, such as:

a housing allowance of \$1,500 per month, and an automobile allowance of \$650 per month for Mr. Keller to cover his costs while working away from home;

reimbursements for executive physicals and tax return preparation (other than for Mr. Keller), which we believe are important to the physical and financial stability of our executive team;

reimbursement of country club dues for each of Messrs. Glover, Robuck, Schockemoehl and Willis, which was included in each such executive's employment agreement although not exercised by either Messrs. Schockemoehl or Willis in 2011; the Compensation Committee has decided to discontinue this practice for new hires;

an automobile allowance for Mr. Robuck of \$7,800 per year; and

relocation benefits for Mr. Willis of \$35,577 in connection with our move from Tulsa, Oklahoma to our new headquarters in Irving, Texas in 2011.

The Company believes that these perquisites are reasonable in amount and provide our named executive officers with benefits comparable to those they would receive at other companies within the compensation peer group.

For more information about the perquisites provided in 2011 to each named executive officer, please refer to the All Other Compensation column of and the related footnotes to the Summary Compensation Table on page 28.

### Stock Ownership Guidelines

The Board recognizes that ownership by the directors and the named executive officers in the Company's Common Stock will align their interests with the interests of the Company's stockholders. The Compensation Committee undertook to review (i) the market practices of the Company's compensation peer group, (ii) a September 13, 2010 survey conducted by Frederic W. Cook & Co., Inc. regarding Executive Stock Ownership Policies Trends and Developments, and (iii) management's recommendations regarding different structure alternatives. On January 24, 2011, the Compensation Committee approved the following stock ownership guidelines for the Company's directors and named executive officers:

for the Chief Executive Officer, the lesser of three times his or her base salary or 75,000 shares;

for the other named executive officers, the lesser of two times his or her base salary or 40,000 shares; and

## Edgar Filing: GLOBAL POWER EQUIPMENT GROUP INC. - Form DEF 14A

for the members of the Board of Directors, the lesser of three times his or her annual cash retainer or 8,000 shares. The target date for the existing directors and named executive officers to meet these stock ownership guidelines is January 1, 2015 and the target date for any new directors or named executive officers to meet these stock ownership guidelines is five years from the date of his or her appointment or date on which he or she begins employment at the Company. For purposes of these guidelines, the director or named executive officer will be deemed to own the Company's shares that are beneficially owned by such person, including equity

awards that will payout within 60 days of the applicable measuring date. The following table summarizes the progress of our named executive officers toward satisfying the applicable stock ownership requirement as of April 12, 2012.

Named Executive Officer	Ownership Guidelines for Shares or Units	
	by 1/1/2015 (based on 4/12/2012 stock price)	Beneficial Ownership of Shares or Units as of 4/12/2012
D. Keller	61,778	61,228
D. Willis	24,006	88,758
D. Glover	25,033	117,449
K. Robuck	26,300	81,490
G. Schockemoehl	22,497	150,499

The Compensation Committee will periodically review and adjust, if appropriate, the fixed number of shares based on stock price, adjustments to compensation, evolving market practices, and such other factors as it deems appropriate. In establishing a named executive officer's total direct compensation each year, the Compensation Committee may consider each named executive officer's compliance with these guidelines.

#### Claw-back Policy

On November 10, 2010, the Board approved a compensation recovery policy applicable to executive officers, including the named executive officers. In general, the policy provides that, for every annual incentive or other performance-based compensation awarded to a named executive officer on or after January 1, 2011, the named executive officer must repay or forfeit compensation received by him or her from such award if:

the payment, granting or vesting of such compensation was based on the achievement of financial results that were subsequently the subject of a restatement of the Company's consolidated financial statements;

the Board determines in its sole discretion that the named executive officer engaged in fraud or misconduct that caused or contributed to the need for the restatement;

the named executive officer received more compensation than he or she would have had if the financial results had been properly reported; and

the Board determines in its sole discretion that it is in the best interests of the Company and its stockholders for the named executive officer to repay or forfeit all or any portion of the compensation.

The Board has the full and final authority to make all determinations under the policy, including whether it applies and, if so, the amount of compensation to be repaid or forfeited. Each named executive officer was required to sign an agreement that he had received, read and understood the policy. In addition, the policy provides that repayment and forfeiture remedies are not the exclusive remedies and that the Company may pursue every other right or remedy at law or in equity available. The Board has taken pro-active steps to comply with future requirements regarding compensation recovery.

#### Risk Assessment

The Company believes that its compensation policies and practices for all employees, including executive officers, do not create risks that are reasonably likely to have a material adverse effect on the Company. Although a significant portion of our executive compensation program is performance-based, we have focused on aligning our compensation policies with the long-term interests of our stockholders and avoiding rewards that could create excessive or inappropriate risks to the Company, as evidenced by the following:

Our executive compensation program reflects an appropriate mix of compensation elements and balances current and long-term performance objectives, cash and equity compensation, and risks and rewards associated with executive roles.

We use financial and individual performance goals that are consistent with our business objectives and correlate to long-term value. The individual goals for the officers consist of a combination of strategic and operational objectives. Our performance goals are set at levels that we believe are reasonable in light of past performance and market conditions.

We do not use highly-leveraged performance goals. Instead, incentive opportunities are based on balanced performance metrics that promote disciplined progress toward long-term goals, and all payouts are capped at a pre-established percentage of the target payment opportunity.

Our financial goals and results directly tie to our audited financial statements, subject to adjustments outlined in our incentive plans. These results are highly scrutinized by our finance and accounting departments as well as our external auditor.

We retain discretion to adjust compensation levels based on the quality of Company performance, individual performance and adherence to the Company's ethics and compliance programs, among other things.

Our long-term incentive opportunities generally vest over a period of four years in order to focus our executives on long-term performance and enhance retention. Our performance shares are granted annually and have overlapping four-year performance periods, so any risks taken to increase the payout under one award could jeopardize the potential payouts under other awards.

Utilizing the expertise of outside consultants, we evaluate our compensation programs and practices against our established peer group to confirm that our compensation programs are consistent and competitive with market practice.

As described above, we have adopted several risk mitigating strategies, such as stock ownership guidelines and a claw-back policy .

#### **Section 162(m) of the Tax Code**

Section 162(m) of the Internal Revenue Code provides that the Company generally may not deduct, for federal income tax purposes, annual compensation in excess of \$1 million paid to certain named executive officers. Certain performance-based compensation paid pursuant to shareholder approved plans is not subject to the deduction limit.

The performance-based restricted stock units granted to certain of our named executive officers generally are intended to qualify as performance-based compensation for purposes of Section 162(m) and be deductible for federal income tax purposes. Given our net operating loss carryforwards available to offset taxable income, the Compensation Committee has not adopted a policy that requires all compensation to be deductible. In this regard, the Compensation Committee wants to preserve the ability to award cash or equity compensation to an executive that is not deductible under Section 162(m) if we believe that it is in our stockholders' best interests.

## COMPENSATION COMMITTEE REPORT

The Compensation Committee, comprised of independent directors, reviewed and discussed the above Compensation Discussion and Analysis with the Company's management. Based on that review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement and incorporated in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

- (1) This column reflects the aggregate grant date fair value of restricted stock units granted to our named executive officers in the applicable year, computed in accordance with FASB ASC Topic 718. For each year covered by the Summary Compensation Table, the Compensation Committee approved a restricted stock unit award for each of the named executive officers that vests in equal installments over a four-year period. One half of each restricted stock unit award vests based on continued employment (time-based RSUs) and the other half of the restricted stock unit award vests based on both continued employment and the satisfaction of separate performance goals that are established for each year in the four-year vesting period (performance-based RSUs). We consider each annual installment of performance-based RSUs to be the subject of a separate annual grant for purposes of reporting the value of stock awards in the Summary Compensation Table. Thus, for example, the value reported above for 2011 stock awards to our named executive officers consists of the

Edgar Filing: GLOBAL POWER EQUIPMENT GROUP INC. - Form DEF 14A

grant date fair value of the time-based RSUs approved by the Compensation Committee in 2011 and the grant date fair value of 25% of any performance-based RSUs approved by the Compensation Committee in each of 2008, 2009, 2010 and 2011. Additional details

regarding 2011 stock awards can be found in the table 2011 Grants of Plan-Based Awards on page 30. For a discussion of the assumptions we made in valuing the stock awards, see Note 2 Summary of Significant Accounting Policies Stock-Based Compensation Expense in the notes to our consolidated financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2011. Certain numbers for the prior year have been updated to better reflect how the Company accounts for restricted stock unit awards.

- (2) This column reflects amounts earned by our named executive officers under our annual Incentive Compensation Plan. The terms of the plan are described more fully in the Compensation Discussion and Analysis section of this proxy statement beginning on page 18.
- (3) The amounts in the All Other Compensation column are valued on the basis of the aggregate incremental cost to us and consist of the following compensation items for 2011: for Mr. Keller, 401(k) matching contributions of \$9,837, a housing allowance of \$18,000 and a car allowance of \$7,800; for Mr. Willis, tax preparation expenses of \$535, 401(k) matching contributions of \$6,662 and relocation expenses of \$35,577; for Mr. Glover, tax preparation fees of \$475, 401(k) matching contributions of \$8,095 and country club dues of \$6,869; for Mr. Robuck, tax preparation expenses of \$1,500, 401(k) matching contributions of \$9,800, car allowance of \$7,800 and country club dues of \$4,225; and for Mr. Schockemoehl, tax preparation fees of \$1,100 and 401(k) matching contributions of \$8,990.
- (4) Mr. Keller was appointed as our President and Chief Executive Officer effective September 14, 2009.

#### **Employment Agreements**

The key terms of the employment agreements with each of our named executive officers are set forth below.

**David L. Keller's Employment Agreement.** Effective as of September 14, 2009, we entered into a three-year employment agreement with Mr. Keller, our President and Chief Executive Officer. We also agreed to use our best efforts to cause him to be elected to our Board of Directors at each stockholder meeting at which the directors are elected.

Pursuant to his employment agreement, Mr. Keller receives a salary of no less than \$435,000 per year and is entitled to an annual bonus opportunity under our annual Incentive Compensation Plan, with a target bonus equal to 80 percent, and a maximum bonus equal to 160 percent, of his base salary. Mr. Keller is entitled to participate in our 401(k) and flexible benefit plans and to four weeks of paid vacation per year. We also provide to Mr. Keller life, accidental death and dismemberment, short and long-term disability, business travel accident insurance (but not medical or dental insurance), cover the costs of housing and car allowances, and reimburse his documented business expenses.

The term of Mr. Keller's employment agreement expires on September 13, 2012. The employment agreement provides that not later than June 13, 2012, the Company and Mr. Keller will discuss whether or not they then mutually agree that the term of Mr. Keller's employment should be extended for an additional year through September 13, 2013, and if they do so mutually agree, each will confirm that fact in a writing delivered to the other by not later than July 13, 2012. It is currently intended that the discussions concerning a potential extension of Mr. Keller's employment agreement beyond September 13, 2012 will be concluded on or before July 13, 2012.

**Employment Agreements with Our Other Named Executive Officers.** We have entered into two-year employment agreements with all of our other named executive officers on the following dates:

David L. Willis, on January 28, 2008;

Dean J. Glover, on September 1, 2008;

Kenneth W. Robuck on October 1, 2007; and

Gene F. Schockemoehl on November 21, 2006.

Each agreement automatically renews for a one-year term at the end of the initial or additional employment term, unless we have provided the officer with advance written notice of termination. Pursuant to the employment agreements, we pay each named executive officer base salary and provide them an annual cash bonus opportunity.

The employment agreements with all of our named executive officers, including Mr. Keller, also contain customary confidentiality, nonsolicitation and noncompetition covenants. The nonsolicitation and noncompetition obligations continue for twelve months after termination. The confidentiality obligations continue indefinitely.

- (1) These columns show the dollar value of the potential payout to each named executive officer for 2011 under our annual Incentive Compensation Plan at threshold, target and maximum levels. Amounts we actually paid during 2012 for 2011 performance under the Incentive Compensation Plan are included in the Non-Equity Incentive Plan Compensation column of the 2011 Summary Compensation Table on page 28.

- (2) These amounts reflect the aggregate grant date fair value of restricted stock unit awards computed in accordance with FASB ASC Topic 718. The awards of performance-based restricted stock units (reflected in the column captioned Estimated Future Payouts Under Equity Incentive Plan Awards Target ) provide only for a single estimated payout. If the target level of performance is not achieved, there is no payout. If the target level of performance is achieved, the target number of shares in this column, and only that amount, is delivered to the executive even if performance is far better than target. Therefore, the values of the performance-based restricted stock units included in this column represent the grant date fair value at both target and maximum . For a discussion of the assumptions we made in valuing the stock awards, see Note 2 Summary of Significant Accounting Policies Stock-Based Compensation Expense in the notes to our consolidated financial statements contained in our Annual Report on Form 10-K.

- (2) Our awards of performance-based restricted stock units provide for payout of the full number of shares of Common Stock subject to the award if the applicable performance goals are achieved or exceeded, which is the number of shares reported in this column for each named executive officer.
- (3) The following table shows the vesting schedules for the unvested restricted stock units outstanding as of December 31, 2011.

**Pension Benefits**

We do not sponsor or maintain any pension plans for our named executive officers.

**Non-qualified Deferred Compensation**

We have not adopted any non-qualified deferred contribution plans or other deferred compensation plans.

**ESTIMATED PAYMENTS UPON TERMINATION OR RELATED TO A CHANGE IN CONTROL**

The table below reflects the amount of incremental compensation to which each named executive officer would have been entitled as a consequence of certain terminations or in connection with a change in control. The amounts shown in the table below assume that such termination or change in control was effective as of December 31, 2011 and that the price of our Common Stock upon which certain of the calculations are made was the closing price of \$23.75 per share on the last trading day of 2011. Because the incremental amount of payments to be made depends on several factors, the actual amounts to be paid out upon termination of employment or a change in control can only be determined at the time of the event. None of the payments set forth below would be grossed-up for taxes. The estimated payments upon termination and change in control are as follows:

(1) No named executive officer would have been entitled to any severance payments if we terminated him for cause or he terminated his employment with us without good reason on December 31, 2011.

(2) If terminated due to disability on December 31, 2011:

Each named executive officer would have been entitled to receive a pro-rated annual incentive based on actual performance for the year of termination. The amount of the pro-rated annual incentive shown in the table assumes a December 31, 2011 termination and, therefore, is equal to 100 percent of the 2011 annual incentive that would have been payable had the executive remained employed through the annual incentive payment date in 2012.

For Messrs. Keller, Glover and Schockemoehl, equals 100% of their base salary for six months, which is comprised of the 60% salary continuation benefit provided under the Company-sponsored short-term disability insurance program and the 40% supplemental disability benefit provided under their employment agreements. Messrs. Willis and Robuck did not elect short-term disability coverage, and therefore the amount listed for those executives reflects only the 40% supplemental disability benefit provided under their employment agreements.

Each named executive officer would have been entitled to pro-rata vesting with respect to those restricted stock units that would otherwise vest on March 31, 2012 if the executive remained in our employ through that date (taking into account, as to one half of those restricted stock units, whether or not we achieved the performance goal for the year in which the termination occurred). The amount shown in the table for each named executive officer assumes a December 31, 2011 termination and, therefore, is equal to 100 percent of the value of the full-year's restricted stock units that would otherwise have vested if the executive had remained in our employ through March 31, 2012.

- (3) Upon termination of employment by reason of death on December 31, 2011, a named executive officer's personal representative would have been entitled to the same pro-rated annual incentive and vesting of restricted stock units to which the named executive officer would have been entitled upon termination by reason of disability.
- (4) Upon termination by us without cause on December 31, 2011:

Mr. Keller would have been entitled to receive (i) continued base salary through the end of the then-current term (*i.e.*, through September 13, 2012); (ii) a pro-rated annual incentive based on actual performance for the year of termination; and (iii) pro-rated vesting of those restricted stock units that would otherwise vest on March 31, 2012 if he had remained in our employ through that date, with the performance-based awards paid based on actual performance results (and if the termination occurred after he completed 3 years of service under the award, the restricted stock units would vest in full).

Messrs. Willis, Glover and Robuck would have been entitled to receive (i) one year of base salary; (ii) a pro-rated annual incentive based on target performance for 2011; (iii) full vesting of all outstanding restricted stock units; (iv) cost of continued medical, dental, life and travel accident insurance for one year; and (v) payment of country club dues for three months. As personal travel accident insurance would need to be purchased by the employee and paid on a cost reimbursement basis, the cost is not estimable at present and has not been included.

Mr. Schockemoehl would have been entitled to receive (i) one year of base salary; (ii) a pro-rated annual incentive based on actual performance for the year of termination; (iii) pro-rated vesting of those restricted stock units that would otherwise vest on March 31, 2012 if he had remained in our employ through that date, with the performance-based awards paid based on actual performance results (and if the termination occurred after he completed 3 years of service under the award, the restricted stock units would vest in full); (iv) costs of continued medical, dental, life and travel insurance for one year; and (v) payment of country club dues for three months. As personal travel accident insurance would need to be purchased by the employee and paid on a cost reimbursement basis, the cost is not estimable at present and has not been included.

The amounts shown in the table for Messrs. Keller and Schockemoehl assume a December 31, 2011 termination and, therefore, include (i) 100 percent of the annual incentive that would have been payable had the executive remained employed through the annual incentive payment date in 2012; and (ii) 100 percent of

the value of the full-year's restricted stock units that would otherwise have vested if the executive had remained in our employ through March 31, 2012. Each of the named executive officers generally are subject to restrictive covenants, such as confidentiality, non-solicitation, and non-compete provisions.

- (5) If any of our named executive officers terminated his employment with us for good reason on December 31, 2011, he would have been entitled to the same severance benefits as upon his termination by us without cause.
- (6) Upon a change in control on December 31, 2011, all restricted stock units held by a named executive officer that had not previously vested would fully vest.

Definitions for Mr. Keller. The terms "cause" and "good reason" are each defined in Mr. Keller's employment agreement. "Cause" means (i) consistent failure to perform his duties and responsibilities; (ii) a material breach of confidentiality or noncompetition covenants; (iii) a material breach of any other provision of the employment agreement, which breach is not cured within 30 days of notice; (iv) commission of a felony or any crime involving theft, dishonesty or moral turpitude; (v) commission of one or more acts or omissions that are willful and deliberate and taken or omitted with intent to injure our business, operations, financial condition or reputation; (vi) disregard of directives of our Board of Directors; (vii) drunkenness or use of drugs that interferes with the performance of duties under the employment agreement; or (viii) any action to secure any personal profit in connection with our business without first obtaining the unanimous consent of our Board of Directors other than the executive. "Good reason" means: (i) a material diminution of duties and responsibilities; or (ii) a material breach of our obligations under the employment agreement, in each case subject to notice requirements and cure provisions.

Definitions for the Other Officers. The terms "cause" and "good reason" are each defined in the applicable employment agreement. "Cause" generally means: (i) a material breach of confidentiality, noncompetition or nonsolicitation covenants; (ii) commission of a felony or any crime involving theft, dishonesty or moral turpitude; (iii) commission of one or more acts or omissions that are willful and deliberate acts intended to harm or injure our business, operations, financial condition or reputation; (iv) disregard of the directives of our Board of Directors; (v) drunkenness or use of drugs that interferes with the performance of duties under the employment agreement; or (vi) any attempt to secure any personal profit in connection with our business without prior written approval by unanimous consent of our Board of Directors. "Good reason" generally means: (i) a material reduction in the annual base salary, employee benefits or percentage participation in our annual Incentive Compensation Plan; (ii) subject to limited exceptions, a material modification to our annual Incentive Compensation Plan that materially and adversely affects the determination of the officer's bonus; (iii) a requirement to be based at any office or location more than 50 miles from their principal place of employment; or (iv) a removal of the officer from the position specified in his employment agreement by action of the Board of Directors without cause and without the officer's consent.

Change in Control. A "change in control" generally means any of the following: (i) the acquisition of 50% or more of the voting stock of the Company, other than an acquisition by certain related parties or an acquisition pursuant to a transaction the primary purpose of which is to effect an equity financing of the Company; (ii) turnover of a majority of the incumbent members of our Board of Directors (other than the election of certain new directors whose election or nomination was approved by a majority of the incumbent Board of Directors); (iii) a reorganization, merger or consolidation, unless our stockholders immediately prior to the transaction own more than 50% of the Common Stock of the resulting corporation as a result of their prior ownership of the Common Stock of the Company; (iv) a complete liquidation or dissolution of the Company; or (v) the sale or other disposition of all or substantially all of the Company's assets (other than a sale or disposition to a subsidiary).

**PROPOSAL NO. 3**

**ADVISORY VOTE TO APPROVE THE COMPENSATION OF THE NAMED EXECUTIVE OFFICERS**

As required by the Dodd-Frank Wall Street Reform and Consumer Protection Act, we included two stockholder votes on named executive officer compensation in last year's regular 2011 proxy statement. In those votes, which were advisory and nonbinding, our stockholders approved the compensation of our named executive officers as disclosed in the 2011 proxy statement (commonly referred to as a "say-on-pay" vote) and approved the recommendation of our Board of Directors to hold future say-on-pay votes on an annual basis.

As a result, our stockholders are entitled to vote at the Annual Meeting to approve the compensation of our named executive officers, as disclosed in this proxy statement. Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, the stockholder vote on executive compensation is an advisory vote only, and it is not binding on the Company or the Board of Directors.

Since Global Power emerged from bankruptcy in January 2008, we have followed a compensation policy that has had the objectives of attracting and retaining talented individuals, motivating our executive team to achieve the Company's goals and objectives, and aligning the interests of our executives with those of our stockholders. As described in detail in "Executive Compensation" Compensation Discussion and Analysis, our executive compensation programs have sought to reward our named executive officers by providing base compensation that is competitive within our industry, upon the achievement of specific annual earnings goals, and upon the achievement of specific long-term financial, strategic and corporate objectives. As a result of these programs, we have been able to retain highly capable individuals in key Company positions, and retain others whose work is critical to the continued growth and success of our business. At the same time, we believe our programs do not encourage excessive risk-taking by management. The Board of Directors believes that our philosophy and practices have resulted in executive compensation decisions that are appropriate and that have benefited the Company over time.

For these reasons, the Board of Directors recommends that stockholders approve the compensation of the Company's executive officers as described in this proxy statement by approving the following advisory resolution:

RESOLVED, that the stockholders of Global Power Equipment Group Inc. (the "Company") approve, on an advisory basis, the compensation of the individuals identified in the Summary Compensation Table, as disclosed in the Company's 2012 proxy statement pursuant to the compensation disclosure rules of the SEC (which disclosure includes the Compensation Discussion and Analysis section, the compensation tables and the accompanying footnotes and narratives within the Executive Compensation section of the 2012 proxy statement).

**Required Vote**

The advisory vote regarding the compensation of the named executive officers described in this Proposal 3 will be approved if the votes cast in favor of the proposal exceed the votes cast against the proposal. Abstentions and broker non-votes will not be counted as having been voted for purposes of this proposal.

Because this vote is advisory, it will not be binding upon the Board of Directors. However, our Board values the opinions that our stockholders express in their votes and will take into account the outcome of the vote when and as it deems appropriate when making determinations regarding executive compensation.

**Recommendation of the Board of Directors**

**The Board of Directors recommends a vote FOR the approval of the compensation of the Company's named executive officers.**

The Board of Directors has the ultimate authority for effective corporate governance, including the role of oversight of the management of our Company. The Audit Committee's purpose is to assist the Board of Directors in fulfilling its responsibilities by overseeing our accounting and financial reporting processes, the audits of our consolidated financial statements and the effectiveness of internal control over financial reporting, the independence, qualifications and performance of the independent registered public accounting firm engaged as our independent auditor, and the performance of our internal auditors.

The Audit Committee relies on the expertise and knowledge of management, the internal auditors and the independent auditor in carrying out its oversight responsibilities. Management is responsible for the preparation, presentation, and integrity of our consolidated financial statements, accounting and financial reporting principles, internal control over financial reporting and disclosure controls, and procedures designed to ensure compliance with accounting standards, applicable laws, and regulations. Management is responsible for objectively reviewing and evaluating the adequacy, effectiveness, and quality of our system of internal control. Our independent registered public accounting firm, BDO USA, LLP, is responsible for performing an independent audit of the consolidated financial statements and for expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States of America. Our independent registered public accounting firm is also responsible for expressing an opinion on the effectiveness of our internal control over financial reporting as of December 31, 2011.

During 2011, the Audit Committee fulfilled its duties and responsibilities generally as outlined in the charter. The Audit Committee held five (5) meetings in 2011. Specifically, the Committee, among other actions:

reviewed and discussed our audited consolidated financial statements of our Company for the years ended December 31, 2010 and 2011 (which we refer to as the "Financial Statements") as well as interim reporting periods ended March 31, 2011, June 30, 2011 and September 30, 2011 with management and BDO USA, LLP, our independent registered public accounting firm;

discussed with management and BDO USA, LLP all the matters required by Statement on Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board, or "PCAOB," in Rule 3200T, which include among other items, matters related to the conduct of the audit of the consolidated financial statements; and

received from BDO USA, LLP the written disclosures and the letter required by the applicable requirements of the PCAOB regarding the independent accountant's communications with the Audit Committee concerning independence (which relates to the auditor's independence from our Company and its related entities), and has discussed BDO USA, LLP's independence.

The Audit Committee has relied on management's representation that the Financial Statements have been prepared in conformity with generally accepted accounting principles and on the opinion of BDO USA, LLP included in their report on the Financial Statements. Based upon the aforementioned review, discussions and representations of BDO USA, LLP, and the unqualified audit opinion presented by BDO USA, LLP on the Financial Statements and effectiveness of internal control over financial reporting, the Audit Committee recommended to the Board of Directors that the Financial Statements be included in our Annual Report on Form 10-K for the year ended December 31, 2011 for filing with the SEC.

Submitted by the following members of the Audit Committee:

Eugene I. Davis (Chair)  
Carl Bartoli  
Michael E. Salvati  
Frank E. Williams, Jr.
