Tronox Incorporated Reports Record First Quarter Results

Increases in Pricing and Sequential Volume Fuel Record Adjusted EBITDA Company Discloses Potential Capital Policy for Tronox Limited Going Forward

- First quarter revenue increased to \$433.6 million and Adjusted EBITDA increased to \$151.4 million

- Revenue grew 16% year-over-year and 13% quarter-over-quarter

- Adjusted EBITDA grew 64% year-over-year and 9% quarter-over-quarter

- Sequential volume growth combined with price increases drove strong performance

- Following the closing of the acquisition, management to recommend capital policy that addresses assumption of leverage, special dividend, regular dividend, share repurchases, etc.

OKLAHOMA CITY, May 18, 2012 /PRNewswire/ Tronox Incorporated (TROX.PK), one of the world's leading producers and marketers of titanium dioxide pigment, announced record Adjusted EBITDA in the first quarter. In light of the pending nature of the company's proxy statement, Tronox noted that based on advice of counsel it will not be conducting its customary quarterly earnings call. The company anticipates holding meetings with investors following the closing of its transaction with Exxaro and the listing of Tronox Limited shares following receipt of the required favorable shareholder vote and certain regulatory approvals.

	Successor Three Months Ended March 31, 2012	Successor Two Months Ended March 31, 2011	Predecessor One Month Ended January 31, 2011	Successor Eleven Months Ended December 31, 2011	Predecessor One Month Ended January 31, 2011	Predecessor Twelve Months Ended December 31, 2010
Net Sales	\$ 433.6	\$ 267.1	\$ 107.6	\$ 1,543.4	\$ 107.6	\$ 1,217.6
Adjusted EBITDA	\$ 151.4	\$ 68.1	\$ 24.3	\$ 468.3	\$ 24.3	\$ 203.1

Tronox achieved Adjusted EBITDA in the first quarter of \$151.4 million, excluding transaction-related costs and other non-recurring costs. The record number marked a 64% increase from \$92.4 million in the prior year's first quarter; and a 9% increase from \$138.7 million in the fourth quarter of 2011.

Gains in the first quarter of 2012 in part reflect strong sales in the North American market and a deceleration in destocking, the process by which manufacturers and other end users pare down their inventories. Gradually improving volume combined with higher prices boosted first-quarter revenue by 13% quarter-over-quarter to \$433.6 million, which also represents a 16% year-over-year improvement from \$374.7 million in the first quarter 2011.

As a result, gross margin increased to a record 36.3% for the period. Net income for the first quarter was \$86.3 million.

Our results reflect excellent performance in a TiO₂ market that had not yet fully recovered, said Tom Casey, chairman and CEO of Tronox. Even in the face of widespread destocking and headwinds in Europe and China that subsided more slowly than we expected, Tronox has been able to maintain increased pricing for our products and produce another quarter of record results.

We believe that any slack in orders since the fourth quarter of 2011 is largely attributable to temporary factors, namely destocking in China, the efforts of the Chinese government to tame inflation and uncertainty primarily in southern Europe, said Casey. We continue to expect this period to evolve into more sustained growth as these conditions are resolved. But what won't change anytime soon is the combination of pigment producers operating near full capacity and global titanium ore demand at or exceeding supply. Our combination with Exxaro Mineral Sands remains on track and we believe will give us even greater strength in what we expect to be a resurgent TiO₂ global market. We remain focused on delivering shareholder value by providing first-class products and completing our acquisition to become the largest fully-integrated global TiO₂ company.

Pigment Segment Results

Pigment sales for the first quarter of 2012 were \$402.5 million, an increase of 19% from \$337.1 million during the same period in 2011, and an increase of 15% from \$349.2 million during the fourth quarter of 2011. Income from operations was \$141.1 million during the quarter, a 207% increase over the same period last year, and a 26% increase from the fourth quarter of 2011. The year-over-year increases were primarily due to the effects of higher selling prices, partially offset by a decrease in TiO₂ sales volumes. Consistent with the rest of the industry, the Company experienced higher raw material costs during the first quarter.

Electrolytic and Other Chemical Products Results

Electrolytic and other chemical products sales for the first quarter amounted to \$30.8 million, a 12% decrease from the first quarter of 2011 and an 11% increase from the fourth quarter of 2011. In the first quarter of 2012, the business line reported a loss of \$1.1 million compared to income of \$1.0 million during the same period in 2011 primarily due to decreased sales volumes. Income from operations improved \$0.4 million from a loss of \$1.5 million for the fourth quarter of 2011 as a result of unplanned outages at our sodium chlorate facility in Hamilton, Mississippi, during the fourth quarter of 2011, which have since been resolved.

Corporate and Other

Corporate and other reported an operating loss of \$27.0 million for the first quarter of 2012, compared to an operating loss of \$9.2 million during the comparable period in 2011 and an operating loss of \$10.9 million for the fourth quarter of 2011. The increased costs are due to costs associated with the acquisition of Exxaro Mineral Sands, including legal and professional fees, as well as costs associated with the preparation and finalization of the Form S-4 and costs associated with integration activities related to the Exxaro Mineral Sands transaction.

Deployment of Capital

Tronox Limited's policy with respect to the deployment of capital cannot be determined until after the closing of the combination when the newly constituted Tronox Limited Board can consider its plans and policies. However, management currently intends to recommend the following actions to the Board of Tronox Ltd. shortly following the closing:

Raising additional debt financing in an amount between \$750 and \$1.0 billion in either additional term loans and/or unsecured bonds;

Issuing a special dividend of \$25.00 per share;

Authorizing up to \$250 million of share repurchases under certain circumstances;

Adopting a regular quarterly dividend commencing in the fourth quarter 2012; and

A split of the shares on an approximate ratio of between 7:1 and 9:1.

There is no assurance that management will make these recommendations or, if the recommendations are made, that they will be adopted by the Board of Tronox Limited and ultimately pursued. These recommendations are subject to a number of factors, including, but not limited to, the availability of financing, the performance of the combined business, and the cash needs of the combined business.

Special Meeting of Stockholders

As previously announced, Tronox will hold a special meeting of its stockholders to vote on the adoption of the transaction agreement for the purpose of approving the mergers contemplated by the agreement on May 30, 2012, at 10 a.m. ET, at the Company's headquarters, 1 Stamford Plaza, Stamford, Connecticut. Tronox stockholders of record as of the close of business on April 30, 2012 will be entitled to vote at the meeting.

Stockholders who wish to receive exchangeable shares in the mergers are encouraged to return their completed election forms and related materials as soon as practicable. The election deadline is 5:00 p.m., New York City Time, on the date that is three business days preceding the closing date for the transaction with Exxaro. Assuming shareholder approval of the transaction is received at the special meeting, we currently expect to close the transaction on the fifth business day after the special meeting, in which case the election deadline will be the second business day after the special meeting.

Tronox reserves the right to change the anticipated closing date and will formally announce the anticipated closing date after the special meeting. Tronox will publicly announce the election deadline at least five business days prior to the anticipated closing date. You may also obtain up-to-date information regarding the election deadline by calling the information agent for the transaction, MacKenzie Partners, Inc. at (800) 322-2885 (toll-free) or (212) 929-5500 (collect); or by consulting our Web site at www.Tronox.com

Fresh-Start Accounting

On February 14, 2011, (the "Effective Date"), Tronox Incorporated emerged from bankruptcy and continued operations as reorganized Tronox Incorporated. As a result, the Company applied fresh-start accounting under ASC 852 as of January 31, 2011, whereby the U.S. GAAP financial statements after February 1, 2011 are not comparable to the financial statements prior to that date. Fresh-start accounting required resetting the historical net book values of Tronox's assets and liabilities to their estimated fair values as of January 31, 2011. References to "Successor" refer to Tronox and its consolidated subsidiaries for the periods beginning on or after February 1, 2011, after giving effect to the cancellation of old common stock issued prior to January 31, 2011, the issuance of new common stock and settlement of existing debt and other adjustments in accordance with the reorganization plan, and the application of fresh-start accounting. References to "Predecessor" refer to Tronox and its consolidated subsidiaries for the periods through January 31, 2011.

About Tronox

Tronox (TROX.PK) is one of the world's leading titanium dioxide producers and exclusively employs proprietary chloride technology. The chloride process technology yields consistently whiter, brighter pigment grades preferred in paint, coatings and plastics. The Company also operates an electrolytic and specialty chemicals business. Through the Company's global operations, Tronox serves more than 1,000 customers in approximately 90 countries. For more information, visit <http://www.tronox.com>.

Forward Looking Statements

Statements in this release that are not historical are forward-looking statements. These forward-looking statements are based upon management's current beliefs and expectations and are subject to

uncertainty and changes in circumstances. The forward-looking statements involve risks that may affect the Company's operations, markets, products, services, prices and other risk factors as discussed in the Company's financial statements published on our website and in our filings with the Securities and Exchange Commission. Significant risks and uncertainties may relate to, but are not limited to, financial, economic, competitive, environmental, political, legal regulatory and technological factors. Unless otherwise required by applicable laws, the Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information or future developments.

Use of Non-GAAP Financial Information

To provide investors and others with additional information regarding Tronox's operating results, we have disclosed in this press release certain non-GAAP financial measures, including Adjusted EBITDA, excluding restructuring cost. These non-GAAP financial measures are a supplement to, and not a substitute for or superior to, the Company's results presented in accordance with U.S. GAAP. The non-GAAP financial measures presented by the Company may be different than non-GAAP financial measures presented by other companies.

The non-GAAP financial measures are provided to enhance the user's overall understanding of the Company's operating performance. Specifically, the Company believes the non-GAAP information provides useful measures to investors regarding the Company's financial performance by excluding certain costs and expenses that the Company believes are not indicative of its core operating results, as well as the impact of fresh-start accounting. The presentation of these non-GAAP financial measures are not meant to be considered in isolation or as a substitute for results or guidance prepared and presented in accordance with U.S. GAAP.

Tronox has provided a reconciliation of the non-GAAP financial measures used in this release to the most directly comparable GAAP financial measures:

Adjusted EBITDA differs from GAAP net income in that it (i) excludes interest expenses, taxes, depreciation, amortization and stock based compensation charges, and (ii) excludes the impact of non-recurring items, fresh-start accounting related adjustments, and reorganization charges or credits and write-off of financing costs completed prior to emergence from bankruptcy.

Management believes these non-GAAP financial measures:

Reflect Tronox's ongoing business in a manner that allows for meaningful period-to-period comparison and analysis of trends in Tronox's business, as they exclude expenses that are not reflective of ongoing operating results;

Provide useful information to investors and others in understanding and evaluating Tronox's operating results and future prospects in the same manner as management and in comparing financial results across accounting periods;

Provide additional view of the operating performance of the Company by adding interest expenses, taxes, depreciation and amortization to the net income. Further adjustments due to fresh-start accounting, and stock based compensation charges attempt to exclude items that are either non-cash or non-recurring in nature; and

Enable investors to assess the Company's compliance with financial covenants under its debt instruments Tronox's term loan has maintenance financial covenants that use EBITDA as part of the measures, e.g. Consolidated Leverage ratio, which is a ratio of Indebtedness to Consolidated EBITDA; and Consolidated Interest Coverage Ratio which is a ratio of Consolidated EBITDA to interest expenses.

In addition, Adjusted EBITDA, excluding restructuring expenses, is one of the primary measures management uses for planning and budgeting processes and to monitor and evaluate financial and operating results. Adjusted EBITDA is not a recognized term under GAAP and does not purport to be an alternative to measures of our financial performance as determined in accordance with GAAP, such as net income (loss). Because other companies may calculate EBITDA and Adjusted EBITDA differently than we do, EBITDA may not be, and Adjusted EBITDA as presented in this release is not, comparable to similarly titled measures reported by other companies.
