

AMPCO PITTSBURGH CORP
Form 10-K
March 17, 2014

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR- 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2013

Commission File Number 1-898

AMPCO-PITTSBURGH CORPORATION

Pennsylvania
(State of Incorporation)

25-1117717

600 Grant Street, Suite 4600
Pittsburgh, PA 15219
(Address of principal executive offices)

I.R.S. Employer ID No.
(412) 456-4400
(Registrant's telephone number)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common stock, \$1 par value	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None
Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes ___ No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes ___ No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No ___

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or such shorter period that the registrant was required to submit and post such files). Yes No ___

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

Large Accelerated Filer Accelerated Filer Non-accelerated Filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The aggregate market value of the voting stock of Ampco-Pittsburgh Corporation held by non-affiliates on June 28, 2013 (based upon the closing price of the Registrant's Common Stock on the New York Stock Exchange on that date) was approximately \$154 million.

As of March 7, 2014, 10,373,080 common shares were outstanding.

Documents Incorporated by Reference: Part III of this report incorporates by reference certain information from the Proxy Statement for the 2014 Annual Meeting of Shareholders.

PART I

ITEM 1. BUSINESS

GENERAL DEVELOPMENT OF BUSINESS

Ampco-Pittsburgh Corporation (the Corporation) was incorporated in Pennsylvania in 1929. The Corporation, individually or together with its consolidated subsidiaries, is also referred to herein as the Registrant.

The Corporation classifies its businesses in two segments: Forged and Cast Rolls and Air and Liquid Processing.

FINANCIAL INFORMATION ABOUT SEGMENTS

The sales and operating profit of the Corporation's two segments and the identifiable assets attributable to both segments for the three years ended December 31, 2013 are set forth in Note 19 (Business Segments) on page 54 of this Annual Report on Form 10-K.

NARRATIVE DESCRIPTION OF BUSINESS

Forged and Cast Rolls Segment

Union Electric Steel Corporation produces forged hardened steel rolls used in cold rolling by producers of steel, aluminum and other metals throughout the world. It is headquartered in Carnegie, Pennsylvania with three manufacturing facilities in Pennsylvania and one in Indiana. Union Electric Steel Corporation is one of the largest producers of forged hardened steel rolls in the world. In addition to several domestic competitors, several major European, South American and Asian manufacturers also compete in both the domestic and foreign markets. In 2007, a subsidiary became a 49% partner in a joint venture in China to manufacture large forged backup rolls principally in weight and size larger than those which can be made in the subsidiary's facilities in the United States. Limited production continued in 2013.

Union Electric Steel UK Limited produces cast rolls for hot and cold strip mills, medium/heavy section mills and plate mills in a variety of iron and steel qualities. It is located in Gateshead, England and is a major supplier of cast rolls to the metalworking industry worldwide. It primarily competes with European, Asian and North and South American companies in both the domestic and foreign markets. Union Electric Steel UK is a 25% partner in a Chinese joint venture which produces cast rolls.

Air and Liquid Processing Segment

Aerofin Division of Air & Liquid Systems Corporation produces custom-engineered finned tube heat exchange coils and related heat transfer products for a variety of industries including fossil fuel and nuclear power generation, automotive, industrial process and HVAC, and is located in Lynchburg, Virginia.

Buffalo Air Handling Division of Air & Liquid Systems Corporation produces large custom air handling systems used in commercial, institutional and industrial buildings and is located in Amherst, Virginia.

Buffalo Pumps Division of Air & Liquid Systems Corporation manufactures a line of centrifugal pumps for the refrigeration, power generation and marine defense industries and is located in North Tonawanda, New York.

All three of the divisions in this segment are principally represented by a common independent sales organization and have several major competitors.

In both segments, the products are dependent on engineering, principally custom designed, and are sold to sophisticated commercial and industrial users located throughout the world.

The Forged and Cast Rolls segment has two international customers which constituted approximately 26% of its sales in 2013. The loss of both of these customers could have a material adverse effect on the segment.

For additional information on the products produced and financial information about each segment, see page 4 and Note 19 (Business Segments) on page 54 of this Annual Report on Form 10-K.

Raw Materials

Raw materials used in both segments are generally available from many sources and the Corporation is not dependent upon any single supplier for any raw material. Substantial volumes of raw materials used by the Corporation are subject to significant variations in price. The Corporation generally does not purchase or commit for the purchase of a major portion of raw materials significantly in advance of the time it requires such materials but does make forward commitments for the supply of natural gas.

Patents

While the Corporation holds some patents, trademarks and licenses, in the opinion of management they are not material to either segment of the Corporation's business, other than in protecting the goodwill associated with the names under which products are sold.

Backlog

The backlog of orders at December 31, 2013 was approximately \$197 million compared to a backlog of \$196 million at year-end 2012. Approximately 13% of the backlog is expected to be released after 2014.

Competition

The Corporation faces considerable competition from a large number of companies in both segments. The Corporation believes, however, that it is a significant factor in each of the niche markets which it serves. Competition in both segments is based on quality, service, price and delivery. For additional information, see *Narrative Description of Business* on page 6 of this Annual Report on Form 10-K.

Research and Development

As part of an overall strategy to develop new markets and maintain leadership in each of the industry niches served, the Corporation's businesses in both segments incur expenditures for research and development. The activities that are undertaken are designed to develop new products, improve existing products and processes, enhance product quality, adapt products to meet customer specifications and reduce manufacturing costs. In the aggregate, these expenditures approximated \$1.41 million in 2013, \$1.48 million in 2012 and \$1.70 million in 2011.

Environmental Protection Compliance Costs

Expenditures for environmental control matters were not material to either segment in 2013 and such expenditures are not expected to be material in 2014.

Employees

On December 31, 2013, the Corporation had 1,109 active employees.

FINANCIAL INFORMATION ABOUT GEOGRAPHIC AREAS

The Forged and Cast Rolls segment has a manufacturing operation in England and a small European sales and engineering support group in Belgium. For financial information relating to foreign and domestic operations see Note 19 (Business Segments) on page 54 of this Annual Report on Form 10-K.

AVAILABLE INFORMATION

The Corporation files annual, quarterly and current reports, amendments to those reports, proxy statements and other information with the Securities and Exchange Commission (SEC). You may access and read the Corporation's filings without charge through the SEC's website at www.sec.gov. You may also read and copy any document the Corporation files at the SEC's Public Reference Room located at 100 F. Street, N.E., Room 1580, Washington, DC 20549. Please call the SEC at 1-800-SEC-0330 for further information on the Public Reference Room.

The Corporation's Internet address is www.ampcopittsburgh.com. The Corporation makes available, free of charge on its Internet website, access to these reports as soon as reasonably practicable after such material is filed with, or furnished to, the SEC. The information on the Corporation's website is not part of this Annual Report on Form 10-K.

EXECUTIVE OFFICERS

The name, age, position with the Corporation⁽¹⁾ and business experience for the past five years of the Executive Officers of the Corporation are as follows:

Robert A. Paul (age 76). Mr. Paul was elected Chairman and Chief Executive Officer of the Corporation in 2004. Prior to that, he was President and Chief Executive Officer of the Corporation for more than five years. He has been a Director since 1970 and his current term expires in 2015. He is also Chairman and a director of The Louis Berkman Investment Company. Mr. Paul has been a shareholder, officer and director of the Corporation for more than forty years.

Rose Hoover (age 58). Ms. Hoover has been employed by the Corporation for more than thirty years. She has served as Executive Vice President and Chief Administrative Officer of the Corporation since May 2011; Senior Vice President of the Corporation since April 2009 and prior to that served as Vice President Administration of the Corporation since 2006. She has also served as Secretary of the Corporation for more

than five years.

Marliss D. Johnson (age 49). Ms. Johnson has been Chief Financial Officer and Treasurer of the Corporation since May 2013. Prior to that, she was Vice President, Controller and Treasurer of the Corporation for more than ten years. Ms. Johnson is a Certified Public Accountant with fourteen years of experience with a major accounting firm prior to joining the Corporation.

Robert G. Carothers (age 64). Mr. Carothers has been employed by Union Electric Steel, a subsidiary of the Corporation, for more than forty years. He has served as Chairman, Chief Executive Officer, and President of the Corporation's Forged and Cast Roll Segment since April 2009 and prior to that served as President of Union Electric Steel since 1998.

Terrence W. Kenny (age 54). Mr. Kenny has been employed by the Corporation for almost thirty years. He has served as President of the Air and Liquid Processing Group since April 2009 and prior to that served as Group Vice-President of the Corporation for more than five years.

(1) Officers serve at the discretion of the Board of Directors and none of the listed individuals serves as a director of a public company, except that Mr. Paul is a director of the Corporation.

ITEM 1A. RISK FACTORS

From time to time, important factors may cause actual results to differ materially from any future expected results based on performance expressed or implied by any forward-looking statements made by us, including known and unknown risks, uncertainties and other factors, many of which are not possible to predict or control. Several of these factors are described from time to time in our filings with the Securities and Exchange Commission, but the factors described in filings are not the only risks that are faced.

Cyclical Demand for Products/Economic Downturns

A significant portion of our sales consists of rolling mill rolls to customers in the global steel industry which can be periodically impacted by economic or cyclical downturns. Such downturns, the timing and length of which are difficult to predict, may reduce the demand for, and sales of, our forged and cast steel rolls both in the United States and the rest of the world. Lower demand for rolls may also adversely impact profitability as other roll producers, which compete with us, lower selling prices in the market place in order to fill their manufacturing capacity. Cancellation of orders or deferral of delivery of rolls may occur and produce an adverse impact on financial results.

Steel Industry Consolidation

Globally, the steel industry has undergone structural change by way of consolidation and mergers. In certain markets, the resultant reduction in the number of steel plants and the increased buying power of the enlarged steel producing companies may put pressure on the selling prices and profit margins of rolls.

Export Sales

Exports are a significant proportion of our sales. Historically, changes in foreign exchange rates, particularly in respect of the U.S. dollar and the euro, have impacted the export of our products and may do so again in the future. Other factors which may adversely impact export sales and operating results include political and economic instability, export controls, changes in tax laws and tariffs and new indigenous producers in overseas markets. A reduction in the level of export sales may have an adverse impact on our financial results. In addition, exchange rate changes may allow foreign roll suppliers to compete in our home markets.

Capital Spending

Each of our businesses is susceptible to the general level of economic activity, particularly as it impacts industrial and construction capital spending. A downturn in capital spending in the United States and elsewhere may reduce demand for and sales of our air handling, power generation and refrigeration equipment, and rolling mill rolls. Lower demand may also reduce profit margins due to our competitors and us striving to maximize manufacturing capacity by lowering prices.

Prices and Availability of Commodities

We use certain commodities in the manufacture of our products. These include steel scrap, ferroalloys and energy. Any sudden price increase may cause a reduction in profit margins or losses where fixed-priced contracts have been accepted or increases cannot be obtained in future selling prices. In addition, there may be curtailment in electricity or gas supply which would adversely impact production. Shortage of critical materials while driving up costs may be of such severity as to disrupt production, all of which may impact sales and profitability.

Labor Agreements

We have several key operations which are subject to multi-year collective bargaining agreements with our hourly work force. While we believe we have excellent relations with our unions, there is the risk of industrial action at the expiration of an agreement if contract negotiations break down, which may disrupt manufacturing and impact results of operations.

Dependence on Certain Equipment

Our principal business relies on certain unique equipment such as an electric arc furnace and a spin cast work roll machine. Although a comprehensive critical spare inventory of key components for this equipment is maintained, if any such unique equipment is out of operation for an extended period, it may result in a significant reduction in our sales and earnings.

Asbestos Litigation

Our subsidiaries, and in some cases, we, are defendants in numerous claims alleging personal injury from exposure to asbestos-containing components historically used in certain products of our subsidiaries. Through year-end 2013, our insurance has covered a substantial majority of our settlement and defense costs. We believe that the estimated costs net of anticipated insurance recoveries of our pending and future asbestos legal proceedings for the next ten years will not have a material adverse effect on our consolidated financial condition or liquidity. However, there can be no assurance that our subsidiaries or we will not be subject to significant additional claims in the future or that our subsidiaries ultimate liability with respect to asbestos claims will not present significantly greater and longer lasting financial exposure than provided for in our consolidated financial statements. Similarly, although the Corporation believes that the assumptions employed in valuing its insurance coverage were reasonable, there are other assumptions that could have been employed that would have resulted in materially lower insurance recovery projections. The ultimate net liability with respect to such pending and any unasserted claims is subject to various uncertainties, including the following:

the number of claims that are brought in the future;

the costs of defending and settling these claims;

insolvencies among our insurance carriers and the risk of future insolvencies;

the possibility that adverse jury verdicts could require damage payments in amounts greater than the amounts for which we have historically settled claims;

possible changes in the litigation environment or federal and state law governing the compensation of asbestos claimants;

the risk that the bankruptcies of other asbestos defendants may increase our costs; and

the risk that our insurance will not cover as much of our asbestos liabilities as anticipated.

Because of the uncertainties related to such claims, it is possible that the ultimate liability could have a material adverse effect on our consolidated financial condition or liquidity in the future.

Environmental Matters

We are subject to various domestic and international environmental laws and regulations that govern the discharge of pollutants and disposal of wastes and which may require that we investigate and remediate the effects of the release or disposal of materials at sites associated with past and present operations. We could incur substantial cleanup costs, fines and civil or criminal sanctions, third party property damage or personal injury claims as a result of violations or liabilities under these laws or non-compliance with environmental permits required at our facilities.

ITEM 1B. UNRESOLVED STAFF COMMENTS

The Corporation has no unresolved staff comments.

ITEM 2. PROPERTIES

The location and general character of the principal locations in each segment, all of which are owned unless otherwise noted, are as follows:

Company and Location	Principal Use	Approximate Square Footage	Type of Construction
FORGED AND CAST ROLLS SEGMENT			
<i>Union Electric Steel Corporation</i>			
Route 18 Burgettstown, PA 15021	Manufacturing facilities	296,800 on 55 acres	Metal and steel
726 Bell Avenue Carnegie, PA 15106	Manufacturing facilities and offices	165,900 on 8.7 acres	Metal and steel
U.S. Highway 30 Valparaiso, IN 46383	Manufacturing facilities	88,000 on 20 acres	Metal and steel
1712 Greengarden Road Erie, PA 16501	Manufacturing facilities	40,000*	Metal and steel
Bosstraat 54 3560 Lummen Belgium	Sales and engineering	4,500*	Cement block
<i>Union Electric Steel UK Limited</i> Coulthards Lane Gateshead, England	Manufacturing facilities and offices	274,000 on 10 acres	Steel framed, metal and brick
AIR AND LIQUID PROCESSING SEGMENT			
<i>Air & Liquid Systems Corporation</i>			
<i>Aerofin Division</i> 4621 Murray Place Lynchburg, VA 24506	Manufacturing facilities and offices	146,000 on 15.3 acres	Brick, concrete and steel
<i>Buffalo Air Handling Division</i> Zane Snead Drive Amherst, VA 24531	Manufacturing facilities and offices	89,000 on 19.5 acres	Metal and steel
<i>Buffalo Pump Division</i> 874 Oliver Street N. Tonawanda, NY 14120	Manufacturing facilities and offices	94,000 on 9 acres	Metal, brick and cement block

** Facility is leased.*

The Corporation's office space and the Air & Liquid Systems headquarter's office space are leased. All of the owned facilities are adequate and suitable for their respective purposes.

The Forged and Cast Rolls segment's facilities were operated within 70% to 75% of their normal capacity during 2013. The facilities of the Air and Liquid Processing segment were operated within 60% to 70% of their normal capacity. Normal capacity is defined as capacity under approximately normal conditions with allowances made for unavoidable interruptions, such as lost time for repairs, maintenance, breakdowns, set-up, failure, supply delays, labor shortages and absences, Sundays, holidays, vacation, inventory taking, etc. The number of work shifts is also taken into consideration.

ITEM 3. LEGAL PROCEEDINGS

LITIGATION

The Corporation and its subsidiaries are involved in various claims and lawsuits incidental to their businesses. In addition, it is also subject to asbestos litigation as described below.

Asbestos Litigation

Claims have been asserted alleging personal injury from exposure to asbestos-containing components historically used in some products of predecessors of the Corporation's Air & Liquid Systems Corporation subsidiary (Asbestos Liability) and of an inactive subsidiary in dissolution. During 2013, all pending claims against the inactive subsidiary in dissolution were settled, dismissed or barred, and the dissolution court issued a final order thereby concluding the dissolution proceedings. Those subsidiaries, and in some cases the Corporation, are defendants (among a number of defendants, often in excess of 50) in cases filed in various state and federal courts.

Asbestos Claims

The following table reflects approximate information about the claims for Asbestos Liability against the subsidiaries and the Corporation, along with certain asbestos claims asserted against the inactive subsidiary in dissolution for the two years ended December 31, 2013 and 2012:

	2013	2012
Total claims pending at the beginning of the period	8,007	8,145
New claims served	1,432	1,538
Claims dismissed	(803)	(1,420)
Claims settled	(317)	(256)
Total claims pending at the end of the period ⁽¹⁾	8,319	8,007
Gross settlement and defense costs (in 000 \$)	\$ 22,618	\$ 23,589
Average gross settlement and defense costs per claim resolved (in 000 \$)	\$ 20.19	\$ 14.07

(1) Included as open claims are approximately 1,636 claims and 1,632 claims in 2013 and 2012, respectively, classified in various jurisdictions as inactive or transferred to a state or federal judicial panel on multi-district litigation, commonly referred to as the MDL.

A substantial majority of the settlement and defense costs reflected in the above table was reported and paid by insurers. Because claims are often filed and can be settled or dismissed in large groups, the amount and timing of settlements, as well as the number of open claims, can fluctuate significantly from period to period.

Asbestos Insurance

The Corporation and its Air & Liquid Systems Corporation (Air & Liquid) subsidiary are parties to a series of settlement agreements (Settlement Agreements) with insurers that have coverage obligations for Asbestos Liability (the Settling Insurers). Under the Settlement Agreements, the Settling Insurers accept financial responsibility, subject to the terms and conditions of the respective agreements, including overall coverage limits, for pending and future claims for Asbestos Liability. The Settlement Agreements encompass the substantial majority of insurance policies that provide coverage for claims for Asbestos Liability.

The Settlement Agreements include acknowledgements that Howden North America, Inc. (Howden) is entitled to coverage under policies covering Asbestos Liability for claims arising out of the historical products manufactured or distributed by Buffalo Forge, a former subsidiary of the Corporation (the Products). The Settlement Agreements do not provide for any prioritization on access to the applicable policies or any sublimits of liability as to Howden or the Corporation and Air & Liquid, and, accordingly, Howden may access the coverage afforded by the Settling Insurers for any covered claim arising out of a Product. In general, access by Howden to the coverage afforded by the Settling Insurers for the Products will erode coverage under the Settlement Agreements available to the Corporation and Air & Liquid for Asbestos Liability.

On February 24, 2011, the Corporation and Air & Liquid filed a lawsuit in the United States District Court for the Western District of Pennsylvania against thirteen domestic insurance companies, certain underwriters at Lloyd's, London and certain London market insurance companies, and Howden. The lawsuit seeks a declaratory judgment regarding the respective rights and obligations of the parties under excess insurance policies that were issued to the Corporation from 1981 through 1984 as respects claims against the Corporation and its subsidiary for Asbestos Liability and as respects asbestos bodily-injury claims against Howden arising from the Products. The Corporation and Air & Liquid have reached Settlement Agreements with all but two of the defendant insurers in the coverage action. Those Settlement Agreements specify the terms and conditions upon which the insurer parties are to contribute to defense and indemnity costs for claims for Asbestos Liability. One of the Settlement Agreements entered into by the Corporation and Air & Liquid also provided for the dismissal of claims, without prejudice, regarding two upper-level excess policies issued by one of the insurers. The Court has entered Orders dismissing all claims in the action filed against each other by the Corporation and Air & Liquid, on the one hand, and by the settling insurers, on the other. Howden also reached an agreement with eight domestic insurers addressing asbestos-related bodily injury claims arising from the Products, and claims as to those insurers and Howden have been dismissed. Various counterclaims, cross claims and third party claims have been filed in the litigation and remain pending although

only two domestic insurers and Howden remain in the litigation as to the Corporation and Air & Liquid. On September 27, 2013, the Court issued a memorandum opinion and order granting in part and denying in part cross motions for summary judgment filed by the Corporation and Air & Liquid, Howden, and the insurer parties still in the litigation. The September 27, 2013 ruling is not a final ruling for appellate purposes, but when final it could be appealed by the parties to the litigation.

Asbestos Valuations

In 2006, the Corporation retained Hamilton, Rabinovitz & Associates, Inc. (HR&A), a nationally recognized expert in the valuation of asbestos liabilities, to assist the Corporation in estimating the potential liability for pending and unasserted future claims for Asbestos Liability. HR&A was not requested to estimate asbestos claims against the inactive subsidiary in dissolution, which the Corporation believes are immaterial. Based on this analysis, the Corporation recorded a reserve for Asbestos Liability claims pending or projected to be asserted through 2013 as at December 31, 2006. HR&A's analysis has been periodically updated since that time. Most recently, the HR&A analysis was updated in 2012, and additional reserves were established by the Corporation as at December 31, 2012 for Asbestos Liability claims pending or projected to be asserted through 2022. The methodology used by HR&A in its projection in 2012 of the operating subsidiaries' liability for pending and unasserted potential future claims for Asbestos Liability, which is substantially the same as the methodology employed by HR&A in prior estimates, relied upon and included the following factors:

HR&A's interpretation of a widely accepted forecast of the population likely to have been exposed to asbestos;

epidemiological studies estimating the number of people likely to develop asbestos-related diseases;

HR&A's analysis of the number of people likely to file an asbestos-related injury claim against the subsidiaries and the Corporation based on such epidemiological data and relevant claims history from January 1, 2010 to December 20, 2012;

an analysis of pending cases, by type of injury claimed and jurisdiction where the claim is filed;

an analysis of claims resolution history from January 1, 2010 to December 20, 2012 to determine the average settlement value of claims, by type of injury claimed and jurisdiction of filing; and

an adjustment for inflation in the future average settlement value of claims, at an annual inflation rate based on the Congressional Budget Office's ten year forecast of inflation.

Using this information, HR&A estimated in 2012 the number of future claims for Asbestos Liability that would be filed through the year 2022, as well as the settlement or indemnity costs that would be incurred to resolve both pending and future unasserted claims through 2022. This methodology has been accepted by numerous courts.

In conjunction with developing the aggregate liability estimate referenced above, the Corporation also developed an estimate of probable insurance recoveries for its Asbestos Liabilities. In developing the estimate, the Corporation considered HR&A's projection for settlement or indemnity costs for Asbestos Liability and management's projection of associated defense costs (based on the current defense to indemnity cost ratio), as well as a number of additional factors. These additional factors included the Settlement Agreements then in effect, policy exclusions, policy limits, policy provisions regarding coverage for defense costs, attachment points, prior impairment of policies and gaps in the coverage, policy exhaustions, insolvencies among certain of the insurance carriers, and the nature of the underlying claims for Asbestos Liability asserted against the subsidiaries and the Corporation as reflected in the Corporation's asbestos claims database, as well as estimated erosion of insurance limits on account of claims against Howden arising out of the Products. In addition to consulting with the Corporation's outside legal counsel on these insurance matters, the Corporation consulted with a nationally-recognized insurance consulting firm it retained to assist the Corporation with certain policy allocation matters that also are among the several factors considered by the Corporation when analyzing potential recoveries from relevant historical insurance for Asbestos Liabilities. Based upon all of the factors considered by the Corporation, and taking into account the Corporation's analysis of publicly available information regarding the credit-worthiness of various insurers, the Corporation estimated the probable insurance recoveries for Asbestos Liability and defense costs through 2022. Although the Corporation believes that the assumptions employed in the insurance valuation were reasonable and previously consulted with its outside legal counsel and insurance consultant regarding those assumptions, there are other assumptions that could have been employed that would have resulted in materially lower insurance recovery

projections.

Based on the analyses described above, the Corporation's reserve at December 31, 2012 for the total costs, including defense costs, for Asbestos Liability claims pending or projected to be asserted through 2022 was \$181 million, of which approximately 73% was attributable to settlement costs for unasserted claims projected to be filed through 2022 and future defense costs. The reserve at December 31, 2013 was \$158 million. While it is reasonably possible that the Corporation will incur additional charges for Asbestos Liability and defense costs in excess of the amounts currently reserved, the Corporation believes that there is too much uncertainty to provide for reasonable estimation of the number of future claims, the nature of such claims and the cost to resolve them beyond 2022. Accordingly, no reserve has been recorded for any costs that may be incurred after 2022.

The Corporation's receivable at December 31, 2012 for insurance recoveries attributable to the claims for which the Corporation's Asbestos Liability reserve has been established, including the portion of incurred defense costs covered by the Settlement Agreements in effect through December 31, 2012, and the probable payments and reimbursements relating to the estimated indemnity and defense costs for pending and unasserted future Asbestos Liability claims, was \$118 million. The Corporation updated its receivable at September 30, 2013 to take into account the effect of the Settlement Agreements reached in August 2013. The effect of these Settlement Agreements was to increase the Corporation's receivable for insurance recoveries attributable to claims for which the Corporation's Asbestos Liability reserve has been established by \$16 million.

The following table summarizes activity relating to insurance recoveries for each of the years ended December 31, 2013 and 2012 (in 000's).

	2013	2012
Insurance receivable - asbestos, beginning of the year	\$ 118,115	\$ 126,206
Settlement and defense costs paid by insurance carriers	(23,714)	(15,468)
Changes in estimated coverage	16,340	7,377
Insurance receivable - asbestos, end of the year	\$ 110,741	\$ 118,115

The insurance receivable recorded by the Corporation does not assume any recovery from insolvent carriers, or carriers not party to a Settlement Agreement, and a substantial majority of the insurance recoveries deemed probable was from insurance companies rated A- (excellent) or better by A.M. Best Corporation. There can be no assurance, however, that there will not be further insolvencies among the relevant insurance carriers, or that the assumed percentage recoveries for certain carriers will prove correct. The difference between insurance recoveries and projected costs is not due to exhaustion of all insurance coverage for Asbestos Liability. The Corporation and the subsidiaries have substantial additional insurance coverage which the Corporation expects to be available for Asbestos Liability claims and defense costs that the subsidiaries and it may incur after 2022. However, this insurance coverage also can be expected to have gaps creating significant shortfalls of insurance recoveries as against claims expense, which could be material in future years.

The amounts recorded by the Corporation for Asbestos Liabilities and insurance receivables rely on assumptions that are based on currently known facts and strategy. The Corporation's actual expenses or insurance recoveries could be significantly higher or lower than those recorded if assumptions used in the Corporation's or HR&A's calculations vary significantly from actual results. Key variables in these assumptions are identified above and include the number and type of new claims to be filed each year, the average cost of disposing of each such new claim, average annual defense costs, compliance by relevant parties with the terms of the Settlement Agreements, the resolution of remaining coverage issues with insurance carriers, and the solvency risk with respect to the relevant insurance carriers. Other factors that may affect the Corporation's Asbestos Liability and ability to recover under its insurance policies include uncertainties surrounding the litigation process from jurisdiction to jurisdiction and from case to case, reforms that may be made by state and federal courts, and the passage of state or federal tort reform legislation.

The Corporation intends to evaluate its estimated Asbestos Liability and related insurance receivables as well as the underlying assumptions on a regular basis to determine whether any adjustments to the estimates are required. Due to the uncertainties surrounding asbestos litigation and insurance, these regular reviews may result in the Corporation incurring future charges; however, the Corporation is currently unable to estimate such future charges. Adjustments, if any, to the Corporation's estimate of its recorded Asbestos Liability and/or insurance receivables could be material to operating results for the periods in which the adjustments to the liability or receivable are recorded, and to the Corporation's liquidity and consolidated financial position.

ENVIRONMENTAL

The Corporation is currently performing certain remedial actions in connection with the sale of real estate previously owned.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

The shares of common stock of Ampco-Pittsburgh Corporation are traded on the New York Stock Exchange (symbol AP). Cash dividends have been paid on common shares in every year since 1965.

Quarter	2013 Per Share			2012 Per Share		
	Common Stock Price		Dividends Declared	Common Stock Price		Dividends Declared
	High	Low		High	Low	
First	\$ 21.00	\$ 17.55	\$ 0.18	\$ 23.71	\$ 19.30	\$ 0.18
Second	19.31	16.99	0.18	20.22	15.20	0.18
Third	20.69	16.24	0.18	19.86	15.65	0.18
Fourth	19.70	17.10	0.18	19.90	16.14	0.18
Year	21.00	16.24	0.72	23.71	15.20	0.72

The number of registered shareholders at December 31, 2013 and 2012 equaled 423 and 454, respectively.

STOCK PERFORMANCE GRAPH

Comparison of FiveYear Cumulative Total Return

Standard & Poors 500, NYSE Composite and Morningstar's Steel Industry

(Performance results through December 31, 2013)

COMPARISON OF CUMULATIVE TOTAL RETURN*

Assumes \$100 invested at the close of trading on the last trading day preceding January 1, 2008 in Ampco-Pittsburgh Corporation common stock, Standard & Poors 500 Index, NYSE Composite Index and Morningstar's Steel Industry group.

**Cumulative total return assumes reinvestment of dividends.*

In the above graph, the Corporation has used Morningstar's Steel Industry group for its peer comparison. The diversity of products produced by subsidiaries of the Corporation makes it difficult to match to any one product-based peer group. Although not totally comparable, the Steel Industry group was chosen because the largest percentage of the Corporation's sales is to the global steel industry.

Historical stock price performance shown on the above graph is not necessarily indicative of future price performance.

(1) Net income includes:

2013 An after-tax credit of \$10,621 or \$1.03 per common share for estimated additional insurance recoveries expected to be available to satisfy asbestos liabilities through 2022 resulting from settlement agreements reached with various insurance carriers (see Note 17 to Consolidated Financial Statements) offset by an after-tax charge of \$4,165 or \$0.40 per common share to recognize an other-than-temporary impairment of our investment in a forged roll joint venture company (see Note 2 to Consolidated Financial Statements) for a net increase to net income of \$6,456 or \$0.63 per common share.

2010 An after-tax charge of \$12,931 or \$1.26 per common share for estimated costs of asbestos-related litigation through 2020 net of estimated insurance recoveries (see Note 17 to Consolidated Financial Statements).

2009 An after-tax charge of \$2,831 or \$0.28 per common share associated with the write-off of goodwill deemed to be impaired at one of the divisions of the Air and Liquid Processing segment and a reduction in the effective state income tax rate for which certain net deferred income tax assets will be realized.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

(in thousands, except per share amounts)

EXECUTIVE OVERVIEW

Ampco-Pittsburgh Corporation operates in two business segments – the Forged and Cast Rolls segment and the Air and Liquid Processing segment. The Forged and Cast Rolls segment consists of Union Electric Steel Corporation (Union Electric Steel or UES) and Union Electric Steel UK Limited (UES-UK). Union Electric Steel is one of the world's largest manufacturers of forged hardened steel rolls with principal operations in Pennsylvania and Indiana whereas UES-UK produces cast iron and steel rolls in England. Rolls are supplied to manufacturers of steel and aluminum throughout the world. The Air and Liquid Processing segment includes Aero-fin, Buffalo Air Handling and Buffalo Pumps, all divisions of Air & Liquid Systems Corporation (Air and Liquid), a wholly-owned subsidiary of the Corporation. Aero-fin produces custom-engineered finned tube heat exchange coils and related heat transfer products for a variety of industries including fossil fuel and nuclear power generation, automotive, industrial process and HVAC. Buffalo Air Handling produces large custom-designed air handling systems for commercial, institutional and industrial building markets. Buffalo Pumps manufactures centrifugal pumps for the marine defense, refrigeration and power generation industries. The segment has operations in Virginia and New York with headquarters in Pennsylvania. The segment distributes a significant portion of its products through a common independent group of sales offices located throughout the United States and Canada.

For 2013, operating results for our Forged and Cast Rolls group were negatively impacted by ongoing pricing pressures from customers worldwide. Servicing a struggling global steel industry customer base required further price discounting to maintain market share causing an ongoing compression of margins when compared to 2012. Generally, demand for our roll product was weak in most world regions with the exception of Asia where sales increased significantly to the aluminum sector as a result of new mill construction. Demand was stagnant in North America and Europe due to continued depressed operating levels of the steel industry in these regions. Emerging indigenous roll suppliers in China and Korea gained significant market share in their home markets and made inroads in export markets through extraordinarily low price offerings. Additionally, aggressive global pricing was offered by traditional Western world and Japanese roll producers as most were operating well below their production capacity. For 2014, a modest increase in demand is expected; however, margins are expected to remain depressed. Efforts began in 2013 for the sale of non-roll products and services to utilize available production capacity of the segment. These initiatives will continue in 2014.

Union Electric Steel MG Roll Co., Ltd (UES-MG), the Chinese joint venture company in which a subsidiary of UES holds a 49% interest, principally manufactures and sells forged backup rolling mill rolls of a size and weight currently not able to be produced by UES. The joint venture has been adversely impacted by the global economic slow-down, reduced demand and excess roll inventories of its potential customer base in China. Losses have been incurred since 2009, for which we have recognized our share (or 49%) in our consolidated statements of operations, and are expected to continue in 2014. Additionally, the overall financial strength of the joint venture continues to deteriorate with a greater reliance on the 51% partner or entities controlled by the 51% partner to provide financing and working capital. In the fourth quarter of 2013, we, with the help of outside consultants and appraisers, concluded that the estimated fair value of our investment in UES-MG was less than our carrying amount and that the decline was other than temporary. Accordingly, we recognized an impairment charge reducing the carrying amount of our investment to its estimated fair value. We will continue to monitor the carrying value of this investment to determine if future charges are necessary.

For our Air and Liquid Processing segment, a decrease in spending on new construction projects by institutional markets negatively impacted our custom air handling and heat exchange coil businesses. This decrease was partially offset by increases in sales of heat exchange coils to the fossil fueled utility market and centrifugal pumps to U.S. Navy shipbuilders. The focus for this segment is to continue to develop new product lines and to strengthen the sales distribution networks.

CONSOLIDATED RESULTS OF OPERATIONS OVERVIEW**The Corporation**

	2013		2012		2011	
Net Sales:						
Forged and Cast Rolls	\$ 187,286	67%	\$ 189,470	65%	\$ 248,380	72%
Air and Liquid Processing	93,764	33%	103,435	35%	96,436	28%
Consolidated	\$ 281,050	100%	\$ 292,905	100%	\$ 344,816	100%
Income (Loss) from Operations:						
Forged and Cast Rolls	\$ 13,936		\$ 18,415		\$ 38,761	
Air and Liquid Processing ⁽¹⁾	24,945		7,267		8,155	
Corporate costs	(9,914)		(9,390)		(10,442)	
Consolidated	\$ 28,967		\$ 16,292		\$ 36,474	
Backlog:						
Forged and Cast Rolls	\$ 159,344	81%	\$ 154,527	79%	\$ 214,449	82%
Air and Liquid Processing	38,117	19%	41,277	21%	45,552	18%
Consolidated	\$ 197,461	100%	\$ 195,804	100%	\$ 260,001	100%

(1) Income (loss) from operations for the Air and Liquid Processing segment for 2013 includes a pre-tax credit of \$16,340 for estimated additional insurance recoveries expected to be available to satisfy asbestos liabilities through 2022 resulting from settlement agreements reached with various insurance carriers (see Note 17 to Consolidated Financial Statements).

Consolidated net sales for 2013 decreased when compared to 2012 principally due to a decline in new construction spending by the institutional markets for the Air and Liquid Processing group. Operating income improved, however, as a result of a pre-tax credit of \$16,340 for estimated additional insurance recoveries expected to be available to satisfy asbestos liabilities through 2022 resulting from settlement agreements reached with various insurance carriers in 2013. The benefit to operating income was offset primarily by lower margins for the Forged and Cast Rolls segment. Consolidated net sales and operating income for 2012 decreased when compared to 2011 principally due to a lower volume of shipments, weaker pricing, reduced margins and differences in product mix for the Forged and Cast Rolls group. A more detailed review by segment is included below. The variance in corporate costs between the years is primarily attributable to stock-based compensation costs and legal and professional fees.

Gross margin, excluding depreciation, as a percentage of net sales, was 22.7%, 22.9% and 25.7% for 2013, 2012 and 2011, respectively, and decreased from 2011 primarily as a result of price discounting which was necessary to remain competitive.

Selling and administrative expenses totaled \$39,682 (14.1% of net sales), \$40,530 (13.8% of net sales) and \$41,887 (12.1% of net sales) for 2013, 2012 and 2011, respectively. The decrease in 2013 from 2012 is primarily attributable to lower uninsured legal and case management costs and valuation expenses associated with asbestos litigation of \$1,088. The decrease in 2012 from 2011 is principally attributable to lower commission expense of \$2,283 for the Forged and Cast Rolls group as a result of the falloff in sales and lower stock-based compensation costs of \$696 offset by higher uninsured legal and case management costs and valuation expenses associated with asbestos litigation of \$819.

The credit for asbestos litigation in 2013 represents the estimated additional insurance recoveries expected to be available to satisfy asbestos liabilities through 2022 resulting from settlement agreements reached with various insurance carriers in 2013. The credit for asbestos litigation in 2012 represents an adjustment to previously-provided charges for asbestos-related litigation net of estimated insurance recoveries. The claims result from alleged personal injury from exposure to asbestos-containing components historically used in some products manufactured by certain of our former subsidiary companies (now operated as divisions of the Air and Liquid Processing segment). See Note 17 to Consolidated Financial Statements.

Other income (expense) fluctuated primarily as a result of changes in foreign exchange gains and losses and charges related to operations discontinued years ago. Gains (losses) on foreign exchange transactions approximated \$(227), \$107 and \$(371) for 2013, 2012 and 2011, respectively, and charges related to operations discontinued years ago equaled \$(1,412), \$(1,054) and \$(1,219), respectively.

Our statutory income tax rate equals 35% which compares to an effective income tax rate of 21.4%, 34.4%, and 37.2% for 2013, 2012 and 2011, respectively. The effective income tax rate for 2013 was lower due to beneficial permanent differences for our domestic operations and tax benefit related to the impairment charge recognized on our investment in a forged roll joint venture company. The effective income tax rate for 2011 was adversely impacted by the revaluation of net deferred income tax assets associated with a reduction in the statutory income tax rate for

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

the U.K. operations and adjustments to deferred income tax assets, partially offset by beneficial permanent differences for our domestic operations and changes in uncertain tax positions.

Equity losses in Chinese joint venture represent Union Electric Steel's share (49%) of the losses of UES-MG and the impairment charge we recognized in 2013 on our investment in the joint venture company (see Note 2 to Consolidated Financial Statements).

As a result of the above, we earned \$12,437 or \$1.20 per common share for 2013, \$8,355 or \$0.81 per common share for 2012, and \$21,309 or \$2.07 per common share for 2011. Net income for 2013 includes an after-tax credit of \$10,621 or \$1.03 per common share for estimated additional insurance recoveries expected to be available to satisfy asbestos liabilities through 2022 resulting from settlement agreements reached with various insurance carriers (see Note 17 to Consolidated Financial Statements) offset by an after-tax charge of \$4,165 or \$0.40 per common share to recognize an other-than-temporary impairment of our investment in a forged roll joint venture company (see Note 2 to Consolidated Financial Statements) for a net increase to net income of \$6,456 or \$0.63 per common share.

Forged and Cast Rolls

	2013	2012	2011
Net sales	\$ 187,286	\$ 189,470	\$ 248,380
Operating income	\$ 13,936	\$ 18,415	\$ 38,761
Backlog	\$ 159,344	\$ 154,527	\$ 214,449

Net sales for 2013 decreased slightly when compared to 2012 due to a further decline in selling prices offset by a higher level of shipments. The lower selling prices adversely impacted operating income by approximately \$12,500; however, the additional volume improved operating income by approximately \$4,500. Operating income for 2013 also benefited from receipt of \$1,505 of insurance proceeds for lost margin on in-transit inventory damaged by Hurricane Sandy in the prior year and improved quality resulting in a reduction of warranty-related provisions.

For 2012, the decrease in net sales from 2011 was due to a reduction in the level of shipments and selling prices which impacted operating results by approximately \$12,500 and \$9,000, respectively. Lower freight and commission expense offset the effect to operating income.

Backlog at the end of 2013 and 2012 decreased from 2011 due to the falloff in demand as customers worked below capacity and through excess inventories. Year-end backlog is more in line with historical levels, prior to the surge in steel production and the perceived shortage of roll supply which caused customers to place orders out several years. As of December 31, 2013, approximately \$25,338 of the backlog is expected to be released after 2014.

Air and Liquid Processing

	2013	2012	2011
Net sales	\$ 93,764	\$ 103,435	\$ 96,436
Operating income	\$ 24,945	\$ 7,267	\$ 8,155
Backlog	\$ 38,117	\$ 41,277	\$ 45,552

For 2013, sales for the segment decreased principally as a result of reduced demand for custom air handling equipment by universities and research facilities combined with excess capacity in the industry. Operating income for 2013 includes a pre-tax credit of \$16,340 for the estimated additional insurance recoveries expected to be available to satisfy asbestos liabilities through 2022 resulting from settlement agreements reached with various insurance carriers during the year. By comparison, operating income for 2012 includes a pre-tax credit of \$540 representing an adjustment to previously-provided charges for asbestos-related litigation net of estimated insurance recoveries, (see Note 17 to Consolidated Financial Statements). Uninsured legal and case management and valuation costs associated with asbestos litigation for each of the years approximated \$649, \$1,737 and \$918, respectively.

For Buffalo Pumps, although sales increased for each of the years when compared to the previous year, operating income remained comparable. Contribution from the higher volume of shipments was offset primarily by differences in product mix. Specifically, for 2013, Buffalo Pumps benefited from an increase in business activity with U.S. Navy shipbuilders and, in 2012, from a higher level of shipments to its power generation customers. Operating income, however, was unfavorably impacted by lower margins on certain projects for U.S. Navy shipbuilders.

During 2013, both Aerofin and Buffalo Air Handling were affected by lower spending on new construction projects. For Aerofin, the decrease was partially offset by additional orders for heat exchange coils for the industrial and nuclear markets. For Buffalo Air Handling, completion of a large order for a customer in medical research in 2012, which began in 2011, further impacted operating results in the current year when compared to the two previous years.

The decline in backlog at December 31, 2013 from 2012 is primarily attributable to fewer pumps orders for U.S. Navy shipbuilders and a drop in orders from the fossil fueled utility market. The decrease at December 31, 2012 from 2011 is principally due to shipment of the large order for a customer in medical research which was outstanding at December 31, 2011. The majority of the year-end backlog is scheduled to ship in 2014.

LIQUIDITY AND CAPITAL RESOURCES

Net cash flows provided by operating activities for 2013 equaled \$37,774 compared to \$25,444 and \$22,287 for 2012 and 2011, respectively. While the credit for asbestos litigation recorded in 2013 and 2012 improved earnings, it did not affect cash flows by the same amount. Instead, the asbestos liability, net of insurance recoveries, will be paid over a number of years and will generate tax benefits. Net asbestos-related payments, including reimbursement of past costs, equaled \$(985), \$7,932 and \$5,061 in 2013, 2012 and 2011, respectively, and are expected to approximate \$2,500 in 2014. Net cash flows provided by operating activities also benefited in 2013 from a reduction in inventory associated with the lower operating levels of our businesses. Contributions to our pension and other postretirement plans approximated \$7,400 in 2013 (of which \$5,000 were voluntary contributions), \$2,500 in 2012 and \$9,400 in 2011 (of which \$7,000 were voluntary contributions). As a result of voluntary contributions and relief provided by *Moving Ahead for Progress in the 21st Century* (MAP-21), which reduces funding requirements for single-employer defined benefit plans, no minimum contributions are required for 2014. Additional voluntary contributions may be made however.

Net cash flows used in investing activities were \$11,926, \$9,369 and \$15,372 in 2013, 2012 and 2011, respectively, the majority of which represents capital expenditures for the Forged and Cast Rolls group. In 2010, UES-UK was awarded a government grant of up to \$1,325 (£850) toward the purchase and installation of certain machinery and equipment of which \$1,083 (£680) has been received to date. The final portion is expected to be received in 2014. As of December 31, 2013, anticipated future capital expenditures are expected to approximate \$8,087, the majority of which will be spent in 2014.

Net cash outflows from financing activities represent primarily the payment of dividends of \$0.72 per common share. Additionally, stock options were exercised resulting in proceeds from the issuance of common stock and excess tax benefits.

The effect of exchange rate changes on cash and cash equivalents is primarily attributable to the fluctuation of the British pound against the U.S. dollar.

As a result of the above, cash and cash equivalents increased by \$19,021 in 2013 and ended the year at \$97,910 (of which approximately \$8,100 is held by foreign operations) in comparison to \$78,889 and \$69,888 at December 31, 2012 and 2011, respectively. Repatriation of foreign funds may result in the Corporation accruing and paying additional income tax; however, the majority of foreign funds is currently deemed to be permanently reinvested and no additional provision for income tax has been made. Funds on hand and funds generated from future operations are expected to be sufficient to finance our operational and capital expenditure requirements. We also maintain short-term lines of credit in excess of the cash needs of our businesses. The total available at December 31, 2013 was approximately \$9,500 (including £3,000 in the United Kingdom and 400 in Belgium).

We had the following contractual obligations outstanding as of December 31, 2013:

	Payments Due by Period					
	Total	<1 year	1 3 years	3 5 years	>5 years	Other
Industrial Revenue Bonds ⁽¹⁾	\$ 13,311	\$ 0	\$ 0	\$ 0	\$ 13,311	\$ 0
Operating Lease Obligations	1,621	842	681	98	0	0
Capital Expenditures	8,087	8,087	0	0	0	0
Pension and Other Postretirement Benefit Obligations ⁽²⁾	43,087	2,694	19,706	8,439	12,248	0
Purchase Obligations ⁽³⁾	4,938	2,506	2,432	0	0	0
Unrecognized Tax Benefits ⁽⁴⁾	270	91	0	0	0	179
Total	\$ 71,314	\$ 14,220	\$ 22,819	\$ 8,537	\$ 25,559	\$ 179

(1) Represents principal only. Interest is not included since it is variable; interest rates averaged less than 1% in the current year. The Industrial Revenue Bonds begin to mature in 2020; however, if the bonds are unable to be remarketed they will be refinanced under a separate facility. See Note 6 to Consolidated Financial Statements.

(2) Represents estimated contributions to our pension and other postretirement plans. Actual required contributions are contingent on a number of variables including future investment performance of the plans' assets and may differ from these estimates. See Note 7 to Consolidated Financial Statements. Contributions to the U.S. defined benefit plan are based on the projected funded status of the plan including anticipated normal costs, amortization of unfunded liabilities and an 8% expected return on plan assets. With respect to the U.K. defined benefit plan, the Trustees and UES-UK have agreed to a recovery plan that estimates the amount of employer contributions, based on U.K. regulations, necessary to eliminate the funding deficit of the plan over

an agreed period.

- (3) *Represents primarily commitments by one of our Forged and Cast Rolls subsidiaries for the purchase of natural gas through 2015 covering approximately 53% of anticipated needs to meet orders in backlog. See Note 11 to Consolidated Financial Statements.*

- (4) *Represents uncertain tax positions. Amount included as Other represents portion for which the period of cash settlement cannot be reasonably estimated. See Note 13 to Consolidated Financial Statements.*

With respect to environmental matters, we are currently performing certain remedial actions in connection with the sale of real estate previously owned. Environmental exposures are difficult to assess and estimate for numerous reasons including lack of reliable data, the multiplicity of possible solutions, the years of remedial and monitoring activity required and the identification of new sites. However, we believe the potential liability for all environmental proceedings of approximately \$823 accrued at December 31, 2013 is considered adequate based on information known to date (see Note 18 to Consolidated Financial Statements).

The nature and scope of our business brings us into regular contact with a variety of persons, businesses and government agencies in the ordinary course of business. Consequently, we and certain of our subsidiaries from time to time are named in various legal actions. Generally, we do not anticipate that our financial condition or liquidity will be materially affected by the costs of known, pending or threatened litigation. However, claims have been asserted alleging personal injury from exposure to asbestos-containing components historically used in some products and there can be no assurance that future claims will not present significantly greater and longer lasting financial exposure than presently contemplated (see Note 17 to Consolidated Financial Statements).

OFF-BALANCE SHEET ARRANGEMENTS

Our off-balance sheet arrangements include operating leases, capital expenditures and purchase obligations disclosed in the contractual obligations table and the letters of credit unrelated to the Industrial Revenue Bonds as discussed in Note 8 to the Consolidated Financial Statements.

EFFECTS OF INFLATION

While inflationary and market pressures on costs are likely to be experienced, it is anticipated that ongoing improvements in manufacturing efficiencies and cost savings efforts will mitigate the effects of inflation on 2014 operating results. The ability to pass on increases in the price of commodities to the customer is contingent upon current market conditions with us potentially having to absorb some portion of the increase. Product pricing for the Forged and Cast Rolls segment is reflective of current costs with a majority of orders subject to a variable-index surcharge program which helps to protect the segment and its customers against the volatility in the cost of certain raw materials. Additionally, long-term labor agreements exist at each of the key locations. Although certain of these agreements expire in 2014, we, as is consistent with past practice, are negotiating with the intent to secure mutually beneficial arrangements covering multiple years (see Note 8 to Consolidated Financial Statements). Finally, commitments have been executed for natural gas usage and certain commodities (copper and aluminum) to cover a portion of orders in the backlog (see Note 11 to Consolidated Financial Statements).

APPLICATION OF CRITICAL ACCOUNTING POLICIES

We have identified critical accounting policies that are important to the presentation of our financial condition, changes in financial condition and results of operations and involve the most complex or subjective assessments. Critical accounting policies relate to accounting for pension and other postretirement benefits, assessing recoverability of long-lived assets, litigation, income taxes and stock-based compensation.

Accounting for pension and other postretirement benefits involves estimating the cost of benefits to be provided well into the future and attributing that cost over the time period each employee works. To accomplish this, input from our actuary is evaluated and extensive use is made of assumptions about inflation, long-term rate of return on plan assets, mortality, rates of increases in compensation, employee turnover and discount rates.

The expected long-term rate of return on plan assets is an estimate of average rates of earnings expected to be earned on funds invested or to be invested to provide for the benefits included in the projected benefit obligation. Since these benefits will be paid over many years, the expected long-term rate of return is reflective of current investment returns and investment returns over a longer period. Also, consideration is given to target and actual asset allocations, inflation and real risk-free return. We believe the expected long-term rate of return of 8% for our domestic plan and 6.50% for our foreign plan to be reasonable. Actual returns on plan assets for 2013 and 2012, respectively, approximated 19.22% and 10.98% for our domestic plan and 12.42% and 9.61% for our foreign plan.

The discount rates used in determining future pension obligations and other postretirement benefits for each of our plans are based on rates of return on high-quality fixed-income investments currently available and expected to be available during the period to maturity of the pension and other postretirement benefits. High-quality fixed-income investments are defined as those investments which have received one of the two highest ratings given by a recognized rating agency with maturities of 10+ years. We believe the assumed discount rates of 5.00% and 4.50% as of December 31, 2013 for our domestic and foreign plans, respectively, to be reasonable.

We believe that the amounts recorded in the accompanying consolidated financial statements related to pension and other postretirement benefits are based on appropriate assumptions although actual outcomes could differ. A percentage point decrease in the expected long-term rate of return would increase annual pension expense by approximately \$1,600. A 1/4 percentage point decrease in the discount rate would increase

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

projected and accumulated benefit obligations by approximately \$7,700. Conversely, an increase in the expected long-term rate of return would decrease annual pension expense and an increase in the discount rate would decrease projected and accumulated benefit obligations (see Note 7 to Consolidated Financial Statements).

Property, plant and equipment are reviewed for recoverability whenever events or circumstances indicate the carrying amount of the long-lived assets may not be recoverable. If the undiscounted cash flows generated from the use and eventual disposition of the assets are less than their carrying value, then the asset value may not be fully recoverable potentially resulting in a write-down of the asset value. Estimates of future cash flows are based on expected market conditions over the remaining useful life of the primary asset(s). Accordingly, assumptions are made about pricing, volume and asset-resale values. Actual results may differ from these assumptions.

We believe the amounts recorded in the accompanying consolidated financial statements for property, plant and equipment are recoverable and are not impaired as of December 31, 2013.

Litigation and loss contingency accruals are made when it is determined that it is probable that a liability has been incurred and the amount can be reasonably estimated. Specifically, we and certain of our subsidiaries are involved in various claims and lawsuits incidental to their businesses. In addition, claims have been asserted alleging personal injury from exposure to asbestos-containing components historically used in some products manufactured by certain of our former subsidiary companies (now operated as divisions of Air & Liquid Systems). To assist us in determining whether an estimate could be made of the potential liability for pending and unasserted future claims for Asbestos Liability along with applicable insurance coverage, and the amounts of any estimates, we hired a nationally-recognized asbestos-liability expert and insurance consultant. Based on their analyses, reserves for probable and reasonably estimable costs of Asbestos Liabilities including defense costs and receivables for the insurance recoveries that are deemed probable have been established. These amounts relied on assumptions which were based on currently known facts and strategy.

In 2012, we undertook another review of our Asbestos Liability claims, defense costs and the likelihood for insurance recoveries. Key variables in these assumptions are summarized in Note 17 to the Consolidated Financial Statements and include the number and type of new claims to be filed each year, the average cost of disposing of each new claim, average annual defense costs, the resolution of coverage issues with insurance carriers, and the solvency risk with respect to the relevant insurance carriers. Other factors that may affect our Asbestos Liability and ability to recover under our insurance policies include uncertainties surrounding the litigation process from jurisdiction to jurisdiction and from case to case, reforms that may be made by state and federal courts, and the passage of state or federal tort reform legislation. Actual expenses or insurance recoveries could be significantly higher or lower than those recorded if assumptions used in the calculations vary significantly from actual results.

We intend to evaluate our estimated Asbestos Liability and related insurance receivables as well as the underlying assumptions on a regular basis to determine whether any adjustments to the estimates are required. Due to the uncertainties surrounding asbestos litigation and insurance, these regular reviews may result in the incurrence of future charges; however, we are currently unable to estimate such future charges. Adjustments, if any, to our estimate of our recorded Asbestos Liability and/or insurance receivables could be material to our operating results for the periods in which the adjustments to the liability or receivable are recorded, and to our liquidity and consolidated financial position.

Accounting for income taxes includes our evaluation of the underlying accounts, permanent and temporary differences, our tax filing positions and interpretations of existing tax law. A valuation allowance is recorded against deferred income tax assets to reduce them to the amount that is more likely than not to be realized. In doing so, assumptions are made about the future profitability of our operations and the nature of that profitability. Actual results may differ from these assumptions. If we determined we would not be able to realize all or part of the deferred income tax assets in the future, an adjustment to the valuation allowance would be established resulting in a charge to net income. Likewise, if we determined we would be able to realize deferred income tax assets in excess of the net amount recorded, we would release a portion of the existing valuation allowance resulting in an increase in net income. As of December 31, 2013, we have deferred income tax assets approximating \$49,474 and a valuation allowance of \$2,639.

We do not recognize a tax benefit in the financial statements related to a tax position taken or expected to be taken in a tax return unless it is more likely than not that the tax authorities will sustain the tax position solely on the basis of the position's technical merits. Consideration is given primarily to legislation and statutes, legislative intent, regulations, rulings and case law as well as their applicability to the facts and circumstances of the tax position when assessing the sustainability of the tax position. In the event a tax position no longer meets the more likely than not criteria, we would reverse the tax benefit by recognizing a liability and recording a charge to earnings. Conversely, if we subsequently determined that a tax position meets the more likely than not criteria, we would recognize the tax benefit by reducing the liability and recording a credit to earnings. As of December 31, 2013, based on information known to date, we believe the amount of unrecognized tax benefits of \$270 for tax positions taken or expected to be taken in a tax return which may be challenged by the tax authorities is adequate.

See Note 13 to the Consolidated Financial Statements.

Accounting for stock-based compensation is based on the fair value of the stock options on the date of grant. The fair value is affected by our stock price and various assumptions including assumptions about the expected term of the options, forfeitures, volatility, dividends and the risk-free interest rate. If the fair value of granted stock options was re-determined, on a date other than the date of grant, the resulting fair value would differ. Accordingly, the fair value of stock options granted to date is not indicative of the fair value of stock options to be granted in the future (see Note 9 to Consolidated Financial Statements).

RECENTLY IMPLEMENTED ACCOUNTING PRONOUNCEMENTS

In December 2011, the Financial Accounting Standards Board (FASB) issued ASU 2011-11, *Disclosures about Offsetting Assets and Liabilities*, which requires expanded disclosures, including gross and net information, about financial and derivative instruments that are either offset in the balance sheet or are subject to an enforceable master netting arrangement or similar agreement. The guidance became effective for reporting periods beginning on or after January 1, 2013 and is to be applied retrospectively. The new guidance affects disclosures only and did not impact our operating results, financial position or liquidity.

In February 2013, the FASB issued ASU 2013-02, *Comprehensive Income: Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*, which requires entities to report the effect of significant reclassifications out of accumulated other comprehensive income (loss) on the respective line items in net income if the amount being reclassified is required to be reclassified in its entirety to net income. Information may be reported either on the face of the income statement or in the footnotes to the financial statements. For other amounts that are not required to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference to other required disclosures. The guidance became effective for reporting periods beginning on or after January 1, 2013. The guidance affects disclosures only. It does not change whether items are reported in net income or other comprehensive income or when items in other comprehensive income are reclassified to net income; accordingly, ASU 2013-02 did not impact our operating results, financial position or liquidity. See Note 10 to the Consolidated Financial Statements for required disclosures.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In July 2013, the FASB issued ASU 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*, which requires, under certain circumstances, an unrecognized tax benefit, or a portion of an unrecognized tax benefit, to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. The guidance becomes effective for reporting periods beginning on or after January 1, 2014. Currently, we record unrecognized tax benefits as a liability; accordingly, implementation of the guidance may affect balance sheet presentation but will not impact our operating results or liquidity.

FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by or on our behalf. Management's Discussion and Analysis of Financial Condition and Results of Operation and other sections of the Annual Report on Form 10-K as well as the consolidated financial statements and notes thereto contain forward-looking statements that reflect our current views with respect to future events and financial performance.

Forward-looking statements are identified by the use of the words believes, expects, anticipates, estimates, projects, forecasts and other expressions that indicate future events and trends. Forward-looking statements speak only as of the date on which such statements are made, are not guarantees of future performance or expectations, and involve risks and uncertainties. For us, these risks and uncertainties include, but are not limited to, those described under Item 1A. Risk Factors of this Annual Report on Form 10-K. In addition, there may be events in the future that we are not able to predict accurately or control which may cause actual results to differ materially from expectations expressed or implied by forward-looking statements. Except as required by applicable law, we undertake no obligation to update any forward-looking statement, whether as a result of new information, events or otherwise.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We view our primary market risk exposures to be changes in foreign currency exchange rates and commodity prices. To manage certain foreign currency exchange exposures, our policy is to hedge a portion of our foreign currency denominated sales and receivables, primarily U.S. sales denominated in euros and U.K. sales denominated in U.S. dollars and euros. Although strengthening of the U.S. dollar could result in a lower volume of exports from the United States and at reduced margins, exports of our foreign operation may increase and gross margins might improve. Additionally, strengthening of the British pound could result in a lower volume of exports from the United Kingdom and at reduced margins; however, exports for our domestic operations may increase and gross margins might improve. A weakening of the euro, as compared to the U.S. dollar and British pound, could result in a lower volume of exports and at reduced margins.

To reduce the effect of price changes for certain of our raw materials and energy, we enter into contracts for particular commodities (copper and aluminum) and purchase a portion of our energy usage in advance. Based on estimated annual purchases, a 10% fluctuation in commodity prices (including electricity, natural gas, steel scrap and ferroalloys) would have impacted 2013 and 2012 by approximately \$8,500 and \$9,500, respectively. There is no guarantee that fluctuations in commodity prices will be limited to 10%. The ability to pass on increases in the price of commodities to the customer is contingent upon current market conditions with us potentially having to absorb some portion of such increase. However, a sales price surcharge mechanism is in place with a majority of the customers of the Forged and Cast Rolls segment which helps to protect us against the volatility in the cost of certain raw materials.

See also Note 11 to the Consolidated Financial Statements.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**CONSOLIDATED BALANCE SHEETS**

	December 31,	
(in thousands, except par value)	2013	2012
Assets		
Current assets:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts)

Description of Business

Ampco-Pittsburgh Corporation (the Corporation) operates in two business segments. The *Forged and Cast Rolls* segment consists of Union Electric Steel Corporation (Union Electric Steel or UES) and Union Electric Steel UK Limited (UES-UK). Union Electric Steel is one of the world's largest manufacturers of forged hardened steel rolls with principal operations in Pennsylvania and Indiana whereas UES-UK produces cast iron and steel rolls in England. Rolls are supplied to manufacturers of steel and aluminum throughout the world. The *Air and Liquid Processing* segment includes Aerofin, Buffalo Air Handling and Buffalo Pumps, all divisions of Air & Liquid Systems Corporation (Air and Liquid), a wholly-owned subsidiary of the Corporation. Aerofin produces custom-engineered finned tube heat exchange coils and related heat transfer products for a variety of industries including fossil fuel and nuclear power generation, automotive, industrial process and HVAC. Buffalo Air Handling produces large custom-designed air handling systems for commercial, institutional and industrial building markets. Buffalo Pumps manufactures centrifugal pumps for the marine defense, refrigeration and power generation industries. The segment has operations in Virginia and New York with headquarters in Pennsylvania. The segment distributes a significant portion of its products through a common independent group of sales offices located throughout the United States and Canada.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Corporation's accounting policies conform to accounting principles generally accepted in the United States of America. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant items subject to estimates and assumptions include valuing the assets and obligations related to employee benefit plans, assessing the carrying value of long-lived assets, accounting for loss contingencies associated with claims and lawsuits, accounting for income taxes and estimating the fair value of stock options granted. Actual results could differ from those estimates. A summary of the significant accounting policies followed by the Corporation is presented below.

Consolidation

All subsidiaries are wholly owned and are included in the consolidated financial statements of the Corporation. Intercompany accounts and transactions are eliminated. Investments in joint ventures whereby the Corporation owns 20% to 50% of the voting stock and has the ability to exercise significant influence over the operating and financial policies of the joint venture are accounted for using the equity method of accounting. Investments in joint ventures whereby the Corporation does not have the ability to exercise significant influence over the operating and financial policies of the joint venture are accounted for using the cost method of accounting. Investments in joint ventures are reviewed for impairment whenever events or circumstances indicate the carrying amount of the investment may not be recoverable. If the estimated fair value of the investment is less than the carrying amount and such decline is determined to be other than temporary, then the investment may not be fully recoverable potentially resulting in a write-down of the investment value.

Cash and Cash Equivalents

Securities with purchased original maturities of three months or less are considered to be cash equivalents. The Corporation maintains cash and cash equivalents at various financial institutions which may exceed federally insured amounts.

Inventories

Inventories are valued at the lower of cost or market. Cost includes the cost of raw materials, direct labor and overhead for those items manufactured but not yet sold or for which title has not yet transferred. Fixed production overhead is allocated to inventories based on normal capacity of the production facilities. In periods of abnormally high production, the amount of fixed overhead allocated to each unit of production is decreased so that inventories are not measured above cost. The amount of fixed overhead allocated to inventories is not increased as a consequence of abnormally low production or idle plant. Costs for abnormal amounts of spoilage, handling costs and freight costs are charged to expense when incurred. Cost of domestic raw materials, work-in-process and finished goods inventories is primarily determined by the last-in, first-out (LIFO) method. Cost of domestic supplies and foreign inventories is determined primarily by the first-in, first-out (FIFO) method.

Property, Plant and Equipment

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

Property, plant and equipment are recorded at cost with depreciation computed using the straight-line method over the following estimated useful lives: land improvements 15 to 20 years, buildings 25 to 50 years and machinery and equipment 3 to 25 years. Expenditures that extend economic useful lives are capitalized. Routine maintenance is charged to expense. Gains or losses are recognized on retirements or disposals. Property, plant and equipment are reviewed for impairment whenever events or circumstances indicate the carrying amount of the asset may not be recoverable. If the undiscounted cash flows generated from the use and eventual disposition of the assets are less than their carrying value, then the asset value may not be fully recoverable potentially resulting in a write-down of the asset value. Estimates of future cash flows are based on expected market conditions over the remaining useful life of the primary asset(s). Proceeds from government grants are recorded as a reduction in the purchase price of the underlying assets and amortized against depreciation over the lives of the related assets.

Product Warranty

Provisions for product warranties are recognized at the time the underlying sale is recorded. The provision is based on historical experience as a percentage of sales adjusted for potential claims when a liability is probable and for known claims.

Employee Benefit Plans

Funded Status

If the fair value of the plan assets exceeds the projected benefit obligation, the over-funded projected benefit obligation is recognized as an asset (prepaid pensions) on the consolidated balance sheet. Conversely, if the projected benefit obligation exceeds the fair value of plan assets, the under-funded projected benefit obligation is recognized as a liability (employee benefit obligations) on the consolidated balance sheet. Gains and losses arising from the difference between actuarial assumptions and actual experience and unamortized prior service costs are recorded as a separate component of accumulated other comprehensive income (loss) and presented net of income tax.

Net Periodic Pension and Other Postretirement Costs

Net periodic pension and other postretirement costs includes service cost, interest cost, expected rate of return on the market-related value of plan assets, amortization of prior service costs and recognized actuarial gains or losses. When actuarial gains or losses exceed 10% of the greater of the projected benefit obligation or the market-related value of plan assets, they are amortized to net periodic pension and other postretirement costs over the average remaining service period of employees expected to receive benefits under the plans. When the gains or losses are less than 10% of the greater of the projected benefit obligation or the market-related value of plan assets, they are included in net periodic pension and other postretirement costs indirectly as a result of lower/higher interest costs arising from a decrease/increase in the projected benefit obligation. The market-related value of plan assets is determined using a five-year moving average which recognizes 20% of unrealized gains and losses each year.

Other Comprehensive Income (Loss)

Other comprehensive income (loss) includes changes in assets and liabilities from non-owner sources including foreign currency translation adjustments, unamortized prior service costs and unrecognized actuarial gains and losses associated with employee benefit plans, unrealized holding gains and losses on securities designated as available for sale and changes in the fair value of derivatives designated and effective as cash flow hedges. Certain components of other comprehensive income (loss) are presented net of income tax. Foreign currency translation adjustments exclude the effect of income tax since earnings of non-U.S. subsidiaries are deemed to be reinvested for an indefinite period of time.

Reclassification adjustments are amounts which are realized during the year and, accordingly, are deducted from other comprehensive income (loss) in the period in which they are included in net income or when a transaction no longer qualifies as a cash flow hedge. Foreign currency translation adjustments are included in net income upon sale or upon complete or substantially complete liquidation of an investment in a foreign entity. Unamortized prior service costs and unrecognized actuarial gains and losses associated with employee benefit plans are included in net income either over the average remaining service period of employees expected to receive benefits under the plans or indirectly as a result of lower/higher interest costs arising from a decrease/increase in the projected benefit obligation. Unrealized holding gains and losses on securities are included in net income when the underlying security is sold. Changes in the fair value of derivatives are included in net income when the projected sale occurs or, if a foreign currency purchase contract, over the estimated useful life of the underlying asset.

Revenue Recognition

Revenue from sales is recognized when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable, and collectability is reasonably assured. Persuasive evidence of an arrangement identifies the final understanding between the parties as to the specific nature and terms of the agreed-upon transaction that creates enforceable obligations. It can be in the form of an executed purchase order from the customer, sales agreement issued by the Corporation or a similar arrangement deemed to be normal and customary business practice for that particular customer or class of customer (collectively, a sales agreement).

Delivery and performance is considered to have occurred when the customer has taken title and assumed the risks and rewards of ownership of the product. Typically this occurs when the product is shipped to the customer (i.e., FOB shipping point), delivered to the customer (i.e., FOB destination), or, for foreign sales, in accordance with trading guidelines known as Incoterms. Incoterms are standard trade definitions used in international contracts and are developed, maintained and promoted by the ICC Commission on Commercial Law and Practice.

The sales price required to be paid by the customer is fixed or determinable from the sales agreement. It is not subject to refund or adjustment except for a variable-index surcharge provision which increases or decreases, as applicable, the selling price of a rolling mill roll for

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

corresponding changes in the published index cost of certain raw materials. The variable-index surcharge is recognized as revenue when the corresponding revenue for the inventory is recognized. Likelihood of collectability is assessed prior to acceptance of an order. There are no customer-acceptance provisions other than customer inspection and testing prior to shipment. Post-shipment obligations are insignificant.

Amounts billed to the customer for shipping and handling are recorded within net sales and the related costs are recorded within costs of products sold (excluding depreciation). Amounts billed for taxes assessed by various government authorities (e.g. sales tax, value-added tax, etc.) are excluded from the determination of net income and instead are recorded as a liability until remitted to the government authority.

Foreign Currency Translation

Assets and liabilities of the Corporation's foreign operations are translated at year-end exchange rates and the statements of operations are translated at the average exchange rates for the year. Gains or losses resulting from translating foreign currency financial statements are accumulated as a separate component of accumulated other comprehensive income (loss) until the entity is sold or substantially liquidated.

Derivative Instruments

Derivative instruments which include forward exchange (for foreign currency sales and purchases) and futures contracts are recorded on the consolidated balance sheet as either an asset or a liability measured at their fair value. The accounting for changes in the fair value of a derivative depends on the use of the derivative. To the extent that a derivative is designated and effective as a cash flow hedge of an exposure to future changes in value, the change in the fair value of the derivative is deferred in accumulated other comprehensive income (loss). Any portion considered to be ineffective, including that arising from the unlikelihood of an anticipated transaction to occur, is reported as a component of earnings (other income/expense) immediately.

Upon occurrence of the anticipated sale, the foreign currency sales contract designated and effective as a cash flow hedge is de-designated as a fair value hedge and the change in fair value previously deferred in accumulated other comprehensive income (loss) is reclassified to earnings (net sales) with subsequent changes in fair value recorded as a component of earnings (other income/expense). Upon occurrence of the anticipated purchase, the foreign currency purchase contract is settled and the change in fair value deferred in accumulated other comprehensive income (loss) is reclassified to earnings (depreciation expense) over the life of the underlying assets. Upon settlement of a futures contract, the change in fair value deferred in accumulated other comprehensive income (loss) is reclassified to earnings (costs of products sold, excluding depreciation) when the corresponding inventory is sold and revenue is recognized. To the extent that a derivative is designated and effective as a hedge of an exposure to changes in fair value, the change in the derivative's fair value will be offset in the statement of operations by the change in the fair value of the item being hedged and is recorded as a component of earnings (other income/expense). Cash flows associated with the derivative instruments are recorded as a component of operating activities on the consolidated statement of cash flows.

The Corporation does not enter into derivative transactions for speculative purposes and, therefore, holds no derivative instruments for trading purposes.

Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. A hierarchy of inputs is used to determine fair value measurements with three levels. Level 1 inputs are quoted prices in active markets for identical assets or liabilities and are considered the most reliable evidence of fair value. Level 2 inputs are observable prices that are not quoted on active exchanges. Level 3 inputs are unobservable inputs used for measuring the fair value of assets or liabilities.

Stock-Based Compensation

Compensation expense is recognized for stock-based compensation awards over the requisite service period based on the estimated fair value of the award as of the date of grant calculated using the Black-Scholes option-pricing model. Fair value is affected by the Corporation's stock price and various assumptions including assumptions about the expected term of the options, forfeitures, volatility, dividends and the risk-free interest rate. The expected life of the options is estimated by considering the historical exercise experience of the employee group and the vesting period of the awards. The expected forfeiture rate is estimated based on the historical forfeiture rate of the employee group. The expected volatility is based on the historical prices of the Corporation's stock and dividend amounts over the expected life of the stock options. The expected dividend yield is based on a dividend amount giving consideration to the Corporation's past pattern and future expectations of dividends over the expected life of the options. The risk-free interest rate is equal to the yield available on U.S. Treasury zero-coupon issues at the date of grant with a remaining term equal to the expected life of the options.

Legal Costs

Legal costs expected to be incurred in connection with loss contingencies are accrued when such costs are probable and estimable.

Income Taxes

Income taxes are recognized during the year in which transactions enter into the determination of financial statement income. Deferred income tax assets and liabilities are recognized for the future tax consequences of temporary differences between the book carrying amount and the tax basis of assets and liabilities including net operating loss carryforwards. Unremitted earnings of the Corporation's non-US subsidiaries and affiliates are deemed to be permanently reinvested and, accordingly, no deferred income tax liability is recorded. A valuation allowance is provided against a deferred income tax asset when it is more likely than not the asset will not be realized. Similarly, if a determination is made that it is more likely than not the deferred income tax asset will be realized, the related valuation allowance would be reduced and a benefit to earnings would be recorded. Penalties and interest are recognized as a component of the income tax provision.

Tax benefits are recognized in the financial statements for tax positions taken or expected to be taken in a tax return when it is more likely than not that the tax authorities will sustain the tax position solely on the basis of the position's technical merits. Consideration is given primarily to legislation and statutes, legislative intent, regulations, rulings and case law as well as their applicability to the facts and circumstances of the tax position when assessing the sustainability of the tax position. In the event a tax position no longer meets the more likely than not criteria, the tax benefit is reversed by recognizing a liability and recording a charge to earnings. Conversely, if a tax position subsequently meets the more likely than not criteria, a tax benefit would be recognized by reducing the liability and recording a credit to earnings.

Earnings Per Common Share

Basic earnings per common share is computed by dividing net income by the weighted average number of common shares outstanding for the period. The computation of diluted earnings per common share is similar to basic earnings per common share except that the denominator is increased to include the dilutive effect of the net additional common shares that would have been outstanding assuming exercise of outstanding stock options, calculated using the treasury stock method. The weighted average number of common shares outstanding assuming exercise of the stock options was 10,406,478 for 2013, 10,389,678 for 2012 and 10,393,159 for 2011. Weighted-average outstanding stock options excluded from the diluted earnings per common share calculation, since the effect would have been antidilutive, were 781,325 for 2013, 671,977 for 2012 and 544,342 for 2011.

Recently Implemented Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board (FASB) issued ASU 2011-11, *Disclosures about Offsetting Assets and Liabilities*, which requires expanded disclosures, including gross and net information, about financial and derivative instruments that are either offset in the balance sheet or are subject to an enforceable master netting arrangement or similar agreement. The guidance became effective for reporting periods beginning on or after January 1, 2013 and is to be applied retrospectively. The new guidance affects disclosures only and did not impact operating results, financial position or liquidity of the Corporation.

In February 2013, the FASB issued ASU 2013-02, *Comprehensive Income: Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*, which requires entities to report the effect of significant reclassifications out of accumulated other comprehensive income (loss) on the respective line items in net income if the amount being reclassified is required to be reclassified in its entirety to net income. Information may be reported either on the face of the income statement or in the footnotes to the financial statements. For other amounts that are not required to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference to other required disclosures. The guidance became effective for reporting periods beginning on or after January 1, 2013. The guidance affects disclosures only. It does not change whether items are reported in net income or other comprehensive income or when items in other comprehensive income are reclassified to net income; accordingly, ASU 2013-02 did not impact the operating results, financial position or liquidity of the Corporation. (See Note 10.)

Recently Issued Accounting Pronouncements

In July 2013, the FASB issued ASU 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*, which requires, under certain circumstances, an unrecognized tax benefit, or a portion of an unrecognized tax benefit, to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. The guidance becomes effective for reporting periods beginning on or after January 1, 2014. Currently, the Corporation records unrecognized tax benefits as a liability; accordingly, implementation of the guidance may affect balance sheet presentation but will not impact operating results or liquidity of the Corporation.

NOTE 2 INVESTMENTS IN JOINT VENTURES:

In 2007, a subsidiary of UES entered into an agreement with Maanshan Iron & Steel Company Limited (Maanshan) to form a joint venture company in China. UES owns 49% of the joint venture company and Maanshan owns 51%. Both companies contributed cash for their respective interests (which equated to \$14,700 for UES). The joint venture company principally manufactures and sells forged backup rolling mill rolls of a size and weight currently not able to be produced by UES. A significant portion of its sales have been to Maanshan or entities controlled by Maanshan. Additionally, the majority of its raw materials are purchased from Maanshan or entities controlled by Maanshan. UES has exclusive marketing and sales rights and earned commissions of \$74 and \$191 during 2012 and 2011, respectively. Approximately \$14 was outstanding as of December 31, 2012. UES has not guaranteed any of the obligations of the joint venture; accordingly, its maximum exposure of loss is limited to its investment. Since UES is the minority shareholder and allocation of earnings and voting rights are proportional to ownership interests, UES is not considered the primary beneficiary and, accordingly, accounts for its 49% interest in the joint venture under the equity method of accounting.

Losses of the joint venture approximated \$(4,203), \$(3,254) and \$(1,024) for the twelve month period ended September 30, 2013, 2012 and 2011, respectively, of which the Corporation has recognized its share (or 49%) in its consolidated statements of operations. Losses are expected to continue in 2014. The joint venture has been adversely impacted by the global economic slow-down, reduced demand and excess roll inventories of its potential customer base in China, including Maanshan. Additionally, the overall financial strength of the joint venture continues to deteriorate with a greater reliance on Maanshan or entities controlled by Maanshan to provide financing and working capital. In the fourth quarter of 2013, the Corporation, with the help of outside consultants and appraisers, concluded that the estimated fair value of its investment was less than its carrying amount and that the decline was other than temporary. Accordingly, the Corporation recognized an impairment charge of \$6,407 reducing the carrying amount of its investment to \$3,670. The Corporation will continue to monitor the carrying value of this investment to determine if future charges will be necessary.

Assets, liabilities and shareholders' equity of the joint venture as of September 30, 2013 and 2012 are summarized below. The remaining difference between the carrying amount of the investment and the value of the underlying equity in the net assets of the joint venture relates primarily to the elimination of 49% of the profit (intercompany profit) for the sale of technology from UES to the joint venture in earlier years. The intercompany profit will be recognized when realized outside of the controlled group.

	2013	2012
Assets:		
Current assets (includes receivables from related parties of \$636 and \$271, respectively)	\$ 9,431	\$ 17,356
Noncurrent assets	36,840	39,455
	\$ 46,271	\$ 56,811
Liabilities and Shareholders' Equity:		
Current liabilities (include liabilities to related parties of \$19,278 and \$18,534, respectively)	\$ 22,498	\$ 18,621
Noncurrent liabilities	0	10,850
Shareholders' equity	23,773	27,340
	\$ 46,271	\$ 56,811

The Corporation also has a 25% investment in a Chinese cast roll joint venture company which is recorded at cost, or \$1,340. The Corporation does not participate in the management or daily operation of the joint venture company, has not guaranteed any of its obligations and has no ongoing responsibilities to it. Dividends may be declared by the Board of Directors of the joint venture company after allocation of after-tax profits to various funds equal to the minimum amount required under Chinese law. No dividends were declared or received in 2013, 2012 or 2011.

NOTE 3 INVENTORIES:

	2013	2012
Raw materials	\$ 17,411	\$ 22,514
Work-in-progress	29,322	31,164
Finished goods	5,894	5,907
Supplies	11,502	11,084
	\$ 64,129	\$ 70,669

At December 31, 2013 and 2012, approximately 56% and 68%, respectively, of the inventories was valued using the LIFO method. The LIFO reserve approximated \$(26,404) and \$(27,911) at December 31, 2013 and 2012, respectively. During each of the years, inventory quantities decreased resulting in a liquidation of LIFO layers which were at lower costs. The effect of the liquidations was to decrease costs of products sold (excluding depreciation) by approximately \$1,803, \$277 and \$1,127 for 2013, 2012 and 2011, respectively, which increased net income by approximately \$1,172 or \$0.11 per common share for 2013, \$180 or \$0.02 per common share for 2012 and \$733 or \$0.07 per common share for 2011.

NOTE 4 PROPERTY, PLANT AND EQUIPMENT:

	2013	2012
Land and land improvements	\$ 5,122	\$ 5,006
Buildings	44,116	43,411
Machinery and equipment	250,936	237,473
Construction-in-process	5,315	7,493
Other	8,711	8,674
	314,200	302,057
Accumulated depreciation	(162,912)	(151,760)
	\$ 151,288	\$ 150,297

Land and buildings of UES-UK equal to approximately \$3,268 (£1,974) at December 31, 2013 are held as collateral by the trustees of the UES-UK contributory defined benefit pension plan (see Note 7).

NOTE 5 OTHER CURRENT LIABILITIES:

	2013	2012
Customer-related liabilities	\$ 10,610	\$ 13,444
Income taxes payable	1,063	70
Accrued sales commissions	1,648	2,146
Other	8,399	8,813
	\$ 21,720	\$ 24,473

Customer-related liabilities include liabilities for product warranty claims and deposits received on future orders. The following summarizes changes in the liability for product warranty claims for the year ended December 31:

	2013	2012	2011
Balance at the beginning of the year	\$ 6,625	\$ 5,498	\$ 5,113
Satisfaction of warranty claims	(1,908)	(2,411)	(2,691)
Provision for warranty claims	2,112	3,399	3,087
Other, primarily impact from changes in foreign currency exchange rates	70	139	(11)
Balance at the end of the year	\$ 6,899	\$ 6,625	\$ 5,498

NOTE 6 BORROWING ARRANGEMENTS:

The Corporation maintains short-term lines of credit of approximately \$9,500 (including £3,000 in the United Kingdom and 400 in Belgium). No amounts were outstanding under these lines of credit as of December 31, 2013 and 2012.

As of December 31, 2013, the Corporation had the following Industrial Revenue Bonds (IRBs) outstanding: (1) \$4,120 tax-exempt IRB maturing in 2020, interest at a floating rate which averaged 0.16% during the current year; (2) \$7,116 taxable IRB maturing in 2027, interest at a floating rate which averaged 0.20% during the current year and (3) \$2,075 tax-exempt IRB maturing in 2029, interest at a floating rate which averaged 0.18% during the current year. The IRBs are remarketed periodically at which time interest rates are reset. The IRBs are secured by letters of credit of equivalent amounts. The letter of credit agreements require, among other things, maintenance of a minimum net worth and prohibit a leverage ratio in excess of a stipulated amount. The Corporation was in compliance with the applicable bank covenants as of December 31, 2013.

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

Despite principal not beginning to become due until 2020, the IRBs can be put back to the Corporation on short notice if, although considered remote by the Corporation and its bankers, the bonds cannot be remarketed. At that time, the bondholders can seek reimbursement from the letters of credit. As provided by a separate agreement with the Corporation's bank, funding of the letters of credit, if so drawn against, would be satisfied with equal and immediate borrowings under a separate IRB Standby Letter of Credit facility (the Facility). The Facility expires on August 1, 2015 and is expected to be renewed annually to provide for a continual term of greater than one year. However, the Facility includes language regarding material adverse change to the Corporation's business which could result in it being called or cancelled at the bank's discretion; accordingly, the IRBs remain classified as a current liability. The availability under the Facility is \$13,566, equal to the letters of credit, and as of December 31, 2013 no amounts were outstanding.

NOTE 7 PENSION AND OTHER POSTRETIREMENT BENEFITS:**Pension Plans**

The Corporation has a qualified defined benefit pension plan covering substantially all of its U.S. employees. Generally, benefits are based on years of service multiplied by either a fixed amount or a percentage of compensation. For its U.S. pension plan covered by the Employee Retirement Income Security Act of 1974 (ERISA), the Corporation's policy is to fund at least the minimum actuarially computed annual contribution required under ERISA. Although no minimum contributions were required for any of the three years, voluntary contributions of \$5,000 and \$7,000 were made in 2013 and 2011, respectively. Additionally, due to voluntary contributions and relief provided by *Moving Ahead for Progress in the 21st Century* (MAP-21), which reduces funding requirements for single-employer defined benefit plans, no minimum contributions are required for 2014; however, voluntary contributions may be made. Estimated benefit payments for subsequent years are \$8,746 for 2014, \$9,220 for 2015, \$9,666 for 2016, \$10,125 for 2017, \$10,603 for 2018 and \$59,563 for 2019 – 2023. The fair value of the plan's assets as of December 31, 2013 and 2012 approximated \$164,085 and \$140,218, respectively, in comparison to accumulated benefit obligations of \$167,723 and \$180,737 for the same periods.

Employees of UES-UK participate in a contributory defined benefit pension plan that was curtailed effective December 31, 2004 and replaced with a defined contribution pension plan. The UES-UK plans are non-U.S. plans and therefore are not covered by ERISA. Instead, the Trustees and UES-UK have agreed to a recovery plan that estimates the amount of employer contributions, based on U.K. regulations, necessary to eliminate the funding deficit of the plan over an agreed period with such estimates subject to change based on the future investment performance of the plan's assets. Employer contributions to the contributory defined benefit pension plan approximated \$1,764, \$1,786 and \$1,693 in 2013, 2012 and 2011, respectively, and are expected to approximate \$1,859 in 2014. The fair value of the plan's assets as of December 31, 2013 and 2012 approximated \$48,536 (£29,315) and \$41,875 (£25,774), respectively, in comparison to accumulated benefit obligations of \$60,830 (£36,740) and \$59,210 (£36,443) for the same periods. Estimated benefit payments for subsequent years are \$1,193 for 2014, \$1,565 for 2015, \$1,475 for 2016, \$2,178 for 2017, \$1,593 for 2018 and \$13,598 for 2019 – 2023. Contributions to the defined contribution pension plan approximated \$316, \$311 and \$415 in 2013, 2012 and 2011, respectively, and are expected to approximate \$403 in 2014.

The Corporation also maintains a nonqualified defined benefit pension plan to provide supplemental retirement benefits for selected executives in addition to benefits provided under the Corporate-sponsored pension plans. The assets are held in a grantor tax trust known as a Rabbi trust; accordingly, the assets are subject to claims of the Corporation's creditors, but otherwise must be used only for purposes of providing benefits under the plan. No contributions were made to the trust in 2011 – 2013 and none are expected in 2014. The fair market value of the trust at December 31, 2013 and 2012, which is included in other noncurrent assets, was \$4,092 and \$3,358, respectively. Changes in the fair market value of the trust are recorded as a component of other comprehensive income (loss). The plan is treated as a non-funded pension plan for financial reporting purposes. Accumulated benefit obligations approximated \$2,794 and \$2,082 at December 31, 2013 and 2012, respectively. Estimated benefit payments for subsequent years, which would represent employer contributions, are approximately \$52 for 2014, \$72 for 2015, \$90 for 2016, \$112 for 2017, \$330 for 2018 and \$1,729 for 2019 – 2023.

Employees at one location participate in a multi-employer plan, *I.A.M. National Pension Fund*, in lieu of the Corporation's defined benefit pension plan. A multi-employer plan generally receives contributions from two or more unrelated employers pursuant to one or more collective-bargaining agreements. The assets contributed by one employer may be used to fund the benefits provided to employees of other employers in the plan because the plan assets, once contributed, are not restricted to individual employers. The latest report of summary plan information (for the 2012 plan year) provided by I.A.M. National Pension Fund indicates:

More than 1,750 employer locations contribute to the plan
In excess of 250,000 employees participate in the plan
Assets of nearly \$9.3 billion and a funded status in excess of 100%.

Less than 100 of the Corporation's employees participate in the plan and contributions are based on a rate per hour. The Corporation's contributions to the plan equaled \$230, \$241 and \$246 in 2013, 2012 and 2011, respectively, and represent less than five percent of total contributions to the plan by all contributing employers. Contributions are expected to approximate \$261 in 2014.

Other Postretirement Benefits

The Corporation provides postretirement health care benefits principally to the bargaining groups of one subsidiary. The plan covers participants and their spouses and/or dependents who retire under the existing pension plan on other than a deferred vested basis and at the time of retirement have also rendered 15 or more years of continuous service irrespective of age. Other health care benefits are provided to retirees under plans no longer being offered by the Corporation. Retiree life insurance is provided to substantially all retirees. Postretirement benefits with respect to health care are subject to certain Medicare offsets. The Corporation also provides health care and life insurance benefits to former employees of

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

certain discontinued operations. This obligation had been estimated and provided for at the time of disposal. The Corporation's postretirement health care and life insurance plans are not funded or subject to any minimum regulatory funding requirements. Estimated benefit payments for subsequent years, which would represent employer

contributions, are approximately \$783 for 2014, \$809 for 2015, \$817 for 2016, \$824 for 2017, \$854 for 2018, and \$5,251 for 2019 2023.

Reconciliations

The following provides a reconciliation of projected benefit obligations, plan assets, the funded status of the plans and the amounts recognized in the consolidated balance sheets for the Corporation's defined benefit plans calculated using a measurement date as of the end of the respective years.

	U.S. Pension Benefits ^(a)		Foreign Pension Benefits		Other Postretirement Benefits	
	2013	2012	2013	2012	2013	2012
Change in projected benefit obligations:						
Projected benefit obligations at January 1	\$ 197,057	\$ 174,814	\$ 59,210	\$ 50,698	\$ 22,806	\$ 22,348
Service cost	4,424	3,943	0	0	943	804

Amounts included in accumulated other comprehensive loss as of December 31, 2013 expected to be recognized in net periodic pension and other postretirement costs in 2014 include:

	U.S. Pension Benefits	Foreign Pension Benefits	Other Postretirement Benefits
Net actuarial loss	\$ 4,156	\$ 602	\$ 17
Prior service cost	826	0	19
	\$ 4,982	\$ 602	\$ 36

Investment Policies and Strategies

The investment policies and strategies are determined and monitored by the Investment Committee of the Board of Directors for the U.S. pension plan and by the Trustees (as appointed by UES-UK and the employees of UES-UK) for the foreign pension plan, each of whom employ their own investment managers to manage the plan's assets in accordance with the policy guidelines. Pension assets are invested with the objective of maximizing long-term returns while minimizing material losses to meet future benefit obligations as they become due. Investments in equity securities are primarily in common stocks of publicly-traded U.S. and international companies across a broad spectrum of industry sectors. Investments in fixed-income securities are principally A-rated or better bonds with maturities of less than ten years, preferred stocks and convertible bonds. The Corporation believes there are no significant concentrations of risk associated with the Plans' assets.

Attempts to minimize risk include allowing temporary changes to the allocation mix in response to market conditions, diversifying investments among asset categories (e.g., equity securities, fixed-income securities, alternative investments, cash and cash equivalents) and within these asset categories (e.g., economic sector, industry, geographic distribution, size) and consulting with independent financial and legal counsels to assure that the investments and their expected returns and risks are consistent with the goals of the Investment Committee or Trustees.

With respect to the U.S. pension plan, the following investments are prohibited unless otherwise approved by the Investment Committee: stock of the Corporation, futures and options except for hedging purposes, unregistered or restricted stock, warrants, margin trading, short-selling, real estate excluding public or real estate partnerships, and commodities including art, jewelry and gold. The foreign pension plan invests in specific funds. Any investments other than those specifically identified would be considered prohibited.

The following summarizes target asset allocations (within +/-5% considered acceptable) and major asset categories. Certain investments are classified differently for target asset allocation purposes and external reporting purposes.

	U.S. Pension Benefits			Foreign Pension Benefits		
	Target Allocation	Percentage of Plan Assets		Target Allocation	Percentage of Plan Assets	
	Dec. 31, 2013	2013	2012	Dec. 31, 2013	2013	2012
Equity Securities	65%	65%	66%	44%	46%	44%
Fixed-Income Securities	15%	19%	18%	35%	31%	34%
Alternative Investments	15%	15%	12%	21%	23%	22%
Other (primarily cash and cash equivalents)	5%	1%	4%	0%	0%	0%

Fair Value Measurement of Plan Assets

Equity securities and mutual funds are actively traded on exchanges and price quotes for these investments are readily available. Similarly, corporate debt and preferred securities consist of fixed-income securities of U.S. and U.K. corporations and price quotes for these investments are readily available. Common collective trust and commingled funds are not traded publicly, but the underlying assets (such as stocks and bonds) held in these funds are traded on active markets and the prices for the underlying assets are readily observable. For securities not actively traded, the fair value may be based on third-party appraisals, discounted cash flow analysis, benchmark yields and inputs that are currently observable in markets for similar securities.

Investment Strategies

The significant investment strategies of the various funds are summarized below.

Fund	Investment Strategy	Primary Investment Objective
Temporary	Invests primarily in a diversified portfolio of investment grade money market instruments.	Achieve a high level of current income while maintaining stability of principal and liquidity.
Investment Funds Various Equity Funds	Each fund maintains a diversified holding in common stock of applicable companies (e.g. common stock of small capitalization companies if a small-cap fund, common stock of medium capitalization companies if a mid-cap fund, common stock of foreign corporations if an international fund, etc.).	Outperform the fund's related index.
Pooled Funds	Invests primarily in common stocks and other equity securities of issuers organized or conducting business in countries other than the United States.	Exceed the return of the corresponding Morgan Stanley Index.
Various Growth and Value Funds Return Fund	Invests primarily in common stocks and other equity securities generally traded on a major U.S. exchange or the NASDAQ Stock Market.	Exceed the return of the Russell 2500 Growth Index or Value Index, as applicable, over a market cycle.
Alternative Investments	Invests at least 65% of its assets in a diversified portfolio of fixed-income securities of varying maturities.	Outperform the Barclays Capital U.S. Aggregate Index.
Alternative Investments	Invests in equities and equity-like asset classes and strategies, (such as public equities, venture capital, private equity, real estate, natural resources and hedged strategies) and fixed-income securities.	Generate a minimum annual inflation adjusted return of 5% and outperform a traditional 70/30 equities/bond portfolio.
Managed Funds Alternative Investments	Invests in a diversified portfolio of alternative investment styles and strategies.	Generate long-term capital appreciation while maintaining a low correlation with the traditional global financial markets.
Hedge and Absolute Return Funds		

Categories of Plan Assets

Asset categories based on the nature and risks of the U.S. Pension Benefit Plan's assets as of December 31, 2013 are summarized below.

	Quoted Prices in Active Markets for Identical Inputs (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Equity Securities:				
U.S.				
Capital goods	\$ 1,751	\$ 0	\$ 0	\$ 1,751

Net Periodic Pension and Other Postretirement Benefit Costs

The actual return on the fair value of plan assets is included in determining the funded status of the plans. In determining net periodic pension costs, the expected long-term rate of return on the market-related value of plan assets is used. Differences between the actual return on plan assets and the expected long-term rate of return on plan assets are classified as part of unrecognized actuarial gains or losses and are recorded as a component of accumulated other comprehensive income (loss) on the consolidated balance sheet. When these gains or losses exceed 10% of the greater of the projected benefit obligation or the market-related value of plan assets, they are amortized to net periodic pension and other postretirement costs over the average remaining service period of employees expected to receive benefits under the plans. When the gains or losses are less than 10% of the greater of the projected benefit obligation or the market-related value of plan assets, they are included in net periodic pension and other postretirement costs indirectly as a result of lower/higher interest costs arising from a decrease/increase in the projected benefit obligation.

Net periodic pension and other postretirement benefit costs include the following components for the year ended December 31:

	U.S. Pension Benefits			Foreign Pension Benefits			Other Postretirement Benefits		
	2013	2012	2011	2013	2012	2011	2013	2012	2011
Service cost	\$ 4,424	\$ 3,943	\$ 3,115	\$ 0	\$ 0	\$ 0	\$ 943	\$ 804	\$ 643
Interest cost	8,070	8,514	8,867	2,551	2,506	2,589	926	919	1,020
Expected return on plan assets	(9,368)	(9,556)	(9,658)	(2,485)	(2,101)	(2,311)	0	0	0
Amortization of prior service cost	640	668	656	0	0	0	85	85	86
Amortization of actuarial loss	7,146	6,087	4,236	687	598	496	241	71	256
Net cost	\$ 10,912	\$ 9,656	\$ 7,216	\$ 753	\$ 1,003	\$ 774	\$ 2,195	\$ 1,879	\$ 2,005

Assumptions

Assumptions are reviewed on an annual basis. The expected long-term rate of return on plan assets is an estimate of average rates of earnings expected to be earned on funds invested or to be invested to provide for the benefits included in the projected benefit obligation. Since these benefits will be paid over many years, the expected long-term rate of return is reflective of current investment returns and investment returns over a longer period. Consideration is also given to target and actual asset allocations, inflation and real risk-free return. The discount rates used in determining future pension obligations and other postretirement benefits for each of the plans are based on rates of return on high-quality fixed-income investments currently available and expected to be available during the period to maturity of the pension and other postretirement benefits. High-quality fixed-income investments are defined as those investments which have received one of the two highest ratings given by a recognized rating agency with maturities of 10+ years.

The following assumptions were used to determine the benefit obligations as of December 31:

	U.S. Pension Benefits		Foreign Pension Benefits		Other Postretirement Benefits	
	2013	2012	2013	2012	2013	2012
Discount rate	5.00%	4.25%	4.50%	4.50%	5.00%	4.25%
Weighted-average rate of increases in compensation	4.00%	4.00%	n/a	n/a	n/a	n/a

In addition, the assumed health care cost trend rate at December 31, 2013 for other postretirement benefits is 6.50% for 2014 gradually decreasing to 4.75% in 2018. In selecting rates for current and long-term health care assumptions, the Corporation considers known health care cost increases, the design of the benefit programs, the demographics of its active and retiree populations and expectations of inflation rates in the future. A one percentage point increase or decrease in the assumed health care cost trend rate would change the postretirement benefit obligation at December 31, 2013 and the annual benefit expense for 2013 by approximately \$2,800 and \$350, respectively.

The following assumptions were used to determine net periodic pension and other postretirement benefit costs for the year ended December 31:

	U.S. Pension Benefits			Foreign Pension Benefits			Other Postretirement Benefits		
	2013	2012	2011	2013	2012	2011	2013	2012	2011
Discount rate	4.25%	5.00%	5.75%	4.50%	4.90%	5.40%	4.25%	5.00%	5.75%
Expected long-term rate of return on plan assets	8.00%	8.00%	8.00%	6.09%	5.61%	6.39%	n/a	n/a	n/a
Weighted-average rate of increases in compensation	4.00%	4.00%	4.00%	n/a	n/a	n/a	n/a	n/a	n/a

NOTE 8 COMMITMENTS AND CONTINGENT LIABILITIES:

Outstanding standby and commercial letters of credit as of December 31, 2013 approximated \$17,906, the majority of which serves as collateral for the IRBs.

In 2010, UES-UK was awarded a government grant of up to \$1,325 (£850) toward the purchase and installation of certain machinery and equipment. Approximately \$1,083 (£680) has been received to date; the final portion is expected to be received in 2014. Under the agreement, the grant is repayable if certain conditions are not met including achieving and maintaining a targeted level of employment through 2017. UES-UK's level of employment currently exceeds and is expected to continue to exceed the targeted level of employment; accordingly, no liability has been recorded.

Approximately 55% of the Corporation's employees are covered by collective bargaining agreements. Of the six bargaining agreements, one of the agreements, representing approximately 20% of the covered employees, expired in 2012; however, employees continue to work under the expired agreement while negotiations proceed. The remaining agreements have expiration dates ranging from May 2014 to October 2017. Collective bargaining agreements expiring in 2014 (representing approximately 62% of covered employees) will be negotiated with the intent to secure mutually beneficial, long-term arrangements.

See Note 17 regarding litigation and Note 18 for environmental matters.

NOTE 9 STOCK-BASED COMPENSATION:

In May 2011, the shareholders of the Corporation approved the adoption of the 2011 Omnibus Incentive Plan (Incentive Plan) which authorizes the issuance of up to 1,000,000 shares of the Corporation's common stock for grants of equity-based compensation. Awards under the Incentive Plan may include incentive non-qualified stock options, stock appreciation rights, restricted shares and restricted stock units, performance awards, other stock-based awards or short-term cash incentive awards. Unexercised portions of terminated or forfeited awards are available for new awards. The Incentive Plan is administered by the Compensation Committee of the Board of Directors who has the authority to determine, within the limits of the express provisions of the Incentive Plan, the individuals to whom the awards will be granted; the nature, amount and terms of such awards; and the objectives and conditions for earning such awards.

The Compensation Committee granted non-qualified stock options in each of the years as outlined below. Options granted under the Incentive Plan have a ten-year life and vest over a three-year period. Options previously granted under earlier incentive plans have a ten-year life with one-third vesting at the date of grant, one-third vesting on the first anniversary date of the date of grant and one-third vesting on the second anniversary date of the date of grant. The exercise prices are equal to the closing prices of the Corporation's common stock on the New York Stock Exchange on the dates of grant.

The Incentive Plan also provides for annual grants of shares of the Corporation's common stock to non-employee directors following the Corporation's annual shareholder meeting. Each annual director award will be for a number of shares having a fair market value equal to \$25 and will fully vest as of the grant date. The number of shares of common stock issued to non-employee directors was 11,656 shares in 2013, 11,320 shares in 2012 and 7,944 shares in 2011.

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

The fair value of the options as of the dates of grant was calculated using the Black-Scholes option-pricing model based on the assumptions outlined below.

	Grant Date		
	2013	2012	2011
Options granted	173,750	164,500	176,250
Exercise price	\$ 17.16	\$ 17.67	\$ 25.18
Assumptions:			
Expected life in years	6	6	6
Risk-free interest rate	1.26%	0.76%	2.30%
Expected annual dividend yield	4.20%	3.01%	2.96%
Expected forfeiture rate	5.00%	0%	0%
Expected volatility	52.68%	53.46%	56.25%
Grant date fair value	\$ 5.82	\$ 6.68	\$ 10.53
Resulting stock-based compensation expense	\$ 961	\$ 1,099	\$ 1,857

Stock-based compensation expense, including expense for shares to be issued to non-employee directors, approximated \$1,196, \$1,258 and \$1,954 for 2013, 2012 and 2011, respectively. The related income tax benefit recognized in the consolidated statements of operations was \$419, \$440 and \$684 for the respective years. Unrecognized stock-based compensation expense equaled \$1,348 at December 31, 2013 and is expected to be recognized over a weighted-average period of approximately 2 years.

A summary of stock options outstanding and exercisable and activity for the year ended December 31, 2013 is as follows:

	Shares	Weighted Average Exercise Price	Remaining Contractual Life In Years	Intrinsic Value
	Under Options			
Outstanding at January 1, 2013	1,166,421	\$ 26.00	7.1	\$ 1,178
Granted	173,750	17.16		
Exercised	(15,334)	13.93		
Forfeited	(123,084)	26.25		
Outstanding at December 31, 2013	1,201,753	\$ 24.85	6.5	\$ 982
Exercisable at December 31, 2013	869,586	\$ 27.18	5.7	\$ 982
Vested or expected to vest at December 31, 2013	1,174,266	\$ 24.95	6.5	\$ 982

NOTE 10 ACCUMULATED OTHER COMPREHENSIVE LOSS:

Net change and ending balances for the various components of other comprehensive income (loss) and for accumulated other comprehensive loss as of and for the year ended December 31, 2011, 2012 and 2013 are summarized below.

	Foreign	Unrecognized	Unrealized		Accumulated Other Comprehensive Loss
	Currency	Components	Holding Gains		
	Translation	of Employee	(Losses) on		
	Adjustments	Benefit Plans	Securities	Derivatives	
Balance at January 1, 2011	\$ (5,389)	\$ (55,861)	\$ 577	\$ 1,199	\$ (59,474)

Balance at December 31, 2011	(4,736)	(75,225)	562	109	(79,290)
Net Change	3,193	(6,558)	71	209	(3,085)
Balance at December 31, 2012	(1,543)	(81,783)	633	318	(82,375)
Net Change	1,820	34,321	374	(5)	36,510

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

Balance at December 31, 2013	\$ 277	\$ (47,462)	\$ 1,007	\$ 313	\$ (45,865)
-------------------------------------	---------------	--------------------	-----------------	---------------	--------------------

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

The following summarizes the line items affected on the consolidated statements of operations for components reclassified from accumulated other comprehensive loss for each of the years ended December 31. Amounts in parentheses represent credits to net income.

	2013	2012	2011
Amortization of unrecognized employee benefit costs:			
Costs of products sold (excluding depreciation)	\$ 5,691	\$ 4,807	\$ 3,764
Selling and administrative	2,241	1,939	1,371
Other income (expense)	867	763	595
Total before income tax	8,799	7,509	5,730
Income tax provision	(3,156)	(3,547)	(2,066)
Net of income tax	\$ 5,643	\$ 3,962	\$ 3,664
Realized gains/losses on sale of marketable securities:			
Selling and administrative	\$ (87)	\$ (120)	\$ 20
Income tax provision	30	42	(7)
Net of income tax	\$ (57)	\$ (78)	\$ 13
Realized gains/losses from settlement of cash flow hedges:			
Net sales (foreign currency sales contracts)	\$ 0	\$ (197)	\$ (228)
Depreciation (foreign currency purchase contracts)	(27)	(27)	(32)
Costs of products sold (excluding depreciation) (futures contracts copper and aluminum)	419	398	(353)
Total before income tax	392	174	(613)
Income tax provision	(146)	(67)	230
Net of income tax	\$ 246	\$ 107	\$ (383)

The income tax expense (benefit) associated with the various components of other comprehensive income (loss) for each of the years ended December 31 is summarized below. Foreign currency translation adjustments exclude the effect of income taxes since earnings of non-U.S. subsidiaries are deemed to be reinvested for an indefinite period of time.

	2013	2012	2011
Income tax expense (benefit) associated with changes in:			
Unrecognized employee benefit costs	\$ (15,890)	\$ 5,256	\$ 12,958
Unrealized holding gains/losses on marketable securities	(232)	(80)	15
Fair value of cash flow hedges	149	(61)	427
Income tax expense (benefit) associated with reclassification adjustments:			
Amortization of unrecognized employee benefit costs	(3,156)	(3,547)	(2,066)
Realized gains/losses from sale of marketable securities	30	42	(7)
Realized gains/losses from settlement of cash flow hedges	(146)	(67)	230

NOTE 11 DERIVATIVE INSTRUMENTS:

Certain of the Corporation's operations are subject to risk from exchange rate fluctuations in connection with sales in foreign currencies. To minimize this risk, foreign currency sales contracts are entered into which are designated as cash flow or fair value hedges. As of December, 2013, approximately \$21,714 of anticipated foreign-denominated sales has been hedged which are covered by fair value contracts settling at various dates through January 2015. The fair value of assets held as collateral for the fair value contracts as of December 31, 2013 approximated \$828. As of December 31, 2013, there are no cash flow contracts outstanding for future sales.

Additionally, certain of the divisions of the Air and Liquid Processing segment are subject to risk from increases in the price of commodities (copper and aluminum) used in the production of inventory. To minimize this risk, futures contracts are entered into which are designated as cash flow hedges. The change in fair value of the derivative is deferred in accumulated other comprehensive income (loss). Any portion considered to be ineffective, including that arising from the unlikelihood of an anticipated transaction to occur, is reported as a component of earnings (other income/expense) immediately. Upon occurrence of the anticipated transaction, the futures contract is settled and the change in fair value previously deferred in accumulated other comprehensive income (loss) is reclassified to earnings (costs of products sold, excluding depreciation) when the projected sales occur. At December 31, 2013, approximately 57% or \$2,970 of anticipated copper purchases over the next nine months and 38% or \$463 of anticipated aluminum purchases over the next six months are hedged. The fair value of assets held as collateral as of December 31, 2013 equaled \$400.

The Corporation previously entered into foreign currency purchase contracts to manage the volatility associated with euro-denominated progress payments to be made for certain machinery and equipment. As of December 31, 2010, all contracts had been settled and the underlying fixed assets were placed in service. The change in the fair value is included in accumulated other comprehensive income (loss) and is being amortized to pre-tax earnings (as an offset to depreciation expense) over the life of the underlying assets.

No portion of the existing cash flow or fair value hedges is considered to be ineffective, including any ineffectiveness arising from the unlikelihood of an anticipated transaction to occur. Additionally, no amounts have been excluded from assessing the effectiveness of the hedge.

At December 31, 2013, the Corporation has purchase commitments covering 53% or \$4,329 of anticipated natural gas usage over the next two years at one of its subsidiaries. The commitments qualify as normal purchases and, accordingly, are not reflected on the consolidated balance sheet.

The Corporation does not enter into derivative transactions for speculative purposes and, therefore, holds no derivative instruments for trading purposes.

The following summarizes location and fair value of the foreign currency sales contracts recorded on the consolidated balance sheets as of December 31:

	Location	2013	2012
Cash flow hedge contracts	Other current assets	\$ 0	\$ 46
Fair value hedge contracts	Other current assets	426	218
	Other noncurrent assets	17	0
Fair value hedged item	Accounts receivable	(36)	(94)
	Other current liability	488	233
	Other noncurrent liability	40	0

The change in the fair value of the cash flow contracts is recorded as a component of accumulated other comprehensive income (loss). Amounts recognized as and reclassified from accumulated other comprehensive income (loss) are recorded as a component of other comprehensive income (loss) and are summarized below. All amounts are after-tax.

	Comprehensive Income (Loss)	Recognized as Comprehensive Income (Loss)	Gain (Loss) Reclassified from Accumulated Other Comprehensive Income (Loss)	Comprehensive Income (Loss)
	Beginning of the Year			End of the Year
For the Year Ended December 31, 2013				
Foreign currency sales contracts - cash flow hedges	\$ 0	\$ 0	\$ 0	\$ 0
Foreign currency purchase contracts	292	0	17	275
Future contracts - copper and aluminum	26	(251)	(263)	38
	\$ 318	\$ (251)	\$ (246)	\$ 313
For the Year Ended December 31, 2012				
Foreign currency sales contracts - cash flow hedges	\$ 114	\$ 10	\$ 124	\$ 0
Foreign currency purchase contracts	309	0	17	292
Future contracts - copper and aluminum	(314)	92	(248)	26
	\$ 109	\$ 102	\$ (107)	\$ 318
For the Year Ended December 31, 2011				
Foreign currency sales contracts - cash flow hedges	\$ 281	\$ (24)	\$ 143	\$ 114
Foreign currency purchase contracts	329	0	20	309

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

Future contracts	copper and aluminum	589	(683)	220	(314)
		\$ 1,199	\$ (707)	\$ 383	\$ 109

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

The change in fair value reclassified or expected to be reclassified from accumulated other comprehensive income (loss) to earnings is summarized below. All amounts are pre-tax.

	Location of Gain (Loss) in Statements of Operations	Estimated to be			
		Reclassified in the Next 12 Months	Year Ended December 31,		
			2013	2012	2011
Foreign currency sales contracts cash flow hedges	Net sales	\$ 0	\$ 0	\$ 197	\$ 228
Foreign currency purchase contracts	Depreciation	27	27	27	32
Futures contracts copper and aluminum	Costs of products sold (excluding depreciation)	59	(419)	(398)	353

(Losses) gains on foreign exchange transactions included in other income (expense) approximated \$(227), \$107 and \$(371) for 2013, 2012 and 2011, respectively.

NOTE 12 FAIR VALUE:

The following summarizes financial assets and liabilities reported at fair value on a recurring basis in the accompanying consolidated balance sheets at December 31:

	2013	Quoted Prices in Active Markets for	Significant Other Observable	Significant Unobservable	Total
		Identical Inputs (Level 1)	Inputs (Level 2)	Inputs (Level 3)	
Investments					
Other noncurrent assets		\$ 4,092	\$ 0	\$ 0	\$ 4,092
Foreign currency exchange contracts					
Other current assets		0	426	0	426
Other noncurrent assets		0	17	0	17
Other current liabilities		0	488	0	488
Other noncurrent liabilities		0	40	0	40

2012

Investments					
Other noncurrent assets		\$ 3,358	\$ 0	\$ 0	\$ 3,358
Foreign currency exchange contracts					
Other current assets		0	264	0	264
Other current liabilities		0	223	0	223

The investments held as other noncurrent assets represent assets held in the Rabbi trust for the purpose of providing benefits under the non-qualified defined benefit pension plan. The fair value of the investments is based on quoted prices of the investments in active markets. The fair value of foreign currency exchange contracts is determined based on the fair value of similar contracts with similar terms and remaining maturities. The fair value of futures contracts is based on market quotations. The fair value of the variable-rate IRB debt approximates its carrying value. Additionally, the fair value of trade receivables and trade payables approximates their carrying value.

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

During 2013, the Corporation recorded an impairment charge of \$6,407 to reduce the carrying amount of its investment in a forged roll joint venture company to its estimated fair value. The investment was measured at fair value on a nonrecurring basis and is considered a Level 3 measurement due to significant inputs that are unobservable. The Corporation considered all relevant valuation approaches including the market, income and asset approaches and selected the asset approach as the most appropriate measure of fair value.

NOTE 13 INCOME TAXES:

Income before income taxes and equity losses in Chinese joint venture is comprised of the following:

	2013		2012		2011
Domestic	\$ 25,269	\$	14,754	\$	30,629
Foreign	1,911		413		4,098
	\$ 27,180	\$	15,167	\$	34,727

At December 31, 2013, the Corporation has state net operating loss carryforwards of \$20,949 which begin to expire in 2018, foreign net operating loss carryforwards of \$1,531 which begin to expire in 2014 and capital loss carryforwards of \$1,003 which begin to expire in 2017.

The income tax provision consisted of the following:

	2013	2012	2011
Current:			
Federal	\$ 5,535	\$ 2,550	\$ 6,047
State	139	184	754
Foreign	28	(61)	140
	5,702	2,673	6,941
Deferred:			
Federal	(488)	2,142	3,518
State	133	360	2
Foreign	622	175	2,633
Reversal of valuation allowance	(156)	(132)	(178)
	111	2,545	5,975
	\$ 5,813	\$ 5,218	\$ 12,916

The income tax provision was affected by the reversal of valuation allowances previously provided against deferred income tax assets associated with state net operating loss carryforwards for each of the years.

The difference between statutory U.S. federal income tax and the Corporation's effective income tax was as follows:

	2013	2012	2011
Computed at statutory rate	\$ 9,513	\$ 5,309	\$ 12,154
Tax differential on non-U.S. earnings	(223)	(45)	(358)
State income taxes	152	403	1,296
Manufacturers deduction (I.R.C. Section 199)	(566)	(257)	(792)
Meals and entertainment	205	198	220
Tax credits	(145)	(64)	(29)
Chinese joint venture	(3,125)	(558)	(175)
Reversal of valuation allowance	(156)	(132)	(178)
Other net	158	364	778
	\$ 5,813	\$ 5,218	\$ 12,916

Deferred income tax assets and liabilities as of December 31, 2013 and 2012 are summarized below. The current portion of net deferred income tax assets is included in other current assets in the consolidated balance sheets. Unremitted earnings of the Corporation's non-U.S. subsidiaries and affiliates are deemed to be permanently reinvested and, accordingly, no deferred income tax liability has been recorded. It is not practical to estimate the income tax effect that might be incurred if cumulative prior year earnings not previously taxed in the United States were remitted to the United States.

	2013	2012
Assets:		
Employment related liabilities	\$ 11,946	\$ 12,814
Pension liability foreign	2,434	3,984
Pension liability domestic	5,137	19,574
Liabilities related to discontinued operations	959	1,155
Capital loss carryforwards	273	391
Asbestos-related liability	18,172	23,702
Net operating loss state	1,654	1,795
Inventory related	2,644	2,017
Impairment charge associated with investment in UES-MG	2,316	0
Other	3,939	3,803
Gross deferred income tax assets	49,474	69,235
Valuation allowance	(2,639)	(2,887)
	46,835	66,348
Liabilities:		
Depreciation	(31,918)	(31,931)
Mark-to-market adjustment derivatives	(73)	(153)
Other	(2,495)	(2,353)
Gross deferred income tax liabilities	(34,486)	(34,437)
Net deferred income tax assets	\$ 12,349	\$ 31,911

The following summarizes changes in unrecognized tax benefits for the year ended December 31:

	2013	2012	2011
Balance at the beginning of the year	\$ 442	\$ 311	\$ 786
Gross increases for tax positions taken in the current year	8	233	81
Gross increases for tax positions taken in prior years	12	18	0
Gross decreases in tax positions due to lapse in statute of limitations	0	(120)	(498)
Gross decreases for tax positions taken in prior years	(192)	0	(25)
Gross decreases for tax settlements with taxing authorities	0	0	(33)
Balance at the end of the year	\$ 270	\$ 442	\$ 311

If the unrecognized tax benefits were recognized, \$175 would reduce the Corporation's effective income tax rate. The amount of penalties and interest recognized in the consolidated balance sheets as of December 31, 2013 and 2012 and in the consolidated statements of operations for 2013, 2012 and 2011 is insignificant. Unrecognized tax benefits of \$52 are to expire due to the lapse in the statute of limitations within the next 12 months.

The Corporation is subject to taxation in the United States, various states and foreign jurisdictions, and remains subject to examination by tax authorities for tax years 2010-2013.

NOTE 14 OPERATING LEASES:

The Corporation leases certain factory and office space and certain office equipment. Operating lease expense was \$945 in 2013, \$1,013 in 2012 and \$813 in 2011. Operating lease payments for subsequent years are \$842 for 2014, \$519 for 2015, \$162 for 2016, \$81 for 2017, \$17 for 2018 and \$0 thereafter.

NOTE 15 RESEARCH AND DEVELOPMENT COSTS:

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

Expenditures relating to the development of new products, identification of products or process alternatives and modifications and improvements to existing products and processes are expensed as incurred. These expenses approximated \$1,413 for 2013, \$1,476 for 2012 and \$1,698 for 2011.

NOTE 16 RELATED PARTIES:

In the ordinary course of business, the Corporation purchases industrial supplies from a subsidiary of The Louis Berkman Company (LB Co) and the Chinese cast roll joint venture company, and earns a commission from the sale of forged backup rolling mill rolls for the Chinese forged roll joint venture company. Certain directors of the Corporation are either officers, directors and/or shareholders of LB Co; UES-UK has a 25% interest in the cast roll joint venture company; and UES has a 49% interest in the Chinese forged roll joint venture company.

Purchases from LB Co approximated \$1,489 in 2013, \$1,538 in 2012 and \$1,579 in 2011. In addition, LB Co paid the Corporation approximately \$150 in 2013, \$253 in 2012 and \$246 in 2011 for certain administrative services. At December 31, 2013 and 2012, the net amount payable to LB Co approximated \$79 and \$61, respectively. Purchases of industrial supplies from the Chinese cast roll joint venture company approximated \$38 in 2013, \$455 in 2012 and \$480 in 2011. At December 31, 2013 and 2012, no amounts were outstanding. Commissions earned from the sale of forged backup rolling mill rolls were \$74 in 2012 and \$191 in 2011. At December 31, 2012, \$14 was outstanding.

NOTE 17 LITIGATION:

The Corporation and its subsidiaries are involved in various claims and lawsuits incidental to their businesses. In addition, it is also subject to asbestos litigation as described below.

Asbestos Litigation

Claims have been asserted alleging personal injury from exposure to asbestos-containing components historically used in some products of predecessors of the Corporation's Air & Liquid subsidiary (Asbestos Liability) and of an inactive subsidiary in dissolution. During 2013, all pending claims against the inactive subsidiary in dissolution were settled, dismissed or barred and the dissolution court issued a final order thereby concluding the dissolution proceedings. Those subsidiaries, and in some cases the Corporation, are defendants (among a number of defendants, often in excess of 50) in cases filed in various state and federal courts.

Asbestos Claims

The following table reflects approximate information about the claims for Asbestos Liability against the subsidiaries and the Corporation, along with certain asbestos claims asserted against the inactive subsidiary in dissolution, for the two years ended December 31, 2013 and 2012:

	2013	2012
Total claims pending at the beginning of the period	8,007	8,145
New claims served	1,432	1,538
Claims dismissed	(803)	(1,420)
Claims settled	(317)	(256)
Total claims pending at the end of the period ⁽¹⁾	8,319	8,007
Gross settlement and defense costs (in 000 s)	\$ 22,618	\$ 23,589
Average gross settlement and defense costs per claim resolved (in 000 s)	\$ 20.19	\$ 14.07

(1) Included as open claims are approximately 1,636 claims and 1,632 claims in 2013 and 2012 respectively, classified in various jurisdictions as inactive or transferred to a state or federal judicial panel on multi-district litigation, commonly referred to as the MDL.

A substantial majority of the settlement and defense costs reflected in the above table was reported and paid by insurers. Because claims are often filed and can be settled or dismissed in large groups, the amount and timing of settlements, as well as the number of open claims, can fluctuate significantly from period to period.

Asbestos Insurance

The Corporation and its Air & Liquid subsidiary are parties to a series of settlement agreements (Settlement Agreements) with insurers that have coverage obligations for Asbestos Liability (the Settling Insurers). Under the Settlement Agreements, the Settling Insurers accept financial responsibility, subject to the terms and conditions of the respective agreements, including overall coverage limits, for pending and future claims for Asbestos Liability. The Settlement Agreements encompass the substantial majority of insurance policies that provide coverage for claims for Asbestos Liability.

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

The Settlement Agreements include acknowledgements that Howden North America, Inc. (Howden) is entitled to coverage under policies covering Asbestos Liability for claims arising out of the historical products manufactured or distributed by Buffalo Forge, a former subsidiary of the Corporation (the Products). The Settlement Agreements do not provide for any prioritization on access to the applicable policies or any sublimits of liability as to Howden or the Corporation and Air & Liquid, and, accordingly, Howden may access the coverage afforded by the Settling Insurers for any covered claim arising out of a Product. In general, access by Howden to the coverage afforded by the Settling Insurers for the Products will erode coverage under the Settlement Agreements available to the Corporation and Air & Liquid for Asbestos Liability.

On February 24, 2011, the Corporation and Air & Liquid filed a lawsuit in the United States District Court for the Western District of Pennsylvania against thirteen domestic insurance companies, certain underwriters at Lloyd's, London and certain London market insurance companies, and Howden. The lawsuit seeks a declaratory judgment regarding the respective rights and obligations of the parties under excess insurance policies that were issued to the Corporation from 1981 through 1984 as respects claims against the Corporation and its subsidiary for Asbestos Liability and as respects asbestos bodily-injury claims against Howden arising from the Products. The Corporation and Air & Liquid have reached Settlement Agreements with all but two of the defendant insurers in the coverage action. Those Settlement Agreements specify the terms and conditions upon which the insurer parties are to contribute to defense and indemnity costs for claims for Asbestos Liability. One of the Settlement Agreements entered into by the Corporation and Air & Liquid also provided for the dismissal of claims, without prejudice, regarding two upper-level excess policies issued by one of the insurers. The Court has entered Orders dismissing all claims in the action filed against each other by the Corporation and Air & Liquid, on the one hand, and by the settling insurers, on the other. Howden also reached an agreement with eight domestic insurers addressing asbestos-related bodily injury claims arising from the Products, and claims as to those insurers and Howden have been dismissed. Various counterclaims, cross claims and third party claims have been filed in the litigation and remain pending although only two domestic insurers and Howden remain in the litigation as to the Corporation and Air & Liquid. On September 27, 2013, the Court issued a memorandum opinion and order granting in part and denying in part cross motions for summary judgment filed by the Corporation and Air & Liquid, Howden, and the insurer parties still in the litigation. The September 27, 2013 ruling is not a final ruling for appellate purposes, but when final it could be appealed by the parties to the litigation.

Asbestos Valuations

In 2006, the Corporation retained Hamilton, Rabinovitz & Associates, Inc. (HR&A), a nationally recognized expert in the valuation of asbestos liabilities, to assist the Corporation in estimating the potential liability for pending and unasserted future claims for Asbestos Liability. HR&A was not requested to estimate asbestos claims against the inactive subsidiary in dissolution, which the Corporation believes are immaterial. Based on this analysis, the Corporation recorded a reserve for Asbestos Liability claims pending or projected to be asserted through 2013 as at December 31, 2006. HR&A's analysis has been periodically updated since that time. Most recently, the HR&A analysis was updated in 2012, and additional reserves were established by the Corporation as at December 31, 2012 for Asbestos Liability claims pending or projected to be asserted through 2022. The methodology used by HR&A in its projection in 2012 of the operating subsidiaries' liability for pending and unasserted potential future claims for Asbestos Liability, which is substantially the same as the methodology employed by HR&A in prior estimates, relied upon and included the following factors:

- HR&A's interpretation of a widely accepted forecast of the population likely to have been exposed to asbestos;
- epidemiological studies estimating the number of people likely to develop asbestos-related diseases;
- HR&A's analysis of the number of people likely to file an asbestos-related injury claim against the subsidiaries and the Corporation based on such epidemiological data and relevant claims history from January 1, 2010 to December 20, 2012;
- an analysis of pending cases, by type of injury claimed and jurisdiction where the claim is filed;
- an analysis of claims resolution history from January 1, 2010 to December 20, 2012 to determine the average settlement value of claims, by type of injury claimed and jurisdiction of filing; and
- an adjustment for inflation in the future average settlement value of claims, at an annual inflation rate based on the Congressional Budget Office's ten year forecast of inflation.

Using this information, HR&A estimated in 2012 the number of future claims for Asbestos Liability that would be filed through the year 2022, as well as the settlement or indemnity costs that would be incurred to resolve both pending and future unasserted claims through 2022. This methodology has been accepted by numerous courts.

In conjunction with developing the aggregate liability estimate referenced above, the Corporation also developed an estimate of probable insurance recoveries for its Asbestos Liabilities. In developing the estimate, the Corporation considered HR&A's projection for settlement or indemnity costs for Asbestos Liability and management's projection of associated defense costs (based on the current defense to indemnity cost

ratio), as well as a number of additional factors. These additional factors included the Settlement Agreements then in effect, policy exclusions, policy limits, policy provisions regarding coverage for defense costs, attachment points, prior impairment of policies and gaps in the coverage, policy exhaustions, insolvencies among certain of the insurance carriers, and the nature of the underlying claims for Asbestos Liability asserted against the subsidiaries and the Corporation as reflected in the Corporation's asbestos claims database, as well as estimated erosion of insurance limits on account of claims against Howden arising out of the Products. In addition to consulting with the Corporation's outside legal counsel on these insurance matters, the Corporation consulted with a nationally-recognized insurance consulting firm it retained to assist the Corporation with certain policy allocation matters that also are among the several factors considered by the Corporation when analyzing potential recoveries from relevant historical insurance for Asbestos Liabilities. Based upon all of the factors considered by the Corporation, and taking into account the Corporation's analysis of publicly available information regarding the credit-worthiness of various insurers, the Corporation estimated the probable insurance recoveries for Asbestos Liability and defense costs through 2022. Although the Corporation believes that the assumptions employed in the insurance valuation were reasonable and previously consulted with its outside legal counsel and insurance consultant regarding those assumptions, there are other assumptions that could have been employed that would have resulted in materially lower insurance recovery projections.

Based on the analyses described above, the Corporation's reserve at December 31, 2012 for the total costs, including defense costs, for Asbestos Liability claims pending or projected to be asserted through 2022 was \$181,022, of which approximately 73% was attributable to settlement costs for unasserted claims projected to be filed through 2022 and future defense costs. The reserve at December 31, 2013 was \$158,293. While it is reasonably possible that the Corporation will incur additional charges for Asbestos Liability and defense costs in excess of the amounts currently reserved, the Corporation believes that there is too much uncertainty to provide for reasonable estimation of the number of future claims, the nature of such claims and the cost to resolve them beyond 2022. Accordingly, no reserve has been recorded for any costs that may be incurred after 2022.

The Corporation's receivable at December 31, 2012 for insurance recoveries attributable to the claims for which the Corporation's Asbestos Liability reserve has been established, including the portion of incurred defense costs covered by the Settlement Agreements in effect through December 31, 2012, and the probable payments and reimbursements relating to the estimated indemnity and defense costs for pending and unasserted future Asbestos Liability claims, was \$118,115. The Corporation updated its receivable at September 30, 2013 to take into account the effect of the Settlement Agreements reached in August 2013. The effect of these Settlement Agreements was to increase the Corporation's receivable for insurance recoveries attributable to claims for which the Corporation's Asbestos Liability reserve has been established by \$16,340.

The following table summarizes activity relating to insurance recoveries for each of the years ended December 31, 2013 and 2012.

	2013	2012
Insurance receivable - asbestos, beginning of the year	\$118,115	\$126,206
Settlement and defense costs paid by insurance carriers	(23,714)	(15,468)
Changes in estimated coverage	16,340	7,377
Insurance receivable - asbestos, end of the year	\$110,741	\$118,115

The insurance receivable recorded by the Corporation does not assume any recovery from insolvent carriers or carriers not party to a Settlement Agreement, and a substantial majority of the insurance recoveries deemed probable was from insurance companies rated A (excellent) or better by A.M. Best Corporation. There can be no assurance, however, that there will not be further insolvencies among the relevant insurance carriers, or that the assumed percentage recoveries for certain carriers will prove correct. The difference between insurance recoveries and projected costs is not due to exhaustion of all insurance coverage for Asbestos Liability. The Corporation and the subsidiaries have substantial additional insurance coverage which the Corporation expects to be available for Asbestos Liability claims and defense costs that the subsidiaries and it may incur after 2022. However, this insurance coverage also can be expected to have gaps creating significant shortfalls of insurance recoveries as against claims expense, which could be material in future years.

The amounts recorded by the Corporation for Asbestos Liabilities and insurance receivables rely on assumptions that are based on currently known facts and strategy. The Corporation's actual expenses or insurance recoveries could be significantly higher or lower than those recorded if assumptions used in the Corporation's or HR&A's calculations vary significantly from actual results. Key variables in these assumptions are identified above and include the number and type of new claims to be filed each year, the average cost of disposing of each such new claim, average annual defense costs, compliance by relevant parties with the terms of the Settlement Agreements, the resolution of remaining coverage issues with insurance carriers, and the solvency risk with respect to the relevant insurance carriers. Other factors that may affect the Corporation's Asbestos Liability and ability to recover under its insurance policies include uncertainties surrounding the litigation process from jurisdiction to jurisdiction and from case to case, reforms that may be made by state and federal courts, and the passage of state or federal tort reform legislation.

The Corporation intends to evaluate its estimated Asbestos Liability and related insurance receivables as well as the underlying assumptions on a regular basis to determine whether any adjustments to the estimates are required. Due to the uncertainties surrounding asbestos litigation and insurance, these regular reviews may result in the Corporation incurring future charges; however, the Corporation is currently unable to estimate such future charges. Adjustments, if any, to the Corporation's estimate of its recorded Asbestos Liability and/or insurance receivables could be material to operating results for the periods in which the adjustments to the liability or receivable are recorded, and to the Corporation's liquidity and consolidated financial position.

NOTE 18 ENVIRONMENTAL MATTERS:

The Corporation is currently performing certain remedial actions in connection with the sale of real estate previously owned. Environmental exposures are difficult to assess and estimate for numerous reasons including lack of reliable data, the multiplicity of possible solutions, the years of remedial and monitoring activity required, and identification of new sites. In the opinion of management and in consideration of advice from the Corporation's consultants, the potential liability for all environmental proceedings of approximately \$823 at December 31, 2013 is considered adequate based on information known to date.

NOTE 19 BUSINESS SEGMENTS:

The Corporation organizes its business into two operating segments Forged and Cast Rolls and Air and Liquid Processing. Summarized financial information concerning the Corporation's reportable segments is shown in the following tables. Corporate assets included under Identifiable Assets represent primarily cash and cash equivalents and other items not allocated to reportable segments. Long-lived assets exclude deferred income tax assets. Corporate costs are comprised of operating costs of the corporate office and other costs not allocated to the segments.

The accounting policies are the same as those described in Note 1.

	Income Before Income Taxes and			Equity Losses in Chinese Joint Venture		
	Net Sales					
	2013	2012	2011	2013	2012	2011
Forged and Cast Rolls	\$ 187,286	\$ 189,470	\$ 248,380	\$ 13,936	\$ 18,415	\$ 38,761

(1) Income before income taxes and equity losses in Chinese joint venture for 2013 includes a pre-tax credit of \$16,340 for estimated additional insurance recoveries expected to be available to satisfy asbestos liabilities through 2022 resulting from settlement agreements reached with various insurance carriers. See Note 17.

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

- (2) *Identifiable assets for the Forged and Cast Rolls segment include investments in joint ventures of \$5,010, \$13,319 and \$14,872 at December 31, 2013, 2012 and 2011, respectively. The change in the identifiable assets of the Air and Liquid Processing segment relates primarily to the movement in asbestos-related insurance receivables, the balances of which equaled \$110,741, \$118,115 and \$126,206 at December 31, 2013, 2012 and 2011, respectively. See Note 17.*
- (3) *Net sales are attributed to countries based on location of the customer. Sales to individual countries were less than 10% of consolidated net sales each of the years.*
- (4) *Foreign long-lived assets represent primarily investments in joint ventures of \$5,010, \$13,319 and \$14,872 at December 31, 2013, 2012 and 2011, respectively, and assets of the U.K. operations. Long-lived assets of the U.S. include noncurrent asbestos-related insurance receivables of \$86,241, \$99,715 and \$108,206 for 2013, 2012 and 2011, respectively.*
- (5) *For the Forged and Cast Rolls segment, two customers accounted for 26% of its net sales for 2013, 23% of its net sales for 2012 and 22% of its net sales for 2011.*

(b) Third quarter includes an after-tax credit of \$10,621 or \$1.03 per common share for estimated additional insurance recoveries expected to be available to satisfy asbestos liabilities through 2022 resulting from settlement agreements reached with various insurance carriers. Fourth quarter includes an after-tax charge of \$4,165 or \$0.40 per common share to recognize an other-than-temporary impairment of the Corporation's investment in a forged roll joint venture company.

(c) Fourth quarter includes a net-of-tax adjustment to reflect the funded status of the various pension and other postretirement benefit plans of \$29,080 and \$(10,520) for 2013 and 2012, respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Ampco-Pittsburgh Corporation

We have audited the accompanying consolidated balance sheets of Ampco-Pittsburgh Corporation and subsidiaries (the Corporation) as of December 31, 2013 and 2012, and the related consolidated statements of operations, comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2013. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Ampco-Pittsburgh Corporation and subsidiaries as of December 31, 2013 and 2012, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Corporation's internal control over financial reporting as of December 31, 2013, based on the criteria established in *Internal Control - Integrated Framework* (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 17, 2014 expressed an unqualified opinion on the Corporation's internal control over financial reporting.

/s/ Deloitte & Touche LLP

Pittsburgh, Pennsylvania
March 17, 2014

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

The Corporation did not experience any changes in, or disagreements with its accountants on, accounting and financial disclosure during the period covered.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures. An evaluation of the effectiveness of the Corporation's disclosure controls and procedures as of the end of the period covered by this report was carried out under the supervision, and with the participation, of management, including the principal executive officer and principal financial officer. Disclosure controls and procedures are defined under Securities and Exchange Commission (SEC) rules as controls and other procedures that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within required time periods. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based on that evaluation, the Corporation's management, including the principal executive officer and principal financial officer, has concluded that the Corporation's disclosure controls and procedures were effective at the reasonable assurance level as of December 31, 2013.

Management's Annual Report on Internal Control Over Financial Reporting. The Corporation's management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended). Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Effective internal control over financial reporting can only provide reasonable assurance that the objectives of the control process are met. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore it is possible to design into the process safeguards to reduce, though not eliminate, this risk. Further, the design of internal control over financial reporting includes the consideration of the benefits of each control relative to the cost of the control.

Management assessed the effectiveness of internal control over financial reporting as of December 31, 2013. In making this assessment, management used the criteria set forth in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on those criteria and management's assessment, management, including the principal executive officer and principal financial officer, concluded that the Corporation's internal control over financial reporting was effective as of December 31, 2013.

The Corporation's independent registered public accounting firm, Deloitte & Touche LLP, has issued an attestation report on the Corporation's internal control over financial reporting which is included herein.

Changes in Internal Control Over Financial Reporting. There were no changes in the Corporation's internal control over financial reporting during the quarter ended December 31, 2013 that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Ampco-Pittsburgh Corporation

We have audited the internal control over financial reporting of Ampco-Pittsburgh Corporation and subsidiaries (the Corporation) as of December 31, 2013, based on criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Corporation's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Corporation's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Corporation maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on the criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2013 of the Corporation and our report dated March 17, 2014 expressed an unqualified opinion on those financial statements.

/s/ Deloitte & Touche LLP

Pittsburgh, Pennsylvania
March 17, 2014

ITEM 9B. OTHER INFORMATION

Effective December 31, 2013, Robert F. Schultz retired as the Corporation's Vice President and Senior Counsel.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

IDENTIFICATION OF DIRECTORS

Name, Age, Tenure as a Director, Position with the Corporation⁽¹⁾, Principal Occupation, Business Experience Past Five Years, Other Directorships in Public Companies and the qualifications, attributes or skills that led to the conclusion that the individual should serve as a Director of the Corporation.

James J. Abel (age 67, director since 2014; current term expires 2014). Mr. Abel served as Interim President and Chief Executive Officer of CPI Corporation, an operator of portrait studios, from February 2012 to April 2013 prior to his retirement. Mr. Abel previously served as President and Chief Executive Officer of Financial Executives International, a firm representing senior financial executives in dealing with regulatory agencies involved with corporate financial reporting and internal controls, from May 2008 to February 2009. Since 2011, Mr. Abel has served as a director of The LGL Group, Inc. Mr. Abel also was a director of CPI Corporation from 2004 to April 2013. Mr. Abel's background as a senior executive, his expertise in financial management and his experience with manufacturing operations, as well as his board experience, led the Board to conclude that he should serve as a director. ^(N)

Robert J. Appel (age 82, Director since 2004; current term expires in 2015). Mr. Appel has been President of Appel Associates since 2003 and before that was a partner of Neuberger Berman (an investment advisory firm) for twenty years. He also served as a director of Neuberger Berman during the past five years. The Board concluded that Mr. Appel should serve as a director because of his many years of financial and investment experience, including his background as a Certified Public Accountant.

Leonard M. Carroll (age 71, Director since 1996; current term expires in 2016). Mr. Carroll has been Managing Director of Seneca Capital Management, Inc., a private investment company, for the past fifteen years. The Board concluded that Mr. Carroll should serve as a director because of his broad financial background and investment knowledge. He is a retired Certified Public Accountant and has held various positions in the banking industry including President, Director and Chairman for over 37 years.

Michael I. German (age 63, director since 2014; current term expires 2014). Mr. German has been the Chief Executive Officer and President of Corning Natural Gas Holding Corporation (formerly known as Corning Natural Gas Corporation), a natural gas utility, since 2006. Mr. German also serves as President of Corning Appliance Company and Leatherstocking Gas Company. Mr. German has been a director of Corning Natural Gas Holding Corporation since 2006 and is on the Boards of Directors of Three River Development Corporation and Northeast Gas Association, as well as the Board of Trustees of the Adirondack Park Institute. Mr. German also was a director of Pennichuck Corporation from 2008 until 2011. Mr. German's experience as the chief executive officer of a public company, his many years of service as a director of companies and his broad leadership experience led the Board to conclude that he should serve as a director. ^(N)

Paul A. Gould (age 68, Director since 2002; current term expires in 2015). Mr. Gould has been with Allen & Co., Inc., an investment banking company, for more than thirty-five years and has been managing director of that company for more than five years. He is currently a director of Liberty Global, Inc. and Discovery Communications, Inc. During the last five years, he has served as a director of Discovery Holding Company and Liberty Media Corporation but he resigned from those Boards in 2009. Mr. Gould's long-term financial and investment background led to the Board's conclusion that he should serve as a director.

William K. Lieberman (age 66, Director since 2004; current term expires in 2014). Mr. Lieberman has been President of The Lieberman Companies, insurance brokerage and consulting company, for more than five years. In addition to more than forty years of management experience in the insurance, benefit and risk management areas, Mr. Lieberman has served as a director or trustee of many organizations including charitable companies, hospital and universities. These qualifications led the Board to conclude that he should serve as a director. ^(N)

Laurence E. Paul (age 49, Director since 1998; current term expires in 2016). Mr. Paul has been a managing principal of Laurel Crown Partners, a private investment company, for more than five years and prior to that was an investment banker for ten years. He became a President of The Louis Berkman Investment Company, a private investment company, in 2013. He was a director of Valeant Pharmaceuticals International, Inc. during the last five years. Mr. Paul's experience as a senior investment banker and private equity investor for almost twenty years led the Board to conclude that he possessed skills in financial management and risk assessment that would be beneficial to the Corporation.

Robert A. Paul (age 76, Director since 1970; current term expires in 2015). Mr. Paul was elected Chairman and Chief Executive Officer of the Corporation in 2004. Prior to that, he was President and Chief Executive Officer of the Corporation for more than five years. He is also Chairman and a director of The Louis Berkman Investment Company, a private investment company. As a shareholder, officer and director of

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

the Corporation for more than forty years, the Board believes he possesses the experience and knowledge to serve as a Director. In addition, the Board considered his many years of service to the community serving as Trustee and Chairman of the Investment Committees of several major hospitals and universities.

Stephen E. Paul (age 46, Director since 2002; current term expires in 2014). Mr. Paul has been a managing principal of Laurel Crown Partners, a private investment company, for more than five years. He became a President of The Louis Berkman Investment Company, a private investment company, in 2013. Mr. Paul's background in investment banking and private equity investment led the Board to conclude that he should serve as a director.^(N)

Carl H. Pforzheimer, III (age 77, Director since 1982; current term expires in 2014). Mr. Pforzheimer has been Managing Partner or Manager of Carl H. Pforzheimer & Co. LLC or its predecessors or related entities for more than forty-five years. In addition to the attendant investment advisory analytical skills gained from such a long term position, his role as chairman of the Audit and Risk Management Committees of U. S. Trust Co. led the Board to conclude Mr. Pforzheimer should serve as a director.^(N)

Ernest G. Siddons (age 80, Director since 1981; current term expires in 2016). Mr. Siddons was President and Chief Operating Officer of the Corporation for more than five years prior to his retirement as President in April 2009. With more than thirty years of experience with the Corporation in operations and financial management, the Board concluded that Mr. Siddons should serve as a director. Positions held earlier with the Corporation, including those of Chief Financial Officer and Treasurer and President of Union Electric Steel, and his qualification as a Chartered Accountant were also considered.

(N) Nominee for election at the April 29, 2014 Annual Shareholders Meeting. Messers. Abel, Lieberman, Paul and Pforzheimer will be nominated for three-year terms expiring in 2017. Mr. German will be nominated for a one-year term expiring in 2015.

(1) Officers serve at the discretion of the Board of Directors.

IDENTIFICATION OF EXECUTIVE OFFICERS

The identification of the Executive Officers of the Corporation can be found in Part 1 of this Annual Report on Form 10K.

FAMILY RELATIONSHIPS

Robert A. Paul is the father of Laurence E. Paul and Stephen E. Paul. There are no other family relationships among the Directors and Executive Officers.

COMMITTEES

The various committees of the Board of Directors are currently comprised as follows:

Audit Committee: Carl H. Pforzheimer, III (Chairman), Robert J. Appel, Leonard M. Carroll, Paul A. Gould and William K. Lieberman;

Compensation Committee: Robert J. Appel (Chairman), Paul A. Gould, William K. Lieberman and Carl H. Pforzheimer, III;

Executive Committee: Robert A. Paul (Chairman), Leonard M. Carroll, William K. Lieberman, Carl H. Pforzheimer, III and Ernest G. Siddons;

Investment Committee: Robert A. Paul (Chairman), Robert J. Appel, Leonard M. Carroll, Paul A. Gould, Ernest G. Siddons, Laurence E. Paul and Stephen E. Paul; and

Nominating and Corporate Governance Committee: Paul A. Gould (Chairman), William K. Lieberman and Carl H. Pforzheimer, III.

The Nominating and Governance Committee Charter, the Compensation Committee Charter, the Audit Committee Charter and the Corporate Governance Guidelines are available on the Corporation's website at www.ampcopittsburgh.com. The Corporation will provide a copy of these documents to any shareholder who makes a request in writing to the Corporate Secretary, Ampco-Pittsburgh Corporation, 600 Grant Street, Suite 4600, Pittsburgh, PA 15219.

AUDIT COMMITTEE FINANCIAL EXPERT

The Board of Directors has determined that Carl H. Pforzheimer, III, Chairman of the Audit Committee, is a financial expert and independent as defined under applicable SEC rules.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Edgar Filing: AMPCO PITTSBURGH CORP - Form 10-K

Section 16(a) of the Exchange Act requires the Corporation's directors, executive officers and persons who beneficially own more than 10% of the Corporation's common stock, to file reports of holdings and transactions in the Corporation's common stock with the SEC and to furnish the Corporation with copies of all Section 16(a) reports that they file. Based on those records and other information furnished, during 2013, executive officers, directors and persons who beneficially own more than 10% of the Corporation's common stock complied with all filing requirements.

CODE OF ETHICS

The Corporation has adopted a Code of Business Conduct and Ethics that applies to all of its officers, directors and employees, as well as an additional Code of Ethics that applies to the Corporation's principal executive and financial officers. Copies of both Codes are

available on the Corporation's website at www.ampcopittsburgh.com. In addition, the Corporation will provide without charge, upon request of any shareholder, a copy of the Codes upon written request to the Corporate Secretary, Ampco-Pittsburgh Corporation, 600 Grant Street, Suite 4600, Pittsburgh, PA 15219. The Corporation will make any required disclosures regarding amendments to, or waivers of, provisions of its Code of Business Conduct and Ethics and its separate Code of Ethics for its principal executive and financial officers by posting such information on its website or by filing a Form 8-K.

ITEM 11. EXECUTIVE COMPENSATION

The information required for this item is hereby incorporated by reference to the Corporation's Proxy Statement dated March 18, 2014.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDERS MATTERS

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

The following table summarizes information, as of the December 31, 2013, with respect to compensation plans under which equity securities of the Corporation are authorized for issuance:

Plan Category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	1,201,753	\$25	506,830
Equity compensation plans not approved by security holders	N/A	N/A	N/A
Total	1,201,753	\$25	506,830

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS

The following table sets forth information, to the extent known by the Corporation, concerning individuals (other than directors or officers of the Corporation) or entities holding more than five percent of the outstanding shares of the Corporation's Common Stock. The percent of class in the table below is calculated based upon 10,373,080 shares outstanding as of March 7, 2014.

Name of beneficial owner (and affiliates)	Amount and nature of beneficial ownership	Percent of class
Gabelli Funds, Inc. Corporate Center Rye, NY 10580 The Louis Berkman Investment Company	1,801,623 ⁽¹⁾	17.37

(11) *Excludes double counting of shares deemed to be beneficially owned by more than one director.*
Unless otherwise indicated the individuals named have sole investment and voting power.

CHANGES IN CONTROL

The Corporation knows of no arrangements that may at a subsequent date result in a change in control of the Corporation.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The Corporation's policies and procedures for reviewing, approving and ratifying transactions with related persons are set forth in the Corporation's Corporate Governance Guidelines, which are available on the Corporation's website at www.ampcopittsburgh.com. Under these policies and procedures, the Corporation's management is responsible for determining whether a particular transaction should be referred to the Nominating and Governance Committee for consideration. The Nominating and Governance Committee then determines whether to approve, ratify, revise the terms of or reject the transaction or to refer the transaction to the full Board or another appropriate committee of the Board for approval or ratification. The policy and procedures apply to transactions involving an amount in excess of \$120,000 in which a related person has a direct or indirect material interest. The policy and procedures generally do not apply to employment matters (except employment of an executive officer who is an immediate family member of another executive officer), director compensation, commercial transactions in the ordinary course of business under ordinary business terms, charitable contributions, transactions such as payment of dividends where all shareholders receive the same proportional benefits and transactions involving competitive bids.

In 2013, the Corporation bought industrial supplies from a subsidiary of The Louis Berkman Company in transactions in the ordinary course of business amounting to \$1,489,037. Additionally, The Louis Berkman Company paid the Corporation \$150,000 for certain administrative services. Robert A. Paul is an officer and director of that company. These transactions and services were at prices generally available from outside sources. Transactions between the parties will also take place in 2014.

The purchase of industrial supplies from a subsidiary of The Louis Berkman Company follows a competitive bid process which includes several non-related vendors after which annual contract awards are made to the lowest bidder by the purchasing executive at each of the Corporation's subsidiary companies. The administration services are provided under an agreement to provide such services for fees which are subject to annual review.

Following his retirement as President in April 2009, the Corporation entered into a Consulting Agreement with Ernest G. Siddons for a term of three years from the date of his retirement and renewed the term of that agreement in 2012 and 2013 each for an additional year. The current agreement primarily provides for compensation of \$120,000 per year and the same medical provided to him prior to his retirement.

The Board of Directors has adopted categorical standards to assist it in evaluating the independence of its Directors. The standards are attached to the Corporate Governance Guidelines which are available on the Corporation's website at www.ampcopittsburgh.com. After performing this evaluation in accordance with those guidelines, the Board has determined that James J. Abel, Robert J. Appel, Leonard M. Carroll, Michael I. German, Paul A. Gould, William K. Lieberman and Carl H. Pforzheimer, III do not have material relationships with the Corporation (other than as members of the Board of Directors) and are independent within the meaning of the Corporation's independence standards and those of the NYSE.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The following table summarizes the aggregate fees billed to the Corporation by Deloitte & Touche LLP:

	2013	2012
Audit fees ^(a)	\$ 825,640	\$ 733,270
Audit-related fees ^(b)	26,050	31,010
Tax fees ^(c)	0	1,000
All other fees	0	0
Total^(d)	\$ 851,690	\$ 765,280

(a) Fees for audit services related primarily to the audit of the Corporation's annual consolidated financial statements and its internal control over financial reporting.

(b) Fees for audit-related services related primarily to the audits of the Corporation's employee benefit plans.

(c) Fees for services provided in connection with tax planning and advice.

(d) The Audit Committee approved all fees in the years reported.

In considering the nature of the services provided by Deloitte & Touche LLP, the Audit Committee determined that such services are compatible with the provision of independent audit services. The Audit Committee discussed these services with Deloitte & Touche LLP and the Corporation's management to determine that they are permitted under the rules and regulations concerning auditor independence promulgated by the SEC. All services provided by Deloitte & Touche LLP and reflected in the table above were approved by the Audit Committee in accordance with the policy described below.

The Audit Committee has adopted a Policy for Approval of Audit and Non-Audit Services (the Policy) provided by the Corporation's independent auditor. According to the Policy, the Corporation's independent auditor may not provide the following services to the Corporation:

- maintain or prepare the Corporation's accounting records or prepare the Corporation's financial statements that are either filed with the SEC or form the basis of financial statements filed with the SEC;
- provide appraisal or valuation services when it is reasonably likely that the results of any valuation or appraisal would be material to the Corporation's financial statements, or where the independent auditor would audit the results;
- provide certain management or human resource functions;
- serve as a broker-dealer, promoter or underwriter of the Corporation's securities;
- provide any service in which the person providing the service must be admitted to practice before the courts of a U.S. jurisdiction;
- provide any internal audit services relating to accounting controls, financial systems, or financial statements; or
- design or implement a hardware or software system that aggregates source data underlying the financial statements or generates information that is significant to the Corporation's financial statements, taken as a whole.

In addition, in connection with its adoption of the Policy, the Audit Committee pre-approved certain audit-related and other non-prohibited services. Any services not prohibited or pre-approved by the Policy must be pre-approved by the Audit Committee in accordance with the Policy. The Policy is reviewed and approved annually by the Board of Directors.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Ampco-Pittsburgh Corporation

We have audited the consolidated financial statements of Ampco-Pittsburgh Corporation and subsidiaries (the Corporation) as of December 31, 2013 and 2012, and for each of the three years in the period ended December 31, 2013, and the Corporation's internal control over financial reporting as of December 31, 2013, and have issued our reports thereon dated March 17, 2014; such reports are included elsewhere in this Form 10-K. Our audits also included the consolidated financial statement schedule of the Corporation listed in Item 15. The consolidated financial statement schedule is the responsibility of the Corporation's management. Our responsibility is to express an opinion based on our audits. In our opinion, such consolidated financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

/s/ Deloitte & Touche LLP

Pittsburgh, Pennsylvania

March 17, 2014

SCHEDULE II**Ampco-Pittsburgh Corporation****Valuation and Qualifying Accounts**

For the Years Ended December 31, 2013, 2012 and 2011

(in thousands)

Description	Balance at Beginning of Period	Additions		Deductions	Other ⁽³⁾	Balance at End of Period
		Charged to Costs and Expenses	Charged to Other Accounts ⁽¹⁾			
Year ended December 31, 2013						
Allowance for doubtful accounts	\$ 519	\$ 33	\$ 0	\$ (3)	\$ 2	\$ 551
Valuation allowance against gross deferred income tax assets	\$ 2,887	\$ 0	\$ 35	\$ (156) ⁽²⁾	\$ (127)	\$ 2,639
Year ended December 31, 2012						
Allowance for doubtful accounts	\$ 141	\$ 379	\$ 0	\$ (4)	\$ 3	\$ 519
Valuation allowance against gross deferred income tax assets	\$ 3,042	\$ 0	\$ 11	\$ (132) ⁽²⁾	\$ (34)	\$ 2,887
Year ended December 31, 2011						
Allowance for doubtful accounts	\$ 176	\$ 6	\$ 0	\$ (41)	\$ 0	\$ 141
Valuation allowance against gross deferred income tax assets	\$ 1,853	\$ 0	\$ 1,368	\$ (178) ⁽²⁾	\$ (1)	\$ 3,042

(1) Represents valuation allowances established for deferred income tax assets since it is more likely than not that the assets will not be realized.

(2) Reduction in valuation allowances reflects primarily changes in the amount of deferred income tax assets expected to be realized, resulting in credit to the income tax provision in the consolidated statements of operations.

(3) Represents primarily impact from changes in foreign currency exchange rates and income tax rates.
