#### **Management s Discussion of Fund Performance**

## Performance summary

This is the annual report for Invesco Bond Fund (the Fund) for the fiscal year ended February 28, 2014. The Fund s return can be calculated based on either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the Fund s portfolio securities, cash and other assets, less all liabilities by the total number of shares outstanding. Market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. On an NAV basis, the Fund provided positive absolute returns for the reporting period and outperformed the Barclays Baa U.S. Corporate Bond Index, the Fund s benchmark, as security selection aided relative performance. On a market price basis, the Fund s return was negative due to investor worries over the effect of rising rates and rich valuations across segments of the bond market.

#### **Performance**

Total returns, 2/28/13 to 2/28/14

Fund at NAV	4.05%
Fund at Market Value	-4.63
Barclays Baa U.S. Corporate Bond Index	2.31
Market Price Discount to NAV as of 2/28/14	-9.57
Source(s): Lipper Inc.	

The performance data quoted represent past performance and cannot guarantee comparable future results; current performance may be lower or higher. Investment return, NAV and share market price will fluctuate so that you may have a gain or loss when you sell shares. Please visit invesco.com/us for the most recent month-end performance. Performance figures reflect Fund expenses, the reinvestment of distributions (if any) and changes in NAV for performance based on NAV and changes in market price for performance based on market price.

Since the Fund is a closed-end management investment company, shares of the Fund may trade at a discount or premium from the NAV. This characteristic is separate and distinct from the risk that NAV could decrease as a result of investment activities and may be a greater risk to investors expecting to sell their shares after a short time. The Fund cannot predict whether shares will trade at, above or below NAV. The Fund should not be viewed as a vehicle for trading purposes. It is designed primarily for risk-tolerant long-term investors.

### Edgar Filing: Invesco Bond Fund - Form N-CSR

#### How we invest

The Fund seeks to provide interest income while conserving capital by investing primarily in fixed-rate US investment-grade corporate bonds with flexibility to incorporate up to 20% in non-investment-grade and non-US dollar-denominated securities, as well as foreign sovereign and corporate securities (both developed and emerging markets). We also may invest in government securities, asset-backed securities, commercial mortgage-backed securities and residential mortgage-backed securities. The Fund may also invest in derivatives and other instruments that have similar economic characteristics to other securities.

We believe dynamic and complex fixed income markets may create opportunities

for investors that are best captured by specialist decision makers interconnected as a global team. We use this philosophy in an effort to generate a total return consisting of income and capital appreciation.

The Fund s security selection is supported by a team of specialists. Team members conduct top-down macroeconomic analysis and bottom-up analysis on individual securities. Recommendations are communicated to portfolio managers through proprietary technology that allows all investment professionals to communicate in a timely manner.

Portfolio construction begins with a well-defined Fund design that establishes the target investment vehicles for generating the desired alpha (the extra

return above a specific benchmark) as well as the risk parameters for the Fund. Investment vehicles are evaluated for liquidity and risk versus relative value.

Sell decisions generally are based on:

- n A conscious decision to alter the Fund s macro risk exposure (for example, duration, yield curve positioning, sector exposure).
- n The need to limit or reduce exposure to a particular sector or issuer.
- n Degradation of an issuer s credit quality.
- n Realignment of a valuation target.
- n Presentation of a better relative value opportunity.

#### Market conditions and your Fund

The fiscal year ended February 28, 2014, was characterized by slow but steady improvement in the US economy, strong US equity market returns and generally negative US bond market returns. As the fiscal year began, consumer confidence trended higher based on the recovery of the US housing market, despite uncertainty surrounding the outcome of tax and spending negotiations between the White House and Congress and implementation of sequestration spending cuts which consequently left many businesses hesitant to spend.

US bond markets were unexceptional at the beginning of the fiscal year, but from late May through June, bond and stock markets declined following then-Federal Reserve (the Fed) Chairman Ben Bernanke s comments suggesting that the time had come for the Fed to reduce the size of its bond buying program, also known as quantitative easing (QE). This sell-off was brief but broad, and few asset classes were immune. Markets stabilized in mid-summer, despite some volatility in August surrounding a potential US military reaction to instability in Syria. The fourth quarter of 2013

## Edgar Filing: Invesco Bond Fund - Form N-CSR

began amid uncertainty created by a two-week federal government shutdown, and bond yields rose in response to increased market volatility during the last three months of the year. In December, as expected, the Fed officially announced that it would

Portfolio Composition

Total Number of Holdings	544	

The Fund s holdings are subject to change, and there is no assurance that the Fund will continue to hold any particular security.

begin reducing the scope of QE in January 2014. In contrast to a rallying stock market following the Fed s announcement, longer-term bond yields rose, with the benchmark 10-year US Treasury yield breaking 3% by the end of 2013. Despite interest rate declines and credit market rallies during January and February 2014, intermediate to longer-term, high credit quality, rate-sensitive segments of the US bond market either lost ground or produced modest positive returns for the reporting period. In contrast, lower-quality credit and less rate-sensitive segments of the bond market, such as high yield bonds, bank loans and short-term bonds, were among the few segments that delivered positive total returns for the reporting period.

With this economic environment as a backdrop, the Fund at NAV generated positive returns for the reporting period and outperformed its benchmark, the Barclays Baa U.S. Corporate Bond Index. Asset allocation and sector selection decisions produced mixed results for the reporting period. Positive performance relative to the Fund s benchmark came from sustained overweight allocation to investment-grade financials and consistent underweight positions in underperforming utility and consumer non-cyclical sectors of the Fund s benchmark. The Fund s off-benchmark allocation to high yield corporate bonds ranged between 10-20% of market value and contributed to relative performance, as high yield bonds outperformed investment-grade corporate bonds for the fiscal year.

The Fund s security selection was the most valuable element of active management as it contributed to returns relative to the Fund s benchmark within each of the major credit market sectors represented in the Fund. This was most notable within the financials sector, telecommunication, media and technology sector, and basic materials and capital goods sector, where the Fund s favorable mix of issuers and individual bonds among issuers outperformed the Fund s benchmark.

Throughout the fiscal year, we used several strategies to manage the overall credit risk of the Fund. We averaged approximately 3% of the portfolio in Treasuries over the reporting period, which furnished a necessary buffer to market volatility but detracted from returns relative to the Fund s benchmark as credit assets outperformed rate-sensitive government bonds. We utilized credit default swaps (average notional value of less than 5% of the Fund s net assets) as a hedge against price volatility throughout the

fiscal year. These performed as expected and helped dampen portfolio volatility when credit markets were most unsettled, but did create a slight drag on overall return during the reporting period.

The Fund uses active duration and yield curve positioning for risk management and for generating alpha versus its benchmark. Duration measures a portfolio s price sensitivity to interest rate changes, with a shorter duration portfolio tending to be less sensitive to these changes. We maintained the Fund s duration and yield curve positioning close to the Fund s benchmark on average, but did make tactical shifts throughout the fiscal year to capitalize on the anticipated movement of market interest rates. The timing and magnitude of these shifts contributed to returns relative to the Fund s benchmark as rates fluctuated throughout the reporting period. Buying and selling US Treasury securities were important tools used to manage interest rate risk and maintain targeted portfolio duration during the reporting period, which contributed to an elevated portfolio turnover.

We wish to remind you that the Fund is subject to interest rate risk, meaning when interest rates rise, the value of fixed income securities generally will fall. This risk may be greater in the current market environment because interest rates are at or near historic lows. We are monitoring interest rates and market and economic factors that may impact interest rates, including the potential impact of the Fed s tapering of QE. If interest rates rise, markets may experience increased volatility, which may affect the value and/or liquidity of certain of the Fund s investments or the market price of the Fund s shares.

Thank you for investing in Invesco Bond Fund and for sharing our long-term investment horizon.

The views and opinions expressed in management s discussion of Fund performance are those of Invesco Advisers, Inc. These views and opinions are subject to change at any time based on factors such as market and economic conditions. These views and opinions may not be relied upon as investment advice or recommendations, or as an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but Invesco Advisers, Inc. makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

See important Fund and, if applicable, index disclosures later in this report.

#### **Matt Brill**

Chartered Financial Analyst, portfolio manager, is manager of Invesco Bond Fund. He has been associated with Invesco or its affiliates since 2013 when he began managing the Fund. Mr. Brill was employed by ING Investment Management from 2005 to 2013. He graduated magna cum laude with a BA in economics from Washington and Lee University.

#### **Chuck Burge**

Portfolio manager, is manager of Invesco Bond Fund. He has been associated with Invesco or its affiliates since 2002 and began managing the Fund in 2010. Mr. Burge earned a BS in economics from Texas A&M University and an MBA in finance and accounting from Rice University.

### **Darren Hughes**

Chartered Financial Analyst, portfolio manager, is manager of Invesco Bond Fund. He has been associated with Invesco or its affiliates since 1992 and began managing the Fund in 2012. Mr. Hughes earned a BBA in finance and economics from Baylor University.

#### Michael Hyman

Portfolio manager, is manager of Invesco Bond Fund. He has been associated with Invesco or its affiliates since 2013 when he began managing the Fund. Mr. Hyman was employed by ING Investment Management from 2001 to 2013. He earned a BSE in finance from Pennsylvania State University and an MBA from the Stern School of Business at New York University.

#### **Scott Roberts**

Chartered Financial Analyst, portfolio manager, is manager of Invesco Bond Fund. He has been associated with the Invesco or its affiliates since 2000 and began managing the Fund in 2012. Mr. Roberts earned a BBA in finance from the University of Houston.

#### **Supplemental Information**

#### Invesco Bond Fund s investment objective is to seek interest income while conserving capital.

- n Unless otherwise stated, information presented in this report is as of February 28, 2014, and is based on total net assets
- n Unless otherwise noted, all data provided by Invesco.
- n To access your Fund s reports, visit invesco.com/fundreports.

#### About indexes used in this report

- n The **Barclays Baa U.S. Corporate Bond Index** is the Baa component of the Barclays U.S. Corporate Investment Grade Index.
- n The **Barclays U.S. Corporate Investment Grade Index** consists of publicly issued, fixed rate, nonconvertible, investment-grade debt securities.
- n The Fund is not managed to track the performance of any particular index, including the index(es) described here, and consequently, the performance of the Fund may deviate significantly from the performance of the index(es).
- n A direct investment cannot be made in an index. Unless otherwise indicated, index results include reinvested dividends, and they do not reflect sales charges. Performance of the peer group, if applicable, reflects fund expenses; performance of a market index does not.

#### Other information

- n Active trading risk. The Fund engages in frequent trading of portfolio securities. Active trading results in added expenses and may result in a lower return and increased tax liability.
- n The returns shown in management s discussion of Fund performance are based on net asset values (NAVs) calculated for shareholder transactions. Generally accepted accounting principles require adjustments to be made to the net assets of the Fund at period end for financial reporting purposes, and as such, the NAVs for shareholder transactions and the returns based on those NAVs may differ from the NAVs and returns reported in the Financial Highlights.

#### **Changes to Investment Policies**

In order for the Fund to access additional opportunities to pursue its investment objective, the following changes and clarifications to the Fund s investment policies were made:

The Fund can invest in derivative instruments including swap contracts (including credit default swaps, total return swaps, interest rate swaps and volatility swaps), options (including currency options, credit default swap options and

## Edgar Filing: Invesco Bond Fund - Form N-CSR

swaptions), futures contracts (including treasury futures) and forward foreign currency contracts. The Fund can use swap contracts, including interest rate swaps to hedge or adjust its exposure to interest rates, and credit default swaps to create long or short exposure to corporate or sovereign debt securities. The Fund can further use total return swaps to gain exposure to a reference asset and volatility swaps to adjust the volatility profile of the Fund. The Fund can use options, including currency options, to seek returns or to mitigate risk and to hedge against adverse movements in the foreign currencies in which portfolio securities are denominated. The Fund can also use credit default swap options to gain the right to enter into a credit default swap at a specified future date and swaptions (options on swaps) to manage interest rate risk. The Fund can use treasury futures contracts to increase or reduce its exposure to U.S. Treasury securities. The Fund can engage in foreign currency transactions either on a spot basis (i.e., for prompt delivery and settlement at the rate prevailing in the currency exchange market at the time) or through forward foreign currency contracts to seek gain or to mitigate the risk of foreign currency exposure.

**Derivatives Risk.** The value of a derivative instrument depends largely on (and is derived from) the value of an underlying security, currency, commodity, interest rate, index or other asset (each referred to as an underlying asset). In addition to risks relating to underlying assets, the use of derivatives may include other, possibly greater, risks, including counterparty, leverage and liquidity risks. Counterparty risk is the risk that the counterparty to the derivative contract will default on its obligation to pay the Fund the amount owed or otherwise perform under the derivative contract. Derivatives create leverage risk because they do not require payment up front equal to the economic exposure created by owning the derivative. As a result, an adverse change in the value of the underlying asset could result in the Fund sustaining a loss that is substantially greater than the amount invested in the derivative, which may make the Fund so returns more volatile and increase the risk of loss. Derivative instruments may also be less liquid than more traditional investments and the Fund may be unable to sell or close out its derivative positions at a desirable time or price. This risk may be more acute under adverse market conditions, during which the Fund may be most in need of liquidating its derivative positions. Derivatives may also be harder to value, less tax efficient and subject to changing government regulation that could impact the Fund s ability to use certain derivatives or their cost. Also, derivatives used for hedging or to gain or limit exposure to a particular market segment may not provide the expected benefits, particularly during adverse market conditions.

#### **Dividend Reinvestment Plan**

The dividend reinvestment plan (the Plan) offers you a prompt and simple way to reinvest your dividends and capital gains distributions (Distributions) into additional shares of your Invesco closed-end Fund (the Fund). Under the Plan, the money you earn from Distributions will be reinvested automatically in more shares of the Fund, allowing you to potentially increase your investment over time. All shareholders in the Fund are automatically enrolled in the Plan when shares are purchased.

#### Plan benefits

#### n Add to your account:

You may increase your shares in your Fund easily and automatically with the Plan.

#### n Low transaction costs:

Shareholders who participate in the Plan may be able to buy shares at below-market prices when the Fund is trading at a premium to its net asset value (NAV). In addition, transaction costs are low because when new shares are issued by the Fund, there is no brokerage fee, and when shares are bought in blocks on the open market, the per share fee is shared among all participants.

### n Convenience:

You will receive a detailed account statement from Computershare Trust Company, N.A. (the Agent), which administers the Plan. The statement shows your total Distributions, date of investment, shares acquired, and price per share, as well as the total number of shares in your reinvestment account. You can also access your account at invesco.com/us.

## n Safekeeping:

The Agent will hold the shares it has acquired for you in safekeeping.

### Who can participate in the Plan

If you own shares in your own name, your purchase will automatically enroll you in the Plan. If your shares are held in street name in the name of your brokerage firm, bank, or other financial institution you must instruct that entity to participate on your behalf. If they are unable to participate on your behalf, you may request that they reregister your shares in your own name so that you may enroll in the Plan.

#### How to enroll

## Edgar Filing: Invesco Bond Fund - Form N-CSR

If you haven t participated in the Plan in the past or chose to opt out, you are still eligible to participate. Enroll by visiting invesco.com/us, by calling toll-free 800 341 2929 or by notifying us in writing at Invesco Closed-End Funds, Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77842-3170. If you are writing to us, please include the Fund name and account number and ensure that all shareholders listed on the account sign these written instructions. Your participation in the Plan will begin with the next Distribution payable after the Agent receives your authorization, as long as they receive it before the record date, which is generally 10 business days before the Distribution is paid. If your authorization arrives after such record date, your participation in the Plan will begin with the following Distribution.

#### How the Plan works

If you choose to participate in the Plan, your Distributions will be promptly reinvested for you, automatically increasing your shares. If the Fund is trading at a share price that is equal to its NAV, you ll pay that amount for your reinvested shares. However, if the Fund is trading above or below NAV, the price is determined by one of two ways:

- 1. Premium: If the Fund is trading at a premium a market price that is higher than its NAV you ll pay either the NAV or 95 percent of the market price, whichever is greater. When the Fund trades at a premium, you may pay less for your reinvested shares than an investor purchasing shares on the stock exchange. Keep in mind, a portion of your price reduction may be taxable because you are receiving shares at less than market price.
- 2. Discount: If the Fund is trading at a discount a market price that is lower than its NAV you ll pay the market price for your reinvested shares.

#### **Costs of the Plan**

There is no direct charge to you for reinvesting Distributions because the Plan s fees are paid by the Fund. If the Fund is trading at or above its NAV, your new shares are issued directly by the Fund and there are no brokerage charges or fees. However, if the Fund is trading at a discount, the shares are purchased on the open market, and you will pay your portion of any per share fees. These per share fees are typically less than the standard brokerage charges for individual transactions because shares are purchased for all participants in blocks, resulting in lower fees for each individual participant. Any service or per share fees are added to the purchase price. Per share fees include any applicable brokerage commissions the Agent is required to pay.

#### Tax implications

The automatic reinvestment of Distributions does not relieve you of any income tax that may be due on Distributions. You will receive tax information annually to help you prepare your federal income tax return.

Invesco does not offer tax advice. The tax information contained herein is general and is not exhaustive by nature. It was not intended or written to be used, and it cannot be used, by any taxpayer for avoiding penalties that may be imposed on the taxpayer under US federal tax laws. Federal and state tax laws are complex and constantly changing. Shareholders should always consult a legal or tax adviser for information concerning their individual situation.

#### How to withdraw from the Plan

You may withdraw from the Plan at any time by calling 800 341 2929, by visiting invesco.com/us or by writing to Invesco Closed-End Funds, Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77842-3170. Simply indicate that you would like to withdraw from the Plan, and be sure to include your Fund name and account number. Also, ensure that all shareholders listed on the account sign these written instructions. If you withdraw, you have three options with regard to the shares held in the Plan:

- 1. If you opt to continue to hold your non-certificated whole shares (Investment Plan Book Shares), they will be held by the Agent electronically as Direct Registration Book-Shares (Book-Entry Shares) and fractional shares will be sold at the then-current market price. Proceeds will be sent via check to your address of record after deducting applicable fees, including per share fees such as any applicable brokerage commissions the Agent is required to pay.
- 2. If you opt to sell your shares through the Agent, we will sell all full and fractional shares and send the proceeds via check to your address of record after deducting a \$2.50 service fee and per share fees. Per share fees include any applicable brokerage commissions the Agent is required to pay.
- 3. You may sell your shares through your financial adviser through the Direct Registration System (DRS). DRS is a service within the securities industry that allows Fund shares to be held in your name in electronic format. You retain full ownership of your shares, without having to hold a share certificate. You should contact your financial adviser to learn more about any restrictions or fees that may apply.

The Fund and Computershare Trust Company, N.A. may amend or terminate the Plan at any time. Participants will receive at least 30 days written notice before the effective date of any amendment. In the case of termination, Participants will receive at least 30 days written notice before the record date for the payment of any such Distributions by the Fund. In the case of amendment or termination necessary or appropriate to comply with applicable law or the rules and policies of the Securities and Exchange Commission or any other regulatory authority, such written notice will not be required.

To obtain a complete copy of the current Dividend Reinvestment Plan, please call our Client Services department at 800 341 2929 or visit invesco.com/us.

#### Notes to Schedule of Investments:

- (a) Industry and/or sector classifications used in this report are generally according to the Global Industry Classification Standard, which was developed by and is the exclusive property and a service mark of MSCI Inc. and Standard & Poor s.
- (b) Security purchased or received in a transaction exempt from registration under the Securities Act of 1933, as amended (the 1933 Act ). The security may be resold pursuant to an exemption from registration under the 1933 Act, typically to qualified institutional buyers. The aggregate value of these securities at February 28, 2014 was \$61,156,356, which represented 26.37% of the Fund s Net Assets.
- (c) Interest or dividend rate is redetermined periodically. Rate shown is the rate in effect on February 28, 2014.
- (d) Perpetual bond with no specified maturity date.
- (e) Security traded on a discount basis. The interest rate shown represents the discount rate at the time of purchase by

the Fund.

- (f) All or a portion of the value was pledged as collateral to cover margin requirements for open futures contracts. See Note 1J and Note 4.
- (g) Foreign denominated security. Principal amount is denominated in currency indicated.
- (h) Non-income producing security acquired as part of the NewPage Corp. bankruptcy reorganization.
- (i) The money market fund and the Fund are affiliated by having the same investment adviser.

See accompanying Notes to Financial Statements which are an integral part of the financial statements.

#### **NOTE 1 Significant Accounting Policies**

Invesco Bond Fund (the Fund ) is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the 1940 Act ), as a diversified, closed-end management investment company.

The Fund s investment objective is to seek interest income while conserving capital.

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements.

**A. Security Valuations** Securities, including restricted securities, are valued according to the following policy. Debt obligations (including convertible bonds) and unlisted equities are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to specific securities, dividend rate (for unlisted equities), yield (for debt obligations), quality, type of issue, coupon rate (for debt obligations), maturity (for debt obligations), individual trading characteristics and other market data. Debt obligations are subject to interest rate and credit risks. In addition, all debt obligations involve some risk of default with respect to interest and/or principal payments.

A security listed or traded on an exchange (except convertible bonds) is valued at its last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded, or lacking any sales or official closing price on a particular day, the security may be valued at the closing bid price on that day. Securities traded in the over-the-counter market are valued based on prices furnished by independent pricing services or market makers. When such securities are valued by an independent pricing service they may be considered fair valued. Futures contracts are valued at the final settlement price set by an exchange on which they are principally

traded. Listed options are valued at the mean between the last bid and ask prices from the exchange on which they are principally traded. Options not listed on an exchange are valued by an independent source at the mean between the last bid and ask prices. For purposes of determining net asset value per share, futures and option contracts generally are valued 15 minutes after the close of the customary trading session of the New York Stock Exchange (NYSE).

Investments in open-end and closed-end registered investment companies that do not trade on an exchange are valued at the end of day net asset value per share. Investments in open-end and closed-end registered investment companies that trade on an exchange are valued at the last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded.

Swap agreements are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service are valued based on a model which may include end of day net present values, spreads, ratings, industry, and company performance.

Foreign securities (including foreign exchange contracts) prices are converted into U.S. dollar amounts using the applicable exchange rates as of the close of the NYSE. If market quotations are available and reliable for foreign exchange-traded equity securities, the securities will be valued at the market quotations. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become unreliable. If between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that the Adviser determines are significant and make the closing price unreliable, the Fund may fair value the security. If the event is likely to have affected the closing price of the security, the security will be valued at fair value in good faith using procedures approved by the Board of Trustees. Adjustments to closing prices to reflect fair value may also be based on a screening process of an independent pricing service to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trades is not the current value as of the close of the NYSE. Foreign securities prices meeting the approved degree of certainty that the price is not reflective of current value will be priced at the indication of fair value from the independent pricing service. Multiple factors may be considered by the independent pricing service in determining adjustments to reflect fair value and may include information relating to sector indices, American Depositary Receipts and domestic and foreign index futures. Foreign securities may have additional risks including exchange rate changes,

potential for sharply devalued currencies and high inflation, political and economic upheaval, the relative lack of issuer information, relatively low market liquidity and the potential lack of strict financial and accounting controls and standards.

Securities for which market prices are not provided by any of the above methods may be valued based upon quotes furnished by independent sources. The last bid price may be used to value equity securities. The mean between the last bid and asked prices is used to value debt obligations, including corporate loans.

Securities for which market quotations are not readily available or became unreliable are valued at fair value as determined in good faith by or under the supervision of the Trust s officers following procedures approved by the Board of Trustees. Issuer specific events, market trends, bid/ask quotes of brokers and information providers and other market data may be reviewed in the course of making a good faith determination of a security s fair value.

The Fund invests in securities that are subject to interest rate risk, meaning the risk that the prices will generally fall as interest rates rise and, conversely, the prices will generally rise as interest rates fall. Specific securities differ in their sensitivity to changes in interest rates depending on their individual characteristics. Changes in interest rates may result in increased market volatility, which may affect the value and/or liquidity of certain of the Fund s investments.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer s assets, general economic conditions, interest rates, investor perceptions and market liquidity. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

**B.** Securities Transactions and Investment Income Securities transactions are accounted for on a trade date basis. Realized gains or losses on sales are computed on the basis of specific identification of the securities sold. Interest income is recorded on the accrual basis from settlement date. Paydown gains and losses on mortgage and asset-backed securities are recorded as adjustments to interest income. Dividend income (net of withholding tax, if any) is recorded on the ex-dividend date. Bond premiums and discounts are amortized and/or accreted for financial reporting purposes.

The Fund may periodically participate in litigation related to Fund investments. As such, the Fund may receive proceeds from litigation settlements. Any proceeds received are included in the Statement of Operations as realized gain (loss) for investments no longer held and as unrealized gain (loss) for investments still held.

Brokerage commissions and mark ups are considered transaction costs and are recorded as an increase to the cost basis of securities purchased and/or a reduction of proceeds on a sale of securities. Such transaction costs are included in the determination of net realized and unrealized gain (loss) from investment securities reported in the Statement of Operations and the Statement of Changes in Net Assets and the net realized and unrealized gains (losses) on securities per share in the Financial Highlights. Transaction costs are included in the calculation of the Funds net asset value and, accordingly, they reduce the Funds total returns. These transaction costs are not considered operating expenses and are not reflected in net investment income reported in the Statement of Operations and Statement of Changes in Net Assets, or the net investment income per share and ratios of expenses and net investment income reported in the Financial Highlights, nor are they limited by any expense limitation arrangements between the Fund and the investment adviser.

C. Country Determination For the purposes of making investment selection decisions and presentation in the Schedule of Investments, the investment adviser may determine the country in which an issuer is located and/or credit risk exposure based on various factors. These factors include the laws of the country under which the issuer is organized, where the issuer maintains a principal office, the country in which the issuer derives 50% or more of its total revenues and the country that has the primary market for the issuer s securities, as well as other criteria. Among the other criteria that may be evaluated for making this determination are the country in which the

issuer maintains 50% or more of its assets, the type of security, financial guarantees and enhancements, the nature of the collateral and the sponsor organization. Country of issuer and/or credit risk exposure has been determined to be the United States of America, unless otherwise noted.

- **D. Distributions** The Fund declares and pays monthly dividends from net investment income to common shareholders. Distributions from net realized capital gain, if any, are generally declared and paid annually and are distributed on a pro rata basis to common shareholders.
- **E. Federal Income Taxes** The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended (the Internal Revenue Code), necessary to qualify as a regulated investment company and to distribute substantially all of the Fund s taxable earnings to shareholders. As such, the Fund will not be subject to federal income taxes on otherwise taxable income (including net realized capital gain) that is distributed to shareholders. Therefore, no provision for federal income taxes is recorded in the financial statements.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained. Management has analyzed the Fund suncertain tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions. Management is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

The Fund files tax returns in the U.S. Federal jurisdiction and certain other jurisdictions. Generally, the Fund is subject to examinations by such taxing authorities for up to three years after the filing of the return for the tax period.

- **F.** Accounting Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including estimates and assumptions related to taxation. Actual results could differ from those estimates by a significant amount. In addition, the Fund monitors for material events or transactions that may occur or become known after the period-end date and before the date the financial statements are released to print.
- **G. Indemnifications** Under the Fund s organizational documents, each Director, officer, employee or other agent of the Trust is indemnified against certain liabilities that may arise out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts, including the Fund s servicing agreements, that contain a variety of indemnification clauses. The Fund s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification claims is considered remote.
- **H. Foreign Currency Translations** Foreign currency is valued at the close of the NYSE based on quotations posted by banks and major currency dealers. Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at date of valuation. Purchases and sales of portfolio securities (net of foreign taxes withheld on disposition) and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for

the portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. The combined results of changes in foreign exchange rates and the fluctuation of market prices on investments (net of estimated foreign tax withholding) are included with the net realized and unrealized gain or loss from investments in the Statement of Operations. Reported net realized foreign currency gains or losses arise from (1) sales of foreign currencies, (2) currency gains or losses realized between the trade and settlement dates on securities transactions, and (3) the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund s books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign currency gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

The Fund may invest in foreign securities which may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable.

- I. Forward Foreign Currency Contracts The Fund may enter into forward foreign currency contracts to manage or minimize currency or exchange rate risk. The Fund may also enter into forward foreign currency contracts for the purchase or sale of a security denominated in a foreign currency in order to lock in the U.S. dollar price of that security. A forward foreign currency contract is an obligation to purchase or sell a specific currency for an agreed-upon price at a future date. The use of forward foreign currency contracts does not eliminate fluctuations in the price of the underlying securities the Fund owns or intends to acquire but establishes a rate of exchange in advance. Fluctuations in the value of these contracts are measured by the difference in the contract date and reporting date exchange rates and are recorded as unrealized appreciation (depreciation) until the contracts are closed. When the contracts are closed, realized gains (losses) are recorded. Realized and unrealized gains (losses) on the contracts are included in the Statement of Operations. The primary risks associated with forward foreign currency contracts include failure of the counterparty to meet the terms of the contract and the value of the foreign currency changing unfavorably. These risks may be in excess of the amounts reflected in the Statement of Assets and Liabilities.
- J. Futures Contracts The Fund may enter into futures contracts to manage exposure to interest rate, equity and market price movements and/or currency risks. A futures contract is an agreement between two parties to purchase or sell a specified underlying security, currency or commodity (or delivery of a cash settlement price, in the case of an index future) for a fixed price at a future date. The Fund currently invests only in exchange-traded futures and they are standardized as to maturity date and underlying financial instrument. Initial margin deposits required upon entering into futures contracts are satisfied by the segregation of specific securities or cash as collateral at the futures commission merchant (broker). During the period the futures contracts are open, changes in the value of the contracts are recognized as unrealized gains or losses by recalculating the value of the contracts on a daily basis. Subsequent or variation margin payments are received or made depending upon whether unrealized gains or losses are incurred. These amounts are reflected as receivables or payables on the Statement of Assets and Liabilities. When the contracts are closed or expire, the Fund recognizes a realized gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the Fund s basis in the contract. The net realized gain (loss) and the change in unrealized gain (loss) on futures contracts held during the period is included on the Statement of Operations. The primary risks associated with futures contracts are market risk and the absence of a liquid secondary market. If the Fund were unable to liquidate a futures contract and/or enter into an offsetting closing transaction, the Fund would continue to be subject to market risk with respect to the value of the contracts and continue to be required to maintain the margin deposits on the futures contracts. Futures contracts have minimal counterparty risk since the exchange s clearinghouse, as counterparty to all exchange-traded futures, guarantees the futures against default. Risks may exceed amounts recognized in the Statement of Assets and Liabilities.
- **K. Swap Agreements** The Fund may enter into various swap transactions, including interest rate, total return, index, currency exchange rate and credit default swap contracts ( CDS ) for investment purposes or to manage interest rate, currency or credit risk. Such transactions are agreements between two parties ( Counterparties ). These agreements may contain among other conditions, events of default and termination events, and various covenants and

representations such as provisions that require the Fund to maintain a pre-determined level of net assets, and/or provide limits regarding the decline of the Fund s NAV over specific periods of time. If the Fund were to trigger such provisions and have open derivative positions at that time, the Counterparty may be able to terminate such agreement and request immediate payment in an amount equal to the net liability positions, if any.

Interest rate, total return, index, and currency exchange rate swap agreements are two-party contracts entered into primarily to exchange the returns (or differentials in rates of returns) earned or realized on particular predetermined investments or instruments. The gross returns to be exchanged or swapped between the parties are calculated with respect to a notional amount, i.e., the return on or increase in value of a particular dollar amount invested at a particular interest rate or return of an underlying asset, in a particular foreign currency, or in a basket of securities representing a particular index.

A CDS is an agreement between Counterparties to exchange the credit risk of an issuer. A buyer of a CDS is said to buy protection by paying a fixed payment over the life of the agreement and in some situations an upfront payment to the seller of the CDS. If a defined credit event occurs (such as payment default or bankruptcy), the Fund as a protection buyer would cease paying its fixed payment, the Fund would deliver eligible bonds issued by the reference entity to the seller, and the seller would pay the full notional value, or the par value, of the referenced obligation to the Fund. A seller of a CDS is said to sell protection and thus would receive a fixed payment over the life of the agreement and an upfront payment, if applicable. If a credit event occurs, the Fund as a protection seller would cease to receive the fixed payment stream, the Fund would pay the buyer par value or the full notional value of the referenced obligation, and the Fund would receive the eligible bonds issued by the reference entity. In turn, these bonds may be sold in order to realize a recovery value. Alternatively, the seller of the CDS and its counterparty may agree to net the notional amount and the market value of the bonds and make a cash payment equal to the difference to the buyer of protection. If no credit event occurs, the Fund receives the fixed payment over the life of the agreement. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the CDS. In connection with these agreements, cash and securities may be identified as collateral in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default under the swap agreement or bankruptcy/insolvency of a party to the swap agreement. If a counterparty becomes bankrupt or otherwise fails to perform its obligations due to financial difficulties, the Fund may experience significant delays in obtaining any recovery in a bankruptcy or other reorganization proceeding. The Fund may obtain only limited recovery or may obtain no recovery in such circumstances. The Fund s maximum risk of loss from counterparty risk, either as the

protection seller or as the protection buyer, is the value of the contract. The risk may be mitigated by having a master netting arrangement between the Fund and the counterparty and by the designation of collateral by the counterparty to cover the Fund s exposure to the counterparty.

Implied credit spreads represent the current level at which protection could be bought or sold given the terms of the existing CDS contract and serve as an indicator of the current status of the payment/performance risk of the CDS. An implied spread that has widened or increased since entry into the initial contract may indicate a deteriorating credit profile and increased risk of default for the reference entity. A declining or narrowing spread may indicate an improving credit profile or decreased risk of default for the reference entity. Alternatively, credit spreads may increase or decrease reflecting the general tolerance for risk in the credit markets.

Changes in the value of swap agreements are recognized as unrealized gains (losses) in the Statement of Operations by marking to market on a daily basis to reflect the value of the swap agreement at the end of each trading day. Payments received or paid at the beginning of the agreement are reflected as such on the Statement of Assets and Liabilities and may be referred to as upfront payments. The Fund accrues for the fixed payment stream and amortizes upfront payments, if any, on swap agreements on a daily basis with the net amount, recorded as a component of realized gain (loss) on the Statement of Operations. A liquidation payment received or made at the termination of a swap agreement is recorded as realized gain (loss) on the Statement of Operations. The Fund segregates liquid securities having a value at least equal to the amount of the potential obligation of a Fund under any swap transaction. Entering into these agreements involves, to varying degrees, lack of liquidity and elements of credit, market, and counterparty risk in excess of amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that a swap is difficult to sell or liquidate; the counterparty does not honor its obligations under the agreement and unfavorable interest rates and market fluctuations. It is possible that developments in the swaps market, including potential government regulation, could adversely affect the Fund s ability to terminate existing swap agreements or to realize amounts to be received under such agreements.

- **L. Leverage Risk** Leverage exists when a Fund can lose more than it originally invests because it purchases or sells an instrument or enters into a transaction without investing an amount equal to the full economic exposure of the instrument or transaction.
- **M. Collateral** To the extent the Fund has designated or segregated a security as collateral and that security is subsequently sold, it is the Fund s practice to replace such collateral no later than the next business day.

### NOTE 2 Advisory Fees and Other Fees Paid to Affiliates

The Fund has entered into a master investment advisory agreement with Invesco Advisers, Inc. (the Adviser or Invesco). Under the terms of the investment advisory agreement, the Fund pays an advisory fee to the Adviser based on the annual rate of the Fund s average daily net assets as follows:

Average Daily Net Assets	Rate
First \$500 million	0.42%
Over \$500 million	0.35%

Under the terms of a master sub-advisory agreement between the Adviser and each of Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. (collectively, the Affiliated Sub-Advisers ) the Adviser, not the Fund, may pay 40% of the fees paid to the Adviser to any such Affiliated Sub-Adviser(s) that provide(s) discretionary investment management services to the Fund based on the percentage of assets allocated to such Sub-Adviser(s).

The Adviser has contractually agreed, through at least June 30, 2014, to waive the advisory fee payable by the Fund in an amount equal to 100% of the net advisory fees the Adviser receives from the affiliated money market funds on investments by the Fund of uninvested cash in such affiliated money market funds.

For the year ended February 28, 2014, the Adviser waived advisory fees of \$1,414.

The Fund has entered into a master administrative services agreement with Invesco pursuant to which the Fund has agreed to pay Invesco for certain administrative costs incurred in providing accounting services to the Fund. For the year ended February 28, 2014, expenses incurred under this agreement are shown in the Statement of Operations as *Administrative services fees*.

Certain officers and trustees of the Fund are officers and directors of Invesco.

#### **NOTE 3** Additional Valuation Information

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, under current market conditions. GAAP establishes a hierarchy that prioritizes the inputs to valuation methods, giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3), generally when market prices are not readily available or are unreliable. Based on the valuation inputs, the securities or other investments are tiered into one of three levels. Changes in valuation methods may result in transfers in or out of an investment s assigned level:

- Level 1 Prices are determined using quoted prices in an active market for identical assets.
- Level 2 Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.
- Level 3 Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Fund s own assumptions about the factors market participants would use in determining fair value of the securities or instruments and would be based on the best available information.

The following is a summary of the tiered valuation input levels, as of February 28, 2014. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

	Level 1	Level 2	Level 3	Total
Equity Securities	\$5,859,255	\$ 3,923,796	\$	\$ 9,783,051

<sup>(</sup>e) Implied credit spreads represent the current level as of February 28, 2014 at which protection could be bought or sold given the terms of the existing credit default swap contract and serve as an indicator of the current status of the payment/performance risk of the credit default swap contract. An implied credit spread that has widened or increased since entry into the initial contract may indicate a deteriorating credit profile and increased risk of default for the reference entity. A declining or narrowing spread may indicate an improving credit profile or decreased risk

of default for the reference entity. Alternatively, credit spreads may increase or decrease reflecting the general tolerance for risk in the credit markets generally.

#### Offsetting Assets and Liabilities

Effective with the beginning of the Fund's fiscal year, the Fund has adopted Accounting Standards Update (ASU) No. 2011-11, *Disclosures about Offsetting Assets and Liabilities*, which was subsequently clarified in Financial Accounting Standards Board ASU 2013-01 Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities. This update is intended to enhance disclosures about financial instruments and derivative instruments that are subject to offsetting on the Statement of Assets and Liabilities and to enable investors to better understand the effect of those arrangements on its financial position. In order for an arrangement to be eligible for netting, the Fund must have a basis to conclude that such netting arrangements are legally enforceable. The Fund enters into netting agreements and collateral agreements in an attempt to reduce the Fund's counterparty credit risk by providing for a single net settlement with a counterparty of all financial transactions covered by the agreement in an event of default as defined under such agreement.

There were no derivative instruments subject to a netting agreement for which the Fund is not currently netting. The following tables present derivative instruments that are either subject to an enforceable netting agreement or offset by collateral arrangements as of February 28, 2014.

<sup>\*</sup>Includes cumulative appreciation (depreciation) of futures contracts.

#### NOTE 5 Trustees and Officers Fees and Benefits

Trustees and Officers Fees and Benefits include amounts accrued by the Fund to pay remuneration to certain Trustees and Officers of the Fund.

During the year ended February 28, 2014, the Fund paid legal fees of \$36,060 for services rendered by Skadden, Arps, Slate, Meagher & Flom LLP as counsel to the Fund. A trustee of the Fund is Of Counsel of Skadden, Arps, Slate, Meagher & Flom LLP.

#### **NOTE 6 Cash Balances**

The Fund is permitted to temporarily carry a negative or overdrawn balance in its account with State Street Bank and Trust Company, the custodian bank. Such balances, if any at period end, are shown in the Statement of Assets and Liabilities under the payable caption *Amount due custodian*. To compensate the custodian bank for such overdrafts,

the overdrawn Fund may either (1) leave funds as a compensating balance in the account so the custodian bank can be compensated by earning the additional interest; or (2) compensate by paying the custodian bank at a rate agreed upon by the custodian bank and Invesco, not to exceed the contractually agreed upon rate.

#### NOTE 7 Distributions to Shareholders and Tax Components of Net Assets

#### Tax Character of Distributions to Shareholders Paid During the Years Ended February 28, 2014 and 2013:

	2014	2013
Ordinary income	\$ 10,940,199	\$ 15,206,427
Long-term capital gain	2,526,847	1,954,359
Total distributions	\$ 13,467,046	\$17,160,786

#### **Tax Components of Net Assets at Period-End:**

	2014
Undistributed ordinary income	\$ 277,326
Undistributed long-term gain	1,035,545
Net unrealized appreciation investments	11,908,300
Net unrealized appreciation other investments	(166,902)
Temporary book/tax differences	(8,985)
Shares of beneficial interest	218,866,633
Total net assets	\$ 231,911,917

The difference between book-basis and tax-basis unrealized appreciation (depreciation) is due to differences in the timing of recognition of gains and losses on investments for tax and book purposes. The Fund s net unrealized appreciation difference is attributable primarily to wash sales and bond premium amortization differences.

The temporary book/tax differences are a result of timing differences between book and tax recognition of income and/or expenses. The Fund s temporary book/tax differences are the result of straddle loss deferral.

Capital loss carryforward is calculated and reported as of a specific date. Results of transactions and other activity after that date may affect the amount of capital loss carryforward actually available for the Fund to utilize. Capital losses generated in years beginning after December 22, 2010 can be carried forward for an unlimited period, whereas previous losses expire in 8 tax years. Capital losses with an expiration period may not be used to offset capital gains until all net capital losses without an expiration date have been utilized. Capital loss carryforwards with no expiration date will retain their character as either short-term or long-term capital losses instead of as short-term capital losses as under prior law. The ability to utilize capital loss carryforward in the future may be limited under the Internal Revenue Code and related regulations based on the results of future transactions.

The Fund does not have a capital loss carryforward as of February 28, 2014.

#### **NOTE 8 Investment Securities**

The aggregate amount of investment securities (other than short-term securities, U.S. Treasury obligations and money market funds, if any) purchased and sold by the Fund during the year ended February 28, 2014 was \$253,626,368 and \$279,610,520, respectively. During the same period, purchases and sales of U.S. Treasury obligations were \$190,419,159 and \$177,441,149, respectively. Cost of investments on a tax basis includes the adjustments for financial reporting purposes as of the most recently completed federal income tax reporting period-end.

#### Unrealized Appreciation (Depreciation) of Investment Securities on a Tax Basis

Aggregate unrealized appreciation of investment securities	\$ 13,495,081
Aggregate unrealized (depreciation) of investment securities	(1,586,781)
Net unrealized appreciation of investment securities	\$11,908,300
G	

Cost of investments for tax purposes is \$218,949,907.

#### **NOTE 9** Reclassification of Permanent Differences

Primarily as a result of differing book/tax treatment of foreign currency transactions, bond premium amortization and swap income, on February 28, 2014, undistributed net investment income (loss) was increased by \$833,314, undistributed net realized gain (loss) was decreased by \$821,589 and shares of beneficial interest was decreased by \$11,725. This reclassification had no effect on the net assets of the Fund.

#### **NOTE 10 Common Shares of Beneficial Interest**

Transactions in common shares of beneficial interest were as follows:

	February 28, 2014	February 28, 2013
Beginning shares	11,377,069	11,350,334
Shares issued through dividend reinvestment		26,735
Ending shares	11,377,069	11,377,069

The Fund may, when appropriate, purchase shares in the open market or in privately negotiated transactions at a price not above market value or net asset value, whichever is lower at the time of purchase.

#### NOTE 11 Dividends

The Fund declared the following dividends from net investment income subsequent to February 28, 2014:

<b>Declaration Date</b>	Amour	nt per Share	<b>Record Date</b>	Payable Date
March 3, 2014	\$	0.0740	March 14, 2014	March 31, 2014
April 1, 2014		0.0740	April 14, 2014	April 30, 2014

**NOTE 12 Financial Highlights**

Portfolio turnover rate <sup>(d)</sup>		192%		70%		72%	79%		77%		59%
Ratios/supplemental da on average net assets:	ata l	based									

Ratio of expenses:

With fee waivers						
and/or expense						
reimbursements	$0.59\%^{(e)}$	0.56%	0.57%	0.52 % <sup>(f)</sup>		
Without fee waivers						
and/or expense						
reimbursements	$0.59\%^{(e)}$	0.56%	0.57%	0.53 % <sup>(f)</sup>	0.59%	0.58%
Ratio of net investment						
income to average net						
assets	4.26% <sup>(e)</sup>	4.11%	4.43%	4.61% <sup>(f)</sup>	5.40%	5.54%

- (a) Calculated using average shares outstanding.
- (b) Includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. Not annualized for periods less than one year, if applicable.
- (c) Total return assumes an investment at the market price at the beginning of the period indicated, reinvestment of all distributions for the period in accordance with the Fund s dividend reinvestment plan, and sale of all shares at the closing market price at the end of the period indicated. Not annualized for periods less than one year, if applicable.
- (d) Portfolio turnover is not annualized for periods less than one year, if applicable.
- (e) Ratios are based on average daily net assets (000 s omitted) of \$230,288.
- (f) Annualized.

#### Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of Invesco Bond Fund:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Invesco Bond Fund (hereafter referred to as the Fund ) at February 28, 2014, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the three years in the period then ended, the eight month period ended February 28, 2011 and the year ended June 30, 2010, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements ) are the responsibility of the Fund s management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at February 28, 2014 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion. The financial highlights of the Fund for the year ended June 30, 2009 were audited by another independent registered public accounting firm whose report dated August 21, 2009 expressed an unqualified opinion on such financial statement.

PricewaterhouseCoopers LLP

April 28, 2014

Houston, Texas

#### **Tax Information**

Form 1099-DIV, Form 1042-S and other year end tax information provide shareholders with actual calendar year amounts that should be included in their tax returns. Shareholders should consult their tax advisors.

The following distribution information is being provided as required by the Internal Revenue Code or to meet a specific state s requirement.

The Fund designates the following amounts or, if subsequently determined to be different, the maximum amount allowable for its fiscal year ended February 28, 2014:

#### **Federal and State Income Tax**

Long-Term Capital Gain Distributions	\$ 2,526,847
Qualified Dividend Income*	2.35%
Corporate Dividends Received Deduction*	2.30%
U.S. Treasury Obligations*	1.74%
Tax Exempt Interest Dividends*	0%

<sup>\*</sup> The above percentages are based on ordinary income dividends paid to shareholders during the Fund s fiscal year.

#### **Non-Resident Alien Shareholders**

Qualified Short-Term Gains	\$ 762,127

#### **Trustees and Officers**

The address of each trustee and officer is 1555 Peachtree Street, N.E., Atlanta, Georgia 30309. Generally, each trustee serves for a three year term or until his or her successor has been duly elected and qualified, and each officer serves for a one year term or until his or her successor has been duly elected and qualified. Column two below includes length of time served with predecessor entities, if any.

#### Fund holdings and proxy voting information

The Fund provides a complete list of its holdings four times in each fiscal year, at the quarter ends. For the second and fourth quarters, the lists appear in the Fund s semiannual and annual reports to shareholders. For the first and third quarters, the Fund files the lists with the Securities and Exchange Commission (SEC) on Form N-Q. The most recent list of portfolio holdings is available at invesco.com/completeqtrholdings. Shareholders can also look up the Fund s Forms N-Q on the SEC website at sec.gov. Copies of the Fund s Forms N-Q may be reviewed and copied at the SEC Public Reference Room in Washington, D.C. You can obtain information on the operation of the Public Reference Room, including information about duplicating fee charges, by calling 202 551 8090 or 800 732 0330, or by electronic request at the following email address: publicinfo@sec.gov. The SEC file number for the Fund is shown below.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, from our Client Services department at 800 341 2929 or at invesco.com/proxyguidelines. The information is also available on the SEC website, sec.gov.

Information regarding how the Fund voted proxies related to its portfolio securities during the most recent 12-month period ended June 30 is available at invesco.com/proxysearch. In addition, this information is available on the SEC website at sec.gov.

SEC file numbers: 811-02090 VK-CE-BOND-AR-1

#### ITEM 2. CODE OF ETHICS.

There were no amendments to the Code of Ethics (the Code ) that applies to the Registrant s Principal Executive Officer (PEO) and Principal Financial Officer (PFO) during the period covered by the report. The Registrant did not grant any waivers, including implicit waivers, from any provisions of the Code to the PEO or PFO during the period covered by this report.

#### ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Board of Trustees has determined that the Registrant has at least one audit committee financial expert serving on its Audit Committee. The Audit Committee financial experts are Jerry D. Choate, Linda Hutton Heagy and R. Craig Kennedy. Jerry D. Choate, Linda Hutton Heagy and R. Craig Kennedy are independent within the meaning of that term as used in Form N-CSR.

# ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES. (a) to (d)
