Notes to Consolidated Financial Statements

(Unaudited)

Note 1 Basis of Presentation and Accounting Policies

The accompanying unaudited consolidated financial statements for the three and six months ended April 30, 2016 have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission for Form 10-Q. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

The unaudited financial information included in this report includes all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary to reflect a fair statement of the results for the interim periods. The results of operations for the three and six months ended April 30, 2016 are not necessarily indicative of the results of the full fiscal year.

The condensed consolidated financial statements included in this report should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 2015.

In May 2014, the FASB issued ASU 2014-09 (Revenue from Contracts with Customers (Topic 606)), which requires an entity to recognize revenue from the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance addresses, in particular, contracts with more than one performance obligation, as well as the accounting for some costs to obtain or fulfill a contract with a customer; and provides for additional disclosures with respect to revenues and cash flows arising from contracts with customers. With respect to public entities, this update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017 and early adoption is not permitted. We believe that our implementation of this guidance will have no material impact on our consolidated financial statements.

Note 2 Inventories

New home inventory is carried at the lower of cost or market value. The cost of finished home inventories is determined on the specific identification method and is removed from inventories and recorded as a component of cost of sales at the time revenue is recognized. In addition, an allocation of depreciation and amortization is included in cost of goods sold. Under the specific identification method, if finished home inventory can be sold for a profit there is no basis to write down the inventory below the lower of cost or market value.

Pre-owned inventory is valued at the lower of the Company's cost to acquire the inventory plus refurbishment costs incurred to date to bring the inventory to a more saleable state. This amount is reduced by a valuation reserve which management believes results in inventory being valued at market.

Other inventory costs are determined on a first-in, first-out basis.

Note 3 Short-term Investments

The following is a summary of short-term investments (available for sale):

	April 30, 2016			Estimated Fair Value
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	
Equity securities in a public company	\$ 167,930	\$ 267,397	\$	\$ 435,327

	October 31, 2015			Estimated Fair Value
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	
Equity securities in a public company	\$ 167,930	\$ 294,648	\$	\$ 462,578

The fair values were estimated based on quoted market prices in active markets at each respective period end.

Note 4 Fair Value of Financial Instruments

The carrying amount of cash and cash equivalents, accounts receivables, accounts payable and accrued expenses approximates fair value because of the short maturity of those instruments. Short-term investments (available for sale) are carried at fair value.

FASB ASC No. 820 Fair Value Measurements defines fair value as the price that would be received upon the sale of an asset or paid to transfer a liability (i.e. exit price) in an orderly transaction between market participants at the measurement date. ASC No. 820 requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e. inputs) used in the

Table of Contents

valuation. Financial assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement. The ASC No. 820 fair value hierarchy is defined as follows:

Level 1 - Valuations are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - Valuations are based on quoted prices for similar assets or liabilities in active markets, or quoted prices in markets that are not active for which significant inputs are observable, either directly or indirectly.

Level 3 - Valuations are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate of what market participants would use in valuing the asset or liability at the measurement date.

The following tables present the Company's assets and liabilities measured at fair value on a recurring basis.

	April 30, 2016		
	Level 1	Level 2	Level 3
Equity securities in a public company	\$ 435,327	\$	\$

	October 31, 2015

The Company recognized a gain of \$3,990,000 for the three and six months ended April 30, 2016.

Note 6 Warranty Costs

The Company provides for a limited warranty as the manufactured homes are sold. Amounts related to these warranties are as follows:

	Three Months Ended		Six Months Ended	
	April 30, 2016	May 2, 2015	April 30, 2016	May 2, 2015
Beginning accrued warranty expense	\$ 100,000	\$ 75,000	\$ 100,000	\$ 75,000

Ending accrued warranty expense	\$ 100,000	\$ 75,000	\$ 100,000	\$ 75,000

The Company's limited warranty covers substantial defects in material or workmanship in specified components of the home including structural elements, plumbing systems, electrical systems, and heating and cooling systems which are supplied by the Company that may occur under normal use and service during a period of twelve (12) months from the date of delivery to the original homeowner, and applies to the original homeowner or any subsequent homeowner to whom this product is transferred during the duration of this twelve (12) month period.

The Company tracks the warranty claims per home. Based on the history of the warranty claims, the Company has determined that a majority of warranty claims usually occur within the first three months after the home is sold. The Company determines its warranty accrual using the last three months of home sales.

Note 7 Earnings Per Share

These financial statements include basic and diluted net income per share information for all periods presented. The basic net income per share is calculated by dividing net income by the weighted-average number of shares outstanding. The diluted net income per share is calculated by dividing net income by the weighted-average number of shares outstanding, adjusted for dilutive common shares.

Table of Contents**Note 8 Revenues by Products and Service**

Revenues by net sales from manufactured housing, pre-owned homes and insurance agent commissions are as follows:

Total net sales	\$ 8,115,840	\$ 6,706,118	\$ 15,489,890	\$ 12,282,918

Note 9 Commitments and Contingent Liabilities

Majestic 21 The Company is a 50% guarantor on a \$5 million note payable entered into by Majestic 21, a joint venture in which the Company owns a 50% interest. This guarantee was a requirement of the bank that provided a \$5 million loan to Majestic 21. The \$5 million guarantee of Majestic 21's debt is for the life of the note which matures on the earlier of May 31, 2019 or when the principal balance is less than \$750,000. The amount of the guarantee declines with the amortization and repayment of the loan. As collateral for the loan, 21st Mortgage Corporation (our joint venture partner) has granted the lender a security interest in a pool of loans encumbering homes sold by Prestige Homes Centers, Inc. If the pool of loans securing this note should decrease in value so that the notes outstanding principal balance is in excess of 80% of the principal balance of the pool of loans, then Majestic 21 would have to pay down the note's principal balance to an amount that is no more than 80% of the principal balance of the pool of loans. The Company and 21st Mortgage Corporation are obligated jointly to contribute the amount necessary to bring the loan balance back down to 80% of the collateral provided. On April 28, 2016 the Company received a distribution of \$1,000,005 from the joint venture. We do not anticipate any required contributions as the pool of loans securing the note have historically been in excess of 100% of the collateral value. As of April 30, 2016, the outstanding principal balance of the note was \$1,104,760 and the amount of collateral held by our joint venture partner for the Majestic 21 note payable was \$1,996,176. Based upon management's analysis, the fair value of the guarantee is not material and as a result, no liability for the guarantee has been recorded in the accompanying balance sheets of the Company.

Note 10 Proceeds Received Under Escrow Arrangement

In April 2016, the Company received \$788,566 under an escrow arrangement related to a Finance Revenue Sharing Agreement between 21st Mortgage Corporation and the Company. These distributions from the escrow account, related to certain loans financed by 21st Mortgage Corporation, are recorded in income by the Company as received, which has been the Company's past practice.

Total revenues in the second quarter of 2016 were \$8,115,840, up 21% compared to \$6,706,118 in the second quarter of 2015. Total net sales for the first six months of 2016 were \$15,489,890 up 26% compared to \$12,282,918 for the first six months of 2015.

Sales to two publicly traded REITs and other companies which own multiple retirement communities in our market area accounted for approximately 22% and 45% of our sales for the first six months ended April 30, 2016 and May 2, 2015, respectively. Accounts receivable due from these customers were approximately \$1,634,264 at April 30, 2016.

The demand for affordable manufactured housing in Florida and the U.S. is improving. According to the Florida Manufactured Housing Association, shipments in Florida for the period from November 2015 through April 2016 were up approximately 27% from the same period last year. Our sales and earnings continue to be affected by the challenging housing environment, the uncertainty of the U.S. and world economy, employment levels, consumer confidence and, in particular, the lack of available retail and wholesale financing. Constrained consumer credit and the lack of lenders in the industry, partly as a result of an increase in government regulations, have limited many affordable manufactured housing buyers from purchasing homes.

We understand that during this uncertain economic environment, maintaining our strong financial position is vital for future growth and success. Because of the recent years of very challenging business conditions in our market area, management will continue to evaluate all expenses and react in a manner consistent with maintaining our strong financial position.

The Company has specialized for 49 years in the design and production of quality, affordable manufactured homes at its plant located in central Florida. With multiple retail sales centers, an insurance subsidiary, and investments in retirement manufactured home communities, we are the only vertically integrated manufactured home company headquartered in Florida.
