**PROXY STATEMENT
FEBRUARY 23, 2009**

General

This proxy statement is furnished in connection with the solicitation of proxies for use at the 2009 Annual Meeting of Stockholders (the "Annual Meeting") of Ameron International Corporation (the "Company") to be held at the time and place and for the purposes set forth in the foregoing Notice of Annual Meeting of Stockholders. This proxy statement and the proxy card included herewith were first sent to stockholders on or about February 23, 2009.

The record date for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting is February 10, 2009. On such date, there were issued, outstanding and entitled to vote, 9,203,849 shares of common stock, par value \$2.50 per share, of the Company ("Common Stock"). Every stockholder is entitled to one vote for each share of Common Stock registered in his or her name at the close of business on the record date, except that stockholders may cumulate their votes in the election of directors as discussed below under "Election of Directors." The Common Stock is the only class of voting stock outstanding.

Proxies

Please sign, date and return the enclosed proxy card to ensure that your shares are voted. The proxy may be revoked at any time prior to the exercise thereof. A proxy can be revoked by filing either an instrument revoking the proxy or a duly executed proxy bearing a later date with the Secretary of the Company, or by attending the Annual Meeting and voting in person. Each proxy will be voted as instructed, and if no instruction is given, will be voted FOR the election of the three nominees for director named herein and FOR the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for fiscal year 2009. The named proxies may vote in their discretion upon such other matters as may properly come before the Annual Meeting.

Transaction of Business

The presence at the Annual Meeting in person or by proxy of the holders of a majority of the outstanding shares of Common Stock as of the record date is required for the transaction of business. This is called a "quorum." A stockholder's shares are counted as present at the Annual Meeting if the stockholder is present at the Annual Meeting and votes in person, or if a proxy has been properly submitted by the stockholder or on the stockholder's behalf. Both abstentions and broker non-votes shall be counted for the purposes of the determination of the presence or absence of a quorum at the Annual Meeting.

"Broker non-votes" are shares of Common Stock held by brokers or nominees over which the broker or nominee lacks discretionary power to vote and for which the broker or nominee has not received specific voting

instructions from the beneficial owner. While the shares of Common Stock that reflect "broker non-votes" are considered to be present and entitled to vote for the purposes of determining a quorum and may be entitled to vote on other matters, for purposes of determining the outcome of any matter as to which the broker or nominee does not have discretionary authority to vote, those shares will be treated as not present and not entitled to vote with respect to that matter.

Vote Required and Treatment of Votes for each Proposal

Assuming a quorum is present in person or by proxy at the Annual Meeting:

- The three nominees for director receiving the greatest number of votes cast will be elected. Abstentions are not counted for purposes of election of directors.
- To be ratified, the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm must receive the affirmative vote of a majority of the shares of Common Stock present in person or by proxy and entitled to vote at the Annual Meeting. Abstentions have the effect of negative votes.

ELECTION OF DIRECTORS (PROXY ITEM 1)

As of the date of this proxy statement, the Bylaws of the Company provide that the Board of Directors of the Company (the "Board") shall be composed of seven directors, divided into three classes. Directors are elected for three-year terms, and one class is elected at each annual meeting of the Company's stockholders. Pursuant to a policy adopted by the Board, no person may serve as a director after the date of the first annual meeting of stockholders subsequent to such person's 7th birthday.

Three Class II directors are to be elected at the Annual Meeting. Terry L. Haines and John E. Peppercorn were elected to their present terms of office as Class II directors at the Company's 2006 Annual Meeting. William D. Horsfall was appointed to his present term of office as a Class II director by the Board in July 2006. Class II directors elected at the Annual Meeting will hold office until the 2012 Annual Meeting, or until their respective successors have been elected and qualified. The nominees have consented to being named herein and to serve, if elected. In the event that any of the nominees should become unavailable prior to the Annual Meeting, proxies in the enclosed form will be voted for a substitute nominee or nominees designated by the Board or, at its option, the Board may reduce the number of directors that constitutes the entire Board.

Stockholders have cumulative voting rights with respect to the election of directors. Cumulative voting rights entitle a stockholder to a total number of votes equal to the number of directors to be elected multiplied by the number of shares of Common Stock owned by the stockholder, and to distribute such votes to one or more nominees as the stockholder determines. Unless a stockholder indicates otherwise on the proxy card, if a stockholder votes "FOR" all nominees, the proxies will allocate such stockholder's votes equally among the nominees listed above. If a stockholder withholds authority to vote for any nominee or nominees, the proxies will allocate such person's votes equally among the nominees listed above except those for whom the stockholder withholds authority to vote.

THE BOARD RECOMMENDS A VOTE "FOR" THE ELECTION OF THE CLASS II NOMINEES, AND THE ENCLOSED PROXY CARD WILL BE SO VOTED UNLESS THE STOCKHOLDER SPECIFIES OTHERWISE.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's directors, executive officers and holders of more than 10% of Common Stock to file with the SEC initial reports of ownership and reports of changes in ownership of Common Stock and other equity securities of the Company. The Company believes that during the fiscal year ended November 30, 2008 all Section 16(a) filing requirements were met except that one Form 4 was filed late to report the sale of Common Stock by Dennis C. Poulsen. The Form 4 was promptly filed upon discovery of the inadvertent omission.

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

The following section provides an overview and analysis of the Company's executive compensation program. For fiscal year 2008, the Company's Named Executive Officers ("NEOs") were:

James S. Marlen	Chairman and Chief Executive Officer
Gary Wagner	President and Chief Operating Officer
James R. McLaughlin	Senior Vice President, Chief Financial Officer and Treasurer
Mark J. Nowak	Vice President and Group President, Fiberglass-Composite Pipe Group
Ralph S. Friedrich	Senior Vice President-Technology

Administration

The Company's executive compensation program is administered by the Compensation Committee, which is composed of three independent directors. The Compensation Committee has retained Mercer Consulting as its principal outside compensation consultant with respect to the Company's executive compensation matters. In its role as consultant, Mercer Consulting is retained directly by the Compensation Committee, which has the authority to select, retain, and/or terminate its relationship with Mercer Consulting in its sole discretion. The Compensation Committee reviews the compensation of the NEOs on an annual basis, typically in late January or early February.

11

The Compensation Committee requests the recommendations of the Chief Executive Officer ("CEO") regarding the compensation of the NEOs other than himself. Final decisions regarding the compensation of all NEOs, however, are made solely by the Compensation Committee and authorized by the Board.

Objectives

The Company's primary strategic objective is to grow earnings across all of its operations, and thereby increase stockholder value. The purpose of the Company's executive compensation program is to support this strategic objective. To achieve this purpose, the specific objectives of Ameron's executive compensation program are:

- to attract and retain highly-qualified and productive members of the Company's management team;
- to motivate the Company's management team to achieve both annual and long-term financial goals approved by the Board of Directors; and
- to align the management team's interests with those of Ameron's stockholders.

In order to align management and stockholder interests, a significant portion of NEO compensation is based on performance. The Company awards performance-based compensation through its annual bonus, long-term cash incentive award, and long-term equity compensation program. Payouts under the annual bonus and long-term cash incentive award are tied to the Company's achievement of financial goals approved by the Board. The value of the equity portion is inherently tied to the Company's stock price in order to directly align the interests of the NEOs and the stockholders.

Executive Talent Market and Competitive Positioning

In order to help the Company attract and retain highly qualified and productive members of the Company's management team, the Company offers its NEOs compensation that is competitive with that being offered by other U.S.-based, general diversified manufacturing companies with similar domestic and international sales and industries, but adjusted based on the individual NEO's experience, expertise and tenure in position, as well as overall performance. The Compensation Committee, with the assistance of its outside compensation consultant, has selected a group of companies (the "Comparator Group") which it uses for NEO compensation comparability purposes. In developing the Comparator Group, the Compensation Committee used three primary criteria:

Peer Group Screening Criteria

Description and Screening Methodology

Labor Market

- The labor market is defined by companies with which the Company competes for executive talent.
- The Compensation Committee believes that the Company's executive talent market is inclusive of, yet broader than, the Company's direct competitors.

Size

- Size is defined by the Company's annual revenue.
- The Compensation Committee believes that there is a general correlation between compensation levels and revenue size in the manufacturing sector, as larger companies tend to manage more capital and have more complex operations, which increases the job scope and responsibility associated with executive positions. The initial revenue screening range of one-half to two times the Company's revenue was expanded on the upper and lower end to ensure that the Comparator Group consists of an appropriate number of companies for comparison purposes and includes the Company's direct competitors.

Business Complexity

- Business complexity is defined by number of business units, international footprint and joint ventures.
- The Compensation Committee recognizes that the Company has a greater number of business units, international operations and joint ventures than other organizations of similar revenue size, and therefore screened for companies that have two or more business units, international operations and/or joint venture activity to ensure that the Comparator Group has a similar level of diversity and complexity as the Company.

Based on these criteria, the Compensation Committee selected the following group of 12 publicly-held companies as the Comparator Group for purposes of setting fiscal year 2008 compensation:

Dresser-Rand Group Inc.	Northwest Pipe Company
Gibraltar Industries, Inc.	Schnitzer Steel Industries, Inc.
Grant Prideco, Inc.	Texas Industries, Inc.
Lufkin Industries, Inc.	Trinity Industries, Inc.
Martin Marietta Materials, Inc.	Valmont Industries, Inc.
National Oilwell Varco, Inc.	Vulcan Materials Company

This Comparator Group includes direct competitors to each of the Company's businesses, as well as companies which would be direct competitors if they operated in the Company's geographic territories, companies which offer products similar to those sold by the Company, and companies which operate in markets generally served by the Company. During fiscal year 2008, Grant Prideco, Inc. was acquired by National Oilwell Varco, Inc. and ceased to be a publicly-held company. Consequently, Grant Prideco, Inc. was eliminated from the Comparator Group for purposes of setting fiscal year 2009 compensation.

Through this acquisition and organic growth, National Oilwell Varco, Inc. has become significantly larger than any of the other companies in the Comparator Group. The Compensation Committee has decided to retain National Oilwell Varco, Inc. in the Comparator Group for fiscal year 2009, however, because its Fiber Glass Systems business unit is the primary competitor to the Company's largest business unit, the Fiberglass-Composite Pipe Group, and there are no other direct competitors to the Fiberglass-Composite Pipe Group within the Comparator Group.

The Company's target direct compensation (base salary, target annual bonus, target long-term cash incentive award and target long-term equity-based award) for the NEOs is positioned to provide a competitive award. The Company's competitive positioning strategy relative to the Comparator Group is described below:

Compensation Component	Competitive Positioning Philosophy (Relative to Comparator Group)
Base Salary	50 th percentile
Target Annual Bonus	50 th percentile
Target Direct Compensation (Base Salary + Target Annual Bonus + Target Long-Term Incentives)	40 th percentile

For fiscal year 2008, aggregate target direct compensation for the NEOs, as a whole, was positioned at the 40th percentile of the Comparator Group's aggregate target direct compensation. The Compensation Committee chose to position aggregate target direct compensation below the Comparator Group's median because the Company's annual revenue is lower than the median annual revenue of the Comparator Group.

Components of Executive Compensation

Compensation for the NEOs is comprised of the following components:

- base salary;
- annual bonus;
- long-term incentives, including:
 - ◆ long-term cash incentive awards, and
 - ◆ long-term equity-based awards;
- retirement benefits; and
- perquisites and other benefits.

Base Salary. Base salary is designed to compensate the NEOs for their roles and responsibilities, as well as to provide an indication of career progression. The base salaries of the NEOs are reviewed annually by the Compensation Committee, and new salaries are effective February 1. In general, the Compensation Committee's goal is to position base salaries for the NEOs at the 50th percentile of base salaries of executives with similar positions and functional

responsibilities within the Comparator Group. Current NEO base salaries, however, reflect adjustments by the Compensation Committee (both up and down) from the 50th percentile as a result of the Compensation Committee's judgment of the individual NEO's expertise, experience and tenure in position, and the Compensation Committee's evaluation of the individual NEO's overall performance.

The Compensation Committee increased the annual base salaries of Messrs. Marlen, Wagner, McLaughlin, Nowak and Friedrich for 2008 by 4.1%, 19.9%, 15.2%, 19.4% and 20.2%, respectively. The increases for Messrs. Wagner and Nowak reflected their promotions to President and Corporate Vice President, respectively, and the increases for Messrs. McLaughlin and Friedrich included adjustments to bring their salaries more in line with market salaries. Following these adjustments, the base salaries of the NEOs, as a group, for fiscal year 2008 were positioned at approximately the 50th percentile of the base salaries of the Comparator Group.

Annual Bonus. The Company's annual bonus program is intended to motivate the NEOs to meet the annual performance goals of the Company. Annual bonuses are awarded to NEOs under the Management Incentive Compensation Plan ("MIP") based on the Company's actual financial performance compared to plan targets established by the Board at the beginning of the fiscal year. For fiscal year 2008, the corporate-wide performance measures used as the basis for the program were earnings per share ("EPS") and return on sales ("ROS"). The Compensation Committee selected EPS and ROS because these financial measures are consistent with the Company's major strategic objective to grow profitably, and because these performance measures have a strong correlation to stockholder value creation. For operating group presidents, the Compensation Committee also uses targets tied to return on net assets employed ("RONAE") and group sales growth because the Compensation Committee believes these factors best reflect business group performance. The performance measures are weighted for each NEO based on the extent to which the NEO can influence the particular performance results. The following table sets forth the relative weighting for each NEO:

NEO	Annual Bonus Performance			
	Measure Weighting			
			Group	Group
	EPS	ROS	RONAE	Sales Growth
James S. Marlen	50%	50%	□	□
Gary Wagner	50%	50%	□	□
James R. McLaughlin	50%	50%	□	□
Mark J. Nowak	10%	10%	70%	10%
Ralph S. Friedrich	50%	50%	□	□

Effective beginning with fiscal year 2008, the Compensation Committee made two changes to the MIP award calculation formula:

First, the Compensation Committee eliminated the EPS Modifier, which had previously raised or lowered the calculated award based on the EPS increase or decrease compared to the prior year. This change was made to conform with customary practice, and to discontinue rewarding or penalizing the NEOs for EPS performance twice (as a primary measure and modifier). Eliminating the EPS modifier also simplified the program so that the link between performance and payout was more easily understood by MIP program participants.

Second, the Compensation Committee changed the treatment of TAMCO, a 50%-owned joint venture which is accounted for under the equity method in the Company's consolidated financial statements. Previously, the MIP had used cash received from TAMCO, rather than equity in TAMCO's income, for purposes of calculating EPS and ROS. EPS and ROS are now calculated under the MIP using equity in TAMCO's income. This change was made because TAMCO may be required, in any given year, to make a significant capital investment in its business that will serve the long-term interests of the enterprise and, ultimately, the Company's shareholders. A capital investment of this nature might preclude TAMCO from making cash payments to the Company for one or more years. Under the previous MIP calculation method, the Company's adjusted EPS or ROS could be decreased based on desirable investment decisions made by TAMCO. Replacing TAMCO's MIP cash dividend with equity income permits TAMCO to optimize its capital investments without a volatile impact on the Company's MIP calculations.

For purposes of calculating the MIP awards for fiscal year 2008, EPS was modified from the corresponding amount calculated under generally accepted accounting principles ("GAAP") in that: (1) income taxes were calculated based on plan tax rates; and (2) shares were based on the audited common shares outstanding as of the beginning of the plan year. ROS equaled (i) the Company's net income, plus provision for income taxes, plus income taxes on equity in earnings of joint venture, plus net interest income/expense; divided by (ii) the Company's sales. Group RONAE equaled the after-tax operating profit of the group, excluding interest and intercompany royalties, divided by certain of such group's operating assets. Non-GAAP after-tax operating profit was modified in that income taxes were based on plan tax rates.

For fiscal year 2008, the Compensation Committee established the following target annual bonuses for each NEO (that is, the annual bonus awards to the NEO if the Company achieved 100% of its target EPS, ROS, and, if applicable, group RONAE and sales growth):

NEO	Target Annual Bonus (as Percent of Base Salary)
James S. Marlen	100%
Gary Wagner	90%
James R. McLaughlin	80%
Mark J. Nowak	80%
Ralph S. Friedrich	50%

These target annual bonus levels reflect the Compensation Committee's review of the target annual bonus levels provided to similar executives in the Comparator Group. The Compensation Committee's goal is to position target annual bonuses for the NEOs at the 50th percentile of target annual bonuses of similar executives within the Comparator Group. As with base salary, however, current target annual bonuses for the NEOs also reflect adjustments by the Compensation Committee (both up and down) from the 50th percentile as a result of its judgment of the individual NEO's expertise, experience and tenure in position, as well as overall performance. The target annual bonuses of the NEOs, as a group, for fiscal year 2008 were positioned at approximately the 50th percentile of the target annual bonuses of the Comparator Group.

Calculated payouts of annual MIP bonuses can vary from 0% to 200% of the target annual bonus based on actual performance compared to performance targets, as set forth below. Payouts are interpolated between indicated payout levels.

Actual Performance (as Percent of Target Performance)	Calculated Annual Bonus Payout (as Percent of Target Annual Bonus)
below 80%	0%
80%	50%
100%	100%
120%	175%
150%	200%
Above 150%	200%

For fiscal year 2008, target and actual performance levels were as follows:

Performance Measure	Target	Actual	Actual (as Percent of Target)
---------------------	--------	--------	----------------------------------

EPS	\$5.20	\$5.91	113.7%
ROS	10.7%	11.3%	105.6%
Fiberglass-Composite Pipe Group RONA	32.7%	60.3%	184.4%
Fiberglass-Composite Pipe Group Sales Growth	5.0%	15.3%	306.0%

MIP annual bonus awards to NEOs are primarily formula driven, but are modified up or down based on the Compensation Committee's judgment as to the overall performance of the Company and the individual NEO during the year.

15

MIP annual bonus awards to the NEOs for fiscal year 2008, as determined by the Compensation Committee and approved by the Board of Directors, were based on the formulas described above, plus increases of 22%, 16%, 12% and 10% for Messrs. Marlen, Wagner, McLaughlin and Nowak, respectively. These increases reflected the Compensation Committee's recognition of:

- the Company's sales and earnings for fiscal year 2008, which were the second highest in the Company's history, despite a very challenging economic environment;
- the Company's judicious use of capital during fiscal year 2008, which resulted in a very strong balance sheet at fiscal year-end;
- the Company's progress in fiscal year 2008 in expanding into new products and markets which should help the long-term prospects of the Company, but at the expense of short-term profitability;
- the Company's cumulative five-year total stockholder return at the end of fiscal year 2008, which was in excess of the Comparator Group and the New York Stock Exchange Market Value Index; and
- each NEO's respective contributions to the Company's performance.

Long-Term Incentives. The Company's long-term incentive program is intended to motivate the NEOs to meet the long-term performance goals of the Company. The Company awards long-term cash compensation under the Key Executive Long-Term Cash Incentive Plan (the "LTIP"), which was most recently approved by the Company's stockholders in 2008, and long-term equity compensation in the form of restricted stock that vests based on time and continued employment.

The LTIP cash targets for the fiscal 2008-2010 performance cycle and the fiscal year 2008 restricted stock awards were determined using the 40th percentile of the Comparator Group's target direct compensation as a reference. Individual executives were positioned above or below the 40th percentile based on the Compensation Committee's judgment, which considered factors such as expertise, experience and tenure in position, and the Compensation Committee's evaluation of the individual NEO's overall performance. In determining restricted stock grants and LTIP cash targets at the beginning of 2008, the Compensation Committee also took into account the fact that the Company's earnings in fiscal year 2007 were the highest in the Company's history, and that such results were achieved in large measure due to the individual performances of the NEOs and their combined teamwork. The target direct compensation of the NEOs, as a group, for fiscal year 2008 was positioned at approximately the 40th percentile of the target direct compensation of the Comparator Group.

- **Long-Term Cash Incentive Award.** The purpose of the LTIP is to motivate the NEOs to meet the long-term goals of the Company. The LTIP cash award is based on the achievement of three-year EPS and return on equity ("ROE") targets established by the Board. The Compensation Committee selected EPS to encourage the NEOs to have both a short-term and long-term focus on financial performance. ROE was selected to encourage the NEOs to employ capital effectively in generating profits for the Company. The LTIP cash award is calculated based solely on achievement of the cumulative three-year target EPS, but no award is paid unless the Company also achieves a threshold average ROE equal to 75% of the target average ROE for the three-year performance cycle. For NEOs who are group presidents, payouts are also

Edgar Filing: AMERON INTERNATIONAL CORP - Form DEF 14A

contingent upon achievement of a threshold average RONA equal to 75% of the target average RONA for their group for the three-year performance cycle.

For the fiscal 2008-2010 performance cycle, the Compensation Committee established the following LTIP cash targets (that is, the awards which would be earned if the Company achieved 100% of its target EPS for that cycle and the applicable thresholds were met):

	LTIP Cash Targets (as Percent of Salary)
NEO	
James S. Marlen	50%
Gary Wagner	40%
James R. McLaughlin	40%
Mark J. Nowak	40%
Ralph S. Friedrich	20%

16

Calculated payouts of annual LTIP bonuses can vary from 0% to 200% of the LTIP cash targets based on actual performance compared to performance targets, as set forth below. Payouts are interpolated between indicated payout levels.

Actual Performance (as Percent of Target Performance)	Calculated LTIP Cash Payout (as Percent of LTIP Cash Target)
Below 75%	0%
75%	25%
80%	50%
90%	75%
100%	100%
110%	150%
120%	200%
Above 120%	200%

For the fiscal 2008-2010 performance cycle, target EPS was \$17.80, threshold average ROE was 8.6% and the Fiberglass-Composite Pipe Group threshold average RONA was 24.4%.

For the fiscal 2006-2008 performance cycle, target and actual performance levels were as follows:

Performance Measure	Target	Actual	Actual (as Percent of Target)
EPS	\$12.75	\$19.57	153.5%
Threshold Average ROE	8.5%	16.4%	N/A
Threshold Fiberglass-Composite Pipe Group Average RONA	24.7%	47.9%	N/A

All LTIP cash awards to the NEOs for the fiscal 2006-2008 performance cycle were strictly formula-driven.

For purposes of the LTIP cash awards for the fiscal 2006-2008 performance cycle, EPS and ROE were modified from the corresponding measures calculated using GAAP, in that earnings were calculated based on audited income from consolidated companies after income tax, plus cash received from affiliated unconsolidated companies, minus income tax on cash received from such affiliated unconsolidated companies.

Beginning with the fiscal 2009-2011 performance cycle, LTIP cash awards, like MIP annual bonuses, will be calculated using audited consolidated income without these adjustments (i.e., using equity in TAMCO's income, rather than the cash received from TAMCO). Unlike the MIP, however, the LTIP uses, and will continue to use, GAAP measures which reflect actual (rather than plan) income tax rates and actual fully-diluted shares (rather than beginning shares outstanding), since the LTIP measures performance over a three-year cycle, and management should be able to adjust to changing tax rates and shares outstanding over the longer period.

- **Long-Term Equity Compensation.** The purpose of the restricted stock awards is to focus the NEOs on long-term stockholder value creation and to better align their interests with those of stockholders, as well as to provide a retention vehicle. Equity awards to the CEO are discussed below in "Executive Compensation - Employment Agreement with James S. Marlen." All equity awards granted to the other NEOs during fiscal year 2008 were in the form of restricted stock grants with a three-year vesting schedule. The Compensation Committee selected a three-year vesting schedule to support its goal of management retention and to align with the three-year performance cycle used in the LTIP. During fiscal year 2008, Messrs. Wagner, McLaughlin and Nowak received grants of 7,000, 2,000 and 1,000 shares of restricted stock, respectively. Equity awards are generally granted on the first trading day in February of each year.

17

Retirement Benefits. NEOs participate in the Company's qualified pension plan (the "Pension Plan") to the same extent, and subject to the same terms and conditions, as other salaried employees of the Company. Retirement benefits under the Pension Plan are described below in "Executive Compensation - Pension Benefits" below. There are no supplemental executive retirement or pension benefits applicable to any NEO.

Perquisites and Other Benefits. The NEOs received the following perquisites and other benefits during fiscal year 2008:

- Messrs. Marlen, Wagner and McLaughlin participated in the Company's executive medical plan, which is a supplemental health insurance plan that reimburses out-of-pocket costs for deductibles, insurance co-payments and other medical costs which are not covered by the standard medical plan, subject to a reimbursement limitation of \$10,000 per year.
- Messrs. Marlen and Wagner participated in the Company's executive life insurance plan, under which the NEO's beneficiary will receive a death benefit equal to three times the NEO's base salary, if death occurs while the NEO remains employed by the Company, or one times the NEO's base salary, if death occurs following retirement.
- Messrs. Marlen, Wagner and Nowak participated in the Company's financial planning and tax services plan, which provides estate, tax and retirement planning, as well as tax return preparation services, through a third-party provider. The Company provided a tax gross up covering the cost of these benefits.
- Mr. Marlen was reimbursed for dues to the Annandale Country Club, the Los Angeles Country Club, the California Club and the Regency Club, all of which are located in Los Angeles County. Mr. Marlen received these perquisites to allow him to represent the Company's business matters in the larger community. The Company provided a tax gross up to Mr. Marlen covering the dues to the Regency Club.
- Mr. Wagner was reimbursed for dues to the Regency Club. The Company provided a tax gross up to Mr. Wagner covering these dues.
- Mr. Nowak was reimbursed for dues to the Houston Country Club.

Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits the Company's federal income tax deduction for compensation paid to any of the NEOs other than the Chief Financial Officer. The limit is \$1 million per NEO per year, with certain exceptions. This deductibility cap applies to all compensation other than cash LTIP awards, which qualify for the "performance-based compensation" exception.

Stock Ownership Guidelines

The Company does not presently have a policy or guidelines regarding stock ownership by the NEOs.

Employment Agreements

No NEO is party to an employment agreement with the Company other than James S. Marlen. The Compensation Committee believed that it was appropriate to enter into an employment agreement with Mr. Marlen to ensure the long-term retention of his services, as well as to provide him with appropriate incentives for future performance. The Compensation Committee believes that the benefits provided under the agreement are consistent with the Company's executive compensation philosophy discussed above. The terms of Mr. Marlen's employment agreement are summarized under "Executive Compensation-Employment Agreement with James S. Marlen" and "Executive Compensation-Potential Payments upon Termination or Change of Control" below.

Severance Arrangements

The Company has entered into severance agreements with Messrs. Wagner and McLaughlin. Mr. Marlen's employment agreement also provides for severance in certain circumstances. The Compensation Committee believes the benefits provided under these arrangements are appropriate to assist the Company in retaining the employment of the executive officers. The terms of these agreements are summarized under "Executive Compensation- Potential Payments upon Termination or Change of Control" below.

These amounts were calculated using annual base salary rates as of November 30, 2008. Actual payouts of these awards, if any, would be based on actual annual base salary rates at November 30, 2010, the end of the performance cycle. Threshold amounts are the minimum amounts payable if the minimum level of performance is achieved. If such minimum level of performance is not achieved, amounts paid would be zero.

Of these 36,000 shares, 18,000 were issued on February 2, 2009, and 18,000 will be issued in February 2010 so long as both a Change of Control of the Company has not occurred and Mr. Marlen continues to be employed by the Company as its Chairman, President or Chief Executive Officer as of that date. See □Employment Agreement with James S. Marlen□ below.

The amounts for Mr. Marlen in Columns (b) and (c) also include 24,000 performance stock units awarded to him on September 19, 2007. These units will vest at the end of the term of Mr. Marlen's Amended Employment Agreement, which could occur as early as March 31, 2010 or as late as November 30, 2010. Upon vesting, the performance stock units will become the right to receive, in the aggregate, between 8,000 and 24,000 shares of Common Stock, depending upon the closing price of the Common Stock on the date of vesting. See □Employment Agreement with James S. Marlen□ below. The amounts shown for Mr. Marlen in Columns (b) and (c) reflect the minimum vesting of 8,000 shares, which would occur if the closing price of the Common Stock is \$75 or less on the vesting date.

- (1) Additional information related to the valuation methods and all material assumptions applied in determining the present value of accumulated benefits are set forth in Note 16, Employee Benefit Plans, to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for fiscal year 2008.

The Pension Plan is a qualified, defined benefit plan which provides a pension benefit to certain non-union hourly and salaried employees of the Company and certain of its subsidiaries based on such individual's final average earnings. An individual's final average earnings equals the highest amount of compensation earned by the individual in any consecutive five-year period over the last ten years. For these purposes, "compensation" includes base monthly salary (exclusive of overtime), severance, bonuses, commissions and deferrals, as applicable. The Internal Revenue Code, as amended (the "Code"), limits the aggregate amount of compensation per year on which benefits are based, as well as the aggregate amount of the annual pension which may be paid by an employer from a plan that is qualified under the Code for federal income tax purposes. As of November 30, 2008, the maximum compensation which may be considered in determining an individual's final average earnings under the qualified Pension Plan was \$230,000.

The Pension Plan requires five years of service before a participant is vested. Once vested, a participant is entitled to a pension benefit at the normal retirement age of 65. Benefits are payable in the form of a straight life annuity, a ten year certain life annuity, a level income method, or one of three joint and survivor life annuity formulas. The monthly pension benefit due to each NEO, assuming the selection of a straight life annuity, equals 1.35% of the monthly final average earnings, plus 0.6% of the monthly final average earnings in excess of covered compensation for Social Security benefits, multiplied by the number of years of credited service, up to a maximum of 30 years. Any other form of payment elected would reduce this amount.

The Pension Plan permits early retirement at age 55 if the participant has at least ten years of credited service. If early retirement is elected, the pension benefit will be reduced for each month that the early retirement date precedes the normal retirement date by (i) 5/9 of 1 percent for each of the first sixty months and (ii) 5/18 of 1 percent for the next sixty months. As of November 30, 2008, Mr. Marlen was eligible for retirement under the Pension Plan, and Messrs. Wagner, McLaughlin and Friedrich were eligible for early retirement.

Employment Agreement with James S. Marlen

The Company has entered into an employment agreement with Mr. James S. Marlen, the material terms of which are summarized below. The Company has not entered into an employment agreement with any other NEO. For additional information regarding Mr. Marlen's employment agreement see "Potential Payments upon Termination or Change of Control; Potential Payments to Named Executive Officers" James S. Marlen below.

In January 2003, the Company entered into an Amended and Restated Employment Agreement (the "Employment Agreement") with Mr. Marlen. The term of the Employment Agreement was due to expire when Mr. Marlen attained the age of 67½ on September 14, 2008. The Company and Mr. Marlen entered into a First Amendment to the Employment Agreement (the "Amendment") on September 19, 2007. Pursuant to the Amendment, the term of the Employment Agreement was extended to March 31, 2010; provided, however, that the Company, in the sole discretion of the Board, may further extend the term for up to eight months to end not later than November 30, 2010. Mr. Marlen's annual base salary rate is subject to merit increases based on annual reviews by the Board, with participation in the MIP, the LTIP, and other executive compensation and benefit plans.

The Employment Agreement, as amended by the Amendment (the "Amended Employment Agreement") provides that Mr. Marlen will be entitled to receive 54,000 fully vested shares of Common Stock, consisting of annual grants of 18,000 shares in February of 2008, 2009 and 2010, so long as both a "Change of Control" of the Company has not occurred and Mr. Marlen continues to be employed by the Company as its Chairman, President or Chief Executive Officer as of the applicable grant dates. Mr. Marlen will not be entitled to receive these annual grants after a Change of Control or after his employment with the Company terminates for any reason (including termination with or without cause or due to retirement, resignation, death or disability).

Pursuant to the Amended Employment Agreement, on September 19, 2007 the Company and Mr. Marlen entered into a Performance Stock Unit Agreement, under which he received 24,000 performance stock units. Upon vesting, each unit equals the right to receive one share of Common Stock. The Performance Stock Unit Agreement provides for cliff vesting of the performance stock units at the end of the term of the Employment Agreement; provided that the units will vest earlier upon a Change of Control, or upon Mr. Marlen's Termination Without Cause,

23

or upon termination of his employment by reason of his death or disability. No performance stock units will vest if Mr. Marlen retires, resigns or his employment is involuntarily terminated prior to a Change of Control or the end of the term of his Amended Employment Agreement unless such resignation, retirement or termination constitutes a Termination Without Cause. The Performance Stock Unit Agreement provides for a target vesting of 20,000 performance stock units, but the ultimate number will depend on the closing price of the Common Stock on the date of vesting. If the closing price is at or below \$75.00 per share, 8,000 units will vest. As the closing price increases, the number of units that vest will increase, up to a maximum of 24,000 if the closing price of the Common Stock on the date of vesting is at or above \$119.00 per share.

See the following section for the definitions of "Change of Control" and "Termination Without Cause."

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

Key Executive Long-Term Cash Incentive Plan. The LTIP provides that upon a Change of Control prior to the end of any three-year performance cycle, each participant shall be entitled to receive a cash award equal to the participant's target award for that performance cycle based on the assumption that the participant's annual base salary rate immediately prior to the Change of Control would remain constant for the remaining period of the performance cycle. The aggregate cash awards paid under the LTIP to any participant in any calendar year cannot exceed \$1,000,000.

Restricted Stock. The Company's restricted stock agreements provide that upon a Change in Control, all then unvested shares of restricted stock shall vest immediately.

Potential Payments to Named Executive Officers

Ralph S. Friedrich. On November 30, 2008, the last day of fiscal year 2008, Mr. Friedrich was a participant in the fiscal 2006-2008, 2007-2009 and 2008-2010 performance cycles under the LTIP. If there had been a Change of Control, for purposes of the LTIP, on that date, he would have received aggregate cash awards of \$135,000 under the LTIP. If there had also been a Change in Control, for purposes of the Company's restricted stock agreements, on November 30, 2008, Mr. Friedrich's 679 then-unvested shares of restricted stock would have immediately vested. Based on the \$53.88 closing price of the Common Stock on November 30, 2008, those shares would have had a value of \$36,585 on that date.

Mark J. Nowak. On November 30, 2008, Mr. Nowak was a participant in the fiscal 2006-2008, 2007-2009 and 2008-2010 performance cycles under the LTIP. If there had been a Change of Control, for purposes of the LTIP, on that date, he would have received aggregate cash awards of \$236,000 under the LTIP. If there had also been a Change in Control, for purposes of the Company's restricted stock agreements, on November 30, 2008, Mr. Nowak's 1,000 then-unvested shares of restricted stock would have immediately vested. Based on the \$53.88 closing price of the Common Stock on November 30, 2008, those shares would have had a value of \$53,880 on that date.

James R. McLaughlin. On November 30, 2008, Mr. McLaughlin was a participant in the fiscal 2006-2008, 2007-2009 and 2008-2010 performance cycles under the LTIP. If there had been a Change of Control, for purposes of the LTIP, on that date, he would have received aggregate cash awards of \$316,800 under the LTIP. If there had also been a Change in Control, for purposes of the Company's restricted stock agreements, on November 30, 2008, Mr. McLaughlin's 2,679 then-unvested shares of restricted stock would have immediately vested. Based on the \$53.88 closing price of the Common Stock on November 30, 2008, those shares would have had a value of \$144,345 on that date.

In June 2000, the Company entered into a Change of Control Agreement with Mr. McLaughlin. The agreement is automatically extended so that it always has a remaining term of two years. Under the terms of the agreement, Mr. McLaughlin's annual base salary rate is subject to future merit increases based on annual reviews by the Board. In the event of a Change of Control resulting in a Termination Without Cause within 12 months following such Change of Control, Mr. McLaughlin would be entitled to a severance benefit equal to two times the sum of (a) the higher of the annual base salary rate at the time of termination or \$135,000, and (b) the average annual bonus earned and determined for the two completed fiscal years immediately prior to such termination. If there had been a Termination Without Cause on November 30, 2008 within 12 months following a Change of Control, Mr. McLaughlin would have been entitled to a severance benefit of \$1,170,000. He would also have been entitled to a pro-rata portion of his target

24

annual bonus under the MIP, and to continued health and medical benefits coverage for two years at the same cost he was paying at the time of termination. Mr. McLaughlin is not obligated to seek other employment or take any other action by way of mitigation of the amounts payable to him pursuant to his Change of Control Agreement, and the amounts payable to him thereunder shall not be reduced or offset by any payments received by him on account of other employment.

Pursuant to his Change of Control Agreement, Mr. Laughlin has agreed that the amounts described in the preceding two paragraphs, and any other amounts payable to him as a result of a change in control of the Company, shall be reduced to the extent necessary so that no portion of such payments shall be subject to the "golden parachute" excise tax imposed by Section 4999 of the Code.

Gary Wagner. On November 30, 2008, Mr. Wagner was a participant in the fiscal 2006-2008, 2007-2009 and 2008-2010 performance cycles under the LTIP. If there had been a Change of Control, for purposes of the LTIP, on that date, he would have received aggregate cash awards of \$548,400 under the LTIP. If there had also been a Change in Control, for purposes of the Company's restricted stock agreements, on November 30, 2008, Mr. Wagner's 14,471 then-unvested shares of restricted stock would have immediately vested in full. Based on the \$53.88 closing price of the Common Stock on November 30, 2008, those shares would have had a value of \$779,697 on that date.

In September 1998, the Company entered into a Change of Control Agreement with Mr. Wagner. The agreement is automatically extended so that it always has a remaining term of two years. Under the terms of the agreement, Mr. Wagner's annual base salary rate is subject to future merit increases based on annual reviews by the Board. In the event of a Change of Control resulting in a Termination Without Cause within 12 months

following such Change of Control, Mr. Wagner would be entitled to a severance benefit equal to three times the sum of (a) the higher of the annual base salary rate at the time of termination or \$200,000, and (b) the average annual bonus earned and determined for the two completed fiscal years immediately prior to such termination. If there had been a Termination Without Cause on November 30, 2008 within 12 months following a Change of Control, Mr. Wagner would have been entitled to a severance benefit of \$3,621,000. He would also have been entitled to a pro-rata portion of his target annual bonus under the MIP, and to continued health and medical benefits coverage for two years at the same cost he was paying at the time of termination. Mr. Wagner is not obligated to seek other employment or take any other action by way of mitigation of the amounts payable to him pursuant to his Change of Control Agreement, and the amounts payable to him thereunder shall not be reduced or offset by any payments received by him on account of other employment.

Pursuant to his Change of Control Agreement, Mr. Wagner has agreed that the amounts described in the preceding two paragraphs, and any other amounts payable to him as a result of a change in control of the Company, shall be reduced to the extent necessary so that no portion of such payments shall be subject to the "golden parachute" excise tax imposed by Section 4999 of the Code.

James S. Marlen. On November 30, 2008, Mr. Marlen was a participant in the 2006-2008, 2007-2009 and 2008-2010 performance cycles under the LTIP. If there had been a Change of Control, for purposes of the LTIP, on that date, he would have received aggregate cash awards of \$145,120 under the LTIP. If there had also been a Change in Control, for purposes of the Company's restricted stock agreements, on November 30, 2008, Mr. Marlen's 17,431 then-unvested shares of restricted stock would have immediately vested in full. Based on the \$53.88 closing price of the Common Stock on November 30, 2008, those shares would have had a value of \$939,182 on that date. If there had also been a Change of Control, for purposes of Mr. Marlen's Amended Employment Agreement on November 30, 2008, his performance stock units would have vested on that date and, based on the \$53.88 closing price of the Common Stock on November 30, 2008, would have become the right to receive 8,000 shares of Common Stock, which would have had a value of \$431,040 on that date.

Pursuant to the terms of the Amended Employment Agreement and the Performance Stock Unit Agreement, in the event that Mr. Marlen's employment is Terminated Without Cause prior to March 31, 2010, and a Change of Control has not occurred within the 12 months preceding such termination, then (a) he will receive a lump-sum cash severance payment equal to 1.5 times the sum of his annual base salary rate in effect as of the date of termination and the highest MIP award paid to Mr. Marlen during the five years preceding the termination (but not less than 100% of his annual base salary rate as of the date of termination), (b) his then-unvested shares of restricted stock will immediately vest in full and (c) his performance stock units will immediately vest based on the closing price of the Common Stock on the date of termination. If such an event had occurred on November 30, 2008, then (A) Mr. Marlen would have

received a lump-sum cash severance payment of \$4,771,574, (B) his 17,431 then-unvested shares of restricted stock would have immediately vested, and based on the \$53.88 closing price of the Common Stock on November 30, 2008, those shares would have had a value of \$939,182 on that date, and (C) his performance stock units would have vested on that date and, based on the \$53.88 closing price of the Common Stock on November 30, 2008, would have become the right to receive 8,000 shares of Common Stock, which would have had a value of \$431,040 on that date. The Company would also have continued to provide health and medical benefits substantially similar to those in effect as of the date of such termination, with Mr. Marlen remaining obligated to pay contributions towards such coverage at the same level as immediately prior to such termination, until the earlier of (1) the second anniversary of such date of termination, or (2) the date Mr. Marlen became employed by another party (the Healthcare Benefits).

In the event that Mr. Marlen's employment is Terminated Without Cause prior to March 31, 2010, and a Change of Control has occurred within the 12 months preceding such termination, then he will receive (a) the lump-sum cash severance payment described in the preceding paragraph, provided that the amount of the payment will be reduced to equal the then-present value of such payment in accordance with Section 280G(d)(4) of the Code if such reduction is necessary in order for the Company to avoid making a gross-up payment to Mr. Marlen for taxes imposed under Section 4999 of the Code, and further reduced by the amount of compensation and other earned income, if any, earned by Mr. Marlen for services rendered to parties other than the Company during the remainder of the term of the Amended Employment Agreement as of the date of termination, and (b) the Healthcare Benefits. Under the terms of the Employment Agreement, Mr. Marlen would be reimbursed for any "golden parachute" excise taxes imposed under Section 4999 of the Code as a result of such lump-sum severance payment.

In the event that Mr. Marlen's employment is terminated due to death or long-term disability during the term of the Amended Employment Agreement, then (a) all of his then-unvested shares of restricted stock will vest in full, (b) his performance stock units will vest based on the closing price of the Common Stock on the date of termination and (c) he would remain eligible or entitled, as the case may be, for a prorated MIP award for the period prior to his death or disability.

In the event that Mr. Marlen voluntarily resigns or is terminated in a manner that does not qualify as a Termination Without Cause, he would be entitled to the Healthcare Benefits.

Mr. Marlen is not obligated to seek other employment or take any other action by way of mitigation of the amounts payable to him in connection with the amounts payable to him pursuant to the Amended Employment Agreement.

MISCELLANEOUS

Cost of Soliciting Proxies

The cost of soliciting proxies in the accompanying form has been or will be paid by the Company. In addition to solicitation by mail, arrangements will be made with brokerage houses and other custodians, nominees and fiduciaries to send proxy materials to beneficial owners, and the Company will, upon request, reimburse them for their reasonable expenses in so doing. Officers, directors and regular employees of the Company may request the return of proxies personally, by means of materials prepared for employee-stockholders or by telephone or telegram to the extent deemed appropriate by the Board. No additional compensation will be paid to such individuals for this activity. The extent to which this solicitation will be necessary will depend upon how promptly proxies are received; therefore, stockholders are urged to return their proxies without delay.

Stockholder Proposals

Proposals of stockholders to be considered for inclusion in the proxy statement and form of proxy relating to the 2010 Annual Meeting must be addressed to Ameron International Corporation, 245 South Los Robles Avenue, Pasadena, California 91101, Attention: Secretary, and must be received there no later than October 29, 2009.

The Company's Bylaws provide that for business to be brought before an annual meeting of stockholders by a stockholder, written notice must be received by the Secretary of the Company not less than 60 or more than 120 days prior to the annual meeting; provided that in the event the first public disclosure of the date of the meeting is made less than 65 days prior thereto, the required notice may be received within 10 days following such public disclosure. The information which must be included in the notice is specified in the applicable Bylaw, a copy of which may be obtained from the Secretary as set forth above under "The Board and Its Committees" Additional Information.

Householding of Proxy Materials

The SEC has adopted rules that permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as "householding," potentially provides extra convenience for stockholders and cost savings for companies. The Company and some brokers household proxy materials, delivering a single proxy statement to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker or the Company that they or the Company will be householding materials to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement, or if you are receiving multiple copies of the proxy statement and wish to receive only one, please notify your broker if your shares are held in a brokerage account or the Company if you hold common stock directly. Requests should be addressed to Ameron International Corporation, 245 South Los Robles Avenue, Pasadena, California 91101, Attention: Secretary, or by calling 626-683-4000.
