OSK CAPITAL III CORP.
(A Development Stage Company)
NOTES TO FINANCIAL STATEMENTS
September 30, 2004

1. Management's Representation of Interim Financial Information

The accompanying financial statements have been prepared by OSK Capital III Corp. without audit pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted as allowed by such rules and regulations, and management believes that the disclosures are adequate to make the information presented not misleading. These financial statements include all of the adjustments which, in the opinion of management, are necessary to a fair presentation of financial position and results of operations. All such adjustments are of a normal and recurring nature. These financial statements should be read in conjunction with the audited financial statements at December 31, 2003.

2. Changes in Stockholders' Equity

On September 14, 2004 the Company amended its Certificate of Incorporation to increase the number of authorized shares of common stock from 25,000,000 to 125,000,000.

On September 10, 2004, the Company issued 10,000 shares of its \$0.001 par value common stock to an unaffiliated individual for services valued at \$10.

There were no other issuances of common stock for the period ended September 30, 2004.

4

Item 2. Management's Discussion and Analysis Of Financial
Conditions and Results of Operations.

Liquidity and Capital Resources

The Company remains in the development stage and, since inception, has experienced no significant change in liquidity or capital resources or stockholder's equity other than the receipt of net proceeds in the amount of \$17,311 from its inside capitalization funds. The Company's balance sheet for the period ending September 30, 2004 reflects a current asset value and a total asset value of \$416, in the form of cash, as compared to \$39 in current and total assets as of September 30, 2003.

Edgar Filing: OSK CAPITAL III CORP - Form 10QSB

The Company's business plan is to seek, investigate, and, if warranted, acquire one or more properties or businesses, and to pursue other related activities intended to enhance shareholder value. The acquisition of a business opportunity may be made by purchase, merger, exchange of stock, or otherwise, and may encompass assets or a business entity, such as a corporation, joint venture, or partnership. The Company has very limited capital, and it is unlikely that the Company will be able to take advantage of more than one such business opportunity.

The Company will carry out its plan of business as discussed above. The Company cannot predict to what extent its liquidity and capital resources will be diminished prior to the consummation of a business combination or whether its capital will be further depleted by the operating losses (if any) of the business entity which the Company may eventually acquire.

Results of Operations

During the period from March 2, 1999 (inception) through September 30, 2004, the Company has engaged in no significant operations other than organizational activities, acquisition of capital and preparation for registration of its securities under the Securities Exchange Act of 1934, as amended. No revenues were received by the Company during this period.

For the current fiscal year, the Company anticipates incurring a loss as a result of expenses associated with compliance with reporting requirements and expenses associated with locating and evaluating acquisition candidates. The Company anticipates that until a business combination is completed with an acquisition candidate, it will not generate revenues and may continue to operate at a loss after completing a business combination, depending upon the performance of the acquired business.

For the quarter ended September 30, 2004 and 2003, the Company showed net losses of \$1,010 and \$0, respectively. From inception the Company has experienced losses of \$78,805, of which \$60,910 was settled for shares of stock in the Company. The increase in net loss is attributed primarily to timing differences of costs related to the compliance with reporting standards.

Need for Additional Financing

The Company believes that its existing capital will be sufficient to meet the Company's cash needs, including the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, as amended, for a period of approximately one year. Accordingly, in the event the Company is able to complete a business combination during this period, it anticipates that its existing capital will be sufficient to allow it to accomplish the goal of completing a business combination. There is no assurance, however, that the available funds will ultimately prove to be adequate to allow it to complete a business combination, and once a business combination is completed, the Company's needs for additional financing are likely to increase substantially.

No commitments to provide additional funds have been made by management or other stockholders. Accordingly, there can be no assurance that any additional funds will be available to the Company to allow it to cover its expenses.

Irrespective of whether the Company's cash assets prove to be

Edgar Filing: OSK CAPITAL III CORP - Form 10QSB

inadequate to meet the Company's operational needs, the Company might seek to compensate providers of services by issuances of stock in lieu of cash.

Item 3. Controls and Procedures

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"). Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. There was no change in the Company's internal control over financial reporting during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
