APOLLO INVESTMENT CORPORATION

SCHEDULE OF INVESTMENTS (unaudited) (continued)

June 30, 2015

(in thousands)

(1) Fair value is determined in good faith by or under the direction of the Board of Directors of the Company (see note 2).

(2) Fidji Luxco (BC) S.C.A. is a EUR denominated investment and AMP Solar (UK) Limited is a GBP denominated investment.

(3) Denotes investments where the governing documents of the entity preclude the Company from controlling management of the entity and therefore the Company has determined that the entity is not a controlled affiliate.

(4) Denotes investments in which we are an "Affiliated Person", as defined in the 1940 Act, due to holding the power to vote or owning 5% or more of the outstanding voting securities of the investment but not controlling the company.

(4) Fair value as of March 31, 2015 and June 30, 2015 along with transactions during the three months ended June 30, 2015 in these Affiliated investments are as follows:

Name of Issue	Fair Value at March 31, 2015	Gross Additions (Cost)	Gross Reductions (Cost)	Change in Unrealized Gain (Loss)	Fair Value at June 30, 2015	Net Realized Gain (Loss)	Interest/Dividend/ Other Income

Gross additions includes increases in the cost basis of investments resulting from new portfolio investments, PIK interest or dividends, the accretion of discounts, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company into this category from a different category.

Gross reductions include decreases in the cost basis of investments resulting from principal collections related to investment repayments or sales, the amortization of premiums, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company out of this category into a different category.

As of June 30, 2015, the Company has a 28%, 26%, 32%, 32%, 100%, 100%, 97%, 98%, and 26% equity ownership interest in Generation Brands Holdings, Inc. (Quality Homes), Highbridge Loan Management, Ltd., Ivy Hill Middle Market Credit Fund IX, Ltd., Ivy Hill Middle Market Credit Fund X, Ltd., Golden Hill CLO I, LLC, Golden Bear Warehouse, LLC, MCF CLO I, LLC, MCF CLO III, LLC, and Slater Mill Loan Fund LP, respectively. Investments that the Company owns greater than 25% of the equity and are shown in “Non-Controlled/Affiliated” have governing documents that preclude the Company from controlling management of the entity and therefore the Company disclaims that the entity is a controlled affiliate.

APOLLO INVESTMENT CORPORATION

SCHEDULE OF INVESTMENTS (unaudited) (continued)

June 30, 2015

(in thousands)

- (6) Aggregate gross unrealized gain for federal income tax purposes is \$157,670; aggregate gross unrealized loss for federal income tax purposes is \$267,828. Net unrealized loss is \$110,158 based on a tax cost of \$3,424,073.
- (7) Substantially all securities are pledged as collateral to our multicurrency revolving credit facility (the "Facility"). As such these securities are not available as collateral to our general creditors.
- (8) The negative fair value is the result of the unfunded commitment or letter of credit being valued below par.
- (9) As a result of the amendment of our Senior Secured Facility on April 24, 2015, the industry classifications were updated in the Schedule of Investments as of June 30, 2015.
- (10) The percentage is calculated over net assets.
- (11) These securities are exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions that are exempt from registration, normally to qualified institutional buyers.
- (12) Denominated in USD unless otherwise noted, Euro ("€"), British Pound ("£"), and Canadian Dollar ("CAD").
- (13) Non-income producing security.
- (14) Non-accrual status (see note 2).
- (15) The investment has a put option attached to it and the combined instrument has been recorded in its entirety at fair value as a hybrid instrument in accordance with ASC 815-15-25-4 with subsequent changes in fair value charged or credited to investment gains/losses for each period.
- (16) Denotes debt securities where the Company owns multiple tranches of the same broad asset type but whose security characteristics differ. Such differences may include level of subordination, call protection and pricing, and differing interest rate characteristics, among other factors. Such factors are usually considered in the determination of fair values.
- (17) Investments that the Company has determined are not "qualifying assets" under Section 55(a) of the 1940 Act. Under the 1940 Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets. The status of these assets under the 1940 Act is subject to change. The Company monitors the status of these assets on an ongoing basis.
- (18) In addition to the interest earned based on the stated rate of this loan, the Company may be entitled to receive additional interest as a result of its arrangement with other lenders in a syndication.
- (19) This investment represents a leveraged subordinated interest in a trust that holds one foreign currency denominated bond and a derivative instrument.

N/A Not applicable.

See notes to financial statements.

- (1) Fair value is determined in good faith by or under the direction of the Board of Directors of the Company (see note 2).
- (2) Fidji Luxco (BC) S.C.A. is a EUR denominated investment and AMP Solar (UK) Limited is a GBP denominated investment.
- (3) Denotes investments where the governing documents of the entity preclude the Company from controlling management of the entity and therefore the Company has determined that the entity is not a controlled affiliate.
- (4) Denotes investments in which we are an "Affiliated Person", as defined in the 1940 Act, due to owning or holding the power to vote 5% or more of the outstanding voting securities of the investment but not controlling the company. Fair value as of March 31, 2015 and March 31, 2014 along with transactions during the fiscal year ended March 31, 2015 in these Affiliated investments are as follows:

Name of Issue	Fair Value at March 31, 2014	Gross Additions (Cost)	Gross Reductions (Cost)	Change in Unrealized Gain (Loss)	Fair Value at March 31, 2015	Net Realized Gain (Loss)	Interest/Dividend/ Other Income

SCHEDULE OF INVESTMENTS (continued)

March 31, 2015

(in thousands)

Gross additions includes increases in the cost basis of investments resulting from new portfolio investments, PIK interest or dividends, the accretion of discounts, the exchange of one or more existing securities for one or more new securities, the movement of an existing portfolio company into this category from a different category, and the transfers of one or more securities into non-controlled/affiliated. Transfers are assumed to have occurred at the end of the period.

Gross reductions include decreases in the cost basis of investments resulting from principal collections related to investment repayments or sales, the amortization of premiums, the exchange of one or more existing securities for one or more new securities, the movement of an existing portfolio company out of this category into a different category, and the transfers of one or more securities out of non-controlled/affiliated. Transfers are assumed to have occurred at the end of the period.

As of March 31, 2015, the Company has a 28%, 100%, 100%, 26%, 32%, 36%, 97%, 98% and 26% equity ownership interest in Generation Brands Holdings, Inc., Golden Bear Warehouse LLC, Golden Hill CLO I, LLC, Highbridge Loan Management, Ltd., Ivy Hill Middle Market Credit Fund IX, Ltd, LVI Group Investments, LLC, MCF CLO I LLC, MCF CLO III LLC, and Slater Mill Loan Fund LP, respectively. Investments that the Company owns greater than 25% of the equity and are shown in "Non-Controlled/Affiliated" have governing documents that preclude the Company from controlling management of the entity and therefore the Company has determined that the entity is not a controlled affiliate.

Denotes investments in which we are deemed to exercise a controlling influence over the management or policies of a company, as defined in the 1940 Act, due to beneficially owning, either directly or through one or more (5) controlled companies, more than 25% of the outstanding voting securities of the investment. Fair value as of March 31, 2015 and March 31, 2014 along with transactions during the fiscal year ended March 31, 2015 in these Controlled investments are as follows:

Name of Issue	Fair Value at March 31, 2014	Gross Additions (Cost)	Gross Reductions (Cost)	Change in Unrealized Gain (Loss)	Fair Value at March 31, 2015	Net Realized Gain (Loss)	Interest/Dividend/ Other Income

APOLLO INVESTMENT CORPORATION
SCHEDULE OF INVESTMENTS (continued)

March 31, 2015

(in thousands)

- (6) Aggregate gross unrealized gain for federal income tax purposes is \$143,557; aggregate gross unrealized loss for federal income tax purposes is \$302,058. Net unrealized loss is \$158,501 based on a tax cost of \$3,508,328.
- (7) Substantially all securities are pledged as collateral to our multicurrency revolving credit facility (the "Facility"). As such these securities are not available as collateral to our general creditors.
- (8) The negative fair value is the result of the unfunded commitment or letter of credit being valued below par.
- (9) These letters of credit represent multiple commitments made on various dates. As a result, maturity dates may vary and a maturity range has been provided.
- (10) The percentage is calculated over net assets.
- (11) These securities are exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions that are exempt from registration, normally to qualified institutional buyers.
- (12) Denominated in USD unless otherwise noted, Euro ("€"), British Pound ("£"), and Canadian Dollar ("CAD").
- (13) Non-income producing security.
- (14) Non-accrual status (see note 2).
The investment has a put option attached to it and the combined instrument has been recorded in its entirety at fair value as a hybrid instrument in accordance with ASC 815-15-25-4 with subsequent changes in fair value charged or credited to investment gains/losses for each period.
- (16) Denotes debt securities where the Company owns multiple tranches of the same broad asset type but whose security characteristics differ. Such differences may include level of subordination, call protection and pricing, and differing interest rate characteristics, among other factors. Such factors are usually considered in the determination of fair values.
Investments that the Company has determined are not "qualifying assets" under Section 55(a) of the 1940 Act. Under the 1940 Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets. The status of these assets under the 1940 Act is subject to change. The Company monitors the status of these assets on an ongoing basis.
- (18) Generation Brands Holdings, Inc. was previously incorrectly reported as a controlled investment in the financial statements for the year ended March 31, 2014. After further assessment, the Company does not control more than 25% of the voting power and has no power to direct or cause the direction of the policies and management of the company. As such, \$9,542 of the fair value of Generation Brands Holdings, Inc., Common Stock was transferred from "Controlled" to "Non-Controlled/Affiliated" in 2015 to correctly reflect Generation Brands Holdings, Inc. as a non-controlling/ affiliated investment. Management evaluated the impact of the error to the financial statements and determined that this adjustment was not material to any prior annual or interim periods, and the resulting correction is not material to the current financial statements.
As a result of a restructuring in April 2014, the Company's investment was moved to LVI Group Investments, LLC from LVI Services Inc. LVI Group Investments, LLC further invested in NorthStar Group Holdings. The Company no longer controls more than 25% of the voting power and has no power to direct or cause the direction of the policies and management of NorthStar Group Holdings. As such, \$44,220 of the fair value of LVI Services, Inc., Common Stock, was transferred from "Controlled" to "Non-Controlled/Affiliated" in LVI Group Investments, LLC prior to the fiscal year ended March 31, 2015.
- (19) This investment represents a leveraged subordinated interest in a trust that holds one foreign currency denominated bond and a derivative instrument.
- (20) AMP Solar (UK) Limited was previously incorrectly reported as a controlled investment in the financial statements for the year ended March 31, 2015. After further assessment, it was determined that the Company does not control more than 25% of the voting power and has no power to direct or cause the direction of the policies

and management of the company. As such, \$65,171 of the ending fair value as of March 31, 2015 of AMP Solar (UK) Limited, Class A Preference Shares was reclassified from "Controlled" to "Non-Controlled/Affiliated" to correctly reflect AMP Solar (UK) Limited as a non-controlling/ affiliated investment. Management evaluated the impact of the error to the financial statements and determined that this adjustment was not material to any prior annual or interim periods, and the resulting correction is not material to the current financial statements.

N/A Not applicable.

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS

(in thousands except share and per share amounts)

Note 1. Organization

Apollo Investment Corporation (“Apollo Investment”, the “Company”, “AIC”, “we”, “us”, or “our”), a Maryland corporation incorporated on February 2, 2004, is a closed-end, externally managed, non-diversified management investment company that has elected to be treated as a business development company (“BDC”) under the Investment Company Act of 1940 (the “1940 Act”) and operate in a manner so as to qualify for the tax treatment applicable to RICs. In addition, for tax purposes we have elected to be treated as a regulated investment company (“RIC”), under the Internal Revenue Code of 1986, as amended (“the Code”). Our investment objective is to generate current income and capital appreciation. We invest primarily in various forms of debt investments, including secured and unsecured debt, loan investments, and/or equity in private middle-market companies. We may also invest in the securities of public companies and in structured products and other investments such as collateralized loan obligations and credit-linked notes (“CLOs” and “CLNs”, respectively). Our portfolio is comprised primarily of investments in debt, including secured and unsecured debt of private middle-market companies that, in the case of senior secured loans, generally are not broadly syndicated and whose aggregate tranche size is typically less than \$250 million. Our portfolio also includes equity interests such as common stock, preferred stock, warrants or options.

Apollo Investment commenced operations on April 8, 2004 receiving net proceeds of \$870,000 from its initial public offering by selling 62 million shares of common stock at a price of \$15.00 per share. Since then, and through June 30, 2015, we have raised approximately \$2,210,099 in net proceeds from additional offerings of common stock.

Note 2. Significant Accounting Policies

The following is a summary of the significant accounting and reporting policies used in preparing the financial statements.

Basis of Presentation and Use of Estimates

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The Company is an investment company following accounting and reporting guidance in Accounting Standards Codification (“ASC”) 946. In accordance with Regulation S-X, the Company generally will not consolidate its interest in any company other than in investment company subsidiaries and controlled operating companies substantially all of whose business consists of providing services to the Company. Consequently, the Company has not consolidated special purpose entities through which the special purpose entity acquires and holds investments subject to financing with third parties. As of June 30, 2015, the Company did not have any subsidiaries or controlled operating companies that were consolidated (see additional information within note 5). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reported periods. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ materially.

Interim financial statements are prepared in accordance with GAAP for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Article 6 or 10 of Regulation S-X, as appropriate. In the opinion of management, all adjustments, which are of a normal recurring nature, considered necessary for the fair statement of financial statements for the interim period, have been included. These financial statements should be read in conjunction with the audited financial statements and accompanying notes included in the Annual Report on Form 10-K for the year ended March 31, 2015. Certain amounts have been reclassified on the Statement of Assets and Liabilities and Statement of Operations. For the year ended March 31, 2015, \$65,171 of fair value previously classified as controlled investments was reclassified to non-controlled/affiliated investments. For the three months ended June 30, 2014, \$3,121 of unrealized gain (loss) previously classified as unrealized gain (loss) from controlled investments was reclassified to unrealized gain (loss) from non-controlled/affiliated investments. For the three months ended June 30, 2014, \$313 of investment income previously classified as investment income from controlled

investments was reclassified to investment income from non-controlled/affiliated investments.

Cash and Cash Equivalents

The Company defines cash equivalents as securities that are readily convertible into known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates.

Generally, only securities with a maturity of three months or less from the date of purchase would qualify, with limited exceptions. The Company deems that certain U.S. Treasury bills, repurchase agreements and other high-quality, short-term debt securities would qualify as cash equivalents.

Table of Contents

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

Fair Value Measurements

The Company follows guidance in ASC 820, Fair Value Measurement, where fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are determined within a framework that establishes a three-tier hierarchy which maximizes the use of observable market data and minimizes the use of unobservable inputs to establish a classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, such as the risk inherent in a particular valuation technique used to measure fair value using a pricing model and/or the risk inherent in the inputs for the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the information available. The inputs or methodology used for valuing assets or liabilities may not be an indication of the risks associated with investing in those assets or liabilities. Under procedures established by our board of directors, we value investments, including certain secured debt, unsecured debt and other debt securities with maturities greater than 60 days, for which market quotations are readily available, at such market quotations (unless they are deemed not to represent fair value). We attempt to obtain market quotations from at least two brokers or dealers (if available, otherwise from a principal market maker or a primary market dealer or other independent pricing service). We utilize mid-market pricing as a practical expedient for fair value unless a different point within the range is more representative. If and when market quotations are unavailable or are deemed not to represent fair value, we typically utilize independent third party valuation firms to assist us in determining fair value. Accordingly, such investments go through our multi-step valuation process as described below. In each case, our independent third party valuation firms consider observable market inputs together with significant unobservable inputs in arriving at their valuation recommendations for such investments. Debt investments with remaining maturities of 60 days or less may each be valued at cost with interest accrued or discount amortized to the date of maturity (although they are typically valued at available market quotations), unless such valuation, in the judgment of our investment adviser, does not represent fair value. In this case such investments shall be valued at fair value as determined in good faith by or under the direction of our board of directors including using market quotations where available. Investments that are not publicly traded or whose market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of our board of directors. Such determination of fair values may involve subjective judgments and estimates. With respect to investments for which market quotations are not readily available or when such market quotations are deemed not to represent fair value, our board of directors has approved a multi-step valuation process each quarter, as described below:

- our quarterly valuation process begins with each portfolio company or investment being initially valued by the
- (1) investment professionals of our investment adviser responsible for the portfolio investment which is responsible for the portfolio investment;
- (2) preliminary valuation conclusions are then documented and discussed with senior management of our investment adviser;
- (3) independent valuation firms are engaged by our board of directors to conduct independent appraisals by reviewing our investment adviser's preliminary valuations and then making their own independent assessment; the audit committee of the board of directors reviews the preliminary valuation of our investment adviser and the
- (4) valuation prepared by the independent valuation firm and responds to the valuation recommendation of the independent valuation firm to reflect any comments; and the board of directors discusses valuations and determines in good faith the fair value of each investment in our
- (5) portfolio based on the input of our investment adviser, the applicable independent valuation firm, third party pricing services and the audit committee.

Investments in all asset classes are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that we may take into account in fair value pricing our investments include, as relevant: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, seniority of investment in the investee company's capital structure, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company

Table of Contents

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

does business, comparisons of financial ratios of peer companies that are public, M&A comparables, our principal market (as the reporting entity) and enterprise values, among other factors. When readily available, broker quotations and/or quotations provided by pricing services are considered as an input in the valuation process. For the three months ended June 30, 2015, there has been no change to the Company's valuation techniques and related inputs considered in the valuation process.

ASC 820 classifies the inputs used to measure these fair values into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, accessible by the Company at the measurement date.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable inputs for the asset or liability.

In all cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to each investment. The level assigned to the investment valuations may not be indicative of the risk or liquidity associated with investing in such investments. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may differ materially from the values that would be received upon an actual disposition of such investments.

Realized Gains and Losses

Security transactions are accounted for on the trade date. Realized gains or losses on investments are calculated by using the specific identification method. Securities that have been called by the issuer are recorded at the call price on the call effective date at the call price.

Investment Income Recognition

The Company records interest and dividend income, adjusted for amortization of premium and accretion of discount, on an accrual basis. Some of our loans and other investments, including certain preferred equity investments, may have contractual payment-in-kind ("PIK") interest or dividends. PIK interest and dividends computed at the contractual rate are accrued into income and reflected as receivable up to the capitalization date. PIK investments offer issuers the option at each payment date of making payments in cash or in additional securities. When additional securities are received, they typically have the same terms, including maturity dates and interest rates as the original securities issued. On these payment dates, the Company capitalizes the accrued interest or dividends receivable (reflecting such amounts as the basis in the additional securities received). PIK generally becomes due at maturity of the investment or upon the investment being called by the issuer. At the point the Company believes PIK is not fully expected to be realized, the PIK investment will be placed on non-accrual status. When a PIK investment is placed on non-accrual status, the accrued, uncapitalized interest or dividends are reversed from the related receivable through interest or dividend income, respectively. The Company does not reverse previously capitalized PIK interest or dividends. Upon capitalization, PIK is subject to the fair value estimates associated with their related investments. PIK investments on non-accrual status are restored to accrual status if the Company believes that PIK is expected to be realized. For the three months ended June 30, 2015, PIK income totaled \$8,077 on total investment income of \$101,666.

Investments that are expected to pay regularly scheduled interest and/or dividends in cash are generally placed on non-accrual status when principal or interest/dividend cash payments are past due 30 days or more and/or when it is no longer probable that principal or interest/dividend cash payments will be collected. Such non-accrual investments are restored to accrual status if past due principal and interest or dividends are paid in cash, and in management's judgment, are likely to continue timely payment of their remaining interest or dividend obligations. Interest or dividend cash payments received on non-accrual designated investments may be recognized as income or applied to principal depending upon management's judgment.

Loan origination fees, original issue discount, and market discounts are capitalized and amortized into income using the interest method or straight-line, as applicable. Upon the prepayment of a loan, any unamortized loan origination fees, OID, or market discounts are recorded as interest income. We record prepayment premiums on loans and other investments as interest income when we receive such amounts. Other income generally includes amendment fees, bridge fees, and structuring fees which are recorded when earned.

The Company records as dividend income the accretable yield from its beneficial interests in structured products such as CLOs based upon a number of cash flow assumptions that are subject to uncertainties and contingencies. Such assumptions include the

Table of Contents

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

rate and timing of principal and interest receipts (which may be subject to prepayments and defaults) of the underlying pool of assets. These assumptions are updated on at least a quarterly basis to reflect changes related to a particular security, actual historical data, and market changes. A structured product investment typically has an underlying pool of assets. Payments on structured product investments are and will be payable solely from the cash flows from such assets. As such, any unforeseen event in these underlying pools of assets might impact the expected recovery of principal and future accrual of income.

Expenses

Expenses include management fees, performance-based incentive fees, insurance expenses, administrative service fees, legal fees, directors' fees, audit and tax service expenses, third-party valuation fees, and other general and administrative expenses. Expenses are recognized on an accrual basis.

Dividends to Common Stockholders

Dividends and distributions to common stockholders are recorded as of the record date. The amount to be paid out as a dividends is determined by the board of directors each quarter. Net realized capital gains, if any, are generally distributed or deemed distributed at least annually.

Income Taxes

The Company complies with the applicable provisions of the Code pertaining to regulated investment companies that make distributions of taxable income sufficient to relieve it of substantially all federal income taxes. The Company, at its discretion, may carry forward taxable income in excess of calendar year distributions and pay a 4% excise tax on this income. The Company will accrue excise tax on estimated excess taxable income, if any, as required.

Book and tax basis differences relating to stockholder dividends and distributions and other permanent book and tax differences are reclassified among the Company's capital accounts. In addition, the character of income and gains to be distributed is determined in accordance with income tax regulations that may differ from GAAP.

Foreign Currency

The accounting records of the Company are maintained in U.S. dollars. All assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the rate of exchange of such currencies against U.S. dollars on the date of valuation. The Company does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. The Company's investments in foreign securities may involve certain risks, including without limitation: foreign exchange restrictions, expropriation, taxation or other political, social or economic risks, all of which could affect the market and/or credit risk of the investment. In addition, changes in the relationship of foreign currencies to the U.S. dollar can significantly affect the value of these investments and therefore the earnings of the Company.

Investment Transactions

For the three months ended June 30, 2015 and June 30, 2014, purchases of long term investments on a trade date basis were \$509,348 and \$649,512, respectively. For the three months ended June 30, 2015 and June 30, 2014 sales of long term investments on a trade date basis were \$532,785 and \$516,826, respectively.

Equity Offering Expenses

The Company records expenses related to shelf filings and applicable offering costs as deferred financing costs in the Statement of Assets and Liabilities. To the extent such expenses relate to equity offerings, these expenses are charged as a reduction of capital upon utilization, in accordance with ASC 946-20-25.

Debt Issuance Costs

The Company records origination and other expenses related to its debt obligations as deferred financing costs in the Statement of Assets and Liabilities. These expenses are deferred and amortized using the straight-line method over the stated life of the obligation which approximates the effective yield method.

Derivative Instruments

Table of Contents

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

The Company may make investments in derivative instruments. The derivative instruments are fair valued with changes to the fair value reflected in net unrealized gain/loss during the reporting period and recorded within realized gain/loss upon exit and settlement of the contract. The accrual of periodic payment settlements is recorded in net change in unrealized gain/loss and subsequently recorded as net realized gain or loss on the interest settlement date. The Company may enter into forward exchange contracts in order to hedge against foreign currency risk. These contracts are marked-to-market by recognizing the difference between the contract exchange rate and the current market rate as unrealized gain or loss. Realized gains or losses are recognized when contracts are settled.

Recent Accounting Pronouncements

In May 2014, the FASB issued guidance to establish a comprehensive and converged standard on revenue recognition to enable financial statement users to better understand and consistently analyze an entity's revenue across industries, transactions, and geographies. The core principle of the new guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The new guidance also specifies the accounting for certain costs to obtain or fulfill a contract with a customer. The new guidance requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. Qualitative and quantitative information is required to be disclosed about: (1) contracts with customers, (2) significant judgments and changes in judgments, and (3) assets recognized from costs to obtain or fulfill a contract. The new guidance will apply to all entities. In July 2015, the FASB voted to approve a one-year deferral of the effective date of the new revenue guidance. The FASB expects to issue its final standard formally amending the effective date by the end of the third quarter 2015. The amended guidance would permit public business entities to apply the new revenue guidance to interim reporting periods within annual reporting periods beginning after December 15, 2017 (i.e., beginning in the first interim period within the year of adoption). Public business entities would be permitted to apply the new revenue guidance early, but not before the original public business entity effective date (i.e., annual periods beginning after December 15, 2016). Public business entities choosing this option will apply the new revenue guidance to all interim reporting periods within the year of adoption. This guidance is not expected to have an impact on the financial statements of the Company.

In August 2014, the FASB issued guidance regarding management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. The new guidance requires that management evaluate each annual and interim reporting period whether conditions exist that give rise to substantial doubt about the entity's ability to continue as a going concern within one year from the financial statement issuance date, and if so, provide related disclosures. Disclosures are only required if conditions give rise to substantial doubt, whether or not the substantial doubt is alleviated by management's plans. No disclosures are required specific to going concern uncertainties if an assessment of the conditions does not give rise to substantial doubt. Substantial doubt exists when conditions and events, considered in the aggregate, indicate that it is probable that a company will be unable to meet its obligations as they become due within one year after the financial statement issuance date. If substantial doubt is alleviated as a result of the consideration of management's plans, a company should disclose information that enables users of financial statements to understand all of the following (or refer to similar information disclosed elsewhere in the footnotes): 1) principal conditions that initially give rise to substantial doubt, 2) management's evaluation of the significance of those conditions in relation to the company's ability to meet its obligations, and 3) management's plans that alleviated substantial doubt. If substantial doubt is not alleviated after considering management's plans, disclosures should enable investors to understand the underlying conditions, and include the following: 1) a statement indicating that there is substantial doubt about the company's ability to continue

as a going concern within one year after the issuance date, 2) the principal conditions that give rise to substantial doubt, 3) management's evaluation of the significance of those conditions in relation to the company's ability to meet its obligations, and 4) management plans that are intended to mitigate the adverse conditions. The new guidance applies to all companies. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2016. Early adoption is permitted. This guidance is not expected to have an impact on the financial statements of the Company.

In February 2015, the FASB issued new guidance which changes the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. Existing guidance includes different requirements for performing a consolidation analysis if, among other factors, the entity under evaluation is any one of the following: (1) a legal entity that qualifies for the indefinite deferral under the amended consolidation rules, (2) a legal entity that is within the scope of the amended

Table of Contents

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

consolidation rules, or (3) a limited partnership or similar entity that is considered a voting interest entity. Under the new guidance, all reporting entities are within the scope of the new standard, including limited partnerships and similar legal entities, unless a scope exception applies. The presumption that a general partner controls a limited partnership has been eliminated. In addition, fees paid to decision makers that meet certain conditions (e.g., are both customary and commensurate with the level of effort required for the services provided) no longer cause decision makers to consolidate variable interest entities (each a "VIE") in certain instances. The new guidance places more emphasis in the consolidation evaluation on variable interests other than the fee arrangements such as principal investment risk (for example, debt or equity interests), guarantees of the value of the assets or liabilities of the VIE, written put options on the assets of the VIE, or similar obligations, including some liquidity commitments or agreements (explicit or implicit). Additionally, the new guidance reduces the extent to which related party arrangements cause an entity to be considered a primary beneficiary. The indefinite deferral of the amended consolidation rules for certain investment funds has been eliminated and a scope exception from the new consolidation standard has been added for reporting entities with interests in legal entities that are required to comply with or operate in accordance with requirements that are similar to those in Rule 2a-7 of the Investment Company Act of 1940 for registered money market funds. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period, and adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. A reporting entity may apply the new guidance using either a modified retrospective approach by recording a cumulative-effect adjustment to equity as of the beginning of the fiscal year of adoption or by applying the amendments retrospectively. The Company is in the process of evaluating the impact that this new guidance will have on its financial statements.

In April 2015, the FASB issued guidance to simplify the presentation of debt issuance costs. The guidance requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability (i.e., versus being capitalized as an asset and amortized as required under existing guidance), consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the new guidance (i.e., debt issuance costs will continue to be amortized as an increase to interest expense). The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015. Early adoption is permitted for financial statements that have not been previously issued. An entity should apply the new guidance on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. The Company is in the process of evaluating the impact that this new guidance will have on its financial statements.

In May 2015, the FASB issued guidance to eliminate diversity in practice related to how certain investments measured at net asset value are categorized within the fair value hierarchy. The guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. A reporting entity should continue to disclose information on investments for which fair value is measured at net asset value (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from net asset value. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015. A reporting entity should apply the amendments retrospectively to all periods presented. The retrospective approach requires that an investment for which fair value is measured using the net asset value per share practical expedient be removed from the fair value hierarchy in all periods presented in an entity's financial statements. Earlier application is permitted. This guidance is not expected to have an impact on the financial statements of the Company.

Note 3. Agreements

The Company has an Investment Advisory and Management Agreement (the "Investment Advisory Agreement") with Apollo Investment Management, L.P. (the "Investment Adviser" or "AIM"), under which the Investment Adviser, subject

to the overall supervision of our board of directors, manages the day-to-day operations of, and provides investment advisory services to the Company. For providing these services, the Investment Adviser receives a fee from the Company, consisting of two components — a base management fee and a performance-based incentive fee. The base management fee is determined by taking the average value of our gross assets, net of the average of any payable for cash equivalents at the end of the two most recently completed calendar quarters calculated at an annual rate of 2.00%. The incentive fee has two parts, as follows: one part is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income for the immediately preceding calendar quarter. For this purpose, pre-incentive fee net investment income means interest income, dividend income and any other income including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, any expenses payable under an administration agreement (the

Table of Contents

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

“Administration Agreement”) between the Company and Apollo Investment Administration, LLC (the “Administrator”), and any interest expense and dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income does not include any realized capital gains computed net of all realized capital losses and unrealized capital depreciation. Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets at the end of the immediately preceding calendar quarter, is compared to the rate of 1.75% per quarter (7% annualized). For the period between April 2, 2012 and March 31, 2016, AIM has agreed to voluntarily waive the management and incentive fees on the common shares issued on April 2, 2012 and May 20, 2013.

The Investment Adviser has also entered into an investment sub-advisory agreement with CION Investment Corporation ("CION") (the "Sub-Advisory Agreement") under which AIM receives management and incentive fees from CION in connection with the investment advisory services provided. For the period between April 1, 2014 and March 31, 2016, the Investment Adviser has agreed to waive all base management fees receivable under the Investment Advisory Agreement with the Company in the amount equal to the amount actually received by AIM from CION less the fully allocated incremental expenses accrued by AIM.

The Company pays the Investment Adviser an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows: (1) no incentive fee in any calendar quarter in which our pre-incentive fee net investment income does not exceed 1.75%, which we commonly refer to as the performance threshold; (2) 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds 1.75% but does not exceed 2.1875% in any calendar quarter; and (3) 20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.1875% in any calendar quarter. These calculations are appropriately prorated for any period of less than three months. The effect of the fee calculation described above is that if pre-incentive fee net investment income is equal to or exceeds 2.1875%, the Investment Adviser will receive a fee of 20% of our pre-incentive fee net investment income for the quarter.

The second part of the incentive fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Advisory Agreement, as of the termination date) and will equal 20% of our cumulative realized capital gains less cumulative realized capital losses, unrealized capital loss (unrealized loss on a gross investment-by-investment basis at the end of each calendar year) and all capital gains upon which prior performance-based capital gains incentive fee payments were previously made to the Investment Adviser. For accounting purposes only, we are required under GAAP to accrue a theoretical capital gains incentive fee based upon net realized capital gains and unrealized capital gain and loss on investments held at the end of each period.

The accrual of this theoretical capital gains incentive fee assumes all unrealized capital gain and loss is realized in order to reflect a theoretical capital gains incentive fee that would be payable to the Investment Adviser at each measurement date. There was no accrual for theoretical capital gains incentive fee for the three months ended June 30, 2015 and 2014. It should be noted that a fee so calculated and accrued would not be payable under the Investment Advisers Act of 1940 (“Advisers Act”) or the Investment Advisory Agreement, and would not be paid based upon such computation of capital gains incentive fees in subsequent periods. Amounts actually paid to the Investment Adviser will be consistent with the Advisers Act and formula reflected in the Investment Advisory Agreement which specifically excludes consideration of unrealized capital gain.

For the time period between April 1, 2013 and March 31, 2016, AIM has agreed to be paid the portion of the performance-based incentive fee that is attributable to deferred interest, such as PIK, when the Company receives such interest in cash. The accrual of incentive fees shall be reversed if such interest is reversed in connection with any write off or similar treatment of the investment. Upon payment of the deferred incentive fee, AIM will also receive interest on the deferred interest at an annual rate of 3.25% for the period between the date in which the incentive fee is earned and the date of payment.

For the three months ended June 30, 2015 and 2014, the Company recognized \$17,352 and \$18,111, respectively, of base management fees and \$11,867 and \$12,467, respectively, of performance-based incentive fees. For the three months ended June 30, 2015 and 2014, total management fees waived were \$3,152 and \$2,707, respectively. For the three months ended June 30, 2015 and 2014, total incentive fees waived were \$1,363 and \$1,445, respectively.

The amount of the incentive fees on PIK income for which payments have been deferred for the three months ended June 30, 2015 and 2014 were \$1,426 and \$1,206, respectively. The cumulative incentive fee on PIK income included in management and performance-based incentive fee payable line of the Statement of Assets and Liabilities for the three months ended June 30, 2015 and 2014 were \$6,778 and \$8,141, respectively.

Table of Contents

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

The Company has also entered into an Administration Agreement with the Administrator under which the Administrator provides administrative services for the Company. For providing these services, facilities and personnel, the Company reimburses the Administrator for the allocable portion of overhead and other expenses incurred by the Administrator and requested to be reimbursed by the Administrator in performing its obligations under the Administration Agreement. The expenses include rent and the Company's allocable portion of its chief financial officer and chief compliance officer and their respective staffs. The Administrator will also provide, on our behalf, managerial assistance to those portfolio companies to which the Company is required to provide such assistance. For the three months ended June 30, 2015 and June 30, 2014, the Company recognized expenses under the Administration Agreement of \$1,434 and \$1,433, respectively.

Merx Aviation Finance, LLC ("Merx"), a wholly-owned portfolio company of the Company, has also entered into an administration agreement ("Merx Administration Agreement") with the Administrator under which the Administrator provides administrative services to Merx for an annual fee of \$150. The fee received from Merx by the Company is included in expense reimbursements in the Statement of Operations. For the three months ended June 30, 2015 and June 30, 2014, the Company recognized expense reimbursements of \$37 and \$0 respectively, under the Merx Administration Agreement.

The Company has also entered into an expense reimbursement agreement with Merx Aviation Finance Assets Ireland, Limited, an affiliate of Merx that will reimburse the Company for reasonable out-of-pocket expenses incurred, including any interest, fees or other amounts incurred by the Company in connection with letters of credit issued on its behalf. For the three months ended June 30, 2015 and June 30, 2014, the Company recognized expenses that were reimbursed under the expense reimbursement agreement of \$20 and \$20 respectively.

Note 4. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share, pursuant to ASC 260-10, for the three months ended June 30, 2015 and June 30, 2014, respectively:

	Three Months Ended June 30,	
	2015	2014
Earnings per share — basic		
Numerator for increase in net assets per share:	\$6,390	\$64,636
Denominator for basic weighted average shares:	236,741,351	236,741,351
Basic earnings per share:	\$0.03	\$0.27
Earnings per share — diluted*		
Numerator for increase in net assets per share:	\$6,390	\$64,636
Adjustment for interest on convertible notes and for incentive fees, net	2,549	2,556
Numerator for increase in net assets per share, as adjusted	\$8,939	\$67,192
Denominator for weighted average shares, as adjusted for dilutive effect of convertible notes:	251,289,451	251,289,451
Diluted earnings per share:	\$0.03	\$0.27

* In applying the if-converted method, conversion is not assumed for purposes of computing diluted EPS if the effect would be anti-dilutive. For the three months ended June 30, 2015 and June 30, 2014, anti-dilution would total \$0.01 and \$0.00, respectively.

Note 5. Investments

Merx Aviation Finance, LLC —

Merx Aviation Finance, LLC and its subsidiaries ("Merx Aviation") are principally engaged in acquiring and leasing commercial aircraft to airlines. Its focus is on current generation aircraft, held either domestically or internationally.

Merx Aviation may acquire fleets of aircraft through securitized, non-recourse debt or individual aircraft. Merx Aviation is not intended to compete with the numerous large lessors but rather to be complementary to them, providing them capital for various transactions. Merx Aviation also may outsource its aircraft servicing requirements to the large lessors that have the global staff necessary to complete such tasks.

our Statement of
Operations

-
- Transfers out of Level 3 are due to an increase in the availability of qualified observable inputs and transfers into Level 3 are due to a decrease in the availability of qualified observable inputs as assessed by the Adviser. Transfers are assumed to have occurred at the end of the period. There were no transfers between Level 1 and Level 2 fair value measurements during the period shown.
- (1)
 - (2) Includes unfunded revolver obligations and letters of credit measured at fair value of (\$3,405).
 - (3) Includes reorganizations and restructurings.

* Pursuant to fair value measurement and disclosure guidance, the Company currently categorizes investments by class as shown above.

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

The following tables summarize the significant unobservable inputs the Company used to value the majority of its investments categorized within Level 3 as of June 30, 2015 and March 31, 2015. In addition to the techniques and inputs noted in the table below, according to our valuation policy we may also use other valuation techniques and methodologies when determining our fair value measurements. The below table is not intended to be all-inclusive, but rather provides information on the significant unobservable inputs as they relate to the Company's determination of fair values.

		Quantitative Information about Level 3 Fair Value Measurements

N/A – Not applicable

The significant unobservable inputs used in the fair value measurement of the Company's debt and equity securities are primarily earnings before interest, taxes, depreciation and amortization ("EBITDA") comparable multiples and market discount rates. The Company typically uses EBITDA comparable multiples on its equity securities to determine the fair value of investments. The Company uses market discount rates for debt securities to determine if the effective yield on a debt security is commensurate with the market yields for that type of debt security. If a debt security's effective yield is significantly less than the market yield for a similar debt security with a similar credit profile, then

the resulting fair value of the debt security may be lower. Significant increases or decreases in either of these inputs in isolation would result in a significantly lower or higher fair value measurement. The significant unobservable inputs used in the fair value measurement of the structured products include the discount rate applied in the valuation models in addition to default and recovery rates applied to projected cash flows in the valuation models. Specifically, when a discounted cash flow model is used to determine fair value, the significant input used in the valuation model is the discount rate applied to present value the projected cash flows. Increases in the discount rate can significantly lower the fair value of an investment; conversely decreases in the discount rate can significantly increase the fair value of an investment. The discount rate is determined based on the market rates an investor would expect for a similar investment with similar risks.

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

PIK Interest and Dividends

The Company holds loans and investments, including certain preferred equity investments, that may have contractual PIK interest or dividends. PIK interest and dividends computed at the contractual rate are accrued into income and reflected as receivable up to the capitalization date.

PIK income for the three months ended June 30, 2015 and June 30, 2014 is summarized below:

	Three Months Ended,	
	June 30,	June 30,
	2015	2014
PIK income for the period	\$8,077	\$6,827

Capitalized PIK income for the three months ended June 30, 2015 and June 30, 2014 is summarized below:

	Three Months Ended,	
	June 30,	June 30,
	2015	2014
PIK balance at beginning of period	\$86,903	\$58,185
Gross PIK income capitalized	15,596	11,545
Adjustments due to investment exits	—	—
PIK income received in cash	(48,344))—
PIK balance at end of period	\$54,155	\$69,730

Investments on Non-Accrual Status

As of June 30, 2015, 2.5% of total investments at amortized cost (or 0.4% of total investments at fair value) were on non-accrual status. As of March 31, 2015, 1.3% of total investments at amortized cost (or 0.1% of total investments at fair value) were on non-accrual status.

Note 6. Foreign Currency Transactions and Translations

The Company had the following outstanding non-US borrowings on its Senior Secured Facility (as defined in note 9) at June 30, 2015 and March 31, 2015 as summarized below.

As of June 30, 2015					
Foreign Currency	Local Currency	Original Borrowed Value	Current Value	Reset Date	Unrealized Gain (Loss)
British Pounds	£ 6,500	\$9,926	\$10,222	7/8/2015	\$(296)

Note 7. Cash Equivalents

There were no cash equivalents held as of June 30, 2015 and March 31, 2015.

Note 8. Financial Highlights

The following is a schedule of financial highlights for the three months ended June 30, 2015 and the fiscal year ended March 31, 2015:

	Three Months Ended June 30, 2015 (unaudited)	Fiscal Year Ended March 31, 2015	
Per Share Data:			
Net asset value, beginning of period	\$8.18	\$8.67	
Net investment income (1)	0.22	0.96	
Net realized and unrealized loss	(0.19)	(0.64)	
Net increase in net assets resulting from operations	0.03	0.32	
Dividends to stockholders from income (3)	(0.20)	(0.70)	
Dividends to stockholders from return of capital (3)	—	(0.10)	
Effect of anti-dilution (dilution)	—	—	
Offering costs (4)	—	—	
Net asset value at end of period (2)	\$8.01	\$8.18	
Per share market value at end of period	\$7.08	\$7.68	
Total return (5)	(5.2)%	1.9 %	
Shares outstanding at end of period	236,741,351	236,741,351	
Ratio/Supplemental Data:			
Net assets at end of period (in millions)	\$1,896.7	\$1,937.6	
Ratio of net investment income to average net assets (7)	10.70	% 11.27	%
Ratio of operating expenses to average net assets (6) (7)	5.93	% 6.25	%
Ratio of interest and other debt expenses to average net assets (7)	4.70	% 3.91	%
Ratio of net expenses to average net assets (6) (7)	10.63	% 10.16	%
Average debt outstanding (in millions)	\$1,535	\$1,586	
Average debt per share	\$6.48	\$6.70	
Portfolio turnover ratio (7)	61.3	% 62.1	%

(1) Per share net investment income is based on the average shares outstanding.

(2)Numbers may not sum due to rounding.

Table of Contents

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

Dividends and distributions are determined based on taxable income calculated in accordance with income tax (3) regulations which may differ from amounts determined under GAAP. Per share amounts reflect total dividends paid divided by average shares for the respective periods.

(4) Offering costs per share represent less than one cent per average share for the three months ended June 30, 2015 and fiscal year ended March 31, 2015.

Total return is based on the change in market price per share during the respective periods. Total return also takes (5) into account dividends and distributions, if any, reinvested in accordance with the Company's dividend reinvestment plan.

The ratio of operating expenses to average net assets and the ratio of total expenses to average net assets are shown inclusive of all voluntary management and incentive fee waivers (see note 3). For the three months ended June 30, (6) 2015, the ratio of operating expenses to average net assets and the ratio of total expenses to average net assets would be 6.88% and 11.59%, respectively, without the voluntary fee waivers. For the fiscal year ended March 31, 2015, the ratio of operating expenses to average net assets and the ratio of total expenses to average net assets would be 7.03% and 10.95%, respectively, without the voluntary fee waivers.

(7) Annualized for the three months ended June 30, 2015.

Information about our senior securities is shown in the following table as of each year ended March 31 since the Company commenced operations, unless otherwise noted. The "—" indicates information which the SEC expressly does not require to be disclosed for certain types of senior securities.

N/A - Not applicable				

(1) Total amount of each class of senior securities outstanding at the end of the period presented.

The asset coverage ratio for the total senior securities representing indebtedness is calculated as our total assets, less all liabilities and indebtedness not represented by senior securities, divided by the total senior securities

(2) representing indebtedness. This asset coverage ratio is multiplied by one thousand to determine the Asset Coverage Per Unit. In order to determine the Asset Coverage Per Unit for each class of debt, the Asset Coverage Per Unit was allocated based on the amount of indebtedness outstanding at the end of the period for each class of debt.

(3) The amount to which such class of senior security would be entitled upon the involuntary liquidation of the issuer in preference to any security junior to it.

Not applicable, except for with respect to the 2042 Notes, the 2043 Notes, and the Convertible Notes, as other senior securities do not have sufficient trading for an average market value per unit to be determined. The average

(4) market value per unit for each of the 2042 Notes, the 2043 Notes, and the Convertible Notes is based on the closing daily prices of such notes and is expressed per \$100 of indebtedness (including for the 2042 Notes and the 2043 Notes, which were issued in \$25 increments).

(5) Included in this amount are foreign currency debt obligations as outlined in the table in note 6.

(6) Restrictive legends were removed in 2012.

	Date Issued / Amended	Total Aggregate Principal Amount Committed	Principal Amount Outstanding	Fair Value	Final Maturity Date	
Senior Secured Facility	2015	\$ 1,310,000	\$ 276,631	* \$ 277,901	(1) 4/24/2020	
Senior Secured Notes	2010	225,000	225,000	226,326	(1) 10/4/2015	
Senior Secured Notes (Series A)	2011	29,000	29,000	29,648	(1) 9/29/2016	
Senior Secured Notes (Series B)	2011	16,000	16,000	16,975	(1) 9/29/2018	
2042 Notes	2012	150,000	150,000	150,660	(2) 10/15/2042	
2043 Notes	2013	150,000	150,000	152,040	(2) 7/15/2043	
2025 Notes	2015	350,000	344,259	354,887	(1) 3/3/2025	
Convertible Notes	2011	200,000	200,000	202,600	(2) 1/15/2016	
Total Debt Obligations		\$ 2,430,000	\$ 1,390,890	\$ 1,411,037		

*Included in this amount is foreign currency debt obligations as outlined in the table in note 6.

The fair value of these debt obligations are categorized as Level 3 under ASC 820 as of June 30, 2015. The (1) valuation is based on a yield analysis and discount rate commensurate with the market yields for similar types of debt.

(2) The fair value of these debt obligations are categorized as Level 1 under ASC 820 as of March 31, 2015. The valuation is based on quoted prices of identical liabilities in active markets.

Senior Secured Facility

On April 24, 2015, the Company amended and restated its senior secured, multi-currency, revolving credit facility (the "Senior Secured Facility"). The facility increased the lenders' commitments to approximately \$1,310,000 and extended the final maturity date through April 24, 2020, and allows the Company to seek additional commitments from new and existing lenders in the future, up to an aggregate facility size not to exceed \$1,965,000. The Senior Secured Facility is secured by substantially all of the assets in Apollo Investment's portfolio, including cash and cash equivalents. Commencing April 24, 2019, the Company is required to repay, in twelve consecutive monthly installments of equal size, the outstanding amount under the Senior Secured Facility as of April 24, 2020. In addition, the stated interest rate on the facility was changed from LIBOR plus 2.00% to a formula-based calculation, based on a minimum borrowing base, resulting in a stated interest rate of either LIBOR plus 1.75%, or LIBOR plus 2.00%. As of June 30, 2015, the stated interest rate on the facility is LIBOR plus 2.00%. The Company is required to pay a commitment fee of 0.375% per annum on any unused portion of the Senior Secured Facility and a letter of credit participation fee of 2.00% per annum plus a letter of credit fronting fee of 0.25% per annum on the letters of credit issued. The Senior Secured Facility contains affirmative and restrictive covenants, including: (a) periodic financial reporting requirements, (b) maintaining minimum stockholders' equity of the greater of (i) 40% of the total assets of Apollo Investment and its consolidated subsidiaries as at the last day of any fiscal quarter and (ii) the sum of (A) \$870,000 plus (B) 25% of the net proceeds from the sale of equity interests in Apollo Investment after the closing date of the Senior Secured Facility, (c) maintaining a ratio of total assets, less total liabilities (other than indebtedness) to total indebtedness, in each case of Apollo Investment and its consolidated subsidiaries, of not less than 2.0:1.0, (d) limitations on the incurrence of additional indebtedness, including a requirement to meet a certain minimum liquidity threshold before Apollo Investment can incur such additional debt, (e) limitations on liens, (f) limitations on investments (other than in the ordinary course of Apollo Investment's business), (g) limitations on mergers and disposition of assets (other than in the normal course of Apollo Investment's business activities), (h) limitations on the

creation or existence of agreements that permit liens on properties of Apollo Investment's consolidated subsidiaries and (i) limitations on the repurchase or redemption of certain unsecured debt and debt securities. In addition to the asset coverage ratio described in clause (c) of the preceding sentence, borrowings under the Senior Secured Facility (and the incurrence of certain other permitted debt) are subject to compliance with a borrowing base that applies different advance rates to different types of assets in Apollo Investment's portfolio. The Senior Secured Facility also provides for the issuance of letters of credit for up to an aggregate amount of \$150,000. As of June 30, 2015

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

and March 31, 2015, the Company had \$23,011 and \$25,246, respectively, in standby letters of credit issued through the Senior Secured Facility. The amount available for borrowing under the Senior Secured Facility is reduced by any standby letters of credit issued. Under GAAP, these letters of credit are considered commitments because no funding has been made and as such are not considered a liability. These letters of credit are not senior securities because they are not in form of a typical financial guarantee and the portfolio companies are obligated to refund any drawn amounts. The available remaining capacity under the Senior Secured Facility was \$1,010,358 at June 30, 2015. Terms used in this paragraph have the meanings set forth in the Senior Secured Facility.

Senior Secured Notes

On September 30, 2010, the Company entered into a note purchase agreement with certain institutional accredited investors providing for a private placement issuance of \$225,000 in aggregate principal amount of five-year, senior secured notes with an annual fixed interest rate of 6.25% and a maturity date of October 4, 2015 (the "Senior Secured Notes"). On October 4, 2010, the Senior Secured Notes issued by Apollo Investment were sold to certain institutional accredited investors pursuant to an exemption from registration under the Securities Act of 1933, as amended. Interest on the Senior Secured Notes is due semi-annually on April 4 and October 4, commencing on April 4, 2011.

On September 29, 2011, the Company closed a private offering of \$45,000 aggregate principal amount of senior secured notes (the "Notes") consisting of two series: (1) 5.875% Senior Secured Notes, Series A, of the Company due September 29, 2016 in the aggregate principal amount of \$29,000; and (2) 6.250% Senior Secured Notes, Series B, of the Company due September 29, 2018, in the aggregate principal amount of \$16,000. The Notes were issued in a private placement only to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended. Interest on the Senior Secured Notes is due semi-annually on March 29 and September 29, commencing on March 29, 2012.

2042 Notes

On October 9, 2012, the Company issued \$150,000 in aggregate principal amount of 6.625% senior unsecured notes due 2042 for net proceeds of \$145,275 (the "2042 Notes"). Interest on the 2042 Notes is paid quarterly on January 15, April 15, July 15 and October 15, at an annual rate of 6.625%, commencing on January 15, 2013. The 2042 Notes will mature on October 15, 2042. The Company may redeem the 2042 Notes in whole or in part at any time or from time to time on or after October 15, 2017. The 2042 Notes are general, unsecured obligations and rank equal in right of payment with all of our existing and future senior, unsecured indebtedness. The 2042 Notes are listed on The New York Stock Exchange under the ticker symbol "AIB."

2043 Notes

On June 17, 2013, the Company issued \$135,000 in aggregate principal amount of 6.875% senior unsecured notes due 2043 and on June 24, 2013 an additional \$15,000 in aggregate principal amount of such notes was issued pursuant to the underwriters' over-allotment option exercise. In total, \$150,000 of aggregate principal was issued for net proceeds of \$145,275 (the "2043 Notes"). Interest on the 2043 Notes is paid quarterly on January 15, April 15, July 15 and October 15, at an annual rate of 6.875%, commencing on October 15, 2013. The 2043 Notes will mature on July 15, 2043. The Company may redeem the 2043 Notes in whole or in part at any time or from time to time on or after July 15, 2018. The 2043 Notes are general, unsecured obligations and rank equal in right of payment with all of our existing and future senior, unsecured indebtedness. The 2043 Notes are listed on The New York Stock Exchange under the ticker symbol "AIY."

2024 Notes

On October 30, 2014, the Company entered into a note purchase agreement with an institutional accredited investor providing a private placement issuance of \$150,000 in aggregate principal amount of a ten-year note with an annual fixed rate of 5.25% and a maturity of October 30, 2024 (the "2024 Note"). On October 30, 2014, the Company issued the 2024 Note for net proceeds of \$148,875. Interest on the 2024 Note is due quarterly on January 15, April 15, July 15 and October 15, commencing on January 15, 2015. The 2024 Note was a general,

unsecured obligation and ranked equal in right of payment with all of our existing unsecured indebtedness. The 2024 Note was repurchased and retired by the Company on March 3, 2015 and was accounted for as a debt modification in accordance with ASC Topic 470 Debt.

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

2025 Notes

On March 3, 2015, the issued \$350,000 in the aggregate principal amount of 5.25% unsecured notes due 2025 for net proceeds of \$343,650 (the "2025 Notes"). Interest on the 2025 Notes is due semi-annually on March 3 and September 3, commencing on September 3, 2015. The 2025 Notes are a general, unsecured obligation and rank equal in right of payment with all of our existing unsecured indebtedness.

Convertible Notes

On January 25, 2011, the Company closed a private offering of \$200,000 aggregate principal amount of senior unsecured convertible notes (the "Convertible Notes"). The Convertible Notes were issued in a private placement only to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended. The Convertible Notes bear interest at an annual rate of 5.75%, payable semi-annually in arrears on January 15 and July 15 of each year, commencing on July 15, 2011. The Convertible Notes will mature on January 15, 2016 unless earlier converted or repurchased at the holder's option. Prior to December 15, 2015, the Convertible Notes will be convertible only upon certain corporate reorganizations, dilutive recapitalizations or dividends, or if, during specified periods our shares trade at more than 130% of the then applicable conversion price or the Convertible Notes trade at less than 97% of their conversion value and, thereafter, at any time. The Convertible Notes will be convertible by the holders into shares of common stock, initially at a conversion rate of 72.7405 shares of the Company's common stock per \$1 principal amount of Convertible Notes (14,548,100 common shares) corresponding to an initial conversion price per share of approximately \$13.75, which represents a premium of 17.5% to the \$11.70 per share closing price of the Company's common stock on The NASDAQ Global Select Market on January 19, 2011. The conversion rate will be subject to adjustment upon certain events, such as stock splits and combinations, mergers, spin-offs, increases in dividends in excess of \$0.28 per share per quarter and certain changes in control. Certain of these adjustments, including adjustments for increases in dividends, are subject to a conversion price floor of \$11.70 per share. The Convertible Notes are senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities. As more fully reflected in note 5, the issuance is to be considered as part of the if-converted method for calculation of diluted EPS.

The following chart summarizes the components of average outstanding debt, maximum amount of debt outstanding, and the annualized interest cost, including commitment fees, for the three months ended June 30, 2015 and 2014:

	Three Months Ended June 30, 2015	Three Months Ended June 30, 2014	
Average outstanding debt balance	\$1,534,957	\$1,552,268	
Maximum amount of debt outstanding	1,657,288	1,685,389	
Weighted average annualized interest cost, including commitment fees, but excluding debt issuance costs (1)	5.29	%4.44	%
Annualized amortized debt issuance cost	0.56	%0.43	%
Total annualized interest cost	5.85	%4.87	%

(1) Commitment fees for the three months ended June 30, 2015 and June 30, 2014 were \$811 and \$441, respectively. As of June 30, 2015, the Company is in compliance with all debt covenants.

Note 10. Stockholders' Equity

There were no equity offerings of common stock during the three months ended June 30, 2015 and fiscal year ended March 31, 2015.

APOLLO INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS (continued)

(in thousands except share and per share amounts)

On August 6, 2015, the Company adopted a plan for the purpose of repurchasing up to \$50 million of its common stock in accordance with applicable rules specified in the Securities Exchange Act of 1934 (the "2015 Repurchase Plan"). This plan replaces the plan which was previously authorized and approved on August 11, 2011. The 2015 Repurchase Plan is designed to allow the Company to repurchase its shares both during its open window periods and at times when it otherwise might be prevented from doing so under applicable insider trading laws or because of self-imposed trading blackout periods. A broker selected by the Company will have the authority under the terms and limitations specified in an agreement with the Company to repurchase shares on the Company's behalf in accordance with the terms of the 2015 Repurchase Plan. Repurchases are subject to SEC regulations as well as certain price, market volume and timing constraints specified in the 2015 Repurchase Plan. Pursuant to the 2015 Repurchase Plan, the Company may from time to time repurchase a portion of its shares of common stock and the Company is hereby notifying shareholders of its intention as required by applicable securities law.

On September 12, 2014, the Company announced an At the Market ("ATM") program through which the Company can sell up to 16 million shares of its common stock from time to time. As of June 30, 2015, no shares had been sold through the Company's ATM program.

Note 11. Commitments and Contingencies

As of June 30, 2015 and March 31, 2015, the Company's unfunded commitments and contingencies were as follows:

	As of June 30, 2015	As of March 31, 2015
Unfunded revolver obligations and bridge loans commitments (1)	\$74,362	\$206,294
Unfunded delayed draw commitments on senior loans to portfolio companies (2)	32,162	102,092
Unfunded delayed draw commitments on senior loans to portfolio companies (performance thresholds not met) (3)	10,130	23,436
Standby letters of credit issued for certain portfolio companies for which the Company and portfolio companies are liable (4)	22,398	34,433

(1) The unfunded revolver obligations may or may not be funded to the borrowing party in the future. The amounts relate to loans with various maturity dates, but the entire amount was eligible for funding to the borrowers as of June 30, 2015, subject to the terms of each loan's respective credit agreements which includes borrowing covenants that needs to be met prior to funding.

(2) The Company's commitment to fund delayed draw loans is triggered upon the satisfaction of certain pre-negotiated terms and conditions which can include covenants to maintain specified leverage levels and other related borrowing base covenants.

(3) The borrowers are required to meet certain performance thresholds before the Company is obligated to fulfill the commitments and those performance thresholds were not met as of June 30, 2015.

(4) For all these letters of credit issued and outstanding, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. None of the letters of credit issued and outstanding are recorded as a liability on the Company's balance sheet as such letters of credit are considered in the valuation of the investments in the portfolio company.

As of August 6, 2015 the outstanding commitments to purchase secured term loans and unsecured bridge loans, which existed as of June 30, 2015 were reduced by \$27,807.

Note 12. Subsequent Events

On August 5, 2015, the Board of Directors declared a dividend of \$0.20 per share for the first fiscal quarter of 2016, payable on October 6, 2015 to stockholders of record as of September 21, 2015.

On August 5, 2015, the Company adopted a plan for the purpose of repurchasing up to \$50 million of its common stock in accordance with applicable rules of the Securities Exchange Act of 1934. Please refer to Note 10. Stockholders' Equity for detail.

Report of Independent Registered Public Accounting Firm
To the Board of Directors and Stockholders of Apollo Investment Corporation:

We have reviewed the accompanying statement of assets and liabilities of Apollo Investment Corporation (the “Company”), including the schedule of investments, as of June 30, 2015, the related statements of operations and of cash flows for the three-month periods ended June 30, 2015 and June 30, 2014, and the statement of changes in net assets for the three month period ended June 30, 2015. These interim financial statements are the responsibility of the Company’s management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of assets and liabilities, including the schedule of investments, as of March 31, 2015, and the related statements of operations (not presented herein), of changes in net assets and of cash flows (not presented herein) for the year then ended, and in our report dated May 19, 2015, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying statement of assets and liabilities, including the schedule of investments, as of March 31, 2015, and the related statement of changes in net assets for the year then ended, is fairly stated in all material respects in relation to the statements of assets and liabilities, including the schedule of investments, and of changes in net assets from which it has been derived.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following analysis of our financial condition and results of operations should be read in conjunction with our financial statements and the notes thereto contained elsewhere in this report.

Some of the statements in this report constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained herein involve risks and uncertainties, including statements as to:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the impact of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital; and
- the timing of cash flows, if any, from the operations of our portfolio companies.

We generally use words such as "anticipates," "believes," "expects," "intends" and similar expressions to identify forward-looking statements. Our actual results could differ materially from those projected in the forward-looking statements for any reason, including any factors set forth in "Risk Factors" and elsewhere in this report.

We have based the forward-looking statements included in this report on information available to us on the date of this report, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we in the future may file with the SEC, including any annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

OVERVIEW

Apollo Investment was incorporated under the Maryland General Corporation Law in February 2004. We have elected to be treated as a BDC under the 1940 Act. As such, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in "qualifying assets," including securities of private or thinly traded public U.S. companies, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less. In addition, for federal income tax purposes we have elected to be treated as a RIC under Subchapter M of the Code. Pursuant to this election and assuming we qualify as a RIC, we generally do not have to pay corporate-level federal income taxes on any income we distribute to our stockholders. Apollo Investment commenced operations on April 8, 2004 upon completion of its initial public offering that raised \$870 million in net proceeds from selling 62 million shares of its common stock at a price of \$15.00 per share. Since then, and through June 30, 2015, we have raised approximately \$2.21 billion in net proceeds from additional offerings of common stock.

Investments

Our level of investment activity can and does vary substantially from period to period depending on many factors, including the amount of debt and equity capital available to middle-market companies, the level of merger and acquisition activity for such companies, the general economic environment, and the competitive environment for the types of investments we make. As a business development company, we must not acquire any assets other than "qualifying assets" specified in the 1940 Act unless, at the time the acquisition is made, at least 70% of our total assets are qualifying assets (with certain limited exceptions).

Revenue

We generate revenue primarily in the form of interest and dividend income from the securities we hold and capital gains, if any, on investment securities that we may acquire in portfolio companies. Our debt investments, whether in the form of mezzanine or senior secured loans, generally have a stated term of five to ten years and bear interest at a fixed rate or a floating rate usually determined on the basis of a benchmark: LIBOR, Euro Interbank Offered Rate (EURIBOR), British pound sterling LIBOR (GBP LIBOR), or the prime rate. Interest on debt securities is generally

payable quarterly or semiannually and while U.S. subordinated debt and corporate notes typically accrue interest at fixed rates, some of our investments may include zero coupon and/or step-up

Table of Contents

bonds that accrue income on a constant yield to call or maturity basis. In addition, some of our investments provide for PIK interest or dividends. Such amounts of accrued PIK interest or dividends are added to the cost of the investment on the respective capitalization dates and generally become due at maturity of the investment or upon the investment being called by the issuer. We may also generate revenue in the form of commitment, origination, structuring fees, fees for providing managerial assistance and, if applicable, consulting fees, etc.

Expenses

For all investment professionals of the investment adviser and their staff, when and to the extent engaged in providing investment advisory and management services to us, the compensation and routine overhead expenses of that personnel which is allocable to those services are provided and paid for by AIM. We bear all other costs and expenses of our operations and transactions, including those relating to:

- investment advisory and management fees;
- expenses incurred by AIM payable to third parties, including agents, consultants or other advisors, in monitoring our financial and legal affairs and in monitoring our investments and performing due diligence on our prospective portfolio companies;
- calculation of our net asset value (including the cost and expenses of any independent valuation firm);
- direct costs and expenses of administration, including independent registered public accounting and legal costs;
- costs of preparing and filing reports or other documents with the SEC;
- interest payable on debt, if any, incurred to finance our investments;
- offerings of our common stock and other securities;
- registration and listing fees;
- fees payable to third parties, including agents, consultants or other advisors, relating to, or associated with, evaluating and making investments;
- transfer agent and custodial fees;
- taxes;
- independent directors' fees and expenses;
- marketing and distribution-related expenses;
- the costs of any reports, proxy statements or other notices to stockholders, including printing and postage costs;
- our allocable portion of the fidelity bond, directors and officers/errors and omissions liability insurance, and any other insurance premiums;
- organizational costs; and
- all other expenses incurred by us or the Administrator in connection with administering our business, such as our allocable portion of overhead under the Administration Agreement, including rent and our allocable portion of the cost of our chief financial officer, chief compliance officer and their respective staffs.

We expect our general and administrative operating expenses related to our ongoing operations to increase moderately in dollar terms. During periods of asset growth, we generally expect our general and administrative operating expenses to decline as a percentage of our total assets and increase during periods of asset declines. Incentive fees, interest expense and costs relating to future offerings of securities, among others, may also increase or reduce overall operating expenses based on portfolio performance, interest rate benchmarks, and offerings of our securities relative to comparative periods, among other factors.

Table of Contents

Portfolio and Investment Activity

Our portfolio and investment activity during the three months ended June 30, 2015 and 2014 is as follows:

(amounts in millions)	Three Months Ended June 30, 2015	Three Months Ended June 30, 2014
Investment made in portfolio companies (1)	\$509	\$650
Investments sold	(334)	(397)
Net activity before repaid investments	175	253
Investments repaid	(198)	(120)
Net investment activity	\$(23)	\$133
Portfolio companies, at beginning of period	105	111
Number of new portfolio companies	10	25
Number of exited companies	(13)	(19)
Portfolio companies, at end of period	102	117
Number of investments in existing portfolio companies	20	24

(1) Investments were primarily made through a combination of primary and secondary debt investments.

Our portfolio composition and weighted average yields at June 30, 2015 and at March 31, 2015 are as follows:

	June 30, 2015	March 31, 2015
Portfolio composition, measured at fair value:		
Secured debt	64%	60%
Unsecured debt	10%	14%
Structured products and other (1)	12%	11%
Preferred equity	4%	5%
Common equity and warrants	10%	10%
Weighted average yields, at current cost basis, exclusive of securities on non-accrual status (2):		
Secured debt portfolio	11.5%	11.2%
Unsecured debt portfolio	11.3%	10.9%
Total debt portfolio	11.5%	11.2%
Income-bearing investment portfolio composition, measured at fair value:		
Fixed rate amount	\$1.1 billion	\$1.3 billion
Floating rate amount	\$1.5 billion	\$1.4 billion
Fixed rate %	41%	48%
Floating rate %	59%	52%
Income-bearing investment portfolio composition, measured at cost:		
Fixed rate amount	\$1.1 billion	\$1.4 billion
Floating rate amount	\$1.6 billion	\$1.4 billion
Fixed rate %	42%	50%
Floating rate %	58%	50%

Structured products and other such as collateralized loan obligations (“CLOs”) and credit-linked notes (“CLNs”) are (1) typically a form of securitization in which the cash flows of a portfolio of loans are pooled and passed on to different classes of debt and residual interest in order of seniority.

Table of Contents

(2) An investor's yield may be lower than the portfolio yield due to sales loads and other expenses.

Since the initial public offering of Apollo Investment in April 2004 and through June 30, 2015, invested capital totaled \$15.9 billion in 360 portfolio companies. Over the same period, Apollo Investment completed transactions with more than 100 different financial sponsors.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ materially. In addition to the discussion below, our critical accounting policies are further described in the notes to the financial statements.

Fair Value Measurements

The Company follows guidance in ASC 820, Fair Value Measurement, where fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are determined within a framework that establishes a three-tier hierarchy which maximizes the use of observable market data and minimizes the use of unobservable inputs to establish a classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, such as the risk inherent in a particular valuation technique used to measure fair value using a pricing model and/or the risk inherent in the inputs for the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the information available. The inputs or methodology used for valuing assets or liabilities may not be an indication of the risks associated with investing in those assets or liabilities. Under procedures established by our board of directors, we value investments, including certain secured debt, unsecured debt, and other debt securities with maturities greater than 60 days, for which market quotations are readily available, at such market quotations (unless they are deemed not to represent fair value). We attempt to obtain market quotations from at least two brokers or dealers (if available, otherwise from a principal market maker or a primary market dealer or other independent pricing service). We utilize mid-market pricing as a practical expedient for fair value unless a different point within the range is more representative. If and when market quotations are deemed not to represent fair value, we typically utilize independent third party valuation firms to assist us in determining fair value. Accordingly, such investments go through our multi-step valuation process as described below. In each case, our independent valuation firms consider observable market inputs together with significant unobservable inputs in arriving at their valuation recommendations for such investments. Debt investments with remaining maturities of 60 days or less may each be valued at cost with interest accrued or discount amortized to the date of maturity (although they are typically valued at available market quotations), unless such valuation, in the judgment of our investment adviser, does not represent fair value. In this case such investments shall be valued at fair value as determined in good faith by or under the direction of our board of directors, including using market quotations where available. Investments that are not publicly traded or whose market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of our board of directors. Such determination of fair values may involve subjective judgments and estimates.

With respect to investments for which market quotations are not readily available or when such market quotations are deemed not to represent fair value, our board of directors has approved a multi-step valuation process each quarter, as described below:

- (1) our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of our investment adviser which is responsible for the portfolio investment;
- (2) preliminary valuation conclusions are then documented and discussed with senior management of our investment adviser;

- (3) independent valuation firms are engaged by our board of directors to conduct independent appraisals by reviewing our investment adviser's preliminary valuations and then making their own independent assessment;
- (4) the audit committee of the board of directors reviews the preliminary valuation of our investment adviser and the valuation prepared by the independent valuation firm and responds to the valuation recommendation of the independent valuation firm to reflect any comments; and
- (5) the board of directors discusses valuations and determines in good faith the fair value of each investment in our portfolio based on the input of our investment adviser, the applicable independent valuation firm, third party pricing services and the audit committee.

Table of Contents

Investments in all asset classes are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that we may take into account in fair value pricing our investments include, as relevant: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, seniority of investment in the investee company's capital structure, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, M&A comparables, our principal market (as the reporting entity) and enterprise values, among other factors. When readily available, broker quotations and/or quotations provided by pricing services are considered in the valuation process of independent valuation firms. As of June 30, 2015, there was no change to the Company's valuation techniques and related inputs considered in the valuation process.

ASC 820 classifies the inputs used to measure these fair values into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, accessible by the Company at the measurement date.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable inputs for the asset or liability.

In all cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to each investment. Of the Company's investments at June 30, 2015, \$2.72 billion or 82% of the Company's investments were classified as Level 3.

The high proportion of Level 3 investments relative to our total investments is directly related to our investment philosophy and target portfolio, which consists primarily of long-term secured debt, as well as unsecured and mezzanine positions of private middle-market companies. A fundamental difference exists between our investments and those of comparable publicly traded fixed income investments, namely high yield bonds, and this difference affects the valuation of our private investments relative to comparable publicly traded instruments.

Senior secured loans, or senior loans, are higher in the capital structure than high yield bonds, and are typically secured by assets of the borrowing company. This improves their recovery prospects in the event of default and affords senior loans a structural advantage over high yield bonds. Many of the Company's investments are also privately negotiated and contain covenant protections that limit the issuer to take actions that could harm us as a creditor. High yield bonds typically do not contain such covenants.

Given the structural advantages of capital seniority and covenant protection, the valuation of our private debt portfolio is driven more by investment specific credit factors than movements in the broader debt capital markets. Each security is evaluated individually and as indicated above, we value our private investments based upon a multi-step valuation process, including valuation recommendations from independent valuation firms.

Investment Income Recognition

The Company records interest and dividend income, adjusted for amortization of premium and accretion of discount, on an accrual basis. Some of our loans and other investments, including certain preferred equity investments, may have contractual payment-in-kind ("PIK") interest or dividends. PIK interest and dividends computed at the contractual rate are accrued into income and reflected as receivable up to the capitalization date. PIK investments offer issuers the option at each payment date of making payments in cash or in additional securities. When additional securities are received, they typically have the same terms, including maturity dates and interest rates as the original securities

issued. On these payment dates, the Company capitalizes the accrued interest or dividends receivable (reflecting such amounts as the basis in the additional securities received). PIK generally becomes due at maturity of the investment or upon the investment being called by the issuer. At the point the Company believes PIK is not expected to be realized, the PIK investment will be placed on non-accrual status. When a PIK investment is placed on non-accrual status, the accrued, uncapitalized interest or dividends are reversed from the related receivable through interest or dividend income, respectively. The Company does not reverse previously capitalized PIK interest or dividends. Upon capitalization, PIK is subject to the fair value estimates associated with their related investments. PIK investments on non-accrual status are restored to accrual status if the Company believes that PIK is expected to be realized.

Table of Contents

Investments that are expected to pay regularly scheduled interest and/or dividends in cash are generally placed on non-accrual status when principal or interest/dividend cash payments are past due 30 days or more and/or when it is no longer probable that principal or interest/dividend cash payments will be collected. Such non-accrual investments are restored to accrual status if past due principal and interest or dividends are paid in cash, and in management's judgment, are likely to continue timely payment of their remaining interest or dividend obligations. Interest or dividend cash payments received on non-accrual designated investments may be recognized as income or applied to principal depending upon management's judgment.

Loan origination fees, original issue discount, and market discounts are capitalized and amortized into income using the interest method or straight-line, as applicable. Upon the prepayment of a loan, any unamortized loan origination fees are recorded as interest income. We record prepayment premiums on loans and other investments as interest income when we receive such amounts. Other income generally includes administrative fee, bridge fee, and structuring fee which are recorded when earned. Other income generally includes administrative fee, and structuring fees, which are recorded when earned.

The Company records as dividend income the accretable yield from its beneficial interests in structured products such as CLOs based upon a number of cash flow assumptions that are subject to uncertainties and contingencies. Such assumptions include the rate and timing of principal and interest receipts (which may be subject to prepayments and defaults) of the underlying pools of assets. These assumptions are updated on at least a quarterly basis to reflect changes related to a particular security, actual historical data, and market changes. A structured product investment typically has an underlying pool of assets. Payments on structured product investments are payable solely from the cash flows from such assets. As such any unforeseen event in these underlying pools of assets might impact the expected recovery and future accrual of income.

Expenses

Expenses include management fees, performance-based incentive fees, insurance expenses, administrative service fees, legal fees, directors' fees, audit and tax service expenses, and other general and administrative expenses.

Expenses are recognized on an accrual basis.

Net Realized Gains or Losses and Net Change in Unrealized Gain (Loss)

We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized, but considering unamortized upfront fees and prepayment penalties. Net change in unrealized gain (loss) reflects the net change in portfolio investment values during the reporting period, including the reversal of previously recorded unrealized gains or losses.

Within the context of these critical accounting policies, we are not currently aware of any reasonably likely events or circumstances that would result in materially different amounts being reported.

RESULTS OF OPERATIONS

Operating results for the three months ended June 30, 2015 and 2014 were as follows:

Table of Contents

(in thousands)	Three Months Ended June 30, 2015	Three Months Ended June 30, 2014
Investment income		
Interest	\$84,354	\$93,623
Dividends	13,774	6,595
Other	3,538	2,362
Total investment income	\$101,666	\$102,580
Expenses		
Base management fees and performance-based incentive fees, net of amounts waived	\$(24,704)	\$(26,426)
Interest and other debt expenses, net of expense reimbursements	(22,416)	(18,882)
Administrative services expenses, net of expense reimbursements	(1,397)	(1,433)
Other general and administrative expenses	(2,163)	(2,288)
Net expenses	(50,680)	(49,029)
Net investment income	\$50,986	\$53,551
Realized and unrealized gain (loss) on investments, cash equivalents, and foreign currencies		
Net realized loss	\$(80,926)	\$(13,333)
Net change in unrealized gain	36,330	24,418
Net realized and unrealized gain (loss) from investments, cash equivalents and foreign currencies	(44,596)	11,085
Net increase (decrease) in net assets resulting from operations	\$6,390	\$64,636
Net investment income per share on per average share basis	\$0.22	\$0.23
Earnings per share - basic	\$0.03	\$0.27
Earnings per share - diluted	\$0.03	\$0.27

Total Investment Income

The decrease in total investment income for the three months ended June 30, 2015 compared to the three months ended June 30, 2014 was due to a decrease in interest income of approximately \$9.3 million primarily due to a lower income-bearing investment portfolio and an increase in investments on non-accrual as of June 30, 2015 compared to June 30, 2014. This decrease in interest income was partially offset by an increase in income from original issue discount and prepayment fees, which totaled approximately \$8.0 million and \$6.1 million for the three months ended June 30, 2015 and three months ended June 30, 2014, respectively. The decrease in interest income was offset by an increase in dividend income by \$7.2 million, primarily due to investments in AMP Solar (UK) Limited, Golden Hill CLO I, Ivy Hill Middle Market Fund IX, Ltd, and MSEA Tankers LLC.

Net Expenses

The increase in expenses for the three months ended June 30, 2015 compared to three months ended June 30, 2014 was primarily driven by an increase of \$3.5 million in interest and other debt expenses. Interest and other debt costs were higher due to the issuance of the 2025 Notes issued in March 2015, which increased total annualized cost of debt to 5.85% for the three months ended June 30, 2015 from 4.87% for the three months ended June 30, 2014. This increase was partially offset by a decrease in the average debt outstanding balance, which decreased to \$1.53 billion during the three months ended June 30, 2015 from \$1.55 billion during the three months ended June 30, 2014. Management and performance-based incentive fees decreased by \$1.7 million primarily due to the decrease in the size of the portfolio and fees from CION.

Table of Contents

Net Realized Loss

Net realized losses for the three months ended June 30, 2015 were \$80.9 million and comprised of \$8.7 million of realized gains and \$89.6 million of realized losses. Significant realized gains (losses) for the three months ended June 30, 2015 are summarized below:

(in millions)	Net Realized Gain (Loss)	
PlayPower Holdings Inc.*	\$(42.9))
Molycorp, Inc.*	(22.1))
PetroBakken Energy Ltd.*	(9.0))

* These investments had unrealized losses and unrealized gain as of prior quarter, which were reversed in the current quarter upon the exit of the investments.

Recent Accounting Pronouncements

See note 2 within the Notes to the Financial Statements.

LIQUIDITY AND CAPITAL RESOURCES

The Company's liquidity and capital resources are generated and generally available through periodic follow-on equity and debt offerings, our senior secured, multi-currency Senior Secured Facility (as defined in note 9 within the Notes to Financial Statements), our senior secured notes, our senior unsecured notes, investments in special purpose entities in which we hold and finance particular investments on a non-recourse basis, as well as from cash flows from operations, investment sales of liquid assets and repayments of senior and subordinated loans and income earned from investments.

Table of Contents**Debt**

At June 30, 2015, the Company had \$276.6 million in borrowings outstanding on its Senior Secured Facility and \$1,010.4 million of unused capacity. As of June 30, 2015, aggregate lender commitments under the Senior Secured Facility totaled \$1.31 billion. See note 9 and note 10 within the Notes to Financial Statements for information on the Company's debt and public offerings.

The Company's debt maturities by period are summarized below:

	Payments due by Period as of June 30, 2015 (in millions)				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Senior Secured Facility (1)	\$277	\$—	\$—	\$277	\$—
Senior Secured Notes	\$225	\$225	\$—	\$—	\$—
Senior Secured Notes (Series A)	\$29	\$—	\$29	\$—	\$—
Senior Secured Notes (Series B)	\$16	\$—	\$—	\$16	\$—
2042 Notes	\$150	\$—	\$—	\$—	\$150
2043 Notes	\$150	\$—	\$—	\$—	\$150
2025 Notes	\$344	\$—	\$—	\$—	\$344
Convertible Notes	\$200	\$200	\$—	\$—	\$—

At June 30, 2015, there was \$23.0 million of letters of credit issued under the Senior Secured Facility that are not (1) recorded as liabilities on the Company's Statement of Assets and Liabilities, and the Company had \$1,010.4 million of unused capacity under its Senior Secured Facility.

On April 24, 2015, the Company amended and restated the Senior Secured Facility. The amendment increased the lenders' commitments to \$1.31 billion, extended the final maturity date to April 24, 2020, and allows the Company to seek additional commitments from new and existing lenders in the future, up to an aggregate facility size not to exceed \$1.97 billion. In addition, the stated interest rate on the facility was changed from LIBOR plus 2.00% to a formula-based calculation, based on a minimum borrowing base, resulting in a stated interest rate of either LIBOR plus 1.75%, or LIBOR plus 2.00%. As of June 30, 2015, the stated interest rate on the facility is LIBOR plus 2.00%. Commencing April 30, 2019, the Company is required to repay, in twelve consecutive monthly installments of equal size, the outstanding amount under the Senior Secured Facility as of April 24, 2019.

PIK Interest and Dividends

The Company also has investments in its portfolio that contain PIK provisions. PIK investments offer issuers the option at each payment date of making payments in cash or in additional securities. When additional securities are received, they typically have the same terms, including maturity dates and interest rates, as the original securities issued. On these payment dates, the Company capitalizes the accrued interest or dividends receivable (reflecting such amounts as the basis in the additional securities received). PIK generally becomes due at maturity of the investment or upon the investment being called by the issuer. In order to maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders annually in the form of dividends, even though the Company has not yet collected the cash. For the three months ended June 30, 2015, PIK income totaled \$8.1 million, on total investment income of \$101.7 million. See note 5 within the Notes to the Financial Statements for more information on the Company's PIK interest and dividends.

Cash Equivalents

We deem certain U.S. Treasury bills, repurchase agreements and other high-quality, short-term debt securities as cash equivalents. (See note 2 within the accompanying financial statements.) At the end of each fiscal quarter, we consider taking proactive steps utilizing cash equivalents with the objective of enhancing our investment flexibility during the following quarter, pursuant to Section 55 of the 1940 Act. More specifically, we may purchase U.S. Treasury bills from time-to-time on the last business day of the quarter and typically close out that position on the following business day, settling the sale transaction on a net cash basis with the purchase, subsequent to quarter end. Apollo Investment may also utilize repurchase agreements or other balance sheet transactions, including drawing down on our Senior

Secured Facility, as we deem appropriate. The amount of these transactions or such drawn cash for this purpose is excluded from total assets for purposes of computing the asset base upon which the management fee is determined. There were no cash equivalents held as of June 30, 2015.

Related Party Transactions

See note 3 within the Notes to the Financial Statements for information on the Company's related party transactions.

Table of Contents

Stockholder's Equity

On August 5, 2015, the Company adopted a plan for the purpose of repurchasing up to \$50 million of its common stock in accordance with applicable rules of the Securities Exchange Act of 1934. Please refer to Note 10.

Stockholders' Equity for detail.

Dividends

Dividends paid to stockholders for the three months ended June 30, 2015 and June 30, 2014 totaled \$47.3 million or \$0.20 per share and \$44.9 million or \$0.20 per share, respectively. Tax characteristics of all dividends will be reported to stockholders on Form 1099 after the end of the calendar year. Our quarterly dividends, if any, will be determined by our Board of Directors.

We have elected to be taxed as a RIC under Subchapter M of the Code. To maintain our RIC status, we must distribute at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, out of the assets legally available for distribution. In addition, although we currently intend to distribute realized net capital gains (i.e., net long-term capital gains in excess of short-term capital losses), if any, at least annually, out of the assets legally available for such distributions, we may in the future decide to retain such capital gains for investment.

We maintain an "opt out" dividend reinvestment plan for our common stockholders. As a result, if we declare a dividend, then stockholders' cash dividends will be automatically reinvested in additional shares of our common stock, unless they specifically "opt out" of the dividend reinvestment plan so as to receive cash dividends.

We may not be able to achieve operating results that will allow us to make distributions at a specific level or to increase the amount of these distributions from time to time. In addition, due to the asset coverage test applicable to us as a business development company, we may in the future be limited in our ability to make distributions. Also, our revolving credit facility may limit our ability to declare dividends if we default under certain provisions or fail to satisfy certain other conditions. If we do not distribute a certain percentage of our income annually, we may suffer adverse tax consequences, including possible loss of the tax benefits available to us as a regulated investment company. In addition, in accordance with U.S. generally accepted accounting principles and tax regulations, we include in income certain amounts that we have not yet received in cash, such as contractual payment-in-kind interest, which represents contractual interest added to the loan balance that becomes due at the end of the loan term, or the accrual of original issue or market discount. Since we may recognize income before or without receiving cash representing such income, we may not be able to meet the requirement to distribute at least 90% of our investment company taxable income to obtain tax benefits as a regulated investment company.

With respect to the dividends to stockholders, income from origination, structuring, closing, commitment and other upfront fees associated with investments in portfolio companies is treated as taxable income and accordingly, distributed to stockholders.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to financial market risks, including changes in interest rates. During the three months ended June 30, 2015, many of the loans in our portfolio had floating interest rates. These loans are usually based on floating LIBOR and typically have durations of one to six months after which they reset to current market interest rates. The Company also has a Senior Secured Facility that is based on floating LIBOR rates.

The following table shows the approximate annual impact on net investment income of base rate changes in interest rates (considering interest rate flows for variable rate instruments) to our loan portfolio and outstanding debt as of June 30, 2015, assuming no changes in our investment and borrowing structure:

(in thousands except per share data)	Net Investment Income	Net Investment Income per Share
Basis Point Change		
Up 400 basis points	\$30,605	\$ 0.129
Up 300 basis points	\$20,121	\$ 0.085
Up 200 basis points	\$9,807	\$ 0.041
Up 100 basis points	\$708	\$ 0.003

We may hedge against interest rate fluctuations from time-to-time by using standard hedging instruments such as futures, options and forward contracts subject to the requirements of the 1940 Act and applicable commodities laws. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio of investments.

Table of Contents

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

As of June 30, 2015 (the end of the period covered by this report), we, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the 1934 Act). Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed in our periodic SEC filings is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of such possible controls and procedures.

(b) Changes in Internal Controls Over Financial Reporting

Management has not identified any change in the Company's internal control over financing reporting that occurred during the first fiscal quarter of 2016 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

Item 1. Legal Proceedings

From time to time, we may become involved in various investigations, claims and legal proceedings that arise in the ordinary course of our business. Furthermore, third parties may try to seek to impose liability on us in connection with the activities of our portfolio companies. While we do not expect that the resolution of these matters if they arise would materially affect our business, financial condition or results of operations, resolution will be subject to various uncertainties and could result in the expenditure of significant financial and managerial resources.

On May 20, 2013, the Company was named as a defendant in a complaint by the bankruptcy trustee of DSI Renal Holdings and related companies ("DSI"). The complaint alleges, among other things, that the Company participated in a "fraudulent conveyance" involving a restructuring and subsequent sale of DSI in 2010 and 2011. The complaint seeks, jointly and severally from all defendants, (1) damages of approximately \$425 million, of which the Company's share would be approximately \$41 million, and the return of 9,000 shares of common stock of DSI obtained by the Company in the restructuring and sale and (2) punitive damages. At this point in time, the Company is unable to assess whether it may have any liability in this action. The Company has not made any determination that this action is or may be material to the Company and intends to vigorously defend itself. The Company has filed a motion to dismiss this litigation.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in the "Risk Factors" section of our Form 10-K filed on May 19, 2015, which could materially affect our business, financial condition and/or operating results. These risks are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures
