REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Directors and Officers of

Companhia Brasileira de Distribuição

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Brasileira de Distribuição (the “Company”), included in the Interim Financial Information Form (ITR), for the quarter ended March 31, 2015, which comprises the balance sheet as of March 31, 2015 and the related statements of profit or loss, of comprehensive income, of changes in equity and of cash flows for the three-month period then ended, including the explanatory notes.

Management is responsible for the preparation of the individual and consolidated interim financial information in accordance with technical pronouncement CPC 21 (R1) and international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express an opinion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the ITR referred to above is not prepared, in all material respects, in accordance with CPC 21 (R1) and

Edgar Filing: BRAZILIAN DISTRIBUTION CO COMPANHIA BRASILEIRA DE DISTR CBD - Form 6-K/A
IAS 34 applicable to the preparation of Interim Financial Information (ITR) and presented in
accordance with the standards issued by the CVM.

Emphasis of matter

On May 7, 2015, we issued an unqualified review report on the Company's individual and consolidated interim financial information for the quarter ended March 31, 2015, which is being restated. We draw attention to note 1.1 to the interim financial information, which describes that this interim financial information was amended and is being restated to reflect the adjustments identified after the completion of the investigation on indirect subsidiary Cnova Comércio Eletrônico S.A. Our conclusion remains unqualified, since the interim financial information were adjusted retrospectively.

Other matters

Statements of value added

We have also reviewed the individual and consolidated interim statements of value added ("DVA") for the three-month period ended March 31, 2015, prepared under Management's responsibility, the presentation of which is required by the standards issued by the CVM applicable to the preparation of Interim Financial Information (ITR), and is considered as supplemental information under International Financial Reporting Standards - IFRSs, which do not require the presentation of a DVA. These statements, which were amended and are being restated to reflect the adjustments described in note 1.1 to the interim financial information, were subject to the same review procedures described above, and, based on our review, nothing has come to our attention that causes us to believe that they are not prepared, in all material respects, consistently with the interim financial information taken as a whole.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil.

Subsequently, the scope of investigation was expanded to include an evaluation over the discrepancies related to accounts payables, accounts receivables/products in transit with freight companies, freight provisions and other expenses and improper capitalization of expenses relating to software development.

As a result, Cnova identified several erros in the financial statements and, consequently, as it is controlled by the Company and consolidated for the presentation of the financial statements, such effects resulted in the same errors in the previously issued financial statements of the Company.

There is no deferred income tax impact over the adjustments, once the Company evaluated and concluded that the deferred income tax would not be recoverable.

1. Corporate information – Continued

1.2 Reclassification of Malls revenue

1.2.1 Statement of income: Revenues and costs with commercial galleries rental, which were previously recorded as recovery of selling expenses, were reclassified to "net sales of goods and/or services" and "cost of goods sold and/or services sold" respectively due to an increase in the share of this activity in the Multivarejo segment and considering the expectations of new launches of the ventures "Conviva" and the expected increase in future operations, better presenting this activity in the Group's financial statements. The Company's management considers an appropriate procedure to adopt the current classification in order to allow comparability and a final classification of these revenues and costs.

1.2.2 Statement of value added: According to the changes mentioned above, the line items that were changed in the statement of value added refer to sales of goods of R\$31 and R\$40, other revenues and expenses of R\$28 and R\$36, cost of goods sold and materials, energy, outsourced services and others in the amounts of R\$8 and R\$11, and taxes and contributions of R\$3 and R\$4, parent company and consolidated, respectively.

In the individual interim financial information, equity interests are calculated considering the percentage held by GPA or its subsidiaries. In the consolidated Interim financial information, the Company fully consolidates all its subsidiaries, keeping noncontrolling interests in a specific line item in shareholders' equity.

3.2. Associates – BINV and FIC

Investments are accounted under the equity method because these associates are entities over which the Company exercises significant influence, but not control, since (a) it is a party to the shareholders' agreement, appointing certain officers and having veto rights in certain relevant decisions, (b) the power over the operating and financial decisions of BINV and FIC is held by Banco Itaú Unibanco S.A (“Itaú Unibanco”).

FIC's summarized interim financial information is as follows:

	3.31.2015	FIC	12.31.2014
Current assets		3,712	3,815
Noncurrent assets		35	35

Total assets	3,747	3,850
Current liabilities	2,806	2,963
Noncurrent liabilities	12	15
Shareholders' equity	929	872
Total liabilities and shareholders' equity	3,747	3,850
<u>Statement of income:</u>	3.31.2015	3.31.2014
Revenues	258	241
Operating income	99	76
Net income for the period	57	41

For the purposes of measurement of the investment in this associate, the special goodwill reserve recorded by FIC should be deducted from its shareholders' equity, since it is Itaú Unibanco's (controlling shareholder) exclusive right.

Notes to the interim financial information

March 31, 2015

(In millions of Brazilian reais, unless otherwise stated)

4. Significant accounting policies

Except for the item mentioned below, the significant accounting policies adopted by the Company in the preparation of the individual and consolidated interim financial information are consistent with those adopted and disclosed in Note 4 to the financial statements for the year ended December 31, 2014 dated February 12, 2015 and therefore should be read in conjunction with those annual financial statements.

4.1. Present value adjustment of assets and liabilities

Until 2014, Company recorded the adjustment to present value ("AVP") over the credit card receivables instalments without interest, after the sale of these amounts to the credit card companies, even considering that receivables were not long term (in average received in 4 months) and the impacts not significant on the short term. The reversal of the adjustment recorded was made in the net sales, once the financing to clients is part of the Company's business. In 2015, the accounting practice of recording AVP over the sales using credit card was discontinued. Company aims to reduce the average term of receipt, and interest on installment sales in a higher portion of sales. These balances on December 31, 2014, were R\$6.

The long term assets and liabilities continue to be adjusted, considering the contractual cash flows and respective interest rate.

5. Adoption of new standards, amendments to and interpretations of existing standards issued by the IASB and CPC and standards issued but not yet effective

With the exception of the item mentioned below, the adoption of new standards, amendments to and interpretations of existing standards issued by the IASB and CPC and standards issued but not yet effective are consistent with those adopted and disclosed in note 5 to the financial statements for the year ended December 31, 2014 dated February 12, 2015, there are no significant effect to the Company.

Except for standards "IFRS 15 – Revenue from contracts with customers" and "IFRS 16 – Leases" which impacts are under analysis by Company. In relation to IFRS 16 there are expected relevant impacts in the financial statements.

6. Significant accounting judgments, estimates and assumptions

Judgments, estimates and assumptions

The preparation of the Company's individual and consolidated interim financial information requires Management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of the reporting period; however, uncertainties about these assumptions and estimates may result in outcomes that require adjustments to the carrying amount of the affected asset or liability in future periods.

The significant assumptions and estimates for interim financial information for the three-month period ended March 31, 2015 were the same as those adopted in the individual and consolidated financial statements for the year ended December 31, 2014 dated February 12, 2015 and therefore should be read in conjunction with those annual financial statements, except for the impairment test, which is conducted annually, observing indicators during the year as described in notes 15 and 16.

23.3.Tax

As per prevailing legislation, tax claims are subject to monetary indexation, which refers to an adjustment to the provision for tax risks according to the indexation rates used by each tax jurisdiction. In all cases, both the interest charges and fines, when applicable, were computed and fully provisioned with respect to unpaid amounts.

The main provisioned tax claims are as follows:

COFINS and PIS

Since the noncumulative regime to calculate PIS and COFINS has been used, the Company and its subsidiaries have challenged the right to deduct ICMS from the base of these two contributions. The amount accrued as at March 31, 2015 is R\$ 77 (R\$ 72 as at December 31, 2014).

Tax and others

Tax

The Company and its subsidiaries have other tax claims, which after analysis by its legal counsel, were considered as probable losses and accrued by the Company. These refer to: (i) tax assessment notices related to purchase, industrialization and sale of soybean and byproducts exports (PIS, COFINS and IRPJ); (ii) challenge on the non-application of the Accident Prevention Factor - FAP for 2011; (iii) challenge on the Poverty Fighting Fund established by the Rio de Janeiro State Government; (iv) challenges on purchases from suppliers considered not qualified in the State Finance Department registry, error in application of rate and accessory obligations by State tax authorities; and (v) other less relevant issues.

The amount accrued for these matters as at March 31, 2015 is R\$111 (R\$108 as at December 31, 2014).

The Federal Supreme Court ("STF") on October 16, 2014 decided that ICMS taxpayers that trade products included in the "basked of food staples" have no right to fully utilize the ICMS credits. The Company, with the assistance of its legal counsel, decided that it would be an appropriate procedure to record a provision for this matter amounting to R\$ 143 as at March 31, 2015 (R\$147 as at December 31, 2014) since this claim is considered a "probable" loss. The amounts accrued represent Management's best estimate of the probable cash disbursement to settle this claim.

The Company claims in court the eligibility to not pay the contributions provided for by Supplementary Law 110/01, referring to the FGTS (Government Severance Indemnity Fund for Employees) costs. The accrued amount as at March 31, 2015 is R\$51 (R\$48 as at December 31, 2014).

The Company also recorded a provision for contingent tax liabilities related to the equity interest of Cdiscount S.A., as required by CPC 15 (IFRS 3). As at March 31, 2015, the contingent tax liabilities amount to R\$21 (R\$20 as at December 31, 2014).

Others

Provisions for contingent tax liabilities were recorded as a result of the business combination with Via Varejo, as required by CPC 15 (IFRS 3). As at March 31, 2015, the recorded amount related to contingent tax liabilities is R\$88 (R\$87 as at December 31, 2014). .

These accrued claims refer to administrative proceedings related to the offset of tax debts against credits from the contribution levied on coffee exports.

Contingency Bartira

In line with the business combination of Bartira in 2013 (details are provided in note 15 to the 2013 financial statements), contingent tax liabilities were assessed at fair value, as required by CPC 15 (IFRS 3R), the assessment of which differs from CPC 25 (IAS 37), the standard used for the assessment of other contingencies. The main matter refers to possible failure in supporting documentation of transactions, totaling R\$106 in income tax, social contribution, PIS, COFINS and ICMS, and total contingent liabilities amount to R\$118 (tax R\$106 and labor R\$12).

REFIS (tax debt refinancing program)

Law 12,996/2014 amended by Provisional Act - MP 651, introduced interest and penalties reduction benefits for cash payments and payments in installments of federal debts. The Company considered an appropriate procedure to enroll in the REFIS program to settle part of its debts, utilizing also part of the tax losses for payment of the debt balance.

23.4.Labor

The Company and subsidiaries are parties to various labor lawsuits mainly due to termination of employees in the ordinary course of business. At March 31, 2015, the Company recorded a provision amount of R\$541 (R\$521 as at December 31, 2014) related to the potential risk of loss on these lawsuits. Management, with the assistance of its legal counsel, assesses these claims recording a provision for losses when reasonably estimable, based on past experiences in relation to the amounts claimed. Labor lawsuits are indexed to the benchmark interest rate ("TR"), 0.23% as at March 31, 2015 (0.86% as at December 31, 2014) plus monthly interest of 1%.

23.5.Civil and others

The Company and its subsidiaries are parties to civil lawsuits at several court levels (indemnities and collections, among others) and at different courts. The Company's management records provisions in amounts considered sufficient to cover unfavorable court decisions, when its legal counsel considers the loss as probable.

23.5.Civil and others – Continued

Among these lawsuits, we point out the following:

- The Company and its subsidiaries are parties to various lawsuits requesting the renewal of rental agreements and the review of the current rent paid. The Company recognizes a provision for the difference between the amount originally paid by the stores and the amounts pleaded by the adverse party (owner of the property) in the lawsuit, when internal and external legal counsel consider that it is probable that the rent amount will be changed by the entity. As at March 31, 2015, the amount accrued for these lawsuits is R\$45 (R\$55 as at December 31, 2014), for which there are no escrow deposits.
- The subsidiary Via Varejo is a party to lawsuits involving consumer relationship rights (civil actions and assessments from PROCON) and lawsuits involving contracts terminated with suppliers and the amount claimed in these lawsuits totals R\$88 as at March 31, 2015 (R\$86 as at December 31, 2014).

Total civil lawsuits and others as at March 31, 2015 amount to R\$232 (R\$234 as at December 31, 2014).

- INSS (Social Security Contribution) – GPA was assessed for non-levy of payroll charges on benefits granted to its employees, among other matters, for which possible loss amounts to R\$389 as at March 31, 2015 (R\$318 as at December 31, 2014). The lawsuits are under administrative and court discussions.
- IRPJ, withholding income tax - IRRF, CSLL, tax on financial transactions - IOF, withholding income tax on net income, ILL – GPA has several assessment notices regarding offsetting proceedings, rules on the deductibility of provisions, payment divergences and overpayments; fine for failure to comply with accessory obligations, among other less significant taxes. The lawsuits await administrative and court ruling. The amount involved is R\$ 1,404 as at March 31, 2015 (R\$1,368 as at December 31, 2014).

Among those claims, there are some related to challenges of differences in the payment of income tax, supposedly due under the allegation that there was undue deduction of goodwill amortization resulting from transactions between shareholders Casino and Abilio Diniz in relation to years 2007-2011. The amount involved (and included in the paragraph above) is R\$ 711 as at March 31, 2015 (R\$ 692 as at December 31, 2014), partly classified as possible loss and partly classified as remote loss.

The Company in conjunction with its consultants analyzed the terms of the Notice and is convinced that the Arbitral Award does not have the effects attributed by SRE, and for this reason it will submit an appeal to CVM's Board of Commissioners, with request of suspensive effect, with view to alter the order set forth in the Notice.
