Top of the Form

Item 1.04 Mine Safety - Reporting of Shutdowns and Patterns of Violations.

Section 1503(b)(1) of the Dodd-Frank Act requires the disclosure on a Current Report on Form 8-K of the receipt of an imminent danger order (an "Order") under section 107(a) of the Federal Mine Safety and Health Act of 1977 issued by the Mine Safety and Health Administration ("MSHA").

On August 13, 2013, Pinnacle Mining Company, LLC (the "Company"), a wholly owned subsidiary of Cliffs Natural Resources Inc., received a 107(a) order related to an elevated methane level along the company's active longwall gob area. All non-essential personnel were removed from the affected area and production from the longwall was halted. The condition was remediated the same day, with MSHA terminating the order on August 14, 2012.

The condition cited in the Order referred to above did not result in an accident or injury and are not expected to have a material adverse impact on the Company's operations at the mine.
