FUTURE HEALTHCARE OF AMERICA

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization On June 22, 2012, FAB Universal (FAB) formed Future Healthcare of America (FHA), a wholly owned subsidiary. On October 1, 2012, FHA operations were spun-off in a 1 for 1 dividend to the shareholders of record of FAB on September 5, 2012, the record date. Interim Healthcare of Wyoming, Inc. ("Interim"), a Wyoming corporation, a wholly owned subsidiary of Future Healthcare of America, was organized on September 30, 1991.

Interim operates primarily in the home healthcare and healthcare staffing services in Wyoming and Montana. On April 3, 2007, Interim purchased the operations of Professional Personnel, Inc., d.b.a., Professional Nursing Personnel Pool.

Accounting Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Management made assumptions and estimates for determining reserve for accounts receivable, obsolete inventory and in determining the impairment of definite life intangible assets and goodwill. Actual results could differ from those estimated by management.

Cash and Cash Equivalents The Company considers all highly liquid investments with an original maturity date of three months or less when purchased to be cash equivalents. At March 31, 2014, the Company had \$419,638 cash balances in excess of federally insured limits.

Accounts Receivable - Accounts receivable consist of trade receivables arising in the normal course of business. At March 31, 2014 and 2013, the Company has an allowance for doubtful accounts of \$20,200, which reflects the Company's best estimate of probable losses inherent in the accounts receivable balance. The Company determines the allowance based on known troubled accounts, historical experience, and other currently available evidence. During the three months ended March 31, 2014 and 2013, the Company adjusted the allowance for bad debt by \$0.

Depreciation - Depreciation of property and equipment is provided on the straight-line method over the estimated useful lives.

Goodwill - Goodwill is evaluated for impairment annually in the fourth quarter of the Company's fiscal year, and whenever events or changes in circumstances indicate the carrying value of goodwill may not be recoverable. Triggering events that may indicate impairment include, but are not limited to, a significant adverse change in

customer demand or business climate that could affect the value of goodwill or a significant decrease in expected cash flows.

Income /(Loss) Per Share - The Company computes income (loss) per share in accordance with Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 260 Earnings Per Share, which requires the Company to present basic earnings per share and diluted earnings per share when the effect is dilutive (see Note 7).

Leases - The Company accounts for leases in accordance with Financial FASB ASC Topic 840, (formerly Statement of Financial Accounting Standards SFAS No. 13 "Accounting for Leases"). Leases that meet one or more of the capital lease criteria of standard are recorded as a capital lease, all other leases are operating leases.

FUTURE HEALTHCARE OF AMERICA

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Income Taxes - The Company accounts for income taxes in accordance with FASB ASC Topic 740 Accounting for Income Taxes. This topic requires an asset and liability approach for accounting for income taxes (see Note 8).

Advertising Costs - Advertising costs are expensed as incurred and amounted to \$8,366 and \$13,280 for the periods ending March 31, 2014 and 2013, respectively.

Fair Value of Financial Instruments The Company accounts for fair value measurements for financial assets and financial liabilities in accordance with FASB ASC Topic 820. The authoritative guidance, which, among other things, defines fair value, establishes a consistent framework for measuring fair value and expands disclosure for each major asset and liability category measured at fair value on either a recurring or nonrecurring basis. Fair value is defined as the exit price, representing the amount that would either be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the guidance establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1. Observable inputs such as quoted prices in active markets for identical assets or liabilities;

Level 2. Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3. Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Unless otherwise disclosed, the fair value of the Company's financial instruments including cash, accounts receivable, prepaid expenses, and accounts payable and accrued expenses approximates their recorded values due to their short-term maturities.

Derivative Financial Instruments The Company is required to recognize all of its derivative instruments as either assets or liabilities in the Consolidated Balance Sheets at fair value. The accounting for changes in the fair value (i.e., gains or losses) of a derivative instrument depends on whether it has been designated, and is effective, as a hedge and further, on the type of hedging relationship. For those derivative instruments that are designated and qualify as hedging instruments, a company must designate the hedging instrument, based upon the exposure being hedged, as a fair value hedge, or cash flow hedge. Gains and losses related to a hedge are either recognized in income immediately to offset the gain or loss on the hedged item or are deferred and reported as a component of Accumulated Other Comprehensive Income in the Stockholders' Equity and subsequently recognized in Net income when the hedged item affects Net income. The change in fair value of the ineffective portion of a financial instrument is recognized in Net income immediately. The gain or loss related to financial instruments that are not designated as hedges are recognized immediately in Net income.

Revenue Recognition - Revenue is generated from various payers including Medicare, Medicaid, Insurance Companies, and various other entities and individuals. In accordance with FASB ASC Topic 605, Revenue is recognized when persuasive evidence of an arrangement exists, services have been provided, the price of services is fixed or determinable, and collection is reasonably assured. Payments received prior to services being provided are recorded as a liability (deferred revenue) until such services are performed. Revenue is recorded as net revenue where contractual adjustments and discounts are deducted from Gross Revenue to determine net revenue.

Recently Enacted Accounting Standards - Recent accounting pronouncements issued by the FASB did not or are not believed by management to have a material impact on the Company's present or future financial statements.

Depreciation expense for the periods ended March 31, 2014 and 2013 was \$34 and \$286, respectively.

NOTE 3 - GOODWILL

Impairment - During the fourth quarter of 2013, FHA management performed its annual test of impairment of goodwill by comparing the net carrying value of the intangible asset with the fair value of the reporting unit. Based upon the results of this analysis, it was determined that the goodwill was not impaired.

Goodwill - The following is a summary of goodwill:

NOTE 4 VARIABLE RATE SENIOR SECURED CONVERTIBLE DEBENTURE

On September 9, 2013, the Company closed a Subscription Agreement by which one institutional investor purchased a) a Variable Rate Senior (8% at March 31, 2014) Secured Convertible Note payable having a total principal amount of \$1,010,000, convertible into common shares of the Company at the lesser of \$0.25 per share or the average market price of the Company stock for the 20 days prior to the conversion and maturing March 9, 2015; b) Warrants to purchase a total of 3,030,000 shares of common stock, at \$0.50 per share, exercisable for four years, and c) a greenshoe to purchase a total of 2,000,000 shares of common stock at \$0.25 per share, exercisable for one year from the closing date. The fair value of the beneficial conversion feature of the warrants and greenshoe totaled \$952,254 and was recorded as a derivative liability until the registration statement becomes effective. The Company recorded a discount on the note for beneficial conversion feature of the note. The \$952,254 discount on the beneficial conversion feature is being amortized as interest expense over the term of the note. As of March 31, 2014, the Company has amortized \$375,944 of the discount, with the remaining \$576,310 unamortized discount being offset against the outstanding balance of the note in the accompanying balance sheet. As of March 31, 2014, the Company had accrued interest payable on the debenture of \$20,200.

NOTE 5 DERIVATIVE FINANCIAL INSTRUMENTS

The Company entered into a variable rate senior secured convertible debenture, wherein the Company agreed to register the underlying share, warrants and greenshoe. The fair value of the beneficial conversion feature of the warrants and greenshoe was estimated using the Black Scholes pricing model and totaled \$952,254 upon issuance and was recorded as a derivative liability until the registration of the shares becomes effective. As of March 31, 2014, the fair value of the unregistered conversion feature, warrants and green shoe was \$497,920, and a gain totaling \$16,302 was recorded for the three months ended March 31, 2014.

NOTE 6 FAIR VALUE OF FINANCIAL INSTRUMENTS

The Fair Value Measurement and Disclosure Topic of FASB and ASC:

.

Defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establishes a framework for measuring fair value;

.

Establishes a three-level hierarchy for fair value measurement based upon the transparency of inputs to the valuation as of the measurement date;

.

Expands disclosures about financial instruments measured at fair value.

Financial assets and financial liabilities record on the Balance sheet at fair value are categorized based on the reliability of inputs to the valuation techniques as follows:

Level 1: Financial assets and financial liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Company can access.

Level 2: Financial assets and financial liabilities whose values are based on the following:

Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in non-active markets or Valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the assets or liability

Level 3: Financial assets and financial liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs may reflect our estimates of the assumptions that market participants would use in valuing the financial assets and financial liabilities.

On September 9, 2013, the Company closed a Subscription Agreement wherein the Company granted warrants to purchase a total of 3,030,000 shares of common stock, at \$0.50 per share, exercisable for four years, and a greenshoe to purchase a total of 2,000,000 shares of common stock at \$0.25 per share, exercisable for one year from the closing date

NOTE 9 - INCOME TAXES

The Company accounts for income taxes in accordance with FASB ASC Topic 740, Accounting for Income Taxes which requires the Company to provide a net deferred tax asset or liability equal to the expected future tax benefit or expense of temporary reporting differences between book and tax accounting and any available operating loss or tax credit carryforwards. At March 31, 2014 and March 31, 2013 the total of all deferred tax assets was \$498,834 and \$431,582, respectively, and the total of the deferred tax liabilities was \$0 and \$0, respectively. The amount of and ultimate realization of the benefits from the deferred tax assets for income tax purposes is dependent, in part, upon the tax laws in effect, the Company's future earnings, and other future events. The Company anticipates earnings in the near future and the realization of the benefit of the deferred tax assets. We file U.S. federal, and U.S. states return, we are generally no longer subject to tax examinations for years prior to 2009 for U.S. federal and U.S. states tax returns.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Safe Harbor Statement.

Statements made in this Form 10-Q which are not purely historical are forward-looking statements with respect to the goals, plan objectives, intentions, expectations, financial condition, results of operations, future performance and business of the Company, including, without limitation, (i) our ability to gain a larger share of the home healthcare industry, our ability to continue to develop services acceptable to our industry, our ability to retain our business relationships, and our ability to raise capital and the growth of the home healthcare industry, and (ii) statements preceded by, followed by or that include the words "may", "would", "could", "should", "expects", "projects", "anticipates", "believes", "estimates", "plans", "intends", "targets", "tend" or similar expressions.

Forward-looking statements involve inherent risks and uncertainties, and important factors (many of which are beyond the Company's control) that could cause actual results to differ materially from those set forth in the forward-looking statements, including the following, in addition to those contained in the Company's reports on file with the Securities and Exchange Commission: general economic or industry conditions, nationally and/or in the communities in which the Company conducts business, changes in the interest rate environment, legislation or regulatory requirements, conditions of the securities markets, changes in the home healthcare industry, the development of services that may be superior to the services offered by the Company, competition, changes in the quality or composition of the Company's services, our ability to develop new services, our ability to raise capital, changes in accounting principles, policies or guidelines, financial or political instability, acts of war or terrorism, other economic, competitive, governmental, regulatory and technical factors affecting the Company's operations, services and prices.

Accordingly, results actually achieved may differ materially from expected results in these statements.

Forward-looking statements speak only as of the date they are made. The Company does not undertake, and specifically disclaims, any obligation to update any forward-looking statements to reflect events or circumstances occurring after the date of such statements.

Business Highlights

Based in Casper, Wyoming, and Billings, Montana, FHA's wholly-owned subsidiary, Interim Healthcare of Wyoming, Inc., a Wyoming corporation (Interim), is an independent franchisee of Interim HealthCare that has been serving its community for 18 years and is providing a wide range of visiting nurse services to the elderly, wounded and sick. It is one of the 300 independent home health agencies that comprise the Interim HealthCare network. Our business consists of providing healthcare services for those in need. We record all revenue and expenses and provide all services under one umbrella. Below is a description of our Home Healthcare and Staffing operations.

As the census (number of patients utilizing facilities) in the hospitals fluctuates, we are taking the necessary steps to position ourselves for the ups and downs of the census for these facilities. Our home healthcare service continued to generate the majority of our revenue during the first quarter of 2014.

During the first quarter of 2014, FHA experienced an 18% decrease in revenue over the first quarter of 2013. This was driven by decreases across both locations as well as within both staffing and home health businesses.

In 2014, we have seen a decrease in the census within the hospitals in both locations as well as the utilization of our staffing services in Billings, Montana. During the first quarter of 2014, we have seen a significant decrease in the utilization of our staffing services as our clients set their goals and objectives for operating their facilities. These facilities are reducing the utilization of our staffing services. As for our operations, we anticipate the trends seen in the fourth quarter of 2013 and the first quarter of 2014 to continue throughout the remainder of 2014. As such, we will continue to evaluate opportunities to expand the realm of services we offer. Promotional activities and operations are being managed as the offices experience fluctuations in the day-to-day activities and as we embark on new business opportunities.

Our home healthcare business continues to be a substantial revenue generator for our Company as our country's population ages and new methods of patient data capture become critical components for delivering high quality, affordable healthcare services in a patient's home. Although this has been a gradual process, we continue to build a solid business that will offer a complimentary package of new technology and traditional services.

Home Healthcare

Through trained health care professionals, FHA provides home care services including senior care and pediatric nursing; physical, occupational and speech therapy. FHA offices deliver quality home care and treat each patient with genuine compassion, kindness and respect. FHA provides health care professionals at all skill levels, including registered nurses, therapists, LPN's and certified home health aides. FHA derives its revenue from multiple payer sources. These include Medicare, Medicaid, Insurance, Medicaid LTW, and Private Payers. Because our offices are located in areas that do not contain a large population base (less than 200,000 residents), we continually explore opportunities to increase our revenue with our current payer sources and expand through new sources of revenue. The healthcare team is utilized across all payer sources, including staffing services. Our customer base comes from referrals from hospitals, rehab facilities, nursing homes, assisted living facilities and previous patients.

In addition to our professional team, we employ a management team at each facility to handle the day to day direction of the office. This is provided by our Administrators. We also have a Director of Nursing in each location. This person is responsible for the day to day oversight of the service providers and ensuring the certified professionals obtain the necessary training to maintain their certificates as well as the training necessary to be in compliance with all regulating organizations.

Staffing

FHA provide nurses, nurse aides and management services to hospitals, prisons, schools, corporations and other health care facilities. FHA's success is based on our ability to recruit the best health care professionals and the responsiveness of our local managers to fill the needs of our clients in a timely manner. Additionally, we work with our clients should they decide they would like to hire our service professional on a full time basis. Another key to our success is the personal relationship that our management and sales team build with each of our existing and new clients. As noted previously, in order to reduce turnover of our service team by providing as many hours as possible, similar to the hours of a full-time employee, we utilize the same service team members across all payer sources.

As each of our businesses is located in smaller based population areas of the country, the competition is significantly heightened and the relationships maintained with our clients become very critical to the continued success of our operations.

As we provide diversified services and accept payments from multiple payer sources, we are not heavily dependent on a few clients in order for our business to be successful.

Results of Operations

Three Months Ended March 31, 2014 and 2013.

During the three months ended March 31, 2014, FHA recorded revenues of \$992,531, an 18% decrease over revenues of \$1,212,611 for the same period in 2013. The decrease for 2014 reflects a decrease in revenue driven by a significant decrease in the use of our staffing services in Billings, Montana in comparison to prior year, down 29%.

This was driven by our staffing clients make strategic changes in directions to meet their goals and objectives, and reflects a continuation of the trend we experience in the fourth quarter of 2013. We also saw decreases in our home health businesses, down 7% in Billings, and down 15% in Casper.

For the quarter ended March 31, 2014, cost of services totaled \$732,850, a 13% decrease as compared to \$838,862 in the comparable period of 2013. This is a reflection of the costs associated with the decrease in revenue. FHA posted a gross profit of \$259,681 during the first quarter 2014, versus a gross profit of \$373,749 for the first quarter of 2013, a decrease of 30%.

Edgar Filing: Future Healthcare of America - Form 10-Q

FHA recorded total operating expenses of \$354,592 during the first quarter of 2014, a 3% increase as compared to operating expenses of \$344,815 in the same period of 2013. General and administrative expenses totaled \$117,753 in the first quarter 2014 versus \$105,604 in the first quarter 2013, an increase of 12%, due to an increase in rent expense for the office space added. Consulting fees increased from \$57,740 to \$67,827 when comparing the first quarter of 2013 versus 2014. The increase was driven by addition of a consultant to assist in the growth of the organization through expansion in the healthcare industry. Salaries, wages and related expenses decreased to \$154,273 in the first quarter of 2014 from \$161,184 in 2013, a decrease of 4%. This decrease was driven by the decrease in bonus due to the poor performance in the first quarter. Selling expenses in the first quarter of 2014 were \$14,739 versus \$20,287 in the comparable quarter of 2013, driven by decreased spending for advertising.

FHA's net loss available to common shareholders was \$267,109 for the first quarter of 2014. This represents a 952% decrease from our net income of \$31,332 in the first quarter of 2013. A significant portion of this change was due the recording of accretion of interest (\$168,333) on the discount on the note payable

Liquidity and Capital Resources.

Cash on hand was \$1,104,036 at March 31, 2014, an increase of \$30,350 from the \$1,073,686 on hand at December 31, 2014. Cash provided by operations for the three months ended March 31, 2014, was \$30,350, a decrease of \$1,863 over the \$32,213 cash provided by operations for the three months ended March 31, 2013. The decrease in accounts receivable is a direct result of the collections efforts experienced during the first three months of 2014 and was the catalyst for the operations providing the increase in cash during the first quarter of 2014.

Overall, the operations of FHA generated the increase in the cash balance of \$30,350 from December 31, 2013 to March 31, 2014.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not required for smaller reporting companies.

Item 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

Our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")), which we refer to as disclosure controls, are controls and procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Exchange Act, such as this report, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. There are inherent limitations to the effectiveness of any control system. A control system, no matter how well conceived and operated, can provide only reasonable assurance that its objectives are met. No evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected.

As of March 31, 2014, an evaluation was carried out under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that, as of such date, the design and operation of these disclosure controls were effective to accomplish their objectives at the reasonable assurance level.

(b) Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act), occurred during the fiscal quarter ended March 31, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
