SECURITIES AND EXCHANGE COMMISSION

Washington, DC 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number: 1-31987

Hilltop Holdings Inc.

(Exact name of registrant as specified in its charter)

Maryland
(State or other jurisdiction of incorporation or
organization)

84-1477939
(I.R.S. Employer Identification No.)

2323 Victory Avenue, Suite 1400

Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

Dallas, TX
(Address of principal executive offices)

75219
(Zip Code)

(214) 855-2177

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer
(Do not check if a smaller reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The number of shares of the registrant's common stock outstanding at July 26, 2018 was 94,576,828.

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(Unaudited)

1. Summary of Significant Accounting and Reporting Policies

Nature of Operations

Hilltop Holdings Inc. (“Hilltop” and, collectively with its subsidiaries, the “Company”) is a financial holding company registered under the Bank Holding Company Act of 1956. The Company’s primary line of business is to provide business and consumer banking services from offices located throughout Texas through PlainsCapital Bank (the “Bank”). In addition, the Company provides an array of financial products and services through its broker-dealer, mortgage origination and insurance subsidiaries.

The Company, headquartered in Dallas, Texas, provides its products and services through three primary business units, PlainsCapital Corporation (“PCC”), Hilltop Securities Holdings LLC (“Securities Holdings”) and National Lloyds Corporation (“NLC”). PCC is a financial holding company that provides, through its subsidiaries, traditional banking, wealth and investment management and treasury management services primarily in Texas and residential mortgage lending throughout the United States. Securities Holdings is a holding company that provides, through its subsidiaries, investment banking and other related financial services, including municipal advisory, sales, trading and underwriting of taxable and tax-exempt fixed income securities, equity trading, clearing, securities lending, structured finance and retail brokerage services throughout the United States. NLC is a property and casualty insurance holding company that provides, through its subsidiaries, fire and homeowners insurance to low value dwellings and manufactured homes primarily in Texas and other areas of the southern United States.

On February 13, 2018, the Company entered into a definitive agreement to acquire privately-held, Houston-based The Bank of River Oaks (“BORO”) in an all-cash transaction. Under the terms of the definitive agreement, the Company has agreed to pay cash in the aggregate amount of \$85 million to the shareholders and option holders of BORO. As of December 31, 2017, BORO had total assets, gross loans and deposits of \$454.4 million, \$343.6 million and \$406.1 million, respectively. The acquisition was approved by BORO shareholders in May 2018 and was subsequently approved by regulators. The transaction is expected to close on or about August 1, 2018.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”), and in conformity with the rules and regulations of the Securities and Exchange Commission (the “SEC”). In the opinion of management, these financial statements contain all adjustments necessary for a fair statement of the results of the interim periods presented. Accordingly, the financial statements do not include all of the information and footnotes required by GAAP for complete financial statements and should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017 (“2017 Form 10-K”). Results for interim periods are not necessarily indicative of results to be expected for a full year or any future period.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates regarding the allowance for loan losses, the fair values of financial instruments, the amounts receivable from the Federal Deposit Insurance Corporation (the “FDIC”) under loss-share agreements (the “FDIC Indemnification Asset”), reserves for losses and loss adjustment expenses (“LAE”), the mortgage loan indemnification liability, and the potential impairment of assets are particularly subject to change. The Company has applied its critical accounting policies and estimation methods consistently in all periods presented in these consolidated financial statements.

Hilltop owns 100% of the outstanding stock of PCC. PCC owns 100% of the outstanding stock of the Bank and 100% of the membership interest in Hilltop Opportunity Partners LLC, formerly known as PlainsCapital Equity, LLC, a merchant bank utilized to facilitate investments in companies engaged in non-financial activities. The Bank owns 100% of the outstanding stock of PrimeLending, a PlainsCapital Company (“PrimeLending”).

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

PrimeLending owns a 100% membership interest in PrimeLending Ventures Management, LLC (“Ventures Management”), which holds an ownership interest in and is the managing member of certain affiliated business arrangements (“ABAs”).

PCC also owns 100% of the outstanding common securities of PCC Statutory Trusts I, II, III and IV (the “Trusts”), which are not included in the consolidated financial statements under the requirements of the Variable Interest Entities Subsections of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) because the primary beneficiaries of the Trusts are not within the consolidated group.

Hilltop has a 100% membership interest in Securities Holdings, which operates through its wholly owned subsidiaries, Hilltop Securities Inc. (“Hilltop Securities”), Hilltop Securities Independent Network Inc. (“HTS Independent Network”) (collectively, the “Hilltop Broker-Dealers”) and First Southwest Asset Management, LLC. Hilltop Securities is a broker-dealer registered with the SEC and Financial Industry Regulatory Authority (“FINRA”) and a member of the New York Stock Exchange (“NYSE”), HTS Independent Network is an introducing broker-dealer that is also registered with the SEC and FINRA, and First Southwest Asset Management, LLC is a registered investment adviser under the Investment Advisers Act of 1940.

Hilltop also owns 100% of NLC, which operates through its wholly owned subsidiaries, National Lloyds Insurance Company (“NLIC”) and American Summit Insurance Company (“ASIC”).

The consolidated financial statements include the accounts of the above-named entities. Intercompany transactions and balances have been eliminated. Noncontrolling interests have been recorded for minority ownership in entities that are not wholly owned and are presented in compliance with the provisions of Noncontrolling Interest in Subsidiary Subsections of the ASC.

Certain reclassifications have been made to the prior period consolidated financial statements to conform with the current period presentation, including reclassifications due to the adoption of new accounting pronouncements. In preparing these consolidated financial statements, subsequent events were evaluated through the time the financial statements were issued. Financial statements are considered issued when they are widely distributed to all stockholders and other financial statement users, or filed with the SEC.

Significant accounting policies are detailed in Note 1 to the consolidated financial statements included in the Company's 2017 Form 10-K. The Company has updated its accounting policies related to securities as a result of the adoption of Accounting Standards Update ("ASU") 2016-01 as presented below.

Securities

Management classifies securities at the time of purchase and reassesses such designation at each balance sheet date. Securities held for resale to facilitate principal transactions with customers are classified as trading, and are carried at fair value, with changes in fair value reflected in the consolidated statements of operations. Hilltop reports interest income on trading securities as interest income on securities and other changes in fair value as other noninterest income.

Debt securities held but not intended to be held to maturity or on a long-term basis are classified as available for sale. Securities included in this category are those that management intends to use as part of its asset/liability management strategy and that may be sold in response to changes in interest rates, resultant prepayment risk, and other factors related to interest rate and resultant prepayment risk changes. Debt securities available for sale are carried at fair value. Unrealized holding gains and losses on debt securities available for sale, net of taxes, are reported in other comprehensive income (loss) until realized. Premiums and discounts are recognized in interest income using the effective interest method and consider any optionality that may be embedded in the security.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Equity securities are carried at fair value, with changes in fair value reflected in the consolidated statements of operations. Equity securities that do not have readily determinable fair values are initially recorded at cost and are remeasured when there is (i) an observable transaction involving the same investment, (ii) an observable transaction involving a similar investment from the same issuer or (iii) an impairment. These remeasurements are reflected in the consolidated statements of operations.

Purchases and sales (and related gain or loss) of securities are recorded on the trade date, based on specific identification. Declines in the fair value of available-for-sale debt securities below their cost that are deemed to be other than temporary are reflected in earnings as realized losses to the extent the other-than-temporary impairment (“OTTI”) is related to credit losses. The amount of the OTTI related to other factors is recognized in other comprehensive income (loss). In estimating OTTI, management considers in developing its best estimate of cash flows, among other things, (i) the length of time and the extent to which the fair value has been less than cost, (ii) the financial condition and near-term prospects of the issuer, (iii) the historic and implied volatility of the security, (iv) failure of the issuer to make scheduled interest payments and (v) changes to the rating of the security by a rating agency.

2. Recently Issued Accounting Standards

Adoption of New Accounting Standards

In February 2018, FASB issued ASU 2018-02 to help organizations address certain stranded income tax effects in accumulated other comprehensive income (“AOCI”) resulting from the Tax Cuts and Jobs Act of 2017 (“Tax Legislation”). The amendment provides an option to reclassify stranded tax effects within AOCI to retained earnings in each period in which the effect of the changes in the U.S. federal corporate income tax rate in the Tax Legislation (or portion thereof) is recorded. The amendment also includes disclosure requirements regarding the issuer’s accounting policy for releasing income tax effects from AOCI. The amendment is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018. As permitted within the amendment, the Company elected to early adopt and apply the provisions of this amendment as of January 1, 2018. The adoption of the amendment resulted in a reclassification of \$0.1 million from AOCI to retained earnings, representing an increase to retained earnings. This reclassification is included within the adoption of accounting standards line item in the consolidated statements of stockholders’ equity.

In May 2017, FASB issued ASU 2017-09 which provides clarity and reduces both diversity in practice and cost and complexity associated with changes to the terms or conditions of a share-based payment award and, specifically, which changes require an entity to apply modification accounting. The amendments in this update are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. The Company adopted the amendments as of January 1, 2018, which did not have a significant effect on the Company's consolidated financial statements.

In January 2017, FASB issued ASU 2017-01 which provides guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The amendment is effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2017, using the prospective method. The Company adopted the amendment as of January 1, 2018 and will prospectively apply its provisions.

In November 2016, FASB issued ASU 2016-18 which requires that restricted cash be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. We have adopted the requirements of the new standard as of January 1, 2018. The adoption of this ASU had no impact on our consolidated statements of cash flows.

In October 2016, FASB issued ASU 2016-16 which addresses improvement in accounting for income tax consequences of intra-equity transfers of assets other than inventory. The amendment requires that an entity recognize the income tax consequences of the intra-equity transfer of an asset other than inventory when the transfer occurs. The amendment was effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15,

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

2017, using the modified retrospective transition method. The Company adopted the amendment as of January 1, 2018, which did not have a significant effect on the Company's consolidated financial statements.

In August 2016, FASB issued ASU 2016-15 to add or clarify guidance on the classification of certain cash receipts and payments in the statement of cash flows and to eliminate the diversity in practice related to such classifications. The amendments are effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2017 using a retrospective transition method. The Company adopted the amendments as of January 1, 2018, which did not have a significant effect on the Company's consolidated financial statements.

In January 2016, FASB issued ASU 2016-01 related to financial instruments and subsequently issued technical corrections to the amendment in ASU 2018-03. The amendments require that most equity investments be measured at fair value, with subsequent changes in fair value recognized in net income. The amendments also impact financial liabilities under the Fair Value Option and the presentation and disclosure requirements for financial instruments and modify the required process used to evaluate deferred tax assets on available for sale securities. The amendments are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. The Company adopted the amendments as of January 1, 2018, which resulted in \$21.2 million of securities being reclassified from available for sale to equity within the consolidated balance sheets consistent with the provisions of the amendments, while certain other equity investments of \$42.2 million are included in other assets within the consolidated balance sheets at June 30, 2018. The adoption of the amendments also resulted in \$2.5 million being reclassified from accumulated other comprehensive income to retained earnings, representing an increase to retained earnings as of January 1, 2018. This reclassification is included within the adoption of accounting standards line item in the consolidated statement of stockholders' equity. All subsequent changes in fair value related to these equity investments will be recognized in net income. Additionally, the enhanced disclosures required by the amendments are included within the notes to the consolidated financial statements, including the disclosure of the fair value of the loan portfolio using an exit price method instead of the prior discounted cash flow method. These disclosure changes did not have a significant effect on the Company's consolidated financial statements.

In July 2015, the FASB issued ASU 2015-14, which deferred the effective date of ASU 2014-09 by one year, to clarify the principles for recognizing revenue from contracts with customers. The FASB has subsequently issued several amendments to the standard, including clarification of principal versus agent considerations, narrow scope improvements and other technical corrections, all of which are codified in ASC 606, Revenue from Contracts with Customers. The amendments outline a single comprehensive model for entities to depict the transfer of goods or services to customers in amounts that reflect the payment to which a company expects to be entitled in exchange for those goods or services. The amendments also require additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The amendments are effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2017 and

have been adopted as of January 1, 2018 using the modified, cumulative-effect approach wherein the guidance is applied only to existing contracts as of the date of initial application and to new contracts entered into thereafter. Revenue from the Company's mortgage origination and insurance segments are not in the scope of the new guidance, while certain revenue from contracts with customers within the broker-dealer and banking segments are subject to the new guidance. There were no material changes to the revenue recognition policies of the banking segment upon adoption.

The revenue recognition policies within the Company's broker-dealer segment were affected upon adoption of ASC 606. Specifically, the new guidance required changes to the principal versus agent conclusion for certain advisory and underwriting revenues and expenses which, as of January 1, 2018, are recorded on a gross basis while legacy guidance required these revenues to be recognized net of the related expenses. Conversely, certain contract costs related to clearing and retail operations are now netted against the revenues while the legacy guidance required these revenues and expenses to be recognized on a gross basis. These changes did not have a material effect on the Company's consolidated financial statements during the three and six months ended June 30, 2018. As the measurement and timing of revenue

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

recognition was not affected for any of the Company's revenue streams, the implementation of the new guidance had no impact on opening retained earnings as of January 1, 2018.

The Company's broker-dealer segment has six primary lines of business: (i) public finance, (ii) capital markets, (iii) retail, (iv) structured finance, (v) clearing services and (vi) securities lending. Revenue from contracts with customers subject to the guidance in ASC 606 from the broker-dealer segment is included within the securities commissions and fees and investment and securities advisory fees and commissions line items within the consolidated statements of operations. Commissions and fees revenue is generally recognized at a point in time upon the delivery of contracted services based on a predefined contractual amount or on the trade date for trade execution services based on prevailing market prices and internal and regulatory guidelines.

The Company's banking segment has three primary lines of business: (i) business banking, (ii) personal banking and (iii) wealth and investment management. Revenue from contracts with customers subject to the guidance in ASC 606 from the banking segment (certain retail and trust fees) is included within the other noninterest income line item within the consolidated statements of operations. Retail and trust fees are generally recognized at the time the related transaction occurs or when services are completed. Fees are based on the dollar amount of the transaction or are otherwise predefined in contracts associated with each customer account depending on the type of account and services provided.

Accounting Standards Issued But Not Yet Adopted

In August 2017, FASB issued ASU 2017-12 which provides targeted improvements to accounting for hedging activities. The purpose of the amendment is to better align a company's risk management activities with its financial reporting for hedging relationships, to simplify the hedge accounting requirements and to improve the disclosures of hedging arrangements. The amendment is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted, and all transition requirements and elections should be applied to hedging relationships existing on the date of adoption. The Company has not historically applied hedge accounting to its derivative transactions. However, the Company is currently evaluating the provisions of the amendment and the impact, if any, on its future consolidated financial statements.

In June 2016, FASB issued ASU 2016-13 which sets forth a "current expected credit loss" (CECL) model which requires entities to measure all credit losses expected over the life of an exposure (or pool of exposures) for financial instruments held at the reporting date based on historical experience, current conditions and reasonable and

supportable forecasts. The new standard, which is codified in ASC 326, Financial Instruments – Credit Losses, replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost and applies to some off-balance sheet credit exposures. The new standard also requires enhanced disclosures to help financial statement users better understand significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an entity’s portfolio. The new standard is effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2019 with a cumulative-effect adjustment to retained earnings as of the beginning of the reporting period of adoption. The Company does not intend to adopt the provisions of the new standard early. The Company’s cross-functional team has begun the implementation of new credit forecasting models and a credit scoring system that will be utilized to estimate the likelihood of default and loss severity at the individual loan level as a part of its credit loss estimation methodology in accordance with the new standard. In addition, the Company continues to identify and assess key interpretive policy issues, as well as design and build new or modified policies and procedures that will be used to calculate its credit loss reserves. However, the magnitude of the change in allowance for loan losses upon adoption will depend on, among other things, the portfolio composition and quality at the adoption date, as well as economic conditions and forecasts at that time.

In February 2016, FASB issued ASU 2016-02 related to leases and subsequently issued technical corrections in ASU 2018-10. The new standard is intended to increase transparency and comparability among organizations and require lessees to record a right-to-use asset and liability representing the obligation to make lease payments for long-term leases. Accounting by lessors will remain largely unchanged. The new standard is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018. Adoption will require a modified retrospective transition where the lessees and lessors are required to recognize and measure leases at the date of adoption

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

which is January 1, 2019 for calendar year-end entities. The Company's implementation efforts are ongoing, including the installation of an enhanced technology solution, which will aid in determining the magnitude of the increases in assets and liabilities and their impact on the consolidated financial statements. The Company expects to recognize lease liabilities and corresponding right-of-use assets (at their present value) related to predominantly all of the future minimum lease payments required under operating leases as disclosed in Note 18 to the consolidated financial statements in the 2017 Form 10-K. Upon implementation, the balance sheet effects of the new lease accounting standard will also impact regulatory capital ratios, performance ratios, and other measures which are dependent upon asset or liability balances. However, the population of contracts subject to balance sheet recognition, their initial measurement, and the expected impact to the aforementioned balances and measures remains under evaluation.

3. Fair Value Measurements

Fair Value Measurements and Disclosures

The Company determines fair values in compliance with The Fair Value Measurements and Disclosures Topic of the ASC (the "Fair Value Topic"). The Fair Value Topic defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. The Fair Value Topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Fair Value Topic assumes that transactions upon which fair value measurements are based occur in the principal market for the asset or liability being measured. Further, fair value measurements made under the Fair Value Topic exclude transaction costs and are not the result of forced transactions.

The Fair Value Topic includes a fair value hierarchy that classifies fair value measurements based upon the inputs used in valuing the assets or liabilities that are the subject of fair value measurements. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs, as indicated below.

- Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities that the Company can access at the measurement date.
- Level 2 Inputs: Observable inputs other than Level 1 prices. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, yield curves, prepayment speeds, default rates, credit risks and loss severities), and inputs that are derived from or corroborated by market data, among others.
- Level 3 Inputs: Unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing the assets or liabilities. Level 3 inputs include pricing models and discounted cash flow techniques, among others.

Fair Value Option

The Company has elected to measure substantially all of PrimeLending's mortgage loans held for sale and retained mortgage servicing rights ("MSR") asset at fair value, under the provisions of the Fair Value Option. The Company elected to apply the provisions of the Fair Value Option to these items so that it would have the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. At June 30, 2018 and December 31, 2017, the aggregate fair value of PrimeLending's mortgage loans held for sale accounted for under the Fair Value Option was \$1.81 billion and \$1.58 billion, respectively, and the unpaid principal balance of those loans was \$1.75 billion and \$1.53 billion, respectively. The interest component of fair value is reported as interest income on loans in the accompanying consolidated statements of operations.

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The Company holds a number of financial instruments that are measured at fair value on a recurring basis, either by the application of the Fair Value Option or other authoritative pronouncements. The fair values of those instruments are determined primarily using Level 2 inputs. Those inputs include quotes from mortgage loan investors and derivatives dealers and data from independent pricing services. The fair value of loans held for sale is determined using an exit price method.

The following tables present information regarding financial assets and liabilities measured at fair value on a recurring basis (in thousands).

	Level 1	Level 2	Level 3	Total
June 30, 2018	Inputs	Inputs	Inputs	Fair Value

Loans held for sale	\$ 36,972	\$ 20,550	\$ (12,513)	\$ (4,228)	\$ —	\$ 40,781
MSR asset	54,714	9,729	(9,303)	2,233	—	57,373
Total	\$ 91,686	\$ 30,279	\$ (21,816)	\$ (1,995)	\$ —	\$ 98,154
Three months ended June 30, 2017						
Loans held for sale	30,214	8,675	(6,722)	(2,130)	—	30,037
MSR asset	45,573	1,266	—	(3,259)	—	43,580
Total	\$ 75,787	\$ 9,941	\$ (6,722)	\$ (5,389)	\$ —	\$ 73,617
Six months ended June 30, 2017						
Loans held for sale	35,801	16,503	(17,423)	(4,844)	—	30,037
MSR asset	61,968	2,490	(17,499)	(3,379)	—	43,580
Total	\$ 97,769	\$ 18,993	\$ (34,922)	\$ (8,223)	\$ —	\$ 73,617

All net realized and unrealized gains (losses) in the tables above are reflected in the accompanying consolidated financial statements. The unrealized gains (losses) relate to financial instruments still held at June 30, 2018.

For Level 3 financial instruments measured at fair value on a recurring basis at June 30, 2018, the significant unobservable inputs used in the fair value measurements were as follows.

Financial instrument	Valuation Technique	Unobservable Inputs	Range (Weighted-Average)
Loans held for sale	Discounted cash flows / Market comparable	Projected price	94 - 97 % (94 %)
MSR asset	Discounted cash flows	Constant prepayment rate	9.27 %
		Discount rate	11.09 %

The fair value of certain loans held for sale that cannot be sold through normal sale channels or are non-performing is measured using Level 3 inputs. The fair value of such loans is generally based upon estimates of expected cash flows using unobservable inputs, including listing prices of comparable assets, uncorroborated expert opinions, and/or management's knowledge of underlying collateral.

The MSR asset, which is included in other assets within the Company's consolidated balance sheets, is reported at fair value using Level 3 inputs. The MSR asset is valued by projecting net servicing cash flows, which are then discounted to estimate the fair value. The fair value of the MSR asset is impacted by a variety of factors. Prepayment rates and discount rates, the most significant unobservable inputs, are discussed further in Note 7 to the consolidated financial statements.

The Company had no transfers between Levels 1 and 2 during the periods presented.

MSR asset	2,233	—	2,233	(3,379)	—	(3,379)

The Company also determines the fair value of certain assets and liabilities on a non-recurring basis. In addition, facts and circumstances may dictate a fair value measurement when there is evidence of impairment. Assets and liabilities measured on a non-recurring basis include the items discussed below.

Impaired Loans — The Company reports individually impaired loans based on the underlying fair value of the collateral through specific allowances within the allowance for loan losses. Purchased credit impaired (“PCI”) loans with a fair value of \$172.9 million, \$822.8 million and \$73.5 million were acquired by the Company upon completion of the merger with PCC (the “PlainsCapital Merger”), the FDIC-assisted transaction whereby the Bank acquired certain assets and assumed certain liabilities of Edinburg, Texas-based First National Bank (“FNB”) on September 13, 2013 (the “FNB Transaction”), and the acquisition of SWS Group, Inc. (“SWS”) in a stock and cash transaction (the “SWS Merger”), whereby SWS’s banking subsidiary, Southwest Securities, FSB, was merged into the Bank, respectively (collectively, the “Bank Transactions”). Substantially all PCI loans acquired in the FNB Transaction are covered by FDIC loss-share agreements. The fair value of PCI loans was determined using Level 3 inputs, including estimates of expected cash flows that incorporated significant unobservable inputs regarding default rates, loss severity rates assuming default, prepayment speeds on acquired loans accounted for in pools (“Pooled Loans”), and estimated collateral values.

At June 30, 2018, estimates for these significant unobservable inputs were as follows.

	PCI Loans					
	PlainsCapital		FNB		SWS	
	Merger		Transaction		Merger	
Weighted average default rate	81	%	38	%	69	%
Weighted average loss severity rate	66	%	15	%	29	%
Weighted average prepayment speed	0	%	6	%	0	%

At June 30, 2018, the resulting weighted average expected loss on PCI loans associated with the PlainsCapital Merger, FNB Transaction and SWS Merger was 54%, 6% and 20%, respectively.

The Company obtains updated appraisals of the fair value of collateral securing impaired collateral-dependent loans at least annually, in accordance with regulatory guidelines. The Company also reviews the fair value of such collateral on a quarterly basis. If the quarterly review indicates that the fair value of the collateral may have deteriorated, the Company orders an updated appraisal of the fair value of the collateral. Because the Company obtains updated appraisals when evidence of a decline in the fair value of collateral exists, it typically does not adjust appraised values.

Other Real Estate Owned — The Company determines fair value primarily using independent appraisals of other real estate owned (“OREO”) properties. The resulting fair value measurements are classified as Level 2 inputs. In the FNB Transaction, the Bank acquired OREO of \$135.2 million, all of which is covered by FDIC loss-share agreements. At June 30, 2018 and December 31, 2017, the estimated fair value of covered OREO was \$34.9 million and \$36.7 million, respectively, and the underlying fair value measurements utilized Level 2 inputs. The fair value of non-covered OREO at

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

June 30, 2018 and December 31, 2017 was \$2.9 million and \$3.9 million, respectively, and is included in other assets within the consolidated balance sheets. During the reported periods, all fair value measurements for non-covered OREO subsequent to initial recognition utilized Level 2 inputs.

The following table presents information regarding certain assets and liabilities measured at fair value on a non-recurring basis for which a change in fair value has been recorded during reporting periods subsequent to initial recognition (in thousands).

June 30, 2018	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value	Total Gains (Losses) for the		Total Gains (Losses) for the	
					Three Months Ended June 30, 2018	2017	Six Months Ended June 30, 2018	2017
Non-covered impaired loans	\$ —	\$ —	\$ 19,465	\$ 19,465	\$ (1,446)	\$ (274)	\$ (1,471)	\$ (470)
Covered impaired loans	—	—	72,953	72,953	844	(611)	746	(977)
Non-covered other real estate owned	—	225	—	225	(25)	(108)	(76)	(123)
Covered other real estate owned	—	15,996	—	15,996	(669)	(943)	(1,724)	(2,135)

The Fair Value of Financial Instruments Subsection of the ASC requires disclosure of the fair value of financial assets and liabilities, including the financial assets and liabilities previously discussed. In accordance with ASU 2016-01, effective January 1, 2018, the fair values of non-covered and covered loans are measured using an exit price method. There have been no other changes to the methods for determining estimated fair value for financial assets and liabilities as described in detail in Note 3 to the consolidated financial statements included in the Company's 2017 Form 10-K.

The following tables present the carrying values and estimated fair values of financial instruments not measured at fair value on either a recurring or non-recurring basis (in thousands).

June 30, 2018	Carrying Amount	Estimated Fair Value			Total
		Level 1 Inputs	Level 2 Inputs	Level 3 Inputs

Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

The Company held equity investments other than securities of \$42.2 million and \$38.7 million at June 30, 2018 and December 31, 2017, respectively, which are included within other assets in the consolidated balance sheets. Of the \$42.2 million held at June 30, 2018, \$26.2 million do not have readily determinable fair values and are measured at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. The following table presents the adjustments to the carrying value of these investments (in thousands).

	Three months ended, June 30, 2018	Six months ended, June 30, 2018

Commercial mortgage-backed securities	8,664	6,125
Collateralized mortgage obligations	1	5,122
Corporate debt securities	80,361	96,182
States and political subdivisions	112,646	170,413
Unit investment trusts	27,480	22,612
Private-label securitized product	3,684	1,631
Other	3,440	3,705
Totals	\$ 634,197	\$ 730,685

The Hilltop Broker-Dealers enter into transactions that represent commitments to purchase and deliver securities at prevailing future market prices to facilitate customer transactions and satisfy such commitments. Accordingly, the Hilltop Broker-Dealers' ultimate obligations may exceed the amount recognized in the financial statements. These securities, which are carried at fair value and reported as securities sold, not yet purchased in the consolidated balance sheets, had a value of \$251.6 million and \$232.8 million at June 30, 2018 and December 31, 2017, respectively.

The amortized cost and fair value of available for sale and held to maturity securities are summarized as follows (in thousands).

Additionally, the Company had unrealized net gains of \$1.0 million and \$1.6 million from equity securities with fair values of \$21.2 million held at both June 30, 2018 and December 31, 2017, respectively. The Company recognized net gains of \$0.1 million during the three months ended June 30, 2018, and net losses of \$0.5 million during the six months ended June 30, 2018, due to changes in the fair value of equity securities still held at the balance sheet date. During the three and six months ended June 30, 2018, net gains recognized from equity securities sold were nominal.

During the three and six months ended June 30, 2018 and 2017, the Company did not record any OTTI. While some of the securities held in the Company's investment portfolio have decreased in value since the date of acquisition, the severity of loss and the duration of the loss position are not significant enough to warrant recording any OTTI of the securities. Factors considered in the Company's analysis include the reasons for the unrealized loss position, the severity and duration of the unrealized loss position, credit worthiness, and forecasted performance of the investee. The Company does not intend to sell, nor does the Company believe that it is likely that the Company will be required to sell, these securities before the recovery of the cost basis.

Commercial mortgage-backed securities	11,817	11,578	79,776	77,267
	\$ 826,515	\$ 811,218	\$ 353,192	\$ 339,702

The Company realized net gains of \$6.8 million and \$7.0 million from its trading portfolio during the three months ended June 30, 2018 and 2017, respectively, and \$1.9 million and \$12.9 million during the six months ended June 30, 2018 and 2017, respectively. In addition, the Hilltop Broker-Dealers realized net gains from structured product trading activities of \$0.4 million and \$10.5 million during the three months ended June 30, 2018 and 2017, respectively, and \$17.4 million and \$17.0 million during the six months ended June 30, 2018 and 2017, respectively. All such realized net gains and losses are recorded as a component of other noninterest income within the consolidated statements of operations.

Securities with a carrying amount of \$630.2 million and \$738.5 million (with a fair value of \$613.6 million and \$730.1 million, respectively) at June 30, 2018 and December 31, 2017, respectively, were pledged to secure public and trust deposits, federal funds purchased and securities sold under agreements to repurchase, and for other purposes as required or permitted by law. Substantially all of these pledged securities were included in our available for sale and held to maturity securities portfolios at June 30, 2018 and December 31, 2017.

Mortgage-backed securities and collateralized mortgage obligations consist primarily of Government National Mortgage Association (“GNMA”), Federal National Mortgage Association (“FNMA”) and Federal Home Loan Mortgage Corporation (“FHLMC”) pass-through and participation certificates. GNMA securities are guaranteed by the full faith

and credit of the United States, while FNMA and FHLMC securities are fully guaranteed by those respective United States government-sponsored agencies, and conditionally guaranteed by the full faith and credit of the United States.

At both June 30, 2018 and December 31, 2017, NLC had investments on deposit in custody for various state insurance departments with aggregate carrying values of \$9.3 million.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

5. Non-Covered Loans and Allowance for Non-Covered Loan Losses

Non-covered loans refer to loans not covered by the FDIC loss-share agreements. Covered loans are discussed in Note 6 to the consolidated financial statements. Non-covered loans summarized by portfolio segment are as follows (in thousands).

	June 30, 2018	December 31, 2017
Commercial and industrial	\$ 1,655,431	\$ 1,681,205
Real estate	3,142,496	3,011,524
Construction and land development	948,309	962,605
Consumer	38,262	40,446
Broker-dealer (1)	600,162	577,889
	6,384,660	6,273,669
Allowance for non-covered loan losses	(59,996)	(60,957)
Total non-covered loans, net of allowance	\$ 6,324,664	\$ 6,212,712

(1) Represents margin loans to customers and correspondents associated with our broker-dealer segment operations.

In connection with the Bank Transactions, the Company acquired non-covered loans both with and without evidence of credit quality deterioration since origination. The following table presents the carrying values and the outstanding balances of non-covered PCI loans (in thousands).

	June 30, 2018	December 31, 2017
Carrying amount	\$ 26,665	\$ 37,204
Outstanding balance	39,714	51,064

Changes in the accretable yield for non-covered PCI loans were as follows (in thousands).

	Three Months Ended		Six Months Ended June	
	June 30,		30,	
	2018	2017	2018	2017
Balance, beginning of period	\$ 6,093	\$ 11,442	\$ 7,013	\$ 13,116
Reclassifications from nonaccretable difference, net(1)	(92)	438	550	577
Disposals of loans	—	(61)	(98)	(61)
Accretion	(742)	(2,026)	(2,206)	(3,839)
Balance, end of period	\$ 5,259	\$ 9,793	\$ 5,259	\$ 9,793

(1) Reclassifications from nonaccretable difference are primarily due to net increases in expected cash flows in the quarterly recasts. Reclassifications to nonaccretable difference occur when accruing loans are moved to non-accrual and expected cash flows are no longer predictable and the accretable yield is eliminated.

The remaining nonaccretable difference for non-covered PCI loans was \$19.1 million and \$19.2 million at June 30, 2018 and December 31, 2017, respectively.

Impaired loans exhibit a clear indication that the borrower's cash flow may not be sufficient to meet contractual principal and interest payments, which generally occurs when a loan is 90 days past due unless the asset is both well secured and in the process of collection. Non-covered impaired loans include non-accrual loans, troubled debt restructurings ("TDRs"), PCI loans and partially charged-off loans.

The amounts shown in the following tables include loans accounted for on an individual basis, as well as acquired Pooled Loans. For Pooled Loans, the recorded investment with allowance and the related allowance consider impairment measured at the pool level. Non-covered impaired loans, segregated between those considered to be PCI loans and those without credit impairment at acquisition, are summarized by class in the following tables (in thousands).

Consumer	49	56
Broker-dealer	—	—

\$ 38,906 \$ 37,779

At June 30, 2018 and December 31, 2017, non-covered non-accrual loans included non-covered PCI loans of \$5.3 million and \$3.3 million, respectively, for which discount accretion has been suspended because the extent and timing of cash flows from these non-covered PCI loans can no longer be reasonably estimated. In addition to the non-covered non-accrual loans in the table above, \$3.1 million and \$2.7 million of real estate loans secured by residential properties and classified as held for sale were in non-accrual status at June 30, 2018 and December 31, 2017, respectively.

Interest income, including recoveries and cash payments, recorded on non-covered impaired loans was \$0.1 million during both the three months ended June 30, 2018 and 2017, and \$0.1 million and \$0.4 million during the six months ended June 30, 2018 and 2017, respectively. Except as noted above, non-covered PCI loans are considered to be performing due to the application of the accretion method.

The Bank classifies loan modifications as TDRs when it concludes that it has both granted a concession to a debtor and that the debtor is experiencing financial difficulties. Loan modifications are typically structured to create affordable payments for the debtor and can be achieved in a variety of ways. The Bank modifies loans by reducing interest rates and/or lengthening loan amortization schedules. The Bank may also reconfigure a single loan into two or more loans (“A/B Note”). The typical A/B Note restructure results in a “bad” loan which is charged off and a “good” loan or loans, the terms of which comply with the Bank’s customary underwriting policies. The debt charged off on the “bad” loan is not forgiven to the debtor.

In addition to the non-covered loans shown in the tables above, PrimeLending had \$73.4 million and \$84.5 million of loans included in loans held for sale (with an aggregate unpaid principal balance of \$74.0 million and \$85.2 million, respectively) that were 90 days past due and accruing interest at June 30, 2018 and December 31, 2017, respectively. These loans are guaranteed by U.S. government agencies and include loans that are subject to repurchase, or have been repurchased, by PrimeLending.

Management tracks credit quality trends on a quarterly basis related to: (i) past due levels, (ii) non-performing asset levels, (iii) classified loan levels, (iv) net charge-offs, and (v) general economic conditions in state and local markets.

The Company utilizes a risk grading matrix to assign a risk grade to each of the loans in its portfolio with the exception of broker-dealer margin loans. A risk rating is assigned based on an assessment of the borrower's management, collateral position, financial capacity, and economic factors. The general characteristics of the various risk grades are described below.

Pass – “Pass” loans present a range of acceptable risks to the Company. Loans that would be considered virtually risk-free are rated Pass – low risk. Loans that exhibit sound standards based on the grading factors above and present a reasonable risk to the Company are rated Pass – normal risk. Loans that exhibit a minor weakness in one or more of the grading criteria but still present an acceptable risk to the Company are rated Pass – high risk.

Special Mention – “Special Mention” loans have potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in a deterioration of the repayment prospects for the loans and weaken the Company's credit position at some future date. Special Mention loans are not adversely classified and do not expose the Company to sufficient risk to require adverse classification.

Substandard – “Substandard” loans are inadequately protected by the current sound worth and paying capacity of the obligor or the collateral pledged, if any. Loans so classified must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected. Many substandard loans are considered impaired.

PCI – “PCI” loans exhibited evidence of credit deterioration at acquisition that made it probable that all contractually required principal payments would not be collected.

Allowance for Loan Losses

The allowance for loan losses is subject to regulatory examinations and determinations as to adequacy, which may take into account such factors as the methodology used to calculate the allowance and the size of the allowance. The Company's analysis of the level of the allowance for loan losses to ensure that it is appropriate for the estimated credit losses in the portfolio consistent with the Interagency Policy Statement on the Allowance for Loan and Lease Losses and the Receivables and Contingencies Topics of the ASC is described in detail in Note 5 to the consolidated financial statements included in the Company's 2017 Form 10-K.

6. Covered Assets and Indemnification Asset

The Bank acquired certain assets and assumed certain liabilities of FNB in connection with an FDIC-assisted transaction on September 13, 2013 (the “Bank Closing Date”). As part of the Purchase and Assumption Agreement by and among the FDIC (as receiver of FNB), the Bank and the FDIC (the “P&A Agreement”), the Bank and the FDIC entered into loss-share agreements covering future losses incurred on certain acquired loans and OREO. The Company

refers to acquired commercial and single family residential loan portfolios and OREO that are subject to the loss-share agreements as “covered loans” and “covered OREO”, respectively, and these assets are presented as separate line items in the Company’s consolidated balance sheets. Collectively, covered loans and covered OREO are referred to as “covered assets”. Pursuant to the loss-share agreements, the FDIC has agreed to reimburse the Bank the following amounts with respect to the covered assets: (i) 80% of net losses on the first \$240.4 million of net losses incurred; (ii) 0% of net losses in excess of \$240.4 million up to and including \$365.7 million of net losses incurred; and (iii) 80% of net losses in excess of \$365.7 million of net losses incurred. Net losses are defined as book value losses plus certain defined expenses incurred in the resolution of assets, less subsequent recoveries. Under the loss-share agreement for commercial assets, the amount of subsequent recoveries that are reimbursable to the FDIC for a particular asset is limited to book value losses and expenses actually billed plus any book value charge-offs incurred prior to the Bank Closing Date. There is no limit on the amount of subsequent recoveries reimbursable to the FDIC under the loss-share agreement for single family residential assets. The loss-share agreements for commercial and single family residential assets are in effect for five years and ten years, respectively, from the Bank Closing Date, and the loss recovery provisions to the FDIC are in effect for eight years and ten years, respectively, from the Bank Closing Date. The asset arising from the loss-share agreements, referred to as the “FDIC Indemnification Asset,” is measured separately from the covered loan portfolio because the agreements are not contractually embedded in the covered loans and are not transferable should the Bank choose to dispose of the covered loans.

In accordance with the loss-share agreements, the Bank may be required to make a “true-up” payment to the FDIC approximately ten years following the Bank Closing Date if its actual net realized losses over the life of the loss-share agreements are less than the FDIC’s initial estimate of losses on covered assets. The “true-up” payment is calculated using a defined formula set forth in the P&A Agreement. At June 30, 2018, the Bank has recorded a related “true-up” payment accrual of \$16.6 million based on the current estimate of aggregate realized losses on covered assets over the life of the loss-share agreements.

Covered Loans and Allowance for Covered Loan Losses

Loans acquired in the FNB Transaction that are subject to a loss-share agreement are referred to as “covered loans” and reported separately in the consolidated balance sheets. Covered loans are reported exclusive of the cash flow reimbursements that may be received from the FDIC.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The Bank's portfolio of acquired covered loans had a fair value of \$1.1 billion as of the Bank Closing Date, with no carryover of any allowance for loan losses. Acquired covered loans were preliminarily segregated between those considered to be PCI loans and those without credit impairment at acquisition.

In connection with the FNB Transaction, the Bank acquired loans both with and without evidence of credit quality deterioration since origination. The Company's accounting policies for acquired covered loans, including covered PCI loans, are consistent with the accounting policies for acquired non-covered loans, as described in Note 5 to the consolidated financial statements. The Company has established under its PCI accounting policy a framework to aggregate certain acquired covered loans into various loan pools based on a minimum of two layers of similar risk characteristics for the purpose of determining their respective fair values as of their acquisition dates, and for applying the subsequent recognition and measurement provisions for income accretion and impairment testing.

The following table presents the carrying value of the covered loans summarized by portfolio segment (in thousands).

	June 30, 2018	December 31, 2017
Commercial and industrial	\$ 938	\$ 1,055

Total covered loans, net of allowance	\$ 158,996	\$ 179,400

The following table presents the carrying value and the outstanding contractual balance of covered PCI loans (in thousands).

	June 30, 2018	December 31, 2017
Carrying amount	\$ 75,473	\$ 87,113
Outstanding balance	151,529	179,019

Changes in the accretable yield for covered PCI loans were as follows (in thousands).

	Three Months Ended		Six Months Ended June	
	June 30, 2018	2017	30, 2018	2017
Balance, beginning of period	\$ 87,593	\$ 142,466	\$ 91,833	\$ 143,731
Reclassifications from nonaccretable difference, net (1)	3,228	11,618	9,715	23,024
Transfer of loans to covered OREO (2)	(656)	(662)	(847)	(780)
Accretion	(8,772)	(25,115)	(19,308)	(37,668)
Balance, end of period	\$ 81,393	\$ 128,307	\$ 81,393	\$ 128,307

- (1) Reclassifications from nonaccretable difference are primarily due to net increases in expected cash flows in the quarterly recasts, but may also include the reclassification and immediate income recognition of nonaccretable difference due to the favorable resolution of loans accounted for individually. Reclassifications to nonaccretable difference occur when accruing loans are moved to non-accrual and expected cash flows are no longer predictable and the accretable yield is eliminated.
- (2) Transfer of loans to covered OREO is the difference between the value removed from the pool and the expected cash flows for the loan.

The remaining nonaccretable difference for covered PCI loans was \$57.2 million and \$72.7 million at June 30, 2018 and December 31, 2017, respectively. During the three and six months ended June 30, 2018 and 2017, a combination of factors affecting the inputs to the Bank's quarterly recast process led to the reclassifications from nonaccretable difference to accretable yield. These transfers resulted from revised cash flows that reflect better-than-expected performance of the covered PCI loan portfolio as a result of the Bank's strategic decision to dedicate resources to the liquidation of covered loans during the noted periods.

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Covered impaired loans include non-accrual loans, TDRs, PCI loans and partially charged-off loans. The amounts shown in the following tables include Pooled Loans, as well as loans accounted for on an individual basis. For Pooled Loans, the recorded investment with allowance and the related allowance consider impairment measured at the pool level.

Covered impaired loans, segregated between those considered to be PCI loans and those without credit impairment at acquisition, are summarized by class in the following tables (in thousands).

Construction and land development:		
Residential construction loans	—	—
Commercial construction loans and land development	6	17
	\$ 5,277	\$ 5,104

At both June 30, 2018 and December 31, 2017, there were no covered non-accrual loans included in covered PCI loans for which discount accretion had been suspended because the extent and timing of cash flows from these covered PCI loans could no longer be reasonably estimated.

Interest income, including recoveries and cash payments, recorded on covered impaired loans was \$0.2 million during both the three months ended June 30, 2018 and 2017, while interest income recorded on covered impaired loans during both the six months ended June 30, 2018 and 2017 was \$0.3 million. Except as noted above, covered PCI loans are considered to be performing due to the application of the accretion method.

The Bank classifies loan modifications of covered loans as TDRs in a manner consistent with that of non-covered loans as discussed in Note 5 to the consolidated financial statements. The Bank did not grant any TDRs during the three and six months ended June 30, 2018 and 2017. Pooled Loans are not in the scope of the disclosure requirements for TDRs. At June 30, 2018 and December 31, 2017, the Bank had nominal unadvanced commitments to borrowers whose loans have been restructured in TDRs.

Covered Other Real Estate Owned

A summary of the activity in covered OREO is as follows (in thousands).

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Balance, beginning of period	\$ 35,777	\$ 45,374	\$ 36,744	\$ 51,642
Additions to covered OREO	2,351	3,404	4,846	5,127
Dispositions of covered OREO	(2,565)	(5,531)	(4,972)	(12,330)
Valuation adjustments in the period	(668)	(943)	(1,723)	(2,135)
Balance, end of period	\$ 34,895	\$ 42,304	\$ 34,895	\$ 42,304

During the three and six months ended June 30, 2018 and 2017, the Bank wrote down certain covered OREO assets to fair value to reflect new appraisals on certain OREO acquired in the FNB Transaction and OREO acquired from the foreclosure on certain FNB loans acquired in the FNB Transaction. Although the Bank recorded a fair value discount on the acquired assets upon acquisition, in some cases additional downward valuations were required. The downward valuations recorded during the three and six months ended June 30, 2018 and 2017 were related to covered assets subject to the loss-share agreements with the FDIC.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

These additional downward valuation adjustments reflect changes to the assumptions regarding the fair value of the OREO, including in some cases the intended use of the OREO due to the availability of more information, as well as the passage of time. The process of determining fair value is subjective in nature and requires the use of significant estimates and assumptions. Although the Bank makes market-based assumptions when valuing acquired assets, new information may come to light that causes estimates to increase or decrease. When the Bank determines, based on subsequent information, that its estimates require adjustment, the Bank records the adjustment. The accounting for such adjustments requires that the decreases to the initially recorded fair value be recorded at the time such new information is received, while increases to fair value are recorded when the asset is subsequently sold.

FDIC Indemnification Asset

A summary of the activity in the FDIC Indemnification Asset is as follows (in thousands).

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Balance, beginning of period	\$ 25,458	\$ 47,940	\$ 29,340	\$ 71,313
FDIC Indemnification Asset accretion (amortization)	(1,933)	(4,236)	(5,815)	(8,185)
Transfers to due from FDIC and other	—	(3,400)	—	(22,824)
Balance, end of period	\$ 23,525	\$ 40,304	\$ 23,525	\$ 40,304

As of June 30, 2018, the Bank had billed \$147.8 million to and collected \$145.8 million from the FDIC, which represented reimbursable covered losses and expenses through September 30, 2017.

7. Mortgage Servicing Rights

The following tables present the changes in fair value of the Company's MSR asset, as included in other assets within the consolidated balance sheets, and other information related to the serviced portfolio (dollars in thousands).

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Balance, beginning of period	\$ 63,957	\$ 45,573	\$ 54,714	\$ 61,968
Additions	3,068	1,266	9,729	2,490
Sales	(9,303)	—	(9,303)	(17,499)
Changes in fair value:				
Due to changes in model inputs or assumptions (1)	1,032	(2,064)	4,673	(1,207)
Due to customer payoffs	(1,381)	(1,195)	(2,440)	(2,172)
Balance, end of period	\$ 57,373	\$ 43,580	\$ 57,373	\$ 43,580

	June 30,	December 31,
	2018	2017
Mortgage loans serviced for others	\$ 4,394,219	\$ 4,762,042
MSR asset as a percentage of serviced mortgage loans	1.31 %	1.15 %

(1) Primarily represents normal customer payments, changes in discount rates and prepayment speed assumptions, which are primarily affected by changes in interest rates and the refinement of other MSR model assumptions.

The key assumptions used in measuring the fair value of the Company's MSR asset were as follows.

	June 30,	December 31,
	2018	2017
Weighted average constant prepayment rate	9.27 %	10.93 %
Weighted average discount rate	11.09 %	11.03 %
Weighted average life (in years)	7.6	6.9

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

A sensitivity analysis of the fair value of the Company's MSR asset to certain key assumptions is presented in the following table (in thousands).

	June 30, 2018	December 31, 2017
Constant prepayment rate:		
Impact of 10% adverse change	\$ (1,704)	\$ (1,948)
Impact of 20% adverse change	(3,473)	(3,839)
Discount rate:		
Impact of 10% adverse change	(2,401)	(2,135)
Impact of 20% adverse change	(4,604)	(4,103)

This sensitivity analysis presents the effect of hypothetical changes in key assumptions on the fair value of the MSR asset. The effect of such hypothetical change in assumptions generally cannot be extrapolated because the relationship of the change in one key assumption to the change in the fair value of the MSR asset is not linear. In addition, in the analysis, the impact of an adverse change in one key assumption is calculated independent of any impact on other assumptions. In reality, changes in one assumption may change another assumption.

Contractually specified servicing fees, late fees and ancillary fees earned of \$6.1 million and \$5.0 million during the three months ended June 30, 2018 and 2017, respectively, and \$11.8 million and \$11.5 million during the six months ended June 30, 2018 and 2017, respectively, were included in net gains from sale of loans and other mortgage production income within the consolidated statements of operations.

8. Deposits

Deposits are summarized as follows (in thousands).

June 30, 2018	December 31, 2017
------------------	----------------------

Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

Noninterest-bearing demand	\$ 2,468,332	\$ 2,411,849
Interest-bearing:		
NOW accounts	1,272,098	1,202,752
Money market	2,209,780	2,222,555
Brokered - money market	9,911	101,624
Demand	354,232	411,771
Savings	200,643	218,812

	\$ 7,813,622	\$ 7,978,119

9. Short-term Borrowings

Short-term borrowings are summarized as follows (in thousands).

	June 30, 2018	December 31, 2017
Federal funds purchased	\$ 78,350	\$ 101,775
Securities sold under agreements to repurchase	502,885	539,149
Federal Home Loan Bank	675,000	250,000
Short-term bank loans	354,500	315,500
	\$ 1,610,735	\$ 1,206,424

Federal funds purchased and securities sold under agreements to repurchase generally mature daily, on demand, or on some other short-term basis. The Bank and the Hilltop Broker-Dealers execute transactions to sell securities under

The Hilltop Broker-Dealers use short-term bank loans periodically to finance securities owned, margin loans to customers and correspondents, and underwriting activities. Interest on the borrowings varies with the federal funds rate. The weighted average interest rate on the borrowings at June 30, 2018 and December 31, 2017 was 2.82% and 2.27%, respectively.

10. Notes Payable

Notes payable consisted of the following (in thousands).

	June 30, 2018	December 31, 2017
Senior Notes due April 2025, net of discount of \$1,469 and \$1,545, respectively	\$ 148,531	\$ 148,455
FHLB notes, net of premium of \$261 and \$436, respectively, with maturities ranging from September 2020 to June 2030	4,603	19,402
NLIC note payable due May 2033	10,000	10,000
NLIC note payable due September 2033	10,000	10,000
ASIC note payable due April 2034	7,500	7,500
Insurance company line of credit due December 31, 2018	—	1,000
Ventures Management lines of credit due January 2019	47,102	12,452
	\$ 227,736	\$ 208,809

Table of Contents

11. Income Taxes

The Company applies an estimated annual effective rate to interim period pre-tax income to calculate the income tax provision for the quarter in accordance with the principal method prescribed by the accounting guidance established for computing income taxes in interim periods. The Company's effective tax rates were 24.3% and 29.1% during the three months ended June 30, 2018 and 2017, respectively, and 23.9% and 31.4% during the six months ended June 30, 2018 and 2017, respectively. The 2018 effective tax rates approximated the applicable statutory rates. The effective tax rates during the three and six months ended June 30, 2017 were lower than the statutory rate primarily due to a nontaxable increase to other noninterest income recorded as part of the resolution of the SWS matter as discussed in Note 12 to the consolidated financial statements, as the SWS Merger was a tax-free reorganization under Section 368(a) the Internal Revenue Code. The decreases in the Company's effective tax rates from periods in 2017 to periods in 2018 were primarily driven by the reduction in the corporate tax rate from 35% to 21% pursuant to the enactment of the Tax Legislation. Certain deferred tax asset amounts recorded in December 2017 following enactment of the Tax Legislation are considered reasonable estimates as of June 30, 2018 and could be adjusted during the measurement period, which will end in December 2018, as a result of further refinement of calculations, changes in interpretations and assumptions made, guidance that may be issued and actions the Company may take as a result of the Tax Legislation.

12. Commitments and Contingencies

Legal Matters

The Company is subject to loss contingencies related to litigation, claims, investigations and legal and administrative cases and proceedings arising in the ordinary course of business. The Company evaluates these contingencies based on information currently available, including advice of counsel. The Company establishes accruals for those matters when a loss contingency is considered probable and the related amount is reasonably estimable. Any accruals are periodically reviewed and may be adjusted as circumstances change. A portion of the Company's exposure with respect to loss contingencies may be offset by applicable insurance coverage. In determining the amounts of any accruals or estimates of possible loss contingencies, the Company does not take into account the availability of insurance coverage, other than that provided by reinsurers in the insurance segment. When it is practicable, the Company estimates loss contingencies for possible litigation and claims, whether or not there is accrued probable loss. When the Company is able to estimate such probable losses, and when it estimates that it is reasonably possible it could incur losses in excess of amounts accrued, the Company is required to make a disclosure of the aggregate

estimation. As available information changes, however, the matters for which the Company is able to estimate, as well as the estimate themselves, will be adjusted accordingly.

Assessments of litigation and claims exposures are difficult due to many factors that involve inherent unpredictability. Those factors include the following: the varying stages of the proceedings, particularly in the early stages; unspecified, unsupported, or uncertain damages; damages other than compensatory, such as punitive damages; a matter presenting meaningful legal uncertainties, including novel issues of law; multiple defendants and jurisdictions; whether discovery has begun or is complete; whether meaningful settlement discussions have commenced; and whether the claim involves a class action and if so, how the class is defined. As a result of some of these factors, the Company may be unable to estimate reasonably possible losses with respect to some or all of the pending and threatened litigation and claims asserted against the Company.

Following completion of Hilltop's acquisition of SWS, several purported holders of shares of SWS common stock (the "Petitioners") filed petitions in the Court of Chancery of the State of Delaware (the "Court") seeking appraisal for their shares pursuant to Section 262 of the Delaware General Corporation Law. These petitions were consolidated as *In re SWS Group, Inc.*, C.A. No. 10554-VCG. On May 30, 2017, the Court issued its Memorandum Opinion in the matter. The Court found the "fair value" of the shares of SWS common stock as of the date of the transaction was \$6.38 per share. Accordingly, Hilltop paid cash of \$6.38 per share, plus statutory interest from the effective date of the merger until the date of payment, to the Petitioners and the other stockholders of SWS who properly demanded appraisal rights under Delaware law, collectively representing 7,438,453 shares. Each outstanding share of SWS common stock, other

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

than shares held by Hilltop, in treasury by SWS or by stockholders who properly demanded appraisal rights under Delaware law, was converted into the right to receive 0.2496 shares of Hilltop common stock and \$1.94 in cash, the aggregate value of which was \$6.92 per share of SWS common stock as of the effective date of the merger. The resolution of this matter resulted in 1,856,638 shares of HTH common stock, which had been held in escrow during the pendency of the proceeding, being returned to the Company's pool of authorized but unissued shares of common stock and a pre-tax net increase to other noninterest income of \$11.6 million during the second quarter of 2017. This change in common stock is reflected in repurchases of common stock within the consolidated statements of stockholders' equity included in the Company's 2017 Form 10-K. Certain Petitioners filed an appeal to the Court's Memorandum Opinion. On February 23, 2018, the Delaware Supreme Court affirmed the decision of the lower Court.

The Company is involved in information-gathering requests and investigations (both formal and informal), as well as reviews, examinations and proceedings (collectively, "Inquiries") by various governmental regulatory agencies, law enforcement authorities and self-regulatory bodies regarding certain of its businesses, business practices and policies, as well as the conduct of persons with whom it does business. Additional Inquiries will arise from time to time. In connection with those Inquiries, the Company receives document requests, subpoenas and other requests for information. The Inquiries, including the Inquiry described below, could develop into administrative, civil or criminal proceedings or enforcement actions that could result in consequences that have a material effect on the Company's consolidated financial position, results of operations or cash flows as a whole. Such consequences could include adverse judgments, findings, settlements, penalties, fines, orders, injunctions, restitution, or alterations in the Company's business practices, and could result in additional expenses and collateral costs, including reputational damage.

As a part of an industry-wide Inquiry, PrimeLending received a subpoena from the Office of Inspector General of the U.S. Department of Housing and Urban Development regarding mortgage-related practices, including those relating to origination practices for loans insured by the Federal Housing Administration (the "FHA"). On August 20, 2014, PrimeLending received a Civil Investigative Demand from the United States Department of Justice (the "DOJ") related to this Inquiry. According to the Civil Investigative Demand, the DOJ is conducting an investigation to determine whether PrimeLending has violated the False Claims Act in connection with originating and underwriting single-family residential mortgage loans insured by the FHA. The DOJ has advised PrimeLending that, based upon its review of a sample of loans for which an FHA insurance claim was paid by the U.S. Department of Housing and Urban Development ("HUD"), some of the loans do not meet FHA underwriting guidelines. PrimeLending, based upon its own review of the loan sample, does not agree with the sampling methodology and loan analysis employed by the DOJ. Remedies in these proceedings or settlements may include statutory damages, indemnification, fines and/or penalties. Many institutions have settled these matters on terms that included large monetary penalties. PrimeLending has fully cooperated with this Inquiry, continues to discuss this matter with the DOJ and adjusts its indemnification reserve based upon such discussions.

While the final outcome of litigation and claims exposures or of any Inquiries is inherently unpredictable, management is currently of the opinion that the outcome of pending and threatened litigation and Inquiries will not, except related to specific matters disclosed above, have a material effect on the Company's business, consolidated financial position, results of operations or cash flows as a whole. However, in the event of unexpected future developments, it is reasonably possible that an adverse outcome in any matter, including the matters discussed above, could be material to the Company's business, consolidated financial position, results of operations or cash flows for any particular reporting period of occurrence.

Indemnification Liability Reserve

The mortgage origination segment may be responsible to agencies, investors, or other parties for errors or omissions relating to its representations and warranties that each loan sold meets certain requirements, including representations as to underwriting standards and the validity of certain borrower representations in connection with the loan. If determined to be at fault, the mortgage origination segment either repurchases the affected loan from or indemnifies the claimant against loss. The mortgage origination segment has established an indemnification liability reserve for such probable losses.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Generally, the mortgage origination segment first becomes aware that an agency, investor, or other party believes a loss has been incurred on a sold loan when it receives a written request from the claimant to repurchase the loan or reimburse the claimant's losses. Upon completing its review of the claimant's request, the mortgage origination segment establishes a specific claims reserve for the loan if it concludes its obligation to the claimant is both probable and reasonably estimable.

An additional reserve has been established for probable agency, investor or other party losses that may have been incurred, but not yet reported to the mortgage origination segment based upon a reasonable estimate of such losses. Factors considered in the calculation of this reserve include, but are not limited to, the total volume of loans sold exclusive of specific claimant requests, actual claim settlements and the severity of estimated losses resulting from future claims, and the mortgage origination segment's history of successfully curing defects identified in claim requests. While the mortgage origination segment's sales contracts typically include borrower early payment default repurchase provisions, these provisions have not been a primary driver of claims to date, and therefore, are not a primary factor considered in the calculation of this reserve.

At June 30, 2018 and December 31, 2017, the mortgage origination segment's indemnification liability reserve totaled \$23.9 million and \$23.5 million, respectively. The provision for indemnification losses was \$1.0 million and \$1.1 million during the three months ended June 30, 2018 and 2017, respectively, and \$1.7 million and \$2.0 million during the six months ended June 30, 2018 and 2017, respectively.

The following tables provide for a rollforward of claims activity for loans put-back to the mortgage origination segment based upon an alleged breach of a representation or warranty with respect to a loan sold and related indemnification liability reserve activity (in thousands).

	Representation and Warranty Specific Claims Activity - Origination Loan Balance

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Although management considers the total indemnification liability reserve to be appropriate, there may be changes in the reserve over time to address incurred losses, due to unanticipated adverse changes in the economy and historical loss patterns, discrete events adversely affecting specific borrowers or industries, and/or actions taken by institutions or investors. The impact of such matters is considered in the reserving process when probable and estimable.

Other Contingencies

In connection with the FNB Transaction, the Bank entered into two loss-share agreements with the FDIC that collectively cover \$1.2 billion of loans and OREO acquired in the FNB Transaction. Pursuant to the loss-share agreements, the FDIC has agreed to reimburse the Bank the following amounts with respect to the covered assets: (i) 80% of net losses on the first \$240.4 million of net losses incurred; (ii) 0% of net losses in excess of \$240.4 million up to and including \$365.7 million of net losses incurred; and (iii) 80% of net losses in excess of \$365.7 million of net losses incurred. Net losses are defined as book value losses plus certain defined expenses incurred in the resolution of assets, less subsequent recoveries. Under the loss-share agreement for commercial assets, the amount of subsequent recoveries that are reimbursable to the FDIC for a particular asset is limited to book value losses and expenses actually billed plus any book value charge-offs incurred prior to the Bank Closing Date. There is no limit on the amount of subsequent recoveries reimbursable to the FDIC under the loss-share agreement for single family residential assets. The loss-share agreements for commercial and single family residential assets are in effect for five years and ten years, respectively, from the Bank Closing Date and the loss recovery provisions to the FDIC are in effect for eight years and ten years, respectively, from the Bank Closing Date. As part of the loss-share agreements, the Bank is subject to annual FDIC compliance audits. As discussed in Note 6 to the consolidated financial statements, and in accordance with the loss-share agreements, the Bank may be required to make a “true-up” payment to the FDIC approximately ten years following the Bank Closing Date if its actual net realized losses over the life of the loss-share agreements are less than the FDIC’s initial estimate of losses on covered assets. The “true-up” payment is calculated using a defined formula set forth in the P&A Agreement. While the ultimate amount of any “true-up” payment is unknown at this time and will vary based upon the amount of future losses or recoveries within our covered loan portfolio, the Bank has recorded a related “true-up” payment accrual of \$16.6 million at June 30, 2018 based on the current estimate of aggregate realized losses on covered assets over the life of the loss-share agreements. The initial estimate of the FDIC Indemnification Asset at the Bank Closing Date was recorded at the present value of 80% of \$240.4 million. As of June 30, 2018, the Bank projects that the sum of actual plus projected covered losses and reimbursable expenses subject to the loss-share agreements will be less than \$240.4 million. As of June 30, 2018, the Bank had billed \$184.7 million of covered net losses to the FDIC, of which 80%, or \$147.8 million, were reimbursable under the loss-share agreements. As of June 30, 2018, the Bank had received aggregate reimbursements of \$145.8 million from the FDIC, which represented reimbursable covered losses and expenses through September 30, 2017.

13. Financial Instruments with Off-Balance Sheet Risk

The Bank is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit that involve varying degrees of credit and interest rate risk in excess of the amount recognized in the consolidated financial statements. Such financial instruments are recorded in the consolidated financial statements when they are funded or related fees are incurred or received. The contract amounts of those instruments reflect the extent of involvement (and therefore the exposure to credit loss) the Bank has in particular classes of financial instruments.

Commitments to extend credit are agreements to lend to a customer provided that the terms established in the contract are met. Commitments generally have fixed expiration dates and may require payment of fees. Because some commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. Standby letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party. These letters of credit are primarily issued to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan commitments to customers.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

In the aggregate, the Bank had outstanding unused commitments to extend credit of \$2.0 billion at June 30, 2018 and outstanding financial and performance standby letters of credit of \$25.1 million at June 30, 2018.

The Bank uses the same credit policies in making commitments and standby letters of credit as it does for on-balance sheet instruments. The amount of collateral obtained, if deemed necessary, in these transactions is based on management's credit evaluation of the borrower. Collateral held varies but may include real estate, accounts receivable, marketable securities, interest-bearing deposit accounts, inventory, and property, plant and equipment.

In the normal course of business, the Hilltop Broker-Dealers execute, settle, and finance various securities transactions that may expose the Hilltop Broker-Dealers to off-balance sheet risk in the event that a customer or counterparty does not fulfill its contractual obligations. Examples of such transactions include the sale of securities not yet purchased by customers or for the accounts of the Hilltop Broker-Dealers, use of derivatives to support certain non-profit housing organization clients, clearing agreements between the Hilltop Broker-Dealers and various clearinghouses and broker-dealers, secured financing arrangements that involve pledged securities, and when-issued underwriting and purchase commitments.

14. Stock-Based Compensation

Pursuant to the Hilltop Holdings Inc. 2012 Equity Incentive Plan (the "2012 Plan"), the Company may grant nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units ("RSUs"), performance awards, dividend equivalent rights and other awards to employees of the Company, its subsidiaries and outside directors of the Company. In the aggregate, 4,000,000 shares of common stock may be delivered pursuant to awards granted under the 2012 Plan. At June 30, 2018, 1,267,430 shares of common stock remained available for issuance pursuant to awards granted under the 2012 Plan, excluding shares that may be delivered pursuant to outstanding awards. Compensation expense related to the 2012 Plan was \$2.5 million and \$3.2 million during the three months ended June 30, 2018 and 2017, respectively, and \$4.8 million and \$5.9 million during the six months ended June 30, 2018 and 2017, respectively.

During the six months ended June 30, 2018 and 2017, Hilltop granted 10,024 and 7,513 shares of common stock, respectively, pursuant to the 2012 Plan to certain non-employee members of the Company's board of directors for services rendered to the Company.

Restricted Stock Units

The following table summarizes information about nonvested RSU activity for the six months ended June 30, 2018 (shares in thousands).

	RSUs	Weighted Average Grant Date Fair Value
	Outstanding	
Balance, December 31, 2017	1,318	\$ 20.89
Granted	457	\$ 23.37
Vested/Released	(355)	\$ 19.79
Forfeited	(100)	\$ 19.78
Balance, June 30, 2018	1,320	\$ 22.13

Vested/Released RSUs include an aggregate of 73,661 shares withheld to satisfy employee statutory tax obligations during the six months ended June 30, 2018. Pursuant to certain RSU award agreements, an aggregate of 17,481 vested RSUs at June 30, 2018 require deferral of the settlement in shares and statutory tax obligations to a future date.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

During the six months ended June 30, 2018, the Compensation Committee of the board of directors of the Company awarded certain executives and key employees an aggregate of 433,268 RSUs pursuant to the 2012 Plan. At June 30, 2018, 335,560 of these outstanding RSUs are subject to time-based vesting conditions and generally cliff vest on the third anniversary of the grant date, and 84,626 of these outstanding RSUs will cliff vest based upon the achievement of certain performance goals over a three-year period.

At June 30, 2018, in the aggregate, 1,061,629 of the outstanding RSUs are subject to time-based vesting conditions and generally cliff vest on the third anniversary of the grant date, and 258,773 outstanding RSUs cliff vest based upon the achievement of certain performance goals over a three-year period. At June 30, 2018, unrecognized compensation expense related to outstanding RSUs of \$17.9 million is expected to be recognized over a weighted average period of 1.65 years.

15. Regulatory Matters

Banking and Hilltop

PlainsCapital, which includes the Bank and PrimeLending, and Hilltop are subject to various regulatory capital requirements administered by federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory — and possibly additional discretionary — actions by regulators that, if undertaken, could have a direct, material effect on the consolidated financial statements. The regulations require PlainsCapital and Hilltop to meet specific capital adequacy guidelines that involve quantitative measures of assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The Company performs reviews of the classification and calculation of risk-weighted assets to ensure accuracy and compliance with the Basel III regulatory capital requirements. The capital classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors. Quantitative measures established by regulation to ensure capital adequacy require the companies to maintain minimum amounts and ratios (set forth in the following table) of Tier 1 capital (as defined in the regulations) to total average assets (as defined), and minimum ratios of common equity Tier 1, Tier 1 and total capital (as defined) to risk-weighted assets (as defined).

In order to avoid limitations on capital distributions, including dividend payments, stock repurchases and certain discretionary bonus payments to executive officers, Basel III also implemented a capital conservation buffer, which requires a banking organization to hold a buffer above its minimum risk-based capital requirements. This buffer will help to ensure that banking organizations conserve capital when it is most needed, allowing them to better weather

periods of economic stress. The buffer is measured relative to risk-weighted assets. The phase-in of the capital conservation buffer requirements began on January 1, 2016 for Hilltop and PlainsCapital. Based on the actual ratios as shown in the table below, Hilltop and PlainsCapital exceed each of the capital conservation buffer requirements in effect as of June 30, 2018, as well as the fully phased-in requirements through 2019.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The following table shows PlainsCapital's and Hilltop's actual capital amounts and ratios in accordance with Basel III compared to the regulatory minimum capital requirements including conservation buffer in effect at the end of the period and on a fully phased-in basis as if such requirements were currently in effect as measured at June 30, 2018 and December 31, 2017, respectively (dollars in thousands). Based on actual capital amounts and ratios shown in the following table, PlainsCapital's ratios place it in the "well capitalized" (as defined) capital category under regulatory requirements.

	Actual Amount	Ratio	Minimum Capital Requirements Including Conservation Buffer		
			In Effect at End of Period Ratio	Fully Phased In Ratio	To Be Well Capitalized Ratio

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Broker-Dealer

Pursuant to the net capital requirements of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), Hilltop Securities has elected to determine its net capital requirements using the alternative method. Accordingly, Hilltop Securities is required to maintain minimum net capital, as defined in Rule 15c3-1 promulgated under the Exchange Act, equal to the greater of \$250,000 and \$1,000,000, respectively, or 2% of aggregate debit balances, as defined in Rule 15c3-3 promulgated under the Exchange Act. Additionally, the net capital rule of the NYSE provides that equity capital may not be withdrawn or cash dividends paid if resulting net capital would be less than 5% of the aggregate debit items. HTS Independent Network follows the primary (aggregate indebtedness) method, as defined in Rule 15c3-1 promulgated under the Exchange Act, which requires the maintenance of the larger of minimum net capital of \$250,000 or 1/15 of aggregate indebtedness.

At June 30, 2018, the net capital position of each of the Hilltop Broker-Dealers was as follows (in thousands).

	Hilltop Securities	HTS Independent Network
Net capital	\$ 205,730	\$ 3,362
Less: required net capital	11,427	250
Excess net capital	\$ 194,303	\$ 3,112
Net capital as a percentage of aggregate debit items	36.0	%
Net capital in excess of 5% aggregate debit items	\$ 177,161	

Under certain conditions, Hilltop Securities may be required to segregate cash and securities in a special reserve account for the benefit of customers under Rule 15c3-3 promulgated under the Exchange Act. Assets segregated under the provisions of the Exchange Act are not available for general corporate purposes. At June 30, 2018 and December 31, 2017, the Hilltop Broker-Dealers held cash of \$128.4 million and \$186.6 million, respectively, segregated in special reserve bank accounts for the benefit of customers. The Hilltop Broker-Dealers were not required to segregate cash and securities in special reserve accounts for the benefit of proprietary accounts of introducing broker-dealers at June 30, 2018 or December 31, 2017.

Mortgage Origination

As a mortgage originator, PrimeLending and its subsidiaries are subject to minimum net worth and liquidity requirements established by the HUD and the GNMA, as applicable. On an annual basis, PrimeLending and its subsidiaries submit audited financial statements to HUD and GNMA, as applicable, documenting their respective compliance with minimum net worth and liquidity requirements. As of June 30, 2018, PrimeLending and its subsidiaries' net worth and liquidity exceeded the amounts required by both HUD and GNMA, as applicable.

Insurance

The statutory financial statements of the Company's insurance subsidiaries, which are domiciled in the State of Texas, are presented on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance. Texas has adopted the statutory accounting practices of the National Association of Insurance Commissioners ("NAIC") as the basis of its statutory accounting practices with certain differences that are not significant to the insurance company subsidiaries' statutory equity.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

A summary of statutory capital and surplus and statutory net income of each insurance subsidiary is as follows (in thousands).

	June 30, 2018	December 31, 2017		
Capital and surplus:				
National Lloyds Insurance Company	\$ 93,578	\$ 93,812		
American Summit Insurance Company	23,910	22,778		
	Three Months Ended June 30, 2018	2017	Six Months Ended June 30, 2018	2017
Statutory net income (loss):				
National Lloyds Insurance Company	\$ (2,633)	\$ (7,152)	\$ 1,134	\$ (6,516)
American Summit Insurance Company	394	(309)	1,283	523

Regulations of the Texas Department of Insurance require insurance companies to maintain minimum levels of statutory surplus to ensure their ability to meet their obligations to policyholders. At June 30, 2018, the Company's insurance subsidiaries had statutory surplus in excess of the minimum required.

The NAIC has adopted a risk based capital ("RBC") formula for insurance companies that establishes minimum capital requirements indicating various levels of available regulatory action on an annual basis relating to insurance risk, asset credit risk, interest rate risk and business risk. The RBC formula is used by the NAIC and certain state insurance regulators as an early warning tool to identify companies that require additional scrutiny or regulatory action. At June 30, 2018, the Company's insurance subsidiaries' RBC ratio exceeded the level at which regulatory action would be required.

16. Stockholders' Equity

Dividends

On July 26, 2018, the Company announced that its board of directors declared a quarterly cash dividend of \$0.07 per common share, payable on August 31, 2018, to all common stockholders of record as of the close of business on August 15, 2018.

Stock Repurchase Program

In January 2018, the Hilltop board of directors authorized a new stock repurchase program through January 2019 pursuant to which the Company was originally authorized to repurchase, in the aggregate, up to \$50.0 million of its outstanding common stock. In July 2018, the Hilltop board of directors authorized an increase to the aggregate amount of common stock the Company may repurchase under this program to \$100.0 million, which is inclusive of repurchases to offset dilution related to grants of stock-based compensation.

During the six months ended June 30, 2018, the Company paid \$38.8 million to repurchase an aggregate of 1,702,696 shares of common stock at an average price of \$22.81 per share. These shares were returned to the Company's pool of authorized but unissued shares of common stock. The purchases were funded from available cash balances. The Company's stock repurchase program and related accounting policy are discussed in detail in Note 1 and Note 22 to the consolidated financial statements included in the Company's 2017 Form 10-K.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

17. Derivative Financial Instruments

The Company uses various derivative financial instruments to mitigate interest rate risk. The Bank's interest rate risk management strategy involves effectively managing the re-pricing characteristics of certain assets and liabilities to mitigate potential adverse impacts from changes in interest rates on the net interest margin. PrimeLending has interest rate risk relative to interest rate lock commitments ("IRLCs") and its inventory of mortgage loans held for sale. PrimeLending is exposed to such interest rate risk from the time an IRLC is made to an applicant to the time the related mortgage loan is sold. To mitigate interest rate risk, PrimeLending executes forward commitments to sell mortgage-backed securities ("MBSs"). Additionally, PrimeLending has interest rate risk relative to its MSR asset and uses derivative instruments, including interest rate swaps, swaptions, and U.S. Treasury bond futures and options to hedge this risk. The Hilltop Broker-Dealers use forward commitments to both purchase and sell MBSs to facilitate customer transactions and as a means to hedge related exposure to interest rate risk in certain inventory positions.

Non-Hedging Derivative Instruments and the Fair Value Option

As discussed in Note 3 to the consolidated financial statements, the Company has elected to measure substantially all mortgage loans held for sale at fair value under the provisions of the Fair Value Option. The election provides the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without applying complex hedge accounting provisions. The fair values of PrimeLending's IRLCs, forward commitments, interest rate swaps and swaptions, and U.S. Treasury bond futures and options are recorded in other assets or other liabilities, as appropriate, and changes in the fair values of these derivative instruments are recorded as a component of net gains from sale of loans and other mortgage production income. The fair value of PrimeLending's derivative instruments decreased \$3.1 million and increased \$8.8 million during the three months ended June 30, 2018 and 2017, respectively, and increased \$6.9 million and \$9.5 million during the six months ended June 30, 2018 and 2017, respectively. Changes in fair value are attributable to changes in the volume of IRLCs, mortgage loans held for sale, commitments to purchase and sell MBSs and MSR assets, and changes in market interest rates. Changes in market interest rates also conversely affect the value of PrimeLending's mortgage loans held for sale and its MSR asset, which are measured at fair value under the Fair Value Option. The effect of the change in market interest rates on PrimeLending's loans held for sale and MSR asset is discussed in Note 3 to the consolidated financial statements. The fair values of the Hilltop Broker-Dealers' and the Bank's derivative instruments are recorded in other assets or other liabilities, as appropriate. The fair values of the Hilltop Broker-Dealers' derivatives increased \$3.0 million and \$9.9 million during the three months ended June 30, 2018 and 2017, respectively, while the fair values of the Bank's derivatives increased nominally during the three months ended June 30, 2018 and 2017, respectively. The fair values of the Hilltop Broker-Dealers' derivatives decreased \$2.2 million and increased \$16.2 million during the six months ended June 30, 2018 and 2017, respectively, while the fair values of the Bank's derivatives increased \$0.2 million and \$0.1 million during the six months ended June 30, 2018 and 2017, respectively.

Derivative positions are presented in the following table (in thousands).

	June 30, 2018		December 31, 2017	
	Notional Amount	Estimated Fair Value	Notional Amount	Estimated Fair Value
Derivative instruments:				
IRLCs	\$ 1,390,728	\$ 31,475	\$ 850,850	\$ 18,851

PrimeLending had cash collateral advances totaling \$8.2 million and \$0.8 million to offset net liability derivative positions on its commitments to sell MBSs at June 30, 2018 and December 31, 2017, respectively. In addition, PrimeLending advanced cash collateral totaling \$3.2 million on its U.S. Treasury bond futures and options at both June 30, 2018 and December 31, 2017. These amounts are included in other assets within the consolidated balance sheets.

18. Balance Sheet Offsetting

Certain financial instruments, including resale and repurchase agreements, securities lending arrangements and derivatives, may be eligible for offset in the consolidated balance sheets and/or subject to master netting arrangements or similar agreements. The following tables present the assets and liabilities subject to enforceable master netting arrangements, repurchase agreements, or similar agreements with offsetting rights (in thousands).

Secured Borrowing Arrangements

Secured Borrowings (Repurchase Agreements) — The Company participates in transactions involving securities sold under repurchase agreements, which are secured borrowings and generally mature one to thirty days from the transaction date or involve arrangements with no definite termination date. Securities sold under repurchase agreements are reflected at the amount of cash received in connection with the transactions. The Company may be required to provide additional collateral based on the fair value of the underlying securities, which is monitored on a daily basis.

Securities Lending Activities — The Company's securities lending activities include lending securities for other broker-dealers, lending institutions and its own clearing and retail operations. These activities involve lending securities to other broker-dealers to cover short sales, to complete transactions in which there has been a failure to deliver securities by the required settlement date and as a conduit for financing activities.

When lending securities, the Company receives cash or similar collateral and generally pays interest (based on the amount of cash deposited) to the other party to the transaction. Securities lending transactions are executed pursuant to written agreements with counterparties that generally require securities loaned to be marked-to-market on a daily basis. The Company receives collateral in the form of cash in an amount generally in excess of the fair value of securities loaned. The Company monitors the fair value of securities loaned on a daily basis, with additional collateral obtained or refunded, as necessary. Collateral adjustments are made on a daily basis through the facilities of various clearinghouses. The Company is a principal in these securities lending transactions and is liable for losses in the event of a failure of any other party to honor its contractual obligation. Management sets credit limits with each counterparty and reviews these limits regularly to monitor the risk level with each counterparty. The Company is subject to credit risk through its securities lending activities if securities prices decline rapidly because the value of the Company's collateral could fall below the amount of the indebtedness it secures. In rapidly appreciating markets, credit risk increases due to short positions. The Company's securities lending business subjects the Company to credit risk if a counterparty fails to perform or if collateral securing its obligations is insufficient. In securities transactions, the Company is subject to credit risk during the period between the execution of a trade and the settlement by the

customer.

		510	All outstanding reserves prior to 2014, net of reinsurance	
		\$ 21,004		

Reserve for unpaid losses and allocated
LAE, net of reinsurance

21. Reinsurance Activity

NLC limits the maximum net loss that can arise from large risks or risks in concentrated areas of exposure by reinsuring (ceding) certain levels of risk. Substantial amounts of business are ceded, and these reinsurance contracts do not relieve NLC from its obligations to policyholders. Such reinsurance includes quota share, excess of loss, catastrophe, and other forms of reinsurance on essentially all property and casualty lines of insurance. Net insurance premiums earned, losses and LAE and policy acquisition and other underwriting expenses are reported net of the amounts related to reinsurance ceded to other companies. Amounts recoverable from reinsurers related to the portions of the liability for losses and LAE and unearned insurance premiums ceded to them are reported as assets. Failure of reinsurers to honor their obligations could result in losses to NLC; consequently, allowances are established for amounts deemed uncollectible as NLC evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities, or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. At June 30, 2018, total reinsurance recoverables and receivables had a carrying value of \$8.8 million, which is included in other assets within the consolidated balance sheets. There was no allowance for uncollectible accounts at June 30, 2018, based on NLC's quality requirements.

The effects of reinsurance on incurred losses are as follows (in thousands).

	Three Months Ended		Six Months Ended June	
	June 30,	2017	30,	2017
	2018		2018	
Losses and LAE incurred	\$ 23,869	\$ 33,352	\$ 37,321	\$ 55,654
Reinsurance recoverables	540	(168)	2,620	(770)
Net loss and LAE incurred	\$ 24,409	\$ 33,184	\$ 39,941	\$ 54,884

Catastrophic coverage

At June 30, 2018, NLC had catastrophic excess of loss reinsurance coverage of losses per event in excess of \$8 million retention by NLIC and \$1.5 million retention by ASIC. ASIC maintained an underlying layer of coverage, providing \$6.5 million of reinsurance coverage in excess of its \$1.5 million retention to bridge to the primary program. The reinsurance for NLIC and ASIC in excess of \$8 million is comprised of three layers of protection: \$17 million in excess of \$8 million retention and/or loss; \$30 million in excess of \$25 million loss; and \$50 million in excess of \$55 million loss. NLIC and ASIC retain no participation in any of the layers, beyond the first \$8 million and \$1.5 million, respectively. At June 30, 2018, total retention for any one catastrophe that affects both NLIC and ASIC

was limited to \$8 million in the aggregate.

Effective January 1, 2018, NLC renewed its underlying excess of loss contract that provides \$10 million aggregate coverage in excess of NLC's per event retention of \$1.0 million and aggregate retention of \$17.5 million for sub-catastrophic events. As of January 1, 2018, NLC retains 17.5% participation in this coverage, up from no participation during 2017.

22. Segment and Related Information

The Company currently has four reportable business segments that are organized primarily by the core products offered to the segments' respective customers. These segments reflect the manner in which operations are managed and the criteria used by the Company's chief operating decision maker function to evaluate segment performance, develop strategy and allocate resources. The chief operating decision maker function consists of the Company's President and Co-Chief Executive Officer and the Company's Vice Chairman and Co-Chief Executive Officer.

The banking segment includes the operations of the Bank, the broker-dealer segment includes the operations of Securities Holdings, the mortgage origination segment is composed of PrimeLending, and the insurance segment is composed of NLC.

Corporate includes certain activities not allocated to specific business segments. These activities include holding company financing and investing activities, merchant banking investment opportunities and management and administrative services to support the overall operations of the Company including, but not limited to, certain executive management, corporate relations, legal, finance and acquisition costs.
