(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended May 5, 2018

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from to

Commission file number: 001-35720

(Exact name of registrant as specified in its charter)

Delaware	45-3052669
(State or other jurisdiction of	(I.R.S. Employer
incorporation or organization)	Identification Number)
15 Koch Road, Suite K	
Corte Madera, CA	94925
(Address of principal executive offices)	(Zip Code)

Edgar Filing: RH - Form 10-Q

Registrant's telephone number, including area code: (415) 924-1005

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of June 8, 2018, 21,634,290 shares of registrant's common stock were outstanding.

RH

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1—THE COMPANY

Nature of Business

RH, a Delaware corporation, together with its subsidiaries (collectively, the “Company”), is a luxury home furnishings retailer that offers a growing number of categories including furniture, lighting, textiles, bathware, décor, outdoor and garden, tableware, and child and teen furnishings. These products are sold through the Company’s stores, catalogs and websites.

As of May 5, 2018, the Company operated a total of 84 retail Galleries and 32 outlet stores in 32 states, the District of Columbia and Canada, and includes 15 Waterworks showrooms in the United States and in the U.K., and had sourcing operations in Shanghai and Hong Kong.

Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements have been prepared from the Company’s records and, in management’s opinion, include all adjustments, consisting of normal recurring adjustments, necessary to fairly state the Company’s financial position as of May 5, 2018, and the results of operations for the three months ended May 5, 2018 and April 29, 2017. The Company’s current fiscal year, which consists of 52 weeks, ends on February 2, 2019 (“fiscal 2018”).

Certain information and disclosures normally included in the notes to annual consolidated financial statements prepared in accordance with generally accepted accounting principles in the United States (“GAAP”) have been condensed or omitted for purposes of these interim condensed consolidated financial statements.

These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in the Company’s Annual Report on Form 10-K for the fiscal year ended February 3, 2018 (the “2017 Form 10-K”). Certain prior year amounts have been reclassified for consistency with the current period presentation. This reclassification had no effect on the previously reported consolidated financial position or consolidated results of operations, and did not have a material effect on the previously reported consolidated cash flows.

The results of operations for the three months ended May 5, 2018 presented herein are not necessarily indicative of the results to be expected for the full fiscal year.

NOTE 2—RECENTLY ISSUED ACCOUNTING STANDARDS

Revenue from Contracts with Customers

In May 2014, the FASB and International Accounting Standards Board issued their converged accounting standards update on revenue recognition, Accounting Standards Update 2014-09—Revenue from Contracts with Customers (Topic 606). This guidance outlines a single comprehensive model for companies to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The core principle of the revenue model is that revenue is recognized when a customer obtains control of a good or service. A customer obtains control when it has the ability to direct the use of and obtain the benefits from the good or service. Under the new guidance, transfer of control is no longer the same as transfer of risks and rewards as indicated in the prior guidance.

Adoption and Accounting Policy

The Company adopted Topic 606 on February 4, 2018 using the modified retrospective transition method and recorded a decrease to opening retained earnings of \$21.0 million, inclusive of the tax impact. Results reported within the Company's condensed consolidated financial statements for reporting periods beginning February 4, 2018 are presented under Topic 606 while prior periods are not adjusted and continue to be reported in accordance with the Company's historic accounting under ASC 605—Revenue Recognition (Topic 605).

Under Topic 606, changes were made to the recognition timing or classification of revenues and expenses for the following:

Description	Policy under Topic 605	Policy under Topic 606
Advertising expenses	Costs associated with Source Books were capitalized and amortized over their expected period of future benefit. Expense was amortized based upon the ratio of actual revenues to the total of actual and estimated future revenues on an individual Source Book basis, generally over a twelve-month period after they were mailed.	Costs associated with Source Books are expensed upon the delivery of the Source Books to the carrier. In the case of multiple printings of a Source Book, the creative costs will be expensed in full upon the initial delivery of Source Books to the carrier.
Gift card breakage	Recognized gift card breakage (amounts not expected to be redeemed) within selling, general and administrative expenses.	Recognize gift card breakage within net revenues proportional to actual gift card redemptions.
Membership revenue	Annual fees for new memberships in the RH Members Program and renewals were recorded as deferred revenue when collected from customers and recognized as revenue on a straight-line basis over the twelve month membership period.	Annual fees for new memberships in the RH Members Program are recorded as deferred revenue when collected from customers and recognized as revenue based on expected product revenues over the annual membership period, using historical trends of sales to members. RH Members Program renewal fees are recorded as deferred revenue when collected from customers and will continue to be recognized as revenue on a straight-line basis over the twelve month membership period.
Revenue recognition	Revenue for merchandise that is not delivered via the home-delivery channel was recognized upon delivery.	Revenue for merchandise that is not delivered via the home-delivery channel will be recognized upon shipment.
Allowance for sales returns	Recognized an allowance for sales returns as a net liability within other current liabilities.	Recognize an allowance for sales returns on a gross basis as a liability within other current liabilities and a right of return asset for merchandise within prepaid expense and other current assets.

Advertising expenses—The adoption of Topic 606 materially impacts the timing of recognizing advertising expense related to direct response advertising, including costs associated with the Company's Source Books. Under Topic 606, the Company will recognize expense associated with the Source Books upon the delivery of the Source Books to the carrier. In the case of multiple printings of a Source Book, the creative costs will be expensed in full upon the initial delivery of Source Books to the carrier. Prior to adoption of Topic 606, costs associated with Source Books were capitalized and amortized over their expected period of future benefit. Such amortization was based upon the ratio of actual revenues to the total of actual and estimated future revenues on an individual Source Book basis. Each Source Book was generally fully amortized within a twelve-month period after they were mailed and the majority of the

amortization occurred within the first five to nine months, with the exception of the Holiday Source Books, which were generally fully amortized within a three-month period after they were mailed. Upon adoption of Topic 606, capitalized costs associated with Source Books of \$37.8 million that had been delivered to the carrier prior to or on February 3, 2018 were reclassified to retained earnings on the consolidated balance sheets, resulting in a decrease to the opening retained earnings balance.

Gift card breakage—Under Topic 606, the Company recognizes gift card breakage proportional to actual gift card redemptions and such breakage is recorded within net revenues on the condensed consolidated statements of operations. Gift card breakage was previously recorded as a reduction to selling, general and administrative expenses when the likelihood of redemption was remote. Upon adoption of Topic 606, gift card liabilities of \$6.0 million were reclassified to retained earnings on the consolidated balance sheets, resulting in an increase to the opening retained earnings balance.

Membership revenue—Under Topic 606, the annual fee for new memberships in the RH Members Program is recorded as deferred revenue when collected from customers and recognized as revenue based on expected product revenues over the annual membership period, using historical trends of sales to members. Prior to the adoption of Topic 606, new memberships were recorded as deferred revenue when collected from customers and recognized as revenue on a straight-line basis over the twelve month membership period. This will result in a majority of revenue being recognized during the first six months of the membership period. The adoption of Topic 606 will not have an impact on membership renewal fees, which will continue to be recognized as revenue on a straight-line basis over the twelve month membership period, until the Company has more information regarding membership renewal purchasing trends. Upon adoption of Topic 606, deferred membership revenue of \$3.8 million was reclassified to retained earnings on the consolidated balance sheets, resulting in an increase to the opening retained earnings balance.

Revenue recognition—Under Topic 606, the Company will continue to recognize revenue for merchandise delivered via the home-delivery channel upon delivery. Under Topic 606, revenue for merchandise delivered via all other delivery channels will be recognized upon shipment, whereas previously such revenue was recognized upon delivery. Upon adoption of Topic 606, deferred revenue (net of cost of goods sold) of \$1.3 million was reclassified to retained earnings on the consolidated balance sheets, resulting in an increase to the opening retained earnings balance.

The Company adopted the practical expedient related to shipping and handling activities. Under this option, in instances where revenue is recognized for the related merchandise prior to delivery to customers (i.e., revenue recognized upon shipment), the related costs of shipping and handling activities will be accrued for in the same period. Costs of shipping and handling continue to be included in cost of goods sold.

Allowance for sales returns—In connection with adoption of Topic 606, the Company is required to recognize its allowance for sales returns on a gross basis rather than as a net liability. Upon adoption, this resulted in an increase to prepaid and other current assets (“right of return asset for merchandise”), with a corresponding increase to other current liabilities on the consolidated balance sheets, and did not impact the consolidated statements of operations. As of May 5, 2018, the right of return asset for merchandise was \$5.3 million.

Sales tax collection from customers—Under Topic 606, the Company has not changed its policy regarding sales tax collected from customers. Sales tax collected is not recognized as revenue but is included in accounts payable and accrued expenses on the consolidated balance sheets as it is ultimately remitted to governmental authorities.

In connection with adoption of Topic 606, the Company recorded a \$6.6 million tax adjustment associated with the charges listed above to retained earnings on the consolidated balance sheets, resulting in an increase to the opening retained earnings balance.

Contract Liabilities

The Company defers revenue associated with merchandise delivered via the home-delivery channel. As the Company recognizes revenue when the merchandise is delivered to our customers, it is included as deferred revenue on the consolidated balance sheets while in-transit. Customer deposits represent payments made by customers on custom orders. At the time of order placement the Company collects deposits for all custom orders equivalent to 50% of the purchase price. Custom order deposits are recognized as revenue when a customer obtains control of the merchandise. In addition, the Company collects annual membership fees related to the RH Members Program. New membership fees are recorded as deferred revenue when collected from customers and recognized as revenue based on expected product revenues over the annual membership period, using historical trends of sales to members. Membership renewal fees are recorded as deferred revenue when collected from customers and are recognized as revenue on a straight-line basis over the membership period, or one year. The Company expects that substantially all of the deferred revenue, customer deposits and deferred membership fees as of May 5, 2018 will be recognized within the next six months as the performance obligations are satisfied.

In addition, the Company defers revenue when cash payments are received in advance of performance for unsatisfied obligations related to its gift cards and merchandise credits. Customer liabilities related to gift cards and merchandise credits was \$17.7 million and \$24.1 million as of May 5, 2018 and February 3, 2018, respectively. As discussed above, \$6.0 million of the decrease was due to the reclassification of gift card liabilities to retained earnings upon adoption of Topic 606. During the three months ended May 5, 2018, the Company recognized \$4.9 million of revenue related to previous deferrals related to its gift cards and merchandise credits and recorded gift card breakage of \$0.4 million. The Company expects that approximately 70% of the remaining gift card and merchandise credit liabilities will be recognized when the gift cards are redeemed by customers.

Disaggregated Revenue

The Company recognizes revenue from its stores and direct sales channels. Stores net revenues represent sales originating in retail stores, including Waterworks showrooms, and outlet stores. Direct net revenues include sales through the Company's Source Books, websites, and phone orders, including its Contract business and a portion of its Trade business. During the three months ended May 5, 2018, net revenues recognized from the stores and direct sales channels were \$314.5 million and \$242.9 million, respectively.

Adoption Impact on Fiscal 2018 Results

The following table summarizes the impact of adopting Topic 606 on the Company's condensed consolidated statements of operations (in thousands):

	Three Months Ended May 5, 2018		
	As		Balances without Adoption of Topic 606
	Reported	Adjustments	
Net revenues	\$557,406	\$ (7,610)	\$ 549,796
Cost of goods sold	345,371	(2,988)	342,383

Income before income taxes	36,566	(8,425)	28,141
Income tax expense	8,507	(1,950)	6,557
Net income	\$28,059	\$ (6,475)	\$ 21,584

The following table summarizes the impact of adopting Topic 606 on certain line items of the Company's condensed consolidated balance sheets (in thousands):

	As of May 5, 2018		
	As		Balances without Adoption of Topic 606
	Reported	Adjustments	
Prepaid expense and other current assets	\$60,064	\$ 27,652	\$ 87,716
Deferred tax assets	30,014	(6,561)	23,453
Accounts payable and accrued expenses	264,173	(638)	263,535
Deferred revenue and customer deposits	172,379	9,463	181,842
Other current liabilities	59,944	(2,295)	57,649
Retained earnings	159,417	14,561	173,978

Financial Instruments

In January 2016, the FASB issued Accounting Standards Update 2016-01—Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, which amends various aspects of the recognition, measurement, presentation and disclosure for financial instruments. The new standard is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted only for certain provisions. The Company adopted this new accounting standard in the first quarter of fiscal 2018 and such adoption did not have an impact on its consolidated financial statements.

Cash Flow Classification

In August 2016, the FASB issued Accounting Standards Update No. 2016-15—Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. The new guidance addresses eight specific cash flow issues with the objective of reducing existing diversity in practice regarding the manner in which certain cash receipts and payments are presented and classified in the consolidated statements of cash flows. The new guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted. The Company adopted this new accounting standard in the first quarter of fiscal 2018 and such adoption did not have a material impact on its consolidated financial statements.

In November 2016, the FASB issued Accounting Standards Update No. 2016-18—Statement of Cash Flows (Topic 230): Restricted Cash. The new guidance requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts on the statement of cash flows. The new guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted. Adoption of the standard will be applied using a retrospective transition method to each period presented. The Company adopted this new accounting standard in the first quarter of fiscal 2018 which resulted in a change to the presentation of the construction related deposits within the statement of cash flows. The Company considers the construction related deposits to be “restricted cash equivalents” and therefore, under the new accounting guidance, is required to include such deposits in beginning and ending “cash and cash equivalents and restricted cash

equivalents” on the statement of cash flows. Previously, funding of the construction related deposit accounts was included within the “investing” section of the statement of cash flows and usage of the deposits was presented as a non-cash transaction. Under the new accounting guidance, funding of the construction related deposit accounts will not be presented within the statement of cash flows and the usage of the deposits will be presented within the “capital expenditures” line item under the “investing” section. Adoption of this new accounting standard resulted in an increase of the beginning and ending “cash and cash equivalents and restricted cash equivalents” amounts for the three months ended April 29, 2017 of \$28.0 million and \$19.2 million, respectively, as well as resulted in an increase in capital expenditures for the three months ended April 29, 2017 of \$7.7 million.

Income Taxes: Intra-Entity Asset Transfers

In October 2016, the FASB issued Accounting Standards Update No. 2016-16—Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory. The new guidance requires the recognition of the income tax consequences of an intercompany asset transfer, other than transfers of inventory, when the transfer occurs. For intercompany transfers of inventory, the income tax effects will continue to be deferred until the inventory has been sold to a third party. The new guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted. The Company adopted this new accounting standard in the first quarter of fiscal 2018 and such adoption did not have an impact on its consolidated financial statements.

Stock-Based Compensation

In May 2017, the FASB issued Accounting Standards Update No. 2017-09—Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting. The new guidance clarifies when modification accounting should be applied for changes to terms or conditions of a share-based payment award. The new guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within that reporting period, with early adoption permitted. The standard will be applied prospectively. The Company adopted this new accounting standard in the first quarter of fiscal 2018 and such adoption did not have an impact on its consolidated financial statements.

Accounting for Leases

In February 2016, the FASB issued Accounting Standards Update 2016-02—Leases, which, for operating leases, requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. The ASU is effective for public companies for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the effects that the adoption of ASU 2016-02 will have on its consolidated financial statements and anticipates the new guidance will significantly impact its consolidated financial statements given that the Company has a significant number of leases.

NOTE 3—PREPAID EXPENSE AND OTHER ASSETS

Prepaid expense and other current assets consist of the following (in thousands):

	February
May 5,	3,

Edgar Filing: RH - Form 10-Q

	2018	2018
Vendor deposits	\$20,896	\$9,701
Capitalized catalog costs	15,965	44,122
Right of return asset for merchandise	5,296	—
Prepaid expense and other current assets	17,907	14,762
Total prepaid expense and other current assets	\$60,064	\$68,585

Other non-current assets consist of the following (in thousands):

	May 5, 2018	February 3, 2018
Deferred financing fees	\$4,194	\$4,446
Construction related deposits	1,883	7,407
Other deposits	5,006	4,997
Other non-current assets	3,837	4,482
Total other non-current assets	\$14,920	\$21,332

NOTE 4—GOODWILL AND TRADEMARKS AND DOMAIN NAMES

The following sets forth the goodwill and trademarks and domain names activity for the RH Segment and Waterworks for the three months ended May 5, 2018 (in thousands):

	February 3, 2018	Foreign Currency Translation	May 5, 2018
RH Segment			
Goodwill	\$ 124,448	\$ (44)	\$ 124,404
Trademarks and domain names	48,563	—	48,563
Waterworks			
Goodwill ⁽¹⁾	17,445	—	17,445
Trademarks	52,100	—	52,100

(1) The Waterworks reporting unit goodwill is presented net of an impairment charge of \$33.7 million, which was recorded in fiscal 2017.

NOTE 5—ACCOUNTS PAYABLE, ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

Accounts payable and accrued expenses consist of the following (in thousands):

	May 5, 2018	February 3, 2018
Accounts payable	\$ 166,044	\$ 195,313
Accrued compensation	31,250	47,534
Accrued freight and duty	18,219	23,757
Accrued sales taxes	17,674	19,525
Accrued occupancy	9,909	8,612
Accrued catalog costs	7,037	9,000
Accrued professional fees	2,960	3,555
Other accrued expenses	11,080	11,469
Total accounts payable and accrued expenses	\$ 264,173	\$ 318,765

Other current liabilities consist of the following (in thousands):

	May 5, 2018	February 3, 2018
Allowance for sales returns	\$17,887	\$10,565
Unredeemed gift card and merchandise credit liability	17,673	24,138
Federal and state tax payable	13,478	5,391
Current portion of non-current debt	6,080	6,033
Product recall reserves	1,029	1,201
Other current liabilities	3,797	3,838
Total other current liabilities	\$59,944	\$51,166

NOTE 6—OTHER NON-CURRENT OBLIGATIONS

Other non-current obligations consist of the following (in thousands):

	May 5, 2018	February 3, 2018
Notes payable for share repurchases	\$ 19,633	\$ 19,390
Equipment security notes ⁽¹⁾	12,676	13,864
Promissory note ⁽²⁾	11,285	11,627
Lease loss liabilities	8,344	9,684
Capital lease obligations—non-current	7,389	7,509
Deferred contract incentive ⁽³⁾	4,762	5,358
Unrecognized tax benefits	3,764	3,728
Rollover units and profit interests ⁽⁴⁾	2,317	2,211
Other non-current obligations	3,078	2,996
Total other non-current obligations	\$ 73,248	\$ 76,367

- (1) Represents the non-current portion of equipment security notes secured by certain of the Company's distribution center property and equipment.
- (2) Represents the non-current portion of a promissory note secured by the Company's aircraft.
- (3) Represents the non-current portion of an incentive payment received in relation to a 5-year service agreement. The amount will be amortized over the term of the agreement.
- (4) Represents rollover units and profit interests associated with the acquisition of Waterworks. Refer to Note 13—Stock-Based Compensation.

NOTE 7—CONVERTIBLE SENIOR NOTES

0.00% Convertible Senior Notes due 2020

In June 2015, the Company issued in a private offering \$250 million principal amount of 0.00% convertible senior notes due 2020 and, in July 2015, the Company issued an additional \$50 million principal amount pursuant to the exercise of the overallotment option granted to the initial purchasers as part of its June 2015 offering (collectively, the "2020 Notes"). The 2020 Notes are governed by the terms of an indenture between the Company and U.S. Bank National Association, as the Trustee. The 2020 Notes will mature on July 15, 2020, unless earlier purchased by the Company or converted. The 2020 Notes will not bear interest, except that the 2020 Notes will be subject to "special interest" in certain limited circumstances in the event of the failure of the Company to perform certain of its obligations under the indenture governing the 2020 Notes. The 2020 Notes are unsecured obligations and do not contain any financial covenants or restrictions on the payments of dividends, the incurrence of indebtedness or the issuance or repurchase of securities by the Company or any of its subsidiaries. Certain events are also considered "events of default" under the 2020 Notes, which may result in the acceleration of the maturity of the 2020 Notes, as described in the indenture governing the 2020 Notes. The 2020 Notes are guaranteed by the Company's primary operating subsidiary, Restoration Hardware, Inc., as Guarantor. The guarantee is the unsecured obligation of the Guarantor and is subordinated to the Guarantor's obligations from time to time with respect to its credit agreement and ranks equal in right of payment with respect to Guarantor's other obligations.

The initial conversion rate applicable to the 2020 Notes is 8.4656 shares of common stock per \$1,000 principal amount of 2020 Notes, which is equivalent to an initial conversion price of approximately \$118.13 per share. The conversion rate will be subject to adjustment upon the occurrence of certain specified events, but will not be adjusted for any accrued and unpaid special interest. In addition, upon the occurrence of a “make-whole fundamental change” as defined in the indenture, the Company will, in certain circumstances, increase the conversion rate by a number of additional shares for a holder that elects to convert its 2020 Notes in connection with such make-whole fundamental change.

Prior to March 15, 2020, the 2020 Notes will be convertible only under the following circumstances: (1) during any calendar quarter commencing after September 30, 2015, if, for at least 20 trading days (whether or not consecutive) during the 30 consecutive trading day period ending on the last trading day of the immediately preceding fiscal quarter, the last reported sale price of the Company’s common stock on such trading day is greater than or equal to 130% of the applicable conversion price on such trading day; (2) during the five consecutive business day period after any ten consecutive trading day period in which, for each day of that period, the trading price per \$1,000 principal amount of 2020 Notes for such trading day was less than 98% of the product of the last reported sale price of the Company’s common stock and the applicable conversion rate on such trading day; or (3) upon the occurrence of specified corporate transactions. As of May 5, 2018, none of these conditions have occurred and, as a result, the 2020 Notes are not convertible as of May 5, 2018. On and after March 15, 2020, until the close of business on the second scheduled trading

day immediately preceding the maturity date, holders may convert all or a portion of their 2020 Notes at any time, regardless of the foregoing circumstances. Upon conversion, the 2020 Notes will be settled, at the Company's election, in cash, shares of the Company's common stock, or a combination of cash and shares of the Company's common stock. If the Company has not delivered a notice of its election of settlement method prior to the final conversion period it will be deemed to have elected combination settlement with a dollar amount per note to be received upon conversion of \$1,000.

The Company may not redeem the 2020 Notes; however, upon the occurrence of a fundamental change (as defined in the indenture governing the notes), holders may require the Company to purchase all or a portion of their 2020 Notes for cash at a price equal to 100% of the principal amount of the 2020 Notes to be purchased plus any accrued and unpaid special interest to, but excluding, the fundamental change purchase date.

Under GAAP, certain convertible debt instruments that may be settled in cash on conversion are required to be separately accounted for as liability and equity components of the instrument in a manner that reflects the issuer's non-convertible debt borrowing rate. Accordingly, in accounting for the issuance of the 2020 Notes, the Company separated the 2020 Notes into liability and equity components. The carrying amount of the liability component was calculated by measuring the fair value of a similar liability that does not have an associated convertible feature. The carrying amount of the equity component, which is recognized as a debt discount, represents the difference between the proceeds from the issuance of the 2020 Notes and the fair value of the liability component of the 2020 Notes. The excess of the principal amount of the liability component over its carrying amount ("debt discount") will be amortized to interest expense using an effective interest rate of 6.47% over the expected life of the 2020 Notes. The equity component is not remeasured as long as it continues to meet the conditions for equity classification.

In accounting for the debt issuance costs related to the issuance of the 2020 Notes, the Company allocated the total amount incurred to the liability and equity components based on their relative values. Debt issuance costs attributable to the liability component are amortized to interest expense using the effective interest method over the expected life of the 2020 Notes, and debt issuance costs attributable to the equity component are netted with the equity component in stockholders' equity.

Debt issuance costs related to the 2020 Notes were comprised of discounts upon original issuance of \$3.8 million and third party offering costs of \$2.3 million. Discounts and third party offering costs attributable to the liability component are recorded as a contra-liability and are presented net against the convertible senior notes due 2020 balance on the condensed consolidated balance sheets. During both the three months ended May 5, 2018 and April 29, 2017, the Company recorded \$0.3 million related to the amortization of debt issuance costs.

The carrying values of the 2020 Notes, excluding the discounts upon original issuance and third party offering costs, are as follows (in thousands):

	May 5, 2018	February 3, 2018
Liability component		
Principal	\$ 300,000	\$ 300,000
Less: Debt discount	(39,974)	(44,135)
Net carrying amount	\$ 260,026	\$ 255,865
Equity component ⁽¹⁾	\$ 84,003	\$ 84,003

(1)Included in additional paid-in capital on the condensed consolidated balance sheets.

The Company recorded interest expense of \$4.2 million and \$3.9 million for the amortization of the debt discount related to the 2020 Notes during the three months ended May 5, 2018 and April 29, 2017, respectively.

2020 Notes—Convertible Bond Hedge and Warrant Transactions

In connection with the offering of the 2020 Notes in June 2015 and the exercise in full of the overallotment option in July 2015, the Company entered into convertible note hedge transactions whereby the Company has the option to purchase a total of approximately 2.5 million shares of its common stock at a price of approximately \$118.13 per share. The total cost of the convertible note hedge transactions was \$68.3 million. In addition, the Company sold warrants whereby the holders of the warrants have the option to purchase a total of approximately 2.5 million shares of the Company's common stock at a price of \$189.00 per share. The warrants contain certain adjustment mechanisms whereby the total number of shares to be purchased under such warrants may be increased up to a cap of 5.1 million shares of common stock (which cap may also be subject to adjustment). The Company received \$30.4 million in cash proceeds from the sale of these warrants. Taken together, the purchase of the convertible note hedges and sale of

the warrants are intended to offset any actual earnings dilution from the conversion of the 2020 Notes until the Company's common stock is above approximately \$189.00 per share. As these transactions meet certain accounting criteria, the convertible note hedges and warrants are recorded in stockholders' equity, are not accounted for as derivatives and are not remeasured each reporting period. The net costs incurred in connection with the convertible note hedge and warrant transactions were recorded as a reduction to additional paid-in capital on the condensed consolidated balance sheets.

The Company recorded a deferred tax liability of \$32.8 million in connection with the debt discount associated with the 2020 Notes and recorded a deferred tax asset of \$26.6 million in connection with the convertible note hedge transactions. The deferred tax liability and deferred tax asset are recorded in deferred tax assets on the condensed consolidated balance sheets.

0.00% Convertible Senior Notes due 2019

In June 2014, the Company issued \$350 million principal amount of 0.00% convertible senior notes due 2019 (the "2019 Notes") in a private offering. The 2019 Notes are governed by the terms of an indenture between the Company and U.S. Bank National Association, as the Trustee. The 2019 Notes will mature on June 15, 2019, unless earlier purchased by the Company or converted. The 2019 Notes will not bear interest, except that the 2019 Notes will be subject to "special interest" in certain limited circumstances in the event of the failure of the Company to perform certain of its obligations under the indenture governing the 2019 Notes. The 2019 Notes are unsecured obligations and do not contain any financial covenants or restrictions on the payments of dividends, the incurrence of indebtedness or the issuance or repurchase of securities by the Company or any of its subsidiaries. Certain events are also considered "events of default" under the 2019 Notes, which may result in the acceleration of the maturity of the 2019 Notes, as described in the indenture governing the 2019 Notes.

The initial conversion rate applicable to the 2019 Notes is 8.6143 shares of common stock per \$1,000 principal amount of 2019 Notes, which is equivalent to an initial conversion price of approximately \$116.09 per share. The conversion rate will be subject to adjustment upon the occurrence of certain specified events, but will not be adjusted for any accrued and unpaid special interest. In addition, upon the occurrence of a "make-whole fundamental change," the Company will, in certain circumstances, increase the conversion rate by a number of additional shares for a holder that elects to convert its 2019 Notes in connection with such make-whole fundamental change.

Prior to March 15, 2019, the 2019 Notes will be convertible only under the following circumstances: (1) during any calendar quarter commencing after September 30, 2014, if, for at least 20 trading days (whether or not consecutive) during the 30 consecutive trading day period ending on the last trading day of the immediately preceding fiscal quarter, the last reported sale price of the Company's common stock on such trading day is greater than or equal to 130% of the applicable conversion price on such trading day; (2) during the five consecutive business day period after any ten consecutive trading day period in which, for each day of that period, the trading price per \$1,000 principal amount of 2019 Notes for such trading day was less than 98% of the product of the last reported sale price of the Company's common stock and the applicable conversion rate on such trading day; or (3) upon the occurrence of specified corporate transactions. As of May 5, 2018, none of these conditions have occurred and, as a result, the 2019 Notes are not convertible as of May 5, 2018. On and after March 15, 2019, until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may convert all or a portion of their 2019 Notes at any time, regardless of the foregoing circumstances. Upon conversion, the 2019 Notes will be settled, at the Company's election, in cash, shares of the Company's common stock, or a combination of cash and shares of the Company's common stock. If the Company has not delivered a notice of its election of settlement method prior to the final conversion period it will be deemed to have elected combination settlement with a dollar amount per note to be received upon conversion of \$1,000.

The Company may not redeem the 2019 Notes; however, upon the occurrence of a fundamental change (as defined in the indenture governing the notes), holders may require the Company to purchase all or a portion of their 2019 Notes for cash at a price equal to 100% of the principal amount of the 2019 Notes to be purchased plus any accrued and unpaid special interest to, but excluding, the fundamental change purchase date.

Under GAAP, certain convertible debt instruments that may be settled in cash on conversion are required to be separately accounted for as liability and equity components of the instrument in a manner that reflects the issuer's non-convertible debt borrowing rate. Accordingly, in accounting for the issuance of the 2019 Notes, the Company separated the 2019 Notes into liability and equity components. The carrying amount of the liability component was calculated by measuring the fair value of a similar liability that does not have an associated convertible feature. The carrying amount of the equity component, which is recognized as a debt discount, represents the difference between the proceeds from the issuance of the 2019 Notes and the fair value of the liability component of the 2019 Notes. The excess of the principal amount of the liability component over its carrying amount ("debt discount") will be amortized to interest expense using an effective interest rate of 4.51% over the expected life of the 2019 Notes. The equity component is not remeasured as long as it continues to meet the conditions for equity classification.

In accounting for the debt issuance costs related to the issuance of the 2019 Notes, the Company allocated the total amount incurred to the liability and equity components based on their relative values. Debt issuance costs attributable to the liability component are amortized to interest expense using the effective interest method over the expected life of the 2019 Notes, and debt issuance costs attributable to the equity component are netted with the equity component in stockholders' equity.

Debt issuance costs related to the 2019 Notes were comprised of discounts and commissions payable to the initial purchasers of \$4.4 million and third party offering costs of \$1.0 million. Discounts, commissions payable to the initial purchasers and third party offering costs attributable to the liability component are recorded as a contra-liability and are presented net against the convertible senior notes due 2019 balance on the condensed consolidated balance sheets. During both the three months ended May 5, 2018 and April 29, 2017, the Company recorded \$0.2 million related to the amortization of debt issuance costs.

The carrying values of the 2019 Notes, excluding the discounts and commissions payable to the initial purchasers and third party offering costs, are as follows (in thousands):

	May 5, 2018	February 3, 2018
Liability component		
Principal	\$ 350,000	\$ 350,000
Less: Debt discount	(17,268)	(20,988)
Net carrying amount	\$ 332,732	\$ 329,012
Equity component ⁽¹⁾	\$ 70,482	\$ 70,482

(1) Included in additional paid-in capital on the condensed consolidated balance sheets.

The Company recorded interest expense of \$3.7 million and \$3.6 million for the amortization of the debt discount related to the 2019 Notes during the three months ended May 5, 2018 and April 29, 2017, respectively.

2019 Notes—Convertible Bond Hedge and Warrant Transactions

In connection with the offering of the 2019 Notes, the Company entered into convertible note hedge transactions whereby the Company has the option to purchase a total of approximately 3.0 million shares of its common stock at a price of approximately \$116.09 per share. The total cost of the convertible note hedge transactions was \$73.3 million. In addition, the Company sold warrants whereby the holders of the warrants have the option to purchase a total of approximately 3.0 million shares of the Company's common stock at a price of \$171.98 per share. The warrants contain certain adjustment mechanisms whereby the total number of shares to be purchased under such warrants may be increased up to a cap of 6.0 million shares of common stock (which cap may also be subject to adjustment). The Company received \$40.4 million in cash proceeds from the sale of these warrants. Taken together, the purchase of the convertible note hedges and sale of the warrants are intended to offset any actual dilution from the conversion of the 2019 Notes and to effectively increase the overall conversion price from \$116.09 per share to \$171.98 per share. As these transactions meet certain accounting criteria, the convertible note hedges and warrants are recorded in stockholders' equity, are not accounted for as derivatives and are not remeasured each reporting period. The net costs incurred in connection with the convertible note hedge and warrant transactions were recorded as a reduction to additional paid-in capital on the condensed consolidated balance sheets.

The Company recorded a deferred tax liability of \$27.5 million in connection with the debt discount associated with the 2019 Notes and recorded a deferred tax asset of \$28.6 million in connection with the convertible note hedge transactions. The deferred tax liability and deferred tax assets are included in deferred tax assets on the condensed consolidated balance sheets.

NOTE 8—CREDIT FACILITIES

The Company's outstanding credit facilities were as follows (in thousands):

	May 5, 2018			February 3, 2018		
	Outstanding	Unamortized Debt Issuance Costs	Net Carrying Amount	Outstanding	Unamortized Debt Issuance Costs	Net Carrying Amount
Asset based credit facility	\$219,000	\$ —	\$219,000	\$199,970	\$ —	\$199,970
LILO term loan	80,000	(472)	79,528	80,000	(501)	79,499
Total credit facilities	\$299,000	\$ (472)	\$298,528	\$279,970	\$ (501)	\$279,469

Asset Based Credit Facility & LILO Term Loan

In August 2011, Restoration Hardware, Inc., along with its Canadian subsidiary, Restoration Hardware Canada, Inc., entered into a credit agreement with Bank of America, N.A., as administrative agent, and certain other lenders.

On June 28, 2017, Restoration Hardware, Inc. entered into an eleventh amended and restated credit agreement among Restoration Hardware, Inc., Restoration Hardware Canada, Inc., various subsidiaries of RH named therein as borrowers or guarantors, the lenders party thereto and Bank of America, N.A. as administrative agent and collateral agent (the “credit agreement”). The credit agreement has a revolving line of credit with availability of up to \$600.0 million, of which \$10.0 million is available to Restoration Hardware Canada, Inc., and includes a \$200.0 million accordion feature under which the revolving line of credit may be expanded by agreement of the parties from \$600.0 million to up to \$800 million if and to the extent the lenders revise their credit commitments to encompass a larger facility. In addition, the credit agreement establishes an \$80.0 million LILO term loan facility. The credit agreement has a maturity date of June 28, 2022.

On June 12, 2018, Restoration Hardware, Inc. entered into a First Amendment (the “Amendment”) to credit agreement. The Amendment (i) changes the credit agreement’s definition of “Eligible In-Transit Inventory” to clarify the requirements to be fulfilled by the borrowers with respect to such in-transit inventory, and (ii) clarifies that no Default or Event of Default was caused by any prior non-compliance with such requirements with respect to in-transit inventory. Eligible In-Transit Inventory consists of inventory being shipped from vendor locations outside of the United States. Qualifying in-transit inventory is included within the Company’s borrowing base for eligible collateral for purposes of determining the amount of borrowing available to borrowers under the credit agreement.

Borrowings under the revolving line of credit and LILO term loan facility are subject to interest, at the borrowers’ option, at either the bank’s reference rate or LIBOR (or, in the case of the revolving line of credit, the Bank of America “BA” Rate or the Canadian Prime Rate, as such terms are defined in the credit agreement, for Canadian borrowings denominated in Canadian dollars or the United States Index Rate or LIBOR for Canadian borrowings denominated in United States dollars) plus an applicable margin rate, in each case.

The credit agreement contains various restrictive covenants, including, among others, limitations on the ability to incur liens, make loans or other investments, incur additional debt, issue additional equity, merge or consolidate with or into another person, sell assets, pay dividends or make other distributions, or enter into transactions with affiliates, along with other restrictions and limitations typical to credit agreements of this type and size. As of May 5, 2018, Restoration Hardware, Inc. was in compliance with all applicable covenants of the credit agreement.

As of May 5, 2018, the Company had \$219.0 million in outstanding borrowings and \$138.8 million of availability under the revolving line of credit, net of \$27.8 million in outstanding letters of credit. As of May 5, 2018, the Company had \$80.0 million outstanding borrowings under the LILO term loan facility. As a result of the consolidated fixed-charge coverage ratio (“FCCR”) restriction that limits the last 10% of borrowing availability, actual incremental borrowing available to the Company and the other affiliated parties under the revolving line of credit was approximately \$92.2 million as of May 5, 2018.

NOTE 9—FAIR VALUE OF FINANCIAL INSTRUMENTS

Amounts reported as cash and equivalents, receivables, and accounts payable and accrued expenses approximate fair value due to the short-term nature of activity within these accounts. The estimated fair value and carrying value of the 2019 Notes and 2020 Notes were as follows (in thousands):

	May 5, 2018 Fair	Carrying	February 3, 2018 Fair	Carrying
	Value	Value ⁽¹⁾	Value	Value ⁽¹⁾
Convertible senior notes due 2019	\$327,352	\$332,732	\$324,866	\$329,012
Convertible senior notes due 2020	\$261,653	\$260,026	\$261,047	\$255,865

(1) Carrying value represents the principal amount less the equity component of the 2019 Notes and 2020 Notes classified in stockholders' equity (deficit), and does not exclude the discounts upon original issuance, discounts and commissions payable to the initial purchasers and third party offering costs, as applicable.

The fair value of each of the 2019 Notes and 2020 Notes was determined based on inputs that are observable in the market or that could be derived from, or corroborated with, observable market data, including the trading price of the Company's convertible

notes, when available, the Company's stock price and interest rates based on similar debt issued by parties with credit ratings similar to the Company (Level 2).

The estimated fair values of the asset based credit facility and LILO term loan were \$219.0 million and \$80.0 million, respectively, each of which approximates cost, as of May 5, 2018. Fair value approximates cost for both the asset based credit facility and LILO term loan as the interest rate associated with each facility is variable and resets frequently.

NOTE 10—INCOME TAXES

The Company recorded income tax expense of \$8.5 million and an income tax benefit of \$1.9 million in the three months ended May 5, 2018 and April 29, 2017, respectively. The effective tax rate was 23.3% and 36.2% for the three months ended May 5, 2018 and April 29, 2017, respectively. The decrease in the effective tax rate is primarily due to the reduction in the U.S. corporate income tax rate from 35% to 21% effective January 1, 2018 due to the passage of the Tax Cuts and Jobs Act (the "Tax Act").

On December 22, 2017, the Tax Act was enacted in the United States. The Company recognized the income tax effects of the Tax Act in its fiscal 2017 financial statements in accordance with Staff Accounting Bulletin 118, which provides SEC staff guidance for the application of ASC Topic 740, Income Taxes, in the reporting period in which the Tax Act was signed into law. As noted in its fiscal 2017 consolidated financial statements, the Company was able to reasonably estimate certain effects and, therefore, recorded provisional amounts associated with the one-time transition tax on indefinitely reinvested foreign earnings and the adjustment to our deferred tax assets and liabilities for the reduction in the corporate income tax rate.

The Company has not made any additional measurement period adjustments related to these items during the three months ended May 5, 2018. As the Company continues its analysis of the Tax Act and interprets any additional guidance, it may make adjustments to the provisional amounts that have been recorded that may materially impact the Company's provision for income taxes.

As of May 5, 2018 and February 3, 2018, the Company had \$8.2 million of unrecognized tax benefits, of which \$6.5 million would reduce income tax expense and the effective tax rate, if recognized. The remaining unrecognized tax benefits would offset other deferred tax assets, if recognized. As of May 5, 2018, the Company had \$0.4 million of exposures related to unrecognized tax benefits that are expected to decrease in the next 12 months.

NOTE 11—NET INCOME (LOSS) PER SHARE

The weighted-average shares used for net income (loss) per share is presented in the table below. As the Company was in a net loss position for the three months ended April 29, 2017, the weighted-average shares outstanding for basic and diluted are the same.

Three Months Ended	
May 5,	April 29,
2018	2017

Edgar Filing: RH - Form 10-Q

Weighted-average shares—basic	21,545,025	37,609,516
Effect of dilutive stock-based awards	3,685,203	—
Effect of dilutive convertible senior notes ⁽¹⁾	—	—
Weighted-average shares—diluted	25,230,228	37,609,516

(1) The 2019 Notes and 2020 Notes will have an impact on the Company's dilutive share count beginning at stock prices of \$116.09 per share and \$118.13 per share, respectively.

The following number of options and restricted stock units were excluded from the calculation of diluted net income (loss) per share because their inclusion would have been anti-dilutive:

	Three Months Ended	
	May 5, 2018	April 29, 2017
Options	486,516	8,221,249
Restricted stock units	10,500	1,029,740
Total anti-dilutive stock-based awards	497,016	9,250,989

NOTE 12—SHARE REPURCHASES

\$300 Million Share Repurchase Program

On February 21, 2017, the Company's Board of Directors authorized a stock repurchase program of up to \$300 million (the "\$300 Million Repurchase Program"). Under the \$300 Million Repurchase Program, the Company repurchased approximately 7.8 million shares of its common stock at an average price of \$38.24 per share, for an aggregate repurchase amount of approximately \$300 million, during the three months ended April 29, 2017. As the \$300 Million Repurchase Program was completed during the three months ended April 29, 2017 there will be no repurchases in future periods under this repurchase authorization.

Share Repurchases Under Equity Plans

As of May 5, 2018 and February 3, 2018, the aggregate unpaid principal amount of the notes payable for share repurchases was \$19.6 million and \$19.4 million, respectively, which is included in other non-current obligations on the condensed consolidated balance sheets. During both the three months ended May 5, 2018 and April 29, 2017, the Company recorded interest expense on the outstanding notes of \$0.2 million.

Of the \$19.6 million and \$19.4 million notes payable for share repurchases outstanding as of May 5, 2018 and February 3, 2018, respectively, \$15.5 million was due to a current board member of the Company.

NOTE 13—STOCK-BASED COMPENSATION

The Company estimates the value of equity grants based upon an option-pricing model and recognizes this estimated value as compensation expense over the vesting periods. The Company recognizes expense associated with performance-based awards when it becomes probable that the performance condition will be met. Once it becomes probable that an award will vest, the Company recognizes compensation expense equal to the number of shares which are probable to vest multiplied by the fair value of the related shares measured at the grant date.

Stock-based compensation expense is included in selling, general and administrative expenses on the condensed consolidated statements of operations. The Company recorded stock-based compensation expense of \$8.0 million and \$5.3 million during the three months ended May 5, 2018 and April 29, 2017, respectively. No stock-based compensation cost has been capitalized in the accompanying condensed consolidated financial statements.

2012 Stock Incentive Plan and 2012 Stock Option Plan

As of May 5, 2018, 8,564,739 options were outstanding with a weighted-average exercise price of \$50.66 per share and 6,295,895 options were vested with a weighted-average exercise price of \$51.95 per share. The aggregate intrinsic value of options outstanding, options vested or expected to vest, and options exercisable as of May 5, 2018 was \$429.8 million, \$388.2 million, and \$307.0 million, respectively. Stock options exercisable as of May 5, 2018 had a weighted-average remaining contractual life of 5.90 years. As of May 5, 2018, the total unrecognized compensation expense related to unvested options was \$23.4 million, which is expected to be recognized on a straight-line basis over a weighted-average period of 2.86 years.

As of May 5, 2018, the Company had 768,463 restricted stock units outstanding with a weighted-average grant date fair value of \$52.81 per share. During the three months ended May 5, 2018, 30,615 restricted stock units vested with a weighted-average grant date and vest date fair value of \$52.36 per share and \$97.09 per share, respectively. As of May

5, 2018, there was \$18.9 million of total unrecognized compensation expense related to unvested restricted stock and restricted stock units which is expected to be recognized over a weighted-average period of 2.81 years.

Rollover Units

In connection with the acquisition of Waterworks in May 2016, \$1.5 million rollover units in the Waterworks subsidiary (the “Rollover Units”) were recorded as part of the transaction. The Rollover Units are subject to the terms of the Waterworks LLC agreement, including redemption rights at an amount equal to the greater of (i) the \$1.5 million remitted as consideration in the business combination or (ii) an amount based on the percentage interest represented in the overall valuation of the Waterworks subsidiary (the “Appreciation Rights”). The Appreciation Rights are measured at fair value and are subject to fair value measurements during the expected life of the Rollover Units, with changes to fair value recorded in the condensed consolidated statements of operations. The fair value of the Appreciation Rights is determined based on an option pricing method (“OPM”). The Company did not record any expense related to the Appreciation Rights during the three months ended May 5, 2018 or April 29, 2017. As of both

May 5, 2018 and February 3, 2018, the liability associated with the Rollover Units and related Appreciation Rights was \$1.5 million, which is included in other non-current obligations on the condensed consolidated balance sheets.

Profit Interests

In connection with the acquisition of Waterworks in May 2016, profit interests units in the Waterworks subsidiary (the “Profit Interests”) were issued to certain Waterworks associates. The Profit Interests are measured at their grant date fair value and expensed on a straight-line basis over their expected life, or five years. The Profit Interests are subject to fair value measurements during their expected life, with changes to fair value recorded in the condensed consolidated statements of operations. The fair value of the Profit Interests is determined based on an OPM. For both the three months ended May 5, 2018 and April 29, 2017, the Company recorded \$0.1 million related to the Profit Interests, which is included in selling, general and administrative expenses on the condensed consolidated statements of operations. As of May 5, 2018 and February 3, 2018, the liability associated with the Profit Interests was \$0.8 million and \$0.7 million, respectively, which is included in other non-current obligations on the condensed consolidated balance sheets.

NOTE 14—COMMITMENTS AND CONTINGENCIES

Commitments

The Company had no material off balance sheet commitments as of May 5, 2018.

Contingencies

The Company is involved in lawsuits, claims and proceedings incident to the ordinary course of its business. These disputes are increasing in number as the business expands and the Company grows larger. Litigation is inherently unpredictable. As a result, the outcome of matters in which the Company is involved could result in unexpected expenses and liability that could adversely affect the Company’s operations. In addition, any claims against the Company, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in the diversion of significant operational resources.

The Company reviews the need for any loss contingency reserves and establishes reserves when, in the opinion of management, it is probable that a matter would result in liability, and the amount of loss, if any, can be reasonably estimated. Generally, in view of the inherent difficulty of predicting the outcome of those matters, particularly in cases in which claimants seek substantial or indeterminate damages, it is not possible to determine whether a liability has been incurred or to reasonably estimate the ultimate or minimum amount of that liability until the case is close to resolution, in which case no reserve is established until that time. When and to the extent that the Company does establish a reserve, there can be no assurance that any such recorded liability for estimated losses will be for the appropriate amount, and actual losses could be higher or lower than what the Company accrues from time to time. The Company believes that the ultimate resolution of its current matters will not have a material adverse effect on its condensed consolidated financial statements.

Securities Class Action

On February 2, 2017, City of Miami General Employees’ & Sanitation Employees’ Retirement Trust filed a class action complaint in the United States District Court, Northern District of California, against the Company, Gary Friedman, and Karen Boone. On March 16, 2017, Peter J. Errichiello, Jr. filed a similar class action complaint in the same forum

and against the same parties. On April 26, 2017, the court consolidated the two actions. The consolidated action is captioned In re RH, Inc. Securities Litigation. An amended consolidated complaint was filed in June 2017 asserting claims under sections 10(b) and 20(a) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). The complaint asserts claims purportedly on behalf of a class of purchasers of Company common stock from March 26, 2015 to June 8, 2016. The alleged misstatements relate to statements regarding the roll out of the RH Modern product line and the Company’s inventory levels. The complaint seeks class certification, monetary damages, and other appropriate relief, including an award of costs and attorneys’ fees. On February 26, 2018, the Court filed an order denying the Company’s motion to dismiss the complaint. While the outcome of litigation is inherently uncertain, the Company and its officers intend to vigorously defend the claims and believe the complaint lacks merit.

Shareholder Derivative Lawsuit

On April 24, 2018, purported Company shareholder David Magnani filed a purported shareholder derivative suit in the United States District Court, Northern District of California, captioned Magnani v. Friedman et al. (No. 18-cv-02452). The suit names the Company as nominal defendant and certain current and former directors and officers as individual defendants. The allegations in the complaint substantially track those in the securities class action described above. The plaintiff brings claims against all individual

defendants under Section 14(a) of the Exchange Act, as well as claims for breach of fiduciary duty, unjust enrichment, and waste of corporate assets. The complaint also includes insider trading and misappropriation of information claims against two of the individual defendants. The complaint seeks monetary damages, corporate governance changes, restitution, and an award of costs and attorneys' fees. The Company believes that the plaintiff lacks standing to bring this derivative action.

NOTE 15—SEGMENT REPORTING

The Company defines reportable and operating segments on the same basis that it uses to evaluate performance internally by the Chief Operating Decision Maker (the "CODM"). The Company has determined that the Chief Executive Officer is its CODM. As of May 5, 2018, the Company had two operating segments: RH Segment and Waterworks. The two operating segments include all sales channels accessed by the Company's customers, including sales through catalogs, sales through the Company's websites, sales through stores, and sales through the commercial channel.

The Company's two operating segments are strategic business units that offer products for the home furnishings customer. While RH Segment and Waterworks have a shared management team and customer base, the Company has determined that their results cannot be aggregated as they do not share similar economic characteristics, as well as due to other quantitative factors.

The Company uses operating income to evaluate segment profitability. Operating income is defined as net income (loss) before interest expense—net and income taxes.

Segment Information

The following table presents the statements of operations metrics reviewed by the CODM to evaluate performance internally or as required under ASC 280—Segment Reporting (in thousands):

	Three Months Ended					
	May 5, 2018			April 29, 2017		
	RH			RH		
	Segment	Waterworks	Total	Segment	Waterworks	Total
Net revenues	\$526,007	\$ 31,399	\$557,406	\$533,528	\$ 28,552	\$562,080
Gross profit	199,035	13,000	212,035	159,627	10,629	170,256
Depreciation and amortization	15,935	1,112	17,047	14,901	1,119	16,020

The following table presents the balance sheet metrics as required under ASC 280—Segment Reporting (in thousands):

May 5, 2018		February 3, 2018	
Waterworks	Total	Waterworks	Total

Edgar Filing: RH - Form 10-Q

	RH Segment			RH Segment		
Goodwill ⁽¹⁾	\$124,404	\$ 17,445	\$141,849	\$124,448	\$ 17,445	\$141,893
Trademarks and domain names	48,563	52,100	100,663	48,563	52,100	100,663
Total assets	1,621,817	127,144	1,748,961	1,608,290	124,576	1,732,866

(1) The Waterworks reporting unit goodwill is presented net of an impairment charge of \$33.7 million, which was recorded in fiscal 2017.

The Company uses segment operating income to evaluate segment performance and allocate resources. Segment operating income excludes (i) legal expenses incurred in connection with the final purchase price of Waterworks, (ii) non-cash amortization of the inventory fair value adjustment recorded in connection with the acquisition of Waterworks, (iii) the lease loss liability adjustment associated with the Dallas distribution center closure and (iv) product recall adjustments. These items are excluded from segment operating income in order to provide better transparency of segment operating results. Accordingly, these items are not presented by segment because they are excluded from the segment profitability measure that management reviews.

The following table presents segment operating income (loss) and income (loss) before tax (in thousands):

	Three Months Ended	
	May 5, 2018	April 29, 2017
Operating income (loss):		
RH Segment	\$53,896	\$10,058
Waterworks	(516)	(1,782)
Distribution center closures	2,072	—
Recall accrual	254	—
Post-acquisition related legal costs	(1,915)	—
Impact of inventory step-up	(190)	(1,380)
Operating income	53,601	6,896
Interest expense—net	17,035	12,179
Income (loss) before tax	\$36,566	\$(5,283)

The Company classifies its sales into furniture and non-furniture product lines. Furniture includes both indoor and outdoor furniture. Non-furniture includes lighting, textiles, fittings, fixtures, surfaces, accessories and home décor. Net revenues in each category were as follows (in thousands):

	Three Months Ended	
	May 5, 2018	April 29, 2017
Furniture	\$352,646	\$352,956
Non-furniture	204,760	209,124
Total net revenues	\$557,406	\$562,080

The Company is domiciled in the United States and primarily operates its retail and outlet stores in the United States. As of May 5, 2018, the Company operates 4 retail and 2 outlet stores in Canada and 1 retail store in the U.K. Revenues from Canadian and U.K. operations, and the long-lived assets in Canada and the U.K., are not material to the Company. Canada and U.K. geographic revenues are based upon revenues recognized at the retail store locations in the respective country.

No single customer accounted for more than 10% of the Company's revenues in the three months ended May 5, 2018 or April 29, 2017.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of the financial condition and results of our operations should be read together with our condensed consolidated financial statements and the related notes included in Item 1 of Part I of this Quarterly Report on Form 10-Q and with our audited consolidated financial statements and the related notes included in our 2017 Form 10-K.

FORWARD-LOOKING STATEMENTS AND MARKET DATA

This quarterly report contains forward-looking statements that are subject to risks and uncertainties. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as “anticipate,” “estimate,” “expect,” “project,” “plan,” “intend,” “believe,” “may,” “will,” “short-term,” “non-recurring,” “one-time,” “unusual,” “should,” words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

Forward-looking statements are subject to risk and uncertainties that may cause actual results to differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors and it is impossible for us to anticipate all factors that could affect our actual results and matters that we identify as “short term,” “non-recurring,” “unusual,” “one-time,” or other words and terms of similar meaning may in fact recur in one or more future financial reporting periods. Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, include those factors disclosed under the sections entitled Risk Factors in Part II of this quarterly report, in our Annual Report on Form 10-K for the fiscal year ended February 3, 2018 (“2017 Form 10-K”), and Management's Discussion and Analysis of Financial Condition and Results of Operations in Part I of this quarterly report and in our 2017 Form 10-K. All forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements, as well as other cautionary statements. You should evaluate all forward-looking statements made in this quarterly report in the context of these risks and uncertainties.

We cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this quarterly report are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

Overview

We are a leading luxury retailer in the home furnishings marketplace. Our curated and fully-integrated assortments are presented consistently across our sales channels in sophisticated and unique lifestyle settings that we believe are on par with world-class interior designers. We offer dominant merchandise assortments across a growing number of categories, including furniture, lighting, textiles, bathware, décor, outdoor and garden, tableware, and child and teen furnishings. We position our Galleries as showrooms for our brand, while our Source Books and websites act as virtual extensions of our stores.

Our business is fully integrated across our multiple channels of distribution, consisting of our stores, Source Books and websites. As of May 5, 2018, we operated a total of 84 retail Galleries, consisting of 17 Design Galleries, 46 legacy Galleries, 2 RH Modern Galleries and 4 RH Baby & Child Galleries throughout the United States and

Canada, and 15 Waterworks showrooms in the United States and in the U.K. In addition, as of May 5, 2018, we operated 32 outlet stores throughout the United States and Canada.

Key Value Driving Strategies

In order to drive growth across our business, we are focused on the following long-term key strategies:

• **Transform Our Real Estate Platform.** We believe we have an opportunity to significantly increase our sales by transforming our real estate platform from our existing legacy retail footprint to a portfolio of Design Galleries that are sized to the potential of each market and the size of our assortment.

New Design Gallery sites are identified based on a variety of factors, including timing of legacy Gallery lease expiration, availability of suitable new site locations based on several store specific aspects including geographic location, demographics, and proximity to affluent consumers, and the negotiation of favorable economic terms to the Company for the new location, as well as satisfactory and timely completion of real estate development including procurement of permits and completion of construction. Based on our analysis, we believe we have the opportunity to operate Design Galleries in 60 to 70 locations in the United States and Canada. The increased cadence should support an increase in the

rate of our long-term revenue growth as new Design Gallery openings are one of the key drivers of our long-term revenue growth. The number of Design Galleries we open in any fiscal year is highly dependent upon these variables and individual new Design Galleries may be subject to delay or postponement depending on the circumstances of specific projects.

We opened our Portland Design Gallery in March 2018. We expect to open two more Design Galleries in Nashville and New York in fiscal 2018, as well as one smaller Gallery in Yountville, California in the Napa Valley, all with integrated cafés, wine vaults and barista bars.

We have identified key learnings from our real estate transformation that have supported the development of our new prototype Design Gallery that will enable us to accelerate our new store opening cadence beginning in fiscal 2019. The new prototype will range in size from 33,000 square feet inclusive of our integrated hospitality experience to 29,000 square feet without the integrated hospitality experience, and will represent our assortments from RH Interiors, RH Modern, RH Baby & Child, RH TEEN and RH Outdoor. Due to the reduced square footage and efficient design, we believe these new Galleries will be more capital efficient and should have lower risk in the real estate development process both with respect to costs and time required for completion, but yield similar productivity. We anticipate these Galleries will represent approximately two thirds of our target markets and enable us to ramp up from three to five new Galleries per year to a pace of five to seven new Galleries per year beginning in fiscal 2019.

We will continue to develop and open larger Bespoke Design Galleries in the top metropolitan markets, and indigenous Bespoke Galleries in the best second home markets where the wealthy and affluent visit and vacation. Examples include the Hamptons, Aspen, Palm Beach and the Napa Valley, among others.

We also believe there is an opportunity to transition our real estate strategy from a leasing model to a development model, where we potentially buy and develop our Design Galleries then recoup the investments through a sale leaseback arrangement resulting in lower capital investment and lower rent. We currently have two projects, RH Yountville, California, and Edina, Minnesota, under construction using this new model and have an additional five projects in the development process.

Expand Our Offering and Increase Our Market Share. We believe we have a significant opportunity to increase our market share by:

- growing our merchandise assortment and introducing new products and categories;
- expanding our service offerings, including design services and cafes, wine vaults and coffee bars at our Design Galleries;
- exploring and testing new business opportunities complementary to our core business; and
- increasing our brand awareness and customer loyalty through our Source Book circulation strategy, membership program, our digital marketing initiatives and our advertising and public relations activities and events.

During fiscal 2017 and fiscal 2018 we have deferred the introduction of major new product category expansions other than the ongoing development of RH Hospitality in conjunction with new Design Galleries. We plan a return to our product and business expansion strategy in fiscal 2019, which has been on hold as we focus on the architecture of a new operating platform and our move to a membership model.

Architect New Operating Platform. Our goal is to architect a new operating platform that we believe will simplify our business, enhance the customer experience, and amplify decision quality and speed. As part of architecting a new operating platform, we have focused on redesigning our supply chain network, rationalizing our product offerings, and transitioning inventory into fewer facilities, creating a more capital efficient model.

Elevate the Customer Experience. We are focused on improving the end-to-end customer experience. As we have elevated our brand, especially at retail, we are also working to enhance the brand experience in other aspects of our business. We are making changes in many aspects of our business processes that affect our customers, including the

in-home delivery experience, improvements in product quality and enhancements in sourcing, product availability, and all aspects of customer care and service. We also believe that the introduction of experiential brand-enhancing products and services, such as expanded design ateliers, the RH Interior Design program and the launch of an integrated food and beverage experience in a number of our new Galleries, will further enhance our customers' in-store experience, allowing us to further disrupt the highly fragmented home furnishings landscape and achieve market share gains.

Increase Operating Margins. We anticipate improved operating margins through cycling our SKU rationalization and inventory reduction efforts, anniversarying the significant start-up costs from our integrated hospitality experience, neutralizing the earnings drag from Waterworks, benefitting from the continued cost savings of our new operating platform, and leveraging the gain we expect from our real estate transformation. In addition, we believe the operating

efficiencies of our membership model are helping to drive a number of efficiencies across our business that are contributing to our improving operating margins.

• **Optimize the Allocation of Capital in the Business.** We believe that our operations and current initiatives present a significant opportunity to optimize the allocation of capital in our business, including generating free cash flow and optimizing our balance sheet. Our focus on cash during fiscal 2017 resulted in the Company generating \$412 million in free cash flow in fiscal 2017. We expect to continue to focus on generating additional free cash flow during fiscal 2018.

• **Pursue International Expansion.** We plan to strategically expand our business into select countries outside of the United States and Canada in the future. We continue to explore opportunities to open our first RH Gallery in London. We believe that our luxury brand positioning and unique aesthetic will have strong international appeal.

We continue to pursue and test numerous initiatives to improve many aspects of our business including through efforts to optimize inventory, elevate the home delivery experience and simplify our distribution network, as well as to expand our product offering and transform our real estate. There can be no assurance as to the timing and extent of the operational benefits and financial contributions of these strategic efforts. In addition, our pursuit of multiple initiatives with respect to our business in any given period may result in period-to-period changes in, and increased fluctuation in, our results of operations. For example, our efforts to optimize our distribution network could cause us to incur costs and expenses in the short term with respect to changes in the way in which we operate our business. The above factors and other current and future operational initiatives of the Company may create additional uncertainty with respect to our consolidated net revenues and profit in the near term.

Basis of Presentation and Results of Operations

The following table sets forth our condensed consolidated statements of operations and other financial and operating data.

	Three Months Ended	
	May 5, 2018	April 29, 2017
	(dollars in thousands)	
Condensed Consolidated Statements of Operations:		
Net revenues	\$557,406	\$562,080
Cost of goods sold	345,371	391,824
Gross profit	212,035	170,256
Selling, general and administrative expenses	158,434	163,360
Income from operations	53,601	6,896
Interest expense—net	17,035	12,179
Income (loss) before income taxes	36,566	(5,283)
Income tax expense (benefit)	8,507	(1,913)
Net income (loss)	\$28,059	\$(3,370)
Other Financial and Operating Data:		
Net revenues:		
Stores ⁽¹⁾	\$314,517	\$316,724
Direct	\$242,889	\$245,356

Edgar Filing: RH - Form 10-Q

Direct as a percentage of net revenues ⁽²⁾	44	%	44	%
Growth in net revenues:				
Stores ⁽¹⁾	(1)%	24	%
Direct	(1)%	23	%
Total	(1)%	23	%
Comparable brand revenue growth ⁽³⁾	1	%	9	%
Adjusted net income ⁽⁴⁾	\$33,454		\$1,794	
Adjusted EBITDA ⁽⁵⁾	\$78,424		\$29,585	
Capital expenditures	\$27,121		\$21,173	

(1) Stores data represents sales originating in retail stores, including Waterworks showrooms, and outlet stores. Net revenues for outlet stores, which include warehouse sales, were \$43.2 million and \$56.1 million for the three months ended May 5, 2018 and April 29, 2017, respectively.

(2) Direct net revenues include sales originating from our Source Books, websites, and phone orders, including our Contract business and a portion of our Trade business.

- (3) Comparable brand revenue growth includes direct net revenues and retail comparable store sales, including RH Baby & Child, RH Modern Galleries and Hospitality. Comparable brand revenue growth excludes retail non-comparable store sales, closed store sales and outlet net revenues. Comparable store sales have been calculated based upon retail stores, excluding outlet stores, that were open at least fourteen full months as of the end of the reporting period and did not change square footage by more than 20% between periods. If a store is closed for seven days during a month, that month will be excluded from comparable store sales. Membership revenue was included in comparable brand revenue growth beginning April 2017, which is the first full month following the one-year anniversary of the program launch. Waterworks revenue was included in comparable brand revenue growth beginning June 2017, which is the first full month following the one-year anniversary of the acquisition.
- (4) Adjusted net income is a supplemental measure of financial performance that is not required by, or presented in accordance with, generally accepted accounting principles (“GAAP”). We define adjusted net income as net income (loss), adjusted for the impact of certain non-recurring and other items that we do not consider representative of our underlying operating performance. Adjusted net income is included in this filing because management believes that adjusted net income provides meaningful supplemental information for investors regarding the performance of our business and facilitates a meaningful evaluation of actual results on a comparable basis with historical results. Our management uses this non-GAAP financial measure in order to have comparable financial results to analyze changes in our underlying business from quarter to quarter. The following table presents a reconciliation of net income (loss), the most directly comparable GAAP financial measure, to adjusted net income for the periods indicated below.

	Three Months Ended	
	May 5, 2018	April 29, 2017
	(in thousands)	
Net income (loss)	\$28,059	\$(3,370)
Adjustments pre-tax:		
Amortization of debt discount ^(a)	7,272	6,715
Post-acquisition related legal costs ^(b)	1,915	—
Impact of inventory step-up ^(c)	190	1,380
Distribution center closures ^(d)	(2,072)	—
Recall accrual ^(e)	(254)	—
Subtotal adjusted items	7,051	8,095
Impact of income tax items ^(f)	(1,656)	(2,931)
Adjusted net income	\$33,454	\$1,794

- (a) Under GAAP, certain convertible debt instruments that may be settled in cash on conversion are required to be separately accounted for as liability and equity components of the instrument in a manner that reflects the issuer’s non-convertible debt borrowing rate. Accordingly, in accounting for GAAP purposes for the \$350 million aggregate principal amount of convertible senior notes that were issued in June 2014 (the “2019 Notes”) and for the \$300 million aggregate principal amount of convertible senior notes that were issued in June and July 2015 (the “2020 Notes”), we separated the 2019 Notes and 2020 Notes into liability (debt) and equity (conversion option) components and we are amortizing as debt discount an amount equal to the fair value of the equity components as interest expense on the 2019 Notes and 2020 Notes over their expected lives. The equity components represent the difference between the proceeds from the issuance of the 2019 Notes and 2020 Notes and the fair value of the liability components of the 2019 Notes and 2020 Notes, respectively. Amounts are presented net of interest

capitalized for capital projects of \$0.6 million and \$0.7 million during the three months ended May 5, 2018 and April 29, 2017, respectively.

- (b) Represents legal expenses incurred in connection with the final purchase price of Waterworks.
 - (c) Represents the non-cash amortization of the inventory fair value adjustment recorded in connection with our acquisition of Waterworks.
 - (d) Represents an adjustment to the lease related liability associated with the Dallas distribution center closure in fiscal 2017 primarily due to the remeasurement of the liability for lease losses resulting from a sublease agreement we entered into in April 2016 that resulted in an update to both the timing and the term of future lease-related cash inflows.
 - (e) Represents an adjustment related to certain product recalls initiated in prior years.
 - (f) The adjustments for the three months ended May 5, 2018 and April 29, 2017 represent the tax effect of the adjusted items based on our effective tax rates of 23.3% and 36.2%, respectively.
- (5) EBITDA and Adjusted EBITDA are supplemental measures of financial performance that are not required by, or presented in accordance with, GAAP. We define EBITDA as consolidated net income (loss) before depreciation and amortization, interest expense and provision for income taxes. Adjusted EBITDA reflects further adjustments to EBITDA to eliminate the impact of non-cash compensation, as well as certain non-recurring and other items that we do not consider representative of our underlying operating performance. EBITDA and Adjusted EBITDA are included in this filing because management believes

that these metrics provide meaningful supplemental information for investors regarding the performance of our business and facilitate a meaningful evaluation of operating results on a comparable basis with historical results. Our management uses this non-GAAP financial measure in order to have comparable financial results to analyze changes in our underlying business from quarter to quarter. Our measures of EBITDA and Adjusted EBITDA are not necessarily comparable to other similarly titled captions for other companies due to different methods of calculation. The following table presents a reconciliation of net income (loss), the most directly comparable GAAP financial measure, to EBITDA and Adjusted EBITDA for the periods indicated below.

	Three Months Ended	
	May 5, 2018	April 29, 2017
	(in thousands)	
Net income (loss)	\$28,059	\$(3,370)
Depreciation and amortization	17,047	16,020
Interest expense—net	17,035	12,179
Income tax expense (benefit)	8,507	(1,913)
EBITDA	70,648	22,916
Non-cash compensation ^(a)	7,997	5,289
Post-acquisition related legal costs ^(b)	1,915	—
Impact of inventory step-up ^(b)	190	1,380
Distribution center closures ^(b)	(2,072)	—
Recall accrual ^(b)	(254)	—
Adjusted EBITDA	\$78,424	\$29,585

(a) Represents non-cash compensation related to equity awards granted to employees.

(b) Refer to the reconciliation of net income (loss) to adjusted net income table above and the related footnotes for additional information.

The following tables present retail Gallery metrics, which have been calculated based upon retail stores, which includes our RH Baby & Child, RH Modern Galleries and Waterworks Showrooms, and excludes outlet stores.

	Three Months Ended			
	May 5, 2018		April 29, 2017	
	Total Leased Selling Store Square Count		Total Leased Selling Store Square Count	
	Footage ⁽¹⁾		Footage ⁽¹⁾

End of period	84	1,012	85	912

(1) Leased selling square footage is retail space at our stores used to sell our products. Leased selling square footage excludes backrooms at retail stores used for storage, office space, food preparation, kitchen space or similar purpose, as well as exterior sales space located outside a store, such as courtyards, gardens and rooftops. Leased selling square footage for the three months ended May 5, 2018 includes approximately 4,800 square feet related to one owned store location. Leased selling square footage for the three months ended April 29, 2017 includes approximately 13,000 square feet related to two owned store locations.

	Three Months Ended	
	May 5, 2018	April 29, 2017
	(in thousands)	
Total leased square footage at end of period ⁽¹⁾	1,358	1,242
Weighted-average leased square footage ⁽²⁾	1,323	1,242
Weighted-average leased selling square footage ⁽²⁾	984	912
Retail sales per leased selling square foot (in dollars) ⁽³⁾	\$275	\$284

- (1) Total leased square footage as of May 5, 2018 includes approximately 5,400 square feet related to one owned store location. Total leased square footage as of April 29, 2017 includes approximately 24,000 square feet related to two owned store locations.
- (2) Weighted-average leased square footage and leased selling square footage is calculated based on the number of days a Gallery location was opened during the period divided by the total number of days in the period.
- (3) Retail sales per leased selling square foot is calculated by dividing total net revenues for all retail stores, comparable and non-comparable, by the weighted-average leased selling square footage for the period.

The following table sets forth our condensed consolidated statements of operations as a percentage of total net revenues.

	Three Months Ended	
	May 5, 2018	April 29, 2017
Condensed Consolidated Statements of Operations:		
Net revenues	100.0%	100.0%
Cost of goods sold	62.0	69.7
Gross profit	38.0	30.3
Selling, general and administrative expenses	28.4	29.1
Income from operations	9.6	1.2
Interest expense—net	3.1	2.1
Income (loss) before income taxes	6.5	(0.9)
Income tax expense (benefit)	1.5	(0.3)
Net income (loss)	5.0 %	(0.6)%

Three Months Ended May 5, 2018 Compared to Three Months Ended April 29, 2017

Edgar Filing: RH - Form 10-Q

	Three Months Ended			April 29,		
	May 5, 2018			2017		
	RH Segment (in thousands)	Waterworks (1)	Total	RH Segment	Waterworks (1)	Total
Net revenues	\$526,007	\$ 31,399	\$557,406	\$533,528	\$ 28,552	\$562,080
Cost of goods sold	326,972	18,399	345,371	373,901	17,923	391,824
Gross profit	199,035	13,000	212,035	159,627	10,629	170,256
Selling, general and						
administrative expenses	144,728	13,706	158,434	149,569	13,791	163,360
Income (loss) from operations	\$54,307	\$ (706)	\$53,601	\$10,058	\$ (3,162)	\$6,896

(1) Waterworks results include non-cash amortization of \$0.2 million and \$1.4 million related to the inventory fair value adjustment recorded in connection with our acquisition of Waterworks during the three months ended May 5, 2018 and April 29, 2017, respectively.

Net revenues

Consolidated net revenues decreased \$4.7 million, or 0.8%, to \$557.4 million in the three months ended May 5, 2018 compared to \$562.1 million in the three months ended April 29, 2017. Stores net revenues decreased \$2.2 million, or 0.7%, to \$314.5 million in the three months ended May 5, 2018 compared to \$316.7 million in the three months ended April 29, 2017. Direct net revenues decreased \$2.5 million, or 1.0%, to \$242.9 million in the three months ended May 5, 2018 compared to \$245.4 million in the three months ended April 29, 2017. Comparable brand revenue was 1% for the three months ended May 5, 2018.

RH Segment net revenues

RH Segment net revenues decreased \$7.5 million, or 1.4%, to \$526.0 million in the three months ended May 5, 2018 compared to \$533.5 million in the three months ended April 29, 2017. The below discussion highlights several significant factors that resulted in decreased RH Segment net revenues, which are listed in order of magnitude.

RH Segment core net revenues decreased due to additional discounts offered on discontinued merchandise related to the optimization of our inventory and SKU rationalization during the first quarter of fiscal 2017 that did not repeat in the first quarter of fiscal 2018. The overall decrease in RH Segment core net revenues was partially offset by an increase in retail weighted-average leased selling square footage related to new store openings in West Palm Beach, Toronto and Portland.

Outlet sales, which include sales via warehouse locations, decreased in the three months ended May 5, 2018 compared to the three months ended April 29, 2017 primarily as a result of our inventory optimization efforts during the first quarter of fiscal 2017 as we increased our outlet promotional activity and offered higher discounts. Similar promotions and discounts were not offered in the first quarter of fiscal 2018. We increased the number of outlet locations, adding four new locations from the prior period and increasing outlet selling square footage by approximately 28% compared to the prior period.

We had increases in net revenues during the first quarter of fiscal 2018 as compared to the first quarter of fiscal 2017 associated with our Contract business, Membership revenue and Hospitality operations.

Waterworks net revenues

Waterworks net revenues increased \$2.8 million, or 10.0%, to \$31.4 million in the three months ended May 5, 2018 compared to \$28.6 million in the three months ended April 29, 2017.

Gross profit

Consolidated gross profit increased \$41.8 million, or 24.5%, to \$212.0 million in the three months ended May 5, 2018 from \$170.3 million in the three months ended April 29, 2017. As a percentage of net revenues, consolidated gross margin increased 7.7% to 38.0% of net revenues in the three months ended May 5, 2018 from 30.3% of net revenues in the three months ended April 29, 2017.

RH Segment gross profit for the three months ended May 5, 2018 was positively impacted by \$0.3 million related to an adjustment associated with product recalls. Waterworks gross profit for the three months ended May 5, 2018 and April 29, 2017 was negatively impacted by \$0.2 million and \$1.4 million, respectively, of amortization related to the inventory fair value adjustment recorded in connection with the acquisition.

Excluding the product recall adjustment and the impact of the amortization related to the inventory fair value adjustment mentioned above, consolidated gross margin would have increased 7.5% to 38.0% of net revenues in the three months ended May 5, 2018 from 30.5% of net revenues in the three months ended April 29, 2017.

RH Segment gross profit

RH Segment gross profit increased \$39.4 million, or 24.7%, to \$199.0 million in the three months ended May 5, 2018 from \$159.6 million in the three months ended April 29, 2017. As a percentage of net revenues, RH Segment gross margin increased 7.9% to 37.8% of net revenues in the three months ended May 5, 2018 from 29.9% of net revenues in the three months ended April 29, 2017.

Excluding the product recall adjustment mentioned above, RH Segment gross margin would have increased 7.9% to 37.8% of net revenues in the three months ended May 5, 2018 from 29.9% of net revenues in the three months ended April 29, 2017. The increase was related to higher product margins due to higher outlet and warehouse sales driven by increased promotions and higher discounts during the first quarter of fiscal 2017 versus fiscal 2018, improvements in our core merchandise margins as our SKU rationalization efforts had a reduced impact on our margins this year compared to last year, as well as leverage in our occupancy costs related to distribution center network redesign. In addition, we realized leverage in total shipping expense due to the initiatives implemented in fiscal 2017 to redesign our Outlet and reverse logistics business, which were partially offset by higher expenses related to cost increases in the transportation industry.

Waterworks gross profit

Waterworks gross profit increased \$2.4 million, or 22.3%, to \$13.0 million in the three months ended May 5, 2018 from \$10.6 million in the three months ended April 29, 2017. As a percentage of net revenues, Waterworks gross margin increased 4.2% to 41.4% of net revenues in the three months ended May 5, 2018 from 37.2% of net revenues in the three months ended April 29, 2017.

Excluding the impact of the amortization related to the inventory fair value adjustment mentioned above, Waterworks gross margin would have decreased 0.1% to 42.0% of net revenues in the three months ended May 5, 2018 from 42.1% of net revenues in the three months ended April 29, 2017.

Selling, general and administrative expenses

Consolidated selling, general and administrative expenses decreased \$4.9 million, or 3.0%, to \$158.4 million in the three months ended May 5, 2018 compared to \$163.4 million in the three months ended April 29, 2017.

RH Segment selling, general and administrative expenses

RH Segment selling, general and administrative expenses decreased \$4.8 million, or 3.2%, to \$144.7 million in the three months ended May 5, 2018 compared \$149.6 million in the three months ended April 29, 2017.

RH Segment selling, general and administrative expenses for the three months ended May 5, 2018 included a \$2.0 million lease loss liability reversal associated with the Dallas distribution center closure completed in fiscal 2017 and \$1.9 million of costs associated with legal expenses incurred in connection with the final purchase price of Waterworks.

Advertising and marketing costs decreased \$12.5 million during the three months ended May 5, 2018 as compared to April 29, 2017, due to the adoption of Topic 606 in the first quarter of fiscal 2018 as well as the timing of our spring website launch. The decrease in advertising and marketing costs was partially offset by increases in employment and employment related costs.

RH Segment selling, general and administrative expenses were 27.5% and 28.0% of net revenues for the three months ended May 5, 2018 and April 29, 2017, respectively, excluding the adjustments related to the distribution center closure lease loss liability and the legal expenses incurred in connection with the final purchase price of Waterworks mentioned above. The decrease in selling, general and administrative expenses as a percentage of net revenues was primarily driven by a decrease in advertising and marketing costs primarily due to the adoption of Topic 606, partially offset by deleverage in employment and employment related costs.

Waterworks selling, general and administrative expenses

Waterworks selling, general and administrative expenses decreased \$0.1 million, or 0.6%, to \$13.7 million in the three months ended May 5, 2018 compared to \$13.8 million in the three months ended April 29, 2017. Waterworks selling, general and administrative expenses were 43.7% and 48.3% of net revenues for the three months ended May 5, 2018 and April 29, 2017, respectively.

Interest expense—net

Interest expense increased \$4.8 million to \$17.0 million for the three months ended May 5, 2018 compared to \$12.2 million for the three months ended April 29, 2017. Interest expense consisted of the following:

	Three Months Ended	
	May 5, 2018	April 29, 2017
	(in thousands)	
Amortization of convertible senior notes debt discount	\$7,881	\$7,457
Build-to-suit lease transactions	4,668	4,153
Asset based credit facility	2,811	431
Term loans	1,004	—
Amortization of debt issuance costs and deferred financing fees	787	647
Other interest expense	946	547
Capitalized interest for capital projects	(900)	(742)
Interest income	(162)	(314)
Total interest expense—net	\$17,035	\$12,179

Income tax expense (benefit)

Income tax expense was \$8.5 million in the three months May 5, 2018 and a benefit of \$1.9 million in the three months ended April 29, 2017. Our effective tax rate was 23.3% and 36.2% for the three months ended May 5, 2018 and April 29, 2017, respectively. The decrease in the effective tax rate is primarily due to the reduction in the U.S. corporate income tax rate from 35% to 21% effective January 1, 2018 due to the passage of the Tax Cuts and Jobs Act. The effective tax rate was also favorably impacted by \$1.0 million of discrete tax benefits related to net excess tax windfalls from stock-based compensation.

Liquidity and Capital Resources

General

The primary cash needs of our business have historically been for merchandise inventories, payroll, Source Books, store rent, capital expenditures associated with opening new stores and updating existing stores, as well as the development of our infrastructure and information technology. We seek out and evaluate opportunities for effectively managing and deploying capital in ways that improve working capital and support and enhance our business initiatives and strategies. In fiscal 2017, we completed two share repurchase programs in an aggregate amount of \$1 billion. A \$300 million share repurchase was completed during the first quarter of fiscal 2017 and a \$700 million share repurchase was completed during the second quarter of fiscal 2017 (refer to “Share Repurchase Programs” below). We intend to evaluate our capital allocation from time to time and may engage in future share repurchases in circumstances where buying shares of our common stock represents a good value and provides a favorable return for our shareholders.

We have \$650 million in aggregate principal amount of convertible notes outstanding, of which \$350 million mature in June 2019 and \$300 million mature in June 2020. While we anticipate using free cash flow to repay the convertible notes in cash to minimize dilution, we may need to pursue additional sources of liquidity to repay such convertible notes in cash at their respective maturity dates. There can be no assurance as to the availability of capital to fund such repayments, or that if capital is available through additional debt issuances or refinancing of the convertible notes, that such capital will be available on terms that are favorable to us. Based on anticipated strong cash flow generation in 2018 and beyond, we expect to repay the outstanding principal of our \$650 million convertible notes at maturity in June 2019 and June 2020 in cash to minimize dilution. We believe the strength of our business and the reduction in leverage we have achieved during the past three quarters puts us in a strong position to take advantage of the positive conditions in the capital markets. We believe we have multiple financing alternatives available to us on favorable terms that could provide us with additional financial flexibility with respect to capital allocation.

We extended and amended our revolving line of credit in June 2017, which has a total availability of \$600.0 million, of which \$10.0 million is available to Restoration Hardware Canada, Inc., and includes a \$200.0 million accordion feature under which the revolving line of credit may be expanded by agreement of the parties from \$600.0 million to up to \$800.0 million if and to the extent the lenders revise their credit commitments to encompass a larger facility. In addition, we have an \$80.0 million last out, delayed draw term loan (“LILO term loan”) facility. The revolving line of credit and LILO term loan facility have a maturity date of June 28, 2022.

We believe that cash expected to be generated from operations, net cash proceeds from the issuance of the convertible senior notes, borrowing availability under the revolving line of credit, borrowings under our term loan and other financing arrangements will be sufficient to meet working capital requirements, anticipated capital expenditures and other capital needs for the next 12 months.

Our business has relied on cash flows from operations, net cash proceeds from the issuance of the convertible senior notes, as well as borrowings under our credit facilities as our primary sources of liquidity. We have pursued in the past, and may pursue in the future, additional strategies to generate liquidity for our operations, including through the strategic sale of assets, utilization of our credit facilities, and entry into new debt financing arrangements that present attractive terms.

At May 5, 2018, we had approximately \$928.7 million of net debt, excluding financing obligations under build-to-suit lease transactions, compared to approximately \$1,052.2 million of net debt, excluding financing obligations under build-to-suit lease transactions, as of July 29, 2017. Over the last three quarters, we have substantially reduced our net debt to trailing twelve months Adjusted EBITDA from 5x at the end the second quarter fiscal 2017 to 3x at the end of the first quarter fiscal 2018. A reconciliation of our net income to EBITDA and Adjusted EBITDA is as follows:

31

	Trailing Twelve Months	
	May 5, 2018	July 29, 2017
	(in thousands)	
Net income	\$33,609	\$721
Depreciation and amortization	71,162	63,606
Interest expense—net	67,426	49,626
Goodwill impairment ^(a)	33,700	—
Loss on extinguishment of debt ^(b)	4,880	—
Income tax expense	38,391	11,168
EBITDA ^(m)	249,168	125,121
Non-cash compensation ^(c)	53,417	51,296
Recall accrual ^(d)	7,453	9,348
Asset impairment and lease losses ^(e)	4,417	12,743
Distribution center closures ^(f)	3,723	—
Post-acquisition related legal costs ^(g)	1,915	—
Impact of inventory step-up ^(h)	1,337	5,294
Anti-dumping exposure ⁽ⁱ⁾	(2,202)	—
Gain on sale of building and land ^(j)	(2,119)	(1,300)
Aircraft impairment ^(k)	—	4,767
Reorganization related costs ^(l)	—	974
Adjusted EBITDA ^(m)	\$317,109	\$208,243

(a) Represents goodwill impairment related to the Waterworks reporting unit.

(b) Represents the loss on extinguishment of debt related to the second lien term loan which was repaid in full in October 2017.

(c) Represents non-cash compensation related to equity awards granted to employees, including the non-cash compensation charge related to a fully vested option grant made to Mr. Friedman in May 2017.

(d) Represents an adjustment related to certain product recalls.

(e) Represents the impairments associated with RH Contemporary Art and RH Kitchen.

(f) Represents property and equipment disposals, lease related charges, inventory transfer costs, severance expense and other costs associated with two distribution center closures, which were completed in November 2017 and January 2018.

(g) Represents legal expenses incurred in connection with the final purchase price of Waterworks.

(h) Represents the non-cash amortization of the inventory fair value adjustment recorded in connection with our acquisition of Waterworks.

(i) Represents the release of the remaining reserve for potential claims regarding anti-dumping duties which we believe have lapsed. The reserve related to potential tariff obligations of one of our foreign suppliers following the U.S. Department of Commerce's review on the anti-dumping duty order on wooden bedroom furniture from China for the period from January 1, 2011 through December 31, 2011.

(j) Represents the gain on the sale of building and land of one of our owned retail Galleries.

(k) Represents the impairment recorded upon reclassification of aircraft as asset held for sale.

(l) Represents costs associated with a reorganization, which include severance costs and related taxes, partially offset by a reversal of stock-based compensation expense related to unvested equity awards.

(m) Refer to footnote (5) of the operating results table within "Basis of Presentation and Results of Operations" above.

During the first quarter of fiscal 2017, we received cash of \$4.9 million for the sale of an aircraft, net of \$0.3 million of costs to dispose of the aircraft, which was classified as an asset held for sale, and during the second quarter of fiscal 2017 we received cash of \$10.2 million for the sale of a real estate parcel that we owned on which one of our retail Galleries was located, which was classified as an asset held for sale. We may in the future pursue additional strategies, through the use of existing assets and debt facilities, or through the pursuit of new external sources of liquidity and debt financings, to fund our strategies to enhance stockholder value. There can be no assurance that additional capital, whether raised through the sale of assets, utilization of our existing debt financing sources, or pursuit of additional debt financing sources, will be available to us on a timely manner, on favorable terms or at all. To the extent we pursue additional debt as a source of liquidity, our capitalization profile may change and may include significant leverage, and as a result we may be required to use future liquidity to repay such indebtedness and may be subject to additional terms and restrictions which affect our operations and future uses of capital.

In addition, our capital needs may change in the future due to changes in our business or new opportunities that we choose to pursue. We have invested significant capital expenditures in remodeling and opening new Design Galleries, and these capital

expenditures have increased in the past and may continue to increase in future periods as we open additional Design Galleries, which may require us to undertake upgrades to historical buildings or construction of new buildings.

We anticipate our gross capital expenditures to be approximately \$125 million to \$135 million in fiscal 2018, primarily related to our efforts to continue our growth and expansion, including construction of new Design Galleries and infrastructure investments. We anticipate that our fiscal 2018 capital expenditures will be partially offset by proceeds from sales of assets of approximately \$50 million. During the three months ended May 5, 2018, our investments in capital expenditures totaled \$27.1 million.

The majority of the current lease arrangements for our new Design Galleries require the landlord to fund a portion of the construction related costs directly to third parties, rather than through traditional construction allowances and accordingly, we do not expect to receive significant contributions directly from our landlords related to the building of our Design Galleries in fiscal 2018. As we develop new Galleries, as well as other potential strategic initiatives in the future like our integrated hospitality experience, we may explore other models for our real estate, which could include longer lease terms or further purchases of, or joint ventures or other forms of equity ownership in, real estate interests associated with new sites and buildings. These approaches might require greater capital investment on our part than a traditional store lease with a landlord. We also believe there is an opportunity to transition our real estate strategy from a leasing model to a development model, where we potentially buy and develop our Design Galleries then recoup the investments through a sale leaseback arrangement resulting in lower capital investment and lower rent. In the event that such capital and other expenditures require us to pursue additional funding sources, we can provide no assurances that we will be successful in securing additional funding on attractive terms or at all.

There can be no assurance that we will have sufficient financial resources, or will be able to arrange financing on favorable terms to the extent necessary to fund all of our initiatives, or that sufficient incremental debt will be available to us in order to fund our cash payments in respect of the repayment of our outstanding convertible senior notes in an aggregate principal amount of \$650 million at maturity of such senior convertible notes or our term loan at the maturity date of such term loan. In addition, agreements governing existing or new debt facilities may restrict our ability to operate our business in the manner we currently expect or to make required payments with respect to existing commitments including the repayment of the principal amount of our convertible senior notes in cash upon maturity of such senior notes. To the extent we need to seek waivers from any provider of debt financing, or we fail to observe the covenants or other requirements of existing or new debt facilities, any such event could have an impact on our other commitments and obligations including triggering cross defaults or other consequences with respect to other indebtedness. Our current level of indebtedness, and any additional indebtedness that we may incur, exposes us to certain risks with regards to interest rate increases and fluctuations. Our ability to make interest payments or to refinance any of our indebtedness to manage such interest rates may be limited or negatively affected by credit market conditions, macroeconomic trends and other risks.

Any weakening of, or other adverse developments in, the U.S. or global credit markets could affect our ability to manage our debt obligations and our ability to access future debt. We cannot assure you that we will be able to raise necessary funds on favorable terms, if at all, or that future financing requirements would not require us to raise money through an equity financing or by other means that could be dilutive to holders of our capital stock. If we fail to raise sufficient additional funds, we may be required to delay or abandon some of our planned future expenditures or aspects of our current operations.

Cash Flow Analysis

A summary of operating, investing, and financing activities is set forth in the following table:

Edgar Filing: RH - Form 10-Q

	Three Months Ended May 5, 2018 (in thousands)	April 29, 2017
Provided by operating activities	\$ 7,756	\$ 123,948
Provided by (used in) investing activities	\$ (27,121)	\$ 159,528
Provided by (used in) financing activities	\$ 16,792	\$ (299,087)
Decrease in cash and cash equivalents and restricted cash equivalents	\$ (2,635)	\$ (15,697)
Cash and cash equivalents and restricted cash equivalents at end of period	\$ 22,679	\$ 99,370

Net Cash Provided By Operating Activities

Operating activities consist primarily of net income (loss) adjusted for non-cash items including depreciation and amortization, stock-based compensation, amortization of debt discount and the effect of changes in working capital and other activities.

For the three months ended May 5, 2018, net cash provided by operating activities was \$7.8 million and consisted of non-cash items of \$32.9 million and net income of \$28.1 million, partially offset by a decrease in cash used for working capital and other activities of \$53.2 million. Working capital and other activities consisted primarily of decreases in accounts payable and accrued expense of \$57.2 million related to timing of payments, increases in prepaid expenses and other current assets of \$26.2 million primarily due to vendor deposits and capitalized catalog costs, as well as increases in accounts receivable of \$7.2 million. These decreases to working capital were partially offset by increases in deferred revenue and customer deposits of \$28.2 million and increases in other current liabilities of \$13.8 million.

For the three months ended April 29, 2017, net cash provided by operating activities was \$123.9 million and consisted of a decrease in uses of working capital and other activities of \$96.3 million and non-cash items of \$31.0 million, offset by net loss of \$3.4 million. Working capital and other activities consisted primarily of decreases in inventory of \$66.1 million due to lower inventory receipts and higher sales, including through our outlet and warehouse sales channels, in part as a result of our SKU rationalization initiative and our outlet inventory optimization efforts, increases in deferred revenue and customer deposits of \$22.2 million and decreases in prepaid expense and other current assets of \$7.5 million.

Net Cash Provided By (Used In) Investing Activities

Investing activities consist primarily of investments in capital expenditures related to new Gallery openings, investments in supply chain and systems infrastructure, as well as activities associated with investing in available-for-sale securities.

For the three months ended May 5, 2018, net cash used in investing activities was \$27.1 million due to investments in new Galleries, information technology and systems infrastructure, and supply chain investments.

For the three months ended April 29, 2017, net cash provided by investing activities was \$159.5 million primarily as a result of sales and maturities of investments in available-for-sale securities of \$145.0 million and \$46.9 million, respectively, the proceeds of which were used to fund the share repurchases made under the \$300 Million Repurchase Program. In addition, we had net proceeds from the sale of an aircraft of \$4.9 million. These increases to cash were partially offset by purchases of investments in available-for-sale securities of \$16.1 million and investments in new Galleries, information technology and systems infrastructure, supply chain and other corporate assets of \$21.2 million.

Net Cash Provided By (Used In) Financing Activities

Financing activities consist primarily of borrowings related to credit facilities and other financing arrangements, as well as share repurchases and other equity related transactions.

For the three months ended May 5, 2018, net cash provided by financing activities was \$16.8 million primarily due to net borrowings under the asset based credit facility of \$19.0 million and proceeds from exercise of employee stock options of \$2.9 million. The cash provided by these financing activities was partially offset by \$3.2 million of payments on build-to-suit lease transactions.

For the three months ended April 29, 2017, net cash used in financing activities was \$299.1 million primarily due to \$300 million of share repurchases made under the \$300 Million Repurchase Program.

Non-Cash Transactions

Non-cash transactions consist of non-cash additions of property and equipment and the issuance of notes payable related to share repurchases from former employees.

Build-to-Suit Lease Transactions

The non-cash additions of property and equipment due to build-to-suit lease transactions are the result of the accounting requirements of Accounting Standards Codification (“ASC”) 840—Leases (“ASC 840”) for those construction projects for which we are the “deemed owner” of the construction project given the extent to which we are involved in constructing the leased asset. If we are the “deemed owner” for accounting purposes, upon commencement of the construction project, we are required to capitalize contributions by the landlord toward construction as property and equipment on our condensed consolidated balance sheets. The contributions by the landlord toward construction, including the building, existing site improvements at construction commencement and any amounts paid by the landlord to those responsible for construction, are included as property and equipment additions due to build-to-suit lease transactions within the non-cash section of our condensed consolidated statements of cash flows.

Over the lease term, these non-cash additions to property and equipment due to build-to-suit lease transactions do not impact our cash outflows, nor do they impact net income within our condensed consolidated statements of operations.

Convertible Senior Notes

0.00% Convertible Senior Notes due 2020

In June 2015, we issued in a private offering \$250 million principal amount of 0.00% convertible senior notes due 2020 and, in July 2015, we issued an additional \$50 million principal amount pursuant to the exercise of the overallotment option granted to the initial purchasers as part of our June 2015 offering (collectively, the “2020 Notes”). The 2020 Notes are governed by the terms of an indenture between us and U.S. Bank National Association, as the Trustee. The 2020 Notes will mature on July 15, 2020, unless earlier purchased by us or converted. The 2020 Notes will not bear interest, except that the 2020 Notes will be subject to “special interest” in certain limited circumstances in the event of our failure to perform certain of our obligations under the indenture governing the 2020 Notes. The 2020 Notes are unsecured obligations and do not contain any financial covenants or restrictions on the payments of dividends, the incurrence of indebtedness or the issuance or repurchase of securities by us or any of our subsidiaries. Certain events are also considered “events of default” under the 2020 Notes, which may result in the acceleration of the maturity of the 2020 Notes, as described in the indenture governing the 2020 Notes. The 2020 Notes are guaranteed by our primary operating subsidiary, Restoration Hardware, Inc., as Guarantor. The guarantee is the unsecured obligation of the Guarantor and is subordinated to the Guarantor’s obligations from time to time with respect to its credit agreement and ranks equal in right of payment with respect to Guarantor’s other obligations.

The initial conversion rate applicable to the 2020 Notes is 8.4656 shares of common stock per \$1,000 principal amount of 2020 Notes, which is equivalent to an initial conversion price of approximately \$118.13 per share. The conversion rate will be subject to adjustment upon the occurrence of certain specified events, but will not be adjusted for any accrued and unpaid special interest. In addition, upon the occurrence of a “make-whole fundamental change” as defined in the indenture, we will, in certain circumstances, increase the conversion rate by a number of additional shares for a holder that elects to convert its 2020 Notes in connection with such make-whole fundamental change.

Prior to March 15, 2020, the 2020 Notes will be convertible only under the following circumstances: (1) during any calendar quarter commencing after September 30, 2015, if, for at least 20 trading days (whether or not consecutive) during the 30 consecutive trading day period ending on the last trading day of the immediately preceding fiscal quarter, the last reported sale price of our common stock on such trading day is greater than or equal to 130% of the applicable conversion price on such trading day; (2) during the five consecutive business day period after any ten consecutive trading day period in which, for each day of that period, the trading price per \$1,000 principal amount of 2020 Notes for such trading day was less than 98% of the product of the last reported sale price of our common stock and the applicable conversion rate on such trading day; or (3) upon the occurrence of specified corporate transactions. As of May 5, 2018, none of these conditions have occurred and, as a result, the 2020 Notes are not convertible as of May 5, 2018. On and after March 15, 2020, until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may convert all or a portion of their 2020 Notes at any time, regardless of the foregoing circumstances. Upon conversion, the 2020 Notes will be settled, at our election, in cash, shares of our common stock, or a combination of cash and shares of our common stock.

We may not redeem the 2020 Notes; however, upon the occurrence of a fundamental change (as defined in the indenture governing the notes), holders may require us to purchase all or a portion of their 2020 Notes for cash at a price equal to 100% of the principal amount of the 2020 Notes to be purchased plus any accrued and unpaid special interest to, but excluding, the fundamental change purchase date.

Under GAAP, certain convertible debt instruments that may be settled in cash on conversion are required to be separately accounted for as liability and equity components of the instrument in a manner that reflects the issuer's non-convertible debt borrowing rate. Accordingly, in accounting for the issuance of the 2020 Notes, we separated the 2020 Notes into liability and equity components. The carrying amount of the liability component was calculated by measuring the fair value of a similar liability that does not have an associated convertible feature. The carrying amount of the equity component, which is recognized as a debt discount, represents the difference between the proceeds from the issuance of the 2020 Notes and the fair value of the liability component of the 2020 Notes. The excess of the principal amount of the liability component over its carrying amount ("debt discount") will be amortized to interest expense using an effective interest rate of 6.47% over the expected life of the 2020 Notes. The equity component is not remeasured as long as it continues to meet the conditions for equity classification.

In accounting for the debt issuance costs related to the issuance of the 2020 Notes, we allocated the total amount incurred to the liability and equity components based on their relative values. Debt issuance costs attributable to the liability component are amortized

to interest expense using the effective interest method over the expected life of the 2020 Notes, and debt issuance costs attributable to the equity component are netted with the equity component in stockholders' equity.

Debt issuance costs related to the 2020 Notes were comprised of discounts upon original issuance of \$3.8 million and third party offering costs of \$2.3 million. Discounts and third party offering costs attributable to the liability component are recorded as a contra-liability and are presented net against the convertible senior notes due 2020 balance on the condensed consolidated balance sheets.

2020 Notes—Convertible Bond Hedge and Warrant Transactions

In connection with the offering of the 2020 Notes in June 2015 and the exercise in full of the overallotment option in July 2015, we entered into convertible note hedge transactions whereby we have the option to purchase a total of approximately 2.5 million shares of our common stock at a price of approximately \$118.13 per share. The total cost of the convertible note hedge transactions was \$68.3 million. In addition, we sold warrants whereby the holders of the warrants have the option to purchase a total of approximately 2.5 million shares of our common stock at a price of \$189.00 per share. The warrants contain certain adjustment mechanisms whereby the total number of shares to be purchased under such warrants may be increased up to a cap of 5.1 million shares of common stock (which cap may also be subject to adjustment). We received \$30.4 million in cash proceeds from the sale of these warrants. Taken together, the purchase of the convertible note hedges and sale of the warrants are intended to offset any actual earnings dilution from the conversion of the 2020 Notes until our common stock is above approximately \$189.00 per share. As these transactions meet certain accounting criteria, the convertible note hedges and warrants are recorded in stockholders' equity (deficit), are not accounted for as derivatives and are not remeasured each reporting period. The net costs incurred in connection with the convertible note hedge and warrant transactions were recorded as a reduction to additional paid-in capital on the condensed consolidated balance sheets.

We recorded a deferred tax liability of \$32.8 million in connection with the debt discount associated with the 2020 Notes and recorded a deferred tax asset of \$26.6 million in connection with the convertible note hedge transactions. The deferred tax liability and deferred tax asset are recorded in deferred tax assets on the condensed consolidated balance sheets.

0.00% Convertible Senior Notes due 2019

In June 2014, we issued \$350 million aggregate principal amount of 0.00% convertible senior notes due 2019 (the "2019 Notes") in a private offering. The 2019 Notes are governed by the terms of an indenture between us and U.S. Bank National Association, as the Trustee. The 2019 Notes will mature on June 15, 2019, unless earlier purchased by us or converted. The 2019 Notes will not bear interest, except that the 2019 Notes will be subject to "special interest" in certain limited circumstances in the event of our failure to perform certain of our obligations under the indenture governing the 2019 Notes. The 2019 Notes are unsecured obligations and do not contain any financial covenants or restrictions on the payments of dividends, the incurrence of indebtedness or the issuance or repurchase of securities by us or any of our subsidiaries. Certain events are also considered "events of default" under the 2019 Notes, which may result in the acceleration of the maturity of the 2019 Notes, as described in the indenture governing the 2019 Notes.

The initial conversion rate applicable to the 2019 Notes is 8.6143 shares of common stock per \$1,000 principal amount of 2019 Notes, which is equivalent to an initial conversion price of approximately \$116.09 per share. The conversion rate will be subject to adjustment upon the occurrence of certain specified events, but will not be adjusted for any accrued and unpaid special interest. In addition, upon the occurrence of a "make-whole fundamental change," we will, in certain circumstances, increase the conversion rate by a number of additional shares for a holder that elects to convert its 2019 Notes in connection with such make-whole fundamental change.

Prior to March 15, 2019, the 2019 Notes will be convertible only under the following circumstances: (1) during any calendar quarter commencing after September 30, 2014, if, for at least 20 trading days (whether or not consecutive) during the 30 consecutive trading day period ending on the last trading day of the immediately preceding fiscal quarter, the last reported sale price of our common stock on such trading day is greater than or equal to 130% of the applicable conversion price on such trading day; (2) during the five consecutive business day period after any ten consecutive trading day period in which, for each day of that period, the trading price per \$1,000 principal amount of 2019 Notes for such trading day was less than 98% of the product of the last reported sale price of our common stock and the applicable conversion rate on such trading day; or (3) upon the occurrence of specified corporate transactions. As of May 5, 2018, none of these conditions have occurred and, as a result, the 2019 Notes are not convertible as of May 5, 2018. On and after March 15, 2019, until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may convert all or a portion of their 2019 Notes at any time, regardless of the foregoing circumstances. Upon conversion, the 2019 Notes will be settled, at our election, in cash, shares of our common stock, or a combination of cash and shares of our common stock.

We may not redeem the 2019 Notes; however, upon the occurrence of a fundamental change (as defined in the indenture governing the notes), holders may require us to purchase all or a portion of their 2019 Notes for cash at a price equal to 100% of the principal amount of the 2019 Notes to be purchased plus any accrued and unpaid special interest to, but excluding, the fundamental change purchase date.

Under GAAP, certain convertible debt instruments that may be settled in cash on conversion are required to be separately accounted for as liability and equity components of the instrument in a manner that reflects the issuer's non-convertible debt borrowing rate. Accordingly, in accounting for the issuance of the 2019 Notes, we separated the 2019 Notes into liability and equity components. The carrying amount of the liability component was calculated by measuring the fair value of a similar liability that does not have an associated convertible feature. The carrying amount of the equity component, which is recognized as a debt discount, represents the difference between the proceeds from the issuance of the 2019 Notes and the fair value of the liability component of the 2019 Notes. The debt discount will be amortized to interest expense using an effective interest rate of 4.51% over the expected life of the 2019 Notes. The equity component is not remeasured as long as it continues to meet the conditions for equity classification.

In accounting for the debt issuance costs related to the issuance of the 2019 Notes, we allocated the total amount incurred to the liability and equity components based on their relative values. Debt issuance costs attributable to the liability component are amortized to interest expense using the effective interest method over the expected life of the 2019 Notes, and debt issuance costs attributable to the equity component are netted with the equity component in stockholders' equity.

Debt issuance costs related to the 2019 Notes were comprised of discounts and commissions payable to the initial purchasers of \$4.4 million and third party offering costs of \$1.0 million. Discounts, commissions payable to the initial purchasers and third party offering costs attributable to the liability component are recorded as a contra-liability and are presented net against the convertible senior notes due 2019 balance on the condensed consolidated balance sheets.

2019 Notes—Convertible Bond Hedge and Warrant Transactions

In connection with the offering of the 2019 Notes, we entered into convertible note hedge transactions whereby we have the option to purchase a total of approximately 3.0 million shares of our common stock at a price of approximately \$116.09 per share. The total cost of the convertible note hedge transactions was \$73.3 million. In addition, we sold warrants whereby the holders of the warrants have the option to purchase a total of approximately 3.0 million shares of our common stock at a price of \$171.98 per share. The warrants contain certain adjustment mechanisms whereby the total number of shares to be purchased under such warrants may be increased up to a cap of 6.0 million shares of common stock (which cap may also be subject to adjustment). We received \$40.4 million in cash proceeds from the sale of these warrants. Taken together, the purchase of the convertible note hedges and sale of the warrants are intended to offset any actual dilution from the conversion of the 2019 Notes and to effectively increase the overall conversion price from \$116.09 per share to \$171.98 per share. As these transactions meet certain accounting criteria, the convertible note hedges and warrants are recorded in stockholders' equity and are not accounted for as derivatives. The net costs incurred in connection with the convertible note hedge and warrant transactions were recorded as a reduction to additional paid-in capital on the condensed consolidated balance sheets.

We recorded a deferred tax liability of \$27.5 million in connection with the debt discount associated with the 2019 Notes and recorded a deferred tax asset of \$28.6 million in connection with the convertible note hedge transactions. The deferred tax liability and deferred tax asset are recorded in deferred tax assets on the condensed consolidated balance sheets.

Asset Based Credit Facility

In August 2011, Restoration Hardware, Inc., along with its Canadian subsidiary, Restoration Hardware Canada, Inc., entered into a credit agreement with Bank of America, N.A., as administrative agent, and certain other lenders. On June 28, 2017, Restoration Hardware, Inc. entered into an eleventh amended and restated credit agreement among Restoration Hardware, Inc., Restoration Hardware Canada, Inc., various subsidiaries of RH named therein as borrowers or guarantors, the lenders party thereto and Bank of America, N.A. as administrative agent and collateral agent (the “credit agreement”). The credit agreement has a revolving line of credit with availability of up to \$600.0 million, of which \$10.0 million is available to Restoration Hardware Canada, Inc., and includes a \$200.0 million accordion feature under which the revolving line of credit may be expanded by agreement of the parties from \$600.0 million to up to \$800.0 million if and to the extent the lenders revise their credit commitments to encompass a larger facility. In addition, the credit agreement establishes an \$80.0 million LILO term loan facility.

On June 12, 2018, Restoration Hardware, Inc. entered into a First Amendment (the “Amendment”) to the credit agreement. The Amendment (i) changes the credit agreement’s definition of “Eligible In-Transit Inventory” to clarify the requirements to be fulfilled by the borrowers with respect to such in-transit inventory, and (ii) clarifies that no Default or Event of Default was caused by any prior non-compliance with such requirements with respect to in-transit inventory. Eligible In-Transit Inventory consists of inventory being

shipped from vendor locations outside of the United States. Qualifying in-transit inventory is included within the borrowing base for eligible collateral for purposes of determining the amount of borrowing available to borrowers under the credit agreement.

The availability of credit at any given time under the credit agreement is limited by reference to a borrowing base formula based upon numerous factors, including the value of eligible inventory and eligible accounts receivable. As a result of the borrowing base formula, actual borrowing availability under the revolving line of credit could be less than the stated amount of the revolving line of credit (as reduced by the actual borrowings and outstanding letters of credit under the revolving line of credit). All obligations under the credit agreement are secured by substantially all of the assets, including accounts receivable, inventory, intangible assets, property, equipment, goods and fixtures of Restoration Hardware, Inc., Restoration Hardware Canada, Inc., RH US, LLC, Waterworks Operating Co., LLC and Waterworks IP Co., LLC.

Borrowings under the revolving line of credit and LILO term loan facility are subject to interest, at the borrowers' option, at either the bank's reference rate or LIBOR (or, in the case of the revolving line of credit, the Bank of America "BA" Rate or the Canadian Prime Rate, as such terms are defined in the credit agreement, for Canadian borrowings denominated in Canadian dollars or the United States Index Rate or LIBOR for Canadian borrowings denominated in United States dollars) plus an applicable margin rate, in each case.

The credit agreement contains various restrictive covenants, including, among others, limitations on the ability to incur liens, make loans or other investments, incur additional debt, issue additional equity, merge or consolidate with or into another person, sell assets, pay dividends or make other distributions or enter into transactions with affiliates, along with other restrictions and limitations typical to credit agreements of this type and size.

In addition, under our credit agreement, we are required to meet specified financial ratios in order to undertake certain actions, and we may be required to maintain certain levels of excess availability or meet a specified consolidated fixed-charge coverage ratio ("FCCR"). The trigger for the FCCR occurs if the domestic availability under the revolving line of credit is less than the greater of (i) \$40.0 million and (ii) 10% of the sum of (a) the lesser of (x) the aggregate revolving commitments under the credit agreement and (y) the aggregate revolving borrowing base, plus (b) the lesser of (x) the then outstanding amount of the LILO term loan or (y) the LILO term loan borrowing base. If the availability under the credit agreement is less than the foregoing amount, then Restoration Hardware, Inc. is required to maintain an FCCR of at least one to one. As of May 5, 2018, Restoration Hardware, Inc. was in compliance with all applicable covenants of the credit agreement.

The credit agreement requires a daily sweep of all cash receipts and collections to prepay the loans under the agreement while (i) an event of default exists or (ii) the availability under the revolving line of credit for extensions of credit is less than the greater of (A) \$40.0 million and (B) 10% of the sum of (a) the lesser of (x) the aggregate revolving commitments under the credit agreement and (y) the aggregate revolving borrowing base, plus (b) the lesser of (x) the then outstanding amount of the LILO term loan or (y) the LILO term loan borrowing base.

As of May 5, 2018, Restoration Hardware, Inc. had \$219.0 million in outstanding borrowings and \$138.8 million of availability under the revolving line of credit, net of \$27.8 million in outstanding letters of credit. As of May 5, 2018, the Company had \$80.0 million outstanding borrowings under the LILO term loan facility. As a result of the consolidated FCCR restriction that limits the last 10% of borrowing availability, actual incremental borrowing available to the Company and the other affiliated parties under the revolving line of credit would be approximately \$92.2 million as of May 5, 2018.

Share Repurchase Programs

During fiscal 2017, we repurchased approximately 20.2 million shares of our common stock under two separate repurchase programs for an aggregate repurchase amount of approximately \$1 billion, which represented 49.5% of the shares outstanding as of the end of fiscal 2016. We generated \$412 million in free cash flow in fiscal 2017 which supported our share repurchase programs. We believe that these share repurchase programs will continue to be an excellent allocation of capital for the long term benefit of our shareholders. We may undertake other repurchase programs in the future with respect to our securities.

\$300 Million Share Repurchase Program

On February 21, 2017, our board of directors authorized a stock repurchase program of up to \$300 million (the “\$300 Million Repurchase Program”) through open market purchases, privately negotiated transactions or other means, including through Rule 10b18 open market repurchases, Rule 10b5-1 trading plans or through the use of other techniques such as accelerated share repurchases. During the three months ended April 29, 2017, we repurchased approximately 7.8 million shares of our common stock under the \$300 Million Repurchase Program at an average price of \$38.24 per share, for an aggregate repurchase amount of approximately \$300 million. No additional shares will be repurchased in future periods under the \$300 Million Repurchase Program.

\$700 Million Share Repurchase Program

Following completion of the \$300 Million Repurchase Program, our board of directors authorized on May 2, 2017 an additional stock repurchase program of up to \$700 million (the “\$700 Million Repurchase Program”) through open market purchases, privately negotiated transactions or other means, including through Rule 10b18 open market repurchases, Rule 10b5-1 trading plans or through the use of other techniques such as accelerated share repurchases including through privately-negotiated arrangements in which a portion of the share repurchase program is committed in advance through a financial intermediary and/or in transactions involving hedging or derivatives. During the three months ended July 29, 2017, we repurchased approximately 12.4 million shares of our common stock under the \$700 Million Repurchase Program at an average price of \$56.60 per share, for an aggregate repurchase amount of approximately \$700 million. No additional shares will be repurchased in future periods under the \$700 Million Repurchase Program.

Contractual Obligations

As of May 5, 2018, there were no material changes to our contractual obligations described in the Management’s Discussion and Analysis of Financial Condition and Results of Operations—Contractual Obligations in the 2017 Form 10-K.

Off Balance Sheet Arrangements

We have no material off balance sheet arrangements as of May 5, 2018.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect amounts reported in our consolidated financial statements and related notes, as well as the related disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management evaluates its accounting policies, estimates, and judgments on an on-going basis. Management bases its estimates and judgments on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions and conditions and such differences could be material to the consolidated financial statements.

Management evaluated the development and selection of its critical accounting policies and estimates and believes that the following involve a higher degree of judgment or complexity and are most significant to reporting our consolidated results of operations and financial position, and are therefore discussed as critical:

Revenue Recognition

Merchandise Inventories

Advertising Expenses

Impairment of Goodwill and Long-Lived Assets

Lease Accounting

Stock-Based Compensation

Income Taxes

In the first quarter of fiscal 2018, we adopted Accounting Standards Update 2014-09—Revenue from Contracts with Customers (Topic 606). The adoption of Topic 606 resulted in a material change to the “Revenue Recognition” and “Advertising Expenses” critical accounting policies in fiscal 2018. Please refer below for our updated “Revenue Recognition” and “Advertising Expenses” critical accounting policies. There have been no material changes to the other

critical accounting policies and estimates listed above from the disclosures included in the 2017 Form 10-K. For further discussion regarding these policies, refer to Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates in the 2017 Form 10-K.

Revenue Recognition

We recognize revenues and the related cost of goods sold when a customer obtains control of the merchandise, which is when the customer has the ability to direct the use of and obtain the benefits from the merchandise. Revenue recognized for merchandise delivered via the home-delivery channel is recognized upon delivery. Revenue recognized for merchandise delivered via all other delivery channels will be recognized upon shipment. Revenues from “cash-and-carry” store sales are recognized at the point of sale in the store. Discounts or other accommodations provided to customers are accounted for as a reduction of sales.

We account for shipping and handling as activities to fulfill the promise to transfer the merchandise to our customers. We apply this policy consistently across all of our distribution channels. In instances where revenue is recognized for the related merchandise prior to delivery to customers (i.e., revenue recognized upon shipment), the related costs of shipping and handling activities will be accrued for in the same period. Costs of shipping and handling are included in cost of goods sold.

We defer revenue associated with merchandise delivered via the home-delivery channel. As we recognize revenue when the merchandise is delivered to our customers, it is included as deferred revenue on the consolidated balance sheets while in-transit.

We collect annual membership fees related to the RH Members Program. New membership fees are recorded as deferred revenue when collected from customers and recognized as revenue based on expected product revenues over the annual membership period, based on historical trends of sales to members. Membership renewal fees are recorded as deferred revenue when collected from customers and are recognized as revenue on a straight-line basis over the membership period, or one year.

Sales tax collected is not recognized as revenue but is included in accounts payable and accrued expenses on the consolidated balance sheets as it is ultimately remitted to governmental authorities.

We reserve for projected merchandise returns. Merchandise returns are often resalable merchandise and are refunded by issuing the same payment tender of the original purchase. Merchandise exchanges of the same product and price are not considered merchandise returns and, therefore, are excluded when calculating the sales returns reserve.

Our customers may return purchased items for a refund. We provide an allowance for sales returns based on historical return rates, which is presented on a gross basis. We present the allowance for sales returns within other current liabilities and the estimated value of the right of return asset for merchandise within prepaid expense and other assets on the consolidated balance sheets.

Advertising Expenses

Advertising expenses primarily represent the costs associated with our catalog mailings, as well as print and website marketing.

Capitalized Catalog Costs

Capitalized catalog costs consist primarily of third-party incremental direct costs to prepare, print and distribute Source Books. Such costs are capitalized and recognized as expense upon the delivery of the Source Books to the carrier. In the case of multiple printings of a Source Book, the creative costs will be expensed in full upon the initial delivery of Source Books to the carrier.

Website and Print Advertising

Website and print advertising expenses, which include e-commerce advertising, web creative content and direct marketing activities such as print media, radio and other media advertising, are expensed as incurred or upon the release of the content or the initial advertisement.

Recent Accounting Pronouncements

Refer to Note 2—Recently Issued Accounting Standards in our condensed consolidated financial statements for a description of recently proposed accounting standards which may impact our consolidated financial statements in future reporting periods.

Item 3. Quantitative and Qualitative Disclosure of Market Risks

Interest Rate Risk

We currently do not engage in any interest rate hedging activity and we have no intention to do so in the foreseeable future.

We are subject to interest rate risk in connection with borrowings under our revolving line of credit which bears interest at variable rates and we may incur additional indebtedness that bears interest at variable rates. As of May 5, 2018, \$219.0 million was outstanding under the revolving line of credit. As of May 5, 2018, the undrawn borrowing availability under the revolving line of credit was \$138.8 million, net of \$27.8 million in outstanding letters of credit. As a result of the FCCR restriction that limits the last 10% of borrowing availability, actual incremental borrowing available under the revolving line of credit was approximately \$92.2 million as of May 5, 2018. Based on the average interest rate on the revolving line of credit during the three months ended May 5, 2018, and to the extent that borrowings were outstanding on such line of credit, we do not believe that a 10% change in the interest rate would have a material effect on our consolidated results of operations or financial condition. To the extent that we incur additional indebtedness, we may increase our exposure to risk from interest rate fluctuations.

We are subject to interest rate risk in connection with borrowings under our LILO term loan, which bears interest at variable rates. As of May 5, 2018, \$80.0 million was outstanding under the LILO term loan. Based on the average interest rates on the LILO term loan during the three months ended May 5, 2018, we do not believe that a 10% change in the interest rate would have a material effect on our consolidated results of operations or financial condition.

As of May 5, 2018, we had \$350 million principal amount of 0.00% convertible senior notes due 2019 outstanding (the “2019 Notes”). As this instrument does not bear interest, we do not have interest rate risk exposure related to this debt.

As of May 5, 2018, we had \$300 million principal amount of 0.00% convertible senior notes due 2020 outstanding (the “2020 Notes”). As this instrument does not bear interest, we do not have interest rate risk exposure related to this debt.

Market Price Sensitive Instruments

0.00% Convertible Senior Notes due 2019

In connection with the issuance of the 2019 Notes, we entered into privately-negotiated convertible note hedge transactions with certain counterparties. The convertible note hedge transactions relate to, collectively, 3.0 million shares of our common stock, which represents the number of shares of our common stock underlying the 2019 Notes, subject to anti-dilution adjustments substantially similar to those applicable to the 2019 Notes. These convertible note hedge transactions are expected to reduce the potential earnings dilution with respect to our common stock upon conversion of the 2019 Notes and/or reduce our exposure to potential cash or stock payments that may be required upon conversion of the 2019 Notes.

We also entered into separate warrant transactions with the same group of counterparties initially relating to the number of shares of our common stock underlying the convertible note hedge transactions, subject to customary anti-dilution adjustments. The warrant transactions will have a dilutive effect with respect to our common stock to the extent that the price per share of our common stock exceeds the strike price of the warrants unless we elect, subject to certain conditions, to settle the warrants in cash. The strike price of the warrant transactions is initially \$171.98 per share. Refer to Note 7—Convertible Senior Notes in our condensed consolidated financial statements.

0.00% Convertible Senior Notes due 2020

In connection with the issuance of the 2020 Notes, we entered into privately-negotiated convertible note hedge transactions with certain counterparties. The convertible note hedge transactions relate to, collectively, 2.5 million shares of our common stock, which represents the number of shares of our common stock underlying the 2020 Notes, subject to anti-dilution adjustments substantially similar to those applicable to the 2020 Notes. These convertible note hedge transactions are expected to reduce the potential earnings dilution with respect to our common stock upon conversion of the 2020 Notes and/or reduce our exposure to potential cash or stock payments that may be required upon conversion of the 2020 Notes.

We also entered into separate warrant transactions with the same group of counterparties initially relating to the number of shares of our common stock underlying the convertible note hedge transactions, subject to customary anti-dilution adjustments. The warrant transactions will have a dilutive effect with respect to our common stock to the extent that the price per share of our common stock exceeds the strike price of the warrants unless we elect, subject to certain conditions, to settle the warrants in cash. The strike price of the warrant transactions is initially \$189.00 per share. Refer to Note 7—Convertible Senior Notes in our condensed consolidated financial statements.

Impact of Inflation

Our results of operations and financial condition are presented based on historical cost. While it is difficult to accurately measure the impact of inflation due to the imprecise nature of the estimates required, we believe the effects of inflation, if any, on our consolidated results of operations and financial condition have been immaterial.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this quarterly report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that as of the end of the period covered by this report our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that the information required to be disclosed by us in such reports is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

Item 1. Legal Proceedings

From time to time, we and/or our management are involved in litigation, claims and other proceedings relating to the conduct of our business, including purported class action litigation, as well as securities class action litigation. Such legal proceedings may include claims related to our employment practices, wage and hour claims, claims of intellectual property infringement, including with respect to trademarks and trade dress, claims asserting unfair competition and unfair business practices, claims with respect to our collection and sale of reproduction products, and consumer class action claims relating to our consumer practices including the collection of zip code or other information from customers. In addition, from time to time, we are subject to product liability and personal injury claims for the products that we sell and the stores we operate. Subject to certain exceptions, our purchase orders generally require the vendor to indemnify us against any product liability claims; however, if the vendor does not have insurance or becomes insolvent, we may not be indemnified. In addition, we could face a wide variety of employee claims against us, including general discrimination, privacy, labor and employment, ERISA and disability claims. Any claims could result in litigation against us and could also result in regulatory proceedings being brought against us by various federal and state agencies that regulate our business, including the U.S. Equal Employment Opportunity Commission. Often these cases raise complex factual and legal issues, which are subject to risks and uncertainties and which could require significant management time. Litigation and other claims and regulatory proceedings against us could result in unexpected expenses and liability and could also materially adversely affect our operations and our reputation.

For additional information regarding certain pending securities litigation, refer to Note 14—Commitments and Contingencies in our condensed consolidated financial statements within Part I of this Quarterly Report on Form 10-Q.

Item 1A. Risk Factors

We operate in a rapidly changing environment that involves a number of risks that could materially and adversely affect our business, financial condition, prospects, operating results or cash flows. For a detailed discussion of certain risks that affect our business, refer to the section entitled “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended February 3, 2018 (“2017 Form 10-K”). There have been no material changes to the risk factors disclosed in our 2017 Form 10-K.

The risks described in our 2017 Form 10-K are not the only risks we face. We describe in Management’s Discussion and Analysis of Financial Condition and Results of Operations in Part I of this quarterly report certain known trends and uncertainties that affect our business. Additional risks and uncertainties that we are unaware of, or that we currently believe are not material, may also become important factors that adversely affect our business, operating results and financial condition.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Repurchases of Common Stock during the Three Months Ended May 5, 2018

During the three months ended May 5, 2018, we repurchased the following shares of our common stock:

	Number of Shares	Average Purchase Price Per Share	Total Number of shares Repurchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs (in millions)
February 4, 2018 to March 3, 2018	—	\$ —	—	\$ —
March 4, 2018 to April 7, 2018 ⁽¹⁾	3,584	\$ 95.28	—	\$ —
April 8, 2018 to May 5, 2018 ^{(1) (2)}	9,721	\$ 96.62	—	\$ —
Total	13,305	\$ 96.26	—	

(1) Includes shares withheld from delivery to satisfy exercise price and tax withholding obligations of employee recipients that occur upon the exercise of stock options and vesting of restricted stock units granted under the Company's 2012 Stock Incentive Plan.

(2) Includes 2,800 shares of common stock repurchased from a former employee of the Company in connection with certain options granted under the Company's 2012 Stock Incentive Plan that contain a repurchase right in favor of the Company. For additional information, refer to Note 12—Share Repurchases to our condensed consolidated financial statements within Part I of this Quarterly Report on Form 10-Q.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

First Amendment to the Eleventh Amended and Restated Credit Agreement

On June 12, 2018, Restoration Hardware, Inc. entered into a First Amendment (the "Amendment") to the Eleventh Amended and Restated Credit Agreement, dated as of June 28, 2017, among Restoration Hardware, Inc. as lead borrower, various other subsidiaries of RH named therein as borrowers, the guarantors party thereto, the lenders party thereto and Bank of America, N.A. as administrative agent and collateral agent (the "Credit Agreement"). The Amendment (i) changes the Credit Agreement's definition of "Eligible In-Transit Inventory" to clarify the requirements to be fulfilled by the borrowers with respect to such in-transit inventory, and (ii) clarifies that no Default or Event of

Default was caused by any prior non-compliance with such requirements with respect to in-transit inventory. Eligible In-Transit Inventory consists of inventory being shipped from vendor locations outside of the United States. Qualifying in-transit inventory is included within the Company's borrowing base for eligible collateral for purposes of determining the amount of borrowing available to borrowers under the Credit Agreement.

This description of the Amendment is qualified in its entirety by reference to the Amendment, which is filed with this Quarterly Report as Exhibit 10.1 and incorporated herein by reference.
