Item 2.05 Costs Associated with Exit or Disposal Activities

On October 17, 2013, McCormick & Company, Incorporated (the “Company”) announced several projects in the Europe, Middle East and Africa (EMEA) region as part of its Comprehensive Continuous Improvement program (CCI). CCI is the Company’s on-going program to improve productivity and reduce costs throughout the organization. Most of these projects are subject to consultation processes, as appropriate, with the Company’s employees or Works Councils in the region.

In 2009, the Company launched its CCI program, an on-going initiative to improve productivity throughout the organization. Employees throughout the Company have been engaged in this effort and through 2012, have achieved more than \$200 million of CCI-related annual cost savings. In 2013, the Company expects to deliver at least \$55 million of additional cost savings.

The EMEA region has contributed significantly to the Company’s CCI performance goals. During 2013, additional projects have been identified to further improve productivity and process standardization in this region while supporting its competitiveness and long-term growth. These initiatives include the closure of the Company’s current operation in The Netherlands, where we will use a third party to continue to distribute the Silvo brand, as well as actions intended to streamline selling, general and administrative activities, including the centralization of shared service activity across the region into Poland.

The Company expects to record approximately \$27 million of cash and non-cash charges related to the plan with approximately \$25 million to be recorded in 2013 and approximately \$2 million in 2014. Of the projected \$27 million in charges, an estimated two-thirds relate to anticipated employee severance and one-third relates to an expected asset write-down. Total cash expenditures to implement the plan are expected to occur primarily in 2014 and are estimated to be approximately \$18 million. The Company expects to complete the implementation of these projects by 2015.

A copy of the Company’s press release relating to the projects discussed in Item 2.05 above is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.
