“Safe Harbor” Statement under the Securities Litigation Reform Act of 1995:

This Quarterly Report on Form 10-Q contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties. The terms “may,” “should,” “could,” “anticipate,” “believe,” “continue,” “estimate,” “expect,” “intend,” “objective,” “plan,” “potential,” “project” and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. These statements are based on management’s current expectations, intentions or beliefs and are subject to a number of factors, assumptions and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause or contribute to such differences or that might otherwise impact the business include:

- the effect of general economic and market conditions;
- the ability to generate sufficient cash to fund our operating requirements;
- the ability to meet the covenant requirements of our line of credit;
- the market price of our common stock may decline;
- inventory obsolescence;
- work stoppages and other disruptions at transportation centers or shipping ports;
- changing customer demand and product mixes;
- increases in energy and commodity prices;
- decreases in demand from oil and gas customers due to lower oil prices;
- disruptions of our information and communication systems;
- cyber attacks or other information security breaches;
- failure to recruit, integrate and retain a talented workforce including productive sales representatives;
- the inability of management to successfully implement strategic initiatives;
- failure to manage change within the organization;
- highly competitive market;
- changes that affect governmental and other tax-supported entities;
- violations of environmental protection or other governmental regulations;
- negative changes related to tax matters; and
- all other factors discussed in the Company’s “Risk Factors” set forth in its Annual Report on Form 10-K for the year ended December 31, 2014.

The Company undertakes no obligation to update any such factors or to publicly announce the results of any revisions to any forward-looking statements contained herein whether as a result of new information, future events or otherwise.

Table of Contents

Notes to Condensed Consolidated Financial Statements

Note 1 — Basis of Presentation and Summary of Significant Accounting Policies

The accompanying unaudited condensed consolidated financial statements of Lawson Products, Inc. (the "Company") have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not contain all disclosures required by generally accepted accounting principles. Reference should be made to the Company's Annual Report on Form 10-K for the year ended December 31, 2014. In the opinion of the Company, all normal recurring adjustments have been made that are necessary to present fairly the results of operations for the interim periods. Operating results for the three and nine month periods ended September 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. Certain reclassifications have been made to the Condensed Consolidated Balance Sheet for December 31, 2014 to conform to current period presentation.

The Company operates in one reportable segment as Maintenance, Repair and Operations ("MRO") distributors of products and services to the industrial, commercial, institutional, and governmental maintenance, repair and operations marketplace. In the third quarter of 2015, the Company completed an acquisition of a small auto body parts distributor for an immaterial purchase price resulting in \$0.3 million of goodwill being recorded in other assets in the accompanying condensed consolidated balance sheet.

There have been no material changes in the Company's significant accounting policies during the three and nine months ended September 30, 2015 as compared to the significant accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2014.

Note 2 — Restricted Cash

The Company has agreed to maintain \$0.8 million in a money market account as collateral for an outside party that is providing certain commercial card processing services for the Company. The Company is restricted from withdrawing this balance without the prior consent of the outside party during the term of the agreement.

Note 3 — Inventories

Inventories, consisting primarily of purchased goods which are offered for resale, were as follows:

	(Dollars in thousands)	
	September 30, 2015	December 31, 2014
Inventories, gross	\$48,428	\$50,063
Reserve for obsolete and excess inventory	(5,737) (5,546
Inventories, net	\$42,691	\$44,517

Table of Contents

Note 4 — Loan Agreement

In 2012, the Company entered into a Loan and Security Agreement (“Loan Agreement”) which expires in August 2017. Due to the lock box arrangement and a subjective acceleration clause contained in the borrowing agreement, any outstanding borrowings under the revolving line of credit are classified as a current liability. The Loan Agreement consists of a \$40.0 million revolving line of credit facility, which includes a \$10.0 million sub-facility for letters of credit. In December 2013, the Company entered into a Second Amendment to Loan and Security Agreement (“Second Amendment”) which revised certain terms of the original Loan Agreement.

Credit available under the Loan Agreement is based upon:

- a) 80% of the face amount of the Company’s eligible accounts receivable, generally less than 60 days past due, and
- b) the lesser of 50% of the lower of cost or market value of the Company’s eligible inventory, generally inventory expected to be sold within 18 months, or \$20.0 million.

The applicable interest rates for borrowings are at the Prime rate or, if the Company elects, the LIBOR rate plus 1.50% to 1.85% based on the Company’s debt to EBITDA ratio. The Loan Agreement is secured by a first priority perfected security interest in substantially all existing assets of the Company. Dividends are restricted to amounts not to exceed \$7.0 million annually.

At September 30, 2015, the Company had no borrowings under its revolving line of credit facility and borrowing availability of \$32.3 million. The Company paid interest of \$0.4 million and \$0.7 million for the nine months ended September 30, 2015 and 2014, respectively. The weighted average interest rate was 3.25% for the nine months ended September 30, 2015.

In addition to other customary representations, warranties and covenants, we are required to meet a minimum trailing twelve month EBITDA to fixed charges ratio, as defined in the Loan Agreement, and a minimum quarterly tangible net worth level as defined in the Second Amendment. On September 30, 2015, we were in compliance with all financial covenants as detailed below:

Quarterly Financial Covenants	Requirement	Actual
EBITDA to fixed charges ratio	1.10 : 1.00	2.65 : 1.00
Minimum tangible net worth	\$45.0 million	\$57.1 million

Note 5 — Severance Reserve

Changes in the Company’s reserve for severance as of September 30, 2015 and 2014 were as follows:

	(Dollars in thousands)	
	Nine Months Ended September 30,	
	2015	2014
Balance at beginning of period	\$311	\$1,769
Charged to earnings	993	690
Payments	(583) (1,797
Balance at end of period	\$721	\$662

Table of Contents

Note 6 — Stock-Based Compensation

The Company recorded stock-based compensation expenses of \$0.4 million and \$4.0 million in the first nine months of 2015 and 2014, respectively. A portion of stock-based compensation expense is related to the market value of the Company's common stock and a portion is attributable to the amortization of the awards over their related vesting periods.

A summary of stock-based awards issued during the nine months ended September 30, 2015 follows:

Stock Performance Rights ("SPRs")

The Company issued 380,000 SPRs to a key employee with an average exercise price of \$28.40 per share that vest ratably on January 12, 2016, 2017 and 2018, and have a termination date of January 12, 2022. The Company also issued 29,373 SPRs to key employees with an exercise price of \$25.16 per share that cliff vest on December 31, 2017 and have a termination date of December 31, 2022.

Restricted Stock Units ("RSUs")

The Company issued 22,820 RSUs to the Company's directors with a vesting date of May 11, 2016. Each RSU is exchangeable for one of the Company's common shares at the end of the vesting period.

Market Stock Units ("MSUs")

The Company issued 30,633 MSUs to key employees with a vesting date of December 31, 2017. MSU's are exchangeable for the Company's common shares at the end of the vesting period. The number of shares of common stock that will be issued upon vesting, ranging from zero to 45,951, will be determined based upon the trailing thirty-day average closing price of the Company's common stock on December 31, 2017.

Stock Options

The Company issued 40,000 nonqualified stock options to a key employee with a weighted average exercise price of \$28.40 per share. The stock options vest ratably on January 12, 2016, 2017 and 2018, and have a term of 7 years.

Note 7 — Income Taxes

Primarily due to the cumulative losses that the Company has incurred over the past three years, the Company has determined that there is insufficient positive evidence to conclude that it is more likely than not that it will be able to utilize its deferred tax assets to offset future taxable income. Therefore, substantially all deferred tax assets are currently subject to a tax valuation allowance. However, sufficient evidence may become available in future periods regarding the utilization of deferred tax assets that would lead to the reduction of all or a portion of the valuation allowance resulting in a decrease to income tax expense for the period in which the reduction is recorded. Although the Company is in this full tax valuation allowance position, a tax expense of \$0.5 million was recorded in continuing operations for the nine months ended September 30, 2015, primarily due to state taxes and reserves for uncertain tax positions. The tax benefit of \$0.3 million for the nine months ended September 30, 2014 was due to the allocation of income taxes between continuing and discontinued operations partly offset by state taxes and reserves for uncertain tax positions.

The Company and its subsidiaries are subject to U.S. Federal income tax, as well as income tax of multiple state and foreign jurisdictions. As of September 30, 2015, the Company is subject to U.S. Federal income tax examinations for the years 2011 through 2014 and income tax examinations from various other jurisdictions for the years 2006 through 2014. The Company is also currently under examination by the Canada Revenue Authority ("CRA") for the years

2006 through 2010. The CRA examination was completed during May 2013 and resulted in proposed adjustments which amount to \$1.3 million of additional tax for the 2008 and 2009 tax years. The Company is not in agreement with these adjustments and filed a request with Competent Authority programs in both the U.S. and Canada in October, 2013. The Competent Authority program assists taxpayers with respect to matters covered in the mutual agreement procedure provisions of tax treaties. Management has not recorded a reserve and is confident that the Company will prevail in this matter. The Company is unable to establish an estimated time frame in which this issue will be resolved through Competent Authority.

Earnings from the Company's foreign subsidiaries are considered to be indefinitely reinvested. A distribution of these non-U.S. earnings in the form of dividends or otherwise would subject the Company to both U.S. Federal and state income taxes, as adjusted for foreign tax credits. During the third quarter of 2015, as the result of a small acquisition, the Company recorded \$0.3 million of tax deductible goodwill that may result in a tax benefit in future periods.

Table of Contents

Note 8 — Impairment loss

In the first nine months of 2014 the Company completed the sale of its Reno, Nevada, distribution center. As part of the review of the potential impact of a sale, the Company determined that the full carrying amount of the asset was not recoverable. Therefore, the Company recorded a \$3.0 million non-cash impairment charge. The Company entered into a 10-year agreement to leaseback approximately one-half of the facility that it had previously been utilizing.

Note 9 – Earnings (Loss) Per Share

The computation of basic and diluted earnings (loss) per share consisted of the following:

(Dollars in thousands, except per share data)

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Weighted average shares:				
Basic weighted average shares outstanding	8,746	8,698	8,725	8,678
Effect of dilutive securities outstanding	144	134	149	—
Diluted weighted average shares outstanding	8,890	8,832	8,874	8,678
Earnings (loss):				
Continuing operations	\$2,430	\$460	\$3,985	\$(3,064)
Discontinued operations	—	—	—	1,367
Net income (loss)	\$2,430	\$460	\$3,985	\$(1,697)
Basic earnings (loss) per share of common stock:				
Continuing operations	\$0.28	\$0.05	\$0.46	\$(0.35)
Discontinued operations	—	—	—	0.15
Net income (loss) per share	\$0.28	\$0.05	\$0.46	\$(0.20)
Diluted earnings (loss) per share of common stock:				
Continuing operations	\$0.27	\$0.05	\$0.45	\$(0.35)
Discontinued operations	—	—	—	0.15
Net income (loss) per share	\$0.27	\$0.05	\$0.45	\$(0.20)

The effect of restricted stock awards, market stock units and future stock option exercises equivalent to approximately 129,000 shares for the nine months ended September 30, 2014 would have been anti-dilutive because the Company recorded a loss for the period and therefore were excluded from the computation of diluted earnings per share.

Table of Contents

Note 10 — Discontinued Operations

On February 14, 2014, the Company completed the sale of substantially all of the assets of Automatic Screw Machine Products Company, Inc. ("ASMP"), a wholly-owned subsidiary, to Nelson Stud Welding, Inc. ("Buyer"), an indirect subsidiary of Doncasters Group Limited, for a purchase price of \$12.5 million. In addition, the Buyer agreed to lease the real property located in Decatur, Alabama previously used by ASMP. The Company has classified ASMP's operating results as discontinued operations.

The following table details the components of income from discontinued operations:

	(Dollars in thousands, except per share data)			
	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Net sales	\$—	\$—	\$—	\$2,462
Pre-tax income from discontinued operations	\$—	\$—	\$—	\$346
Income tax expense	—	—	—	133
Income from discontinued operations	\$—	\$—	\$—	\$213
Pre-tax gain on sale of ASMP	\$—	\$—	\$—	\$1,877
Income tax expense	—	—	—	723
Net gain on sale of ASMP	\$—	\$—	\$—	\$1,154
Income and gain from discontinued operations, net of taxes	\$—	\$—	\$—	\$1,367
Basic and diluted income per share	\$—	\$—	\$—	\$0.15

Note 11 — Contingent Liabilities

In 2012, the Company identified that a site it owns in Decatur, Alabama contains hazardous substances in the soil and groundwater as a result of historical operations prior to the Company's ownership. The Company has retained an environmental consulting firm to further investigate the contamination including the measurement and monitoring of the site. In August 2013, the site was enrolled in the Alabama Department of Environmental Management's ("ADEM") voluntary cleanup program. On October 30, 2014, the Company received estimates from its environmental consulting firm with three potential remediation solutions. The estimates include a range of viable remedial approaches, but agreement with ADEM's voluntary cleanup program has not yet been reached. The first solution includes limited excavation and removal of the contaminated soil along with monitoring for a period up to 10 years. The second solution includes the first solution plus the installation of a groundwater extraction system. The third scenario includes the first and second solutions plus treatment injections to reduce the degradation time. The estimated expenditures over a 10-year period under the three scenarios range from \$0.3 million to \$1.4 million, of which up to \$0.3 million may be capitalized. As the Company has determined that a loss is probable, however no scenario is more likely than the other at this time, a liability in the amount of \$0.3 million was established in 2014. As of September 30, 2015, approximately \$0.2 million remains accrued for remediation in other long-term liabilities on the accompanying consolidated balance sheet.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The Maintenance, Repair and Operations ("MRO") distribution industry is highly fragmented. We compete for business with several national distributors as well as a large number of regional and local distributors. The MRO business is significantly impacted by the overall strength of the manufacturing sector of the U.S. economy. One measure used to evaluate the strength of the industrial products market is the PMI index published by the Institute for Supply Management, which is considered by many economists to be a reliable near-term economic barometer. A measure above 50 generally indicates expansion of the manufacturing sector while a measure below 50 generally represents contraction. The average monthly PMI declined to 51.3 in the third quarter of 2015 compared to 56.9 in the third quarter of 2014 indicating slower growth in the U.S. manufacturing economy compared to last year. The MRO distribution industry slowed due to many factors with the most prominent factor impacting Lawson being a slow-down in the oil and gas end markets due to lower oil prices.

Our sales are also affected by the number of sales representatives and the amount of sales which each representative can generate, which we measure as average sales per day per sales representative. As of September 30, 2015 we had a sales force of 925 sales representatives, an increase of 31 over the prior year quarter. We plan to continue to increase the size of our sales force for the foreseeable future. While we anticipate future sales growth from our expanded sales force, we also anticipate a short-term decrease in average sales per day per sales representative, as new representatives build up customer relationships in their territories.

Despite our top-line sales being impacted by the weaker oil and gas demand, we were able to generate operating income of \$2.8 million for the quarter ended September 30, 2015 and \$5.1 million for the nine months then ended, primarily as a result of improved gross margins, lower performance-based and stock-based compensation, and continued cost control measures.

Our results for the nine months ended September 30, 2015 were impacted by the \$1.9 million cost of our North American sales meeting. This meeting provided our sales representatives with product and sales training, improved awareness of our strategies and allowed them to network with their peers and share best practices. The cost of the 4-day event is viewed as a long-term investment in our sales team. Although our North American sales meeting is not an annual event, we do plan to hold meetings in the future as we value the long-term benefit on our organization.

Income from continuing operations	\$2,430	3.5	% \$460	0.6	%

Net Sales

Net sales for the third quarter of 2015 decreased 5.2% to \$70.2 million from \$74.1 million in the third quarter of 2014. Sales in the third quarter of 2015 were negatively impacted by weak demand from customers operating in the oil and gas industry, a decrease in the Canadian exchange rate, lower productivity from newly hired sales representatives as they build out their territories and a general slow-down in the MRO marketplace. Sales to oil and gas customers declined \$1.5 million and total net sales were negatively impacted by the Canadian exchange rate by \$1.2 million from the prior year quarter. This was partially offset by an increase in sales by our Kent Automotive Division and growing current strategic account relationships. Average daily sales decreased to \$1.098 million in the third quarter of 2015 compared to \$1.158 million in the prior year quarter.

Table of Contents

Gross Profit

Gross profit decreased to \$43.3 million in the third quarter of 2015, as compared to \$44.5 million in the third quarter of 2014; however, increased as a percent of sales to 61.7% from 60.1% a year ago. This was due primarily to lower purchasing costs that led to higher product margins along with improved distribution efficiencies that positively impacted customer service.

Selling Expenses

Selling expenses consist of compensation paid to our sales representatives and related expenses to support our sales efforts. Selling expenses decreased to \$22.2 million in the third quarter of 2015 from \$23.6 million in the prior year quarter and as a percent of sales, decreased to 31.7% compared to 31.8% in the third quarter of 2014. The decrease was primarily driven by lower commissions and lower performance-based compensation, offset partially by higher fixed compensation of newly hired sales representatives.

General and Administrative Expenses

General and administrative expenses consist of expenses to operate our distribution network and overhead expenses to manage the business. General and administrative expenses decreased to \$18.3 million in the third quarter of 2015 from \$20.3 million in the prior year quarter due primarily to a decline in compensation expenses including a \$2.5 million decrease in stock-based compensation, as the price of our stock decreased during the third quarter of 2015 compared to an increase in the prior year quarter. This decrease was offset partially by an increase in severance expense in 2015 and a favorable legal settlement of \$0.7 million received in the third quarter of 2014.

Interest and Other Expenses, Net

Interest and other expenses, net increased slightly to \$0.1 million in the third quarter of 2015, as currency exchange gains in 2014 were offset somewhat by lower interest expense in 2015.

Income Tax Expense

Primarily due to historical cumulative losses, substantially all of our deferred tax assets are subject to a tax valuation allowance. Although we are in a full tax valuation allowance position, an income tax expense of \$0.2 million was recorded in the third quarter of 2015 due to state taxes and reserves for uncertain tax positions. An income tax expense of \$0.2 million was recorded in the third quarter of 2014, primarily related to the allocation of income taxes between continuing and discontinued operations.

Income from Continuing Operations

We reported income from continuing operations of \$2.4 million in the third quarter of 2015 compared to \$0.5 million in the third quarter of 2014.

Net Sales

Net sales for the nine months ended September 30, 2015 decreased 2.1% to \$210.9 million from \$215.4 million in the nine months ended September 30, 2014. Sales were impacted by weak demand from customers operating in the oil and gas industry, a decrease in the Canadian exchange rate and lower productivity from newly hired sales representatives as they build out their territories. Sales to direct oil and gas customers declined \$3.8 million and total net sales were negatively impacted by the Canadian exchange rate impact of \$2.9 million from the prior year. This was partially offset by an increase in sales by our Kent Automotive Division and growing current strategic account relationships. Average daily sales decreased to \$1.104 million for the nine months of 2015 compared to \$1.128 million in the prior year.

Gross Profit

Gross profit for the nine months ended September 30, 2015 increased to \$130.0 million from \$129.6 million in 2014 and increased as a percent of net sales to 61.7% from 60.2% a year ago, due primarily to lower purchasing costs that led to higher product margins along with improved distribution efficiencies that positively impacted customer service.

Selling Expenses

Selling expenses increased to \$68.6 million in the first nine months of 2015 from \$67.8 million in the prior year period due primarily to \$1.9 million of expense related to the North American sales meeting which was not held in 2014 and an increase in compensation due to newly hired sales representatives, partially offset by lower performance-based compensation .

General and Administrative Expenses

General and administrative expenses decreased to \$56.3 million in the nine months ended September 30, 2015 from \$61.6 million in the prior year period. The decrease was primarily driven by stock-based compensation costs which declined \$3.6 million year over year as the price of our stock decreased during the nine months ended September 30, 2015 compared to an increase in our stock price in the prior year period. In the first nine months of 2015, we also incurred reduced performance-based compensation and decreases across most expense categories as a result of continuous cost control measures, offset partially by a favorable legal settlement of \$0.7 million in 2014.

Table of Contents

Impairment Loss

In the nine months ended September 30, 2014, we completed the sale of our Reno, Nevada, distribution center. As part of the review of the potential impact of a sale, we determined that the full carrying amount of the asset was not recoverable. Therefore, we recorded a \$3.0 million non-cash impairment charge.

Interest and Other Expenses, Net

Interest and other expenses, net remained constant at \$0.6 million in the nine months ended September 30 of both 2015 and 2014. Interest expense was \$0.2 million lower in 2015 compared to 2014, reflecting a decrease in average borrowings under our Loan Agreement. This was offset by other expenses including an increase in currency exchange losses of \$0.2 million in 2015.

Income Tax Expense (Benefit)

Primarily due to historical cumulative losses, substantially all of our deferred tax assets are subject to a tax valuation allowance. Although we are in a full tax valuation allowance position, an income tax expense of \$0.5 million was recorded in the nine months ended September 30, 2015 due to state taxes and reserves for uncertain tax positions. An income tax benefit of \$0.3 million was recorded in the nine months ended September 30, 2014, primarily related to the allocation of income taxes between continuing and discontinued operations.

Income (Loss) from Continuing Operations

We reported income from continuing operations of \$4.0 million in the nine months ended September 30, 2015, which included \$1.9 million related to the expense of our North American sales meeting compared to a loss from continuing operations of \$3.1 million in the nine months ended September 30, 2014, which included a \$3.0 million impairment loss.

Table of Contents

Liquidity and Capital Resources

Cash and cash equivalents were \$7.8 million on September 30, 2015 compared to \$4.2 million on December 31, 2014. Net cash provided by operations in the nine months ended September 30, 2015 of \$6.2 million was primarily generated by operating earnings. Net cash used in operations in the nine months ended September 30, 2014 of \$2.1 million was primarily to fund an increase in accounts receivable of \$6.0 million.

Capital expenditures, primarily for improvements to our distribution centers and information technology, were \$1.9 million in the nine months ended September 30, 2015 compared to \$1.3 million in the prior year period. In the nine months ended September 30, 2014, we received \$12.1 million of net proceeds related to the sale of our Automatic Screw Machine Products Company, Inc. ("ASMP") subsidiary and we received net proceeds of \$8.3 million from the sale of our Reno, Nevada, distribution center.

On September 30, 2015, we had no borrowings on our revolving line of credit. We were able to paydown our revolving line of credit by \$16.1 million in the first nine months of 2014, primarily due to proceeds received from the sale of ASMP and the Reno, Nevada, distribution center. No dividends were paid to shareholders in the nine months ended September 30, of 2015 and 2014. Dividends are currently restricted under the Loan Agreement to amounts not to exceed \$7.0 million annually.

Loan Agreement

In addition to other customary representations, warranties and covenants, we are required to meet a minimum trailing twelve month EBITDA to fixed charges ratio, as defined in the Loan Agreement, and a minimum quarterly tangible net worth level as defined in the Second Amendment. On September 30, 2015, we were in compliance with all financial covenants as detailed below:

Quarterly Financial Covenants	Requirement	Actual
EBITDA to fixed charges ratio	1.10 : 1.00	2.65 : 1.00
Minimum tangible net worth	\$45.0 million	\$57.1 million

While we met the minimum financial covenant levels for the quarter ended September 30, 2015, failure to meet these covenant requirements in future quarters could lead to higher financing costs, increased restrictions, or reduce or eliminate our ability to borrow funds and could have a material adverse effect on our business, financial condition and results of operations.

At September 30, 2015, we had borrowing availability of \$32.3 million. We believe cash provided by operations and funds available under our Loan Agreement are sufficient to fund our operating requirements, strategic initiatives and capital improvements throughout the remainder of 2015.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risk at September 30, 2015 from that reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our senior management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this report (the "Evaluation Date"). Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded as of the Evaluation Date that our disclosure controls and procedures were effective such that (i) the information relating to Lawson, including our consolidated subsidiaries, required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) include, without limitation, controls and procedures designed to ensure that information required to be disclosed is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during the quarter ended September 30, 2015 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
