(317) 747-1500 (Registrant's telephone number, including area code)

> Page 1 of 4 Pages Exhibit Index on Page 5

Ttem 1. Not Applicable.

Item 2. Acquisition or Disposition of Assets. \_\_\_\_\_\_

On April 1, 2002, First Merchants Corporation acquired all of the assets of Lafayette Bancorporation through the merger of Lafayette Bancorporation with and into First Merchants Corporation (the "Merger"). Lafayette Bancorporation's principal asset was the shares of common stock of its wholly-owned subsidiary, Lafayette Bank and Trust Company (the "Bank"). The Bank is an Indiana state chartered bank providing various commercial and consumer banking services to its customers located primarily in the Indiana counties of Tippecanoe, Jasper, White and Carroll, through 20 offices. At December 31, 2001, Lafayette Bancorporation

had total assets of approximately \$762 million and deposits of approximately \$618 million. First Merchants Corporation will account for the Merger under the purchase method of accounting.

As part of the Merger, shareholders of Lafayette Bancorporation shall receive approximately 2,773,059 shares of First Merchants Corporation common stock and approximately \$50,866,560 in cash in exchange for their shares of Lafayette Bancorporation common stock. The form and amount of such consideration was arrived at through arms length negotiations between First Merchants Corporation and Lafayette Bancorporation. First Merchants Corporation intends to finance the cash consideration payable in the Merger through the sale of cumulative trust preferred securities by its wholly-owned subsidiary, First Merchants Capital Trust I. First Merchants Capital Trust I will invest all of the proceeds from the sale of the cumulative trust preferred securities in junior subordinated debentures to be issued by First Merchants Corporation.

In connection with the Merger, shareholders of Lafayette Bancorporation were offered the opportunity to elect to receive either 1.11 shares of First Merchants Corporation common stock or \$30 in cash in exchange for each share of Lafayette Bancorporation common stock owned by them. Pursuant to the terms of the Merger, under certain circumstances, the 1.11 exchange ratio was subject to adjustment and the cash elections made by Lafayette Bancorporation shareholders were subject to being converted into elections to receive stock. However, all elections by Lafayette Bancorporation shareholders to receive cash in exchange for their shares will be honored and the 1.11 exchange ratio will not be adjusted. Cash will be paid by First Merchants Corporation in lieu of issuing fractional shares resulting from the 1.11 exchange ratio.

For further information regarding the terms of the Merger, see the Agreement of Reorganization and Merger between First Merchants Corporation and Lafayette Bancorporation dated October 14, 2001, which is incorporated into this Form 8-K by reference and filed as an exhibit hereto.

A copy of the press release announcing consummation of the Merger is filed as an exhibit to this Form 8-K.

REPORT OF INDEPENDENT AUDITORS

Board of Directors and Shareholders Lafayette Bancorporation Lafayette, Indiana

We have audited the accompanying consolidated balance sheets of Lafayette Bancorporation as of December 31, 2001 and 2000 and the related consolidated statements of income, changes in shareholders' equity and cash flows for each of

the three years in the period ended December 31, 2001. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lafayette Bancorporation as of December 31, 2001 and 2000, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2001 in conformity with accounting principles generally accepted in the United States of America.

6.

LAFAYETTE BANCORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2001, 2000 and 1999

(Dollar amounts in thousands, except per share data)

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations and Principles of Consolidation: The consolidated financial statements include the accounts of Lafayette Bancorporation (Corporation) and its wholly owned subsidiary, Lafayette Bank and Trust Company (Bank), after elimination of significant intercompany transactions and accounts.

The Corporation provides financial services to its customers, primarily commercial and retail banking and trust services, with operations conducted through its main office and 17 branches located in Tippecanoe, White, Jasper, and Carroll Counties in Indiana. The majority of the Corporation's revenue is derived from commercial and retail business lending activities and investments. Although the overall loan portfolio is diversified, the economy of Tippecanoe County is heavily dependent on Purdue University, one of the area's largest employers, and the economy of White and Jasper County is heavily dependent on the agricultural industry. The majority of the Bank's loans are secured by specific items of collateral including business assets, real property and consumer assets.

Use of Estimates: Management must make estimates and assumptions in preparing financial statements that affect the amounts reported and disclosed. These estimates and assumptions may change in the future and future results could differ from these estimates. Estimates that are more susceptible to change in the near term include the allowance for loan losses, the fair value of securities and other financial instruments, and the determination and carrying value of impaired loans.

Securities: Securities are classified as held-to-maturity and carried at amortized cost when management has the positive intent and ability to hold them to maturity. Securities are classified as available-for-sale when they might be sold before maturity. Securities available-for-sale are reported at fair value, with unrealized gains or losses included in other comprehensive income.

Realized gains or losses are determined based on the amortized cost of the specific security sold. Interest and dividend income, adjusted by amortization of purchase premium or discount, is included in earnings.

Loans Held for Sale: The Bank sells certain fixed-rate first mortgage loans in the secondary market on a servicing-released basis. Mortgage loans held for sale are carried at the lower of cost or estimated market value determined on an aggregate basis.

LAFAYETTE BANCORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2001, 2000 and 1999

(Dollar amounts in thousands, except per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loans: Interest on real estate, commercial and most installment loans is accrued over the term of the loans based on the principal outstanding. The recognition of interest income is discontinued when, in management's judgment, the interest will not be collectible in the normal course of business. Loans are evaluated for non-accrual when the loan is impaired or payments are past due over 90 days. Interest received is recognized on the cash basis or cost recovery method until qualifying for return to accrual status. Accrual is resumed when all contractually due payments are brought current and future payments are reasonably assured. The Bank defers loan fees, net of certain direct loan origination costs. The net amount deferred is reported in the balance sheet as part of loans and is recognized into interest income over the term of the loan using a method which approximates a level-yield.

Allowance for Loan Losses: The allowance for loan losses is a valuation allowance for probable incurred credit losses, increased by the provision for loan losses and loan recoveries and decreased by loan charge-offs. Management estimates the allowance balance required using past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions, and other factors. Allocations of the allowance may be made for specific loans, but the entire allowance is available for any loan that, in management's judgment, should be charged-off. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed.

Loan impairment is recognized if a loan's full principal or interest payments are not expected to be received. Loans considered to be impaired are reduced to the present value of expected future cash flows using the loans' existing rate or to the fair value of collateral if repayment is expected solely from the collateral, by allocating a portion of the allowance for loan losses to such loans. Smaller-balance homogeneous loans are evaluated for impairment in total. Such loans include residential real estate loans secured by one to four family residences and installment loans to individuals for household, family and other personal expenditures. Commercial and agricultural loans are evaluated individually for impairment.

Premises, Furniture and Equipment: Premises, furniture and equipment are stated at cost less accumulated depreciation. Depreciation expense is recognized over the estimated useful lives of the assets, principally on the straight-line method.

Foreclosed Assets: Assets acquired through or instead of loan foreclosure are initially recorded at fair value when acquired, establishing a new cost basis. If fair value declines, a valuation allowance is recorded through expense. Holding costs after acquisition are expensed.

Long-term Assets: These assets are reviewed for impairment when events indicate their carrying amounts may not be recoverable from future undiscounted cash flows. If impaired, the assets are recorded at discounted amounts.

8.

LAFAYETTE BANCORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2001, 2000 and 1999

(Dollar amounts in thousands, except per share data)

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Repurchase Agreements: Substantially all repurchase agreement liabilities represent amounts advanced by various customers. Securities are pledged to cover these liabilities, which are not covered by federal deposit insurance. The Bank retains possession of and control over pledged securities.

Intangibles: Intangibles include goodwill and core deposit intangibles. Goodwill is amortized on the straight-line method over 15 to 25 years, and core deposit is amortized on an accelerated method over 10 years. Intangibles are assessed for impairment based on estimated undiscounted cash flows, and written down if necessary.

Stock Compensation: Expense for employee compensation under stock option plans is based on Opinion 25, with expense reported only if options are granted below market price at grant date. Pro forma disclosures of net income and earnings per share are provided as if the fair value method of Financial Accounting Standard No. 123 were used for stock-based compensation.

Income Taxes: Deferred tax liabilities and assets are determined at each balance sheet date. They are measured by applying enacted tax laws to future taxable income or expense resulting from differences in the financial statement and tax basis of assets and liabilities. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

Earnings Per Share: Basic earnings per share is net income divided by the weighted average number of common shares outstanding during the period. Diluted earnings per share includes the dilutive effect of additional potential common shares issuable under stock options. Earnings and dividends per share are restated for all stock splits and dividends through the date of issue of the financial statements.

Statement of Cash Flows: Cash and cash equivalents are defined to include cash on hand, amounts due from banks, and federal funds sold. The Corporation reports net cash flows for customer loan transactions, deposit transactions, and short-term borrowings.

Financial Instruments: Financial instruments include credit instruments, such as commitments to make loans and standby letters of credit, issued to meet customer financing needs. The face amount for these items represents the exposure to loss, before considering customer collateral or ability to repay.

(continued)

LAFAYETTE BANCORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2001, 2000 and 1999

(Dollar amounts in thousands, except per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Values of Financial Instruments: Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed separately. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect the estimates.

Loss Contingencies: Loss contingencies, including claims and legal actions arising in the ordinary course of business, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. Management does not believe there are now such matters that will have a material effect on the financial statements.

Comprehensive Income: Comprehensive income consists of net income and other comprehensive income. Other comprehensive income includes unrealized gains and losses on securities available for sale, which are also recognized as a separate component of equity.

Dividend Restriction: Banking regulations require maintaining certain capital levels and may limit the dividends paid by the bank to the holding company or by the holding company to shareholders.

Industry Segments: Internal financial information is primarily reported and aggregated in three lines of business, banking, mortgage banking and trust services.

New Accounting Pronouncements: Beginning January 1, 2001, a new accounting standard requires all derivatives to be recorded at fair value. Unless designated as hedges, changes in these fair values will be recorded in the income statement. Fair value changes involving hedges will generally be recorded by offsetting gains and losses on the hedge and on the hedged item, even if the fair value of the hedged item is not otherwise recorded. Adoption of this standard on January 1, 2001 did not have a material effect on the financial statements.

10.

LAFAYETTE BANCORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2001, 2000 and 1999

(Dollar amounts in thousands, except per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A new accounting standard requires all business combinations to be recorded using the purchase method of accounting for any transaction initiated after June

30, 2001. Under the purchase method, all identifiable tangible and intangible assets and liabilities of the acquired company must be recorded at fair value at date of acquisition, and the excess cost over fair value of net assets acquired is recorded as goodwill. Identifiable intangible assets must be separated from goodwill. Identifiable intangible assets with finite useful lives will continue to amortize under the new standard, whereas goodwill will cease being amortized starting in 2002. Annual impairment testing will be required for goodwill with impairment being recorded if the carrying amount of goodwill exceeds its implied fair value. Amounts previously recorded as goodwill from depository institution branch acquisitions are not presently considered to be goodwill under the new standard and these amounts will continue to be amortized. Management is currently evaluating the impact of this new standard, but management expects to continue amortizing all of the Corporation's intangible assets.

Reclassifications: Some items in the prior financial statements were reclassified to conform to the current presentation.

#### NOTE 2 - SECURITIES

The fair value of securities available for sale and the related gains and losses recognized in accumulated other comprehensive income (loss) were as follows:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2001, 2000 and 1999

(Dollar amounts in thousands, except per share data)

NOTE 8 - FHLB ADVANCES AND NOTE PAYABLE

FHLB advances and note payable outstanding at December 31 consist of the following:

2001

Federal Home Loan Bank advances; annual principal payments; various maturities with final maturity May 15, 2008; interest payable monthly at various fixed interest rates from 5.45%-6.82%; secured by a blanket pledge of the Bank's obligations of the U.S. Government and U.S. Government agencies and one-to-four family residential mortgage loans.

\$ 7,982

Federal Home Loan Bank advances; principal callable one year from date of advance and quarterly thereafter, otherwise, principal payments due at maturity, with final maturities in 2002 and 2010; interest payable monthly at various fixed interest rates from 4.98%-6.20%; secured by a blanket pledge of the Bank's obligations of the U.S. Government and U.S. Government agencies and one-to-four family residential mortgage loans.

27,000

-----

Total FHLB advances

34,982

Note payable to Northern Trust Company; quarterly principal payments of \$350 required; matures March 31, 2006; interest payable monthly at a variable rate, which is currently 3.60% based on the Federal Funds rate plus an applicable margin based on the Corporation's existing capital ratios; obligation is unsecured but subject to various covenants, including defined minimum return on average assets, tangible net worth, capital ratios, loan loss allowance to non-performing loans ratio, and maximum non-performing assets. At year-end, the Corporation was in compliance with all covenants.

10,150

Total

\$ 45,132

Annual principal payments required are as follows:

| 2002       | \$<br>7,399 |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2001, 2000 and 1999

(Dollar amounts in thousands, except per share data)

#### NOTE 9 - EMPLOYEE BENEFIT PLANS (Continued)

The Bank maintains a retirement savings plan covering substantially all employees. The plan requires employees to complete one year of service and be 21

years of age before entering the plan. The plan allows for Bank contributions at an annually determined matching percentage of the first 4% of employee salary contributions, as well as an annual discretionary contribution. Total 401(k) contributions charged to expense were \$176, \$161, and \$140 for 2001, 2000 and 1999.

The Bank maintains a deferred compensation plan for the benefit of certain directors. Under the plan, the Bank agrees, in return for the directors deferring the receipt of a portion of their current compensation, to pay a retirement benefit computed as the amount of the compensation deferred plus accrued interest at a variable rate. Accrued benefits payable totaled \$1,596 and \$1,289 at December 31, 2001 and 2000. Deferred compensation expense was \$131 for 2001, and \$106 for 2000. In conjunction with the plan, the Bank has purchased life insurance on the directors. The cash surrender value of that insurance is carried as an other asset on the consolidated balance sheet, and was approximately \$7,171 and \$6,834 at December 31, 2001 and 2000.

#### NOTE 10 - POSTRETIREMENT BENEFITS

The Bank sponsors a postretirement benefit plan which provides defined medical benefits. Retirees contribute an amount equal to their individual applicable premium to provide the coverage, less 30%, which is paid monthly by the Bank. Retirees must pay 100% of medical premiums for all dependent coverage. The plan is not funded and has no assets.

|                                              |        |        |
| Ending benefit obligation                    | 498    | 454    |
| Unrecognized net gain                        | 277    | 302    |
|                                              |        |        |
| Accrued benefit obligation                   | \$ 775 | \$ 756 |
|                                              | =====  | =====  |

Components of net periodic postretirement benefit cost as of December 31:

|                                   | 2001  | 2000  | 1999  |
|-----------------------------------|-------|-------|-------|
|                                   |       |       |       |
| Service cost                      | \$ 31 | \$ 35 | \$ 31 |
| Interest cost                     | 36    | 38    | 34    |
| Amortization of unrecognized gain | (25)  | (10)  | (11)  |
|                                   |       |       |       |
| Benefit cost                      | \$ 42 | \$ 63 | \$ 54 |
|                                   | ====  | ====  | ====  |

For measurement purposes, the annual rate of increase in the per capita cost of covered health care benefits assumed was 7 % for 2001, 8% for 2000, and 11.5% for 1999, with the rate assumed to decrease to 6% over the next two years in the 2001 and 2000 calculation, and to 5.5% over the next year in the 1999 calculation. The health care cost trend is a significant assumption. However, either an increase or decrease in the assumed health care cost trend rates by 1% in each year would affect the accumulated postretirement benefit obligation as of December 31, 2001 and the aggregate service and interest cost components of net periodic postretirement benefit cost for the year then ended by amounts not considered to be material.

The weighted average discount rate used in determining the accumulated postretirement benefit obligation was 8% for 2001 and 2000, and 7% for 1999.

(Dollar amounts in thousands, except per share data)

#### NOTE 11 - STOCK APPRECIATION RIGHTS AND STOCK OPTION PLAN

The Corporation maintains an Officers' Stock Appreciation Rights Plan for granting rights to certain officers, under which all available rights have been granted. Upon exercise of a stock appreciation right, the holder may receive cash equal to the excess of the fair market value of common stock at the date of exercise over the option price. Stock appreciation rights are vested at 20% per year and must be exercised within 10 years of grant. The plan expires May 2002. Granted rights outstanding were fully vested and consisted of 38,105 at an option price of \$3.66 for 2001 and 2000. In 2001, no rights were exercised. In 2000, 16,500 rights were exercised when the fair market value was \$23.18 per share. The aforementioned amounts of rights and prices are adjusted for stock dividends and splits. Compensation expense (benefit) charged to operations in 2001, 2000 and 1999 was \$539, (\$376), and \$14 and is based on an increase (decrease) in market value. The liability at December 31, 2001, 2000 and 1999 was \$895, \$356 and \$1,053.

The Corporation has established two nonqualified stock option plans to provide stock options to directors and key members of management. One plan was adopted in 1995 ("1995 Plan") and the other in 1998 ("1998 Plan"). There are no shares

of common stock remaining available for grant under the 1995 Plan. The total number of shares of common stock remaining available for grant to directors is 17 and management is 19,928 under the 1998 Plan. All shares for both plans were available for grant at a price equal to the market price of the stock at the date of grant.

Under the 1995 Plan, options granted to directors at the effective date are exercisable any time after the date of grant, and options granted to directors elected after the effective date are exercisable after two years. Under the 1998 Plan, options granted to directors are exercisable after two years. Options granted to management under both plans become 20% exercisable after one year and 20% each subsequent year. Both plans are effective for five years and options must be exercised within ten years from the date of grant.

| Outstanding,                                      | end of 2001       | 232,152            | 14.09                               |         |

Options outstanding at December 31, 2001 include 184,529 with exercise prices ranging from \$10.39 to \$15.23 (weighted average exercise price of \$12.20) and a weighted average remaining life of 5.87 years; and 47,623 with exercise prices ranging from \$17.63 to \$24.70 (weighted average exercise price of \$21.41) and a

weighted average remaining life of 7.27 years. Options exercisable at December 31, 2001 include 136,677 with exercise prices ranging from \$10.39 to \$15.23 (weighted average exercise price of \$11.28); and 37,406 with exercise prices ranging from \$17.63 to \$24.70 (weighted average exercise price of \$20.86).

Pro forma information regarding net income and earnings per share has been determined as if the Corporation had accounted for its stock options under the fair value method. The fair value for these options was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted average assumptions for the years 2001, 2000, and 1999: risk-free interest rates of 4.9%, 6.7%, and 5.4% dividend yields of 2% for 2001, 3% for 2000 and 2% for 1999; volatility factors of the expected market price of the Corporation's common stock of .37, .24, and .13; and a weighted average expected life of the options of five years for management options and two years for directors' options.

LAFAYETTE BANCORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2001, 2000 and 1999

(Dollar amounts in thousands, except per share data)

#### NOTE 14 - CAPITAL REQUIREMENTS

The Corporation and Bank are subject to various regulatory capital requirements administered by federal and state banking agencies. Capital adequacy guidelines and prompt corrective action regulations involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators. Failure to meet capital requirements can initiate regulatory action.

Quantitative measures established by regulation to ensure capital adequacy require the Corporation and Bank to maintain minimum amounts and ratios (set forth in the following table) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier 1 capital to average assets (as defined).

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, the institution may be required to limit capital distributions, limit asset growth and expansion, and prepare capital restoration

On March 12, 1999 the Corporation's wholly-owned subsidiary bank acquired three branches in Jasper County, Indiana. As a result of this transaction consolidated and bank-only capital levels were reduced. The Corporation borrowed \$14,000 and contributed \$13,000 to the Bank in order for the bank to maintain its well-capitalized status. As of December 31, 2001, the Bank was categorized as well-capitalized under the regulatory framework for prompt corrective action. To be categorized as well-capitalized, the Bank must maintain minimum total risk-based, Tier 1 risk-based, and Tier 1 leverage ratios as set forth in the table. The Corporation was categorized as undercapitalized as of December 31, 1999, as the total capital ratio was slightly below the minimum required level for capital adequacy purposes. The Corporation returned to adequately capitalized status as of March 31, 2000 and has maintained that status through December 31, 2001. Although the Corporation's capital was slightly below the minimum at December 31, 1999, no corrective regulatory action was initiated by the banking regulatory authorities and management anticipates maintaining its adequately capitalized status in the foreseeable future.

LAFAYETTE BANCORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2001, 2000 and 1999

(Dollar amounts in thousands, except per share data)

# NOTE 15 - COMMITMENTS AND CONTINGENT LIABILITIES

The Bank leases branch facilities under operating leases expiring in various years through 2007. Expense for leased premises was \$306, \$281, and \$244 for 2001, 2000 and 1999.

Future minimum lease payments are as follows:

| Total      | \$ 1,035 |
|------------|----------|
|            |          |
| Thereafter | 19       |
| 2006       | 75       |
| 2005       | 162      |
| 2004       | 222      |
| 2003       | 267      |
| 2002       | \$ 290   |
|            |          |

In the ordinary course of business, the Bank has loans, commitments and contingent liabilities, such as guarantees and commitments to extend credit, which are not reflected in the consolidated balance sheet. The Bank's exposure

to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to make loans and standby letters of credit is represented by the contractual amount of those instruments. The Bank uses the same credit policy to make such commitments as it uses for on-balance sheet items.

At December 31, off-balance sheet financial instruments whose contract amount represents credit risk are summarized as follows:

|                              | 2001     | 2000     |
|------------------------------|----------|----------|
|                              |          |          |
| Unused lines of credit       | \$84,611 | \$64,987 |
| Commitments to make loans    | 6,180    | 7,229    |
| Standby letters of credit    | 3,536    | 1,585    |
| Commercial letters of credit |          |          |

Since many commitments to make loans expire without being used, the amount does not necessarily represent future cash commitments. Collateral obtained upon exercise of the commitment is determined using management's credit evaluation of the borrower, and may include accounts receivable, inventory, property, land and other items. These commitments are generally variable rate or carry a term of one year or less.

The cash balance required to be maintained on hand or on deposit with the Federal Reserve was \$10,738 and \$9,639 at December 31, 2001 and 2000. These reserves do not earn interest.

| Accrued interest receivable   |                   | 6,803   |    | 6,803            |                   | 7,830           |

| Financial liabilities    |                          |                          |                          |
|--------------------------|--------------------------|--------------------------|--------------------------|
| Deposits                 | \$<br>(618 <b>,</b> 572) | \$<br>(623 <b>,</b> 883) | \$<br>(578 <b>,</b> 297) |
| Short-term borrowings    | (32,073)                 | (32,073)                 | (55,572)                 |
| FHLB advances            | (34,982)                 | (35,358)                 | (35,737)                 |
| Note payable             | (10, 150)                | (10, 150)                | (11,550)                 |
| Accrued interest payable | (2,180)                  | (2,180)                  | (2,772)                  |

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value. The carrying amount is considered to estimate fair value for cash and short-term instruments, demand deposits, short-term borrowings, accrued interest, and variable rate loans, deposits and note payable that re-price frequently and fully. Securities fair values are based on quoted market prices or, if no quotes are available, on the rate and term of the security and on information about the issuer. For loans held for sale, the fair value of loans held for sale is based on quoted market prices. For commercial, real estate, consumer, and other loans, fair value is estimated by discounting future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities. FHLB stock is restricted in nature and is not actively traded on a secondary market and the carrying amount is a reasonable estimate of fair value. The fair value of fixed-maturity certificates of deposit is estimated using the rates currently offered for deposits of similar remaining maturities. For FHLB advances, fair value is estimated using rates currently available to the Corporation for debt with similar terms and remaining maturities. The estimated fair value for off-balance sheet loan commitments approximates carrying value and are not considered significant to this presentation.

#### NOTE 18 - BRANCH ACQUISITION

In March 1999, the Bank purchased three branches located in DeMotte, Remington, and Rensselaer, Indiana.

The fair value of assets acquired was \$71,749 (consisting primarily of goodwill and core deposit intangibles of \$13,510, and commercial loans, net of a \$563 purchase adjustment for credit quality), the fair value of liabilities assumed was \$117,015 (consisting primarily of customer deposits), and the Bank received \$45,266 of cash at settlement.

LAFAYETTE BANCORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2001, 2000 and 1999 (Dollar amounts in thousands, except per share data)

#### NOTE 21 - SEGMENT INFORMATION

The Corporation's operations include three primary segments: banking, mortgage banking, and trust services. Through its banking subsidiary's locations in Tippecanoe, Jasper, White and Carroll Counties, the Corporation provides traditional community banking services, such as accepting deposits and making commercial, residential and consumer loans. Mortgage banking activities include the origination of residential mortgage loans for sale on a servicing released basis to various investors. The Corporation's trust department provides both personal and corporate trust services.

The Corporation's three reportable segments are determined by the products and services offered. Loans, investments and deposits comprise the primary revenues and expenses of the banking operation, net gains on loans sold account for the revenues in the mortgage banking segment, and trust administration fees provide the primary revenues in the trust department.

The following segment financial information has been derived from the internal profitability reporting system utilized by management to monitor and manage the financial performance of the Corporation. The accounting policies of the three segments are the same as those described in the summary of significant accounting policies. The Corporation evaluates segment performance based on profit or loss before income taxes. The evaluation process for the mortgage banking and trust segments include only direct expenses, while certain indirect expenses, including goodwill, are absorbed by the banking operation. The difference between segment totals and consolidated totals are holding company amounts and income tax expense.

#### NOTE 22 - PENDING MERGER

On October 15, 2001, Lafayette Bancorporation signed a definitive agreement with First Merchants Corporation, located in Muncie, Indiana, to merge with and into First Merchants Corporation. Under the terms of the agreement, upon the closing of this transaction, Lafayette Bank and Trust Company will be a wholly-owned subsidiary of First Merchants Corporation. The transaction is subject to shareholder and regulatory approval and is expected to be effective in the second quarter of 2002.

33.

# UNAUDITED PRO FORMA COMBINED CONSOLIDATED FINANCIAL INFORMATION

The following is the unaudited pro forma combined consolidated financial information for First Merchants Corporation and for Lafayette Bancorporation giving effect to the merger of Lafayette Bancorporation with and into First Merchants Corporation and the issuance of preferred securities and other bank debt to fund the cash consideration payable in the merger. The balance sheet information presented gives effect to the merger and the related issuance of the preferred securities and bank debt as if each occurred on December 31, 2001. The income statement information presented gives effect to the merger and the related issuance of the preferred securities and bank debt as if each occurred on January 1, 2001. The following pro forma historical information does not reflect any cost savings which First Merchants Corporation may achieve subsequent to the merger.

You should read the unaudited pro forma combined consolidated financial information in conjunction with the accompanying Notes to Unaudited Pro Forma Combined Consolidated Financial Information. This unaudited pro forma combined consolidated financial information may not be indicative of the results of operations that actually would have occurred if the merger and the related issuance of the preferred securities and bank debt had occurred on the dates assumed above or of the results of operations that may be achieved in the future.

The accompanying notes are an integral part of the unaudited pro forma combined consolidated financial information.

Notes to Unaudited Pro Forma Combined Consolidated Financial Information (Dollars in thousands)

#### Note 1 - Basis of Presentation

On April 1, 2002, First Merchants Corporation acquired all of the assets of Lafayette Bancorporation through the merger of Lafayette Bancorporation with and into First Merchants Corporation. As part of the merger, shareholders of Lafayette Bancorporation will receive approximately 2,773,059 shares of First Merchants Corporation common stock and approximately \$50,866,560 in cash. The acquisition will be accounted for under the purchase method of accounting and, accordingly, the assets and liabilities of Lafayette Bancorporation have been marked to estimated fair value based upon conditions as of December 31, 2001. Since these are pro forma statements, we cannot assure that the amounts reflected in these financial statements would have been representative of the actual amounts earned had the companies been combined at the time. The actual fair value adjustments will be made based upon appraisals and evaluations that will be made as of the date the merger is completed. Thus, the actual fair value adjustment may differ significantly from those reflected in the pro forma financial statements.

# Note 2 - Pro Forma Adjustments

- (1) To record payment by Lafayette Bancorporation for estimated transaction costs.
- (2) To record payment by First Merchants Corporation for estimated transaction costs.

- (3) To record receipt of cash for stock options exercised.
- (4) To record payment for stock appreciation rights.
- (5) To adjust interest-earning assets and interest-bearing liabilities of Lafayette Bancorporation to estimated fair value.
- (6) To record premises at estimated fair value.
- (7) To record goodwill for the cost of acquisition over the estimated fair value of net assets acquired as follows:

| Purchase Price:                                                                                            |    |                   |
