The accompanying notes are an integral part of these condensed consolidated financial statements.

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. General

The interim condensed consolidated financial statements and related notes presented have been prepared by Kadant Inc. (also referred to in this document as "Kadant," "the Company," or "the Registrant"), are unaudited, and, in the opinion of management, reflect all adjustments of a normal recurring nature necessary for a fair statement of the Company's financial position at September 29, 2007, and its results of operations for the three-and nine-month periods ended September 29, 2007 and September 30, 2006 and cash flows for the nine-month periods ended September 29, 2007 and September 30, 2006. Interim results are not necessarily indicative of results for a full year.

The condensed consolidated balance sheet presented as of December 30, 2006, has been derived from the consolidated financial statements that have been audited by the Company's independent registered public accounting firm. The condensed consolidated financial statements and related notes are presented as permitted by Form 10-Q and do not contain certain information included in the annual consolidated financial statements and related notes of the Company. The condensed consolidated financial statements and notes included herein should be read in conjunction with the consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the fiscal year ended December 30, 2006, filed with the Securities and Exchange Commission on March 13, 2007.

Certain prior-period amounts have been reclassified to conform to the 2007 presentation.

2. Comprehensive Income

Comprehensive income combines net income and other comprehensive items, which represent certain amounts that are reported as components of shareholders' investment in the accompanying condensed consolidated balance sheet, including foreign currency translation adjustments, deferred gains and losses and unrecognized prior service loss associated with pension and other post-retirement plans, and deferred gains and losses on hedging instruments. The components of comprehensive income are as follows:

	Three Months Ended					Nine Months Ended			
	Se	ptember	September		September		S	eptember

Discontinued Operation		(.09)		(.01)		(.19)		(.07)
Net Income	\$.40	\$.40	\$	1.05	\$.94

Options to purchase approximately 51,700 and 74,100 shares of common stock for the third quarters of 2007 and 2006, respectively, and 59,200 and 129,900 shares of common stock for the first nine months of 2007 and 2006, respectively, were not included in the computation of diluted earnings per share because the exercise prices of such options were greater than the average market price of the common stock and the effect of their inclusion would have been anti-dilutive.

4. Acquisition and Disposition

Acquisition

On June 2, 2006, the Company's subsidiary, Kadant Light Machinery (Jining) Co., Ltd. (Kadant Jining), assumed responsibility for the operation of Jining Huayi Light Industry Machinery Co., Ltd. (Huayi), and, by September 30, 2006, acquired substantially all of the assets of Huayi including cash, inventory, machinery, equipment, and buildings for \$21,153,000, net of assumed liabilities of \$2,253,000 related primarily to acquired customer deposits (Kadant Jining acquisition). Of the total consideration, \$17,331,000 was paid in cash, including \$1,032,000 for acquisition-related costs. To finance a portion of the purchase price, Kadant Jining borrowed 40 million Chinese renminbi, originally translated at \$5,072,000. Of the remaining purchase obligation totaling \$3,822,000, \$2,403,000

has been paid as of September 29, 2007 and the remaining \$1,419,000, which is included in other current liabilities in the accompanying condensed consolidated balance sheet, is due on certain dates through January 2008 if certain post-closing and indemnification obligations are satisfied. The Company expects to fund the remaining purchase obligation through a combination of cash and borrowings in China. Pursuant to the asset purchase agreement, Kadant Jining issued bank payment guarantees associated with the remaining purchase obligation, which may be drawn upon by the sellers through January 2008 if certain obligations are satisfied. Huayi was a supplier of stock-preparation equipment in China.

KADANT INC.

Notes to Condensed Consolidated Financial Statements (Unaudited)

4. Acquisition and Disposition (continued)

Disposition

On April 30, 2007, the Company's Kadant Johnson Holdings Inc. (formerly Specialty Castings Inc.) subsidiary sold substantially all the assets of its Casting Products business for \$390,000, consisting of \$250,000 received in cash and a \$140,000 note receivable. The note receivable bears interest at a rate of 8% annually and is to be repaid by the buyer on a monthly basis over a 5-year period, commencing on January 1, 2008. The Company recorded a pre-tax loss of \$388,000 (\$233,000 after-tax, or \$.02 per diluted share) on the sale in the second quarter of 2007.

5. Inventories

The components of inventories are as follows:

	September			ecember
		29,		30,
(In thousands)		2007		2006
Raw Materials and Supplies	\$	24,307	\$	22,418
Work in Process		9,494		9,916
Finished Goods (includes \$2,006 and \$624 at customer locations)		12,794		9,345
	\$	46,595	\$	41,679

6. Income Taxes

The Company adopted Financial Accounting Standards Board (FASB) Interpretation No. 48 (FIN 48), "Accounting for Uncertainty in Income Taxes – An Interpretation of FASB Statement No. 109," on December 31, 2006. In accordance with FIN 48, the Company recognized a cumulative-effect adjustment of \$709,000, increasing its liability for unrecognized tax benefits and reducing the December 31, 2006 balance of retained earnings. At December 31, 2006, the Company had \$3,364,000 of unrecognized tax benefits, of which \$1,536,000, if recognized, would affect the effective tax rate and the remaining \$1,828,000, if recognized, would not affect the annual effective tax rate. The Company recognizes accrued interest and penalties related to unrecognized tax benefits in income tax expense. At December 31, 2006, the Company had accrued \$652,000 and \$490,000 for the potential payment of interest and penalties, respectively. As of September 29, 2007, the Company has reduced the unrecognized tax benefit by approximately \$560,000, of which \$437,000 was a reduction in goodwill and did not affect the annual effective tax rate, as the result of the expiration of statutes of limitation and settlements reached with various taxing authorities. Accordingly, total accrued interest and penalties were reduced by \$44,000 and \$8,000, respectively. The Company does not anticipate that the total amount of unrecognized tax benefit related to any particular tax position will change significantly within the next 12 months.

As of December 31, 2006, the Company was subject to U.S. Federal income tax examinations for the stub period from January to August 2001 when the Company was part of its former parent company's tax return and for the tax years 2003 through 2006, and to non-U.S. income tax examinations for the tax years 2001 through 2006. In addition, the Company was subject to state and local income tax examinations for the tax years 2002 through 2006. During the third quarter of 2007, the Company's state and local income tax statute of limitations closed for the 2002 tax year and the U.S. federal income tax statute of limitations closed for the 2003 tax year.

Notes to Condensed Consolidated Financial Statements (Unaudited)

7. Long-Term Obligations and Other Financial Instruments

Long-term Obligations

Long-term obligations are as follows:

(In thousands)	Se	29, 2007	D	30, 2006
Variable Rate Term Loan, due from 2007 to 2010	\$	32,801	\$	39,108
Variable Rate Term Loan, due from 2007 to 2016		9,500		9,750
Variable Rate Term Loan, due 2010		5,332		5,124
Total Long-Term Obligations		47,633		53,982
Less: Current Maturities		(11,348)		(9,330)
Long-Term Obligations, less Current Maturities	\$	36,285	\$	44,652

The weighted average interest rate for long-term obligations was 5.58% as of September 29, 2007.

Term Loan and Revolving Credit Facility

To fund a portion of the purchase price for the acquisition of Kadant Johnson Inc. (Kadant Johnson) in May 2005, the Company entered into a term loan and revolving credit facility (the Credit Agreement) effective May 9, 2005 in the aggregate principal amount of up to \$95,000,000, including a \$35,000,000 revolver. The Credit Agreement is among the Company, as Borrower; the Foreign Subsidiary Borrowers from time to time parties thereto; the several banks and other financial institutions or entities from time to time parties thereto; and JPMorgan Chase Bank, N.A., as Administrative Agent. On May 11, 2005, the Company borrowed \$60,000,000 under the term loan facility, which is repayable in quarterly installments over a five-year period. The outstanding balance as of September 29, 2007 is \$32,801,000.

On May 9, 2007, the Company entered into a fourth amendment to its Credit Agreement to eliminate one of the restrictions on the payment of dividends and repurchases of the Company's common stock, which was limited to \$15 million plus 50% of net income earned after May 9, 2005. The Company is still required to comply with a maximum consolidated leverage ratio of total debt to earnings before interest, taxes, depreciation and amortization (EBITDA) (as defined in the Credit Agreement) of 2.5 to 1 prior to the payment of any dividend or the making of any stock repurchases.

Commercial Real Estate Loan

On May 4, 2006, the Company borrowed \$10,000,000 under a promissory note (Loan) from Citizens Bank of Massachusetts. The Loan is repayable in quarterly installments of \$125,000 over a ten-year period with the remaining principal balance of \$5,000,000 due upon maturity. The outstanding balance as of September 29, 2007 is \$9,500,000.

Kadant Jining Loan and Credit Facilities

On June 6, 2006, Kadant Jining borrowed 40,000,000 Chinese renminbi, or approximately \$5,332,000 as of September 29, 2007, under a 47-month interest-only loan with Bank of China Limited.

On July 30, 2007, Kadant Jining entered into a short-term credit facility with JPMorgan Chase Bank, N.A., Shanghai Branch, that would allow it to borrow up to an aggregate principal amount of 45,000,000 Chinese renminbi, or approximately \$6,000,000 as of September 29, 2007, and the Company's subsidiary, Kadant Pulp & Paper Equipment (Yanzhou) Co. Ltd. (Kadant Yanzhou) entered into a short-term credit facility with JPMorgan Chase Bank, N.A., Shanghai Branch, that would allow it to borrow up to an aggregate principal amount of 15,000,000 Chinese renminbi, or approximately \$2,000,000 as of September 29, 2007. Both credit facilities have a term of 364 days. Borrowings made under these facilities will bear interest at 90% of the applicable short-term interest rate for a Chinese renminbi loan of comparable term as published by The People's Bank of China. The facilities will be used for general working capital purposes and may include the cash collateralization of certain bank payment guarantees provided by Bank of China Limited in connection with the 2006 acquisition of the assets of Huayi. The Company provided a guaranty, dated July 30, 2007, securing the payment of all obligations made under these credit facilities and providing a cross-default to the Company's existing Credit Agreement. As of September 29, 2007, there were no outstanding borrowings under these credit facilities.

Notes to Condensed Consolidated Financial Statements (Unaudited)

7. Long-Term Obligations and Other Financial Instruments (continued)

Financial Instruments

The Company entered into swap agreements in 2005 and 2006 to convert a portion of the Company's outstanding debt from floating to fixed rates of interest. As of September 29, 2007, \$32,900,000, or 69%, of the Company's outstanding debt was hedged through interest rate swap agreements. The swap agreements have the same terms and quarterly payment dates as the corresponding debt, and reduce proportionately in line with the amortization of the debt. The swap agreements have been designated as cash flow hedges and are carried at fair value with unrealized gains or losses reflected within other comprehensive items. As of September 29, 2007, the net unrealized loss associated with the swap agreements was \$181,000, consisting of a \$170,000 unrealized gain included in other assets and a \$351,000 unrealized loss included in other liabilities, with an offset to accumulated other comprehensive items (net of tax) in the accompanying condensed consolidated balance sheet. Management believes that any credit risk associated with the swap agreements is remote based on the creditworthiness of the financial institution issuing the swap agreements.

8. Warranty Obligations

The Company provides for the estimated cost of product warranties at the time of sale based on the actual historical return rates and repair costs. In the Pulp and Papermaking Systems (Papermaking Systems) segment, the Company typically negotiates the terms regarding warranty coverage and length of warranty depending on the products and applications. While the Company engages in extensive product quality programs and processes, the Company's warranty obligation is affected by product failure rates, repair costs, service delivery costs incurred in correcting a product failure, and supplier warranties on parts delivered to the Company. Should actual product failure rates, repair costs, service delivery costs, or supplier warranties on parts differ from the Company's estimates, adjustments to the estimated warranty liability would be required.

The changes in the carrying amount of the Company's product warranties included in other current liabilities in the accompanying condensed consolidated balance sheet are as follows:

	Three Months Ended				Nine Months Ended			
	Se	ptember	Se	ptember		September	S	September
		29,		30,		29,		30,
(In thousands)		2007		2006		2007		2006

Balance at End of Period	\$	3,328	\$	3,272	\$	3,328	\$	3,272

See Note 14 for warranty information related to the discontinued operation.

Notes to Condensed Consolidated Financial Statements (Unaudited)

9. Restructuring Costs

2004 Restructuring Plan

In an effort to improve operating performance at the Papermaking Systems segment's Kadant Lamort subsidiary in France, the Company approved a restructuring of that subsidiary on November 18, 2004. This restructuring was initiated to strengthen Kadant Lamort's competitive position in the European paper industry. The restructuring primarily included the reduction of 97 full-time positions across all functions in France and was implemented in 2005. The Company accrued a restructuring charge, in

accordance with SFAS No. 112, "Employers' Accounting for Postemployment Benefits," for severance and other termination costs in connection with the workforce reduction of \$9,235,000 in 2004 and reduced the estimate by \$71,000 in 2005. In addition, during 2004, the Company recorded restructuring costs of \$280,000 related to severance costs of 11 employees at one of the Papermaking Systems segment's U.S. subsidiaries.

2006 Restructuring Plan

The Company recorded restructuring costs of \$677,000 in the fourth quarter of 2006 associated with its 2006 Restructuring Plan. These restructuring costs were comprised of severance and associated costs related to the reduction of 15 full-time positions in Canada and France, all at the Company's Papermaking Systems segment.

A summary of the changes in accrued restructuring costs included in other current liabilities in the accompanying condensed consolidated balance sheet is as follows:

(In thousands)	verance ad Other
2004 Restructuring Plan	
Balance at December 30, 2006	\$ 365
Usage	(196)
Currency Translation	28
Balance at September 29, 2007	\$ 197
2006 Restructuring Plan	
Balance at December 30, 2006	\$ 606
Usage	(188)
Currency Translation	82
Balance at September 29, 2007	\$ 500

The specific restructuring measures and associated estimated costs are based on the Company's best judgments under prevailing circumstances. The cash payments related to the Kadant Lamort restructuring initiated at the end of 2004 will extend through the remainder of 2007 due to the lengthy restructuring and legal process in France. For the remaining restructuring activity, the Company anticipates that all actions will be completed within a 12-month period.

Notes to Condensed Consolidated Financial Statements (Unaudited)

10. Business Segment Information

The Company has combined its operating entities into one reportable operating segment, Papermaking Systems, and two separate product lines that are reported in Other, Fiber-based Products and Casting Products, the latter of which was sold on April 30, 2007. In classifying operational entities into a particular segment, the Company aggregated businesses with similar economic characteristics, products and services, production processes, customers, and methods of distribution.

	\$	1,277	\$	1,444	\$	3,001	\$	2,550

- (a) "Other" includes the results from the Fiber-based Products business and the Casting Products business, the latter of which was sold on April 30, 2007.
 - (b) Corporate primarily includes general and administrative expenses.

11. Stock-Based Compensation

Stock Options - There were no stock options granted in the first nine months of 2007 or 2006.

Restricted Stock - The Company grants restricted shares to its outside directors. For 2006 and prior periods, the restricted shares vested immediately, but were restricted from resale for three years from the date of award. On February 27, 2007, the Company granted an aggregate of 20,000 restricted shares to its outside directors with an aggregate value of \$464,000, which vest at a rate of 5,000 shares per quarter on the last day of each quarter. The vesting for these restricted shares would accelerate upon a change in control of the Company, as defined in the Company's equity incentive plans. As of September 29, 2007, there was \$116,000 of total unrecognized compensation

cost related to these unvested awards, which will be recognized in the fourth quarter of 2007 as the shares vest. On February 27, 2007, the Company also granted an aggregate of 40,000 restricted shares with an aggregate value of \$928,000 to its outside directors, which will only vest and compensation expense will only be recognized upon a change in control as defined in the Company's equity incentive plans. These restricted shares are forfeited if a change in control does not occur by the end of the first quarter of 2008.

Performance-Based Restricted Stock Units - On May 24, 2007, the Company granted 104,000 restricted stock units (RSU) (the target RSU amount) with a grant date fair value of \$28.21 per share to certain officers of the Company. Each RSU represents

KADANT INC.

Notes to Condensed Consolidated Financial Statements (Unaudited)

11. Stock-Based Compensation (continued)

the right to receive one share of the Company's common stock upon vesting. The RSUs will cliff vest in their entirety on the last day of the Company's 2009 fiscal year, provided that certain performance requirements are met and the officer remains employed by the Company through the vesting date. The target RSU amount is subject to adjustment based on the achievement of certain performance requirements. The performance-based element of the RSU requires the Company to meet specified EBITDA targets generated from continuing operations for the nine-month period ended December 29, 2007. If the Company's actual EBITDA for the period is between 80% and 125% of the EBITDA target, the officer would receive between 50% and 150% of the target RSU amount. If actual EBITDA is below 80% of target EBITDA for the period, all RSUs will be forfeited. The Company is recognizing compensation expense associated with these RSUs ratably over the vesting period based on the grant date fair value. Through the third quarter of 2007, the Company recognized compensation expense based on the probable number of RSUs to be granted, which was 125% of the target RSU amount. In the fourth quarter of 2007, if the actual EBITDA for the nine-month period ended December 29, 2007 is between 80% and 125% of the EBITDA target, compensation expense recognized to date will be adjusted to reflect the actual number of RSUs to be issued. If the actual EBITDA is below 80% of the target EBITDA, previously recognized compensation expense will be reversed in the fourth quarter of 2007.

The RSU agreement provides for forfeiture in certain events, such as voluntary or involuntary termination of employment, and for acceleration of vesting in certain events, such as death, disability or a change in control of the Company. If the officer dies or is disabled prior to the vesting date, then a ratable portion of the RSUs will vest. In the event of a change in control prior to the end of the 2007 fiscal year, the target number of RSUs will vest. If the change in control occurs after the end of the Company's 2007 fiscal year, the officer will receive the number of deliverable RSUs based on the achievement of the performance goal, as stated in the RSU agreement.

Unrecognized compensation expense related to the unvested performance-based restricted stock units totaled approximately \$3,175,000 as of September 29, 2007 and will be recognized over 2.3 years.

Time-Based Restricted Stock Units - On May 24, 2007, the Company granted 61,550 RSUs (Time-Based RSU) with a grant date fair value of \$28.21 per share to certain employees of the Company. Each Time-Based RSU represents the right to receive one share of the Company's common stock upon vesting. The Time-Based RSUs will cliff vest in their entirety on May 24, 2011, provided the recipient remains employed with the Company through the vesting date. The Time-Based RSU agreement provides for forfeiture in certain events, such as voluntary or involuntary termination of employment, and for acceleration of vesting in certain events, such as death, disability or a change in control of the Company. The Company is recognizing compensation expense associated with these Time-Based RSUs ratably over the vesting period based on the grant date fair value. Unrecognized compensation expense related to the Time-Based RSUs totaled approximately \$1,584,000 as of September 29, 2007 and will be recognized over 3.7 years.

A summary of the status of the Company's unvested restricted share/unit awards for the nine months ended September 29, 2007 is as follows:

Shares/Units Weighted
Average

12. Employee Benefit Plans

Defined Benefit Pension Plans and Post-Retirement Welfare Benefit Plans

The Company's Kadant Web Systems subsidiary has a noncontributory defined benefit retirement plan. Benefits under the plan are based on years of service and employee compensation. Funds are contributed to a trustee as necessary to provide for current service and for any unfunded projected benefit obligation over a reasonable period. Effective December 31, 2005, this plan was closed to new participants. Effective January 1, 2007, the provision limiting lump sum distributions upon termination of employment to \$10,000 was removed. This same subsidiary also has a post-retirement welfare benefits plan (included in the table below in "Other Benefits"). No future retirees are eligible for this post-retirement welfare benefits plan, and the plans include limits on the subsidiary's contributions.

The Company's Kadant Lamort subsidiary sponsors a defined benefit pension plan (included in the table below in "Other Benefits"). Benefits under this plan are based on years of service and projected employee compensation.

The Company's Kadant Johnson subsidiary also offers a post-retirement welfare benefits plan (included in the table below in "Other Benefits") to its U.S. employees upon attainment of eligible retirement age. This post-retirement benefit plan was amended to reduce the annual subsidy provided under the plan effective January 1, 2007. In addition, this plan will be closed to employees who will not meet its retirement eligibility requirements on January 1, 2012.

The components of the net periodic benefit cost for the pension benefits and other benefits plans in the three-and nine-month periods ended September 29, 2007 and September 30, 2006 are as follows:

(I. d	Three Months Ended September 29, 2007 September 30, 2006							2006

Kadant Web Systems' expects to make a fourth quarter contribution of \$200,000 to the noncontributory defined benefit retirement plan. For the remaining pension and post-retirement welfare benefit plans, no cash contributions, other than to fund current benefit payments, are expected in 2007.

13. Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157 (SFAS 157), "Fair Value Measurements." SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 is effective for the Company in the first quarter of 2008. The Company is currently analyzing the effect that SFAS 157 will have on its consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159 (SFAS 159), "The Fair Value Option for Financial Assets and Financial Liabilities - including an Amendment of FASB Statement No. 115." SFAS 159 permits entities to measure eligible financial assets, financial liabilities and certain other assets and liabilities at fair value on an instrument-by-instrument basis. The fair value measurement election is irrevocable once made and subsequent changes in fair value must be recorded in earnings. The effect of adoption will be reported as a cumulative-effect adjustment to beginning retained earnings in the first quarter of 2008. The Company is currently analyzing the effect that SFAS 159 may have on its consolidated financial statements.

14. Discontinued Operation

On October 21, 2005, our Kadant Composites LLC subsidiary (Composites LLC) sold substantially all of its assets to LDI Composites Co. (the Buyer) for approximately \$11,913,000 in cash and the assumption of \$658,000 of liabilities, resulting in a cumulative loss on sale of \$84,000. Composites LLC retained the cash proceeds received from the asset

sale and continued to administer and pay warranty claims from the sale proceeds into the third quarter of 2007. As of September 29, 2007, the liabilities of the discontinued operation exceeded its assets and it no longer had funds to administer its warranty program or to pay or process warranty claims. On September 30, 2007, the discontinued operation ceased doing business. All activity related to this business is classified in the results of the discontinued operation in the accompanying condensed consolidated financial statements.

Notes to Condensed Consolidated Financial Statements (Unaudited)

14. Discontinued Operation (continued)

Operating results for the discontinued operation included in the accompanying condensed consolidated statement of income are as follows:

]	Three Mon	ths Ended	Nine Mon	ths Ended
	Se	ptember	September	September	September
		29,	30,	29,	30,
(In thousands)		2007	2006	2007	2006
Operating Loss	\$	(1,986)	\$ (286)	\$ (4,315)	\$ (1,717)
Interest Income		11	68	74	265
Loss Before Income Tax Benefit (including \$130 loss on					
disposal in the					
first nine months of 2006)		(1,975)	(218)	(4,241)	(1,452)
Income Tax Benefit		743	35	1,595	528
Loss From Discontinued Operation	\$	(1,232)	\$ (183)	\$ (2,646)	\$ (924)

The major classes of assets and liabilities of the discontinued operation included in the accompanying condensed consolidated balance sheet are as follows:

	September			ecember
		29,		30,
(In thousands)		2007		2006
Cash and cash equivalents	\$	9	\$	2,597
Restricted cash		_		660
Other accounts receivable		322		340
Current deferred tax asset		454		454
Other assets		388		410
Total Assets		1,173		4,461
Accrued warranty costs		2,145		1,135
Other current liabilities		290		324
Total Liabilities		2,435		1,459
Net (Liabilities) Assets	\$	(1,262)	\$	3,002

Under the asset purchase agreement, Composites LLC retained certain liabilities associated with the operation of the business prior to the sale, including the warranty obligations associated with products manufactured prior to the sale date. Through the sale date of October 21, 2005, Composites LLC offered a standard limited warranty to the owner of its decking and roofing products, limited to repair or replacement of the defective product or a refund of the original purchase price.

Through the second quarter of 2006, Composites LLC recorded an estimate for warranty-related costs at the time of sale based on its actual historical return rates and repair costs, as well as other analytical tools for estimating future warranty claims. These estimates were revised for variances between actual and expected claims rates. Composites LLC's analysis of expected warranty claims rates included detailed assumptions associated with potential product returns, including the type of product sold, temperatures at the location of installation, density of boards, and other factors. Certain assumptions, such as the effect of weather conditions and high temperatures on the product installed, included inherent uncertainties that contributed to variances between actual and expected claim rates.

During the third quarter of 2006, Composites LLC concluded that the assumptions noted above were not accurately predicting the actual level of warranty claims, making it no longer possible to calculate a reasonable estimate of the future level of potential warranty claims. Accordingly, as no amount within the total range of loss represents a best estimate of the ultimate loss to be recorded, Composites LLC is required under SFAS No. 5, "Accounting for Contingencies" to record the minimum amount of

Notes to Condensed Consolidated Financial Statements (Unaudited)

14. Discontinued Operation (continued)

the potential range of loss. As of September 29, 2007, the accrued warranty costs associated with the composites business were \$2,145,000, which represent the low end of the estimated range of potential loss for products under warranty based on the level of claims received through the end of the third quarter of 2007. Composites LLC has calculated the total potential range of loss to be between \$2,145,000 and approximately \$13,100,000. The high end of the range represents the estimated maximum level of warranty claims remaining based on the total sales of the products under warranty. Composites LLC will continue to record adjustments to accrued warranty costs to reflect the minimum amount of the potential range of loss for products under warranty based on additional claims received.

A summary of the changes in accrued warranty costs in the nine months ended September 29, 2007 and September 30, 2006 are as follows:

	Nine Months Ended				
	Se	ptember	Se	ptember	
		29,		30,

Usage		(2,904)		(3,971)	
Balance at End of Period	\$	2,145	\$	2,274	

KADANT INC.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q includes forward-looking statements that are not statements of historical fact, and may include statements regarding possible or assumed future results of operations. Forward-looking statements are subject to risks and uncertainties and are based on the beliefs and assumptions of our management, using information currently available to our management. When we use words such as "believes," "expects," "anticipates," "intends," "plans," "estimates," "should," "likely," "will," "would," or similar expressions, we are making forward-looking statements.

Forward-looking statements are not guarantees of performance. They involve risks, uncertainties, and assumptions. Our future results of operations may differ materially from those expressed in the forward-looking statements. Many of the important factors that will determine these results and values are beyond our ability to control or predict. You should not put undue reliance on any forward-looking statements. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events, or otherwise. For a discussion of important factors that may cause our actual results to differ materially from those suggested by the forward-looking statements, you should read carefully the section captioned "Risk Factors" in Part II, Item 1A of this Report.

Overview

Company Background

We are a leading supplier of equipment used in the global papermaking and paper recycling industries and also a manufacturer of granules made from papermaking byproducts. Our continuing operations consist of one reportable operating segment, Pulp and Papermaking Systems (Papermaking Systems), and two separate product lines reported in Other Businesses, which include Fiber-based Products and Casting Products through its sale in April 2007. In classifying operational entities into a particular segment, we considered how our management assesses performance and makes operating decisions, and aggregated businesses with similar economic characteristics, products and services, production processes, customers, and methods of distribution. In addition, included in the discontinued operation in the accompanying condensed consolidated financial statements is a composite building products business, which was sold on October 21, 2005.

We were incorporated in Delaware in November 1991. On July 12, 2001, we changed our name to Kadant Inc. from Thermo Fibertek Inc. Our common stock is listed on the New York Stock Exchange, where it trades under the symbol "KAI."

Papermaking Systems Segment

Our Papermaking Systems segment designs and manufactures stock-preparation systems and equipment, paper machine accessory equipment, water-management systems, and fluid-handling systems and equipment primarily for the paper and paper recycling industries. Our principal products include:

- -Stock-preparation systems and equipment: custom-engineered systems and equipment, as well as standard individual components, for pulping, de-inking, screening, cleaning, and refining recycled and virgin fibers for preparation for entry into the paper machine during the production of recycled paper;
 - Paper machine accessory equipment: doctoring systems and related consumables that continuously clean papermaking rolls to keep paper machines running efficiently; doctor blades made of a variety of materials

to perform functions including cleaning, creping, web removal, and application of coatings; and profiling systems that control moisture, web curl, and gloss during paper production;

- *Water-management systems:* systems and equipment used to continuously clean paper machine fabrics, drain water from pulp mixtures, form the sheet or web, and filter the process water for reuse; and
- -Fluid-handling systems and equipment: rotary joints, precision unions, steam and condensate systems, components, and controls used primarily in the dryer section of the papermaking process and during the production of corrugated boxboard, metals, plastics, rubber, textiles and food.

KADANT INC.

Overview (continued)

Other Businesses

Our other businesses include our Fiber-based Products business and prior to its sale on April 30, 2007, our Casting Products business.

Our Fiber-based Products business produces biodegradable, absorbent granules from papermaking byproducts for use primarily as carriers for agricultural, home lawn and garden, and professional lawn, turf and ornamental applications, as well as for oil and grease absorption.

Our Casting Products business manufactured grey and ductile iron castings. This business was sold on April 30, 2007.

Discontinued Operation

On October 21, 2005, our Kadant Composites LLC subsidiary (Composites LLC) sold substantially all of its assets to LDI Composites Co. for approximately \$11.9 million in cash and the assumption of \$0.7 million of liabilities, resulting in a cumulative loss on sale of \$0.1 million. Under the terms of the asset purchase agreement, Composites LLC retained certain liabilities associated with the operation of the business prior to the sale, including warranty obligations related to products manufactured prior to the sale date. All activity related to this business is classified in the results of the discontinued operation in the accompanying condensed consolidated financial statements.

Through the second quarter of 2006, Composites LLC recorded an estimate for warranty-related costs at the time of sale based on its actual historical return rates and repair costs, as well as other analytical tools for estimating future warranty claims. These estimates were revised for variances between actual and expected claims rates. Composites LLC's analysis of expected warranty claims rates included detailed assumptions associated with potential product returns, including the type of product sold, temperatures at the location of installation, density of boards, and other factors. Certain assumptions, such as the effect of weather conditions and high temperatures on the product installed, included inherent uncertainties that contributed to variances between actual and expected claim rates.

During the third quarter of 2006, Composites LLC concluded that the assumptions noted above were not accurately predicting the actual level of warranty claims, making it no longer possible to calculate a reasonable estimate of the future level of potential warranty claims. Accordingly, as no amount within the total range of loss represents a best estimate of the ultimate loss to be recorded, Composites LLC is required under SFAS No. 5, "Accounting for Contingencies" to record the minimum amount of the potential range of loss. As of September 29, 2007, the accrued warranty costs associated with the composites business were \$2.1 million, which represent the low end of the range of potential loss for products under warranty based on the level of claims received through the end of the third quarter of 2007. Composites LLC has calculated the potential range of loss to be between \$2.1 million and approximately \$13.1 million. The high end of the range represents the estimated maximum level of warranty claims remaining based on the total sales of the products under warranty. Composites LLC will continue to record adjustments to accrued warranty costs to reflect the minimum amount of the potential range of loss for products under warranty based on additional claims received.

Composites LLC retained the cash proceeds received from the asset sale and continued to administer and pay warranty claims from the sale proceeds into the third quarter of 2007. On September 30, 2007, Composites LLC announced that it had used all of the cash proceeds from the sale, was unable to pay or process warranty claims, and ceased doing business.

International Sales

During the first nine months of 2007 and 2006, approximately 61% and 63%, respectively, of our sales were to customers outside the United States, principally in China and Europe. We generally seek to charge our customers in the same currency in which our operating costs are incurred. However, our financial performance and competitive position can be affected by currency exchange rate fluctuations affecting the relationship between the U.S. dollar and foreign currencies. We seek to reduce our exposure to currency fluctuations through the use of forward currency exchange contracts. We may enter into forward contracts to hedge certain firm purchase and sale commitments denominated in currencies other than our subsidiaries' functional currencies. These contracts hedge transactions principally denominated in U.S. dollars.

KADANT INC.

Overview (continued)

Application of Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of our condensed consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are defined as those that reflect significant judgments and uncertainties, and could potentially result in materially different results under different assumptions and conditions. We believe that our most critical accounting policies, upon which our financial condition depends and which involve the most complex or subjective decisions or assessments, are those described in "Management's Discussion and Analysis of Financial Condition and Results of Operations" under the section captioned "Application of Critical Accounting Policies and Estimates" in Item 7 of our Annual Report on Form 10-K for the fiscal year ended December 30, 2006, filed with the Securities and Exchange Commission (SEC) on March 13, 2007. There have been no material changes to these critical accounting policies since fiscal year-end 2006 that warrant further disclosure, except for the adoption of Financial Accounting Standards Board (FASB) Interpretation No. 48 (FIN 48), "Accounting for Uncertainty in Income Taxes – An Interpretation of FASB Statement No. 109."

Adoption of FIN 48 - Effective December 31, 2006, we adopted FIN 48. FIN 48 provides guidance for the recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. In accordance with FIN 48, we recognized a cumulative-effect adjustment of \$0.7 million, increasing our liability for unrecognized tax benefits to \$3.4 million and reducing the December 31, 2006 balance of retained earnings.

In the ordinary course of business, there is inherent uncertainty in quantifying our income tax positions. We assess our income tax positions and record tax benefits for all years subject to examination based upon management's evaluation of the facts, circumstances, and information available at the reporting date. For those tax positions where it is more likely than not that a tax benefit will be sustained, we have recorded the largest amount of tax benefit with a greater than 50 percent likelihood of being realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. For those income tax positions where it is not more likely than not that a tax benefit will be sustained, no tax benefit has been recognized in the financial statements. Where applicable, the associated interest and penalties have also been recognized.

Industry and Business Outlook

Our products are primarily sold to the global pulp and paper industry. The paper industry in North America and Europe has been in a prolonged down cycle for the past several years and has undergone important structural changes during that time. In contrast, the paper industry in Asia has experienced strong growth over the last several years. The performance of paper producers in North America and Europe has been generally improving over the past year. However, paper producers in those regions continue to be negatively affected by higher operating costs, especially higher energy and chemical costs. We believe paper companies are still cautious about increasing their capital and operating spending in the current market environment. As the financial performance of paper companies has

improved, they have increased their capital and operating spending, which has had a positive effect on paper company suppliers, such as our Company. We continue to concentrate our efforts on several initiatives intended to improve our operating results, including: (i) increasing our use of low-cost manufacturing bases in China and Mexico, (ii) increasing aftermarket sales in China, and (iii) penetrating new markets outside the paper industry. In addition, we continue to focus our efforts on managing our operating costs, capital expenditures, and working capital.

In the last several years, China has become a significant market for our stock-preparation equipment. A large percentage of the world's increases in paper production capacity are in China. Consequently, competition is intense and there is increasing pricing pressure, particularly for large systems. Currently, our stock-preparation revenues from China are primarily derived from large capital orders, the timing of which is often difficult to predict. At times, our customers in China have experienced delays in obtaining financing for their capital addition and expansion projects due to efforts by the Chinese government to control

Overview (continued)

economic growth, which are generally reflected in a slowdown in financing approvals in China's banking system. These delays in receiving financing could delay our recognizing revenue on these projects to periods later than originally anticipated. We intend to increase the manufacturing of our stock-preparation equipment in China. We currently use our Kadant Jining facility to manufacture components of our stock-preparation equipment. In addition, we intend to use our Kadant Jining facility as a base for increasing our stock-preparation aftermarket business, which we believe will be more predictable than the revenue derived from large capital orders.

To capitalize on the growing Chinese market, in 2007, we began manufacturing certain of our accessory products in our Chinese facilities and have started sourcing and manufacturing our principal water management products in China.

Our 2007 guidance reflects expected revenues and earnings per share from continuing operations, which exclude the results from our discontinued operation. For the fourth quarter of 2007, we expect to earn between \$.42 and \$.45 per diluted share, on revenues of \$94 to \$96 million. For the full year, including the \$.02 loss per diluted share on the sale of the Casting Products business in April 2007, we expect to earn between \$1.66 and \$1.69 per diluted share, revised from our previous estimate of \$1.49 to \$1.59. We now expect 2007 revenues of \$364 to \$366 million, revised from our previous estimate of \$360 to \$370 million.

Results of Operations

Third Ouarter 2007 Compared With Third Ouarter 2006

The following table sets forth our unaudited condensed consolidated statement of income expressed as a percentage of total revenues from continuing operations for the third fiscal quarters of 2007 and 2006. The results of operations for the fiscal quarter ended September 29, 2007 are not necessarily indicative of the results to be expected for the full fiscal year.

	Three Mont	hs Ended
	September	September
	29,	30,
	2007	2006
Revenues	100%	100%
Costs and Operating Expenses:		
Cost of revenues	62	64
Selling, general, and administrative expenses	26	24
Research and development expenses	1	2
	89	90
Operating Income	11	10
Interest Income	_	_
Interest Expense	(1)	(1)

Income from Continuing Operations Before Provision for Income Taxes	10	9
Provision for Income Taxes	2	3
Income from Continuing Operations	8	6
Loss from Discontinued Operation	(2)	_
Net Income	6%	6%

Revenues

Revenues increased to \$92.7 million in the third quarter of 2007 from \$90.6 million in the third quarter of 2006, an increase of \$2.1 million, or 2%. Revenues in the third quarter of 2007 include a \$3.0 million increase from the favorable effects of currency translation and a \$1.0 million decrease resulting from the sale of our Casting Products business in April 2007.

Results of Operations (continued)

Revenues for the third quarters of 2007 and 2006 from our Papermaking Systems segment and our other businesses are as follows:

	7	Three Months Ended		
	September Sep			eptember
		29,		30,
(In thousands)		2007		2006
Revenues:				
Papermaking Systems	\$	91,093	\$	88,101
Other Businesses		1,602		2,485
	\$	92,695	\$	90,586

Papermaking Systems Segment. Revenues at the Papermaking Systems segment increased to \$91.1 million in the third quarter of 2007 from \$88.1 million in the third quarter of 2006, an increase of \$3.0 million, or 3%. Revenues in 2007 include a \$3.0 million increase from the favorable effects of currency translation, a \$4.0 million increase from stock-preparation equipment sales in North America due to higher capital equipment sales and a \$2.0 million increase, excluding the favorable effect of currency translation, from our fluid-handling product line, due to increased sales in its three largest markets. Offsetting these increases, excluding the favorable effects of currency translation, was a \$3.2 million decrease in stock-preparation equipment sales in China compared to record sales in the third quarter of 2006, and a \$2.0 million decrease from our water management product line due to a decrease in capital sales.

The following table presents revenues at the Papermaking Systems segment by product line, the changes in revenues by product line between the third quarters of 2007 and 2006, and the changes in revenues by product line between the third quarters of 2007 and 2006, excluding the effect of currency translation. The presentation of the changes in revenues by product line excluding the effect of currency translation is a non-GAAP (generally accepted accounting principles) measure. We believe this non-GAAP measure helps investors gain a better understanding of our underlying operations, consistent with how management measures and forecasts the Company's performance, especially when comparing such results to prior periods.

							In	crease
							(Dec	crease)
							Exc	luding
	Th	ree Mor	nths Ende	d			Ef	fect of
	Sep	tember	Septen	nber				
		29,		30,	Inc	crease	Cu	rrency
(In millions)		2007	2	2006	(Dec	rease)	Tran	slation
Product Line:								
Stock-Preparation Equipment	\$	41.7	\$	41.4	\$	0.3	\$	(0.6)
Fluid-Handling		25.1	,	21.9		3.2		2.0
Accessories		16.7		15.3		1.4		0.7
Water-Management		7.0		8.8		(1.8)		(2.0)
Other		0.6		0.7		(0.1)		(0.1)
	\$	91.1	\$	88.1	\$	3.0	\$	0.0

Revenues from the segment's stock-preparation equipment product line increased \$0.3 million, or 1%, in the third quarter of 2007 compared to the third quarter of 2006, including a \$0.9 million increase from the favorable effect of currency translation. Excluding the effect of currency translation, revenues from the segment's stock-preparation equipment product line decreased \$0.6 million due to a \$3.2 million, or 15%, decrease in sales in China in the third quarter of 2007 compared to record sales in the third quarter of 2006. Also contributing to the decrease was a \$1.5 million, or 16%, decrease in sales in Europe due primarily to the timing of a number of capital projects. These decreases were partially offset by a \$4.0 million, or 38%, increase in sales in our North American-based business due to higher capital equipment sales.

Results of Operations (continued)

Revenues from the segment's fluid-handling product line increased \$3.2 million, or 15%, in the third quarter of 2007 compared to the third quarter of 2006, including a \$1.2 million increase from the favorable effect of currency translation. Excluding the effect of currency translation, revenues from the segment's fluid-handling product line increased \$2.0 million, or 9%, primarily due to stronger demand for our products in Europe, the U.S., and China as customers purchased energy efficient products in response to higher energy prices. These increases were partially offset by a decrease in sales in Canada and Latin America.

Revenues from the segment's accessories product line increased \$1.4 million, or 9%, in the third quarter of 2007 compared to the third quarter of 2006, including a \$0.7 million increase from the favorable effect of currency translation. Excluding the effect of currency translation, revenues from the segment's accessories product line increased \$0.7 million, or 5%, primarily due to an increase in sales in North America related to higher capital and parts revenues.

Revenues from the segment's water-management product line decreased \$1.8 million, or 21%, in the third quarter of 2007 compared to the third quarter of 2006, including a \$0.2 million increase from the favorable effect of currency translation, due primarily to a decrease in capital sales in North America and Europe.

Other Businesses. Revenues from our Casting Products business decreased \$1.0 million in the third quarter of 2007 compared to the third quarter of 2006 due to the sale of this business in April 2007. Revenues from the Fiber-based Products business increased \$0.1 million, or 9%, to \$1.6 million in the third quarter of 2007 from \$1.5 million in the third quarter of 2006.

Gross Profit Margin

Gross profit margins for the third quarters of 2007 and 2006 are as follows:

	Three Mont September 29, 2007	hs Ended September 30, 2006
Gross Profit Margin:		
Papermaking Systems	38%	36%
Other	23	27
	38%	36%

Gross profit margin was 38% and 36% in the third quarters of 2007 and 2006, respectively. The gross profit margin at the Papermaking Systems segment increased to 38% in the third quarter of 2007 from 36% in the third quarter of 2006. This increase was primarily due to higher margins in our capital and aftermarket products and, to a lesser extent, to a favorable product mix compared to last year. The gross profit margin at our other businesses decreased to 23% in the third quarter of 2007 from 27% in the third quarter of 2006 due primarily to lower gross margins in the Fiber-based Products business resulting from increased competition and the higher cost of natural gas.

Operating Expenses

Selling, general, and administrative expenses as a percentage of revenues were 26% and 24% in the third quarters of 2007 and 2006, respectively. Selling, general, and administrative expenses increased \$2.5 million, or 11%, to \$24.0 million in the third quarter of 2007 from \$21.5 million in the third quarter of 2006. This increase included a \$0.8 million increase from the unfavorable effect of foreign currency translation and a \$0.5 million increase associated with compensation expense related to restricted stock units granted to employees in May 2007.

Research and development expenses were \$1.4 million in both the third quarters of 2007 and 2006 and represented 1% and 2% of revenues, respectively.

KADANT INC.

Results of Operations (continued)

Interest Income

Interest income was \$0.3 million and \$0.2 million in the third quarters of 2007 and 2006, respectively.

Interest Expense

Interest expense was \$0.8 million and \$0.9 million in the third quarters of 2007 and 2006, respectively.

Provision for Income Taxes

Our effective tax rate was 25% and 31% in the third quarters of 2007 and 2006, respectively. The 6% decrease in our effective tax rate in the third quarter of 2007 was due to a 3% benefit from the reduction in our recurring rate for 2007 from 31% to 30% and a 3% non-recurring tax benefit resulting from the finalization of the 2006 domestic tax return and a reduction in tax reserves.

Income from Continuing Operations

Income from continuing operations increased to \$7.0 million in the third quarter of 2007 from \$5.8 million in the third quarter of 2006, an increase of \$1.2 million, or 20%. The increase in the 2007 period was primarily due to an increase in operating income of \$0.6 million (see *Revenues* and *Gross Profit Margin* discussed above) and a decrease of \$0.3 million in the provision for income taxes (see *Provision for Income Taxes* discussed above).

Loss from Discontinued Operation

Loss from discontinued operation increased to \$1.2 million in the third quarter of 2007 from \$0.2 million in the third quarter of 2006 due primarily to a \$1.7 million pre-tax increase in warranty costs.

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157 (SFAS 157), "Fair Value Measurements." SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 is effective for us in the first quarter of 2008. We are currently analyzing the effect that SFAS 157 will have on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159 (SFAS 159), "The Fair Value Option for Financial Assets and Financial Liabilities - including an Amendment of FASB Statement No. 115." SFAS 159 permits entities to measure eligible financial assets, financial liabilities and certain other assets and liabilities at fair value on an instrument-by-instrument basis. The fair value measurement election is irrevocable once made and subsequent changes in fair value must be recorded in earnings. The effect of adoption will be reported as a cumulative-effect adjustment to beginning retained earnings in the first quarter of 2008. We are currently analyzing the effect that SFAS 159 may have on our consolidated financial statements.

Results of Operations (continued)

First Nine Months 2007 Compared With First Nine Months 2006

The following table sets forth our unaudited condensed consolidated statement of income expressed as a percentage of total revenues from continuing operations for the first nine months of 2007 and 2006. The results of operations for the first nine months of 2007 are not necessarily indicative of the results to be expected for the full fiscal year.

	Nine Months Ended

Revenues

Revenues increased to \$270.0 million in the first nine months of 2007 from \$255.7 million in the first nine months of 2006, an increase of \$14.3 million, or 6%. Revenues in the first nine months of 2007 include a \$9.0 million increase, excluding the favorable effects of currency translation, from our Papermaking Systems segment and an \$8.1 million increase from the favorable effects of currency translation, offset in part by a \$1.6 million decrease in our Casting Products business due to its sale in April 2007 and a \$1.3 million decrease in revenues from our Fiber-based Products business due to increased competition.

Revenues for the first nine months of 2007 and 2006 from our Papermaking Systems segment and our other businesses are as follows:

Nine Months Ended

(In thousands)	S	eptember 29, 2007	S	September 30, 2006
Revenues:				
Papermaking Systems	\$	261,736	\$	244,601

Results of Operations (continued)

Papermaking Systems Segment. Revenues at the Papermaking Systems segment increased to \$261.7 million in the first nine months of 2007 from \$244.6 million in the first nine months of 2006, an increase of \$17.1 million, or 7%. Revenues in the first nine months of 2007 include an \$8.1 million increase from the favorable effects of currency translation. Excluding the favorable effects of currency translation, revenues in the first nine months of 2007 included a \$9.5 million increase in stock-preparation equipment sales in North America primarily due to higher capital equipment sales derived from several large systems orders, a \$2.8 million increase in accessories sales in North America, and a \$2.7 million increase from our fluid handling business. These increases were partially offset by a \$3.3 million decrease, excluding the favorable effects of currency translation, from our stock-preparation business in Europe and a \$2.0 million decrease in water management sales in North America.

The following table presents revenues at the Papermaking Systems segment by product line, the changes in revenues by product line between the first nine months of 2007 and 2006, and the changes in revenues by product line between the first nine months of 2007 and 2006, excluding the effect of currency translation. The presentation of the changes in revenues by product line excluding the effect of currency translation is a non-GAAP measure. We believe this non-GAAP measure helps investors gain a better understanding of our underlying operations, consistent with how management measures and forecasts the Company's performance, especially when comparing such results to prior periods.

								Increase

	\$	261.7	\$ 24	4.6	\$	17.1	\$	9.0

Revenues from the segment's stock-preparation equipment product line increased \$8.8 million, or 8%, in the first nine months of 2007 compared to the first nine months of 2006, including a \$2.8 million increase from the favorable effect of currency translation. Excluding the effect of currency translation, revenues from the segment's stock-preparation equipment line increased \$6.0 million, or 5%, due primarily to an increase of \$9.5 million, or 27%, in stock-preparation equipment sales in North America primarily due to higher capital equipment sales derived from several large systems orders. These increases were partially offset by a \$3.3 million, or 13%, decrease in revenues from our stock-preparation business in Europe.

Revenues from the segment's fluid-handling product line increased \$5.6 million, or 9%, in the first nine months of 2007 compared to the first nine months of 2006, including a \$2.9 million increase from the favorable effect of currency translation. Excluding the effect of currency translation, revenues from the segment's fluid-handling product

line increased \$2.7 million, or 4%, due to stronger demand for our products in Europe, China, and the U.S., offset in part by a decrease in sales in Latin America.

Revenues from the segment's accessories product line increased \$4.2 million, or 10%, in the first nine months of 2007 compared to the first nine months of 2006, including a \$1.9 million increase from the favorable effect of currency translation. Excluding the effect of currency translation, revenues from the segment's accessories product line increased \$2.3 million, or 5%, due primarily to a \$2.8 million increase in sales in North America.

Results of Operations (continued)

Revenues from the segment's water-management product line decreased \$1.3 million, or 5%, in the first nine months of 2007 compared to the first nine months of 2006, including a \$0.5 million increase from the favorable effect of currency translation. Excluding the effect of currency translation, revenues from the segment's water-management product line decreased \$1.8 million, or 7%, due to weaker capital sales.

Other Businesses. Revenues from our Casting Products business decreased \$1.5 million, or 52%, to \$1.5 million in the first nine months of 2007 from \$3.0 million in the first nine months of 2006 due to the sale of this business in April 2007. Revenues from the Fiber-based Products business decreased \$1.3 million, or 16%, to \$6.8 million in the first nine months of 2007 from \$8.1 million in the first nine months of 2006 due to weaker sales of Biodac, bur line of biodegradable granular products, due to increased competition.

Gross Profit Margin

Gross profit margins for the first nine months of 2007 and 2006 are as follows:

	Nine Month	ns Ended
	September	September
	29,	30,
	2007	2006
Gross Profit Margin:		
Papermaking Systems	38%	37%
Other	32	29
	38%	37%

Gross profit margin was 38% and 37% in the first nine months of 2007 and 2006, respectively. The gross profit margin at the Papermaking Systems segment increased to 38% in the first nine months of 2007 from 37% in the first nine months of 2006. This increase was primarily due to higher margins in our aftermarket and capital products. The gross profit margin at our other businesses increased to 32% in the first nine months of 2007 from 29% in the first nine months of 2006 due to higher margins in our Casting Products business offset in part by lower gross profit margins in the Fiber-based Products business.

Operating Expenses

Selling, general, and administrative expenses as a percentage of revenues were 26% in both the first nine months of 2007 and 2006. Selling, general, and administrative expenses increased \$4.4 million, or 7%, to \$70.6 million in the first nine months of 2007 from \$66.2 million in the first nine months of 2006. This increase included a \$2.2 million increase from the unfavorable effect of foreign currency translation and a \$0.6 million increase in compensation expense associated with restricted stock units granted to employees in May 2007.

Unrecognized compensation expense related to unvested restricted share/unit awards totaled approximately \$4.9 million as of September 29, 2007, of which \$3.2 million will be recognized over 2.3 years, \$1.6 million will be recognized over 3.7 years, and \$0.1 million will be recognized in the fourth quarter of 2007.

Research and development expenses increased \$0.1 million to \$4.6 million in the first nine months of 2007 compared to \$4.5 million in the first nine months of 2006 and represented 2% of revenues in both periods.

Loss on Sale of Subsidiary

On April 30, 2007, our Kadant Johnson Holdings Inc. (formerly Specialty Castings Inc.) subsidiary sold its Casting Products business for \$0.4 million, resulting in a pre-tax loss of \$0.4 million on the sale.

Interest Income

Interest income increased to \$1.0 million in the first nine months of 2007 compared to \$0.7 million in the first nine months of 2006 due primarily to higher prevailing interest rates.

KADANT INC.

Results of Operations (continued)

Interest Expense

Interest expense decreased to \$2.4 million in the first nine months of 2007 compared to \$2.5 million in the first nine months of 2006.

Provision for Income Taxes

Our effective tax rate was 29% and 32% in the first nine months of 2007 and 2006, respectively. The 3% decrease in our effective tax rate in 2007 was primarily due to a 2% benefit from the reduction in our recurring rate for 2007 from 32.5% to 30% and a 1% non-recurring tax benefit resulting from the finalization of the 2006 domestic tax return and a reduction in tax reserves.

Income from Continuing Operations

Income from continuing operations increased to \$17.6 million in the first nine months of 2007 from \$14.2 million in the first nine months of 2006, an increase of \$3.4 million, or 24%. The increase in the 2007 period was primarily due to an increase in operating income of \$3.7 million (see *Revenues, Gross Profit Margin*, and *Operating Expenses* discussed above).

Loss from Discontinued Operation

Loss from discontinued operation increased to \$2.6 million in the first nine months of 2007 from \$0.9 million in the first nine months of 2006 due primarily to a \$2.9 million pre-tax increase in warranty costs.

Liquidity and Capital Resources

Consolidated working capital, including the discontinued operation, was \$93.8 million at September 29, 2007, compared with \$80.5 million at December 30, 2006. Included in working capital are cash and cash equivalents of \$40.4 million at September 29, 2007, compared with \$39.6 million at December 30, 2006. At September 29, 2007, \$38.9 million of cash and cash equivalents were held by our foreign subsidiaries.

First Nine Months of 2007

Our operating activities provided cash of \$6.0 million in the first nine months of 2007, including \$7.6 million provided by our continuing operations and \$1.6 million used by the discontinued operation. The cash provided by our continuing operations in the first nine months of 2007 was primarily due to income from continuing operations of \$17.6 million, a non-cash charge of \$5.5 million for depreciation and amortization expense, and an increase in other current liabilities of \$7.4 million. These sources of cash were offset in part by an increase in unbilled contract costs and fees of \$11.0 million, an increase in accounts receivable of \$8.2 million and an increase in inventories of \$3.6 million. The increases in unbilled contract costs and fees, accounts receivable and inventories were primarily due to the timing of large capital equipment contracts and the related payments. The \$1.6 million used in our discontinued operation was related primarily to the payment of \$2.9 million in warranty claims in the first nine months of 2007.

Our investing activities used cash of \$5.2 million in the first nine months of 2007, including \$5.9 million used by our continuing operations and \$0.7 million provided by our discontinued operation. We used cash in our continuing operations of \$3.0 million to purchase property, plant, and equipment. We also used cash in our continuing operations

as consideration in acquisitions, including \$2.2 million associated with the Kadant Jining acquisition and \$0.9 million associated with the Kadant Johnson acquisition. These uses of cash were offset in part by cash received of \$0.3 million associated with the sale of our Casting Products business. The discontinued operation received \$0.7 million in cash related to funds released from escrow as certain indemnification obligations were satisfied.

Our financing activities used cash of \$4.3 million in the first nine months of 2007 related entirely to our continuing operations. We used cash of \$6.6 million for principal payments on our debt obligations and \$5.2 million to repurchase our common stock on the open market. These uses of cash were offset in part by \$5.5 million of proceeds from the issuance of common stock in connection with the exercise of employee stock options and \$2.0 million of related tax benefits.

KADANT INC.

Liquidity and Capital Resources (continued)

First Nine Months of 2006

Our operating activities used cash of \$0.9 million in the first nine months of 2006, including \$3.8 million provided by continuing operations and \$4.7 million used by the discontinued operation. The cash provided by operating activities in the first nine months of 2006 was primarily due to an increase in accounts payable of \$18.2 million, income from continuing operations of \$14.2 million, and a non-cash charge of \$5.6 million for depreciation and amortization expense. Offsetting these sources of cash in the first nine months of 2006 was an increase in unbilled contract costs and fees of \$18.8 million, an increase in accounts receivable of \$5.8 million, and an increase in inventories of \$3.3 million. These increases were primarily associated with an increase in revenues in our stock-preparation equipment product line. An additional \$5.5 million of cash was used in the first nine months of 2006 due to a reduction of other current liabilities. The reduction of other current liabilities was due primarily to a decrease of \$7.0 million in billings in excess of contract costs and fees due to the timing of contracts recognized under the percentage-of-completion method and a decrease of \$4.7 million in accrued restructuring costs due to payments made in the first nine months of 2006, offset by an increase in other current liabilities of \$6.2 million. The \$4.7 million of cash used by the discontinued operation was primarily related to the payment of \$4.0 million for warranty claims.

Our investing activities used cash of \$10.1 million in the first nine months of 2006, including \$14.3 million used by continuing operations and \$4.2 million provided by the discontinued operation. We used cash of \$11.9 million in our continuing operations associated with the Kadant Jining acquisition. We also used \$2.6 million in our continuing operations to purchase property, plant, and equipment. The cash provided by the discontinued operation of \$4.2 million relates to the reduction of restricted cash of \$3.4 million held in escrow to satisfy warranty claims and the cash proceeds of \$0.8 million received in the first quarter of 2006 from the Buyer of the assets of Composites LLC for post-closing adjustments.

Our financing activities provided cash of \$5.9 million in the first nine months of 2006 related entirely to our continuing operations. We received \$10.0 million in proceeds from a commercial real estate loan entered into in May 2006 and \$5.1 million in loan proceeds in June 2006 associated with the Kadant Jining acquisition. In addition, we received \$7.4 million of proceeds from the issuance of common stock in connection with the exercise of employee stock options. We used cash of \$14.6 million in the first nine months of 2006 for principal payments on our term loan and \$3.1 million to repurchase our common stock on the open market. We also paid \$0.6 million to the sellers of Kadant Johnson associated with the first installment due for additional consideration related to anticipated tax benefits.

Additional Liquidity and Capital Resources

We completed our acquisition of Kadant Johnson on May 11, 2005 for approximately \$114.0 million, of which \$101.5 million was paid in cash at closing, \$1.6 million was paid in the fourth quarter of 2006 in settlement of post-closing adjustments, \$4.8 million was paid for acquisition-related costs, and \$6.1 million we expect to pay in annual installments through 2010 related to certain tax assets of Kadant Johnson, the value of which we expect to realize. In both 2006 and 2007, we paid \$0.9 million of this additional consideration. The remaining balance, of which \$0.9 million is included in other current liabilities and \$3.4 million is included in other long-term liabilities in the accompanying condensed consolidated balance sheet, is due over the next three years as follows: \$0.9 million in each of 2008 and 2009 and \$2.5 million in 2010. To fund \$60 million of the purchase price, we entered into a term loan and revolving credit facility (Credit Agreement) effective as of May 9, 2005, as subsequently amended, in the aggregate principal amount of up to \$95 million, including a \$35 million revolver. The Credit Agreement includes a \$60 million

term loan (Term Loan), which is repayable in quarterly installments over a five-year period. The remaining principal amount outstanding at September 29, 2007 is \$32.8 million and is to be repaid each year as follows: \$2.5 million, \$11.4 million, \$12.6 million and \$6.3 million in 2007, 2008, 2009, and 2010, respectively.

The amount we are able to borrow under the revolving line of credit is the total borrowing capacity less any outstanding letters of credit and multi-currency borrowings issued under the Credit Agreement. As of September 29, 2007, there were no outstanding borrowings under the revolving line of credit and we had \$15.1 million of borrowing capacity.

Our obligations under the Credit Agreement may be accelerated upon the occurrence of an event of default under the Credit Agreement, which include customary events of default including, without limitation, payment defaults, defaults in the performance of affirmative and negative covenants, the inaccuracy of representations or warranties, bankruptcy-and insolvency-related defaults, defaults relating to such matters as ERISA, uninsured judgments and the failure to pay certain indebtedness, and a change-of-control default.

KADANT INC.

Liquidity and Capital Resources (continued)

In addition, the Credit Agreement contains negative covenants applicable to us and our subsidiaries, including financial covenants requiring us to comply with a maximum consolidated leverage ratio of 3.0, which is lowered to 2.5 in certain circumstances, including when we make a material acquisition, pay dividends, or repurchase our stock. We are also required to comply with a minimum consolidated fixed charge coverage ratio of 1.5. In addition to the financial covenants, we are also required to comply with covenants related to restrictions on liens, indebtedness, fundamental changes, dispositions of property, making certain restricted payments (including dividends and stock repurchases), investments, transactions with affiliates, sale and leaseback transactions, swap agreements, changing our fiscal year, negative pledges, arrangements affecting subsidiary distributions, and entering into new lines of business. As of September 29, 2007, we were in compliance with these covenants. On May 9, 2007, we entered into a fourth amendment to our Credit Agreement to eliminate one of the restrictions on the payment of dividends and repurchases of our common stock, which was limited to \$15 million plus 50% of net income earned after May 9, 2005.

The loans under the Credit Agreement are guaranteed by certain of our domestic subsidiaries and secured by a pledge of 65% of the stock of our first-tier foreign subsidiaries and our subsidiary guarantors pursuant to a guarantee and pledge agreement effective May 9, 2005 in favor of JPMorgan Chase Bank, N.A., as agent on behalf of the lenders.

We entered into swap agreements in 2005 and 2006 to convert a portion of our outstanding debt from floating to fixed rates of interest. As of September 29, 2007, \$32.9 million, or 69%, of our outstanding debt was hedged through interest rate swap agreements. The swap agreements have the same terms and quarterly payment dates as the corresponding debt and reduce proportionately in line with the amortization of the debt.

On July 30, 2007, our Kadant Jining subsidiary entered into a short-term credit facility with JPMorgan Chase Bank, N.A., Shanghai Branch, that would allow it to borrow up to an aggregate principal amount of 45 million Chinese renminbi, or approximately \$6.0 million as of September 29, 2007, and our Kadant Yanzhou subsidiary entered into a short-term credit facility with JPMorgan Chase Bank, N.A., Shanghai Branch, that would allow it to borrow up to an aggregate principal amount of 15 million Chinese renminbi, or approximately \$2.0 million as of September 29, 2007. Both credit facilities have a term of 364 days. Borrowings made under the facilities will bear interest at 90% of the applicable short-term interest rate for a Chinese renminbi loan of comparable term as published by The People's Bank of China. The facilities will be used for general working capital purposes and may include the cash collateralization of certain bank payment guarantees provided by Bank of China Limited in connection with the acquisition of the assets of Jining Huayi Light Industry Machinery Co., Ltd. (Huayi) in 2006. We have provided a guaranty, dated July 30, 2007, securing the payment of all obligations made under these credit facilities and providing a cross-default to our existing Credit Agreement. As of September 29, 2007, there were no outstanding borrowings under these credit facilities.

On June 2, 2006, our Kadant Jining subsidiary assumed responsibility for the operation of Huayi, and, by September 30, 2006, acquired the assets of Huayi including cash, inventory, machinery, equipment, and buildings for approximately \$21.2 million, net of assumed liabilities of \$2.3 million. Of the total consideration, \$17.3 million was paid in cash, including \$1.0 million for acquisition-related costs. To finance a portion of the acquisition, on June 6, 2006, Kadant Jining borrowed 40 million Chinese renminbi, or \$5.1 million, under a 47-month interest-only loan with Bank of China Limited. Interest on this loan accrues and is payable quarterly in arrears based on the interest rate published by Bank of China Limited for a loan of the same term less 10%. Of the remaining purchase obligation totaling \$3.8 million, \$2.4 million has been paid to date and the remaining \$1.4 million will be paid on certain dates through January 2008 if certain obligations are satisfied, through a combination of cash and borrowings in China.

On May 3, 2006, our board of directors authorized the repurchase of up to \$15.0 million of our equity securities during the period from May 18, 2006 through May 18, 2007. We purchased 508,500 shares for \$12.4 million under this authorization. On May 2, 2007, our board of directors approved the repurchase by us of up to \$20 million of our equity securities during the period from May 2, 2007 through May 2, 2008. Repurchases under the May 2007 authorization may be made in public or private transactions, including under Securities Exchange Act Rule 10b-5-1 trading plans. As of September 29, 2007, no purchases had been made under the May 2007 authorization.

It is our practice to reinvest indefinitely the earnings of our international subsidiaries, except in instances in which we can remit such earnings without a significant associated tax cost. Through September 29, 2007, we have not provided for U.S. income

KADANT INC.

Liquidity and Capital Resources (continued)

taxes on approximately \$72.7 million of unremitted foreign earnings. We believe that any U.S. tax liability due upon remittance of such earnings would be immaterial due to the availability of U.S. foreign tax credits generated from such remittance. The related foreign tax withholding, which would be required if we remitted the foreign earnings to the U.S., would be approximately \$2.8 million.

On October 21, 2005, Composites LLC sold its composites business, presented as a discontinued operation in the accompanying condensed consolidated financial statements. Under the terms of the asset purchase agreement, Composites LLC retained certain liabilities associated with the operation of the business prior to the sale, including warranty obligations related to products manufactured prior to the sale date. Composites LLC retained the cash proceeds received from the asset sale and continued to administer and pay warranty claims from the sale proceeds into the third quarter of 2007. At September 29, 2007, the accrued warranty costs for Composites LLC were \$2.1 million. On September 30, 2007, Composites LLC announced that it had used all of the cash proceeds from the asset sale, was unable to pay or process warranty claims, and ceased doing business.

Although we currently have no material commitments for capital expenditures, we plan to make expenditures of approximately \$3.0 million during the remainder of 2007 for property, plant, and equipment.

In the future, our liquidity position will be primarily affected by the level of cash flows from operations, cash paid to satisfy the remaining purchase obligation for the Kadant Jining and Kadant Johnson acquisitions, debt repayments, capital projects, stock repurchases, or additional acquisitions, if any. We believe that our existing resources, together with the cash available from our Credit Agreement, cash proceeds from additional borrowings we anticipate entering into in China to complete the Kadant Jining acquisition, and the cash we expect to generate from continuing operations, will be sufficient to meet the capital requirements of our current operations for the foreseeable future.

Item 3 – Quantitative and Qualitative Disclosures About Market Risk

Our exposure to market risk from changes in interest rates and foreign currency exchange rates has not changed materially from our exposure at year-end 2006 as disclosed in Item 7A of our Annual Report on Form 10-K for the fiscal year ended December 30, 2006 filed with the SEC.

<u>Item 4 – Controls and Procedures</u>

(a) Evaluation of Disclosure Controls and Procedures

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of September 29, 2007. The term "disclosure controls and procedures," as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies

its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based upon the evaluation of our disclosure controls and procedures as of September 29, 2007, our Chief Executive Officer and Chief Financial Officer concluded that as of September 29, 2007, our disclosure controls and procedures were effective at the reasonable assurance level.

(b) Changes in Internal Control Over Financial Reporting

There have not been any changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) during the fiscal quarter ended September 29, 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

KADANT INC.

PART II - OTHER INFORMATION

Item 1A – Risk Factors

In connection with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, we wish to caution readers that the following important factors, among others, in some cases have affected, and in the future could affect, our actual results and could cause our actual results in 2007 and beyond to differ materially from those expressed in any forward-looking statements made by us, or on our behalf.

Our business is dependent on the condition of the pulp and paper industry.

We sell products primarily to the pulp and paper industry, which is a cyclical industry. Generally, the financial condition of the global pulp and paper industry corresponds to the condition of the general economy, as well as to a number of other factors, including pulp and paper production capacity relative to demand. In recent years, the paper industry in certain geographic regions, notably Europe and North America, has undergone a number of structural changes, including decreased spending, mill closures, consolidations, and bankruptcies, all of which have adversely affected our business. In addition, paper producers have been and continue to be negatively affected by higher operating costs, especially higher energy and chemical costs. We believe paper companies remain cautious about increasing their capital and operating spending in the current market environment. As paper companies consolidate in response to market weakness, they frequently reduce capacity and postpone or even cancel capacity addition or expansion projects. These actions can adversely affect our revenue and profitability globally or in a particular region or product line.

A significant portion of our international sales has, and may in the future, come from China and we operate several manufacturing facilities in China, which expose us to political, economic, operational and other risks. We have significant revenues from China and operate significant facilities in China, and expect to manufacture and source more of our equipment and components from China in the future. During the first nine months of 2007 and 2006, approximately \$61.0 million and \$60.1 million, respectively, or 23% of our revenues were from customers in China, Our manufacturing facilities in China, as well as the significant level of revenues from China, expose us to increased risk in the event of changes in the policies of the Chinese government, political unrest, unstable economic conditions, or other developments in China or in U.S.-China relations that are adverse to trade, including enactment of protectionist legislation or trade or currency restrictions. In addition, orders from customers in China, particularly for large stock-preparation systems that have been tailored to a customer's specific requirements, have credit risks higher than we generally incur elsewhere, and some orders are subject to the receipt of financing approvals from the Chinese government. For this reason, we do not record signed contracts from customers in China for large stock-preparation systems as orders until we receive the down payments for such contracts. The timing of the receipt of these orders and the down payments are uncertain and there is no assurance that we will be able to recognize revenue on these contracts. We may experience a loss if the contract is cancelled prior to the receipt of a down payment in the event we commence engineering or other work associated with the contract. In addition, we may experience a loss if the contract is cancelled prior to the receipt of a letter of credit covering the remaining balance of the contract.

Our business is subject to economic, currency, political, and other risks associated with international sales and operations.

During the first nine months of 2007 and 2006, approximately 61% and 63%, respectively, of our sales were to customers outside the United States, principally in China and Europe. In addition, we operate several manufacturing operations worldwide, including in China, Mexico, and Brazil. International revenues and operations are subject to a number of risks, including the following:

-agreements may be difficult to enforce and receivables difficult to collect through a foreign country's legal system,

foreign customers may have longer payment cycles,

foreign countries may impose additional withholding taxes or otherwise tax our foreign income, impose tariffs, adopt other restrictions on foreign trade, impose currency restrictions or enact other protectionist or anti-trade measures,

it may be difficult to repatriate funds, due to unfavorable tax consequences or other restrictions or limitations imposed by foreign governments, and

- the protection of intellectual property in foreign countries may be more difficult to enforce.

Although we seek to charge our customers in the same currency in which our operating costs are incurred, fluctuations in currency exchange rates may affect product demand and adversely affect the profitability in U.S. dollars of products we provide in international markets where payment for our products and services is made in their local currencies. In addition, our inability to repatriate funds could adversely affect our ability to service our debt obligations. Any of these factors could have a material adverse impact on our business and results of operations.

We are subject to intense competition in all our markets.

We believe that the principal competitive factors affecting the markets for our products include quality, price, service, technical expertise, and product innovation. Our competitors include a number of large multinational corporations that may have substantially greater financial, marketing, and other resources than we do. As a result, they may be able to adapt more quickly to new or emerging technologies and changes in customer requirements, or to devote greater resources to the promotion and sale of their services and products. Competitors' technologies may prove to be superior to ours. Our current products, those under development, and our ability to develop new technologies may not be sufficient to enable us to compete effectively. Competition, especially in China, has increased as new companies enter the market and existing competitors expand their product lines and manufacturing operations.

Our debt may adversely affect our cash flow and may restrict our investment opportunities.

In 2005, we entered into a Credit Agreement, as subsequently amended, consisting of a \$60 million five-year term loan and a \$35 million revolver, and borrowed \$60 million to fund the acquisition of Kadant Johnson under the term loan. We have also borrowed additional amounts to fund other acquisitions and grow our business, and may also obtain additional long-term debt and working capital lines of credit to meet future financing needs, which would have the effect of increasing our total leverage.

Our leverage could have negative consequences, including:

- increasing our vulnerability to adverse economic and industry conditions,
- limiting our ability to obtain additional financing,
- limiting our ability to pay dividends on or to repurchase our capital stock,
- limiting our ability to acquire new products and technologies through acquisitions or licensing agreements, and limiting our flexibility in planning for, or reacting to, changes in our business and the industries in which we compete.

Our existing indebtedness bears interest at floating rates and as a result, our interest payment obligations on our indebtedness will increase if interest rates increase. To reduce the exposure to floating rates, \$32.9 million, or 69%, of our outstanding floating rate debt as of September 29, 2007 was hedged through interest rate swap agreements. Our ability to satisfy our obligations and to reduce our total debt depends on our future operating performance and on economic, financial, competitive, and other factors beyond our control. Our business may not generate sufficient cash flows to meet these obligations or to successfully execute our business strategy. If we are unable to service our debt and fund our business, we may be forced to reduce or delay capital expenditures or research and development expenditures, seek additional financing or equity capital, restructure or refinance our debt, or sell assets. We may not be able to obtain additional financing or refinance existing debt or sell assets on terms acceptable to us or at all.

Restrictions in our Credit Agreement may limit our activities.

Our Credit Agreement contains, and future debt instruments to which we may become subject may contain, restrictive covenants that limit our ability to engage in activities that could otherwise benefit us, including restrictions on our ability and the ability of our subsidiaries to:

- incur additional indebtedness,
 - pay dividends on, redeem, or repurchase our capital stock,
- make investments,
- create liens,
- sell assets.
- enter into transactions with affiliates, and
- consolidate, merge, or transfer all or substantially all of our assets and the assets of our subsidiaries.

We are also required to meet specified financial ratios under the terms of our Credit Agreement. Our ability to comply with these financial restrictions and covenants is dependent on our future performance, which is subject to prevailing

economic conditions and other factors, including factors that are beyond our control such as foreign exchange rates, interest rates, changes in technology, and changes in the level of competition.

Our failure to comply with any of these restrictions or covenants may result in an event of default under our Credit Agreement and other loan obligations, which could permit acceleration of the debt under those instruments and require us to repay the debt before its scheduled due date.

If an event of default occurs, we may not have sufficient funds available to make the required payments under our indebtedness. If we are unable to repay amounts owed under our debt agreements, those lenders may be entitled to foreclose on and sell the collateral that secures our borrowings under the agreements.

KADANT INC.

The inability of Kadant Composites LLC to pay claims against it may expose us to litigation, which if we were unable to successfully defend, could have a material adverse effect on our consolidated financial results.

On October 21, 2005, our Kadant Composites LLC subsidiary (Composites LLC) sold substantially all of its assets to LDI Composites Co. (Buyer) for approximately \$11.9 million in cash and the assumption of \$0.7 million of liabilities, resulting in a cumulative loss on sale of \$0.1 million. Under the terms of the asset purchase agreement, Composites LLC retained certain liabilities associated with the operation of the business prior to the sale, including warranty obligations related to products manufactured prior to the sale date (Retained Liabilities), and, jointly and severally with its parent company Kadant Inc., agreed to indemnify the Buyer against losses caused to the Buyer arising from claims associated with the Retained Liabilities. The indemnification obligation is contractually limited to approximately \$8.9 million. All activity related to this business is classified in the results of the discontinued operation in the accompanying condensed financial statements.

Composites LLC retained the cash proceeds received from the asset sale and continued to administer and pay warranty claims from the sale proceeds into the third quarter of 2007. On September 30, 2007, Composites LLC announced that it had used all of the cash proceeds from the asset sale, was unable to pay or process warranty claims, and ceased doing business. There can be no assurance that creditors or claimants against Composites LLC will not seek other parties against whom to assert claims. While we believe any such claims asserted against other Kadant companies or the Buyer would be without merit, in the event we were to experience such claims, the cost of litigation and the outcome, if we were unable to successfully defend such claims, could adversely affect our consolidated financial results.

An increase in the accrual for warranty costs of the discontinued operation adversely affects our consolidated financial results.

The discontinued operation has experienced significant liabilities associated with warranty claims related to its composite decking products manufactured prior to the sale date. The accrued warranty costs of the discontinued operation are estimated based on the level of claims processed (see *Discontinued Operation* in the Overview section for a detailed description of the methodology used). The accrued warranty costs of the discontinued operation as of September 29, 2007 represents the low end of the estimated range of warranty costs required based on the level of claims received through the end of the third quarter of 2007. The total potential warranty cost ranges from \$2.1 million to approximately \$13.1 million. The high end of the range represents the estimated maximum level of warranty claims remaining based on the total sales of the products under warranty. Composites LLC will continue to record adjustments to accrued warranty costs to reflect the minimum amount of the potential range of loss for products under warranty based on additional claims received, which will adversely affect our consolidated results.

On September 30, 2007, the discontinued operation ceased doing business and has no employees or other service providers to collect or process warranty claims.

Our inability to successfully identify and complete acquisitions or successfully integrate any new or previous acquisitions could have a material adverse effect on our business.

Our strategy includes the acquisition of technologies and businesses that complement or augment our existing products and services. Our most recent acquisition was the Kadant Jining acquisition in June 2006. Any such acquisition involves numerous risks that may adversely affect our future financial performance and cash flows. These risks include:

eompetition with other prospective buyers resulting in our inability to complete an acquisition or in us paying substantial premiums over the fair value of the net assets of the acquired business,

- inability to obtain regulatory approval, including antitrust approvals,
- difficulty in assimilating operations, technologies, products and the key employees of the acquired business,
 inability to maintain existing customers or to sell the products and services of the acquired business to our existing customers,

_	diversion of management's attention away from other business concerns,
i nabi	lity to improve the revenues and profitability or realize the cost savings and synergies expected in the acquisition,
_	assumption of significant liabilities, some of which may be unknown at the time,
_	potential future impairment of the value of goodwill and intangible assets acquired, and
_	identification of internal control deficiencies of the acquired business.
35	

We may be required to reorganize our operations in response to changing conditions in the paper industry, and such actions may require significant expenditures and may not be successful.

In the past few years, we have undertaken various restructuring measures in response to changing market conditions in the paper industry. For example, in 2004 we incurred costs of approximately \$9.2 million in connection with the restructuring of our subsidiary in France and in 2006 implemented a restructuring plan in our Papermaking Systems segment. We may engage in additional cost reduction programs in the future. We may not recoup the costs of programs we have already initiated, or other programs in which we may decide to engage in the future, the costs of which may be significant. In connection with any future plant closures, delays or failures in the transition of production from existing facilities to our other facilities in other geographic regions could also adversely affect our financial operations. In addition, our profitability may decline if our restructuring efforts do not sufficiently reduce our future costs and position us to maintain or increase our sales.

Our fiber-based products business is subject to a number of factors that may adversely influence its profitability, including high costs of natural gas and dependence on a few suppliers of raw materials.

We use natural gas in the production of our fiber-based granular products, the price of which is subject to fluctuation. We seek to manage our exposure to natural gas price fluctuations by entering into short-term forward contracts to purchase specified quantities of natural gas from a supplier. We may not be able to effectively manage our exposure to natural gas price fluctuations. Although the cost of natural gas has fallen recently, we may not realize the benefit of lower prices due to the short-term forward contracts we have entered into. Higher costs of natural gas will adversely affect our consolidated results if we are unable to effectively manage our exposure or pass these costs on to customers in the form of surcharges.

We are dependent on two paper mills for the fiber used in the manufacture of our fiber-based granular products. These mills have the exclusive right to supply the papermaking byproducts used in the manufacturing process. Due to process changes at the mills, we have experienced some difficulty obtaining sufficient raw material to operate at optimal production levels. We continue to work with the mills to ensure a stable supply of raw material. To date, we have been able to meet all of our customer delivery requirements, but there can be no assurance that we will be able to meet future delivery requirements. Although we believe our relationship with the mills is good, the mills could decide not to renew the contract when it expires at the end of 2007, or may not agree to renew on commercially reasonable terms. If the mills were unable or unwilling to supply us sufficient fiber, we would be forced to find an alternative supply for this raw material. We may be unable to find an alternative supply on commercially reasonable terms or could incur excessive transportation costs if an alternative supplier were found, which would increase our manufacturing costs, and might prevent prices for our products from being competitive or require closure of the business.

Our inability to protect our intellectual property could have a material adverse effect on our business. In addition, third parties may claim that we infringe their intellectual property, and we could suffer significant litigation or licensing expense as a result.

We seek patent and trade secret protection for significant new technologies, products, and processes because of the length of time and expense associated with bringing new products through the development process and into the marketplace. We own numerous U.S. and foreign patents, and we intend to file additional applications, as appropriate, for patents covering our products. Patents may not be issued for any pending or future patent applications owned by or licensed to us, and the claims allowed under any issued patents may not be sufficiently broad to protect our technology. Any issued patents owned by or licensed to us may be challenged, invalidated, or circumvented, and the rights under these patents may not provide us with competitive advantages. In addition, competitors may design around our technology or develop competing technologies. Intellectual property rights may also be unavailable or limited in some foreign countries, which could make it easier for competitors to capture increased market share. We could incur substantial costs to defend ourselves in suits brought against us, including for alleged infringement of third

party rights, or in suits in which we may assert our intellectual property rights against others. An unfavorable outcome of any such litigation could have a material adverse effect on our business and results of operations. In addition, as our patents expire, we rely on trade secrets and proprietary know-how to protect our products. We cannot be sure the steps we have taken or will take in the future will be adequate to deter misappropriation of our proprietary information and intellectual property. Of particular concern are developing economies such as China, where the laws, courts, and administrative agencies may not protect our intellectual property rights as fully as in other countries. We seek to protect trade secrets and proprietary know-how, in part, through confidentiality agreements with our collaborators, employees, and consultants. These agreements may be breached, we may not have adequate remedies for any breach, and our trade secrets may otherwise become known or be independently developed by our competitors or our competitors may otherwise gain access to our intellectual property.

Fluctuations in our quarterly operating results may cause our stock price to decline.

Given the nature of the markets in which we participate and the effect of Staff Accounting Bulletin (SAB) No. 104, "Revenue Recognition," we may not be able to reliably predict future revenues and profitability, and unexpected changes may cause us to adjust our operations. A large proportion of our costs are fixed, due in part to our significant selling, research and development, and manufacturing costs. Thus, small declines in revenues could disproportionately affect our operating results. Other factors that could affect our quarterly operating results include:

failure of our products to pass contractually agreed upon acceptance tests, which would delay or prohibit recognition of revenues under SAB No. 104,

ehanges in the assumptions used for revenue recognized under the percentage-of-completion method of accounting,

failure of a customer, particularly in China, to comply with an order's contractual obligations,

adverse changes in demand for and market acceptance of our products,
 competitive pressures resulting in lower sales prices of our products,

adverse changes in the pulp and paper industry,

delays or problems in our introduction of new products, delays or problems in the manufacture of our products,

our competitors' announcements of new products, services, or technological innovations,

contractual liabilities incurred by us related to guarantees of our product performance,

increased costs of raw materials or supplies, including the cost of energy,

changes in the timing of product orders, and

fluctuations in our effective tax rate.

Anti-takeover provisions in our charter documents, under Delaware law, and in our shareholder rights plan could prevent or

delay transactions that our shareholders may favor.

Provisions of our charter and bylaws may discourage, delay, or prevent a merger or acquisition that our shareholders may consider favorable, including transactions in which shareholders might otherwise receive a premium for their shares. For example, these provisions:

- authorize the issuance of "blank check" preferred stock without any need for action by shareholders,
- provide for a classified board of directors with staggered three-year terms,
- require supermajority shareholder voting to effect various amendments to our charter and bylaws,
 - eliminate the ability of our shareholders to call special meetings of shareholders,
 - prohibit shareholder action by written consent, and

establish advance notice requirements for nominations for election to our board of directors or for proposing matters that can be acted on by shareholders at shareholder meetings.

In addition, our board of directors has adopted a shareholder rights plan intended to protect shareholders in the event of an unfair or coercive offer to acquire our company and to provide our board of directors with adequate time to evaluate unsolicited offers. Preferred stock purchase rights have been distributed to our common shareholders pursuant to the rights plan. This rights plan may have anti-takeover effects. The rights plan will cause substantial dilution to a person or group that attempts to acquire us on terms that our board of directors does not believe are in our best interests and those of our shareholders and may discourage, delay, or prevent a merger or acquisition that shareholders may consider favorable, including transactions in which shareholders might otherwise receive a premium for their shares.

<u>Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds</u>

The following table provides information about purchases by us of our common stock during the third quarter of 2007:

Issuer Purchases of Equity Securities

issuel i dichases o	1 Equity Securiti	C B		
			Total	Approximate
			Number of	Dollar Value
			Shares	of Shares
			Purchased	that May
	Total	Average	as Part of	Yet Be

8/1/07 - 8/31/07	_	_	_	\$ 20,000,000
9/1/07 – 9/29/07	_	_	_	\$ 20,000,000
Total:	_	_	_	

(1) On May 2, 2007, our board of directors approved the repurchase by us of up to \$20 million of our equity securities during the period from May 2, 2007 through May 2, 2008. Repurchases may be made in public or private transactions, including under Securities Exchange Act Rule 10b-5-1 trading plans. As of September 29, 2007, no purchases had been made under this authorization.
