COLONIAL INVESTMENT GRADE MUNICIPAL TRUST SEMIANNUAL REPORT

MAY 31, 2002

PRESIDENT'S MESSAGE

DEAR SHAREHOLDER:

The environment for the municipal bond market has been shaped by economic events and investor uncertainties over the past six months. Although the Federal Reserve halted its string of interest rate cuts in December 2001, its presence on the sidelines was felt by the market as investors tried to guess the timing of its next move. A robust first quarter suggested that the Fed could act early in 2002 to begin to raise short-term interest rates; however, they remained at a 40-year low throughout the period. Indications of more moderate economic growth in the second quarter raised the possibility that the Fed may delay action until later in the year.

The municipal bond market was one of the strongest bond market sectors for the six-month period. As cities and states face leaner times and tighter budgets, the volume of new municipal bonds increased somewhat. However, demand also increased as investors favored bonds over stocks, and that has helped support municipal bond returns.

The following report will provide you with more detailed information about the trust's performance and the strategies used by portfolio manager Maureen G. Newman. For more information, contact your financial advisor. As always, we thank you for investing in Colonial Investment Grade Municipal Trust and for giving us the opportunity to help you build a strong financial future.

/s/ Keith T. Banks

Economic and market conditions can frequently change. There is not assurance that the trends described herein will continue or commence.

## PORTFOLIO MANAGER'S REPORT

For the six-month period ended May 31, 2002, Colonial Investment Grade Municipal Trust generated a 2.88% total return, based on net asset value. The trust outperformed the average 2.62% return of its peer group, the Lipper General Municipal Debt Funds (Leveraged). The trust benefited from its relatively large allocation to intermediate-term bonds, which generally outperformed long-maturity bonds. Also, the trust's leverage, investing the

proceeds from the sale of preferred shares in long-term bonds and paying out a short rate, boosted its income stream. As a result, the income available for distribution to common shareholders was enhanced.

The trust's relatively long duration at the beginning of the period detracted from performance. However, we shortened duration as economic growth improved. Duration measures sensitivity to interest rate changes (see sidebar). The trust's investment in Ogden Haverhill Project, (0.6% of net assets) a resource recovery project in Haverhill, Massachusetts, also had a negative effect on performance. These bonds lost value when its parent company filed for bankruptcy, even though the operations and finances of Ogden Haverhill Project have not been affected by the bankruptcy.

Effective July 31, 2002, the trust's investment strategies were changed to indicate that the trust will, under normal conditions, invest at least 80% of its net assets (plus any borrowings for investment purposes) in investment grade Municipal Obligations (bonds rated Baa or higher by Moody's Investors Service, Inc. or BBB or higher by Standard & Poor's Ratings Services, or comparably rated by another national bond rating service or unrated but considered to be of comparable quality by the trust's advisor). "Municipal Obligations" are debt obligations, the interest on which was at the time of issuance, in the opinion of bond counsel to the issuer, exempt from federal income tax (other than the possible incidence of any alternative minimum tax). Prior to July 31, 2002, the trust was required to invest primarily (at least 65% of its assets) in investment grade Municipal Obligations.

We have structured the portfolio to take advantage of a moderately improving economic environment, one in which interest rates will stabilize or rise. In the months ahead, we expect most of the trust's total return to come from income. Therefore, we added small positions in several cyclical issuers, including Cessna Citation Service Center (0.3% of net assets) (1), the aircraft division of Textron Manufacturing Company which have the potential to boost the trust's income. In keeping with our income-producing strategy, we plan to invest a small portion of the trust's assets in lower quality bonds.

/s/ Maureen G. Newman

### MAUREEN G. NEWMAN

Maureen G. Newman is the portfolio manager of Colonial Investment Grade Municipal Trust and a senior vice president of Colonial Management Associates, Inc., an affiliate of Columbia Management Group. Ms. Newman received her BA in economics from Boston College and her MBA from Babson College. She is a Chartered Financial Analyst, a member of the Boston Security Analysts Society and former chairman of the National Federation of Municipal Analysts.

(1) Holdings are disclosed as of May 31, 2002 and are subject to change.

Past performance is no guarantee of future investment results. The principal value and investment returns will fluctuate, resulting in a gain or loss on sale.

Tax-exempt investing offers current tax-exempt income, but it also involves certain risks. The value of the trust shares will be affected by interest rate changes and the creditworthiness of issues held in the trusts. Interest income from certain tax-exempt bonds may be subject to the federal alternative minimum tax for individuals and corporations.

PRICE PER SHARE AS OF 5/31/02 (\$)

Net asset value	11.02
Market price	10.44
6-MONTH TOTAL RETURNS (%) Net asset value	2.88
Market price	(0.83)
DISTRIBUTIONS DECLARED PER COMMON SHARE (\$) 12/1/01-5/31/02	0.34

A portion of the trust's income may be subject to the alternative minimum tax. The trust may at times purchase tax-exempt securities at a discount from their original issue price. Some or all of this discount may be included in the trust's ordinary income, and any market discount is taxable when distributed.

TOP 10 INDUSTRY SECTORS AS OF 5/31/02 (%)

Local general obligations	17.8

Education	8.1
State general obligations	6.4
Refunded/escrowed	4.8
Investor owned	5.1
Toll facilities	4.8
Special non-property tax	4.7
Water & sewer	4.1

Sector breakdowns are calculated as a percentage of net assets representing both common shares and auction preferred shares.

QUALITY BREAKDOWN AS OF 5/31/02 (%)

AAA	62.0
AA	15.5
Α	6.7

BBB	7.0
ВВ	0.8
В	0.2
Non-rated	7.5
Cash equivalents	0.3

Quality breakdowns are calculated as a percentage of total investments, including short-term obligations. Ratings shown in the quality breakdown represent the highest rating assigned to a a particular bond by one of the following nationally recognized rating agencies: Standard & Poor's Corporation, Moody's Investors Service, Inc. or Fitch Investors Service, Inc. Because the trust is actively managed, there can be no guarantee that the trust will continue to maintain this quality breakdown or invest in these sectors in the future.

### ABOUT DURATION

Duration is a measure, expressed in years, of interest-rate sensitivity. It's similar to maturity, but because it takes into consideration the entire stream of future principal and interest payments and how long it will take to collect them, it is a more complex and also a more accurate measure of a trust's exposure to changing interest rates.

Because we are active duration managers, we tend to use duration as a tactical tool to anticipate or respond to interest rate changes. Because bond prices move in the opposite direction that interest rates are moving, usually we lower duration when we expect interest rates to rise or raise it when we expect interest rates to fall. This adjustment provides the potential to benefit performance. If we are wrong and interest rates rise after we lengthen duration or fall after we shorten duration, trust performance could be hurt.

1

### NOTES TO INVESTMENT PORTFOLIO:

- (a) Zero coupon bond.
- (b) Settlement of this security is on a delayed delivery basis.
- (c) This issuer is in default of certain debt covenants. Income is not being fully accrued.
- (d) Accrued interest accumulates in the value of the security and is payable at redemption.
- (e) These securities are exempt from registration under Rule 144A of the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At May 31, 2002, the value of these securities amounted to \$1,679,498, which represented 0.9% of net assets.
- (f) The Trust has been informed that each issuer has placed direct obligations of the U.S. Government in an irrevocable trust, solely for the payment of principal and interest.
- (g) This security, or a portion thereof with a market value of \$379,893, is being used to collateralize open futures contracts.
- (h) Denotes a restricted security, which is subject to restrictions on resale under federal securities laws. At May 31, 2002, this security amounted to \$531,875, which represents 0.3% of net assets.

Additional information on this restricted security is as follows:

	ACQUISITION	ACQ.	UISITION
SECURITY	DATE		COST
Charter Mac Equity Issue Trust,			
7.600%, 11/30/50	07/06/00	\$	500,000

- (i) Variable rate demand notes are considered short-term obligations. Interest rates change periodically on specified dates. These securities are payable on demand and are secured by either letters of credit or other credit support agreements from banks. The rates listed are as of May 31, 2002.
- (j) Cost for generally accepted accounting principles is \$178,027,914. Cost for federal income tax purposes is \$177,823,697. The difference between cost for generally accepted accounting principles and cost on a tax basis is related to amortization/accretion tax elections on fixed income securities.

Short futures contracts open at May 31, 2002:

NOTES TO FINANCIAL STATEMENTS

May 31, 2002 (Unaudited)

NOTE 1. ACCOUNTING POLICIES

#### ORGANIZATION:

Colonial Investment Grade Municipal Trust (the "Trust"), is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a diversified, closed-end, management investment company. The Trust's investment goal is to seek as high a level of after-tax total return as is consistent with prudent risk, by pursuing current income generally exempt from ordinary federal income tax and opportunities for long-term appreciation from a portfolio primarily invested in investment grade municipal bonds. The Trust is authorized to issue an unlimited number of common shares of beneficial interest and 2,400 Auction Preferred Shares ("APS").

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements.

### SECURITY VALUATION AND TRANSACTIONS:

Debt securities generally are valued by a pricing service based upon market transactions for normal, institutional-size trading units of similar securities. When management deems it appropriate, an over-the-counter or exchange bid quotation is used.

Options are valued at the last reported sale price, or in the absence of a sale, the mean between last quoted bid and asking price.

Futures contracts are valued based on the difference between the last sale price and the opening price of the contract.

Short-term obligations with a maturity of 60 days or less are valued at amortized cost.

Investments for which market quotations are not readily available are valued at fair value under procedures approved by the Board of Trustees.

Security transactions are accounted for on the date the securities are purchased, sold or mature.

Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

The Trust may trade securities on other than normal settlement terms. This may increase the risk if the other party to the transaction fails to deliver and causes the Trust to subsequently invest at less advantageous prices.

## FEDERAL INCOME TAXES:

Consistent with the Trust's policy to qualify as a regulated investment company and to distribute all of its taxable and tax-exempt income, no federal income tax has been accrued.

At November 30, 2001, capital loss carryforwards available (to the extent provided in regulations) to offset future realized gains were as follows:

YEAR OF EXPIRATION	CAPITAL LOSS CARRYFORWARD
2003	\$ 172 <b>,</b> 808
2004	1,454,485
2008	3,464,384
	\$ 5,091,677
	========

Expired capital loss carryforwards, if any, are recorded as a reduction of paid-in capital.

INTEREST INCOME, DEBT DISCOUNT AND PREMIUM:

Interest income is recorded on the accrual basis. Original issue discount is accreted to interest income over the life of the security with a corresponding increase in the cost basis. Premium is amortized against interest income with a corresponding decrease in the cost basis.

Effective December 1, 2001, the Trust adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting discount on all debt securities. The cumulative effect of this accounting change did not impact total net assets, but resulted in a \$168,976 increase in cost of securities and a corresponding \$168,976 decrease in net unrealized appreciation, based on securities held by the Trust on December 1, 2001.

The effect of this change for the six months ended May 31, 2002 was to increase net investment income by \$36,781, decrease net unrealized appreciation by \$35,241, and increase net realized loss by \$1,540. The Statement of Changes in Net Assets and the Financial Highlights for prior periods have not been restated to reflect this change.

### DISTRIBUTIONS TO SHAREHOLDERS:

Distributions to common shareholders are recorded on the ex-date.

The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the Trust's capital accounts to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on May 31, 2002 was 1.60%. For the six months ended May 31, 2002, the Trust declared dividends to Auction Preferred shareholders amounting to \$453,005 representing an average APS dividend rate for such period of 1.52%.

NOTE 2. FEE AND COMPENSATION PAID TO AFFILIATES

MANAGEMENT FEE:

Colonial Management Associates, Inc. (the "Advisor") is the investment advisor of the Trust and furnishes accounting and other services and office facilities for a monthly fee equal to 0.65% annually of the Trust's average weekly net assets.

11

### BOOKKEEPING FEE:

The Advisor is responsible for providing pricing and bookkeeping services to the Trust under a Pricing and Bookkeeping Agreement. Under a separate agreement (the "Outsourcing Agreement"), the Advisor has delegated those functions to State Street Bank and Trust Company ("State Street"). The Advisor pays fees to State Street under the Outsourcing Agreement.

Under its pricing and bookkeeping agreement with the Trust, the Advisor receives from the Trust an annual flat fee of \$10,000, paid monthly, and in any month that the Trust's average weekly net assets are more than \$50 million, a monthly fee equal to the average weekly net assets of the Trust for that month multiplied by a fee rate that is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement.

### OTHER:

The Trust pays no compensation to its officers, all of whom are employees of the Advisor or its affiliates.

The Trust's Independent Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Trust's assets.

The Trust has an agreement with its custodian bank under which \$509 of custody fees were reduced by balance credits for the six months ended May 31, 2002. The Trust could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

### NOTE 3. PREFERRED SHARE OFFERING

The Trust currently has outstanding 2,400 APS. The APS are redeemable at the option of the Trust on any dividend payment date at the redemption price of \$25,000 per share, plus an amount equal to any dividends accumulated on a daily basis unpaid through the redemption date (whether or not such dividends have been declared).

Under the Act, the Trust is required to maintain asset coverage of at least 200% with respect to the APS as of the last business day of each month in which any APS are outstanding. Additionally, the Trust is required to meet more stringent asset coverage requirements under the terms of the APS and in accordance with the guidelines prescribed by the rating agencies. Should these requirements not be met, or should dividends accrued on the APS not be paid, the Trust may be restricted in its ability to declare dividends to common shareholders or may be required to redeem certain of the APS. At May 31, 2002, there were no such restrictions on the Trust.

Certain reclassifications have been made relating to the presentation of the APS in the Statement of Changes in Net Assets for the year ending November 30, 2001 and the financial highlights for the year ending November 30, 2001 and 2000 to conform to current requirements.

### NOTE 4. PORTFOLIO INFORMATION

#### INVESTMENT ACTIVITY:

During the six months ended May 31, 2002, purchases and sales of investments, other than short-term obligations, were \$4,838,991 and \$6,020,190, respectively.

Unrealized appreciation (depreciation) at May 31, 2002, based on cost of investments for federal income tax purposes, was:

Net	unrealized	appreciation	\$ 6,995,167
Gross	unrealized	depreciation	(4,730,175)
Gross	unrealized	appreciation	\$ 11,725,342

### OTHER:

The Trust had greater than 10% of its net assets at May 31, 2002, invested in New York, Texas and Massachusetts, collectively.

There are certain risks arising from geographic concentration in any state. Certain revenue or tax related events in a state may impair the ability of certain issuers of municipal securities to pay principal and interest on their obligations.

The Trust may focus its investments in certain industries, subjecting it to greater risk than a trust that is more diversified.

The Trust may invest in municipal and Treasury bond futures contracts and purchase and write options on futures. The Trust may invest in these instruments to hedge against the effects of changes in the value of portfolio securities due to anticipated changes in interest rates and/or market conditions, for duration management, or when the transactions are economically appropriate to the reduction of risk inherent in the management of the Trust and not for trading purposes. The use of futures contracts and options involves certain risks, which include (1) imperfect correlation between the price movement of the instruments and the underlying securities, (2) inability to close out positions due to different trading hours, or the temporary absence of a liquid market, for either the instrument or the underlying securities or (3) an inaccurate prediction by the Advisor of the future direction of interest rates. Any of these risks may involve amounts exceeding the amount recognized in the Trust's Statement of Assets and Liabilities at any given time.

Upon entering into a futures contract, the Trust deposits cash or securities with its custodian in an amount sufficient to meet the initial margin requirement. Subsequent payments are made or received by the Trust equal to the daily change in the contract value and are recorded as variation margin payable or receivable and offset in unrealized gains or losses. The Trust recognizes a realized gain or loss when the contract is closed or expires. Refer to the Trust's Investment Portfolio for a summary of open futures contracts at May 31, 2002.

- (a) The Trust changed its fiscal year end from December 31 to November 30.
- (b) Effective December 1, 2001, the Trust adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting discount on all debt securities. The effect of this change, for the six months ended May 31, 2002, was to increase the ratio of net investment income to average net assets from 7.11% to 7.17% and increase the ratio of net investment income (adjusted for dividend payments to preferred shareholders) from 6.39% to 6.45%. The impact to net investment income and net realized and unrealized loss per share was less than \$0.01. Per share data and ratios for periods prior to May 31, 2002 have not been restated to reflect this change in presentation.
- (c) Per share data was calculated using average shares outstanding during the period.
- (d) The per share net investment income amount does not reflect the period's reclassification of differences between book and tax basis net investment income.
- (e) Rounds to less than \$0.01 per share.
- (f) Total return at market value assuming all distributions reinvested at prices calculated in accordance with the Dividend Reinvestment Plan.
- (g) Not annualized.
- (h) The benefits derived from custody credits and directed brokerage arrangements, if applicable, had no impact.
- (i) Ratios reflect average net assets available to common shares only.
- (j) Annualized.

(k) Ratios reflect reduction for dividend payments to preferred shareholders.

#### SHAREHOLDER MEETING RESULTS

#### RESULTS OF ANNUAL MEETING OF SHAREHOLDERS

On May 22, 2002, the Annual Meeting of Shareholders of the Trust was held to conduct a vote for or against the approval of the following Items listed on the Trust's Proxy Statement for said Meeting. On March 1, 2002, the record date for the Meeting, the Trust had 11,509,000 common shares outstanding. The votes cast were as follows:

	FOR	WITHHELD
PROPOSAL 1:		
ELECTION OF TRUSTEES:		
Richard W. Lowry	10,566,451	149,447
William E. Mayer	10,571,193	144,704
Anne-Lee Verville	10,565,568	150,330

On March 1, 2002, the record date for the Meeting, the Trust had 2,400 preferred shares outstanding. The votes cast were as follows:

	FOR	WITHHELD
PROPOSAL 1:		
ELECTION OF TRUSTEES:		
Richard W. Lowry	2,045	0
Salvatore Macera	2,045	0
Charles Nelson	2,045	0
Thomas E. Stizel	2,045	0
Anne-Lee Verville	2,045	0

### DIVIDEND REINVESTMENT PLAN

As a shareholder in the Trust you are eligible to participate in the Dividend Reinvestment Plan.

15

The Trust generally distributes net investment income monthly and capital gains annually. Under the Trust's Dividend Reinvestment Plan (the "Plan") all distributions will be reinvested automatically in additional shares of the Trust, unless the shareholder elects to receive cash or the shares are held in broker or nominee name and a reinvestment service is not provided by the broker or nominee. All cash distributions will be mailed by check directly to the record holder by the dividend paying agent.

If the market price of the shares on the distribution payment date is equal to or greater than the net asset value, Plan participants will be issued shares at

the higher of net asset value or 95% of the market price. The aggregate market value of the shares may constitute income to shareholders for federal income tax purposes. However, if the market price of the shares is less than the net asset value, shares will be bought as soon as practicable (but no more than 30 days after the distribution, except as may be required to comply with federal securities laws) in the open market for the accounts of Plan participants. If, during this purchase period, the market price surpasses the net asset value, the average per share price paid may exceed the net asset value of the shares, resulting in the acquisition of fewer shares than if the distribution had been in newly-issued shares.

All Plan accounts receive written confirmations of all transactions. Shares purchased under the Plan are held in uncertificated form. Each shareholder's proxy includes shares purchased pursuant to the Plan. The automatic reinvestment of distributions does not relieve participants of any income tax payable on the distributions.

Fees and expenses of the Plan other than brokerage charges are incurred on shares issued directly by the Trust. Participants will bear a pro-rata share of brokerage charges incurred on open market purchases.

A Plan participant may terminate his or her participation by written notice to the Plan agent. The Plan may be amended or terminated on 30 days written notice to the Plan participants. All correspondence concerning the Plan should be directed to State Street Bank and Trust Company\*, the Plan agent, by mail at P.O. Box 8200, Boston, MA 02266-8200 or by phone at 1-800-426-5523.

\* EquiServe Trust Company, N.A. currently serves as Agent under the Dividend Reinvestment Plan.
