London, August 2, 2005 - AMVESCAP reported that profit before tax for the six months ended June 30, 2005 amounted to (pound)119.3 million (\$213.5 million) compared to (pound)138.1 million (\$250.0 million) for the first six months of 2004. The 2004 results included a gain of (pound)6.4 million arising from the sale of the U.K. business of Atlantic Wealth Management. Operating profit for the six months ended June 30, 2005 amounted to (pound)141.2 million (\$252.7 million), compared to (pound)147.8 million (\$267.5 million) for the first six months of 2004. Revenues totaled (pound)581.5 million (\$1,040.9 million) in the first half of 2005, compared to (pound)577.1 million (\$1,044.6 million) in 2004. ++ For the convenience of the reader, pounds sterling for the six months ended June 30, 2005 have been translated to US dollars using \$1.79 per (pound)1.00 (2004: \$1.81 per (pound)1.00). References to "\$" in this release are to U.S. dollars unless otherwise indicated.

Commenting on the results, Chairman Charles W. Brady said, "We have had good profit growth in our Canadian, U.S. Institutional and U.K. businesses, in the first half of 2005. These results have been offset by weakness in the U.S. mutual fund business. Actions during the first half of 2005, including the sale of our retirement business and our continuing efforts to increase the efficiency of our shared operating platforms have strengthened the company for the future.

AMVESCAP remains focused on improving investment performance and maintaining the highest standards of client service." Mr. Brady added, "With the appointment of Marty Flanagan as Chief Executive Officer, AMVESCAP has the right leadership, resources and people to take advantage of the significant industry opportunities available globally for an independent company focused solely on investment management."

Effective January 1, 2005, AMVESCAP began recording its results of operations under International Financial Reporting Standards ("IFRS"). Prior to this date,

Edgar Filing: AMVESCAP PLC/LONDON/ - Form 6-K

AMVESCAP prepared its consolidated financial statements under U.K. Generally Accepted Accounting Practice ("U.K. GAAP"). The most significant changes affecting AMVESCAP's financial reporting due to the IFRS transition are:

- o The cessation of goodwill amortization (IFRS 3) and redenomination of goodwill to the currency of the underlying acquired entities (IAS 21)
- o The inclusion of a fair value charge in respect of outstanding employee share options granted after November 7, 2002 (IFRS 2)
- o The replacement of existing charges for awards under certain equity-based compensation plans with fair value charges spread over revised time periods (IFRS 2)
- o The inclusion in the balance sheet of all employee benefit liabilities (IAS 19)

The underlying business transactions and cashflows of AMVESCAP did not change upon transition to IFRS. The transition to IFRS resulted in the reduction of total shareholders' funds under U.K. GAAP at January 1, 2004 (transition date) of (pound)118 million. This reduction is due primarily to the redenomination of goodwill and management contract intangible assets into the currency of the underlying acquired entities. Under U.K. GAAP, these balances were recorded in pounds sterling. For the year ended December 31, 2004, the transition to IFRS resulted in the addition of (pound)151 million to profit for the year, primarily due to the cessation of goodwill amortization previously recorded under U.K. GAAP. Diluted earnings per share for the six months ended June 30, 2004 was 11.0p under IFRS, compared with 1.8p under U.K. GAAP. Diluted earnings per share under U.K. GAAP before goodwill amortization was 11.2p for the six months ended June 30, 2004. See Note 8 for further details.

AMVESCAP's first Annual Report under IFRS will be for the year ended December 31, 2005. The information presented in this earnings release is subject to the ongoing development of IFRS.

Notes

1. Accounting policies

The accounting policies used in the preparation of the earnings release follow International Financial Reporting Standards ("IFRS") in effect as of the date of this release. The comparative period has been restated to apply these IFRS on a consistent basis (see Note 8). The most significant changes due to the IFRS transition are:

- o The cessation of goodwill amortization (IFRS 3) and redenomination of goodwill to the currency of the underlying acquired entities (IAS 21)
- o The inclusion of a fair value charge in respect of outstanding employee share options granted after November 7, 2002 (IFRS 2)
- o The replacement of existing charges for awards under certain equity-based compensation plans with fair value charges spread over revised time periods (IFRS 2)
- o The inclusion in the balance sheet of all employee benefit liabilities

Edgar Filing: AMVESCAP PLC/LONDON/ - Form 6-K

(IAS 19)

AMVESCAP's first Annual Report under IFRS will be for the year ended December 31, 2005. The information presented in this earnings release is subject to the ongoing development of IFRS; however the policies applied to the information in this earnings release are consistent with those that are expected to be applied in the 2005 Annual Report. Please refer to www.amvescap.com for a more detailed discussion of these policies.

2. Adoption of accounting standards

The Group has adopted IAS 32, "Financial Instruments: Disclosure and Presentation" and IAS 39, "Financial Instruments: Recognition and Measurement" as of January 1, 2005. These standards require that financial assets and liabilities be recognized on the balance sheet and accounted for according to their underlying classification. Shareholders equity increased by (pound)15.2 million as a result of these changes primarily arising from the recognition of net unrealized gains on investments classified as available for sale.

3. Taxation

The taxation charge is primarily due to overseas taxation. A significant proportion of the tax charge is expected to arise from U.S. operations. The estimated effective tax rate is 35.7% in 2005 (2004: 35.6%).

4. Earnings per share

Basic earnings per share is based on the weighted average number of ordinary and exchangeable shares outstanding during the respective periods excluding shares purchased and held by employee share ownership trusts. Diluted earnings per share takes into account the effect of the potential issuance ordinary shares.

IFRS Transition Adjustments:

Goodwill and intangibles. The Group has chosen to apply IFRS 3 prospectively from the date of transition. This has resulted in the value of goodwill arising from previous acquisitions being frozen at the value held on the Group balance sheet at January 1, 2004 and the reversal of any amortization charged in 2004. The Group has elected to apply IAS 21 retrospectively to its goodwill and intangible asset balances, which were previously recorded in pounds sterling from their respective acquisition dates. The result of this application is that the goodwill and intangible assets have been redenominated into their underlying currencies and will subsequently be re-measured each reporting date for the effect of changes in foreign exchange rates.

Share-based payment. The Group will recognize a charge in the Profit and Loss Account for the fair value of outstanding share awards granted to employees after November 7, 2002. The charge has been calculated using a stochastic option valuation model and will be charged over the relevant vesting periods, adjusted to reflect expected and actual levels of vesting.

Defined benefit obligation, net. The Group will recognize the net liability for defined benefit post retirement plan schemes on the balance sheet and will take actuarial gains and losses on a systematic basis to the Profit and Loss Account, in accordance with the permitted methods of recognition under IAS 19.

Sale of business. During 2004, the Group disposed of its U.K. and Jersey businesses of Atlantic Wealth Management and included the previously written off goodwill related to this business in the calculation of the net gain resulting from the sale. Under IFRS 1 goodwill previously deducted from equity is not recognized in the opening balance sheet and that goodwill is not transferred into the Profit and Loss Account upon disposal of the business. This had the effect of increasing the gain reported under U.K. GAAP.

Dividends. The Group will recognize dividends declared after the balance sheet date in the reporting period in which they are declared, as they represent non-adjusting events after the balance sheet date.

Other. Other adjustments upon transition to IFRS include the recognition and establishment of accruals related to compensated absences, foreign
