REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors, Plan Administrator and Plan Participants of  
Callon Petroleum Company Employee Savings and Protection Plan

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of Callon Petroleum Company Employee Savings and Protection Plan (the “Plan”) as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017 and the related notes to the financial statements (collectively, the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016 and the changes in net assets available for benefits for the year ended December 31, 2017, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Plan in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Report on Supplemental Information

The supplemental information in the accompanying schedule of assets (held at end of year) as of December 31, 2017 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedule is fairly stated in all material respects in relation to the financial statements as a whole.

/s/ HORNE LLP

We have served as the Plan's auditor since 2001.

CALLON PETROLEUM COMPANY  
EMPLOYEE SAVINGS AND PROTECTION PLAN  
Year Ended December 31, 2017

NOTES TO THE FINANCIAL STATEMENTS

Note 1. Description of the Plan

The following description of the Callon Petroleum Company Employee Savings and Protection Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

Employees of Callon Petroleum Company (the “Company”) become eligible to participate in the Plan on the first day of the month following six months of service and attainment of age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Effective January 1, 2018, employees become eligible to participate in the Plan on the first day of the month following their employment date or attainment of age twenty-one.

Contributions

Employee contributions/deferrals. Each participant may make voluntary before-tax or Roth contributions of 1.0% to 99.0% of his or her qualified yearly earnings as defined by the Plan, subject to Internal Revenue Code (“IRC”) limitations for the current year. Employees expected to attain age 50 before the close of the taxable year are permitted to contribute additional amounts, or make catch-up contributions, of his or her qualified yearly earnings up to a prescribed maximum in addition to the voluntary before-tax, Roth, and after-tax maximums.

Employer non-matching and matching contributions. For the year ended December 31, 2017, the Company contributed, in relation to each participating employee’s eligible compensation, a 2.5% non-matching contribution in cash and a 2.5% non-matching contribution in the form of the Company’s stock unit fund. The Company also made a matching contribution at the rate of 0.625% in cash for every 1.0% that the participant deferred, limited to a maximum matching contribution by the Company of 5.0% in cash.

Rollover contributions

At the discretion of the Plan administrator, a participant in the Plan who is currently employed may be permitted to deposit into the Plan distributions received from other plans and certain IRAs. Such a deposit is called a “rollover”. This rollover is accounted for in a “rollover account,” and is 100% vested by the depositing participant. The participant may withdraw amounts in the “rollover account” only when an otherwise allowable distribution is permitted under the Plan.

Participant accounts

Each participant’s account is credited with the participant’s salary deferral, the Company’s matching and non-matching contributions, and an allocation of the Plan earnings thereon. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Investment options

Contributions are directed by participants, including employer cash matching and non-matching contributions, into any of the investment options offered. Participants may change their investment options at any time. However, participants are subject to restrictions on trading shares of the Company's common stock held in the Company's stock unit fund during established blackout periods in accordance with applicable securities laws of the Securities and Exchange Commission. Participants will generally receive advance notice of a blackout period and its anticipated end date.

#### Vesting

Participants are immediately vested in all contributions to the Plan made on their behalf including their voluntary contributions plus actual earnings thereon and in the Company's contributions and earnings thereon.

#### Notes receivable from participants

Notes receivable from participants ("loans") are available to participants at a minimum amount of \$1,000. The maximum amount of any new loans, when added to the outstanding balance of existing loans from the Plan, is limited to the lesser of (a) \$50,000 reduced by the excess, if any, of the participant's highest outstanding balance of loans from the Plan during the preceding twelve month period or (b)

Table of Contents

CALLON PETROLEUM COMPANY  
EMPLOYEE SAVINGS AND PROTECTION PLAN  
Year Ended December 31, 2017

one-half of the participant's vested interest in qualifying investments within the Plan. The Plan allows participants to have up to three loans consisting of three regular loans or two regular loans and one residential loan.

Loans bear interest at a fixed rate, which is comprised of the U.S. Prime Interest Rate plus a 1.0% adjustment factor. At December 31, 2017, the U.S. Prime Interest Rate was 4.5%. Participants have up to five years to repay the loan unless it is for a principal residence, in which case the repayment period is up to 10 years. Participants may repay the loan by having an amount withheld from their compensation each pay period. Each loan is collateralized by the borrowing participant's vested account balance; however, additional collateral may also be required at the discretion of the Plan administrator.

Payment of benefits

Benefits in the form of distributions are paid from the vested portion of a participant's balance (1) upon termination, (2) normal retirement, (3) disability, (4) death of the participant, or (5) under certain, limited circumstances, in-service withdrawals, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service ("IRS") and all requirements must be met before requesting a hardship withdrawal. Upon termination of service, a participant may elect to (a) receive a lump sum equal to the value of the participant's vested interest in his or her account (b) receive installments over a period not to exceed the participant's or beneficiary's assumed life expectancy or (c) receive a partial withdrawal.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Certain prior year amounts may have been reclassified to conform to current year presentation.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for the fully benefit responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value

measurements.

Investment security transactions are accounted for on the date the securities are purchased or sold (trade date). Interest income is recorded as it is earned. Dividends are recorded on the ex-dividend date. Realized and unrealized gains and losses on the Plan's investments bought and sold as well as held during the year are included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Notes receivable from participants

Loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Table of Contents

CALLON PETROLEUM COMPANY  
EMPLOYEE SAVINGS AND PROTECTION PLAN  
Year Ended December 31, 2017

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses for maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable and payment of benefits are charged directly to the participant's account and are included in administrative expenses. The participants incurred expense of \$52,734 for fees related to the administration of notes receivable from participants and payment of benefits.

Note 3. Company Stock Unit Fund

The value of a unit of the Company stock unit fund reflected the market value of shares of Callon Petroleum Company's common stock ("Company Stock"), which is valued at the closing price reported on the active market on which Company Stock is traded, and cash held by the fund in a stock purchase account ("SPA"). As of December 31, 2017, the Company stock unit fund was made up of 469,311 shares of Company Stock and \$1,180 in the SPA. As of December 31, 2016, the Company stock unit fund was made up of 423,407 shares of Company Stock and \$1,131 in the SPA.

Note 4. Tax Status of Plan

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the IRC, and accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the IRS dated September 1, 2014. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The Plan had no uncertain tax positions at December 31, 2017 or 2016. If interest and penalties are incurred related to uncertain tax positions, such amounts are recognized in income tax expense. Tax periods for all fiscal years after 2013 remain open to examination by the federal and state taxing jurisdictions to which the Plan is subject.

Note 5. Related Party Transactions

The investments in mutual funds and the guaranteed investment contract are managed by Fidelity. Fidelity is the custodian of the Plan assets and therefore, transactions in these investments, as well as investments in employer securities and notes receivable from participants, qualify as exempt party-in-interest transactions.

Fees paid by the Plan to Fidelity for certain administrative services totaled \$52,734 for the year ended December 31, 2017.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least

reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7. Reconciliation of Financial Statements to Form 5500

The financial information included in the Plan's Form 5500 is reported on the cash basis of accounting. Therefore, reconciliations are included to reconcile the net assets available for benefits and the net decrease in net assets available for benefits per the financial statements to the Form 5500.

Table of Contents

CALLON PETROLEUM COMPANY  
 EMPLOYEE SAVINGS AND PROTECTION PLAN  
 Year Ended December 31, 2017

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31,	
	2017	2016
Net assets available for benefits per the financial statements	\$26,774,098	\$27,599,397
Employer contribution receivable	(87,832 )	(57,440 )
Net assets available for benefits per the Form 5500	\$26,686,266	\$27,541,957

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements to the Form 5500:

	Year Ended December 31, 2017
Net decrease in net assets available for benefits per the financial statements	\$ (825,299 )
Less: Current year employer contribution receivable	(87,832 )
Plus: Prior year employer contribution receivable	57,440
Net decrease in net assets available for benefits per the Form 5500	\$ (855,691 )

Note 8. Fair Value Measurements

The fair value hierarchy outlined in the relevant accounting guidance gives the highest priority to Level 1 inputs, which consist of unadjusted quoted prices for identical instruments in active markets. Level 2 inputs consist of quoted prices for similar instruments. Level 3 valuations are derived from inputs that are significant and unobservable, and these valuations have the lowest priority.

The following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price (Level 1).

Company stock unit fund: The value of a unit of the Company stock unit fund reflects the market value of Company common stock, which is valued at the closing price reported on the active market on which the Company’s common stock are traded, and cash held by the fund in a stock purchase account (“SPA”) on the same date (Level 1). Trading activity can result in fractional shares that are not recognized by the market. These fractional shares are instead invested as cash in the SPA and utilized to facilitate transaction activity in the Company stock unit fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2017:

Level 1	Level 2	Level 3
---------	---------	---------

Edgar Filing: CALLON PETROLEUM CO - Form 11-K

Mutual funds	\$17,092,127	\$	—	—
Company stock unit fund	5,703,310	—	—	—
Total assets, at fair value	\$22,795,437	\$	—	—

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	
Mutual funds	\$13,799,947	\$	—	—
Company stock unit fund	6,508,897	—	—	—
Total assets, at fair value	\$20,308,844	\$	—	—

Table of Contents

CALLON PETROLEUM COMPANY  
EMPLOYEE SAVINGS AND PROTECTION PLAN  
Year Ended December 31, 2017

Note 9. Guaranteed Investment Contract ("GIC")

As of December 31, 2017, the Plan maintained one GIC related investment option, the Federated Capital Preservation Fund. The contract underlying this investment option is considered to be fully benefit-responsive in accordance with ASC Topic 962.

Federated Investors Trust Company's determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder. The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.
