#### 1. The Group's business and general information

IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA", "the Company", "Us" or "the Society") was founded in 1943 and is engaged in a diversified range of real estate activities in Argentina since 1991.

IRSA and its subsidiaries are collectively referred to hereinafter as "the Group".

As of March 31, 2015, the Group operates in six business segments. See Note 6 to the Consolidated Financial Statements as of June 30, 2014 for a description of such segments.

The group's real estate business operations are conducted primarily through IRSA and its principally subsidiary, IRSA Propiedades Comerciales S.A. ("IRSA Propiedades Comerciales" formerly company due to change of corporate name from Alto Palermo S.A. (APSA)). Through IRSA Propiedades Comerciales and IRSA, the Group owns, manages and develops shopping centers across Argentina, a portfolio of office and other rental properties in the Autonomous City of Buenos Aires, and it entered the US real estate market in 2009, mainly through the acquisition of non-controlling interests in office buildings and hotels. Through IRSA or IRSA Propiedades Comerciales, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these consolidated financial statements to denote investment, development and/or trading properties activities.

During fiscal year 2014, the Group made an investment in the Israeli market, through Dolphin Fund Ltd. ("DFL") and Dolphin Netherlands B.V. ("DN B.V.", and together with DFL "Dolphin"), in IDB Development Corporation (IDBD) (an Israeli Company), of an initial interest of 26.65%. As of March 31, 2015 the indirect equity interest in IDBD amounts to 49.0%. IDBD is one of the Israeli biggest and most diversified investment groups, which is involved, through its subsidiaries, in several markets and industry, including real estate, retail, agribusiness insurance, telecommunications, etc.; controlling companies as: Clal Insurance (Insurance Company), Cellcom (Mobile phone services), Adama (Agrochemicals), Super-Sol (supermarket), PBC (Real Estate), among others. IDBD went public in Tel Aviv Exchange in May, 2014.

The activities of the Group's segment "Financial operations and others" is carried out mainly through Banco Hipotecario S.A. ("BHSA"), where we have a 29.99% interest (without considering treasury shares of our own). BHSA is a commercial bank offering a wide variety of banking activities and related financial services to individuals, small and medium-sized companies and large corporations, including the provision of mortgaged loans. BHSA's shares are listed on the Buenos Aires Stock Exchange ("BASE"). Besides that, the Group has a 43.15% interest in Tarshop S.A ("Tarshop"), which main activities are credit card and loan origination transactions.

2. Basis of preparation of the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

#### Acquisition of assets carried out between entities under common control

The Group has elected to recognize acquisition of assets or group of assets carried out between entities under common control who also qualify as "Business Combination" according to IFRS 3, using acquisition method.

Total or partial disposal of foreign operation

The disposal of a Group's interest in any foreign operation amounts to any reduction of such ownership interest in the operation. The Group may fully or partially dispose its interest in foreign operation through sale, liquidation or return of contributed capital.

In the case of total or partial disposals of foreign operations and once such disposal becomes effective, the Group proportionally reclassifies the disposal made, the accumulated exchange differences related to the foreign operations recognized under Other comprehensive income and accumulated under a separate item in shareholders' equity.

#### Onerous contract

An onerous contract is defined under IAS 37 (Provisions, Contingent Liabilities and Contingent Assets) as a contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. Current obligations under an onerous contract are recognized and valued in the Group financial statements as a provision.

# 2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Consolidated Financial Statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the Annual Consolidated Financial Statements for the year ended June 30, 2014, save for changes in accrued income tax, provision for legal claims, allowance for bad debts and accrued supplementary rental.

## 2.4. Comparative Information

Balance items as of March 31, 2014 and June 30, 2014 shown in these financial statements for comparative purposes arise from Consolidated Financial Statements then ended. Certain reclassifications have been made in order to present figures comparatively with those of this period.

#### 3. Seasonal effects on operations

The operations of the Group's shopping centers are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and year-end holidays (December) when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also affect the business. As a consequence, a higher level of revenues is generally expected in the second half of the year rather than the first in shopping center operations.

- 5. Financial risk management and fair value estimates
- 5.1 Financial risk

The group's diverse activities are exposed to a variety of financial risk: market risk (including foreign currency risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

There have been no changes in the risk management or risk management policies applied by the Group since year end.

#### 6. Segment information

 $\cdot$  The "Offices and others" segment includes the operating results of the Group's lease revenues of office and other rental space and other service revenues related to the office activities.

 $\cdot$  The "Sales and Development" segment includes the operating results of the sales of Undeveloped parcels of land and/or trading properties, as the results related with its development and maintenance. Also included in this segment are the results of the sales of real property intended for rent.

 $\cdot$  The "Hotel" segment includes the operating results of the Group's hotels mainly comprised of room, catering and restaurant revenues.

#### 6. Segment information (Continued)

The Group's Executive Board periodically reviews the results and certain asset categories corresponding to these segments. The valuation criteria used in preparing this information are consistent with IFRS standards used for the preparation of the consolidated financial statements, except for the investments in joint ventures: Cyrsa S.A., Nuevo Puerto Santa Fe S.A., Puerto Retiro S.A., Baicom Networks S.A. and Quality Invest S.A., which are reported to the Group's Executive Board, applying proportional consolidation method. Under this method the income/loss generated and assets, are reported in the income statement line-by-line rather than in a single item as required by IFRS. Under this method, each reported asset contains the Group's proportionate share in the same asset class in these joint ventures. As an example, the amount of investment properties reported to the Executive Board includes (i) the balance of investment properties of joint ventures. Management believes that the proportional consolidation method provides more useful information to understand the business return. Moreover, operating results of Entertainment Holding S.A. ("EHSA") joint venture is accounted for under the equity method. Management believes that, in this case, this method provides more adequate information for this type of investment, given its low materiality and considering it is a company without direct trade operations, where the main asset consists of an indirect interest of 25% of la Rural S.A..

The following asset categories are reviewed by the Group's Executive Board: investment properties, property, plant and equipment; trading properties, goodwill, rights to receive future units through barter agreements, inventories, investment in associates and investment in EHSA joint venture. The sum of these assets, classified by business segment, is reported under "assets by segment". Assets are allocated to each segment based on the operations and/or their physical location.

Goods and services exchanged between segments are calculated on the basis of market prices. Intercompany transactions between segments, if any, are eliminated.

Restrictions, commitments and other matters in respect of associates

#### IDBD

As part of the purchase agreement, Dolphin and ETH have agreed to participate jointly and severally in capital increases resolved by the Board of Directors of IDBD to carry out its business plan during 2014 and 2015, in amounts of at least NIS 300 million in 2014 and NIS 500 million in 2015 (approximately equal to US\$ 75.4 million and US\$ 125.6 million at the exchange rate prevailing on March 31, 2015). As of March 31, 2015, Dolphin has made a total capital contribution of NIS 595.1 million (which includes NIS 400 million as advance payment of the commitment assumed) and ETH has contributed NIS 203.5 million in IDBD. As a result, Dolphin has completed the required contributions, while IDBD is still claiming ETH for the payment of the remaining balance committed by ETH for a total of NIS 196.5 million, with joint and several liability of Dolphin.

### 9. Interests in associates (Continued)

Furthermore, under the purchase agreement, Dolphin and ETH have agreed jointly and severally to make one or more Tender Offers for the purchase of shares in IDBD for an aggregate amount of NIS 512.09 million (equal to approximately US\$ 128.7 million at the exchange rate prevailing on March 31, 2015), based on the following scheme:
(i) before December 31, 2015, an amount of at least NIS 249.8 million at a share price of NIS 7.798 (adjusted for Rights Offering as of March 31, 2015, subject to adjustments) and (ii) before December 31, 2016 an amount of at least NIS 512.09 million less the tender offer conducted in 2015, at a share price of NIS 8.188 (adjusted for Rights Offering as of March 31, 2015, subject to adjustments). To secure compliance with the tender offers, an aggregate amount of 34,130,119 shares of IDBD were pledged as of March 31, 2015. Additionally, as of March 31, 2015, 49,695,135
shares, 23,950,072 warrants Series 4, 22,752,569 warrants Series 5 and 20,357,561 warrants Series 6 of IDBD held by Dolphin were deposited in an escrow account and pledged, and they should be shortly transferred to an account without restrictions. As of the balance sheet date, Tender Offers have not been carried out.

On the other hand, the purchase agreement provides that Dolphin and ETH shall jointly and severally pay to creditors who participated in the restructuring arrangement indicated above the additional sum of NIS 100 million (equal approximately to US\$ 26 million at the exchange rate prevailing on December 31, 2014), in the event that IDBD executes the sale of its equity interest in the subsidiary Clal Insurance Enterprises Holdings Ltd. before December 31, 2014 and provided that: (i) the sale price shall not be lower than NIS 4,200 million (equal to approximately US\$ 1,078 million at the exchange rate prevailing on December 31, 2014) and (ii) the transaction is closed before June 30, 2015, provided that IDBD has received by the latter date a payment of at least NIS 1,344 million (gross) (equal to approximately US\$ 345 million at the exchange rate prevailing on December 31, 2014). As of December 31, 2014, IDBD did not execute the sale of its interest in Clal Insurance Enterprises Holdings Ltd. Given that, as of December 31, 2014, IDBD did not perfect the above mentioned sale, the additional commitment assumed by Dolphin and ETH ceased to have effect.

On May 12, 2014, the shares of IDBD started to trade in the Tel Aviv Stock Exchange, Israel; as a result, all of the shares (including pledged shares) were held in trust at Bank Leumi Le-Israel to secure compliance with lock-up provisions of Chapter D of the Tel Aviv Stock Exchange Rules, whereby shares listed under an IPO (initial public offering) may not be freely disposed of for a term of 18 months, which are then released at a rate of 2.5% per month beginning on the fourth month of the IPO date.

Hence, in accordance with Tel Aviv Rules applicable as of March 31, 2015, 47,489,037 shares and 335,715 warrants of each of the Series 2 and 3 were still subject to lock-up provisions under the terms described above.

#### 9. Interests in associates (Continued)

Furthermore, as established in Note 4, Dolphin agreed to (i) exercise Series 4 of warrants for a total amount of NIS 150 million (equal to US\$ 37.6 million as of March 31, 2015) provided it is so requested by the Board of IDBD within 6 to 12 months of the Rights Offering date, and (ii) exercise the remaining warrants of Series 4, and Series 5 and 6 received as part of the Rights Offering, if two conditions are simultaneously met, to wit: (a) that IDBD and its lenders reach an agreement to amend some covenants, and (b) that the Commissioner of Capital Markets, Insurance and Savings of Israel approves control over Clal Insurance Company Ltd. ("Clal").

Finally, Dolphin agreed to a capital injection, directly or through any of its affiliates, to IDBD in an amount ranging between NIS 256 million and NIS 400 million, as follows: (i) NIS 256 million by exercising New Rights of Dolphin resulting from the Rights Offering; (ii) an additional investment (the "Additional Investment") in a sum equal to (a) the Maximum Immediate Payment less (b) the amount received by IDBD as a result of the Rights Offering, excluding the exercise of the New Warrants, but in no case will it exceed the amount of NIS 144 million. The Additional Investment would be made by Dolphin or any of its affiliates by exercising the additional rights to be acquired by them, or –should such rights not be acquired – by participating in another rights offering to be executed by IDBD. On February 10, 2015 Dolphin subscribed a total of NIS 391.6 million, with a remaining commitment to contribute NIS 8.4 million.

See Note 41 "Subsequent events".

#### BHSA

On October 31, 2014 the Bank was notified of Ruling 685 dated October 29, 2014 issued by the Superintendence of Financial Entities and Exchange Offices in proceedings conducted pursuant to Financial Investigation Case Number 1320, whereby the Bank and its officers were charged with alleged infringements to rulings on assistance to Non-Financial Public Sector, excess credit risk exposure to non-financial public sector, excess collateralization, failure to comply with minimum capital requirements and objections to the accounting treatment afforded to the transaction "Cer Swap Linked to PG08 and External Debt"; and moreover, delays in communicating the appointment of new members of the board and to file documentation related to new members of the board designated by the Shareholders' Meetings. Such a ruling assessed a fine in the amount of Ps. 4.04 million to BHSA and fines of diverse amounts to incumbent and former members of the Board and managers. Against such penalty, on November 25, 2014 BHSA and other affected parties filed a writ of appeal, as per the provisions of section 42 of the Financial Entities Act, which was sent by the BCRA to the National Court of Appeals in Administrative Litigation Matters, and will be decided by Division I of said Court of Appeals. Moreover, the same Division will also decide on motions for injunctions filed on December 30, 2014 by the Bank and the persons affected by the collection proceedings filed by the BCRA for the collection of penalties. Notwithstanding the expectations to get a judicial revocation of the penalties applied by the BCRA, Banco Hipotecario S.A. has set up an allowance equal to 100% of the penalty applied by the ruling.

Borrowing costs incurred during the nine-month period ended March 31, 2015 of Ps. 12,956, were capitalized at the rate of the Company's general borrowings, which amounts to 15%. Those costs correspond to Alto Comahue. Capitalization of financial costs has ceased since the completion of the shopping mall.

In respect of Arcos del Gourmet S.A., in December 2013, the Judicial Branch confirmed an injunction order that suspended the opening of the shopping center on the grounds that it did not have certain governmental permits in the context of two legal proceedings, where a final decision has been rendered for the company.

The plaintiff filed a petition for the continuation of the preliminary injunction by means of an extraordinary appeal of unconstitutionality which was by the lower and appellate courts; consequently, it filed an appeal with the CABA Higher Court of Justice, which so far has not rendered a decision.

15. Financial instruments by category

Determination of fair values

IFRS 9 defines the fair value of a financial instrument as the amount for which an asset could be exchanged, or a financial liability settled, between knowledgeable, willing parties in an arm's length transaction. All financial instruments recognized at fair value are allocated to one of the valuation hierarchy levels of IFRS 7. This valuation hierarchy provides for three levels.

In the case of Level 1, valuation is based on quoted prices (unadjusted) in active markets for identical assets and liabilities that the Company can refer to at the date of valuation. A market is deemed active if transactions of assets and liabilities take place with frequency and in sufficient quantity. Since a quoted price in an active market is the most reliable indicator of fair value, this should always be used if available. The financial instruments the Group has allocated to this level mainly comprise equity investments, mutual funds and mortgage bonds for which quoted prices in active markets are available. In the case of securities, the Group allocates them to this level when either a stock market price is available or prices are provided by a price quotation on the basis of actual market transactions.

In the case of Level 2, fair value is determined by using valuation methods based on inputs directly or indirectly observable in the market. If the financial instrument concerned has a fixed contract period, the inputs used for valuation must be observable for the whole of this period. The financial instruments the Group has allocated to this level mainly comprise interest rate swaps and foreign currency future contracts.

### IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued) (All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated) Free translation from the original prepared in Spanish for the publication in Argentina

### 15. Financial instruments by category (Continued)

In the case of Level 3, the Group uses valuation techniques not based on inputs observable in the market. This is only permissible insofar as no market data are available. The inputs used reflect the Group's assumptions regarding the factors which market players would consider in their pricing. The Group uses the best available information for this, including internal company data. The Group has allocated to this level shares and warrants of Supertel, the call option of Arcos del Gourmet S.A. (with a fair value of zero at the end of the period) and commitment to tender offer of shares in IDBD.

The Group's Finance Division has a team in place in charge of estimating valuation of financial assets required to be reported in the financial statements, including the fair value of Level-3 instruments. The team directly reports to the Chief Financial Officer ("CFO").

The CFO and the valuation team discuss the valuation methods and results upon the acquisition of an asset and, if necessary, on a quarterly basis, in line with the Group's quarterly reports.

According to the Group's policy, transfers among the several categories of valuation tiers are recognized when occurred, or when there are changes in the prevailing circumstances requiring the transfer.

### 15. Financial instruments by category (Continued)

Upon initial recognition (January, 2012), the consideration paid for the Shares and Warrants of Supertel was assigned to both instruments based on the relative fair values of those instruments upon acquisition. The fair values of these instruments exceeded the price of the transaction and were assessed using a valuation method that incorporates unobservable market data. Given the fact that the fair value of these instruments was estimated by applying the mentioned method, the Group did not recognize a gain of US\$ 7.9 million at the time of initial recognition. As of June 30, 2014, the fair value of the Warrants of Supertel determined using the mentioned technique was minor than the gain not recognized at the time of initial recognition; remaining thus the Warrants remain valued at an amount of zero.

According to Group estimates, all things being constant, a 10% decline in the price of the underlying assets of Shares and Warrants of Supertel (data observed in the market) of Level 3 as of March 31, 2015, would reduce pre-tax income by Ps. 28.5 million.

According to Group estimates, all things being constant, a 10% increase in the credit spread (data which is not observable in the market) of the Shares and Warrants of Supertel used in the valuation model applied to Level 3 financial instruments as of March 31, 2015, would increase pre-tax income by Ps. 1.8 million. The rate used as of March 31, 2015 was 13.94%.

When no quoted prices in an active market are available, fair values (particularly with derivatives) are based on recognized valuation methods. The Group uses a range of valuation models for the measurement of Level 2 and Level 3 instruments, details of which may be obtained from the following table:

Description	Pricing model	Pricing method	Parameters	Range

## 35. CNV General Ruling Nº 629/14 - Storage of documentation

On August 14, 2014, the Argentine Securities Exchange Commission (CNV) issued General Ruling N° 629 whereby it introduced amendments to rules related to storage and conservation of corporate books, accounting books and commercial documentation. In this sense, it should be noted that the Group has entrusted the storage of certain non-sensitive and old information to the following providers:

Storage of documentation	Location
Iron Mountain Argentina S.A.	Av. Amancio Alcorta 2482, C.A.B.A.
Iron Mountain Argentina S.A.	Pedro de Mendoza 2143, C.A.B.A.
Iron Mountain Argentina S.A.	Saraza 6135, C.A.B.A.
Iron Mountain Argentina S.A.	Azara 1245, C.A.B.A. (i)
Iron Mountain Argentina S.A.	Polígono Industrial Spegazzini, Au. Ezeiza-Cañuelas KM 45
Iron Mountain Argentina S.A.	Cañada de Gomez 3825 – C.A.B.A.

(i) On February 5, 2014 there was a widely known fire in Iron Mountain's warehouse. To the date of these financial statements, the Group has not been notified whether the documentation submitted has been actually affected by the fire and its condition after the accident. Nevertheless, based on the internal review carried out by the Group, duly reported to the Argentine Securities Exchange Commission on February 12, 2014, the information kept at the Iron Mountain premises that were on fire do not appear to be sensitive or capable of affecting normal business operations.

It is further noted that a detailed list of all documentation held in custody by providers, as well as documentation required in section 5 a.3) of section I, Chapter V, Title II of the RULES (2013 as amended) are available at the registered office.

# REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina through Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income and consolidated statement of cash flow of the Company.

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with the regulations of the International Accounting Standard No. 34.

- 2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements
- 2.1. Basis of preparation

The Unaudited Condensed Interim Financial Statements have been prepared in accordance with the Technical Resolution No. 26 of the Argentine Federation of Professional Councils of Economic Science ("FACPCE", as per its Spanish acronym) and with IAS 34 "Interim Financial Reporting". Furthermore, some additional issues were included as required by the Business Companies Act and/or regulations of the CNV, including supplementary information provided in the last paragraph of section 1, Chapter III, Title IV of General Ruling 622/13 of the CNV. Such information is included in the Notes to these Unaudited Condensed Interim Separate Financial Statements according to IFRS.

#### 2.2. Significant accounting policies

The principal accounting policies adopted for the preparation of these Unaudited Condensed Interim Financial Statements are consistent with those applied in the preparation of the information under RT 26 as of June 30, 2014, and are based on those IFRS in force as of June 30, 2014 (except for the accounting of investments in subsidiaries, associates and joint ventures, which are accounted for under the equity method as required in RT 26). In addition, the most significant accounting policies are described in the Annual Separate Financial Statements.

#### 2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimates and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the main significant judgments made by Management in applying the Company's accounting policies and the major sources of uncertainty were the same that the Company used in the preparation of financial statements as of and for the fiscal year ended June 30, 2014, save for changes in accrued income tax, provision for legal claims, allowance for bad debts and accrued supplementary rental.

### 2.4. Comparative Information

Balance items as of March 31, 2014 and June 30, 2014 shown in these financial statements for comparative purposes arise from financial statements then ended. Certain reclassifications have been made in order to present figures comparatively with those of this period.

## REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM SEPARATE FINANCIAL STATEMENTS

To the Shareholders, President and Directors of IRSA Inversiones y Representaciones Sociedad Anónima Legal address: Bolivar 108 – 1° floor Autonomous City Buenos Aires Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim separate financial statements attached of IRSA Inversiones y Representaciones Sociedad Anónima (hereinafter "the Company") which included the unaudited condensed interim separate statements of financial position as of March 31, 2015, and the unaudited condensed interim separate statements of income and comprehensive income for the nine and three-month periods ended March 31, 2015 and the unaudited condensed interim separate statements of cash flows for the nine-month period ended March 31, 2015 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2014 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with professional accounting standards of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) added by the National Securities Commission (CNV) to its regulations. Those standards differ from the International Financial Reporting Standards (IFRS) and, especially, from the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34) approved by the International Accounting Standard Board (IASB) and used for the preparation of the unaudited condensed interim consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima with its subsidiaries as to the aspects mentioned in note 2.1 to the unaudited condensed interim separate financial statements attached. Our responsibility is to express a conclusion based on the review that we have performed with the scope detailed in paragraph "Scope of our review".

Free translation from the original prepared in Spanish for publication in Argentina

## Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina through Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income, the separate statement of comprehensive income and separate statement of cash flow of the Company.

## Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with the regulations of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences for separate financial statements of a parent company.

(1) EBITDA: Operating Income plus Depreciation and Amortization, excluding stamp tax expenses incurred in the transfer of assets.

"Revenues were 24.1% higher than in the first nine months of the previous fiscal year, mainly explained by the "Shopping Centers" segment, whose revenues increased by 29.2%, and the "Offices" and "Hotels" segments, whose revenues increased by 25.5% and 24.7%, respectively, offset by lower revenues in the "International" segment due to the sale of the Madison building in September 2014.

"The Company's EBITDA decreased during the third quarter of 2015 by 21.3% compared to the same quarter of 2014 due to lower sales of investment properties. However, considering the first nine months of the previous fiscal year, EBITDA increased by 99.7%, reaching ARS 2,111.7 million, mainly due to the sale of Madison 183 building in the City of New York recorded in the first quarter of 2015, and the sale of various office floors in Maipú 1300, Libertador 498 and Bouchard Plaza buildings during the second quarter of 2015. Excluding the effect of these sales and the reversal of the cumulative translation adjustment generated in Rigby 183 as a result of the sale of Madison building for ARS 188.3 million, the Company's EBITDA rose 19.1% compared to the same nine-month period of the previous fiscal year, reaching ARS 1,122.4 million.

"Net Income for the first nine months of fiscal year 2015 was an ARS 163.4 million loss, explained mainly by lower financial results and an ARS 856.0 million loss generated by our investment in the Israeli company IDBD, whose stock prices decreased by 70.8%, from NIS 4.605 to NIS 1.344 and which is recorded at market value.

On March 17, 2015, we opened our fifteenth shopping center, "Alto Comahue", located in the City of Neuquén, in the Argentine Patagonian region. It has a total area of 35,000 square meters and 10,000 square meters of gross leaseable area, approximately 1,000 parking spaces, including roofed and semi-roofed areas, and a large entertainment and leisure area. The shopping center

features 130 stores from the most renowned brands in Argentina. It includes 6 cinema screens and a thematic restaurant, which will become operational in the next months.

In one of these parcels the development of a hotel is planned, while in the other, covering 18,000 sqm and owned by the company, a future housing development has been projected.

The investment made in this project amounted approximately to ARS 250 million.

#### IV. Sales and Developments

As measured by the ISAC (construction business synthetic indicator), the construction business grew by 5.3% during the first calendar quarter of 2015 compared to 2014, continuing with the upward trend observed during the last months due to a positive change in businessmen's expectations. As concerns the prices of new and used residential units, a slightly decreasing trend has been noted in terms of USD/sqm, with less real estate transactions closed. In our case, IRSA has a small number of units in its portfolio pending sale or execution of title deeds.

"During the nine-month period of fiscal year 2015 sales totaled ARS 11.5 million, 75.3% lower than in 2014, mainly due to lower sales of Condominios del Alto I and II in the City of Rosario by our subsidiary IRSA Propiedades Comerciales. Operating income and EBITDA increased due to the higher revenues from sales of investment properties, originated in the sales of several floors of Bouchard 551, Maipú 1300 and Libertador 498 buildings. In particular, during the third quarter, lower sales of investments properties were recorded compared to the same quarter of 2014.
