InterCept, Inc. to be Acquired by Fidelity National Financial

InterCept Postpones Annual Meeting Scheduled for September 14, 2004

Thursday, September 9, 7:30 am ET

ATLANTA, Sept. 9 /PRNewswire-FirstCall/ -- InterCept, Inc., a leading provider of banking technology products and services for financial institutions and other businesses (Nasdaq: ICPT), announced today the signing of a merger agreement with Fidelity National Financial, Inc. (NYSE: FNF), a Fortune 500 provider of products and outsourced services and solutions to financial institutions and the real estate industry, pursuant to which FNF will acquire InterCept for \$18.90 per share.

FNF is a financially strong, growing organization that will offer great opportunities for our employees and customers, said InterCept Chief Executive Officer John W. Collins. As part of a larger company with strong resources, InterCept will be able to expand its ability to provide financial institutions with the products and services they need to remain competitive in today's marketplace. This transaction will enhance InterCept's position in the marketplace and provide a strong foundation for future growth.

This is an exciting acquisition for FNF, said FNF Chairman and Chief Executive Officer William P. Foley, II. It continues our strategy of building more significant critical mass in our technology solutions for the domestic banking and credit union marketplace and provides FNF with an incremental 425 core processing customers and more than 700 additional item processing customers. These relationships provide not only a valuable stream of recurring revenue and earnings, but also significant revenue opportunities including offering InterCept's ATM/EFT, item processing and output solutions to FNF's existing client base, as well as providing FNF mortgage, banking and data and information products and services to InterCept's customers.

Under the terms of the definitive agreement, FNF has the option to pay the \$18.90 consideration in all cash or in a combination of cash and FNF stock. If FNF elects the stock and cash consideration option, InterCept shareholders will have the option to elect any combination of cash and stock, subject to proration such that the overall limitation

for the consideration in the transaction will be 75% cash and 25% in the form of FNF stock. The composition of the \$18.90 per share offer will be finalized in the proxy statement that will be distributed prior to the InterCept shareholder vote to approve the transaction. If FNF stock is issued as consideration, it will be calculated using a trailing ten-day average determined one day before the closing of the transaction.

The board of directors of InterCept has approved the transaction. Closing of the transaction is expected in the fourth quarter of 2004, subject to approval by InterCept shareholders and customary regulatory and other conditions. Jefferies & Company, Inc. acted as financial advisor to InterCept.

In light of the merger agreement, InterCept has rescheduled its annual shareholders meeting to November 8, 2004. At that meeting, shareholders of record as of September 15, 2004 will vote on the merger and for the election of directors of InterCept. If the merger is approved and closed, however, the directors elected at the annual meeting will not take office.
