ITEM 2.02 Results of Operations and Financial Condition.

Our press release dated February 15, 2005, concerning fourth quarter and full year 2004 financial results, furnished as Exhibit 99.1 to this report, is incorporated by reference herein. The press release contains certain measures (discussed below) which may be deemed "non-GAAP financial measures" as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended.

In the attached press release, we discuss net income, adjusted for the December 2004 TODCO secondary offering, the non-cash charge from the deconsolidation of TODCO relating to the tax sharing agreement between Transocean and TODCO and losses on early retirements of debt on a total and per share basis for the quarter ended December 31, 2004. We also discuss net income adjusted for the gains from the TODCO offerings, the gain on the sale of the semisubmersible SEDCO 602, the non-cash charge from the deconsolidation of TODCO relating to the tax sharing agreement between Transocean and TODCO, losses on early retirements of debt and TODCO IPO-related costs, on a total and per share basis for the twelve months ended December 31, 2004. In addition, we discuss net income, after adjusting for the effect of the restructuring of certain benefit plans in Nigeria on a total and per share basis for the quarter ended December 31, 2003. We also discuss net income, adjusted for the restructuring of certain benefit plans in Nigeria, non-cash charges for impairment of certain assets, losses on early retirements of debt, TODCO IPO related costs and the favorable resolution of a non-U.S. income tax liability, on a total and per share basis for the twelve months ended December 31, 2003. This information is provided because management believes exclusion of these items will help investors compare results between periods and identify operating trends that could otherwise be masked by these items. The most directly comparable GAAP financial measure, net income (loss), and information reconciling the GAAP and non-GAAP measures are included in the press release.

In the press release, we also discuss field operating income for our Transocean Drilling business segment for the quarters ended September 30, 2004 and December 31, 2004. We also discuss field operating income for our TODCO business segment from October 1, 2004 to December 17, 2004. Management believes field operating income is a useful measure of the operating results of a particular segment since the measure only deducts expenses directly related to a segment's operations from that segment's revenues. The most directly comparable GAAP financial measure, operating income before general and administrative expenses, and information reconciling the GAAP and non-GAAP measures are included in the press release.

In the press release, we also discuss net debt at December 31, 2003 and at December 31, 2004. This information is provided because management believes net debt provides useful information regarding the level of our indebtedness by reflecting the amount of indebtedness assuming cash and investments were used to repay debt. The most directly comparable GAAP financial measure, total debt, and the information reconciling the GAAP and the non-GAAP measures are included in the press release.
